

Response To Trevino Fund Drive Termed "Overwhelming"

"Overwhelming" was the term applied to Abernathy's response to the recent fund drive to aid Victor Trevino, 12 year old son of Mr. and Mrs. Manuel Trevino, who is being treated in a Galveston hospital for leukemia.

A total of over \$1400, which was taken at the gate of Monday night's benefit touch football game, added to the over \$1200 already contributed by local citizens, brought the total funds collected for the local youth to almost \$2700. Additional funds garnered in collection jars placed in various businesses throughout the city were not included in this total, since counting had not been completed at press time.

In addition to the \$1400 taken at the gate during the game, just over \$190.00 was raised by the Guadalupe

society of St. Isidore's church, which sold homemade tamales as refreshments for the game, and another \$20.00 was raised through sales of homemade burritos by local women. A total of over \$400.00 was raised in a garage sale sponsored by the Trevino's family and friends.

Raffle tickets in the amount of almost \$100 were sold for the shirt which was given away at the game. Winner of the shirt, which was donated by Struve's, and hand-painted by Lou Pruitt, was Bob Parks.

Other donations to aid in meeting the Trevino youth's hospital expenses included \$74.00 from the Abernathy Junior High School Band, \$19.00 from the Abernathy High School CVAE Club, \$30.00 from Northside Baptist Church, \$160.00 from

First United Methodist Church, and \$95.00 from St. Isidore's church.

A bonus check in excess of \$100.00 was presented to Manuel Trevino by his employers, the Harris Thrust Co. of Lubbock, to provide a telephone for his son's hospital room.

Individual contributions accounted for the remainder of the \$1200 which had been raised prior to Monday night's football game.

Pitting the Abernathy Baseball Association coaches against the organization's sponsors, the game of eight-man touch-flag football consisted of two 30-minute halves, with one time-out per half. With a total of 14 points, the coaches' team, in white jerseys, won the match over the maroon-clad sponsors' team by eight points.

As the players began to tire in the final quarter, Hoppy Toler helped them

and off of the field with a golf cart, brought in to transfer substitutes into the game, and bring fatigued players to the sidelines. Considerable cloudbusting around by both teams added to the hilarity of the final quarter.

As a spokesman for the Abernathy Baseball Association, which headed the fund-raising drive, and sponsored the touch football game, Toler expressed thanks to all those who attended the game, and contributed of their time to help make the drive what he termed an "overwhelming" success.

"If the P.A. system had not failed," he said, "we would have thanked everyone for their help at the game, but since it did, we'd like to take this means to do so. We think this shows that Abernathy really rallies to a cause. If people are aware of a situation, and it warrants their help, then it gets it. This

shows just what a great community this really is."

Toler also expressed appreciation for the efforts of Max Garza and Oscar Lopez in organizing the football game, and to the school system for its cooperation in approving the use of the Antelope Field for the game. He also extended thanks to the Abernathy Volunteer Fire Department for their loan of fire department vehicle used in asking for contributions prior to the game.

Team members on the coaches' team included Cecilio Garcia Jr., Max Garza, Oscar Lopez, Santos Ramirez, Danny Tetter, Jimmy Cox, Donny Cuevas, Bobby Rogers, Jeff Schaap and Joe Lopez. Also Robert Gough, Bobby Cuevas, Joe Garcia, Gary Clemons, Phil Grindstaff, Daniel Miller, Dwight Hardin, Dickie Overstreet, Larry Turner and Eugene Kemp.

Players on the sponsors' team included Craig Schaap, Don Heath, Waymon Jones, Ralph Wolf, Hoppy Toler, Laurin Prather, Paul Herishman, Henshal Upchurch, Joe Gonzalez, David Pinson, Sammie Hunley, Bob Scott, Richard Havens, George Trigg, Larry Fields and Bobby Cunningham.

NEITHER RAIN NOR HAIL -- Nor almost anything, will keep "Mister", a toy manchester owned by Mrs. Marva Cox, from delivering the daily mail right to his master's doorstep. Mister, who celebrated his thirteenth birthday early this month, has been delivering the mail to Mrs. Cox since he was a "mere youngster" of only one year's age. Mister is shown here, in photo at left, taking a letter from postman Royce Shires, who seems to appreciate the steps the helpful canine takes off his daily route. In photo at right, Mister promptly delivers the letter to Mrs. Cox, who says it sometimes takes the dog a while to convince postmen he's "only trying to help."

ANTELOPES FALL TO PETERSBURG BUFFALOES 20 - 6 IN FIRST CONTEST OF SEASON

By SAMMY HUNLEY

The Antelopes traveled to Petersburg Friday night with high hopes of corralling the Buffaloes, but instead got caught in the stampede-20-6.

Reeling off 4 first downs on their first possession of the night, The Antelopes moved with authority to the Buffalo 9 yard line. A delay of game penalty set them back to the 22 yard line where Petersburg took over on downs.

From their 22 yard line it took the Buffaloes only two plays to score. The touch-down coming on the 80 yard pass play, that left everyone on the maroon side of the field "stunned". The score read 6-0 with 6:05 left on the clock.

The Antelopes were unable to move the ball and punted to the Buffaloes, who again took over on the 22 yard line. Two plays from scrimmage found the Buffaloes on their way to pay dirt. Ken Davenport managed to catch the Petersburg halfback on the one yard line, but not until he had gone 80 yards.

was no good and the score stood 14-0.

The Antelopes with their first consistent offensive drive of the night scored their first touchdown with 2:39 remaining in the 2nd quarter. Ken Davenport took the ball over from the 3 yard line. Extra point was no good, the score read 14-6 in favor of Petersburg.

Todd Thompson sparked the defense with 1:05 left before the half with an interception. The clock ended any offensive threat to the Lopes, and Petersburg led 14-6 as the half ended.

REGISTRATION OPEN FOR LOCAL PUNT, PASS, KICK CONTEST

Registration for the area's 15th annual Punt, Pass & Kick competition for youngsters 8 through 13 years of age will remain open through October 3, at Abernathy Motor Company, Abernathy's sponsoring Ford dealership.

Nationally, more than 1,200,000 youngsters are expected to take part in this year's program sponsored by the Ford Dealers of America in cooperation with the National Football League. Registration blanks and local competition details are available at all participating Ford dealerships.

Punt, Pass & Kick has attracted more than 11.5 million participants since its inception in 1961, in addition to the enthusiastic support of highschool, college and professional football coaches across the country.

National levels. No entrance fee or special equipment is required. There is no body contact and participating does not impair a youth's amateur standing.

Youngsters, accompanied by a parent or guardian, may register for PPKK at any participating Ford Dealer.

Local PPKK competition will be held October 4 at 9:30 a.m. at Antelope field.

The Antelope defense dug in and recovered a Buffalo fumble on the 1 yard line to stop the scoring threat.

The Antelopes having trouble getting out of the hole got caught in the end zone and Petersburg had 2 points by way of a safety. The score with 1:41 left in the 1st quarter read 8-0 in favor of Petersburg.

Amando Ruiz pounced on another Buffalo fumble with 21 sec. left in the quarter, but time ran out before the Lopes could get their offense going.

Tumbler seemed to be the name of the game as the Lopes gave the ball back early in the 2nd quarter. Petersburg took full advantage of the turnover and scored their 2nd touchdown of the night with 7:38 left in the second quarter. Extra point

SERVICES HELD MONDAY FOR JACK HAGER

Services for Jack Hager, 65, of Abernathy were at 2 p.m. Monday in the First United Methodist Church.

Officiating was the Rev. Al Jennings, pastor of the First United Methodist Church, assisted by the Rev. Murry Brewer, Baptist minister of Plainview. Burial was in Odd Fellowship Cemetery under direction of Chambers Funeral Home.

Hager died at his home Friday after suffering an apparent heart attack. He was under a physician's care.

Hager was a native of Rule. He moved to Abernathy in 1958 from Lubbock. He was the owner and operator of the Dairy Mart drive-in restaurant here until 1972. He was a Baptist.

Survivors include a daughter, Mrs. Craig Stewart of Abernathy; a sister, Opal Black of Abernathy; and two grandchildren.

Funeral services were Bill Waits, David Waits, Jim Waits, Hugh Pettit and Kenneth Wright.

The fourth quarter saw Petersburg add another TD to their cause with 7:03 left in the game. Extra point was again no good and the score read Buffaloes 20-Antelopes 6.

The Lopes offensive attack plagued with turnover late in the final quarter failed to produce the needed points to get back in the ball game.

The final score read Petersburg 20-Abernathy 6.

DONATION OF TREES WILL AID IN BEAUTIFICATION OF ABERNATHY CITY HALL SQUARE

A program to help beautify the Abernathy City Square has been initiated by members of the city's garden club and Chamber of Commerce. The program is designed to add color and shade through the planting of donated trees in preparation for next year's Bicentennial and Fourth of July celebration.

Private citizens wishing to donate trees for the project may do so by contacting city hall, and trees may be donated as memorials to loved ones, or as a benefit to the appearance of the square.

Trees available for donation have been selected according to the suggestions of two Lubbock nurseries, which recommended trees for their adaptability to the area's climate, good shade, fast growth, and color.

Trees suggested for the project are red oak, silver leaf maple, holly locust or shademaster, scopulorum and pecan. Prices for donating any one or several of the trees are available at city hall. A total of 18 trees will be planted in accordance with landscaping suggestions made by the two nurseries.

It was stressed that tree donors should express their desire to donate a tree to city hall personnel. Members of a committee made up of local garden clubs will make the selection of trees to be used.

Once a tree is donated, it becomes the property of the city of Abernathy, and the care of the tree will become the responsibility of the city.

If future expansion of city facilities necessitates the relocation of a tree, it will be moved.

Total cost for the purchase and planting of the proposed 18 trees will run about \$1,000.

Also stressed was the fact that those who wish to donate trees should contact city hall as soon as possible, so that all of the 18 trees will be accounted for in order to make early planting possible.

In addition to the planting of trees, the city square will be prepared for next year's Bicentennial observation with the planting of new grass behind city hall, and of red, white and blue flowers in front of the building.

PLUMB TUCKERED OUT -- Robert Scott, left, was helped off the playing field in Monday's benefit touch football game by a helpful Hoppy Toler, who aided fatigued players in getting on and off of the field during the game's final quarter. Proceeds from the game, which pitted local baseball association coaches against association sponsors, went to aid local youth Victor Trevino, who is a leukemia patient in a Galveston hospital. DEHYDRATION NAMED AS ECONOMICAL MEANS FOR PRESERVING FRUITS; VEGETABLES

For those of you who may be suffering from the current shortage of those canning jar lids, an alternative method of preserving foods for future use might lie in the idea of food dehydration.

Dehydration, by definition, is a method of preserving foods by reducing the moisture content to the point where the food spoiling micro-organisms and enzymes die of thirst. This should be done at temperatures that will minimize the loss of the natural nutritional values that are present in the product to be dehydrated. Temperatures should not exceed 190° F. during the process and should decrease to approximately 120° F. as the moisture is removed.

Dehydrated foods retain more of their natural nutrients and food values than food preserved by any other method. In most cases dehydrated

foods can be returned to their natural appearance and taste by soaking in plain water. As a snack for both children and adults, there is nothing better than good dehydrated fruit, either in its natural state or purged into a thin wafer or a fruit leather. It is flavorful, nutritious, healthful, and in many homes has taken the place of candy. At present, authorities are unaware of any fruits or vegetables that cannot be dehydrated, although some taste better than others. They have even dehydrated different types of melons with satisfactory results.

Fruits and vegetables can be processed and stored during the growing season for year-round use without the expense and bother of sugar, jars, lids, or refrigeration.

The storage of dehydrated foods is simple. Just package in airtight containers and place them in a dark, insect- and rodent-proof location. A galvanized garbage can makes an excellent storage place. Because the dehydrated product is 1/4 to 1/2 of its original size and weight, a surprisingly large amount can be stored in a large place. This has proven ideal for backpackers, hikers, campers, boaters and many others with limited storage space.

FORMER RESIDENT; TEACHER WISHES SUCCESSFUL SEASON TO ANTELOPE FOOTBALL TEAM

Letter from J. W. Combs
Mount Pleasant, Texas
August 30, 1975

Dear Editor:
It is indeed a pleasure to get the Abernathy paper each Saturday. It is like a letter from a friend. Warm greetings to the Abernathy townspeople and a sincere wish for a most successful AHS football season! Some of those young men played somewhat rough when noon recess and P.E. period came, back a few years when they were in elementary school.

We were given our "Pirates Treasure Chest" (the Pittsburg High School Annual) this week. It seems somewhat quaint having my picture with the high school teachers since it had appeared with the elementary teachers for the past 10 years. The young men and women of Pittsburg High School are just as lovable as those impressive youth in the Abernathy Schools.

The Director of Special Education in the Pittsburg Public Schools, Mickey Weaver, is also co-ordinator for the Special Olympics in this district. We took special Olympics this year because

we had a young man represent our district at the Fourth International Special Olympics Games for the Mentally Retarded held in Mount Pleasant, Michigan. Billy Joe Cannon won a gold medal for softball throw. He was sponsored by the Mount Pleasant-Pittsburg (TARS) Teens Aid the Retarded. (Clipping from The Mount Pleasant Tribune enclosed.)

We buried grand-mother Smith in April. Before Granny was married her last name was Nutt. So mother has several cousins that are named Nutt. Ruby Nutt called mother last week. He was passing by and called to see how she was doing. Cousin "Catfish" Smith was here for Grannie's funeral. Incidentally, "Catfish's" son, Jimmy Smith, 23, went to Canada on a bicycle, however, he flew back by plane. He stopped here for a drink of water. Jimmy enjoyed his vacation in Canada and is returning to Baylor University to finish his master degree in sociology this fall.

Keep up the good work!
Best wishes,
J. W. Combs

Mr. and Mrs. N. M. Rogers and Mr. and Mrs. Mac Rogers of Lubbock, were in Cloudford New Mexico last week.

Texas Taxes

By BOB BULLOCK, State Comptroller

Austin--AN URGENT MESSAGE FOR ANYONE THINKING OF BUYING A BUSINESS IN TEXAS:

You better check carefully to see if the business you are buying owes the state delinquent sales taxes.

If it does, you are buying a problem. You are buying the responsibility for paying off that delinquency.

The Comptroller's Department wants to save you from that pitfall.

Information about any possible delinquent sales taxes is something every business buyer should have in hand before closing any deal.

The lawyers call this "successor liability". In plain English that means that the new owner is responsible for tax debts left behind by the former owner.

The law actually requires the new owner to withhold the amount of any delinquent taxes from the purchase price of the business, but as a practical matter many deals are already closed and paid before the new owner finds out about the back taxes.

We are moving to correct this by making certain all new owners are aware of what can happen and by speeding up the information they need.

We first find out that a business is changing hands when the new owner comes to one of our district offices for a sales tax permit in the

new name. It is at this point that we want to emphasize to the new owner that the tax liability goes along with the business.

For immediate protection this should stop any closing of any deal in which there are questions. Previously the possibility of a tax liability wasn't brought to the new owner's attention until the sales tax permit application went through some time-consuming channels, and by that time it was often too late.

Once the possibility of the situation has been identified we can act quickly through our computers to get the new owner the necessary information.

Most new business owners have a hard enough time starting out without facing an unpleasant surprise of a delinquent tax notice.

Totally unconnected with good, honest business buyers, we have found some cases of fraudulent operators trying to change their business names from time to time to avoid paying taxes. They think they can tell us that they are a brand new business and not a successor to the former business.

I would strongly warn all such frauds that this doesn't work. The law is on the side of the state.

All such frauds can rest assured that we can add two and two. The leopard can't change his spots. Believe me, when we pin down such a fraud, we bring the full weight of the law and the full force of the Comptroller's Department to bear.

The difference in day and night foundation you can take advantage of:

Day makeup should be kept subdued--when light is often harsh and unflattering. Heavy covers may exaggerate minor skin flaws. Give your skin some bloom with pink tone, "Rose beige" or "lawnny rose"---(teenage favorite).

Outdoors a lot? Face powder is too obvious in the sun. A light foundation that has a translucent powder is best to use. A light touch for the eyes; brows that are light add youth to a face. Mascara is another trick---for longest, thickest, sexy lashes, use two colors.

Dear Deer
With over 3 million whitetail deer in Texas, little wonder it's one of the most popular animals hunted in this state. Texas has about 20% of the nation's whitetail population, and 180 counties boast deer populations. With public pressure mounting on the deer hunter, it's interesting to note that 80% of the fawns born in May and June die before winter arrives from abandonment, disease, and lack of nourishment. Hunters this year will take from the fields and woods some \$15 million dollars worth of venison, and pour millions of dollars into the state coffers for better game research and management thru the purchase of hunting licenses. **Tip Of The Week:** Mr. Deer Hunter, get that carcass to the cooler as quickly as possible and let the skinned deer age for 5 to 10 days in a cooler before butchering. It improves the flavor.

"BICENTENNIAL SENIORS" IS NEW SCHOLARSHIP PROGRAM

"Bicentennial Senior," a nationwide \$250,000 scholarship program for high school seniors who will graduate with the Class of 1976, is being launched this month by the National Association of Secondary School Principals.

One national winner will receive a \$10,000 scholarship and 102 state winners will receive \$1000 grants under the program.

Winners will be selected first locally, then on a state-wide level. Two graduating seniors will be chosen in each state and the District of Columbia. Each of the 102 winners will also receive an all-expense-paid trip to Williamsburg, Virginia, from January 16 through 19 to attend seminars and hear noted speakers discuss educational and social issues facing this

country today. The national winner will be selected during the Williamsburg conference.

Students taking part in the "Bicentennial Seniors" competition must demonstrate an understanding of America's past and possible directions for the future and an involvement in the social and community issues faced by America today.

Competition will include the preparation of a minute-long television script to be patterned after the CBS television network's 200 years ago today "Bicentennial Minutes," a commentary discussing the significance of the "minute" for today and the lessons it contains for the future; and a current events

examination emphasizing issues and events from the past year.

High school seniors should see their principal for details on how to participate in this scholarship program. Applications must be filed no later

than October 6, 1975.

The program is administered by NASSP and is funded by the Shell Oil Company. "Bicentennial Seniors" is endorsed by the American Revolution Bicentennial Administration.

PUBLIC NOTICE

SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS (S. J. R. NO. 11) SPECIAL ELECTION NOVEMBER 4, 1975

PROPOSITION NO. 1 ON THE BALLOT

Revising the separation of powers, legislative and executive provisions of the Texas Constitution, Article II, Separation of Powers, is amended to:

Provide that the powers of government of the State of Texas are divided among three distinct branches: legislative, executive, and judicial. Except as otherwise authorized by the constitution, members of one branch may not exercise any power properly attached to either of the others.

Article III, The Legislature, is amended to:

Continue the present structure of the legislature consisting of a senate with 31 members and a house of representatives with 150 members. The present organization and procedure of the legislature are continued except that the provision allowing closed executive sessions of the senate is omitted. Provisions on the conflict of interest of members of the legislature are continued, as is the governor's power to veto bills or line items in appropriation bills. The article provides for single-member senatorial, representative, and congressional districts. A compensation commission is created to recommend the compensation and allowances to be received by members of the legislature. The legislative compensation, set by law, may not exceed this recommendation and does not take effect until after an intervening general election. The article provides for annual sessions of 140 days in odd-numbered years and 90 days in even-numbered years, and a veto session of 15 days upon request of three-fifths of the membership of each house. The legislature may meet in organizational sessions prior to the convening of the legislature in regular sessions.

Article IV, The Executive, is amended to:

Continue the present status of the governor and all other statewide officers, and include the commissioner of agriculture as an executive department officer. The governor is limited to two consecutive terms. The governor is authorized to designate chairmen of state boards, and to remove gubernatorial appointees to state agencies for cause unless the removal is vetoed by the senate. The article mandates the legislature to provide a new governor-elect in appropriation so the governor-elect may organize an office prior to inauguration, and permit the legislature to grant powers of fiscal control to the governor. All governmental agencies, with several exceptions, have a life of not more than ten years unless extended by the legislature, and, at the regular session held in odd-numbered years, the governor shall submit to the legislature a report on the organization and

requirements, for the administration of elections, and for the protection of the electoral process. The general election for state and county officers is to be held in even-numbered years on a date prescribed by law.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the SEPARATION OF POWERS, LEGISLATIVE, AND EXECUTIVE PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective January 1, 1976, except Article III, Section 5, which becomes effective January 1, 1981.

PROPOSITION NO. 2 ON THE BALLOT

Revising the judiciary provisions of the Texas Constitution, Article V, The Judiciary is amended to:

Establish a unified judicial system consisting of the supreme court, court of appeals, district courts, and circuit courts. Existing county courts and county judges are continued until otherwise provided by law. All judges (except municipal judges), district attorneys and district clerks must be elected by the people. The supreme court and the court of criminal appeals are merged into a single court of last resort, and this supreme court is authorized to provide for efficient administration of the judicial system and to balance case loads. Individual rights for a trial by jury and appeal by the accused are continued. The state is granted the right to appeal in criminal cases in limited circumstances, and the legislature is permitted to establish methods of appeal to the courts from decisions of state agencies.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the JUDICIARY PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

PROPOSITION NO. 3 ON THE BALLOT

Revising the voting and election provisions of the Texas Constitution, Article VI, Voter Qualifications and Elections, is amended to:

Provide for registration and qualifications for voting including voter residency requirements to be established by law. A citizen of the United States who is at least 18 years of age and who meets the registration and residence requirements provided by law is a qualified voter unless the person has been convicted of a felony and for that felony is incarcerated, on parole, or on probation, or unless the person is mentally incompetent as determined by a court. Voting by the people in all elections must be by secret ballot, and the legislature shall provide by law for residence, registration, and absentee voting

requirements, for the administration of elections, and for the protection of the electoral process. The general election for state and county officers is to be held in even-numbered years on a date prescribed by law.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the VOTING AND ELECTION PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

PROPOSITION NO. 4 ON THE BALLOT

Revising the education provisions of the Texas Constitution, Article VII, Education, is amended to:

Provide that the Permanent and Available School Funds and the county public school funds are continued for the support of the free public schools. The State Board of Education is retained and the Permanent and Available University Funds are continued for the benefit of The University of Texas and Texas A&M Systems. A new Higher Education Fund for Texas is established for the benefit of colleges and universities outside The University of Texas and Texas A&M Systems. The state ad valorem tax of ten cents on \$100 valuation is continued as the source of revenue for the Fund. The ten cent higher education tax may be changed by law within the ten cent maximum. The legislature may allocate by law a portion of the Higher Education Fund to certain state vocational and technical institutes. The article provides that the public education system must furnish each individual an equal educational opportunity, but a school district may provide local enrichment of educational programs exceeding the level provided by the state consistent with general law. Authority to issue Permanent University Bonds is continued but the bonds may not exceed 30% of the Permanent University Fund.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the EDUCATION PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976, except Article VII, Section 9, which becomes effective January 1, 1979.

PROPOSITION NO. 5 ON THE BALLOT

Revising the finance provisions of the Texas Constitution, Article VIII, Finance, is amended to:

Provide that state taxes may be levied and collected only by general law and to prohibit any state ad valorem tax on real property or tangible personal property except the ten cent tax provided for in Article VII and a

tax of two cents on the \$100 assessed valuation to provide funds for the State Building Fund. Provides that all real property and tangible personal property must be taxed equally and uniformly in proportion to market value. Existing exemptions from ad valorem taxation are continued. The present dedication of motor fuel taxes for highway purposes and the Available School Fund is retained. The "pay-as-you-go" principle for the operation of state government is retained. The legislature shall establish separate formulas for appraising land to promote the preservation of open-space land devoted to farm or ranch purposes and may establish separate formulas for appraising land to promote the preservation of forest land devoted to timber production. The \$3000 exemption from state ad valorem taxation for residential homesteads is continued and the legislature by law may increase this amount. A separate \$3000 exemption from ad valorem taxation by political subdivisions is provided for the residential homestead of persons at least 65 years of age and the political subdivision may increase this amount. The legislature by law may exempt from ad valorem taxation certain property owned by veterans' organizations, non-profit water corporations, and persons in need because of age or disability, and economic circumstance. The legislature may also exempt property to preserve historical, cultural or natural history resources. Taxpayers are provided a new method of correcting inequitable tax assessments by paying ad valorem taxes under protest and suing for a refund in a district court. State debt may be authorized by law only if approved by a two-thirds vote of each house of the legislature and submitted to and approved by a majority of the qualified voters of the state voting on the question. Public funds and public credit may be used only for public purposes and no public funds or public credit may be used to influence the election of a public officer. The article prohibits a retail sales tax on agricultural machinery or parts, fertilizer, feeds or seeds, prescription drugs or medicine, or food, except food sold by restaurants for immediate consumption. An assessment voted by marine food or agricultural producers on their product sales is not a tax if provision is made for the individual producer to receive a refund of the assessment when the producer does not desire to be assessed.

PROPOSITION NO. 6 ON THE BALLOT

Revising the local government provisions of the Texas Constitution, Article IX, Local Government, is amended to:

Provide that the counties of the state are those that exist on the date of adoption of the local government article and that county boundaries may be changed if approved by a majority of the qualified voters in each affected county who vote on the question. Counties may be merged or county seats relocated if approved by two-thirds of the qualified voters in each affected county who vote on the question. The present elected constitutional county offices are retained and four year terms of office are provided. The voters of a county may create additional offices, eliminate offices, or combine the duties and functions of offices. The voters may also grant ordinance making power to the governing body of the county. Cities and towns having more than 1,500 inhabitants may become home-rule cities. Tax limitations are established for operating purposes for cities and counties and the legislature is required to fix debt limits for cities, towns, counties, and school and community junior college districts.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the LOCAL GOVERNMENT PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

PROPOSITION NO. 7 ON THE BALLOT

Revising the general provisions of the Texas Constitution, Article X, General Provisions, is amended to:

Provide the basic requirements relating to public officeholders such as the official oath and residency requirements. The provision defining the separate and community property of spouses is retained, and the protection of a homestead from forced sale is continued. The legislature is required to protect certain personal property from forced sale. Current wages for personal service are not subject to garnishment. A private corporation may not be chartered except under general law, and no bank may engage in business at more than one place in this state. The legislature must provide for the regulation of bank holding companies. The present system of local-option elections for the prohibition or sale of alcoholic beverages is continued. The legislature is required to prohibit lotteries and gift enterprises but may permit certain bingo games and raffles. The presently existing provisions for retirement benefits of teachers and other public employees are modified to allow the state to con-

tribute more than 10%. A policy that the quality of the environment of the State of Texas is to be protected is established, and the legislature is required to implement and enforce this policy. No state funds may be used to remove surface water from the river basin of origin if the surface water is necessary to supply the reasonably foreseeable water requirements of the basin for the ensuing 50 years, unless the removal of water is sufficiently replaced to the point of removal from outside the state or is on a temporary, interim basis. The seaward beaches of the Gulf of Mexico and coastal submerged lands belonging to the state are held by the state in perpetual trust for the people, and subject to reasonable limitations prescribed by law, the public has the free and unrestricted right of use and benefit of the beaches. The provision is continued that, except as otherwise provided by law, a rate of interest in excess of ten percent a year is usurious, and that if a contract does not specify a rate of interest, the rate under the contract may not exceed six percent a year. Discrimination against handicapped persons is prohibited, and a goal of the state is established to provide every resident access to adequate, comprehensive health care.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the MODE OF AMENDING PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

TEXAS TALK

By Harold Thompson

Eleven-thousand dollars for a bale of cotton? According to studies made at the University of Texas, that's the value of a bale by the time it reaches the retail trade in the form of all cotton shirts. The same study indicates the value of the cotton increases more than five times after being processed into fabric. Obviously catching the ear of cotton producers, this economic message has succeeded in making them more aware of the importance of milling and fabric production. Feather Fabrics, Inc. is a joint venture between Lubbock area producers and a Dutch textile plant with the operation all ready underway. Farmers in the Littlefield area are planning to open their own 30 million dollar textile plant within the next two years. At least four other groups in the prime cotton producing country are looking toward similar operations and even more could be announced before the end of the year.

Be Careful What You Hear Mark 4:24: "Take heed what you hear... and unto you that hear shall more be given."

We must be careful to train our ears to hear only good things. If we continually allow the bad to come into our inner man, this will begin to effect the area of the body and soul (mind, will, and emotions).

We must discipline our ears to hear the voice of God. If we are filled with hearing the voices of the world, we are less likely to hear the voice of the Spirit. Jeremiah 6:10: "To whom shall I speak, and give warning, that they may hear? Behold, their ear is uncircumcised, and they cannot hear; behold, the word of the Lord is unto them

a reproach; they have no delight in it."

Proverbs 4:20-22: "My son, attend to thy words; include thine ear unto my sayings. Let them not depart from thine eyes; keep them in the midst of thine heart. For they are life unto those that find them, and health unto all their flesh."

Proverbs 18:18: "The words of a talebearer are as wounds, and they go down into the inmost parts of the belly. We should not listen to gossip, negative words, criticism, or talk that is full of doubt or fear. Proverbs 15:30: "The light of the eyes rejoiceth the heart; and a good report maketh fat the bones." Proverbs 16:24: "Pleasant words are as honeycomb, sweet to the soul, and health to the bones."

Be Careful What You Hear Mark 4:24: "Take heed what you hear... and unto you that hear shall more be given."

We must be careful to train our ears to hear only good things. If we continually allow the bad to come into our inner man, this will begin to effect the area of the body and soul (mind, will, and emotions).

We must discipline our ears to hear the voice of God. If we are filled with hearing the voices of the world, we are less likely to hear the voice of the Spirit. Jeremiah 6:10: "To whom shall I speak, and give warning, that they may hear? Behold, their ear is uncircumcised, and they cannot hear; behold, the word of the Lord is unto them

a reproach; they have no delight in it."

Proverbs 4:20-22: "My son, attend to thy words; include thine ear unto my sayings. Let them not depart from thine eyes; keep them in the midst of thine heart. For they are life unto those that find them, and health unto all their flesh."

Proverbs 18:18: "The words of a talebearer are as wounds, and they go down into the inmost parts of the belly. We should not listen to gossip, negative words, criticism, or talk that is full of doubt or fear. Proverbs 15:30: "The light of the eyes rejoiceth the heart; and a good report maketh fat the bones." Proverbs 16:24: "Pleasant words are as honeycomb, sweet to the soul, and health to the bones."

Smith is the son of Mr. and Mrs. Bonnie W. Smith of Abernathy. He completed his EMT training with the Odessa Fire Department, and is currently working with the department's ambulance service while working on his associate degree in Fire Science at the Odessa College. The thoughts I would like to share with you this week is the word of God. As I was reading and thinking on these scriptures I was so blessed by how much God really loves all people and how he desires that all would turn to Him and choose Him to live for. He offers so much love, peace, joy that this world cannot give. He is always with us. He is always ready to listen and hear every word we have to say. Now days go out that He does hear, no tear is shed that he does not know about, no joy is shared that He has a smile about it. He is a loving Father and He cares so much.

I would urge each of you to get your Bible and read the 13th Psalm. It will be a blessing to hear what these wonderful words in this passage of scripture say to each of us.
May the Lord bless each of you.
