Little Britches Rodeo To Be July 22-23

A night of fun and excitement is in store July 22 and 23-6:30 p. m. nightly at the Abnathy Riding Clubs Little Britches Rodeo!

We have cowboys and cowgirls entered from Big Spring, Hico, Texico, N.M., and several hometown riders. These youngsters are full of enthusiasm and will be competing in one of America's oldest sports while entertaining spectators with thrills and spills of the Old West.

A Little Britches Rodeo is the beginning of a career in rodeo for some and the end of a dream for others. Some cowboys and cowgirls have gone from Little Britches all the way to World's Champion Cowboy-Larry Mahan, once competed in Little Britches shows all over Texas. Walt Garrison found out that football with the Dallas Cowboys was better suited his style, but didn't completely give up his love for rodeo; he too competed in Little Britches Rodeos.

No matter how you look at it, whatever you see the youth of today doing in a few years they may be famous for it.

We invite you and your family to the Abnathy Riding Clubs Little Britches Rodeo this weekend. Reporter-Bernice Evans

Pauline Durrett Hosts Cousins' Reunion

After several months of letter writing, telephoning, and much menu planning, eleven grandchildren of the late J. L. Davis met in the home of Pauline Durrett for three days of food, fun, and fellowship.

The oldest cousin present was 76 years old and the youngest was 58. The eleven cousins had a total of 741 years. One cousin and her husband drove 1800 miles to attend, and there were cousins from four states.

Two groups were soon formed: the cousins and the non-cousins. Each group tried to out-do the other in funny stories and picture taking. By Sunday afternoon a total of twenty people agreed that a cousin reunion was more fun than anything they done in a long time.

Those attending from out of town were: Mr. and Mrs. Eliza Langham, Cottage Grove, Oregon; Lennie Simpson, Snow Lake, Arkansas; Lida Martin, Gould, Oklahoma; Mr. and Mrs. Levi Martin, Nocona, Texas; May Brewer, Fort Worth, Texas; Mary Ponder, Hereford, Texas. Those helping to host the affair were Mr. and Mrs. Clyde Vineyard, Hale Center; Mr. and Mrs. Dub Poe, Lubbock; Mr. and Mrs. Ernest Durrett, Jr., Mr. and Mrs. Ralph Davis, Mr. and Mrs. Harold Davis, Mr. and Mrs. James Davis, all of Abnathy.

NGC--Did you know that Washington Bureaucrats have set up the rules for OSHA in such a way that inspectors, under certain conditions, can send inspectors into a private home. Should you refuse entry to the OSHA inspectors, you must bear the legal expenses in court. OSHA stands for Occupational Safety and Health Administration that has been making life miserable for industry and business. Recently, cotton ginners and cotton and seed processors met with OSHA men in Lubbock concerning a "dust" deal. It's time for elected officials in Washington to take notice of what appointees, aides and underlings in government policy-making are doing to the citizens of the United States. "Human Rights" concerns should start "at home."

NGC--Joyce Kilmer said it all in the poem about trees. Local and area people are becoming quite concerned about the disease (or is it insects?) killing costly trees that took many years to grow. Check with local people who spray trees. See if they can do something to save the ones at your home.

NGC--A most unique communication system is used by former Abernathians Mr. and Mrs. Pete Parks of Lubbock their daughter, Bobbie Raye, and her husband, Lloyd Tommie Harrison of Easton, Maryland. Without using telephone or radio transmission, they exchange family news and other items of interest by voice. Each family has a cassette recorder-player. Using about the usual time-spacing as corresponding by mail, they keep the cassette recorder handy, and as they think of something of interest they flip the switch and talk into the recorder. Then they mail the cassettes one family to the other.... with the recordings "crossing" each other in the mails at times between Lubbock and Easton. For their friends here who remember that Pete was

a meat processor at three different local food store meat markets, and his wife, Ruby, was a clerk in Strum Dry Goods; Pete has retired from Lubbock's City Packing Co., and Ruby has retired as a City of Lubbock City Hall employee, a position she held for many years. Daughter Bobbie Raye no longer is employed. She was injured on the job while working in the office of the telephone company in Easton. Bobbie Raye met and married Lloyd Tommie Harrison while he was stationed at the South Plains Army Field during World War 2. South Plains Army Air Field occupied the space where Lubbock Regional Air Terminal and runways are now located. It was a glider pilot training school. Harrison thinks the Demp Websters are the greatest. On his trips from the air field to his courting business in Abernathy, Harrison occasionally ran out of gasoline and money at the same time in New Deal. Harrison thought it was very unusual that the Websters would extend credit at their Texaco station to a serviceman unknown to them.... and a "Yankee" at that. On their trips home to see the Parks, Tommie often stopped by New Deal to see the Websters. (I use the word "Yankee" with a lot of fondness for Tommie... even though he does talk with a funny accent.) The Harrisons are grandparents, which, of course, make Pete and Ruby great-grandparents.

NGC--Last week we gave the news to Abernathy students. This week it's for New Deal Schools. Teachers will begin in-service earlier in the week that students report for the first day of school, Friday, August 19. Monday, Sept. 5, Labor Day, will be a school holiday. Fair Day, Sept. 26, will be a holiday for students; in-service for teachers. Students will have a holiday Oct. 25, while teachers are in-service at the TSTA meeting. RITES WEDNESDAY FOR MR. FOLSOM

Funeral services were held in the chapel of Hampton-Vaughn Funeral Home in Wichita Falls at 1 p. m. Wednesday, July 20, for George Folsom of that city. Graveside rites were conducted at 4 p. m. that day in the Quana, Texas, cemetery. Mr. Folsom, who would have been 86, Wednesday, July 27, was the father of Mrs. Ray (Mary Nell) Willis of Wichita Falls, formerly of Abernathy. He entered a Wichita Falls hospital Thursday, July 14, where doctors indicated that he had a lung tumor. He died at 3:30 a. m. Tuesday, July 19.

In addition to Mrs. Willis, other survivors include his wife of Wichita Falls; a son, Roy, who resides in the Dallas-Fort Worth Metroplex area; three grandchildren and four great-grandchildren. He was a retired farmer.

MEMORY WORK:
Live peaceably with all men.
Romans 12:18

Schools will be published in The Review.

NGC--The Abernathy Volunteer Fire Department's city pumper fire truck has become "obsolete" by Texas State Insurance Standards. The City Council had two options: spending \$45,000 for a new 750-gallons-per-minute, in town, pumper truck, or letting fire insurance rates in the city limits of Abernathy skyrocket. They let the contract for the fire truck to a Wichita Falls firm. It should be in service here within seven months, City Manager Larry Fields stated. The "old" city pumper truck, still in very good condition, will be kept as a "back up" pumper, adding to the efficiency of the fire department inventory of rolling stock. I believe the City Council made a wise choice. Clyde Vandygriff, who "wears two hats" Chief of Police and Fire Department

We'll have a story and picture of that unit when it is completed, and will list names of other firemen who have helped build it from the chassis up.

NGC--Members of the Mr. and Mrs. A. H. Klafka family tend toward country club operation as careers. Their son-in-law, Dennis Allen, and daughter, Jeanne, were pro-managers of Abernathy Country Club before going to those positions at Lorenzo Country Club. The Klafkas' son, Larry, and his wife, LaMauna, are the pro-managers of Abernathy Country Club. They gained experience in that field earlier in those positions at the Country Club near Morton.

BRIEF:

Mr. and Mrs. Curtis Lebow of Amarillo were here last weekend to visit his mother, Mrs. S. H. Lebow. Curtis and Chris recently returned from a month's tour of mainland Europe and the British Isles. Two of their favorite countries they visited on the trip were Switzerland and Ireland. Tourists in Ireland rent rooms in private homes, usually staying one night when touring the country. Curtis and Chris surprised one couple by returning from day tours to stay with them three nights. The Irish couple was so pleased that they prepared breakfast for them on the third morning... a service not usually included.

The Speaker Reports

by Bill Clayton

AUSTIN--The 65th Session of the Texas Legislature acted on two issues that are very near and dear to all our hearts--life and death.

Senate Bill 416, permitting medical personnel and private hospitals the right not to participate in abortions, and Senate Bill 148, permitting persons to execute a living will in which a person can elect not to be connected to life support machines if he has a terminal illness, were enacted by the legislature.

The bill to prohibit forcing medical personnel to perform abortions was seen as a milestone by right-to-life advocates. Although several bills were introduced in both houses of the legislature to restrict the performance of abortions, this was the only anti-abortion bill enacted.

One basic premise of this bill is that medical personnel should be allowed to exercise their freedom of conscience in choosing whether or not to participate in the performance of abortions. If they believe abortion is morally wrong, they should not be forced to participate.

Private hospitals were deemed to be able to exercise a right of conscience as a unit, and if policy of the hospital states that abortion is morally wrong, the hospital would not have to provide abortions except when the life of the mother is at stake.

SCRIPTURE:

"The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid?"
Psalm 27:1

The "Natural Death Act" cleared both houses of the legislature in response to the concern many people have expressed regarding medical advancements in the development of life support systems which have caused a growing concern about the patient's choice to terminate life supports.

Under the bill is a procedure whereby an adult can execute in advance an instrument which provides for the withdrawal or withholding of medical care when the person has a terminal condition in which there is no chance of recovery.

This bill has safeguards--it makes willful destruction of a person's directive to remove support systems a Class A misdemeanor, and makes forgery of such a directive with the intent to cause death (contrary to the wishes of the patient and causing death to be hastened) subject to prosecution for criminal homicide.

Nothing in the act enacted by the legislature is intended to permit any action other than to permit natural death.

NEWS FROM NAZARENE Nazarene Missionary Society Meets July 13

Our president, Erma Mae Spruelli, gave some thoughts on "The Christ who sees" which was very inspiring. Several new prayer requests were made: Prayer for our missionaries children away from home at school; more students for the schools; protection for all Christians in foreign lands, and that God will protect and lead them.

The radio is great to spread the Gospel, even some of the little children sheep herders have radios. Also literature is a great means of getting the Gospel story around.

The people of India are rather illiterate with only about 1% of the people who can read. Billie Jean Spruelli gave a good lesson on India. A ministry to physical needs goes along with mission work. Only 1/10 of students attend Christian colleges. Through great sacrifice hospitals are being built. Also, natives are being trained to be doctors. Slides were shown, which gives us a better insight to conditions there. India has 655 million people--around 1000 languages and dialects. Our task is to lift up Christ.

County Line Community Club To Meet July 26th

The next meeting of the County Line Community Club will be July 26th at 2:00 p.m. in the County Line Club building. Mrs. Vera Vaughn will demonstrate how to macrame a hanger for a basket. Everyone that wants to learn is welcome.

Those wanting to learn should bring a small ball of jute-5 ply or cord at least 180 feet of either one, 4-8 beads, a 2 inch metal ring, scissors, and a yardstick.

We encourage everyone to come and learn with us. Believe it or not, there are still people who do not know how to macrame. If you do not want to macrame, you can come to visit or talk about the County Line reunion and the plans made so far, or quilt. We still have a quilt up and ready.

Pam Connell and Venita Granger will be the hostesses for the meeting this month.

We'll see you at the next meeting.

SCRIPTURE:

Beloved, let us love one another for love is of God; and every one that loveth is born of God, and knoweth God. He that loveth not God; for God is love. In this was manifested the love of God toward us, because that God sent his only begotten Son into the world, that we might live through him. Herein is love, not that we loved God, but that he loved us, and sent his Son to be the propitiation for our sins.

Former Local Couple To Observe Golden Wedding Anniversary

Mr. and Mrs. Velmer Hamilton, Route 1, Petersburg are observing their 50th anniversary with a reception in the Fellowship Hall of First Baptist Church at Petersburg, Sunday afternoon, July 24, from 2:30 until 4:30.

The couple's son and daughter and their families will host the reception. They are Mr. and Mrs. Cleon Hamilton of Dallas and Rev. and Mrs. Aubrey Howell of Hughes Springs.

The former Miss Minnie Belle Manning married Hamilton on October 29, 1927 at Odessa. The couple lived in Mitchell County before moving to the Lubbock area near Abernathy in 1940. They have resided at Petersburg since 1950. Hamilton is a retired farmer. Mr. and Mrs. Hamilton are members of First Baptist Church, Petersburg.

Friends and relatives of the couple are invited.

Coffee Break Substitutes

Give your coffee "a break" --replace it with more nutritious snacks and beverages throughout the day, a foods and nutrition specialist suggests.

Instead of a "coffee break," have a "snack break" and try a glass of fruit juice, an orange, apple or other fruit in season, says Mrs. Sally Coble, with the Texas Agricultural Extension Service. The Texas A&M University System.

"These snacks are low in calories and high in nutrients. Fresh fruits also supply fiber--which most Americans need in larger amounts."

"Also, milk and cheese foods make good snacks. A glass of skim milk supplies only 90 calories and is packed with nutrients. Cheese cubes with fresh fruit are good choices, too," she said.

Other ideas that may require a bit more preparation time are celery and carrot sticks, green pepper rings, cucumber slices and radishes. If calories are not a problem, other tasty items are nuts or peanut butter and crackers, Mrs. Coble added.

"Finally, try drinking just a glass of plain cool water. This is refreshing and thirst-quenching with the least cost and calories."

He further emphasizes that an investment in prompt repair or replacement of faulty or worn equipment and in seeking good quality products designed with accident prevention in mind can pay additional potential benefits.

Accident Prevention A Good Investment

Accident data being received from individual states provide national estimates indicating that 5,400 farm residents were killed and 500,000 disabled to work, home, recreation and traffic accidents during the past year, points out Dr. Gary S. Nelson, safety engineer with the Texas Agriculture Extension Service.

The occupationally related portion of these totals indicates that work related accidents claimed the lives of nearly 1,900 persons (200 in Texas) and about 180,000 suffered disabling injuries, of which 1,300 and 130,000, respectively, were farm residents as opposed to employees.

President Carter has accepted the challenge to help reduce farm and ranch accidents by declaring July 25-31 as National Farm Safety Week. The theme for the week is "Safety Is a Good Investment," notes Nelson. This theme emphasizes that in addition to personal injury, accidents result in costly equipment damage, medical expense, loss of valued talent and skill of agricultural producers and workers, and production loss due to time delays and the unavailability of injured workers and damaged equipment.

National Farm Safety Week is co-sponsored by the National Safety Council and the U. S. Department of Agriculture. Both sponsors emphasize the wisdom of making a personal and financial investment in accident prevention of help cut the human and economic costs of accidents.

Farm and ranch families can achieve much by investing a small amount of time in adopting low risk work procedures, contends Nelson. Extra protection can be obtained with a modest financial investment in
