Fair To Offer Many Features

It seems like a long time ago to some folks since the days of the Big Depression when Hoover was President. In those days a fellow could take his best girl to the picture show and after it was over, go to the best restaurant in town and buy her something to eat and drink, all out of a one dollar bill and have enough money left over to jingle in his pocket on the way home.

But, in reality, that was high in comparison to what is being offered the general public this year at the Haskell County Fair on the days of Sept. 30th and October 1st and 2nd. For the price of 50 cents for adults and 25 cents for students under 12 years of age, a varied program each and every night of the three day celebration is on the Fair Agenda, all free after paying the small admission price at the gate.

Headlining each nights' entertainment on the large outdoor stage on the midway will be the re-appearance of the Chain Gang Band which will present a free concert each night of the fair.

Other features of entertainment will be the popular Gospel Singing to be held again on Thursday night on the outdoor stage under the direction of Tom Watson. Choral groups and quartettes will devote at least one hour singing the old time Gospel songs which everyone loves to hear.

Old time fiddling band concerts and western folklore music will also be presented for the enjoyment of all ages.

Present indications are that the exhibit hall will be full and overflowing with beautiful and unique entries to include the flower show, Arts and Antiques, agriculture products, 4-H displays and many other interesting things which will be on exhibit in the interest of art and education.

City Council Has Routine Business Tues.

J. C. Yeary, Jr., district conservationist for this area, met with members of the City Council last Tuesday night and presented films on how to conserve the soil and prevent erosion. This was in connection with a resource conservation and development program for this area, and which is conducted on a state-wide basis.

The City Council passed a resolution favoring this program, and Haskell is urged to have representatives at an area meeting in Aspermont at 2:00 p. m. Wednesday, September 22, for further study of this program.

The Council named George Fouts and O. E. Oates as commissioners on the Housing Authority for a period of two years. The planning and zoning resolution was also approved and a hearing has been set for 7:30 p. m. Tuesday, Octo-

Aalbue and Mrs. J. C. Swofford presented a request for the technical assistance of the ter Conservation District to the Sagerton Group. A small but efficient community park has been planned, and development is underway.

Harry Koehler, Soil Conservation Technician, and I met with the Faith Lutheran men of Sagerton last week. We gave a slide presentation on the Big Country Resource Conservation and Development Project, and discussed the advantages of Minimum Tillage with those present.

I met with the Haskell City talk to them. The RC&D Directors are asking the cities in the 12-county area to endorse the project and it is my hope to present this same program to each of the community councils in Haskell County in the not too distant future.

The Haskell City Council had previously requested technical assistance from the SCS on a water and soil erosion problem connected with the City-County Airport. Alternative treatments and suggestions for control were presented to the Council for their consideration.

the Big Country RC&D Board of Directors reported that the Directors will meet next week at Asperment. They will meet with a team from the SCS Graham's office in Temple.

With the aid of illustrated slides, Stenholm discussed the present state of the cotton industry in the Nation and facets of it especially pertaining to Haskell and Jones County in this area.

"Farmers are producing cotton cheaper now than they did back in 1851, he stated but we seem to be taking pride in this fact when the profit is less and no business can grow and prosper if it continues to receive less than what it costs to produce," the speaker said.

"The new Federal plan which is going into effect is definitely writing the death song to subsidy and that will mean a loss of from three to five million dollars of income for Haskell County alone," he added. "If this money is to be re-gained, it will have to come from the field of marketing of cotton or

Wage-Price Freeze? A - The Internal Revenue Service undertook the assignment at the request of the Office of Emergency Preparedness which is the operating arm of the new Wage-Price program. Utilizing its nationwide taxpayer assistance network, the IRS receives, analyzes and investigates complaints and answers questions at 360 of its offices throughout the country.

Q-What does the IRS do after it receives a complaint of a Wage-Price Freeze violation?

A-The IRS will acknowledge the complaint and, if there is a reasonable basis for concluding that a violation may exist, it may contact the alleged offender to obtain voluntary compliance with the Presidential order or conduct further investigation. The IRS offices will report to the Office of Emergency Preparedness when further action is required. Actual prosecutions are the responsibility of the Justice De-

Q-What sort of penalties nesses that violate the Freeze?

A-The Justice Department "Prexy" C. A. Thomas, Jr., may seek an injunction to stop an individual or business from violating the Presidential order. Failure to comply with the injunction may place the violator in contempt of court and result in the handing down of civil penalties on an escalating daily basis.

The law also provides a \$5,000 fine which may be imposed for each violation.

Q-My college announced last spring that it would raise tuition for the fall semester. Is this increase covered by the Freeze?

A-No. Increases in tuition rates announced before August 15 may still take place, even though they do not go into effect until September, because committments and, in many cases, payments have already been made.

Executive Department Austin, Texas 78711 Preston Smith Governor September 10, 1971

Mr. Bill Comedy Haskell Free Press Haskell, Texas 79521 Dear Bill:

Most Texas newspapers and an unfortunately large number of our citizens reacted to our position on the wageprice freeze, as it affects State employees and teachers, on the basis of emotion, without realizing that there were very good, logical and legal reasons for our position - reasons which compelled us to take that position.

LEGAL NOTICE

All brands and marks on Texas livestock must be re-recorded with County Clerks after August 30, 1971, according to new law passed during the last session of the Texas Legislature. Producers will be given a six month period (August 36, 1971 through February 29, 1972) which to register these brands and marks and the location on the animal which they are currently using, after which time any unrecorded brand will be available for use on a "First-come" basis.

The law further states that all such brands and marks must be re-recorded every 10 years. Each County Clerk records for his given county only, so many producers may need to record their brands in additional counties if their operations are ex-
