COACH TOMMY McADAMS

Our fighting Haskell Indians, contenders for the District 7AA football title against Stamford this year, placed five players on the All-District team; five on the second; and Coach Tommy McAdams shares 'Coach of the Year' honors with the Stamford coach.

Jim Bob Mickler and Jackie Young placed on first team offense; Bob Shea, Forrest Mayfield and Jackie Young on first team defense. Second team offense went to Sam Powell and David Dodson, while Jim Bob Mickler, Eric Whittaker and Bobby Cobb were named to the second team defense.

Other teams placing players on the offensive first and defensive first teams were Stamford, Rotan, Anson and Merkel. Haskell Indian Coach Tommy McAdams said, "I am pleased that even though we didn't win district, they even considered me for such an honor. We plan to stay in Haskell and have an even better team next year."

McAdams and his wife, Nanette, and children, Christie 14, Gary 12, Thomas 9, Robert 3, and Mark 1, came to Haskell in 1970 from Hobbs, N. M., where he was head Jr. Varsity coach, then coached the defensive backs of Hobbs High School varsity team. He was backfield coach during the 1970 Haskell Indian season when the team vied for state honors against Iowa Park, and was named Head Coach at Haskell High at the beginning of the 1971 season.

The 1971 District 7AA teams selected are as follows:

main problem—it's the animals involved. Somewhere in there, Grandpa's 'love of nature' teachings to Don rather clashed with Grandmother's 'be a lady' rule, to me.

I contend, rather modestly, that I survived the 'cute' little turtle named 'Flower Pot' (the names of his pets were his own idea) very well, even when he hurdled the side of his wattery home and left damp trails through the hall.

I remained reasonably dignified through the shock of stepping on a horned toad in the dead of night when it mysteriously escaped the closed shoe box in the den.

I even kept a few shreds of dignity when I found a cold, green frog in the bottom of the washing machine when I failed to empty blue jean pockets before doing the laundry.

I prefer to forget, however, the trials of owning a white rabbit named 'Boxer Shorts' whom we nursed through the miseries of a broken leg.

The baby jackrabbit whose favorite spot to practice jumping high hurdles was on the hearth by the fireplace—especially when we had guests.

The gopher with only one tooth that I was drafted to pickle, and place atop the neighborhood boys' dilapidated 'Gopher Club' club house.

Karen Is Off To Wichita Falls!

Miss Karen Pippin, Haskell County Hey Day Queen of 1971, will be on her way to Wichita Falls tomorrow, Dec. 10, to vie for the title, "Pioneer Bowl Queen." Karen, the 18 year old daughter of Mr. and Mrs. Jack Pippin of Haskell, won the Hey Day title during the pageant held this summer, and will represent Haskell for an entire year, at events such as the Pioneer Bowl Game in Wichita Falls, between West Michigan State and Louisiana Tech at Memorial Stadium Saturday afternoon.

She will vie for the title along with a host of other beauties. Although winner will be announced at the game, the girls will have two full days of events to attend. They will be

judged all during the two-day schedule.

They will appear on the local Wichita TV stations, will be treated to a luncheon at the Wichita Club Friday with a brunch scheduled for Saturday. They will be featured in a gala parade in downtown Wichita Falls on Friday afternoon and will attend a Pioneer Bowl Banquet sponsored by the Fellowship of Christian Athletes Friday evening, Saturday the young ladies will be guests of the Wichita Falls Board of Commerce and Industry at the Pioneer Bowl football game.

Crowds Throng Haskell For Christmas Drawing

Holiday shoppers were in Haskell by the hundreds Saturday as the first of four cash drawings got underway on the Court House square. Preceding this, however, was the arrival of Old Santa Claus to visit with the youngsters of the county and take orders to fill Christmas stockings.

Santa rode into town on the Haskell Fire Truck and set up

headquarters in his sleigh on the square. Happy youngsters visited with him, and received bags of candy as a pre-Christmas gift.

The city was crammed full of shoppers and traffic slowed to a halt at times when the crowds became so numerous. The drawings, conducted by Chamber manager Rex Felker, saw 7 county residents add to their

Christmas shopping money.

The \$150.00 prize went to Mrs. Royce Williams on a ticket from M-System, No. A197991. Mrs. Bobby Tidwell has \$100.00 extra shopping money, thanks to her winning ticket from M-System, No. A076417. Lila Ramirez of Rochester won \$50.00 on a Dairy Cream ticket, No. A127040. Mrs. Jimmy Owens took home \$50.00 on ticket No. M-634621. Mrs. Benny Jackson cashed in a winning ticket from Gholson's Grocery, No. A057835, for \$50.00; Mrs. Lee Burson is another lucky winner of \$50.00 on ticket No. A-106990 from M-System; and Mrs. E. A. Schaake of Paint Creek also got her \$50.00 winning ticket from M System, No. A049435.

Five numbers were called however, that were not present for the drawing, so be sure you are on hand for Saturday's drawings. They'll take place at 3 p. m. on the Courthouse square this Saturday, and Santa will be on hand again to visit with the youngsters.

Rotarians will open it each weekday night at 6 p. m., except Wednesdays, for the enjoyment of all.

Rotarians from the shoot are designated in the club for their scholarship fund. People who enjoy shooting are invited to stop in and practice as much as they need, then compete for prizes of turkeys.

Letters To Santa Will Be Printed

Attention, boys and girls! It's time for those letters to Santa, and The Free Press will again accept the letters and publish them in the newspaper between now and Christmas.

Either mail your letters to Santa and send them in care of The Free Press, or bring your letters by the newspaper office. Get your letters in soon so we can be sure and bring them to Santa's attention!

Be A 'Good Fellow'

The 'good fellas' of Haskell only have a couple of weeks left to get their donations to the Goodfellow Fund at the Haskell Free Press office.

Funds continue to come in, but with a goal of \$1,200.00 set in order to help every family that needs help, it must come in soon.

Royce Adkins, chairman of the drive sponsored by the Lions Club, said "Although Christmas is almost here, there is still ample time for citizens to open their hearts and pockets and join the Goodfellows. I would appeal to every citizen to find the true meaning of Christmas by helping those not able to help themselves. Donating to the Goodfellow Fund is the best way in the world to do this. Every penny is used to fill baskets

with food. We also are in need of good, usable toys and clothing. They may be taken to the fire station."

Haskell Lions annually sponsor this drive so that every family in Haskell can have a merry Christmas. If you have not yet made your donation, you may do so at Haskell Free Press.

One was for exceeding the previous year's income, and one was for exceeding the Fair Share, \$2,783.00 was raised in the 1971 campaign. Region IV, a 20-county area of which Haskell is a part, was also presented a 'First Time' award for being the first region in the State Association ever to have reached Fair Share for the entire region. Darrell Royal was state Heart Fund chairman and will serve again for the 1972 campaign.

Haskell Cagers Rack Up Two Games In Clashes With Knox City Here

Haskell High hosted Knox City basketball teams here on Tuesday night, and both the boys and girls of Haskell won their contests.

In the girls game, Haskell defeated Knox City by a 44-38 score.

Pam Colbert led the scoring for Haskell with 25 points, followed by Glenda Gayle Chapman with 7 and Mary Ann Elliott with 12.

In the boys game, Haskell topped Knox City by a 71-65 score, when Jackie Young dropped in 19 points for the cagers. Tim Pringle and Frank Jirck both added 10 each; Joe Krefschmer made 9 and Jim Bob Mickler added 7 more.

Knox City's Lieb made 26 of their points, aided by Clonts with 19.

In the boys B team game, Haskell was defeated by Knox City, 81-33. James McCoy led Haskell's scoring with 13 points.

The varsity teams will be entered in the Munday tournament this weekend, with the first games played tonight.

Cotton Country:

(Cont. from Page 1, Sec. 1) like a mother. He stayed at our house more than theirs, and greeted me each time I stepped outside by putting a front paw on each of my shoulders and looking me square in the eye—nerve shattering!

The boxer named Torchy von Gruen whose sole purpose in life, it seemed, was the protection of my son. I was never able to spank him in Torchy's presence—the bared fangs of a 90-pound monster inhibited me somewhat.

I was even properly mournful, I thought, at the passing of a baby skunk named Blossom who didn't quite pull through a very necessary operation in order to be accepted by society, and therefore had a short-lived existence in the Comedy home.

These things will pass, I kept telling me, as I cleaned bird cages (she was a parakeet named 'Greta'); fed tropical fish (when the tank was too full they flopped out and dried up, and a funeral was first order of the day when he discovered them); picked bones out of flower beds (under the baleful eye of the boxer); and pulled dried up, unidentifiable objects from dirty jean pockets... someday, when he discovers girls and parties and movies.

And he did grow up and discover these things, but in the meantime he became a hunter, with a special interest in rattlesnakes.

Don't ask his mother why... but in Throckmorton this interest developed to a fine art, and he began keeping the live ones in a 'rattlesnake hotel' (escape-proof and locked) that he somehow wheedled me into letting him store in the back of the newspaper office by the mail machine.

It wasn't quite so horrible to live with as you might think—they were prone to hibernate after a day in the 'hotel' and you forgot they were there (if you tried hard enough) except when a sudden noise frightened them.

So guess who ran the mail machine on publishing day? Mom, that's who. I only went back there once each week, and had forgotten the snakes. Our pastor dropped in for a visit one day, and went to the pressroom with Bill and I to visit while we worked.

I turned on the motor of the mail machine. Bill turned on the press motor. The rattlesnakes (8 of them) rattled. Complete and utter chaos! I said words unbecoming a lady. My pastor beat a hasty retreat. (I think he forgave me—he was laughing).

That was the last blow to my dignity. The rattlesnakes were promptly moved.

Sorry about that one failure on the lady bit. Mom.

TV Appearance By Haskell Boys

A special program was on NBC-KRBC TV Channel 9, Abilene Sunday, Dec. 5 at 4:45 p. m. that featured the Cisco Jr. College Band and the Wrangler Belles appearance in the Macy's Thanksgiving Day parade in New York. The show also featured some slide pictures of Cisco.

During the program, three Haskell boys could be seen. They were Kenneth Hilliard, Randy Russell and Jerry Darden. The three boys are a part of the CJC band.

Guests on the show were Belles Captain Kay Nix, band drum major Brenda Barron, Belles director Pat Owens and band director Eris Ritchie.

Franklin Named 'Freshman of Year' At San Angelo State College

Angelo State University half-back Charley Franklin copped the "Freshman of the Year" award and the Rams placed four players among the 25 first team offensive and defensive picks on the 1971 coaches All-Lone Star Conference team.

Conference co-champions, Southwest Texas State and Howard Payne dominated the league selections. Franklin is a freshman health and physical education major and played his high school ball in Haskell.

Rams listed on the first team offensive line-up include full-back Jerry Austin, a junior from Lubbock (Coronado); tackle Rodney Cason, a senior from San Angelo (Lake View); and punting specialist Bill DeMent, a senior from San Angelo (Central).

Cason and Austin are repeaters on the All-Lone Star Conference Team. Austin turned in some 1,199 yards rushing in 10 games this season. DeMent picked up the punting crown for the third straight year by averaging 44.2 yards a kick.

Linebacker Thomas Williams, a sophomore from San Angelo

(Central) was the lone player on the first team defensive unit. The Rams placed six players on the second team. Rob Walker a senior from Haskell, a senior from Howard Payne, a sophomore from San Angelo (Central), a sophomore from San Angelo (Central), a junior from San Angelo (Central), and a junior from San Angelo (Central).

VA Questions And Answers

EDITOR'S NOTE: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q—What is the largest loan the Veterans Administration will guarantee for a mobile home?

A—For purchase of a mobile home only, \$10,000 to be repaid over 12 years and 32 days.

Q—I am a World War II veteran who filed for VA pension and was told to submit a medical report of my disabilities. I don't have a doctor, and can't afford to pay for a physical examination. What should I do?

A—Notify the VA office handling your claim of your circumstances. Describe your disabilities as best you can, making it clear that you are unable to pay for an examination. It may be possible to arrange for a VA clinic to examine you for your pension claim.

Q—Is it true that pensioners over 72 years of age no longer have to file annual income questionnaires with VA?

A—Yes. A recent law exempts 72 year old and older pensioners and dependent parents drawing dependency and indemnity compensation during two consecutive years from filing these questionnaires. However, you still must report changes in income.

About 20 per cent of the WW II and Korean Conflict veterans have income protection riders on their G.I. insurance policies, according to VA.

Uncle Sam is talking Texas again. He has announced the results of his 1910 census on swine and finds that our herd has increased in value 43 per cent during the past decade. There are people in Haskell,

as in most all other places, who contribute nothing to the support of the churches, or even speak well of the Christian religion. It is lamentable that such is the case. Suppose the religious services were stopped in this town for a year and the churches closed... how long would you want to live in it?

A number of Rose Chapel people had business in Haskell Saturday. It is understood that most of them almost froze and blew away.

Mrs. George Davis and little son, Harrell, of Waxahachie, came in Monday morning for a few days visit to her parents, Mr. and Mrs. T. M. Murray.

Texas is so resourceful in her agricultural products and industrial opportunities that, if necessary, she could feed, clothe, and house every person in her domain. Come to Texas.

D. A. Zeagler, of Denver, Colo., was here this week in interest of the Continental Building and Loan Association of that city. He succeeded in organizing a branch company here with N. McNeil as president and John L. Robertson, secretary.

J. C. Roberts left Wednesday night for Pecan Gap to see his mother, who is quite ill with typhoid fever.

County Savings Bond Report

R. W. Herren, chairman of the Haskell County Savings Bonds Committee, has announced that United States Savings Bond sales in Haskell county totaled \$7,038.00 during October. Sales for the 10 month period were \$90,159.00 with 41 per cent of the 1971 sales goal.

Series E and H Savings Bond sales in Texas during October were \$15,189,457. Sales for the first ten months of 1971 totaled \$167,863,056 which represents a 10.4 per cent increase over the same period last year.

Nationwide, sales were \$407 million during the month, unchanged from the same month a year ago. Redemptions were 19 per cent below last year's and the least for any October since 1962.

"For Christmas, give the gift that keeps on giving—United States Savings Bonds. Savings Bonds light up the tree with bright hopes for the future. When you make out your Christmas shopping list, include Savings Bonds," Chairman Herren stated.

DRIVE FRIENDLY takes on a new dimension as Jene Kincaid of El Paso makes a pointed plea for Texans to heed the message of the world's heaviest billboard. Erected during a highway construction project on Interstate Highway 10 in El Paso, the 210,000 pound steel beam billboard is 45 feet above the ground. Using the beam for the Drive Friendly message was the brain-child of J. D. Abrams, President of the El Paso Traffic Safety Council, who says that driving friendly means not driving while under the influence of alcohol or drugs.

THE WAGE - PRICE FREEZE

This column of questions and answers on the Wage and Price Freeze is provided by the local office of the U. S. Internal Revenue Service and is published as a public service. The column answers questions most frequently asked about the Wage and Price Freeze announced August 15 by President Nixon.

Q—My health insurance program at work is having its annual "open season". It's only at this time that an employee can increase his benefits or

change programs. Is this considered a fringe benefit prohibited by the freeze?
A—No. The fringe benefit prohibition does not apply to those benefit programs that, according to established practice, require an employee to exercise his right to join a program or to increase his benefits at a single specified time during the year or lose the opportunity to do so for at least a year. In such an instance, the employee may exercise his right even though the specified enrollment time falls within the freeze period.

Q—Where can I find the Policy Statements of the President's Cost of Living Council on the wage-price freeze?
A—Basic decisions of the Cost of Living Council are initially published in the form of questions and answers as well as declarative statements. They have appeared in most newspapers throughout the country. These decisions are subsequently published in the "Federal Register" as Economic Stabilization Regulations and Circulars.

Q—Can the bank that's financing my home mortgage loan increase amounts paid as "points"?
A—Since the variation of points is principally a function of interest rate changes, points are not subject to the freeze. Nevertheless, in keeping with the spirit and intent of the President's wage-price freeze, the level of these points should be no higher than that during the base period.

Q—Are customers entitled to inspect a store's records of prices prevailing during the base period?
A—Sellers must maintain lists of ceiling prices and customers have a right to inspect the lists on an item-by-item basis. If a customer questions the accuracy of ceiling prices for goods or services, the seller is encouraged but not required to show the supporting records of transactions on which the ceiling prices are based.

Q—What is the policy governing salary increases for teachers under the wage-price freeze?
A—The eligibility of teachers for pay increases is determined by the date each individual teacher became eligible to accrue wages at a higher rate. If this date was earlier than August 15, the increased rate of pay stays in effect through the freeze. Thus, the eligibility of any single teacher does not per se qualify everyone else. Each teacher's eligibility is deter-

QUESTIONS & ANSWERS
 (This column of questions and answers on the President's Economic Stabilization Program is provided by the local office of the U. S. Internal Revenue Service and is published as a public service. The column answers questions most frequently asked about wages and prices.)

Q—Will raw agricultural products, such as fresh fruit and vegetables, be excluded from the standards for prices set by the Price Commission?
A—Yes, just as during the freeze, raw agricultural products will be excluded.

Q—How will prices and wages be controlled by the Price Commission and the Pay Board?
A—The Price Commission and the Pay Board have pub-

Keith Chapman Honored By Co.

Keith Chapman, son of Mr. and Mrs. Jack Chapman, Rt. 1, Box 61, Haskell, Texas, has recently been honored by The Southwestern Company in Nashville, Tenn. Last summer Keith won special recognition in competition with more than 4,000 outstanding college students who were selected from approximately 400 colleges and universities to participate in the Southwestern Summer Program.

In competition with hundreds of students from schools such as The University of Oklahoma, the University of Missouri, the University of Texas, the University of California, and Harvard, Keith was among our Top 50 Student Managers. He also won the Gold Award which is presented for working over 80 hours every week of the summer.

Keith is a student at Texas A&M University at College Station, Texas. Due to the outstanding job that he has done in the past, he has been asked to return as a Student Manager and has already begun to select fellow college students to participate in the program with him this summer. Because of the tremendous amount of initiative, drive and determination Keith has displayed this year, his District Sales Manager, Al Godwin has predicted that he and the men who work with him in 1972 will make another outstanding record.

 A loan or advance against future wages is not considered to be an accrual of wages.

On Amchitka Island Shot

Haskell Man With AEC In Alaska

"Well, I got myself a task that will keep me busy until about March 1, 1972," wrote Hassell Hunter to his parents, Mr. and Mrs. Gene Hunter of Haskell.

He is in Amchitka, Alaska, and is Cannikin Post Shot Drilling Manager of the U. S. Atomic Energy Commission's recent mile below-ground atomic shot that has been in the news so much recently. He also is Drilling & Mining Branch Chief, normally stationed in Las Vegas.

"I came back up here 4 days after the shot to get the post shot drilling started. My job is to drill a hole back into the shot cavity and collect radioactive samples. These samples will be taken much in the same manner as oil well coring techniques," he explained.

The drilling rig Hunter will direct operations from is located 2300 feet from the Ground Zero site on Cannikin Island. The shot was made 5,875 feet below the earth surface, and the direction hole will be much longer than that to take radioactive samples in the bottom of the cavity it left.

"You are probably wondering, 'isn't this a dangerous task?' ... Not really," he assured his parents in the letter. "I've been planning this activity for over a year, and we are ready. Our containment system and monitoring is quite thorough and there is no danger, when properly planned and executed."

The AEC reports no large earthquake was triggered by the detonation, although hundreds of aftershocks much smaller in recorded magnitude than the shock wave from the explosion were registered in the vicinity until collapse of the surface of the cavity created by the detonation. This occurred about 38 hours after the test. These small aftershocks were no longer observable after the cavity collapse. A preliminary survey of the surface subsidence indicates it has a maximum depth of about 60 feet, with a radius of approximately 2,600 feet.

"Our pre-shot predictions were 50 feet deep and a 2,000 foot radius. You can see we didn't miss it much," Hunter wrote. "I'm enclosing an official press release. It's concerned more with the birds, sea otters and seals than it is in people... defending people... like U.S.A. citizens. But if you can interpret through all the ecology thing, you can see that the shot was completely successful. There were no earthquakes... no tidal waves... no permanent damage... no radiation leaks. It kinda gives you a message that the AEC did its homework and the results were exactly as forecast."

"It's a burdensome assign-

lished standards and criteria for the control of all prices and wages which will be covered during the post-freeze program. In addition, the economy will be divided into three parts or tiers for different surveillance and reporting procedures.

Certain large firms and collective bargaining units that are of critical importance for the control of inflation will be required to notify the Board or Commission in advance of proposed wage or price increases.

Other large economic units will be required to report periodically on their prices, employee compensation, and other matters as may be specified.

The behavior of prices and wages in the remainder of the economy, comprising the largest number of economic units (usually smaller firms), will be monitored by spot-check and investigations of complaints by the Internal Revenue Service.

Ft. Benjamin Harrison, Ind. (AHTNC) Nov. 19—Army Second Lieutenant Wendell F. Coston, 24, son of Mr. and Mrs. Roy F. Coston, Haskell, recently completed a nine-week Adjutant General Officer Basic Course at the U. S. Army Adjutant General School, Fort Benjamin Harrison, Ind.

The course is designed to prepare newly commissioned Adjutant Generals Corps officers for their first duty assignment. Their training includes instruction in leadership, administration, weapons, equipment, military staff relationship and the Army personnel system.

Lt. Coston was graduated in 1965 from Haskell High School. He received his M.B.A. degree in 1971 from Texas Christian University at Fort Worth. He is a member of Phi Delta Theta fraternity.

HHS SPANISH CLASS

The Spanish I class of Haskell High School is having a bake sale on Saturday, Dec. 11 at 1:30 p. m. There will be two stands set up in town; one will be on the north side of the square; the other on the west side. There will be cakes, pies, brownies and candy for sale. Buy your baked goods for the holidays from the HHS Spanish Class.

The Veterans Administration advises every veteran who sells a home purchased with a G.I. loan to get a "release of liability" before closing the sale.

Change of Meeting

The Haskell Garden Club will meet on Monday, Dec. 13, at the home of Mrs. Ed Hester, for their regular meeting at 3:30 p. m.

Each member is asked to bring a Christmas arrangement to be shown and also a gift for the patients of Vernon State Hospital.

Each member, too, is urged to decorate their homes, and help make our town more beautiful. The Christmas lighting contest in Haskell is sponsored by Haskell Garden Club.

Birthday Club Honors Mrs. Davis

The Happy Birthday Club met in regular session in the dining room at City Cafe in November, to honor Mrs. J. R. Davis.

After a short business meeting presided over by the president, new officers were elected. They are: President, Mrs. Della Corzine; vice president, Mrs. Travis Smith; secretary, Mrs. Eula Daniels.

The club will meet in the home of Mrs. A. R. Hanny, December 10 for their Christmas program and will honor Mrs. H. D. Bland.

TOP BOY AND GIRL—Commissioner J. R. Perry, center, congratulates Jim Ballard and Sue Hager on being named Gold Star Boy and Girl for their efforts in Haskell County 4-H work.

Holiday Party Enjoyed By Members Of Business & Professional Women's Club

Members and guests of Haskell Business and Professional Women's Club enjoyed a beautiful Christmas program and dinner Tuesday evening in the dining room at Felker's Restaurant.

Tables were laid with white cloths, and head table centerpiece was a beautifully simple white Christmas candle circled with poinsettias. Running the length of the banquet tables were strands of holly and red berries, interspersed with tall red candles in crystal holders, to add to the festive holiday mood.

President Lois Redwine opened the meeting and gave a warm welcome to members and visitors. Invocation was voiced by Mrs. Artie Mae Burkett, before the dinner of turkey and all the trimmings was served.

Mrs. Nettie McCollum introduced the speaker for the evening, Betty Jo Clanton. She presented a touching Christmas

Story entitled, "He Heard the Angels Sing," the tale of an orphan boy who was trying to learn a trade and chose that of a shepherd. He was one who saw the Star of Bethlehem and followed it to the birth of our Saviour.

Special guests for the evening were Mrs. Mildred Bennett, Mrs. Ethel Lou Clanton, Mrs. George Moeller, Mrs. I. N. McCollum and one new member was welcomed, Jeffie Adams.

Fourteen members were present for the meeting.

FFA Plans New Year Activities.

The Haskell FFA met Tuesday, Nov. 30. The meeting was called to order by President Ricky Phemister.

A committee consisting of Ricky Phemister, chairman, Alvin Sammons, Jimmy Lancaster, and Allen Moeller was appointed to recruit new members for the next year in Ag. Another committee was appointed to think of fund raising activities. This committee consisted of Keith Hanns, chairman, Steve Guess, Steve Sammons and Bobby Howard.

The chapter needs more money to enable them to have a banquet at the end of the year. The program activities were brought before the chapter and revised. The meeting was adjourned and refreshments were served.

Chamber Board Reviews Business

Officers and directors of the Chamber of Commerce met at Felker's Restaurant at 7 a. m. Tuesday, December 7. Elbert Johnson, president, presided for the business meeting which was opened with the invocation by Charles Thornhill.

The manager read the minutes of the last meeting and presented the financial statement for the month of November.

Charles Thornhill, chairman of the chamber's Retail Trade and Christmas Program Committees, gave a report on the current program being conducted.

Director Edith Wheatley, chairman of the annual chamber banquet, reported that the date had been set for Friday night, February 18, in the Elementary School and that one of the nation's outstanding after-dinner speakers had been engaged for the event.

Prexy Johnson reminded board members that Throckmorton's annual banquet would be held in that city at 7:30 p. m. Thursday, December 9, and encouraged everyone to attend so that Haskell would be well represented in Throckmorton.

The president also announced that committees were being appointed to select the chamber's outstanding worker for 1971, and to select a list of chamber members to put on

Equipment Properly To Achieve Efficiency In Cotton Harvesting

something that must be in good condition, according to Dr. Bob Metzger, Extension area agronomist at Lubbock. The machine must be adjusted to fit the individual field conditions and the operator must have the knowledge and desire to make the machine perform properly.

He reminds that brushes, augers, grates, bearings, belts, bushings, and chains should be checked and replaced if worn. The plant lifters and adjusters for header height, row spacing, stripping roll pressure, fan inlet baffles and elevator deflectors should be in good condition.

Among the more common reasons for harvest loss is driving the machine too fast. This often results in tagging and inefficient operation. Metzger says the machine must be centered on the rows for top performance; and that harvester and ground speeds must be matched to fit field conditions.

Improper header height can also be a problem. "In some cases, raising the header only one inch can reduce harvesting efficiency by four per cent," the agronomist explains. It does not take long to feel the bite of inefficiency out of the producer's pocket-book.

Another mistake is entering the row with the header raised or not centered on the cotton plants. Also, bolls are often bounced out the front of the machine after they are stripped. A chain or rubberized curtain can minimize this loss.

A combination of driving too fast and applying insufficient brush pressure on large stalks can cause lowered yields.

"This year, stalks are larger than average, and a high percentage of the bolls are near the base of the stalks," Metzger says. "This makes stripping difficult and generally means that ground speed will have to be reduced to allow better cleaning of the stalks."

The specialist says there are three important things to remember in making equipment adjustments. First, make sure all fruiting parts of the cotton enter the stripping units correctly. Next, see that the cotton is properly removed from the plants; and finally, that the cotton is all put into the basket or trailer.

"Once the source of an excessive field loss is determined, it is generally a simple matter to make the needed machine adjustment," Metzger explains.

He emphasizes the importance of harvesting efficiency because the current cotton price is better than in past years and the actual 1971 yield will be used to determine the payment base for 1972-73.

Driving Drunks Can Wreck Your Holiday

AUSTIN — Thanksgiving, Christmas, and New Year's are traditionally the season to be jolly, but for an estimated 70 Texans it may turn out to be a time to be drunk and dead as a result of a traffic crash.

The Texas Safety Association issued its estimate of the toll drunk drivers will take during the holiday periods in a news release from its Austin headquarters.

TSA stated that recent studies released by the Department of Transportation and other agencies points to the fact that during festive periods more than half of all drivers drink alcoholic beverages.

"This does not mean," said J. U. Parker of Houston, President of the statewide safety group, "that a majority of drivers on Texas streets and highways will consume enough alcohol to be dangerous on the highways. But it does call for extra attention by motorists to be alert to the dangers of drinking and driving."

"In one major city in Texas where roadside spot checks were conducted recently," Parker pointed out, "preliminary studies show 16 per cent of the drivers checked had blood alcohol levels of 0.10 per cent or more. In Texas a driver is presumed by law to be under the influence of intoxicating liquor if he has a blood alcohol concentration of 0.10 per cent or more."

"The motorists of Texas, for their sake and the sake of their passengers, need to recognize the potential dangers during the upcoming holiday season. They need to be alert, ready to take evasive action," said Parker.

"It also means," he continued, "that the sober motorist should do everything he can to encourage law enforcement agencies and the courts to get the chronic drunk driver off the road and keep him off the road until he is capable of returning to sober driving."

Parker said that his organization knows that it is really best not to drink at all if you are going to drive; but because of the various studies that have been made, it knows many Texans do drink and drive.

"The Texas Safety Association," Parker commented, "believes that it is in the best interest of these people to make available charts to show how much alcohol the average, healthy adult can consume before reaching a blood alcohol concentration of 0.05 per cent. While Texas law sets 0.10 per cent as evidence of intoxication, experts have found that many drivers lose their ability to safely handle a vehicle in traffic when they have a 0.05 per cent blood alcohol level."

The safety association president cautioned that in using these charts Texans should realize that inexperienced drinkers, young drinkers, those using other drugs, and those who are ill may not be able to consume as much alcohol as indicated on the charts and still be able to drive safely.

"The Texas Safety Association hated to issue a release of this type because Thanksgiving, Christmas and New Year's are, and should be, times of joy, friendship, and family love. But we know, just as certainly as Christmas comes on December 25, and New Year's Eve on December 31, that driving drunks will rob Texans of the joy, friendship, and love that is rightfully ours," concluded.

Sen. Hightower Installed As New Grand Master

Waco, Texas, Dec. 2.—Senator Jack Hightower of Vernon, installed today as Grand Master of the Masonic Grand Lodge of Texas, has announced the appointment of David Counts of Knox City, Texas as District Deputy Grand Master of Masonic District No. 91.

Mr. Counts, an active Mason in this area, will serve nine lodges, as the representative of the Grand Master for a one-year period.

In making the announcement, Grand Master Hightower stated: "I appreciate the fact that Mr. Counts has agreed to serve in this important position. His active participation in Masonic and community affairs proves his qualification for this place of service."

CONSERVATION VIEW POINTS

J. C. YEARY, JR.
District Conservationist

Application of conservation practices is at a standstill currently due to last week's rain and snow. However, several producers are now engaged in putting some work on the land. Wallace Dudensing and Milton Christian have grassed waterways under construction. J. P. Perrin, W. H. McBroom and LeeRoy Casey are waiting for the weather to dry up to start construction of parallel terraces. W. N. Cole, Rober Turner, Jack Neathery, R. A. Shaver, Jr., and Ray Carter have irrigation pipelines ready to lay as soon as weather permits.

Many people still ask what the Soil Conservation Service does. We have several functions in Texas. The expansion on a national basis, of the original concepts of soil and water conservation has resulted in our total involvement in the use, conservation, and enhancement of renewable natural resources. This is done in cooperation with the two soil and water conservation districts that operate in Haskell County, the California Creek SWCD in the south part of the county and the Wichita-Brazos SWCD in the north part. Other subdivision of State government such as counties, cities, and special purpose districts, and other State and Federal agencies are involved in this work along with SCS.

A major function of SCS in Haskell County is to assist landowners and operators plan and apply soil-water-plant conservation programs. Conservation plans are the basis of this work, and are prepared by district cooperators with technical assistance from SCS. In developing a plan the cooperator and SCS technician consider (1) soils capability; (2) needs of the land for protection and improvement; (3) cooperator's desires; (4) latest technology in applicable scientific fields, such as agronomy, biology, engineering, other, and (5) alternate treatments.

When all is said and done, the entire aspect of conservation is to conserve soil, water, plants and people; and to improve the economic conditions of our place of abode.

Assisting me with the planning work are Earnest L. Cowger and Noble J. Boykin, while Harry L. Koehler and Milton I. Christian assist with the application of the planned conservation work.

Do not rely on your memory if you have lost your social security card. Make application with any social security office and obtain a new card with the same old number on it.

Creek Community News

Mrs. Gene Overton

ill at the hospital in Wichita Falls. He has undergone surgery, but is still in serious condition. He and his family would appreciate cards. We have had very few people as loyal to Paint Creek community and school as the Pustejovskys.

Have you seen Dale and Ruby Mae's lovely new brick home on the Paint Creek farm to market road? It has a rough shingle roof, white columned porch, and is of brick veneer. It is a beautiful addition to the community. They have done a great deal of the building themselves, and we are proud of it for them.

Johnny Paul, April and Seattle Montgomery of Odessa visited their grandparents, Mrs. Howard Montgomery and Mr. and Mrs. Woodrow Smith.

Mr. and Mrs. Burl Medford had Thanksgiving dinner for their families. Her parents, Mr. and Mrs. Henry Thane; her sister's family, Mr. and Mrs. Wayne Niehlson and children of Wichita Falls; Burl's parents, Mr. and Mrs. Leon Medford, and his brother's family, Mr. and Mrs. Ronnie Medford and son of Odessa.

Wallar Overton spent the weekend in Temple with his brother, Capt. and Mrs. Mike Overton of Ft. Leavenworth, Kansas. They visited with Dr. and Mrs. Gary Gosney. Capt. and Mrs. Overton were house-hunting. They will be in College Station in school when Captain Overton leaves the service.

Mrs. Bill Gay returned to her classes Tuesday. Mrs. Jesse Guadalcazar is a patient in the Haskell Memorial Hospital this week.

Phil Williams from Lubbock and visiting her Mrs. Jess her brothers, Abby and Twain families.

Home Lighting Contest

Haskell Garden Club will sponsor this year's Christmas lighting contest at the homes of Haskell. The lighting contest has become an annual affair with different civic clubs and companies about Haskell sponsoring it.

The Garden Club will offer attractive first, second, and third place prizes in three divisions: the best lighted window, the best lighted door, and the most beautiful and appropriate Christmas scene overall. However, in an attempt to separate the "comic" scenes from the "religious" scenes in judging, the Garden Club will offer prizes in each division under both themes.

Lights are to be turned on from six to nine p. m. each night starting December 12 and continuing through Christmas night. Citizens of Haskell planning to enter the home lighting contest are asked to fill in the application form in this edition of the Free Press, and return it to: Mrs. M. E. Overton, RFD 2, Box 86, Haskell, not later than December 15, deadline for entering.

Out-of-town judges will evaluate the entries some time between December 15 and 18. Winners in the various divisions will be notified shortly after they are judged.

Mrs. Overton, heading the contest for the Garden Club, urged Haskell people to "not only decorate their homes for the contest but to help light the city and make it a more beautiful and happy holiday season here."

R-PEP Seminar Set In Seymour December 15

SEYMOUR (Special) — The dollars invested in young beef animals foraging this winter on small grains in the Texas Rolling Plains are in the millions.

To help protect those millions with a view also to increasing the net profits from them is the purpose of the R-PEP Stocker Health Seminar here on Dec. 15 in City Auditorium.

Registration fee is to be \$2, and the program begins at 2 p. m., emceed by Baylor County farmer-rancher Lawrence Harmel.

The seminar is one of several educational projects in the long-range plan of work adopted recently by the R-PEP Beef Cattle Task Force, whose chairman is himself a veteran cattleman, Stanton Brown, manager of the League Ranch near Benjamin.

(R-PEP, the short of "Rolling Plains Economic Program", initiated four years ago by local citizens and the Texas A&M University College of Agriculture to increase net agricultural income in the 29 counties of the area.)

Two speakers are scheduled: Dr. C. E. Deyhle of Clarendon, consulting veterinarian for several West Texas feedlot operations, who will talk on preventing and treating many common diseases of stocker calves, especially from the time they are weaned.

Pat Sheppard, with his father owner and manager of the Grady Sheppard Feedlot at Hale Center, who will discuss "preconditioning", or how to

treat stockers about to enter the feedlot.

Others on the Beef Cattle Task Force are Shackelford County Agricultural Agent Lawrence E. Winkler; Harmel; Throckmorton rancher-banker Jack McKnight; R. L. Bland of Cal-Tex Feed Yards at Merkel; W. J. (Dub) Waldrip, manager of the Spade Ranch near Colorado City; Rotan rancher-banker Wayne Harris; rancher Bill Bradley of Childress; Abilene rancher Joe Antille; Gary Mathis, superintendent of the Texas A&M University Experimental Ranch near Throckmorton; Dr. Roy V. Miller and Norman W. Brints of Vernon, range and brush control specialist and the farm management specialist with Texas Agricultural Extension Service, and Jay Humphreys, manager of Pitchfork Ranch at Guthrie.

Great Interest Is Shown In Phase II

(Dallas, Texas) — Statistics issued by the Internal Revenue Service reflect great public interest in the wage regulations of the President's Economic Stabilization Program. Ellis Campbell, Jr., District Director for North Texas, said that 3000 inquiries regarding economic control regulations were received by the IRS information centers for the opening week of the second phase. The public showed the most interest in wage controls, directing 57 per cent of their questions toward wages. Prices were second with 32 per cent, followed by rents, with 11 per cent.

Mr. Campbell attributed the increase in public interest to the new rulings by the Pay Board and Price Commission, which have been receiving extensive coverage by the Nation's news media.

Abilene, Munday Classing Reports

ABILENE — Rain and cold weather halted the harvest in the Abilene territory, according to the U.S.D.A. Consumer and Marketing Service.

B. B. Manly, Jr., Officer-in-Charge of the Abilene Classing Office, reports that 4,700 samples were classed for the week ending Dec. 3, 1971. This brings the season's total to 10,500 samples classed compared to 242,000 for a season's total a year ago.

Thirty-nine per cent of the samples classed were in the white category, 55 per cent were light spotted, with Middling Light Spotted the predominant grade at 30 per cent.

Staple lengths were 16 per cent, 30; 38 per cent, 31; and 31 per cent, 32.

Micronaire readings were in the premium range on 62 per cent of the samples.

Strength readings have been very discouraging thus far this year.

The majority of the cotton in the areas is still selling for 26.00 to 28.00 cents.

MUNDAY — Rain and snow completely stopped harvest operations in the area serviced by the Munday Cotton Classing Office, reports Shirley A. Sewell, Officer-in-Charge.

Sample receipts increased this week due mostly to cotton harvested last weekend. According to the USDA's Consumer and Marketing Service, 1,572 samples were classed this week, bringing the season's total to 2,653. This compares with 55,000 samples classed by the same date last year.

Quality statistics for the week ending December 3, 1971, show a decline in the quality of cotton classed. This is due partially to the increased percentage of shorter staple, strip-type cotton harvested. Ten

per cent of the cotton graded in the white grades compared to 22 per cent the previous week. Forty-seven per cent graded Strict Low Middling Light Spotted, up 12 percentage points over last week. Eighteen per cent graded Low Middling Light Spotted. Thirty-one per cent of the cotton classed was reduced in grade due to bark or grass, compared to 14 per cent last week. The predominant staple lengths show 24 per cent 31's, 28 per cent 32's, 26 per cent 33's, and 10 per cent 34's and longer.

The micronaire readings remained about the same as the previous week with 97 per cent grading in the desirable range of 3.5-4.9.

Prices received by growers were steady at 26.00 to 27.75 cents per pound, hog round. Offerings were light due to the low volume ginned.

Welcome, Newcomers

Haskell is proud to welcome new residents, G Sgt. and Mrs. George O. Lawlar Jr. They have three children, George III, 11, Teresa Jane, 9, and Becky 2.

The family will move here this weekend from Decatur, Ill., to 604 N. 6th Street.

Mrs. Lawlar is the daughter of Mrs. Vivian Akins of Haskell and also has two grandmothers living here, Mrs. J. E. Bernard and Mrs. O. O. Akins.

RECENT VISITORS

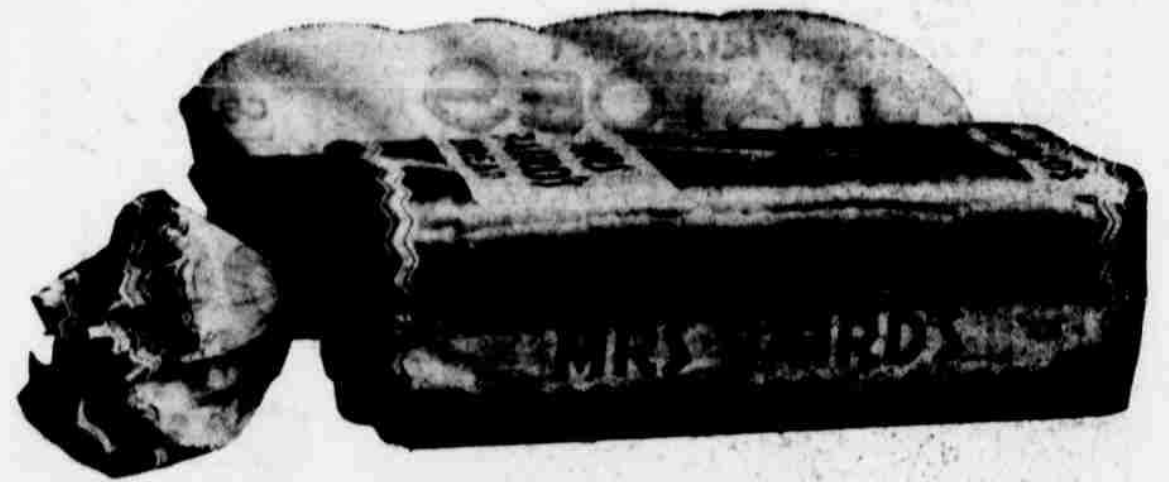

Mr. and Mrs. Bob Lee and Patti of Bloomfield, N. M. visited here recently with his aunts, Mrs. Sterling Edwards, Mrs. Earl Roberts and Mr. and Mrs. Harry Bradley.
