NEWS OF MEN IN ARMED FORCES

CAMPBELL COMPLETES RECRUIT TRAINING
Marine Private Willie K. Campbell, son of Willie Campbell of 107 E. 3rd, Abernathy, Tex., has completed recruit training at the Marine Corps Recruit Depot, San Diego, Calif.

During the 11-week training cycle, he learned the basics of battlefield survival. He was introduced to the typical daily routine that he will experience during his enlistment and studied the personal and professional standards traditionally exhibited by Marines.

He participated in an active physical conditioning program and gained proficiency in a variety of military skills, including first aid, rifle marksmanship and close order drill. Teamwork and self-discipline were emphasized through the training cycle.

He joined the Marine Corps in April 1977.

Mrs. Roy Parsons was under treatment in Hi-Plains Hospital, Hale Center.

Penn of 2123 73rd St., was trained to maintain, repair and service aircraft currently in use by the Air Force and will now serve with a unit of the Military Airlift Command. The airman is a 1976 graduate of Monterey High School. His wife, Molly, is the daughter of Mr. and Mrs. Joe Graves of New Deal, Tex.

Mrs. Amy Garcia was taken to West Texas Hospital, Lubbock, Sept. 23, by Abernathy EMS ambulance.

NEWS AND COMMENTS
By Buford Davenport

NEC--Mr. and Mrs. Thomas A. Murray of Hurst, Texas, are moving to Teheran, Iran, where he will be employed for the next two years. Mrs. Murray, the former Mary Baker, daughter of the late Mr. and Mrs. Grover C. Baker of Abernathy, is a niece of Alvin Hardin and a cousin of Shelton and Herbert Hardin.

NEC--Another autumn event in Texas: The 40th Annual Texas Rose Festival at Tyler, October 13-16. For information, write: Tyler Area Chamber of Commerce, P. O. Box 390, Tyler, Texas 75710; Phone A/C 214-592-1661. Also, the New Braunfels C. of C. sent the Review a new supply of brochures on the Wurmfest to be held in that city Nov. 4 through Nov. 13. If you are interested in attending the New Braunfels event, come by The Review for the free brochures. Six Flags at Arlington will be open weekends only through November. Construction has started on a major new ride at Six Flags probably starting next season, '78. "It will stand our visitors on their heads when they see it and ride it," a Six Flags official stated.

NEC--Persons looking for employment first should go to Texas State Employment office, 1602 16th St., Lubbock. The service is free to those seeking employment. Firms seeking employees also should contact the state employment agency. The service is free to them, too. Try the Texas Employment office before going to commercial employment places. At times, employers pay several hundred dollars to secure an employee through the private employment companies. The employee, in some cases, has to pay 9% of his wages for a year on jobs secured through these private employment firms.

NEC--Some 400,000 people immigrate legally to the United States every year. This country would have shorter welfare lines and smaller jails if those 400,000

people, and the native Americans of some 200 million persons, were more like the five to six hundred Mennoites that settled in a farm colony near Seminole. The Mennoites were given bad advice, or the proper advice was withheld, when they invested \$1.6 million in farmland near Seminole. They should have been advised of the proper method of legally entering the United States to become permanent residents of this country. Those buying and settling in a colony on 6,400 acres of farmland near Seminole were from Mexico and Canada. They sold their holdings and farming equipment and brought their money to the United States and invested it in good faith, based upon information given them. The Mennoites were further misled when they were not told during the transaction that they were getting only a little more than one-third of the water rights on the 6,400 acres of land they bought. Oil companies previously had purchased the remaining water rights. The Mennoites were advised of this only after they started drilling for irrigation water. The oil companies are not to blame for wanting to hold their water rights purchased earlier. Neither is the U. S. Immigration and Naturalization Service to be blamed in its recent action. That agency is only doing the job it is supposed to do in cases like this. Why can't the federal red tape keep flowing long enough for these 500 to 600 Mennoites to make proper applications for permanent residency, and be accepted in the next annual quota of immigrants to the USA? I know very little about their religious beliefs, but I know about their satisfactory dealings with businesses on the South Plains. They are hardworking, thrifty people who pay their own way. The USA could stand a lot more immigrants like the Mennoites.

NEC--The letter published in The Review dated Sept. 15, about Abernathy's dog problems had some good points. It's the letter written by Glenda Ziegler of Irving, Texas, who had been visiting here. I admit having considered the resignation request. Knowing the local situation, I hesitated. With all of the problems the City Council faces, including many imposed upon the body by the federal government, the Council might resign at the drop of a hat. And, we must

to the United States is subject to deportation, but because of a loophole in the law, being on welfare does not constitute being a "public charge" as the term is now defined. U. S. Senator Lloyd Bentsen of Texas proposed an amendment that was adopted by the Senate Finance Committee that would more precisely define "public charge" so that it includes anyone who receives benefits from any public welfare program. Network TV news a few months ago told of U. S. citizens sponsoring relatives and friends as immigrants to the USA then getting them on welfare soon after they arrive in this country. The TV report was on immigrants from the Middle East countries, and settling in the New York City area.

NEC--Another autumn event: "Queen Isabella Days" on South Padre Island, Port Isabel, Texas, Oct. 10 thru 16. This follows the Confederate Air Force's AirSho-'77, four great days of flying, Oct. 6 thru 9th, at Harlingen, Texas. . . . not far from Port Isabel. You could combine these two events in the same trip. . . . and on to other Rio Grande Valley area cities. Come to the Review office and check the AirSho-'77 and Queen Isabella Days brochures. In fact, the Review has a calendar of events in Texas from Oct., 1977 through March, 1978, if you want to plan a Texas-Travel trip that far ahead.

NEC--Vicci Stewart, AHS Antelope Band member, knows what to do with a set of drums. The daughter of Mr. and Mrs. Craig Stewart, Vicci has been "drumming" for several years. NEC--Reports on city sales taxes for the period

ending August 26, shows Abernathy collected \$6,640.70 for that period. This compares with \$4,862.98 for the same period in 1976. To August 26, Abernathy has collected a total of \$30,366.20 for 1977. This compares with \$25,641.35 for 1976 to that date. The totals for 1977 and 1976 to August 26, show an 18% increase in 1977 for Abernathy. Other towns in the area show these percentages for 1977: Slaton 14%, Ralls 16%, Hale Center 12%, and Crosbyton 4%, all increases. Some area towns showed decreases for 1977. NEC--Evel Knievel used a baseball bat to work over a television executive on a studio parking lot in the Los Angeles area. The executive had written a book about Knievel, and the daredevil said the book insulted his mother, wife and children and demeaned him. This may cause some would-be authors to stop and think before they write untruths about people just to make their book a best seller. NEC--Congrats to the AHS Antelope Band and Director George Riddell. They placed first in AA schools in the fair parade in Lubbock Monday. This is the umpteenth time that local school bands have won 1st in Lubbock fair parades over the years.

COOKING
Brilliantly
TIPS FROM THE TOP

Helpful Ideas From Leading Holiday Inn Food Specialists
You can give your green peas a fresh French flair by covering and cooking them in a saucepan lined with lettuce leaves for 15 minutes. The lettuce provides the moisture needed and helps the peas keep their flavor.

A cherry topping for cheesecake can be a sweet cherry glaze made by arranging one drained can of pitted light sweet cherries over the top of the cheesecake and heating 3/4 cup of red cherry jelly slightly, stirring until smooth and soft. Spoon the softened jelly over the cherries and chill well.

To help fish and seafood really cut the mustard, make a mustard sauce. Heat dry mustard, flour, salt, cream and sugar in a double boiler. Add a beaten egg yolk and heated vinegar and serve hot.

"THE ELECTRIC SAVINGS MACHINE"

energy used is energy saved

Since the heat pump pulls much of its heat right out of this air, it actually saves energy as it works. In fact the heat pump delivers as much as two units of heat for every one heat unit of electricity it uses. That's an efficiency story that no other system can equal. And the heat pump does it all in your own home without flame or water. Just electricity -- pure and simple.

Report On Mental Health Released By Commission

AUSTIN, SEPTEMBER 20-

The Mental Health Association praised most of the recommendations made in a preliminary report by the President's Commission on Mental Health.

Mary Chase Pell, MHA National President, said in a telegram to Rosalynn Carter, honorary chair of the President's Commission: "We are particularly pleased with the Commission's recommendation for an increase in funding for mental health research."

Citizens of Abernathy supported the Mental Health Association in May, by contributing to a Bellringer drive organized by Mrs. Mona Toler.

The Commission urged President Carter to support a federal mental health research budget increase "in the range of 20 per cent" over the current appropriation. If realized, research sponsored by the National Institute of Mental Health would receive \$140 million in fiscal year 1979.

The President of the Texas Association for Mental Health, Shirley K. Camfield, said: "This increase is urgently needed. Even though the National Institute of Mental Health's research budget has lagged since 1969, major opportunities for expanding our base of knowledge still exist."

President Carter established the Commission last February to identify the mental health needs of the nation and to recommend ways to meet those needs. The preliminary report is the first from the Commission, with its final report due April 1.

The only reservation expressed by the citizens' group was that it is not clear whether the Commission's recommendation on funding for mental health services would enable the establishment of new community mental health centers in fiscal year 1979. The Mental Health Association pledged to continue working with the First Lady, the Administration, and the Congress to assure that sufficient funds are appropriated for that purpose.

In reporting from the meeting Thursday morning with the President and First Lady, Dr. Thomas E. Bryant, Commission chair, said that Mr. Carter favored increases in research. "He said that we were persuasive and that he

would try to accommodate us," Bryant said.

Mrs. Carter said earlier at a news luncheon that "...our commission has found that the discrimination that persists against mental illness is a national disgrace. And we need the press to help dispel the myths and to create a climate that eliminates this appalling discrimination."

The First Lady indicated that vast amounts of work has yet to be done to "Help

bring mental illness out of the closet."

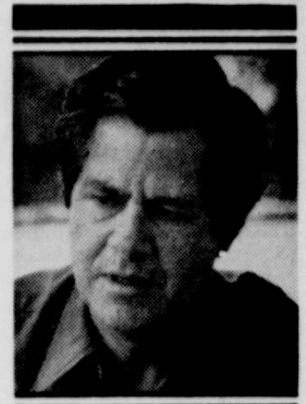

Mrs. Pell said in her telegram to Mrs. Carter that "Mental Health Association officers and members send you, especially, our appreciation for an outstanding beginning."

"I have announced my candidacy for Governor of Texas. I'm confident I can and will win."

According to a statewide poll, out of 10 people are ready for a new governor. The poll only confirmed what I've been hearing all over Texas this year. People are against the idea of anyone holding the state's highest office for 10 years. No governor has asked for 10. No governor has been given 10. It goes against a tradition that's as old as Texas itself.

"There are other reasons folks are ready for a new governor. State spending has jumped from \$3 billion to \$8 billion the last 6 years. The Dallas Morning News reported, during Briscoe's years in office, nearly all state government will have gone on a spending spree. And the Governor has done nothing to discourage it. He's vetoed less than two-tenths of one percent of the two previous budgets and not one penny's worth of the current appropriations; it's the first time that's happened in twenty years. In a related story, the News pointed to the fact that during the Briscoe years the number of employees paid by the state has risen by 50,000."

"And, while we've heard the boast of no new taxes, we've seen our property taxes increase by \$1 billion along with substantial hikes in state licensing fees."

"I've traveled the state this year, visiting with folks. Whatever their overall assessment, most Texans lacked confidence in the present governor's persuasiveness and vision. They felt he had failed to measure up to their expectations and to live up to his promises."

"Texans are hungry for an effective gubernatorial spokesman on energy policy. They are frustrated that our governor hasn't been able to get the Texas viewpoint across in Washington. They are wondering, too, why our governor hasn't been speaking out forcefully for a farm policy that would help our beleaguered farms and ranches."

"I fully agree with the people's assessment; that's why I'm seeking the office of Governor."

"I'm proud of my record as Attorney General and Secretary of State. It shows that I'm not afraid to roll up my sleeves and work hard. It indicates that I have the ability to assemble a capable staff, that I prefer to work closely with people, and that I'm not reluctant to make changes when they can benefit the state. I'll be the kind of governor, given the job."
