Demos Set 786 As Voter Quota

The "Operation Everybody!" voter quota for Haskell County has been set by the Texas Democratic Party at 786. That figure represents 65% of our estimated eligible voting population. The state goal of the Democratic Party is to have five million Texans registered between now and April 5, 1972, the last day to register in order to be eligible to vote in the May 5 primary.

"Operation Everybody!" is a project of the State Democratic Executive Committee. The special drive is headed by Mrs. James A. McMullen, III, of Ft. Worth, chairman, with Mrs. Abbie K. Evans of Houston as vice-chairman.

Voter registration is free, but everyone must register in order to vote in the 1972 elections. Application forms are at the County Tax Assessor's office in the courthouse.

A special plea is being made to all 18, 19 and 20 year olds to register and take advantage of the new law which entitles them to vote for the first time.

Our county will be competing with other counties of similar size for statewide recognition in doing a good job.

Gold, silver, and bronze plaques will be awarded to the which exceed their quotas by the highest margins. All counties which meet their quotas will receive special certificates of merit.

**WHAT WILL THE 1972 FIGURES BE? . . . ONLY YOU
OUR CUSTOMERS AND FRIENDS . . . CAN ANSWER THIS.**

As you can see from our record, we feel we have provided a market for both hogs and cattle, on a competitive basis. We have recently been asked by a Texas-Oklahoma hog buyer to use our facilities one day a week to buy hogs. The lease money we would receive would probably be more beneficial to Haskell Livestock.

BUT, if we discontinue the hog sale, we will have to lay off employees. If we do this, it will affect the economy of our community, won't it?

Also, when these hog stations stop competitive bidding at the auctions, then they can buy the hogs at their own one-bid price.

Yes, Haskell Livestock Auction charges a commission for selling hogs. For this, you, our customers, receive the following:

Your hogs are insured. From the time they are loaded into the trailer until they are sold at Haskell Livestock. If your trailer should turn over, or your hogs get crippled or die, you get paid for them at Haskell Livestock. You don't at a hog buying station. Ask our customers.

Also, we are bonded and insured. This simply means you won't get a hot check from Haskell Livestock. Ask our

bank. You could get one from a hog buyer that just comes to our town once a week.

Also, we are registered with the Packers and Stockyards. Some hog stations are not. The Federal government is investigating them!

We must have a veterinarian and State animal health man on duty during a sale. A hog buying station must also have these. Some do not. The state is investigating this.

These are some of the services you receive when you buy or sell at Haskell Livestock.

NOW, we would like to list some of the services we give, and do not charge for . . .

We have enticed buyers to attend our sale from all over the state, as well as out-of-state. These people trade with Haskell merchants. Does a hog station buyer do this? We're afraid not—ask some of the towns that have them.

We have furnished a place for the 4-H and FFA boys and girls to sell their club animals the past four years.

We have furnished sound equipment for various events in the county and other counties around us. This year, we will sell the Aspermont, Jayton and Snyder, Texas club sales to help the youth there.

We have organized and held the only Trail Drive in the state for the past three years, and furnished a beef and free barbecue for people in the area.

We have furnished a complete Rodeo Arena with lights for both young and old to play in.

We have been advertising Haskell Livestock and Haskell three days a week over one of the major radio stations every week, and support our local newspaper the same way.

This is not all of the free service we try to provide to our area and community, but we doubt that a hog buyer at a hog station would help in any of the above-mentioned ways.

So, after considering all the facts, we at Haskell Livestock have decided to try and continue selling your hogs on a competitive market, instead of just a one-bid market.

We want to thank you, the people of Haskell County, for your support, and ask you for your continued support by bringing your cattle and hogs to our sale every Saturday.

Thank you for reading this.

Haskell High Happenings

BY HENERITA HENDERSON

The senior play was certainly a success. Congratulations to the cast of "Twelve Angry People" and to Mrs. Diggs.

It seems every Junior in High School is reading a paperback book. Mrs. Weaver's second period class is reading "Light in The Forest." Mrs. Middleton's third period class read

To Kill A Mockingbird and her sixth period class read Act I. These are three very good books that are hard to put down once a student starts reading them. The only thing that isn't very pleasant are the tests over the selection. Nevertheless, everyone enjoyed reading them.

Band try-outs for chairs have

been going on for about a week now and everybody is getting shuffled around. Getting a new position in a section is something to look forward to if one moves up. Even if a student gets toward the end, he still can challenge the one in front of him. Anyone knows that unless you are first chair, you shouldn't be satisfied. So why doesn't anyone challenge?

Friday is the last basketball game here at Haskell in the gym. Let's see if we can fill the gym up for this game. The Indians and the Maidens will both be playing.

Wednesday six happy girls left Haskell for Abilene to go to the Chicago concert. These girls, Jill Flacher, Marilu McCauley, Susie McAdoo, Denise

EARLY BIRD BEGONIAS

NEW YORK (ED)—If you're one of those flower fanciers for whom the Belgian tuberous begonia has been a long-time favorite, you'll be happy to learn that you can begin to enjoy these exotic blooms earlier in the season than you would have ordinarily expected.

A new method, developed by Dr. George Milstein, a well-known indoor horticulturist, will enable you to "jump the gun" by "awakening" the dormant tubers a month or two ahead of schedule. Dr. Milstein uses two-inch high containers for starting the tubers and fills them about two-thirds full with a peat moss growing mixture called "Pro-Mix". Dampen (don't soak) the mixture, and gently press the begonia tubers about one-half inch deep into the medium. Be certain that the concavities are facing upwards. The entire container is covered with about four to six thicknesses of wet paper towels or napkins.

"It is almost miraculous how promptly the dormant Belgian

begonia tubers will respond to the treatment," says Dr. Milstein. In less than two weeks you can expect to see sprouts as well as roots appear. When the sprouts begin to demonstrate leaf development, the paper should be discarded and the tubers planted about one and a half inches below the surface of Pro-Mix-filled half pots.

For best results, place the pots from six to eight inches below full-spectrum "Naturiscent" lights. According to Dr. Milstein, the Pro-Mix, which should never be allowed to become too wet or too dry, is a key factor because it allows the delicate, fine begonia roots to penetrate without damage, and the indoor "sunshine" of the Naturiscent tuber develops all the beauty of flowers and foliage for which the Belgian begonia is justly famous.

Roberson, Bonnie Adkins and Diane Tidwell, had a fantastic time at the concert. Afterwards, they stopped to eat.

They started home in the cold, wet weather at about 11:15 p. m. About three miles out of Haskell, Jill exclaimed that the highway sure was slick. The car was weaving back and forth across the highway when Denise suggested that they might slow down. Suddenly, there was a loud bang, followed by a speeping sound. It "stunk to high heaven" as Marilu said, "and I was afraid that we weren't going to get out before it blew up."

When Bonnie told about it

she said, "We got out and that tire was flat!" They tried to drive on it, but it was just too loud! Susie had heard that it just might ruin the tire, but they caught a ride into town.

The Bus Arrived!

Dr. Troy Culpepper, pastor of First Baptist Church, and all the membership of the church were happy this week. The new church bus arrived.

The congregation has been working on this purchase since the revival services last year, when a fund was begun to purchase the vehicle for use of all members of the church. It will be used for retreats, music clinics, encampments, Gloria-ta Baptist Assembly, and trips to other churches, etc.

"It is a beautiful bus," Dr. Culpepper said, "and we hope to have it on display on our parking lot during Sunday's services, so that everyone may see it."

NATIONAL 4-H WINNER GIVES HINTS FOR SKI PHOTOGRAPHY

OLATHE, COLO.—When snow blankets the mountain trails, young folks in the ski country of Colorado head for the hills. And often it's with camera in hand, says a skier-photographer who became a local celebrity.

Dan Westesen, 17, recently was named one of six national winners of \$1,000 scholarships in the 4-H photography project conducted by the Cooperative Extension Service, sponsored by Eastman Kodak Company. Nearly 100,000 4-H'ers take part in the program.

The Olathe High School junior claims photography is one way his generation gets its opinions across. "Young people today have grown up on television and with audio-visual aids in school," he says. "Photography fits into just about every facet of our lives—vacations, club work, school and social life." Recently he photographed a Walt Disney-type essay about a skunk for biology class, and he frequently prepares slide presentations for school use.

Some of this national photography winner's suggestions for getting the season's best ski photos are . . .
 . . . be sure to stuff plenty of film and flashbulbs into your pockets. They're hard to come by when you're out on a slope with nothing but snow and skiers in sight.
 . . . people and personality in photographs. Instead of photographing a barren slope, wait until some skiers are on it.
 . . . morning or late afternoon are the best times to get ski photos. The lighting then makes

The Great Plains Conserva- tion Program, currently oper- ating on decreased funds in Haskell County, is still fulfill- ing the entire needs of the fam- ily-type farm. Cost-share as- sistance is available for con- verting cropland to grassland, grassed waterways, parallel terraces, diversions, farm ponds, brush control, range seeding and many other con- servation practices. Due to lack of sufficient funds we are only able to develop three or four contracts annually, and at present we have a small back- log of applications.

Each application is given a priority for development based on the severity of the erosion problems existing on the land. Land that is highly susceptible to both wind and water erosion receives high priority. Land that is only moderately suscep- tible to wind and water erosion, or has moderate water conser- vation problems, receives me- dium priority. Land having little to no severity of erosion problems or irrigated land is placed in low priority.

Last week GPCP contracts were approved for Leta and Milton Christian of Haskell; the Ed Hester Estate, W. H. Mc- Broom, Operator, of Haskell; the Ed Hester Estate, Jimmy D. Browning, Operator, of Has- kell; and J. P. Perrin of Has- kell.

Work is currently being car- ried out on schedule with Ken- neth Lane and M. F. Wheatley.

**The standard deduction
is up this year. But
maybe you should itemize.**

Your best buddy Lenny might have told you to itemize your deductions because it could save you more tax dollars. Your neighbor possibly suggested taking the standard deduction because you'd pay less taxes that way.

And Frank down at the office . . . he helps everybody with their return . . . what did Frank recommend?

If there's some way to save you money on your income tax, H & R Block will know how to do it.

Itemized and stand- ard deductions are noth- ing new. We've been preparing returns for years using both. We'll figure out your situation both ways and then prepare your return using the method that's best for you.

You see, for only a few dollars more than it costs to do it yourself (with advice maybe from some other amateur), you can have your tax return prepared with complete confidentiality by a specially trained member of the H & R Block team. There are thousands of them in over 6,000 conven- iently located offices.

Each member of H & R Block is warm, friendly and anxious to help you. A visit to H & R Block usually takes just a short time. Once in our office, you sit down over a free cup of coffee and possibly learn

things about your income tax that you never knew existed. Things that we know, because income tax returns are our only business.

H & R Block's fees start at \$5 and the average cost was under \$12.50 for over 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal repre- sentative.

It means that H & R Block also offers you year 'round tax service for just one low fee, with no extra charge for audits and estimates.

Yes, it's true. The standard deduction is up this year.

It's one of the many things we'll consider when we do your return.

**Farmers Union Organization Has
Deep Roots In Texas History**

Farmers Union has its roots deep in the history and tradi- tions of Texas. It was organ- ized at Point, Rains County, Sept. 2, 1902, where three years later a tiny railroad station was swamped with mail sacks containing dues for a million farmers. A country editor, Newt Gresham, meeting with ten farmers in a barn, made the plans to borrow \$1,000.00 and to organize the Farmers Educational and Cooperative Union of America. From this

humble beginning grew what is today the National Farmers Union of America, a major nationwide farm organization. The era that produced the Farmers Union had earlier produced the Granger anti- monopoly drive, the Greenback, another monetary campaign, The Farmers Alliance and the Populist Party. It was a time of protest, and the farmers of the day were leading the pro- test movement. At the first meeting in Point, founder Gre-

sham said, "A farm organiza- tion should have enough mem- bers so it can give farmers power in Congress and in the state legislature. Laws are made which hurt us and we never even know when they are passed. We need an organiza- tion so we can keep a rep- resentative in Washington and at the state capitol." Gresham's challenge was soon to be trans- lated into a missionary spirit and early in its history Farm- ers Union spread like a prairie fire, especially through the South. Gresham served as the first national president, but was soon to be succeeded by Charles Barrett of Union City, Georgia.

Today the National Farmers Union is made up of a member- ship of over 250,000 farm fam- ilies. The Texas Farmers Union, represents its members legislatively at the state and national levels. The current president is Jay Naman of Wa- co and the state office is at 800 Lake Air Drive, Waco, Texas. National Farmers Union Life Insurance Company and Na- tional Farmers Union Property and Casualty Company, wholly owned subsidiaries of National Farmers Union Service Corp., have their regional office on 800 Lake Air Drive, Waco, Tex. The insurances are divided in- to two functions: production and claims. There are some 60

agents for Farmers Union insurance in Texas.

The Texas organization composed of county units, nine organized districts in which reside district directors, vic- e-directors and district secre- taries. The state vice-president, Jo Rankin of Falls and the district director for Has- kell county is Foy Mitchell, Roli District III.

Haskell County History

60 YEARS AGO Feb. 3, 1912

Mr. C. H. Russell authorizes to announce him as a candidate for re-election to the office of public weigher for district no. 1. So far as we have been able to learn Mr. Russell is made an honest, efficient and accurate public weigher.

Jud Robertson of Jud was in Haskell Wednesday. Mr. Robertson is one of the pioneers of this county.

There was quite a serious accident occurred at Rochester Monday evening as Leon Varman's horse fell with him, rendering him unconscious for short time, however, he is resting very well at this writing.

A large crowd attended the singing at Mr. Brown's Sunday night. They had some good orders and fine singing.

We are getting better in Texas every day. We have stacked hay, sheathed swords and the outstretched hands welcome everybody to Texas.

Government Agent Latham reports that the organization of boys and girls club, Maize is progressing nicely.

Mr. and Mrs. B. W. Bigham accompanied her home.

30 YEARS AGO Feb. 3, 1912

Mrs. Perry's parents, J. R. Dinsmore and family Tuesday afternoon.

Mrs. H. L. Bosse gave a supper Wednesday night in honor of her husband's birthday. Those invited were Ray Overton and family, Alvin Herrin and wife, Glenn Stanford and wife.

Most folks that have bolls to pull have been trying to finish them up the past week.

Mrs. and Mmes. Taylor Alvis and Argin Carrigan of Rose spent Saturday night with Tony Patterson and family.

Mr. and Mrs. Calvin Davis spent the weekend with the latter's parents, Mr. and Mrs. Barton of Haskell.

Miss Sibyl Scott of Midway has returned home from Ballinger, after spending several weeks with relatives. She also visited in Sterling City, San Angelo and Winters while away.

Mr. and Mrs. B. W. Bigham accompanied her home.

The farm home of Mr. and Mrs. Ray Lancaaster, located about seven and one-half miles northeast of Haskell in the Mattson section, was totally destroyed by fire early Monday morning. All the furniture and household goods of the family were also lost in the flames.

On Monday, February 2, the wishes of practically every student in Haskell High were fulfilled, for the school had been moved into the new building. Although the actual day for beginning classes in the new location was Monday, some were held in it on Friday.

Mrs. Ed Day and children, Edward and Barbara, spent the weekend with relatives in Mangum, Okla.

A dinner was given in the home of Mr. and Mrs. L. H. Schroeder Saturday of last week honoring their son, Leon, who has volunteered for service in the U. S. Navy. He has enlisted as a second class Navy carpenter.

To stimulate interest in the observance of Boy Scout Week, from Feb. 6 to 13, H. B. Leathers, manager of the Texas Theatre, announced that the theatre would give a Western Flyer bicycle to the most active Boy Scout in Haskell county as determined in a voting contest by the theatre.

Albert Alvis has returned home from Houston where he has been working for several months.

Rotary Hears Dr. Harry Sarles

Haskell Rotary Club held their regular meeting at the Haskell Steak House at noon, with vice president Bob Philpot presiding.

Philpot announced that four members were absent with three of them being due to illness. Bill Comedy, T. C. Walker and E. J. Stewart were unable to attend for that reason.

He also presented an award which the Rotary Club had received from the Progressive Study Club in recognition of the club's participation in the Cleanup Haskell campaign. The honor was received for the Rotary Club's work in disposing

of junk automobiles in the city of Haskell.

Ferrel Coston, program chairman, introduced Dr. Harry Sarles, pastor of the Presbyterian Church, as his program for the day.

Dr. Sarles gave a most interesting and informative talk on what he called the drastic change in emphasis placed on many walks of modern day life. He stated that more concern nowadays is on function, what you can do and how you do it, rather than on "status" as it was in the past.

He stressed the fact that modern churches have to be under lock and key during the night time hours for the prevention of vandalism instead of being open at all hours for worshippers as used to be the case. "No longer does the American public accept status as the latest word," he said in closing his address.

Invocation for the meeting was given by Rev. H. O. Abbott

and the guests were introduced by R. C. Couch Jr. Eric Whitaker and Lawrence Kilgore were guests from the Senior Class of Haskell High School.

Today's meeting, February 3, will be held at the Steak House.

Senior Play Is Huge Success

Fantastic performances were turned in Thursday night, Jan. 27, by Haskell High students in the annual Senior Play. "Twelve Angry People" by Reginald Rose, is a challenging play with a lot of emotion and a formidable amount of dialogue for the characters, and the cast took it all in stride like 'old pros.'

The twelve jurists, Jeleta Blankenship, Judy Lehde, Ann Watson, Roy Isbell, Pat Harris, Sandra Josselle, Denia McDonald, Connie Berry, Karen Pippin, Doris Wootan, Beth Lowrey and Betty Steele, carried the play beautifully through a lot of laughs, high-tension drama, and a resounding climax. Nancy Middleton was guard, and Bob Shea served as Judge in the play, directed commendably by Mrs. Kathleen Diggs.

"Well Done!" to everyone who had a hand in making the play such a success!

Registration Is Open All Year

Secretary of State Bob Bullock said today that despite some newspaper articles and radio bulletins to the contrary, voter registration does not end on January 31.

Secretary Bullock said, "I am aware of at least two newspaper articles and several radio announcements which state that January 31 is the last day for voter registration. Apparently there is some confusion about the new voter registration law passed by the last legislature. Under the new law, voters can register any time during the year. However, persons must register at least 30 days prior to an election, to be able to vote in that election."

Bullock stated that his office was mailing a reminder of the new voter registration law to

all County Tax Assessor-Collectors who are responsible for issuing voter registration certificates.

Phyllis George Heads Easter Seal Campaign

Miss Phyllis George of Denton, Miss America of 1971, has been named Chairman of the 1972 Easter Seal Campaign in Texas.

Rodney Hargrave of Dallas, President of the Easter Seal Society for Crippled Children and Adults of Texas, announced that Miss George will lead over 35,000 volunteers in the annual appeal for funds.

As State Easter Seal Chairman, Phyllis joins with 234 local Easter Seal Chairmen and representatives throughout Texas who are participating in the annual funds appeal of the

Texas Easter Seal Society. Last year, 21,562 crippled children and adults in Texas received rehabilitation and other services rendered by the Texas Society through a statewide network of affiliated Easter Seal Societies which includes 19 treatment centers.

Awards as Miss Dallas 1970 and Miss Texas 1970 preceded Miss George's successful competition for the Title of Miss America 1971. She was named Texan of the Year for 1971 and nominated to Outstanding Young Women of America for 1971. In her role as Miss America, she took the "Miss America USO Show" to Vietnam for the enjoyment of troops stationed in that country.

Miss George is a graduate of Denton High School. When she was a senior in Elementary Education at North Texas State University in Denton, her honors included University Beauty and Kappa Sigma Fraternity Sweetheart. She is a member of Zeta Tau Alpha Sorority and the Pan-Hellenic Council.

STORY OF FARMERS UNION

CHARTERED 1902—POINT, RAINS CO., TEXAS

(This is the fifth of 52 articles pertaining to goals and accomplishments since 1902, running every Thursday in the Haskell Free Press.)

1916—The Federal Farm Loan Act became law, leading to the establishment of regional Federal Land Banks and the related National Farm Loan Association. This legislation was a compromise between those like Farmers Union who wanted a stronger program, and those like Secretary of Agriculture Houston who had no such federal program at all, it was nevertheless the first recognition that government had a responsibility to deal with the credit crisis in agriculture.

1918—NFU President Charles Barrett and the National Board of Farm Organizations issued a statement following a three-day meeting regarding support of the fight for agriculture, pointing out that better farm prices and reasonable credit were needed to assure ample production.

1918—President Wilson vetoed a bill setting the minimum wheat price at \$2.40 per bushel, a legislative measure which had been sought by Farmers Union.

1920—National Farmers Union invited the National Milk Producers, the National Grange, the Farmers National Congress, the American Cotton Association and the American Farm Bureau to a meeting seeking their endorsement of the Capper-Volstead bill, which had drafted by NFU President Charles Barrett. This bill was passed in the following Congress as the Capper-Volstead Act.

1921—The Packers and Stockyards Act became law, climaxing a four-year fight by National Farmers Union and the National Board of Farm Organizations (led by NFU President Charles Barrett) to break the virtual monopoly in the livestock meat business held by five major meat packers, who controlled 86 percent of the volume and owned railroads, stockyards and cold storage plants. The packers and stockyards Act, however, was not as strong as the original act sought by Farmers Union. The agreement in 1920 in federal court by five packers in the so-called Capper Consent Decree to cease monopolizing the livestock and meat business served to ease some of the steam out of demands for regulatory legislation.

It pertained to people and how they are disappointed in some of their actions and how they could be improved. He gave the talk in the first person, using himself as the example.

Also stressed in his talk was the fact that we could use more patriotism today than we are displaying. We are being too complacent in our country.

THE NIXON ADMINISTRATION'S FISCAL 1973 BUDGET

The Administration's budget for fiscal 1973 (July 1, 1972 - June 30, 1973), submitted to Congress January 24, calls for total expenditures of \$246.3 billion and receipts of \$220.8 billion, with a deficit of \$25.5 billion for the year. The new budget also projects a deficit of \$38.8 billion for fiscal 1972, which means a total deficit over the 2 years of \$64.3 billion.

The budget document contains the President's recommendations on spending and his Office of Management and Budget's calculation on the amount of receipts from taxation. Congress will now react to the budget.

For the Department of Agriculture, the budget carries a total fiscal 1973 expenditure level of \$11 billion. This is a reduction from 1972 outlays estimated at \$11.6 billion, or a cut of \$600 million. The figures represent all programs of the USDA, including consumer, environmental, and others in addition to programs of direct benefit to farmers and rural areas.

A number of farm and rural programs are cut below 1972 funding levels:

The Rural Environmental Assistance Program (REAP) is reduced from \$195.5 million appropriated in 1972 to \$140 million in 1973—a reduction of \$45.5 million.

Rural electric loans at 2% would be reduced from the \$545 million appropriated in 1972 to \$438 million, or a cut of \$107 million. REA telephone loans at 2% would be cut from \$134 million available for expenditure in 1972 to \$125 million for 1973. The Administration's justification for the cut in 2% REA funds is that additional credit will be available from the recently created National Rural Electric Utilities Cooperative Finance Corporation and Rural Telephone Bank, and from other private sources.

Other reductions include: Food for Peace (PL 480) from \$1.4 billion to \$1.17 billion, down \$230 million; rural water and waste disposal grants from \$53 million to \$49 million; and Forest Service Land management programs from \$701 million to \$640 million, a cut of \$61 million.

The budget shows increases of \$239 million for food stamps (\$2,066 million in 1972 to \$2,305 million in 1973), and of \$209 million for the School Lunch Program (from \$976 million to \$1,176 million.)

The budget shows 1973 outlays for commodity price support programs (including wheat, feed grains, and cotton) declined from \$4,439 million in 1972 to \$4,303 million in 1973, or a cut of \$136 million. Because of the nature of financing of commodity programs through the CCC, year-to-year figures in the budget are not very revealing. The farm income situation must be assessed more from decisions outside of the budget, such as action on H.R. 1163 to increase loan levels by 25%. On this scorecard, the prospects for more farm income in 1973 appear to be poor. The defeat of the 25% loan increase is particularly unfortunate in light of the huge 1972 and 1973 budget deficits, since an increase in the loan is the way to achieve the maximum increase in farm income with the least necessary budget outlay.

Congressional hearings on the 1973 budget began Tuesday in the House Appropriations Committee, and the Senate Committee began hearings Feb. 1. Farmers Union will testify in both houses, and will seek restoration of the cuts in REAP, REA, Food for Peace, and other programs. Beyond this, Farmers Union will try to make sure that all farm and rural programs are increased for 1973 at least to compensate for any loss of program activity due to inflation. Anything less would mean a setback for agriculture in budget allocations among federal programs.
