NEWS from your
 *** County ***
 Agricultural Agent
 Texas A. & M. College
 Extension Service

Under the provisions of Public Law No. 466, approved April 2, 1956, farmers are relieved of the burden of Federal Taxes on the gasoline and special fuels used on their farms for farming purposes. The relief in the case of the gasoline tax is accomplished by providing annual refunds payable by the Federal Government directly to the farmers. The first claims to be filed will be with respect to gasoline purchased after December 31, 1955, and used on a farm for farming purposes before July 1, 1956. To get his refund, a farmer will have to file his claim after June 30 and before October 1. Subsequent claims will cover the fiscal year period July 1 to June 30. Claims are to be made on Form 2240 and are to be filed with the United States District Director of Internal Revenue, Dallas, Texas.

The County Agent's Office has a supply of the claim forms and will be glad to furnish anyone who requests them. These forms have also been placed in the local banks for the convenience of the farmers.

Along the line of taxes, here is some information from a report, "Trend of Taxes on Farm and Ranch Property in Texas 1955," by E. P. Gabbard, Professor, Department of Agricultural Economics and Sociology, Texas A & M College.

Taxes on farm and ranch lands in Texas were 7.9 percent higher in 1955 than in 1954, the highest average tax per acre yet reached in the state.

Prices of farm products declined during the year. It took almost 10 percent more farm commodities to pay taxes in 1955 than in 1954. The relative tax burden increased 74 percent during 1951-55.

The average tax per acre increased 19.6 percent in one part of the Rolling Plains area; it declined 4.4 percent in the High Plains and the Trans-Pecos Cattle grazing areas. These extreme variations in farm taxes among type-of-farming areas are caused mainly by differences in land values and local financial and economic conditions.

Now available in the County Agent's Office are some new publications recently released by the Texas Agricultural Extension Service.

The publications include: B-149, Processing Poultry; B-806, Prickly-pear, Good or Bad?; B-808, Spot-ting Johnsongrass; MP-157, Mr. Dairyman, Texas, U. S. A.; L-218, 1956-Texas Guide for Controlling Cotton Insects.

Congratulations are due Shirley Whitworth, Busby Community, and Buster Brown, Sylvester Community, for winning first and second place in District 3, in the State Fair Award of Honor Contest. This award is special recognition by the State Fair of Texas for one 4-H Club Boy and one 4-H Club Girl from each Extension District.

This is a reminder to all club members 14 years old or older interested in attending District 3, Conservation Camp, June 18-20. The quota from each county is three boys and three girls. The basis for filling the quota will be determined by records turned in by club members. These records are due May 31.

Mrs. Juanita Ashley and daughter Patricia of Compton Calif., arrived Sunday to spend two weeks with her parents, Mr. and Mrs. R. O. Allen.

Mr. and Mrs. A. P. Couch and Mrs. O. W. English of Lubbock visited their sister Mrs. H. T. Fillingim and Mr. Fillingim Sunday afternoon.

Mrs. Clara Williams and daughter Mrs. Johnny Baker and children Gary Arnold and Linda of Lewisville, Ark., are visiting Mr. and Mrs. Elmer Hughes.

CARD OF THANKS

Dear friends,
God was certainly good to us when He gave us you.
You deeds of love, your expressions of sympathy and concern for us will always be remembered.

We humbly and gratefully acknowledge the beautiful floral tribute to our loved one. The entire service brought a peace and calm to our hearts we are not able to explain. Surrounded by a loving family, dear friends, beautiful flowers, sweet music and God speaking to us through the reading of His word by His appointed preachers, each had its part in giving us that inward consciousness that God doeth all things well and somehow we are satisfied.

Sincerely,
Mrs. Ira Morrow and children

Rural Accident Statistics Given

Austin, May 22, The Texas Department of Public Safety today released its rural traffic accident summary report covering the complete 12 months of last year. In a book, entitled "Its A Fact" the State Safety Department gives a break down of the rural Texas traffic accident picture for 1955 in almost every conceivable category from the number of accidents by days of the week to the violations which are among the principle causative factors leading to accidents. Col. Homer Garrison, Jr., director of the DPS, pointed out that a new all-time high in the number of fatalities—both rural and urban—was recorded during 1955. The 2,547 persons who died in traffic mishaps was one more than the previous high set in 1951. The booklet indicates that an additional 108,297 persons were injured in traffic accidents last year and the economic loss from an estimated total of 220,992 mishaps was a staggering \$149,401,250. Garrison emphasized, however, that the picture was not as dim as it might appear at first glance because Texas motorists in driving more than 39 1-2 billion vehicles miles racked up a death rate of 6.4.

This means that 6.4 persons were killed for each 100 million motor vehicle miles traveled. The state's death rate, Garrison said, was exactly the same as the Nation's average for 1955. Speed too fast for conditions was listed as the major causative factor in rural fatal accidents, followed by driving while drinking as the next greatest. Sixty-two% for the rural fatal accidents listed speed and 37% involved a driver who had been drinking.

Mr. and Mrs. Earl Mills, Mrs. Troy Adams and daughters of Kermit recently visited their parents Mr. and Mrs. W. A. Rives.

POWER STEERING?

Buick ROADMASTER 6-Passenger 4-Door Riviera

Right this way!

EVERY YEAR, more and more new cars are equipped with Power Steering. Many a man has bought it "for the wife"—then wondered how he ever got along without it.

And if you have in mind a new car with Power Steering consider this fact: Since the beginning of last year, Buick has sold far more new cars equipped with Power Steering* than any other car—over 20,000 more in 1955 alone.

That's the record—and the reasons for it are just as impressive. Buick brings you In-Line Safety Power Steering. In addition to the one-finger ease of turning common to all such systems in varying degree, it has several distinct advantages. It gives you surer, steadier, safer control at highway speeds—because it retains that good natural "feel" of the road.

On the other hand, it gives you more power assist when you need it most—at crawl speeds and at full stop. Here, Buick's Power Steering makes wheel turning nearly twice as easy as other types of systems.

Add another plus: this Buick feature works through the new Buick front end—where a unique new geometry and steering linkage bring a sweet new response and a wonderfully easy handling and a surer "sense of direction" even to new Buicks not equipped with the power system.

So there you are—and here we are, waiting to prove it all to you.

Waiting, also, to let you try the new thrills to be had in Buick's advanced new Variable Pitch Dynaflo†—where getaway response and gas

mileage both step up even before you switch the pitch.

And waiting to show you how the highest power yet, the sweetest ride yet and the boldest styling yet—all help to make this bright new beauty the Best Buick Yet.

Today is fine with us. How about you?

*Buick's In-Line Safety Power Steering is standard on Roadmaster and Super, optional at moderate extra cost on other Series.

†New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Abolishment of The Evil Progressive Income Tax
Open Letter to the Merchant, Working Man,
Barber, Doctor, Lawyer, Professional Man

In my opening announcement, I proposed abolishment of the progressive income tax. I suggested its replacement with a flat rate in income plus a Federal sales tax. Not only will this form of tax encourage greater investment, greater risk, harder work, and larger incomes for all — it would increase tax collections by the government.

The replacement of the income tax is practical both economically and politically. Unless such a program is enacted in time, the progressive income tax will fulfill the prophecies of Karl Marx by destroying the free capitalist system.

The present tax law sets a top limit on what any man or woman can earn by work, by risk, by inspiration. So I propose to substitution a flat rate on incomes of from 10 to 15 or even 22½ percent. I suggest that the present system of exemptions be retained and increase to \$1,500 for each person. Thus a family of our with \$6,000 income would pay no income tax.

The Gallup Poll shows that the American people believe such a tax system would be fair for all income groups.

The history of the taxation proves that when you reduce taxes you end up with increased revenue. I will tell you more about this before July 28th.

This is because people try to earn more, risk more, work harder, because they can keep more. But in the process of earning more, they pay bigger taxes even at lower rates.

This can be supplemented also with a Federal Sales Tax on everything sold at retail except food, rent, housing. This would make the low income group exempt from income taxes they paid by controlling their spending on fancy clothes, fur coats, perfumes, etc.

The wealthy tax payer would pay higher taxes even at the same rate because he will spend more. But he has the same choice as his low income neighbor. He can reduce his own taxes by buying a \$2,000 car instead of a \$10,000 car. If he wants to live up and spend his big income, he pays higher and higher taxes for what he buys.

All the low income people will pay little or no taxes. Nobody will have to fill out the complex and annoying tax forms now used. No agent will come knocking on your door two or three years later with a demand for more tax with interest plus penalties.

This would end the system that causes Americans to refrain from working harder, earning more, and risking more because the more they earn, work, or risk, the higher their tax rate goes.

We also have a right to do as we please with our money. Now we are slaves to an income tax law that can take 100% of our income if the government desires and give it all away to our foreign friends.

I will have much more to tell you about this before July 28th.

Centering the table was a gilded cage in white velvet, studded with rosebuds and pink satin bows, with handle of simulated platinum wedding band.

A pink plumed lovebird on a satin swing centered the cage, holding a scroll with the announcement date. The cage was based in pink carnation and white wedding bells.

Profession: Petroleum Consultant and Management Consultant. During the war years served as a geological supervisor on a strategic minerals project and later as a geologist in the Arctic Circle Region on a joint project between the United States and Canada (U. S. Army Engineers and Imperial Oil, Ltd.) My professional career has been as a geologist, over half of that time as an independent consultant.

Education: Degree Indiana University. Attended Baylor University Law School. Attended Denver University Law School.

Memberships: Optimist Club, Country Club, Petroleum Club, The American Institute of Mining, Metallurgical, and Petroleum Engineers, Abilene Geological Society, National Federation of Independent Business Men, Texas-Mid-Continent Oil & Gas Association, member of Rotary Club while in Eastland; Elks Club of Lamar, Colorado; American Assn. of Petroleum Geologists, charter member Junior Chamber of Commerce, Lamar, Colo., etc.

Residence: Have resided in the 17th Congressional District since 1947. Lived nearly 100% of adult life in the South and West — Alabama, Colorado, Texas.

Family: (IMMEDIATE BACKGROUND) — Just a plain ordinary family. Politics—Democrats. Mother and Father are Methodists. Sister and brother-in-law are Methodists. I believe in the freedom of worship. We are all children of God. Brother killed in action in World War II with the 36th Texas Division.

Financial Status: Not too much. I owe bills and pay taxes the same as you.

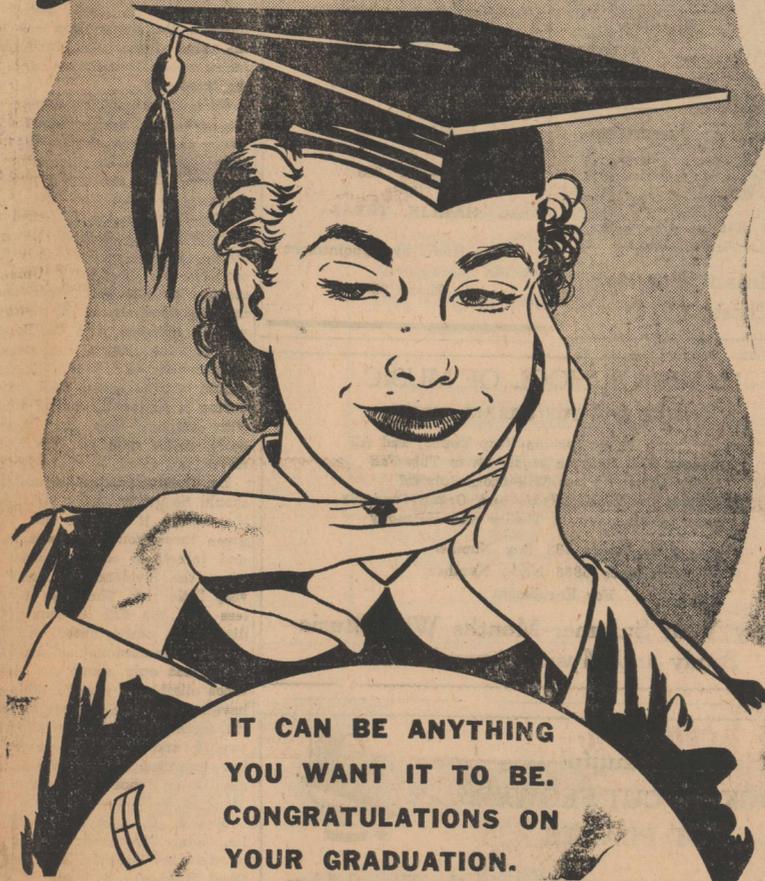

Hobbies: Extensive reading, philosophy, history, social science, government, law, etc. I tried playing basketball, running, and jumping, having not done so since my school days. I discovered that a man in his thirties just doesn't do those things too much too often. So, I stick to hiking and mountain climbing whenever I find the time.

Religious Beliefs: Have always believed in God and Jesus Christ. Also have always believed in the freedom of worship as one of our Great American Heritages as held forth in our Constitution, and given to us by our founding fathers. We are all children of God. Although many of us including myself have at various periods of our lives become less than frequent church goers, it would be a much better world if all of us attended the Church of our choice regularly and participated in God's work of bringing love and understanding into our lives and providing for our spiritual needs. I come from a Christian family and attended church every Sunday until as an adult my occupation as a geologist kept me on the job often on Sundays at various and increasing periods of time with less than frequent attendance. Recently, I reaffirmed my belief in God and Christ again with baptism and church attendance. This is my confession before God and you. It has absolutely nothing to do with my running for public office but since I am, you, the voters, are entitled to know about my religious beliefs.

Note: The above summary has been published at the request and insistence of my many friends throughout the district who want you the voters to know a little something about me. I, personally, will conduct this campaign WITHOUT reference to religion, personalities, and individuals. You know exactly what I stand for and what I want to accomplish for we, the people in this district. God willing, we shall bring the government back to we, the people. Do not forget to go to the polls and vote for the candidate of your choice in the July 28th primary.

State Health Officer Advises Salk Vaccine

AUSTIN, May 24—Many inquires are received each day by the Texas State Department of Health regarding Salk polio vaccine. One injection is of some value but should be followed in four weeks with the second shot and the third seven months to a year later.

Dr. Henry A. Holle, Commissioner of Health, says the second shot is important and definitely increases the immunity. Even though the second cannot be given for several months, the delay does not lessen the value of the first. Maximum immunity does not develop until after the third shot.

It is advisable to immunize children who have had poliomyelitis because an attack confers immunity only against the one virus type involved and gives no protection against the other two types.

The Salk vaccine is of no value in treating the disease. It should not be used for prophylaxis in family contacts of diagnosed cases, the reason for this being that the remaining members of the family are usually infected with the virus by the time the original case develops symptoms of the disease. The vaccine should not be given to individuals during a major illness or to those with symptoms that may represent early polio, such as fever, sore throat or stomach upset.

Dr. Holle says that immunizations should be given before the peak of the season if possible but can be given throughout the summer. Second injections can be given even when the incidence is rising with very little risk. The risk, if any, is less than the risk of acquiring the disease in unvaccinated children.

The Commissioner of Health reports that only about one third of those eligible to receive the vaccine have received one or more injections. He urges all those below the age of twenty and pregnant women who have not had at least the first immunization "shot" to do so at once.

Mrs. L. E. Reel of Forrest Hill, La., came Wednesday of last week to visit her brother Mr. and Mrs. Obed Hughes, also their sister-in-law, Mrs. Ona Hughes of Abilene, spent Sunday here with them.

Lieut. Doug. Weathersbee and Mrs. Weathersbee went to San Antonio Wednesday of last week where he will be at Lackland Air Force Base.

MY STAND ON INTEGRATION

THE RACE PROBLEM: There is no race problem. The majority of White and Negro people wish to be left alone. Social fusion must be left to time and man's destiny and the will of God. This unholy wedlock forced upon two different races by north-eastern left-bank radicals will serve to no advantage, to the discomfort of the South, and to the delight of the Communists. Society must have free choice in determining its social pattern. The time and decision, if ever, will be the result of philosophic thought resulting from social evolution and God's will, and not a materialistic command by several jurist who have violated states rights in rendering a decision that once again activates the word "nullification" and pits white man against black man while a few evil men promulgate racial hatred to serve self-interested groups.

The White people and the Colored people of the 17th Congressional District wish to be left alone and resent interference by the Federal Government and intellectual "do gooders." This is a problem for Texas and Texans. In fact, there was no problem at all until outsiders, who would have us give up our states rights, tok it upon themselves to tell us through the Supreme Court how to run our affairs. How long are we going to allow the Federal Government to usurp the power of the state? How long will it be before the name of a state will be just a name—nothing else? Let us stop this ever increasing encroachment upon our individual freedom now at the polls. Tomorrow will be too late.

There are no race problems in the 17th Congressional District and Texas. Interference by the Federal government into the affairs of the people of Texas can mean only one thing — Bloodshed, nullification, and civil war in the sense that political withdrawal from those who advocate a centralized government at the expense of the people's freedom can no longer be considered representatives of an America built for the people and by the people and governed by the states. Racial fraternization must be left up to the choice of the individual. No man-made law on God's earth can compel two racial groups as a whole to immediately intermingle and join each other in a fraternity of social relationship. The White people do not desire this. The Colored people do not desire this.

Rotan Is Proud . . . Of Its Churches

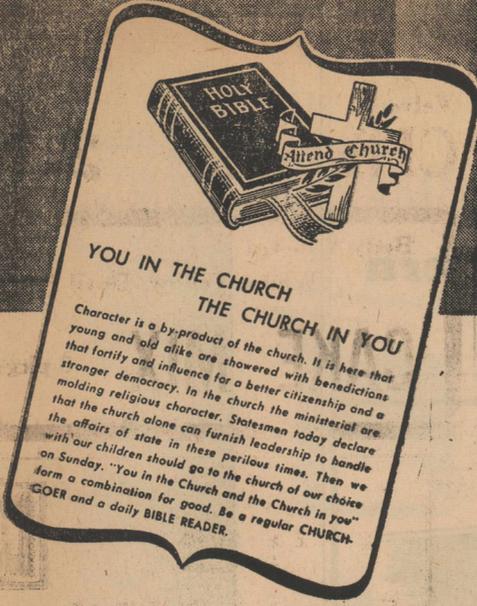

TELLING
the SIMPLE
STORY

MANY of us smiled at the farmer in Pearl Buck's story of the Good Earth. It seemed to us most strange that a man should buy his coffin ahead of time and take grim satisfaction in looking at the fine box in which he was to be buried. Perhaps many of us are as strange in our American refusal to think about death at all. The old adage "as sure as death and taxes" should have put us in the frame of mind to look forward to our own death and to make some preparation for it. Too many of us, however, are like the proverbial ostrich; we dig our heads down into the sand and assume that while death will overtake everybody else, by some strange shift of good fortune, it will never knock at our door. We are "foolish virgins" as Jesus called the people who made no provision for the coming of The Great Day, because the hour was uncertain.

ONE of the SIMPLEST STORIES ever told is the one told by Jesus to the Disciples on how to be saved. . . how to be ready for death. He made it so simple that even a "little child" can understand. Let us not take lightly the responsibility of telling this simple story! May we be conformed to right; subject to, and influenced by the moral laws of the Supreme.

FACE TO FACE let's face the fact of death and its certainty for ourselves. Then make plans that take death into account. See to it that we have arranged our minds and our souls for the promotion that we expect, from earth to Heaven. See to it that our families have been adequately provided for; let us face the fact fearlessly. May we be resolute and more determined to keep telling the Simple Story of how to live and what to live for so that we may know how to die. Come with me to Church.

HD Club Met In W. L. Terrell Home

Rotan HD Club met Thursday afternoon 3:00 o'clock in the home of Mr. and Mrs. W. L. Terrell.

Mrs. Wayne Nowlin presided in absence of the president, Mrs. Bud Hughes. Mrs. Vernon Frasier was in charge of recreation and during the business session Mrs. Richard Ray, secretary read the minutes and other business was disposed of.

Hats made by some of the club members were modeled by Mrs. Homer Aaron and Mrs. Ornie Nowlin. They were beautiful hats made of linen, lace trimmed etc., and had the appearance of being made by expert milliners.

The group then went to the kitchen where Miss Alice Kemp, County H. D. Agent prepared barbecued ham slices, as she talked on value of different foods to the body and food standards.

Mrs. Wayne Nowlin presided at the tea table and served the barbecued ham, crackers, cookies and punch to ten members and a guest.

Next meeting will be held in the home of Mr. and Mrs. Mitch Nayfa, June 7.

Following are the barbecue sauce recipes given by Miss Kemp:

Things to Remember in Barbecuing

1. Select those cuts of meat suitable for barbecuing.
2. Select quality meat.
3. Cook slowly.
4. Serve informally.

Barbecue Sauce

1 cup beef stock, butter or oleo
1 bottle Hines 57 Steak sauce
1-4 bottle Worcestershire sauce
1 lemon (juice only)
Louisiana hot sauce to taste
Salt and pepper
1 onion, cut fine
Mix all ingredients and cook until onions are done, about 20 minutes. Cook steaks until almost done before applying sauces. Apply

Tremaine To Hold Calvary Youth Week

ABILENE (Spl).—From the shadow of the lofty Sandias in New Mexico to the hill country and cowboy campus of Hardin-Simmons University is a "fur piece" for the average college-age youth.

But six-feet six-inch Robert Louis "Bob" Tremaine of Albuquerque made it with the help of a basket-

sauce on one side, then turn and apply on the other and turn again. Makes enough for 12 medium-sized steaks.

Barbecued Ham Slices

Pour the easy-to-make sauce over ham slices and bake—

- 3 slices ham, 1-2 inch thick
- 1-2 cup catsup
- 1 teaspoon celery seed
- 1-2 teaspoon dry mustard
- 1-3 cup vinegar
- 1-2 cup water

Place ham slices in shallow baking dish. Combine remaining ingredients and heat to boiling. Pour over ham. Bake in moderate oven (350°) about 30 minutes.

ball and a Bible.

Although his major subject is Bible and his chief endeavor is preaching, he found time in the spring of 1955 to become an all-Border Conference choice in basketball and was this spring invited to try out for the U. S. Olympics team. An injured foot at the beginning of the present basketball season sidelined him from the cage activity, but gave him more time for his preaching, which is the major desire of his life.

Since school began in the fall, he has filled the pulpit in Baptist Church youth revivals all over West Texas. On May 31-June 3, he will stand his six and a half feet behind the pulpit in the Calvary Baptist Church to "spark" a youth week in that church with a Youth for Christ rally. The Rev. A. H. Williams is pastor.

In Albuquerque as a high school student, he was elected president of the New Mexico State Student Council (1951-52). There he preached in the city's Fruit Avenue Baptist Church.

Continuing his studies in Bible next year, Tremaine will play his last year of basketball for Hardin-Simmons University. An "Abilene Reporter-News" sports writer expressed it this way: "If the smile on the genial face of Hardin-Simmons Willie Scott (coach) was a little broader than usual Wednesday, there was a good reason why. Big Bob Tremaine, two-time All-Border Conference center, revealed to Scott Wednesday that he would be around next December to use up his last year of basketball eligibility."

Although he scored 193 points as a freshman basketballer, 328 as a sophomore, and 482 as a junior, he classifies his greatest thrill as the sight of a lost soul finding the Lord and coming down the aisle to tell the world about it.
