

Applying fertilizer to the farm fish pond not only increases the amount of food in the water but also is one of the best practices for controlling submerged mosses in the pond, says Ed Cooper, extension wildlife specialist.

The first application of fertilizer should be made immediately. Since the pond water is usually deficient in the same nutrients as is the soil over which the water flows into the pond or tank, Cooper suggests the use of the same commercial mixture as is used for crops on the farm. An initial application of 100 pounds for each surface acre of water is suggested. This amount should cause a change of color of the water. This is due to the development of a great amount of plankton which is used for food by the fish and organisms upon which fish feed. Bloom is another term used to describe the water in a properly fertilized pond.

Cooper advises periodic checks of the pond to determine when additional fertilizer applications are needed. He says to submerge the arm into the water to elbow depth and if the thumb can be plainly seen, more fertilizer should be applied. Only the amount required to get the desired bloom should be applied and this may be about half of the first application.

Pond fertilization should be stopped during the hot summer months. The fertilizer can cause a shortage of oxygen in the water, especially during the periods when the wind is not strong enough to cause wave action. Fish will die when their oxygen is depleted.

Finally, Cooper emphasizes that all of the fertilizer to be used during the year should not be applied at one time. Start now and make applications to maintain the desired bloom. The shading from the bloom will also control submerged mosses and make fishing and swimming in the pond more enjoyable.

Herd records are the foundation for sound dairy management. If dairymen are to really appreciate this statement and to realize its far-reaching affects, our herd records must be put to work.

One of the first ways in which production records may be used, and at the same time pay off in terms of dollars and cents, is as a guide for feeding the herd. Each cow should be fed according to the amount of milk she gives. In herds where production records are not available or used, some of the higher producing cows will be underfed and most of the low producing cows will be over-fed.

There is nothing complicated in using production records as a guide in feeding dairy cows. Here are the steps:

1. Weigh one day's milk from each cow once a month and record the weight.
2. Figure a feed chart for the herd. For each Jersey or Guernsey, feed 1 pound of mix for each 3 pounds of milk given on the day the milk is weighed. Give 1 pound of mix for each 4 pounds of milk for Holsteins. Watch closely to determine whether their feed should be increased or decreased.
3. This method of feeding cows according to their production is based on the full feeding of roughage and pasture.
4. Revise the feed chart with each month's milk weights. A weight sheet and feed chart can be obtained from the county agent's office.

The Sears Gilt Program will be explained this month at all the 4-H club meetings. All 4-H club members are eligible to compete for the eight gilts and one boar which will be distributed the latter part of May. The following is a schedule of this month's club meetings:

- Monday, April 14, 1958, 7:45 p. m.—Jr. Leaders Club.
- Tuesday, April 15, 1958, 9:06 a. m.—McCaulley.
- Wednesday, April 16, 9:26 and 10:09 a. m.—Rotan Clubs.
- Wednesday, April 16, 1:35 p. m.—Hobbs.
- Monday, April 21, 12:45 and 1:45 p. m.—Roby.

Mr. and Mrs. Glen Cain of Sweetwater, his parents Mr. and Mrs. A. N. McNaron of Ennis visited W. W. McNaron Sunday.

Glenda Klepper of California, a student at ACC, Abilene spent the holidays here with Helen Jo Turner.

Gamma Tau Presents Program From KXOX

Rotan, Fisher County, Texas, Thursday, April 10, 1958

Farm Housing Program Is Expanded Here

An expanded farm housing loan program, designed to speed up farm building construction improvement as well as act an additional anti-recession measure, was announced today by Witer T. McKay, Farmers Home Administration State Director, according to Robert C. Land, the agency's local County Supervisor.

Now an owner of a farm in agricultural production and on which the operation plans to produce at least \$400 worth of farm commodities for sale or home use may qualify for the 4% long-term housing loan provided that he meets other standard eligibility requirements.

Formerly an eligible applicant had to own a farm that produced a more substantial part of the operator's annual cash income.

Loans may be made to build, improve or repair farm houses or other essential farm buildings, and to provide water for farmstead and household use. Mr. Land said that

Mrs. Williams and Carter New Trustees

A heavy vote of 460 resulted in Saturday election of two trustees of Rotan School. Mrs. Bob Williams and Horace L. Carter led the ticket.

Mrs. Williams polled 235 votes for high point and is the first woman trustee elected here. Carter ran second with 199. Ray Brown received 168, J. W. Stinson, 122, Tyrus Harrison 112 and R. L. Hayes 72.

The incumbents, secretary Vic Hill and vice-president Fred Vierly did not seek reelection.

New Directors Named Chamber of Commerce

New directors of the Chamber of Commerce selected Mac West as president at a meeting Thursday night at City Hall.

Other officers are Charlie Wotter, vice-president and Mrs. Rob Gray, who was renamed secretary.

New directors elected by members of the organization are Homer T. Fillingim Jr., Wendell McWhorter, J. D. Burk, Wayland Gray and Kenneth Kelly. Carryover directors are Ray Brown, Hurst, Roy Kingsfield and Dr. Ba

Young Demos Organized Monday At Roby

Fisher County Young Democrats held organization meeting Monday night at REA office in Roby. Selected Dr. Barry Allen as president.

A. A. Ratliff of Roby was elected vice president, Sarron Robson, Roby, secretary and Bevit Austin, Bruce, Roby, treasurer.

Mrs. James B. Day and Miss Delila Baird of Rotan were two of a panel of members of Gamma Tau chapter of Delta Kappa Gamma who presented a program over KXOX radio, Sweetwater, recently. Other members of the panel were chapter president, Mrs. Herman Phillips of Sweetwater, and Mrs. Oddis Brown, vice president of Gamma Tau. The group were interviewed by Mrs. Buck Wetsel, Jr. Mrs. Phillips discussed the international status of the organization, its history, and the program of work. Special emphasis was given to the scholarship program.

Mrs. Brown discussed the chapter's program of work and projects sponsored by the chapter each year. Mrs. Brown is president-elect of Gamma Tau.

Miss Delila Baird, state publicity chairman, told of the duties of her committee. These include sending directives to the 124 Texas chapter chairmen, collecting and tabulating chapter reports, and reporting to the state and international offices.

As a state chairman, Miss Baird also helps direct fall state regional, attends state planning meetings, makes an oral report to the state convention, and presides at the Special Interest Breakfast for publicity, publications and pioneer women committees. In addition to the state committee work, Miss Baird is immediate past president of Gamma Tau and chairman of the chapter scrap book committee.

On the radio program Mrs. Day discussed the state convention which meets in Dallas May 18, 19 and 20. Outstanding speakers will be heard by the convention group. Mrs. Day, a member of the state committee on publicity, will be in charge of the scrapbook exhibit and rating at convention. She is vice-president elect for Gamma Tau, and will serve as program chairman for the chapter during the next two years.

Because of conflicting school duties, the program was recorded on tape for broadcasting. The four members appearing on program plan to attend the state convention in Dallas.

Mr. and Mrs. W. F. Lowe and daughter, Sandra of Winters visited her mother, Mrs. Edna Colwell Sunday. Sandra is attending Texas Tech and was home for the holidays.

Money seems to be the root of all necessities—and most evils.

Reduce Delinquency

XIV AT GATESVILLE (A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

For many years whippings and solitary confinement were routine punishment at the state reformatory at Gatesville. We heard that sadistic guards punished the boys unmercifully.

Several years ago a drill-master jumped on a boy who refused to drill any longer and choked him. The boy died.

Like Hardened Criminals

"The boys in this institution are subject to the same harsh and strenuous rules and regulations as you would expect to find in controlling the hardest criminal in the penitentiary," a legislative committee said about the Gatesville reformatory.

Despite the harsh treatment (which included 10-year-olds who were there because they were neglected but who were learning crime from the older, more serious offenders) there were gang fights, hunger strikes, and many escapes.

In 1952 a new policy was inaugurated. Today the whip is gone. Bars have been removed. Boys are punished by being deprived of privileges. There have been no gang fights or hunger strikes. Escapes have decreased.

Institutional Whippings

Authorities believe that whippings in institutions often build up resentments that cause the boy to commit other offenses.

Those who have actually worked with teen-age offenders believe that institutions for delinquents should have treatment seeking the causes of delinquency, together with a program of education, rehabilitation and vocational training.

The Preacher and The Druggist

Once upon a time a very learned physician, unsurpassed in his field, very carefully examined the little baby of a preacher. The doctor gave the minister a prescription to be filled and the preacher hurried to the pharmacist. While filling the prescription, the druggist said to the preacher: "Here is an item that the doctor has specified, but I do not think it is essential, and the baby can probably get well without it." But the preacher asked: "Do you have it there in your stock?" "Oh, yes," he said, "But I think it is just as good not to put it in." "No Sir," the preacher replied. "I want you to let me have it just like the doctor prescribed." "Well, I have another drug here which the doctor did not call for, but I think it is good, we use it at our house, and we like it, shall I put it in?" "No Sir, I insist that you let me have it just exactly as the doctor specified, that and no more," demanded the preacher. "Yes, but the doctor did not say not to use it." "Nevertheless, I can only accept the prescription as the doctor gave it, and it must be filled that way or not at all." The following Sunday the druggist went to hear the preacher deliver the prescription of the Great Physician for the healing of the sin-sick soul. In the course of his remarks he stated that although the Bible taught that all should be baptized in the name of Jesus for the remission of sins (Acts 2:38; 22:16), he thought that one could be saved without being baptized. The preacher urged that baptism, although prescribed by Jesus (Mark 16:16) and all the apostles, was not essential in the prescription. Later in the sermon the minister averred that instrumental music in the worship, without specific command, was entirely safe and sound. "Although the teaching of Christ," he said, "is silent on instrumental music, we certainly know that Jesus nowhere said not to use it." As the druggist shook hands with the preacher after service, he quietly said, "Surely the legs of the lame are unequal."

Friends and neighbors, why will you allow such in religion and still accept it? Will your religion stand investigation? Many times when someone suggests that some popular doctrine be compared to the Bible, a fuss is made about being treated unkindly. Why? Because denominationism will not stand when examined with the truth.

church of Christ
ROTAN, TEXAS

New Egg Law Is Often Misunderstood

Austin, April 8—A serious misunderstanding apparently has arisen between some producers and buyers of eggs on certain points of the new Texas Egg law, Agriculture Commissioner John White said today.

Reports have reached the Texas Department of Agriculture that certain retailers and buyers have refused to handle eggs from the small producers with limited flocks. These buyers have blamed the Texas Egg law and used it as an excuse for not doing business with the farmer who wants to sell only two or three dozen eggs at a time.

"There is absolutely nothing in the law that interferes with or prohibits this long standing business relationship between any producers and buyers," White emphasized. "A retailer, dealer or other egg handler can purchase any amount of eggs from a producer at any time."

Although the law prohibits the sale of inedible eggs, this factor should not jeopardize normal egg transactions with either large or small producers, Commissioner White said.

"This type of regulation against inedible eggs, as well as other food products, has been in force for years through the U. S. Pure Food and Drug Act. If the usual precautions are taken by both egg sellers and buyers—just as in the past—this phase of the law will not place undue restrictions on the trade.

"There is a big difference between occasional bad eggs involved in sales transactions and whole cases of spoiled eggs," said White. "Common sense will prevail in egg inspection work."

"There have been instances when large lots of inedible eggs were deliberately moved into trade channels before we had the additional protection of the Egg Law. We will be especially vigorous in preventing this type of violation."

Another misunderstanding involves provisions of the law relating to egg grades.

"Eggs do not have to be graded," White pointed out. "Grading is not mandatory under the law at any level of trade. Ungraded eggs may be sold in the channels of trade but they must be plainly marked 'ungraded' on the carton or container."

White added that it is more advantageous to all concerned if the producers and handlers do participate in the egg grading program. Otherwise, high quality eggs will be sold on an ungraded basis, sacrificing the price advantage of the higher marked grades.

When the grading system is used, the cartons or containers must be labeled according to the actual size and grade of the eggs. Standards are those set by the U. S. Department of Agriculture and approved by the Texas Egg Marketing Advisory Committee.

Two main points to remember,

Political

Announcements

We are authorized to announce the following candidates, subject to Democratic Primary of July 26, 1958.

FOR STATE REPRESENTATIVE,
91st District:
Max Carriker of Fisher County

FOR COUNTY JUDGE:
O. R. Clark
Bruce McCain (re-election)
Homer Rucker

FOR DISTRICT CLERK:
Nealy A. Morton (re-election)
Loa R. Weems
Mrs. Evannell Dennis

FOR COUNTY CLERK:
John W. Ashley (re-election)

FOR COUNTY TREASURER:
Isla McClure (re-election)
Mrs. Raymond (Goody) Goodwin

FOR COUNTY SUPT:
C. J. Dalton (re-election)

FOR COMMISSIONER PRE. 4:
Thurman Terry (re-election)

FOR JUSTICE OF PEACE:
J. C. Simpson.

said White, are:

1. An egg producer, large or small is exempt from the law—and all of its provisions—if he sells only from the production of his own flock on an ungraded basis.

2. The new law is essentially an egg labeling act which requires that eggs sold within the state be properly marked as to size and grade if a grade is claimed, or marked "ungraded" if no grade is claimed. The eggs must meet the specifications indicated on the container if they are sold as graded eggs.

"Our problems would be simplified if most of the complaints would only read the law," said White. "Troubles arise when a person gets his information 'second hand' and decides that the law discriminates against him."

White strongly urged all persons with a question on the law to contact the Texas Department of Agriculture in Austin.

"We will answer all inquiries fully and promptly and send along data that explains all phases of the law in detail," he said.

PLYMOUTH...

TODAY'S

BEST BUY...

TOMORROW'S

BEST TRADE

You get more for your money in a new Plymouth! Regardless of model or price, you get a full 118-inch wheelbase... a revolutionary new suspension system—Torsion-Aire—that gives you the world's most level ride... Total-Contact Brakes that stop you faster, smoother, with 30% less lining wear... modern Silver Dart styling that will still be beautiful years from now... plus dozens more. Remember: the other two low-price cars charge from \$125 to \$140 extra for their top rides, and don't offer

Plymouth's other great features at any price! Plymouth is today's best buy!

When trade-in time comes, Plymouth will still be the only 1958 car in the low-price "3" with Torsion-Aire Ride, Total-Contact Brakes and all those other features that put it so far out in front. Naturally, it will bring you a higher price than less modern cars! That's why we say the new Plymouth is tomorrow's best trade! See your Plymouth dealer and make the best deal of your life!

Approaching Marriage Is Announced

Mrs. W. H. Nowlin went to Ft. Worth Tuesday to visit her sisters.

Mrs. Wallace Strayhorn and sons Johnny, David and Chris of Electra spent Easter holidays here with Mr. and Mrs. Mark Strickland, and Mr. and Mrs. J. R. Strayhorn.

... be ye transformed by the renewing of your mind, that we may prove what is that good and acceptable and perfect will of God.—(Romans 12, 2.)

In our busy days we can get so involved that worrisome details crowd the Lord out of our minds. Then we should stop and even in an instant of quiet meditation and communion with Our Heavenly Father, renew our soul through the inward flow of His love.

Mr. and Mrs. Russell Savage of Snyder are announcing the approaching marriage of Barbara Sessums, sister of Mrs. Savage and daughter of Mrs. B. R. Sessums, of Denair, Calif., to Walter Starnes, nephew of Mrs. William Shope of Rotan.

The couple will recite their wedding vows in the home of Mr. and Mrs. Savage 2704 Thirty-fourth st. in Snyder on April 11 at 2 o'clock. They will be at home in Big Spring, following the wedding.

The bride-elect graduated from Denair High School. Mr. Starnes graduated from Rotan High School in 1948 and attended Draughtons Business School in Abilene and Howard County Jr. College in Big Spring. He is employed by Sunray Mid-Continent Oil Co., in Big Spring area.

Freddy Smith of Texas University visited his parents, Mr and Mrs. Clifford Smith last weekend.

Becky Strickland of McMurry College, Abilene, spent Easter holidays here with her parents.

Mary Lynn Burrow Marries Dallas Man

In a formal candlelight wedding Friday evening at 8 o'clock at the First Baptist Church in Grand Prairie, Miss Mary Lynn Burrow, daughter of Mr. and Mrs. J. T. Burrow, 505 Cimarron, Grand Prairie, and William Charles Terry, son of Mr. and Mrs. W. H. Terry of Vivian, Louisiana were married. Rev. William J. Yeager read the impressive double ring ceremony before a large guest assemblage.

Given in marriage by her father, the bride was gowned in elegant candlelight Peau de Soie and imported Alencon lace, fashioned with a figurine ine bodice, and a portrait neckline, accented by Alencon lace, pearls and crystal beads. The long sleeves tapered to points over the wrists.

The skirt featured accordion pleats and a gathered pouf overskirt of peau de soie caught with Alencon lace appliques, and forming a court train.

Her veil of illusion was fashioned from a tiara of seed pearls and rhine stones. The bride's bouquet was of Amazon lilies and stephanotis atop a white Bible.

Ushers were Melvin Bergstrum and Ben Watkins, both of Grand Prairie, Jim Watson of Rotan, Texas, and Sonson Cade of Dallas.

Following an unannounced weddingtrip, the couple will be at home at 1601 Ash, Grand Prairie.

The rehearsal dinner for members of the wedding party was given Thursday night at the Lennox Hotel by the grooms' parents, Mr. and Mrs. W. H. Terry.

The bride is a Grand Prairie High School graduate, attended Arlington State College and is a graduate of East Texas State College.

The groom is a graduate of Vivian, La., High School, attended Louisiana State University, Louisiana Tech and was graduated from East Texas State College. He is employed by Span, Inc., of Dallas.

Attending from Rotan were the bride's maternal grandparents, Mr. and Mrs. Ivey Taggart and daughter, Pearl and other relatives, Mr. and Mrs. Morris Watson and Jim Watson of Texas University and Mrs. Les Templeton.

CHEVY'S APRIL SALES SPECTACULAR!

1 SPECTACULAR STYLE—Proved by leading fashion designers!

The smartest look on the road! That's Chevrolet in all 17 glamorous models. And proved, too. For Chevrolet's sculptured elegance and gracefully sweeping lines captured the imagination of world-famous designers, inspiring a fabulous collection of women's fashions.

2 SPECTACULAR PERFORMANCE—Proved on a round-trip run over the Andes!

From coast to coast across South America, up over the Andes from Buenos Aires to Valparaiso, and back again in just 41 hours and 14 minutes! Chevy went all the way with the hood sealed shut, without a drop of water or oil added—experiencing every extreme driving situation you can think of for 1,900 straight miles. Chevrolet proved its sure-footed roadability and boundless V8 energy, with the Automobile Club of Argentina certifying the results.

3 SPECTACULAR VALUE—Your Chevrolet dealer's ready to prove it!

He'll show you that Chevy's the only completely new car in its field, today's biggest dollar buy. Yet prices begin right at the bottom of the ladder. See him this month for sure!

You'll get the best buy on the best seller!

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M. D., Commissioner of Health

Next month Texans will note the fifth anniversary of an event which transformed the neat center of a city into a twisted debris-laden mess in a matter of seconds—the Waco tornado.

Perhaps the best way to pay homage to the scores of people who lost their lives in the Waco disaster would be to learn and heed the proper means of protecting ourselves whenever a tornado threatens.

An elaborate tornado tornado detection warning system is now in operation throughout Texas and neighboring states, with the central weather bureau in Kansas City. Whenever compiled weather data indicate, the Kansas City bureau alerts all weather bureaus in the affected area which in turn notify all local media of mass information such as radio stations and TV stations.

These stations then announce a SEVERE WEATHER ALERT, carefully describing the areas in which strong weather will occur.

This does NOT mean a tornado is going to occur, but it does mean that conditions are such that a tornado could develop.

From this point the weather bureau, the Ground Observer Corps and the Department of Public Safety work hand in hand. Whenever radar picks up a likely trouble spot, a patrol car is dispatched to the location to check. If it is a tornado, the direction, approximate speed and exact location are determined by both the patrolman and by the use of three radar stations a "fix" on the trouble point.

Radio and TV stations are then immediately notified and a TORNADO WARNING is issued describing the direction and speed. This is the time to take action.

No TORNADO WARNING is issued until an actual tornado has been sighted and verified. A period of SEVERE WEATHER ALERT is a time to prepare for action—but a TORNADO WARNING means act and act fast. Keep tuned to your radio or TV set and you will be immediately informed—do NOT swamp the station or points that gather information with telephone calls.

When a warning is received seek shelter, if in town, preferably in a

steel reinforced building, but stay away from windows. If at home, the southwest corner of the lowest floor or in the basement offers greatest safety. If in a frame, brick or stone house you should seek other shelter. Electricity and fuel lines should be turned off.

Windows on the north and east sides of the house may also be opened to help reduce damage to the building. If you have one, use a storm cellar.

Mr. and Mrs. Don Hull and daughters, Jane and Sue of Houston came Friday and visited her parents, Mr. and Mrs. Fred Byerly until Sunday and Mr. and Mrs. Fred Byerly Jr., Sherry and David of Lubbock spent Sunday here with them.

BARNES FEED & PRODUCE

STATEMENT FROM
DAVID W. RATLIFF

During the first three months of this year, I have traveled throughout the counties comprising the 24th Senatorial District of Texas. I have visited every area and community in the district and have attempted to talk with as many people as humanly possible in such a short period. I regret that I have not been able to see and visit with more of the citizens of this district, but I am hopeful that the ensuing two months will give me that opportunity.

It has been my purpose to assemble the cross thinking of the people of the district and obtain grassroots opinions in order that I can more ably serve the district as State Senator.

I have discussed water problems, highway situations, hospital needs, and the imposing tax problem with men and women in every walk of life. Out of the experience of these visits I am more humbly conscious of the grave responsibility with which the next regular session of the legislature will be faced.

There is no question that in this

period of economic instability there is a keen and profound need for State Government stability. That stability can be gained only through sane, sober and mature deliberations by the two bodies composing our state legislative branch. As a member of the nine member State Tax Study Commission I am particularly conscious of the possibility actually the probability, of the imposition of new tax burden on the people of this state. During my eight years in the legislature I have consistently opposed the imposition of new taxes. I have particularly opposed the levying of punitive taxes. It is my hope and belief that from the information being gathered and studies being made by our Commission, any new taxes recommended to the next session will be most equitable and less damaging to the individual.

The Study Commission of which I am privileged to be a member is paramount in mind the responsibility of reducing or eliminating wasteful and extravagant state expenditures before even contemplating the levying of new taxes.

Out of the visits with the citizenry of this Senatorial District, it is my true and genuine belief that the most fundamental desire of the majority of the people is that King- makes and lobbyists of the CIO-AFL

not dictate the policies of State future of Texas. I unreservedly pledge to defend the structure of our political system and the operation of our state government against the potential invasion of stooges and candidates selfishly sponsored by the Political Action Committees of Walter Reuther.

The people of this district extended me a great honor by allowing me the privilege of serving the unexpired term of the late Senator Harley Sadler. My family and I are deeply grateful for the many experiences of friendships which were afforded us through this opportunity of public service. It is our deepest hope that my conduct as State Senator has never and will never cause embarrassment or disappointment to any of the people I represent.

I respectfully and humbly ask the voters of the 24th Senatorial District to allow me a second term in the State Senate and prayerfully pledge that I will serve faithfully and honestly and will cast my votes in every instance in a manner in which I believe to be in the best interest of the majority of the people.

Mr. and Mrs. A. H. Brown of Wink visited her sisters Mrs. Robert Gray and Mrs. J. M. Wilson last weekend.
