

Students Need SS Cards On Summer Jobs

Now is the time for high school students and others to get their social security cards if they plan to work during the holidays, according to Raleigh R. Tuley, Jr., district manager of the Abilene Social Security office.

Tuley said there are few jobs which do not require a social security card. He suggests that any prospective holiday worker who has lost his card should also file at once for a duplicate card from the Abilene office. Applications for cards are stocked at all post offices.

Women who have changed their names by marriage should also apply at once for a replacement card with their new name on it, he added.

Tuley pointed out that individuals should be careful of their social security cards and be sure to show the card to their employers when taking a new job. They will then be sure their records are correct in the accounting operations of the Social Security Administration. That record can be checked by asking the Abilene office for the post card prepared for that purpose.

Week end visitors in the Aud Germald home were Mr. and Mrs. Jerry Kahill, Laura and Kelly, Abilene; Mr. and Mrs. Thurman King and Brenda, Dumas; Mr. and Mrs. Tot Levens and grandchildren of Yuma Ariz.; Ode Levens, Roby; Frank Levens, Abilene; Mrs. Lena M. Green, Rotan; Mr. and Mrs. Cliff Weatherby, Wheeler; Mr. and Mrs. Marvin Mann, Rotan.

Mr. and Mrs. J. W. Perry visited relatives near Lockney last week end and report a nice rain while they were there.

NEWS from you
*** County ***
Agricultural Agent
Texas A. & M. College
Extension Service

We have had several inquiries lately about killing Johnson Grass with the different type oils. According to experiment station results we can get the most economical and best will by using one of the naphtha oils or oil mixtures. The naphtha oil is the same material used by cleaning plants.

Johnson grass can be killed to the ground by the application of 1-3 teaspoonful of naphtha oil to the crown of each stem. Eradication of established Johnson grass can be

obtained in a single season by repeating the treatment at 7 to 10-day intervals. Best results are obtained when treatments are begun before the stems are 6 inches tall and before the base of the stems become glazed. The oil is used most efficiently when it is applied to the lower 1-4 inch of the stem. Treatment of the foliage is unnecessary and wasteful. Six or more consecutive oil treatments usually are needed to eradicate the grass.

This practice is successful in controlling scattered infestation of established Johnson Grass in cotton and most other crops. It is faster, easier, and far more effective than hoeing. Avoid treating the stems and foliage of crop plants. They are susceptible to the oil at the rates used. Suitable naphthas usually are available from bulk service stations. Disel fel or kerosene fortified with

1% pentochlorophenol by volume is usually as effective in killing Johnson Grass as the naphtha-type oils used alone. A mixture of half-diesel fuel oil or kerosene and half-naphtha also is satisfactory. Naphthas usually cost about 21 cents per gallon and diesel fuel oil and kerosene, about 13 cents.

Crown application by hand permits treatment of the grass without getting oil on the crop plants. A liberal "squirt" of the oil to the crown of each grass stem is enough to apply at one time. Several types of hand sprayers are satisfactory for the treatment. Two of the main one are the Knapsack Sprayers and a gravity-flow type sprayer. Actually we do not need pressure for applying the oil.

Caution! Oils used in spot-treating Johnson Grass are flammable and smokers should not smoke while using or handling them. These oils should be handled carefully as they will "burn" tender skin or unexposed portions of the body. Usually they evaporate too rapidly to affect exposed skin. Extreme care should also be taken to avoid getting the oil in the eyes as it can cause painful burning of the eyes.

"Proper use and stocking of range land has proven to be profitable from the pounds of livestock produced as well as from conservation of soil and water to withstand droughts," says G. O. Hoffman, Extension Range Specialist, Texas A & M College.

In speaking of the practices, Hoffman referred to them as the tools of range management. Each individual should choose the range management tool that will best help him maintain a long lasting, profitable ranching business. These range land practices are: proper use and stocking, deferred and rotation grazing, brush control, reseeding, cross-fencing and salt and water distribution.

Ranchers should graze only the number of livestock that he has grass for, with stocking rates figured on using half and leaving half of the current year's growth. The deferred pastures can be mightily important as a feed reserve during winter.

"By controlling brush, water ordinarily sapped from the ground by trees is left for grass. Brush control should always be followed by deferred grazing," Hoffman cau-

tions. Cross fencing should be planned where each area has the same grazing potential. When it is not profitable to fence, then proper salt and water distribution can give the ranchers a chance to use grasses in the ungrazed corners.

Livestock do not need water and salt together as once thought. Livestock will find salt when it is moved into ungrazed areas if they need it.

The Sears registered Duroc Jersey gilts will be distributed Tuesday, at 8:30 a. m., June 5 at the Fair Ground in Roby. The 4-H boys receiving the gilts are: Gary Floyd, Joel Rains, Horace Wayne Greenway and Bradley Brittain, all of Rotan Club and Weldon Van Liew, of Roby club. At the time of distribution, the gilts will also be vaccinated for hog cholera.

Since this is not the maximum number we are allowed to give away we would still like to see some club member get a gilt if he is interested. If so, contact the County Agent's Office sometime before Tuesday, June 5.

TIMELY TIPS:

Bluestone may be successfully used to clear water troughs, ponds or reservoirs of green scum. Safe dosage is 8 pounds of bluestone per million gallons; 1 ounce per 8,000 gallons; or 1 level teaspoonful per 1500 gallons of water. Complete information may be obtained for the use of bluestone from L-55, which is available at the County Extension Office.

The Texas Farm and Ranch Safety Council reports that at least one Texan of late has beat the 14 to 1 odds against the tractor driver surviving an accident with an automobile. The next driver may not be so lucky. "Don't take chances with unmarked or unlighted tractors on public roads or highways, your life depends on your being seen."

Mrs. George Branch, Mrs. Ralph Branter, Jayton; Mrs. Clayton Branch, Mrs. Ira Branch and Miss Erma Branch of Fort Worth attended a coffee in Breckenridge Saturday morning honoring Mrs. Karen Bullock Payne, a recent bride and neice of the Mesdames Branch.

Mr. and Mrs. J. D. Coker and Ronnie visited his parents, Mr. and Mrs. W. T. Coker in Abilene Sunday.

Fairy Graham Has Second Birthday

Fairy LaVonne Graham was honored on her second birthday with a party given by her mother in her home at 202 E 3rd st, last Wednesday.

Cake and refreshments were served to the guests present.

Among guests were, Sherita and Ross Trout, Byron Haynes, Debbie Harrison, Obie Gene Kelley, Jr., Kay Hardy, Mike and Pat Allen. Also present were Mesdames Roland Trout, Rale Haynes, Tye Harrison, Billy Frank Hardy, Eugene Allen Rex Hall and an uncle of Fairy, Mr. Lyndell Rogers.

Among those not present who sent gifts were Jimmy Kent Browning, Bobby Lynn Peek, grandmother Rogers and grandmother Graham and also Mrs. O. C. Ashton.

Hobbs Club Met With Mrs. Hardin

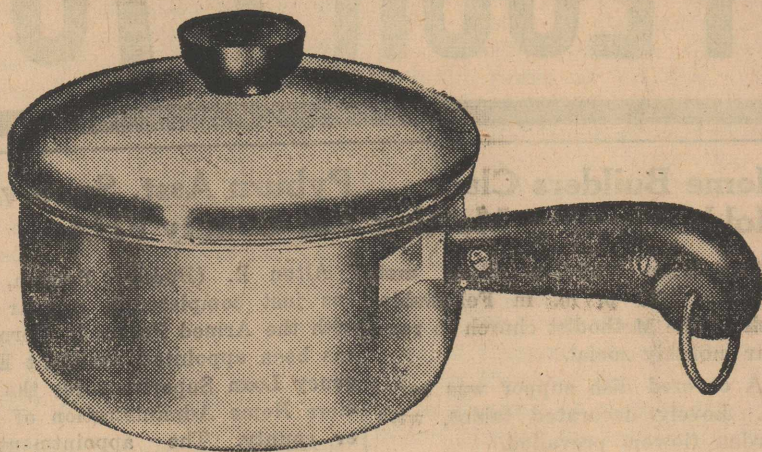

Mrs. Lester Hardin was hostess to members of the Hobbs HD club with Mrs. J. P. Phillips presiding.

The program on "Making Draperies" was presented by Mrs. Joe Dismore. Samples of materials for drapery from Itasca Mills, Itasca, Texas were shown.

Refreshments were served to Meses. Bill (Hardin, Dismore, Ed J. Hawkins, Phillips, Joe Miers, Hardin and Dutch Gantt.

The next meeting will be in the home of Mrs. Bill Hardy, May 24.

Mr. and Mrs. Jimmie Hughes and son Craig and Clay of Houston came Friday to visit their parents. Mr. Hughes went to Midland Sunday on business and will also be in Lovington N. M.

4-Hers To Win Honors For Over-All Merits

Over-all accomplishment in 4-H projects and activities will bring valuable awards to Texas 4-H Club members through the 1956 National 4-H Achievement, Boys' Agricultural and Girls' Home Economics Award Programs.

The Achievement awards, which are among the highest honors given in 4-H, are presented for outstanding accomplishment in all 4-H projects and activities. Both boys and girls are honored in the program.

The incentives, provided by the Ford Motor Company, consist of our gold-filled medals for county winners, and a \$150 college scholarship for the state winner. If a Texas boy or girl is selected as one of the 12 national winners, he or she will receive an all-expense trip to the Club Congress and a \$300 college scholarship.

Two special awards are also given in the Achievement program. The outstanding boy and girl of the country in the program receive chests of silver awarded by the President of the United States.

Winners in the Boys' Agricultural program will be honored by the International Harvester Company. Medals are available for four winners in each county, and the state winner will receive a \$150 U. S. Savings Bond. Accomplishment in all agricultural projects is the basis on which the winners are selected.

Award winners in the Girls' Home Economics program are also selected for project accomplishment. The awards, provided by Montgomery Ward, are the same as in the Boys' Agricultural program.

All of the programs are conducted by the Cooperation Extension service and the awards coordinated by the National Committee on Boys and Girls Club Work.

Full information may be obtained from county extension agents.

Mr. and Mrs. Carlton Allison of Rule visited Mr. and Mrs. Elwood Freeman and Leigh Ann here Sunday. Mr. and Mrs. Freeman of Lubbock and baby are visiting her parents Mr. and Mrs. Morris Watson.

Mrs. Colyn Smith, of Colorado City and her mother, Mrs. Stella Morrow attended the Old Settlers reunion in Lamesa Saturday and had a very enjoyable time visiting old friends.

Mrs. J. B. Belvins of Fort Worth visited her mother, Mrs. John Price last week end and Joe Blevins of Fort Worth visited her Sunday afternoon.

Mr. and Mrs. B. R. Wilson of Corpus Christi, Mr. and Mrs. Earl Keesee of Stamford spent the week end here with their sisters, Mrs. J. V. Hellums and Mrs. Jas. B. Day. Also Mrs. Margaret Cooper and June Ann Day of Big Spring spent Sunday here with them.

Mr. and Mrs. Don Ashley, Jim and Annette and Mrs. W. F. Edwards visited Mr. and Mrs. Tom W. Hill and C. L. Freeman in Odessa Friday and the group attended the Rotan-Pecos game in Midland.

Mr. and Mrs. Tilford Lear plan to go to Galveston Friday to attend graduation exercises of the University of Texas Medical School. Their son-in-law, Maurice Callan will receive his degree in medicine.

DAY 239 NIGHT 8148

Youth-Led REVIVAL

AT

Calvary Baptist Church

Bob Tremaine

May 30th thru June 3rd

MORNING SERVICES 10:00 o'clock

NIGHT SERVICES 9:00 o'clock

PRAYER GROUP MEETINGS 7:30 o'clock

A Cordial Invitation is Extended to Everyone
to Attend These Services!

Mrs. Alvin Clark and Mrs. Fern Benson went to Waco for their daughter and niece, respectively, Betty Jane Clark, a student at Baylor University, and they went from Waco to Robstown to visit relatives, and from there to Baytown to visit other relatives. There Betty Jane attended a house party of several Baylor girls who were visiting in Baytown. Mrs. Clark, Mrs. Benson and Betty Jane returned home Wednesday.

Elmo Caudle and son Mack of Hale Center visited Mr. and Mrs. O. R. Clark Tuesday. They were going to New York to meet Mrs. Caudle who has been on a two months' tour of England. Mrs. Caudle and Mrs. Clark are sisters.

Mrs. C. G. Campbell went to Glen Rose Friday to visit relatives.

The Rotan Advance

Thursday, May 31, 1956 No. 18

Mrs. Hub Taggart returned Tuesday from Fort Worth where she visited Mr. and Mrs. L. R. Summers and daughter Evelyn. She attended graduation exercises and saw Evelyn receive her diploma from the high school.

Rotan Is Proud . . . Of Its Churches

**You In The Church
The Church In You -**
Form a combination for good. We should attend church regularly. Every man, woman and child needs the influence of the CHURCH. Be Faithful! Be a Churchman.

DOAK WALKER of S.M.U.! Who hasn't heard his name? His father was a football player and a coach. Doak's dream was to play as well as his father. *Because the father humored him and gave him everything he had... Doak out played his hero-father.*

LONG AGO the greatest of teachers surprised His disciples with the strange prophecy, "greater things than these shall you do." The Master expected them to do better, because His spirit would be working with them.

That's the wonder and the impossible miracle of life. *Every father who will give his best to his son may expect his son to go beyond himself.*

EVERY GIRL and every boy dreams of doing as well as mother and dad did. That is the height of their ideal. But God's spirit is at work too. *If we do our part God's spirit will make our girl and our boy surpass us... achieve greater things than did we. Our best and God's best and his or her best make a winning combination.*

CHOICE

Pd. Pol. Adv.

Mrs. Jonnie Morgan went to Abilene Saturday to attend graduation exercises of Hardin-Simmons University. Her son Billy Morgan received his degree with the class. She also visited her daughter, Mrs. Gene Offield and Mr. Offield. Mrs. Sally Crowley and Mrs. L. L. Morgan also attended the graduation exercises.

Robert Jenkins and Joe Kennedy, students at Texas University came home Tuesday to visit their parents until June 5, when they will return to school.

Mr. and Mrs. Buford Walters of Wink visited her mother, Mrs. J. M. Montgomery and other relatives here last week end.

'As It Looks From Here

Omar Burleson, M. C. 17th Dist. Washington, D. C.—While the national income is at an all-time high, and large corporate profits set new marks, there remains much to be desired in the nation's economic picture.

A recent Dun and Bradstreet report shows that there were 277 commercial and industrial failures in the week ending May 3. This was the highest number of failures in seven weeks. It was an increase of 17% over the same week last year, and 34% over the same week in 1954.

Small businesses in many part of the country are having rough sledding. It led one small businessman to say, "We're a non-profit organization—we didn't mean to be, but we are."

Small business is somewhat like the farmer—the smaller it is, the more necessary it becomes to produce nearer to the limit of its capacity. Unlike the huge corporations, its margin of profits is considerably less, and it has less opportunity of receiving Government contracts or tax write-off benefits for plant expansion. Big business can more readily retrench in its operations than smaller enterprises. At the present time, according to a report of May 1st, unemployment in both the automobile and farm equipment fields is rising with new lay-offs scheduled.

The unanswered question in industry is "how big is too big?" This issue has recently been revived by the report of the Anti-Trust and Monopoly Subcommittee of the United States Senate. It summarizes the result of a study of General Motors. The study noted that last year after taxes and bonuses, profits equalled about 31% of its entire worth, compared to an average rate of about 12% for U. S. industry as a whole. Yet the Company feels that a price reduction on its products is not justified.

Steel has gone up, as well as wages, in both the steel and automobile industries. The unions in these factories will be looking for

The Rotan Advance

Thursday, May 31, 1956 No. 18

another raise in the next few months. It all means that there is little chance of our buying an automobile or farm equipment any cheaper than at present, and the prospects are for prices to increase.

Speaking of unemployment . . . railroad brakemen must be wondering what will become of their jobs when all box cars are switched by radar.

Another item of economic interest to farmers, . . . under the old-age and survivors insurance provisions of the Social Security Act, every farmer past 65 years of age who files proper papers with Social Security and pays the self-employment tax, and who has already grossed as much as \$800 self-employment income for the current year, is now fully insured under the law.

If the farmer does not expect to net more than \$2080 in 1956 he should contact the Social Security office immediately. In many cases, he can begin to receive monthly "retirement" checks if he does not expect to net more than \$1200 in 1956, or regardless of his earning expectations if he is 72 years of age or over.

The following counties are serviced by the Abilene office of Social Security located at 766 Cedar st.: Nolan, Fisher, Jones, Taylor, Shackelford, Stephens, Eastland, Callahan and Comanche. Raleigh R. Tuley, Jr., is district manager of the Abilene office, and is eager to be of service.

Farmers need not go to the district office if it is inconvenient for them to do so. A field office representative makes regular visits to the larger towns in each county. All post offices have a schedule of such visits and can advise those interested when the field representative is expected.

I keep remembering the last words spoken by Senator Alben Barkley just before he died on April 30th: "I would rather be a servant in the house of the Lord than sit in the seats of the mighty."
