of money is necessary to finance surface water from the Mississippi River. The concern for the passage of this amendment is being aired in all of the water association groups. Water Incorporated has contracted for TV and newspaper advertising in the amount of \$200,000.00 to assure passage of this amendment. Most of this advertising will be spent in East Texas. The passage of this amendment is a must for the future of West Texas. This \$200,000.00 will be the amount of money spent statewide. The Hale County Water Association has considered a goal of \$15,000.00 as its fairshare of Water Incorporated state budget. Hale County has 18 communities which means that each community needs to raise something less than \$1,000.00. Farmers will receive the first direct benefit from surface water, therefore the current drive to raise this \$15,000.00 will be presented to the farmer first. The Hale County Water Association would like to see each farm owner and/or operator contribute at least \$25.00 to this drive. This would entitle the contributor to a membership in Water Incorporated. Checks should be made payable to: The Hale County Water Association; Box 158; Abernathy, Texas 79311.
