## Heavy Snow Across Plains

**LITTLE PUPPY, BIG SNOWMAN**--The biggest snowman we saw on a tour of Abernathy Sunday was the one above, built at the Harland Downs residence, 103 Ave. E. No one was at home to pose with the huge snowman, so the little puppy, lower left, obliged to help give a contrast in his size with that of the big snowman.

A snowstorm whipped across the Plains last weekend, bringing a virtual halt to normal business activity Saturday, snarling traffic on streets and highways. The business "city" Saturday continued through Sunday, with most churches cancelling services, and Monday, when students and teachers had a day out of school while snow was clearing from the area under warm sunshine.

The snowstorm started Friday night and ended early Sunday morning. M. O. Hood, local weather observer, reported a total of one foot of snow: 8 inches March 15, 2 inches March 16 and 2 inches March 17 (days of measurement). The foot of snow brought the equivalent of 1.27 inches of moisture to the dry topsoil. Previous rainfall in March was .05 of an inch. The March total, added to February's 1.08 inches, brings the year's rainfall and snow-moisture total to 2.40 inches. Farmers, who were preparing land for row crops, said there was ample "plow depth" and deep moisture before last weekend's snow came. Top soil, however, had been dried out by high winds.

R. W. Lumpkins was in West Texas Hospital, Lubbock. Mr. and Mrs. Clyde Benn recently fished at Lake Falcon.

He had been employed by Southwestern Public Service Co. about 40 years prior to his retirement.

### McLANE RETIRES FROM TUCO

(Editor's Note: The following news story by O. F. Rea appeared in the Abernathy Weekly Review March 6.)

(By O. F. Rea) J. E. (Jess) McLane was retired March 1, from Southwestern Public Service Co. Tuco Station with a party at Graham's Restaurant. Jess officially entered the employ of the company at Plainview March 12, 1929, as an employee of the Plainview light plant. He transferred to Tuco October 2, 1942 and had been there approximately 27 years, as fireman, turbine operator and operator or shift foreman.

Jess was presented with the official Tuco retirement certificate, the hard hat all nicely done up in a package with a ribbon and bow. Then there was the casting rod and bait box of course. A giant cake was presented, and enjoyed by the McLanes and two daughters, Joyce Locke, Pampa and Bobby Livesay, Roswell and a son of each of the girls. Fifty-eight people, including the wives, were served a steak or ham dinner. Harold McCune served as M. C. and did an excellent job. Most all of the former employees of Tuco were present, those who had been transferred to other plants, six were retired, and those who have retired, Bob Dyer from Denver City, Bob Drake from Plant X Roy Thomas, Production Superintendent, Amarillo, Mr. Hays and his camera, Willie Florence and several men from Plant X who transferred from here, there. Finis Robertson represented by Mrs. Robertson.

Everyone enjoyed seeing old friends and there was hardly an end of visiting and reminiscence. The McLanes will move shortly to near Waco where they plan to begin retired life. We were invited to attend the last retirement party of the older Tuco employees which began Jan. 1, 1958 when your reporter, O. F. Rea and Finis Robertson, started the retirement ball rolling. If that be the case we, which it may be, we had the best party we have ever had so far. Three former employees, now retired were missed, with their wives, Ed Hardesty, Marvin Monk and Mr. Harrison.

Chambers ambulance took J. J. Vineyard, farmer northwest of town, to Highland Hospital, Lubbock, Saturday during the snow storm. Mrs. Jess McLane was in West Texas Hospital, Lubbock, Thursday. He

### MRS. WOODLEY SPEAKS HERE AT LIONS' MEETING

The Abernathy Lions Club, for its luncheon on March 11, had as guest speaker Mrs. Elizabeth Woodley, Program Planner for the Central Plains Comprehensive Community Mental Health-Mental Retardation Center that will open in the summer of 1970 in Plainview, Texas. This Center will be in connection with the new Central Plains General Hospital that will open at the same time.

This 30bed neuro psychiatric hospital will provide in-patient, out-patient and emergency services; partial hospitalization, consultation and educational services for the nine county area that is the catchment area for this new facility. The nine counties to be served by this Center are: Hale, Floyd, Motley, Briscoe, Swisher, Lamb, Bailey, Farmer, and Castro. Part of the Centers facilities has been in operation for three years. This is the High Plains Children's Training Center and Sheltered Workshop at 214 W. 11th Street in Plainview. Psychological and EEG tests are already being handled through this Center for children of the 9 county area, plus Levelland. This Center has 75 children, mentally retarded, culturally deprived, or emotionally disturbed in its Day School that meets 5 mornings a week.

Mrs. Woodley stated that "The new concept of handling the emotionally ill and mentally retarded in or near our local community, just as we treat physical disorders; and the theory that prevention, early detection and care in the local community is more effective than waiting until the patient must be placed in a distant institution, all of this gave impetus to what has happened and what is happening in the development of this MH/MR Center in Plainview."

The Mental Health Center actually is the outgrowth of a committee study headed by Hale County Judge C. L. Abernethy. This committee, appointed in 1963, developed a Texas Plan for Mental Health Services. On the committee were the top men and women of Texas in the field of mental health. According to Mrs. Woodley, the group consisted of doctors, lawyers, researchers, representatives of the Hogg Foundation for Mental Health, the Ford Foundation, psychiatrists and psychologists, and persons from every walk of business and professional life. The 50th Legislature answered this plan by passing House Bill 3... which sets up these Community Health Centers. If the communities care enough to work for it, and put up matching money, Plainview did this for the nine county area to get the ball to rolling. It is so needed in this nine county area that the planners feel that when the times comes the nine counties, the communities involved will all help to make it a success. Mrs. Woodley will work with an advisory board in producing a workable plan for this Center. Health, Education and Welfare will help with the starting money needed for the first 54 months of the Center. Hopefully, the Legislature will come up with some sort of help in financing the services for the Center for those unable to pay their total cost. School counselors, doctors, ministers, public health services, and anyone interested in the total program of mental health/mental retardation is asked to join the team to bring this wonderful plan to our area.

Anyone wishing to discuss this plan, needing information as to the services, or needing programs on this new Center are asked to contact Mrs. Woodley at Box 578, Plainview, or telephone number 806-293-5289, Plainview.

Mrs. Pete Knox underwent surgery at Methodist Hospital, Lubbock, Thursday. Mrs. Joe Blair has returned home from a Lubbock hospital. Mrs. Harold Stillwell underwent surgery at Methodist Hospital in Lubbock last week.

## Tides Are Turned In AHS Teaching System

Tides were turned as the students of Abernathy High School took over for a day in Junior High and Elementary schools on March 4. This was the first year that Juniors and Seniors participated in this event which was sponsored by the Honor Society.

Two student teachers took the place of most of the teachers in their classrooms. They had a busy day from helping the students with their problems to taking them to the lunchroom. Even the nurse was busy filing health records of all the students.

When asked how they felt, they answered: Clark Riley: "Being a principal was o.k."

Patsy Lambert: "It's fun and I like it."

Kay Jones and Sandy Furgeson: "It's not as easy as it looks."

Johnny Lutrick: "Had a bunch of brains in math. They knew as much as I did."

Royce Walker: "Two days of teaching, my first and my last."

All the student teachers enjoyed it. Their reactions ranged from "It's fun" to "We're having a blast."

Some said they now have a little more respect for teachers.

## AHS Student To Visit Junior Play 'Raises In Japanese Home The Roof' And \$100

Anita Ryan, AHS senior, will be going to Hawaii and Japan this summer from June 18 through July 23.

Anita will spend one week in Hawaii taking a tour of the islands. She will then go to Japan where she will spend the four remaining weeks with a Japanese family.

Anita is going along with 74 other students from Texas. At the same time 75 Japanese students will be coming to stay in Texas. Anita stated that she hopes some of the people in Abernathy will get to entertain some of the Japanese students. The main purpose of this program is to create friendship between the two countries.

The cost of Anita's trip will be \$865. The Abernathy Lions Club will provide \$400 of this while Anita will pay for the rest.

Anita has already sent some pictures to the headquarters in charge of the trip and she will begin writing to the family with whom she will stay as soon as she finds out who it will be. She will be allowed one suitcase and one overnight bag for the five-week trip.

When asked how she felt about the trip, she said that she may get homesick, but she is looking forward to it.

The auditorium was packed with over 700 laughing people. The Junior Play, "Father Be Calm," was being presented. It was February 28, and the 1969 Junior Class had just made over \$700.

The many comments overheard after the play included "Greatest play I've seen in years," "Never dull," "Make-up was good," "I've never laughed so much in all my life," "Realistic." Other remarks included "Really great!" "I know someone like every character in that play," "Well put together," and "Lively!" A group of Cotton Center boys remarked, "I really enjoyed it, best in a long time."

The means of selling tickets ranged from door-to-door campaigns, to selling to personal friends, and telephone campaigns. Posters were placed in all business windows.

A steak dinner for two at Graham's was awarded to Don Snodgrass for selling the most tickets between February 25 and February 27. Don sold \$70.80.

March 21—The Teacher Appreciation Banquet will be held at 7:30 p.m.

## Students Get Away On Ski Trips Or 'Hey That's Snow!'

Generally AHS students rarely see snow more than one foot deep. So two groups, the Church of Christ and Methodist high school students, got away from it all by going on skiing trips. The Church of Christ group went to Cloudcroft. The Methodist group went to Sipapu, New Mexico. Many brave parents went along on these trips.

Most of the students couldn't see enough of the snow on the way up. They could barely believe so much snow does exist, but on the way back, well, it was a different matter.

Friday night, students tried snowball fights, pool games, night bobsledding, and climbing a mountain which can be quite dangerous with all those trees standing there.

Saturday morning comes early in the mountains. Everyone was up and about by 6:30. The day was crowded with skiing and bobsledding. That night every-

one was so tired they could hardly shake a stick. Sunday meant more skiing and bobsledding and then homeward bound. No one was lucky enough to be snowed in.

Roses to Kathie McClendon for her natural ability to ski the first time up on them and lilies to Karen McClendon on spraining her ankle while skiing.

For all future ski trips, be sure to bring heating pads, rubbing oil, and massaging machines. You may not get to use them on account of people borrowing them. Also beware of knocks at your door. First put on your coat and boots. You might see snow flying. But then if you don't care to get up and answer it, you might wake up like Ricky Anderson did with snow all over himself and the bed.

Ski trips are great fun but everyone was glad to see home again and ready to go back next year.

Karen McClendon happily recuperates over an injury sustained on a recent skiing trip.

## School Consolidation; A Future Possibility

By BEVERLY BEATON

Have you ever stopped to think what school would be like, and the changes that would involve each student if the plan for the Consolidation of Schools were enacted?

The location of the school campus could be new, and the enriched curriculum used in the school would be different for most of us.

Some AHS students have expressed a desire to take courses that are not currently available to the student body. A direct result of consolidation would include more courses in each field. I feel that courses dealing with vocations and careers would be very beneficial to us. Courses helping us to prepare for college would definitely be an asset.

Actually, surveys of legislators indicate that consolidation will not take place, however, it is always a possibility.

The Abernathy Independent School District, as we know it, is a consolidated school. It is made up of Abernathy County Line, Harrell County Line, Eagle Spring Common District No. 35, Science Hill Common School District No. 8, Reed School, and Lakeview School District.

As you can tell, changes do occur, and they are becoming more common. We as citizens should learn to accept some changes, and evaluate them as to their good for the community as a whole.

## Students Prepare For UIL Storytelling

In preparation for the UIL Storytelling event, 16 second and third grade students have been going from room to room telling a story after Mrs. Keisling, their sponsor, reads one to them. The teacher from each room then writes down how each student does and gives helpful hints.

The 16 students competing will be narrowed down to four on Monday, March 10. Then on March 12, the winner and the alternate will be picked.

Each storytelling contestant is judged on the basis of how interesting he tells his story.

## Dinosaurs "Making The Scene" In Mrs. Hurt's Class

Mrs. Hurt's fifth grade class has finished the clay dinosaurs they have been working on for the past three weeks, while they were studying the Mesozoic Era of Geologic Time.

Over 225 million years ago the Mesozoic Era was occurring. The only things on the earth at this time were simple trees, ferns, volcanoes, and dinosaurs.

Each student brought a shoe box to be used as a viewer. They painted a Mesozoic Era scene in the background and placed the finished dinosaurs in the show case.

The different dinosaurs the students made included the Saltopsuchus, Plateosaurus, Brontosaurus, Stegosaurus, and Tyrannosaurus.

Four members of Mrs. Hurt's fifth grade class are shown with some of the dinosaurs they made. The students are, from left to right, Kim Pinson, Rosario Cardenas, Kevin Smith, and Donna Horne.

# FUTURE HOMEMAKERS of AMERICA

Better Home and Community Living

The winsome lass above, representing her more than 74,000 sister FHA'ers in Texas, is appearing on billboards all across the State in observance of National FHA Week, March 23-29 1969. This salute to the contribution made by these young people to their homes and communities is sponsored by the Future Homemakers of America, Texas Association, and rural electric cooperatives. The Outdoor Companies of the State are donating the sign space for the showing.

## HOMES SOUGHT FOR EXCHANGE STUDENTS HERE

Several local families have volunteered to receive foreign youths into their homes as guests this summer. The summer youth exchange program sponsored by the International Lions Clubs is making it possible for non American youths to go to foreign lands during the summer each year. Likewise many foreign youths will come to the United States for a few weeks each summer.

It is one of the tenets of Lions International that international personal acquaintance brings about understanding between nations. To further this idea the organization has established the program for exchanging youths for visits.

In all cases the youths making the visits are carefully screened both by the foreign countries sending young people to the U. S., and by the U. S. groups sending our young people to foreign lands.

Any one opening his home to young visitors to this land would be vastly rewarded in a human interest experience.

Additional homes may be needed to receive the visitors coming here this summer. Any one interested in having young visitors in their homes for five or six weeks this summer can contact Lon Carmickle.

The ages of the youths will be from 17 to 20 years. Host families are not required to have any connection with Lions Clubs to be eligible to have these visitors.
