MEN PREACH

But they don't practice. Heaven is described as a Beautiful place, where Peace forever reigns. Yet not one of us seems to be very anxious to quit and go there. Just so, some hang on to their old Clothes till the last minute, tho' New ones are Good and Reasonable. It's time. Fall clothes are here and they never will be nicer.

Brandegge Kincaid & Co. is our leading brand of clothes, for men.

SISTERS OF FAMOUS MEN

The greatest man the world ever knew before the coming of Christ, and He was above human beings, owed his life through God's providence to his sister. When he lay a beautiful helpless 8 months old baby in the tiny boat of bulrushes darbed with slime and pitch, which his brave and devout mother had made for him and hidden in the flags by the brink of the river Nile, his loving little sister hid herself near enough to watch the precious baby and see that no crocodile or other dangers threatened him while her mother went back to her work, prayerfully waiting to know what would become of him.

Everyone knows the story of how the kind hearted Egyptian princess found the baby, and his bright sensible sister at once came forward and respectfully asked permission to call a nurse for the arms of his mother, and protected him and his future planned by the gracious princess. But Marian's devotion to her brother Moses is not her only claim to lasting fame. She was a prophetess, poetess and musician of marked talent.

The greatest man who has blessed the world since the Gospel dispensation, also had a faithful sister. With her he stayed while attending the noted school of Gamaliel, and when years later Paul was a prisoner for preaching the gospel, and his life threatened by a determined mob, it was his sister's son who started the movement for his escape. How much was Lazarus aided by his devoted sisters, Martha and Mary?

Again what awful trouble came to poor Jacob because of his thoughtless pretty daughter Dinah?

The princess Mary afterward "Bloody Mary" caused her brother—King Edward 7 of England a great deal of trouble by her arrogant prejudices and spiteful disposition

George Washington had a sensible, noble sister, whose influence as a sincere lover of home, helped him to become the highest patriot for love and devotion to one's country is only love of home in a broader sense.

John Wesley had a talented sister who was his faithful ally in their early studies. Of her he said, "She is the best reader of Milton's Paradise Lost I ever heard." One of her long letters of rare literary merit, rings like a tragic plea for opportunities for higher education among women.

History and fiction abound with stories of the affectionate fortitude of sweethearts and wives, but noble sisters are sometimes uncrowned queens of love and duty.

The sisters of Daniel Webster stayed at home, worked hard and economized closely while the future statesman went to College, and more recently the school-teachers' sister of the famous Wright Brothers, made the drawings and helped her struggling brothers in their work of inventing an air ship.

We have not space to tell of the courageous sisters who stood side by side with their brothers, enduring the hardships and privations of frontier life in the limited states.

BRADLEY MOVES IN THE BEST SOCIETY

EVERYWHERE YOU GO IN THIS BROAD LAND WHEREVER KNIT GOODS ARE USED YOU WILL FIND IN THE BEST PLACES, ONE PARTICULAR BRAND, BRADLEYS.

We announce to the public that we are the sole agents for Bradleys Knit goods in Haskell.

If you would have a large and new stock of sweaters, caps or hoods to select from we would advise you to come to our store at once. We have only had these goods a few days and have sold a large number of them already.

We would like to have you inspect our stock of Bradley Knit goods, and compare them with any other you can find in the city, put them side by side if you want to—you will find that no other house

has any to compare with them even though they be more expensive. We would especially call your attention to the finish of these garments—the finish of the edge and the button hole.

Many Bradley button holes are hand made. Even on the lowest priced coats, this detail is in consonance with other points, which combined, make the Bradley the best coat on earth.

Buy quality no matter what you pay. There's always a reason why a bargain is a "bargain."

MILL SAMPLES IN SWEATERS AND CAPS

We have on display something near two hundred sweaters at low prices—prices much lower than you would expect to pay for such goods as these. We were able to purchase these samples at the manufacturers price, with an additional discount on that. We have these garments displayed on counters and you will find something in these that you will be glad to have at the price. There is practically every style of sweater, and every grade of sweater in this lot and you will miss a bargain if you don't come soon, and see this line of samples.

These are not drummers samples that have been carried around over the country and handled hundreds of times, but the manufacturers samples, and have had very little handling, and you will find them in good shape, and a bargain in every one of them.

MISSING EXPRESS PACKAGE FOUND

Pensacola, Fla., Sept. 23.—The package containing \$55,000 in currency which was mysteriously extracted from an express shipment from the First National Bank here to the Louisville & Nashville pay car at Flomaton, Ala., was found this morning at 6 o'clock at the rear of the bank by the negro janitor of the building.

No arrests have been made, but detectives are working on several important clues which are expected to reveal the identity of the robber.

A telephone message was received at the bank Saturday evening, but which was unheeded under the belief that it was from a practical joker, indicated that the valuable package was placed in the rear of the bank building that evening by the thief.

The bank officials reassert their confidence that the package containing the \$55,000 was delivered intact to the Southern Express agency here Wednesday morning of last week. When delivery was made to the Louisville & Nashville pay car that day at Flomaton, the currency, which represented the railroad's monthly payroll for that district, was missing and in its stead were found slips of paper cut from magazines.

Nat Thomas negro janitor at the Bank, found the package of currency wrapped in a Pensacola morning paper of Sept. 19, leaning against the iron grating of the rear door.

Late Saturday evening, W. N. Roberts, an employe of the bank, answered the telephone and was told that if he would look at the rear door "you'll find what you have lost."

Mr. Roberts said he paid little attention to the message.

Manager Peel of the telephone company and agents of the Burns detective agency which represents the bank, are trying to ascertain from whom the mysterious telephone message came.

DRUMMERS DAY AT THE DALLAS FAIR

L. B. Gilbert of Dallas, who has charge of the matter of entertaining the Drummers when they meet at the Dallas Fair this year, made us a pleasant call one day last week.

October the 19th, has been set apart by the Fair Management, and it is a part of Mr. Gilbert's duty to see that this is the banner day at the coming Fair. There will be a special entertainment for the benefit of traveling men and their friends at the Coliseum. The association has arranged for commutation tickets for the travelers, at 50 cts., which entitles the holder and lady to enter the grounds, and will admit them to the general exhibits, that otherwise would cost four dollars.

The traveling men of Haskell will attend this occasion and assist Mr. Gilbert in making this the day he desires.

Mr. Gilbert requests all visiting members of the press to remain for the traveling men's day. He promises to make the newspaper fraternity feel at home.

Notice.

West Bros. "A Texas Ranger" that plays in Haskell, Monday Sept. 30, is the original Texas Ranger Company which have played the piece since August 17, 1909, which was the initial performance. There was a company called the Bewdin Show in Texas two years ago, playing some play calling it "A Texas Ranger". We instituted suit against them, and were awarded damages for royalty. We have the only authentic production and can positively say that it has never been played in Haskell.

TRYING TO REGULATE THE SUN

Press reports announcing that the Smithsonian Institution will undertake an investigation of the sun indicate that the scientists have put one over the politicians. The sun is a public service concern—furnishing us with light and heat—and it cannot vote, so there is no reason why the politicians should not have investigated and regulated it long ago. The service is, as a rule, un-

satisfactory to the public and more complaints have been registered against it than any "Big Business" in existence. The uncertainty of the service has greatly incommoded the public and cost the producer millions of dollars. It has for ages wrung the sweat from the brow of toiling millions and by inadequate service has caused widows and orphans to shiver with cold. By all means let us regulate the sun.

Let the Free Press do your job printing. We are prepared to please you.

LARGE ALFALFA YIELD NEAR PECOS

Pecos, Texas, Sept.—Mrs. W. W. Hubbard, who owns a large farm near here, reports that 20,055 pounds of alfalfa seed were harvested off of twenty six acres of land. She received \$286.00 for the straw and \$2,368.80 for the seed, a total revenue of \$2,654.80 from the land planted to this product.

The Alfalfa seed and crop in the Pecos Valley this season sold for over \$100,000.

Wit Springer of Aspermont was a passenger on the north bound train Monday morning, on his way to Fort Worth. Mr. Springer served this county as deputy sheriff under W. B. Anthony for about six years. It was during this administration that the laws were put in force and toughs and hoodlums were put out of business in Haskell county.

Mr. H. C. Scott's little boy shot himself Thursday with a target rifle. The little fellow was in bed sick and asked children in the room to hand him a little target rifle, which was done without his mother noticing what had been done. The gun was discharged and the little fellow told his mama he was shot. An examination was made and it was found that the ball had passed through his limb and lodged in his pants. A doctor was called and the wound immediately dressed. He is doing fairly well the last report says.

Haskell Men Acquitted.

J. H. Parkinson and E. L. Kelley went over to Snyder this week to stand trial on a charge of burglary. Some time last winter they were at Hermleigh for two days repairing their auto. After they left there was a burglary committed in that place and being strangers, suspicion became so strong against them they were indicted for the offense. At the time the offense was committed they were in Sweetwater and roomed that night with a minister. For once in an opportune time they were in good company. When the trial came up the state had no evidence against them and after the jury heard what was introduced, the judge instructed them to return a verdict of not guilty. They were out about \$1300 dollars for attorney fees and other expenses, and the county and state were out a large sum. They have been wronged and

have no redress. Just such a proceeding as this is what is bringing our courts into disrepute. The fault lies with jurors, district and county attorneys as well as incompetent peace officers and the lawyers who take advantage of a system they know to be vicious but have not the professional pride and patriotism to apply an adequate remedy. Of course there are some honorable exceptions to the rule but the people generally leave the exceptions without clients. A large percentage of the people expect to need a loophole get to get out of some crime they always hold themselves ready to commit and such as these want slip gaps in the law and judicial system.

- Sending Small Children To Visit School.**
- Some parents are not thoughtful about the inconvenience to teachers and pupils occasioned by the presence of small children in the school room. (Children who are too young to send to school). It frequently happens that a child is sent to school in order that the parents may make a visit without the child. The school is made a temporary depository for the small fellow. Teachers are asked to admit such children only when they are accompanied by their parents. It is useless to say that justice to the children in the room and to the teacher calls for this regulation.

Laboratory For Physics.

The teacher of Physics, Prof. H. E. Bell, is equipping a laboratory for the work in Physics in the High School. Two hundred dollars worth of apparatus has been received this week and more is to be secured in the near future. Haskell has good small laboratories for the teaching of Physics and Agriculture. Few people underestimate the significance of such movement of the Board and teachers in securing material for the teaching of the Sciences.

High School Needs Books

The greatest need the High School has at present is library books. There are comparatively few books in the library and the demand for books is exceedingly strong. An effort will be made in the near future to provide a few more books. People of the town who give aid in the securing of books for the High School library will be conferring

Cotton Receipts to September 26th.

Inquiry at the gins and cotton yards shows that the receipts of cotton of the same up to noon Thursday, September the 26th, were as follows:

Ginned by W. T. Newsom.....	984
Ginned by F. T. Sanders.....	787
Weighed by C. H. Russell, Public Weigher.....	1228
Weighed by T. E. Russell, Farmers Union.....	712

The receipts are ahead of this time last year, but the farmers are getting nearly all of the cotton the first picking. All of the farmers we have talked to, agree there will not be any top crop owing to dry weather. There has been practically no blooms on the cotton for several weeks and if the cotton should begin to bloom now, it could not mature any blooms before the frost.

Take Your Citizenship Seriously.

In its issue of September 9, the Richmond (Va.) Times-Dispatch printed a short editorial that ought to be read in every precinct, in every state of the union and posted up on every schoolhouse, and in every counting room and factory in the land. Here it is: "There is nothing more important than that we should take our citizenship seriously. Some people take it as a joke, some as a game, some as a selfish purpose and some as a chance to help friends or grind axes. No man is worthy of citizenship unless he regards it as a mission and uses it for the common good to free his fellowmen from every kind

of servitude and oppression and make them their own levers to raise themselves to better estate. Citizenship is a duty and every man who has a high ideal of life, who makes it brave and serviceable, a right to be called a citizen and no other should be enrolled upon the roll of honor. A citizen is a man who honors his city, his state and nation by living right and doing good. Such a one regards citizenship seriously. The duty of citizenship is committed to each man as a trust to be discharged always for the common welfare and the higher purpose. A ballot is to be used for the benefit of mankind and not for the advantage of individuals."

Excursion Rates.

On account of the Barnum & Bailey Circus, which will show in Abilene Saturday, September 28th, the Wichita Valley railroad will run a special train to accommodate the people who may wish to go to Abilene on that day. This special train will leave Haskell Saturday morning at 9 o'clock, and will leave Abilene to return at 7 p. m., arriving at 19 p. m. Tickets will be sold for this occasion from Haskell to Abilene and return at \$1.65. Children between the ages of five and twelve, one-half this fare.

Tickets will be good only on special trains in both directions.

The Mother's Club

HASKELL, TEXAS, Sept. 28, 1912.

Are you one of the 500 subscribers we are expecting to help us out with a dollar within the next two weeks?

The northers have been rather frequent for the past two weeks. It reminds a fellow of the necessity of having taken care of his summer wages.

There is no reason why the farmers should not raise their meat at home, and have a few home-cured hams, a few slabs of bacon and a few gallons of home-made lard to sell every year. If this was done it would soon put a few crinks in the beef trust's tail that would make him sit up and take notice, and the farmer's bank account would not look like it had the "shorts."

We can remember the time when cotton seed were left at the gin to waste, the owners not deeming them of sufficient value to

haul away, more than enough for seed for another crop and a few wagon loads to feed the milk cows on. But now it is different. Today cotton seed products amount to the value of 140 million dollars a year. And we are glad to see a movement to utilize even the corn stalks, kafir stalks, etc. Everything of this kind is that much to the advantage of the farmer, and what redounds to the interest of the farmer, necessarily helps every business concern in this country.

Many of our subscribers from the country are coming in as they sell their cotton to pay their subscription to the Free Press. We appreciate this very much, as we have some very heavy obligations to meet, and every dollar helps us out that much. There are many others who have not yet called, but we hope they will do so and help us in our efforts so pull thru. Between now and the 15th of October we have obligations amounting to a large sum to meet. If about 500 of our subscribers will bring or send in a dollar each it will enable us to meet these obligations. We appeal to you friends; one dollar does not seem much, but when you take 500 or more together it will look big to a newspaper man. Will you be one of the 500 to respond?

Don't forget to beautify your homes by planting trees and shrubbery. The time will soon be at hand when you should plant your trees and plans should be made now. Nothing improves a place in appearance so much as nice trees.

Be a Live, Thinking Man.

There is a waste of time, money and labor on the farm when the farmer does not possess a knowledge of the nature and requirements of the soil and plants cultivated.

We often see a vast amount of labor thrown away by the farmer in an attempt to produce crops on soils which are not adapted to the crops grown or which lack some of the essential elements of plant food. The farmer who fails to inform himself with respect to the improved methods of agriculture fails to profit by the knowledge gained by others by years of experience and observation. Knowledge is power in agriculture as it is in all other branches of business and the farmer who possesses the best knowledge of his business is the best capacitated to make that business a success.

The hands, says an eminent authority, should serve the head, and the farmer who has the best agricultural knowledge, combined with the mental ability to successfully plan and execute the most thorough system, will not be obliged to make his life a mere drudgery of toil from early morning till dewy eve, day after day, and year after year. Devising the best plans and methods should be first; their execution second. He who drudges on, without plan or system, will never be anything else but a "hewer of stone and a drawer of water" and consequently never attain anything worth the while.

Farmers, as a class, should devote more of their spare time to a study of their business that they may master the details as well as the science of their business. He should encourage the establishment of farmers' institutes, read the best agricultural papers and secure such agricultural books as promise to him the greatest amount of expert aid and assistance in solving the problems which most puzzle him. He should devote serious consideration to working out methods of farm work, based upon knowledge thus obtained. By such means, more headwork, and fewer hours of labor with the hands, will secure far better results than are now commonly obtained. The farmer, above all others, should be a live, thinking man.—Texas Farm and Fireside.

Don't forget to bring the Free Press a dollar when you come to town to sell your cotton. We have been doing our best to give you a good paper, one worthy to go into your homes, and now we are sure you will reward the laborer with his hire.

Not long ago the members of the Commercial Club of Kansas City had as their guests at a banquet their sons. In commenting upon this unusual but very wise proceeding Leslie's Weekly notes the following very sensible remarks: "If, as this seems to indicate, there is real comradeship between fathers and sons, there could be nothing finer. Incidentally the occasion offered the opportunity to say a word for mothers. Here are two items of advice. 'The boy who remembers things taught him at his mother's knee is the one who will make the best man.' 'Go ahead and make your opportunity, and success is yours; but don't forget your mother and don't get far from your dad.' We submit that if the fathers of the country will keep close to their sons and show an intimate interest in their life and plans, it will be the biggest of all factors in starting boys right."

Hollands Magazine for October tells how the women of a certain small city in Iowa got together, and by dint of perseverance and concerted action established a home market which greatly reduced the cost of living. This plan is told in detail and should be a "gentle hint" to housekeepers in every town.

HASKELL COUNTY EDUCATIONAL DEPARTMENT

T. C. WILLIAMS, Editor.

[A. CASWELL ELLIS.]

If it has been proven that higher education is a paying investment for a State or Nation, then it must be admitted that common school education is also a paying investment, since it is impossible for a citizenship to get higher education until it has first gotten elementary education. But, aside from the value of elementary education as a necessary foundation for all higher education, does elementary education, when given to those who do not go into higher education, pay for itself; or, in other words, can it be shown definitely that the money invested by a State in common schools yields directly a due financial return to the State either in increased or conserved wealth? It is an obvious fact that a nation like Germany, with poor soil, and limited natural resources, but with excellent public schools, has grown in wealth far more rapidly than Russia, which has better natural resources, but makes almost no provision for the education of her citizens. It is also well known that little Japan, with her educated citizenship and educated soldiers, defeated the armies of immense but ignorant and uneducated Russia, just as the armies of educated Germany rolled back and crushed the then ignorant soldiery of France in 1870. But in all these cases it might be claimed that there were such racial differences and other factors present as would prevent one's knowing how far education, or the lack of it produced these results. It has

also been pointed out that the citizens of Massachusetts and New York and other progressive States have shown a capacity for producing and conserving wealth that is above that of our Southern citizens in just about the same proportion as their public schools have been superior to our Southern public schools, but here again one might claim that there were other factors present which made it impossible to tell how much of this result is due to education. While I believe that the results can be shown in every case to be very largely due to the efficiency or lack of efficiency of the common school of the nation and States involved, it is not necessary to depend upon general evidence of this kind to show the financial value to a state of elementary education. The value of elementary and high school education has lately been shown quantitatively and most clearly, and under conditions in which there are no complicating racial or governmental or climatic differences. In the book entitled, "Who's Who in America," there is included a brief biography of those leading citizens of America who have made more than a local reputation in banking, merchandising, farming, commerce, engineering, war, politics, literature, or any other occupation. It is simply a list of those men and women who are acknowledged to have been especially successful in doing for the country some line of work. A careful investigation of the educational advantages enjoyed

by these eight thousand especially successful and valuable citizens brought out the following facts. Out of nearly five million uneducated men and women in America only thirty-one have been sufficiently successful in any kind of work to obtain a place among the eight thousand leaders catalogued in this book. Out of thirty-three million people with as much as a common school education, eight hundred and eight were able to win a place in the list, while out of only two million with high school training twelve hundred and forty-five had manifested this marked efficiency. That is, only one child in one hundred and fifty thousand has been able in America, without education, to become a notable factor in the progress of his State, while the children with common school education have, in proportion to numbers, accomplished this four times as often, and those with high school education eighty-seven times as often. If this list of men and women had been selected by the universities or the school teachers, or if literary leaders only were chosen, it could easily be claimed that the apparently greater success of the educated was due to the line of work from which the leaders were chosen. But the selection of the men and women in this book was not in the hands of the professors, but in the hands of a firm of business men. They selected leaders in all line of industry, commerce, agriculture, and other fields of practical endeavor, and still the enormously increased efficiency and productivity of those with elementary and high school education was found.

ROBERTS SCHOOL HOUSE

Discipline.

An exchange says the parent who gets mad every time his child is reprimanded or whipped by the school teacher is the same fellow who will in a few years be circulating a petition asking for the pardon of a near male relative.—Abilene Reporter.

It is a fine truth stated in a rather blunt way. Discipline is something for the child to learn and the man to respect. The idea that school rules are for somebody else's children and that statutory laws are for the other fellow to observe is easy to acquire. And the parent who is too sensitive to permit his own children to be subjected to the same penalties other children are subjected to in the school room is in a fair way to teach them that they are too superior to be amenable to the laws that govern society outside the school room. It is far better for both parent and child to adapt themselves to the will of the majority and the necessities of such cases as come up for adjudication in the course of the little one's education and worldly experience. There are none of us so smart that we are superior to the wisdom of the many, nor so good that we are better than the laws and customs under which we live.—Dallas News.

BIG FIRE SALE

MISTROT BROS. & CO., HASKELL, TEXAS

THE STEAMSHIP

MARIETTA

Sailed from New York, August 6th, laden with a big cargo of goods, bound for New Orleans and other Southern ports. The big merchant ship caught fire while near the Florida reefs. She was immediately flooded and ran ashore. The goods were unloaded at Key West and sold by order of the Insurance Companies to the highest bidder for cash. Mistrot Bros. & Co. were the successful bidders. We bought the entire cargo, consisting of over 1500 cases of merchandise. These goods have been distributed in several of our stores, namely: Houston, Hempstead, Longview, Gonzales, Calvert and others. **Over 200 cases of this merchandise were shipped to Haskell. The goods are here and the big sale will begin**

FRIDAY, SEPTEMBER 27TH

and will continue from day to day until the entire shipment is disposed of. This sale comes at the right time for the people of Haskell, as it enables them to buy their fall and winter supplies at prices which will mean a big saving of money.

Bring your wagons along and load them up while you have a chance of doing so. Don't wait 'till the sale is half gone. You can expect to see big crowds at our store, but we will have the clerks to wait on you. If forty clerks won't do we will get fifty. Everybody will be waited on, and then, it will pay you to wait for your turn, if necessary, because you will have something coming worth waiting for. Bring the children along to hear the music of our great Pianola. During every day of the big sale we will have concert music in the store. **Remember, all goods bought of us can be exchanged or returned and satisfaction is guaranteed in every deal or your money back.**

Couldn't Walk!

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

TAKE CARDUI The Woman's Tonic

We have thousands of such letters, and more are arriving daily. Such earnest testimony from those who have tried it, surely proves the great value of this vegetable, tonic medicine, for women.

Cardui relieves women's sufferings, and builds weak women up to health and strength. If you are a woman, give it a trial. It should help you, for it has helped a million others. It is made from pure, harmless, herb ingredients, which act promptly and surely on the womanly organs. It is a good tonic. Try it! Your druggist sells it.

Molasses Making.

[CARL WEST]

I see in your Question and Answers column Mr. Vawtes wants information on molasses making. Now I don't claim to know very much, but will give him some of my experience in syrup-making.

I have my mill about three feet above the pan, then I lay a pipe big enough to carry the juice from the mill to the pan. I make a pan out of about seven or eight feet of galvanized iron and 12 feet of 1x12 planks, sawed half in two. Then I nail my iron onto this after I have rounded the corners off, using small nails to tack it on with, and plenty of them. Let your iron just barely come over the edge enough to bend down. I run the sap in this and bring it to a good boil, then I pipe it over into a copper pan and let it boil down through this pan until it turns to molasses, then run out in a cooling box.

I keep it to a good boil by the time it gets into the pan until it leaves the evaporator into the cooling box. If you let stand in the evaporator the syrup will turn very red; but I don't think will effect the flavor much, if any. I never skim until it gets tough and will stay in the skimmer. If you go to stirring the skimmings and sap too much, you are liable to get them mixed and it will give a better taste.

As to using sulphur, I suppose it is used to clarify the syrup. I never heard of it before.

Some use soda. I never put anything in my syrup but a skimmer and a stick with a block nailed to the end to run the molasses off with. One good thing in making good, clear molasses is to have everything washed, scalded and rubbed clean, from the mill to the cooling box, and have a strainer at the mill pan and cooling box and if you haven't made any in your pan in some time it would be better if you would run same into your pans and boil down to molasses, then take all of this and pour into slop-kog for hogs; then wash the pan and you're ready for making.

Save all of the skimmings for your hogs, but be very careful and not feed too much. Mix half water until they get used to it. And the white foam put in a keg or barrel and put two thirds water and you will have some very good vinegar.

Now if Mr. Vawtes can get anything out of this I will be paid well for my trouble.—Farm and Ranch.

To Mothers—And Others.

You can use Bucklen's Arnica Salve to cure children of eczema, rashes, tetter, chafings, scaly and crusted humors, as well as their accidental injuries—cuts, burns, bruises, etc., with perfect safety. Nothing else heals so quickly. For boils, ulcers, old, running or fever sores or piles it has no equal. 25c at Jas. R. Walton.

Bryan's Conception of Immortality.

I shall not believe that even now, his light is extinguished. If the father deigns to touch with divine power the cold and pulseless heart of the buried acorn and make it burst forth from its prison walls, will he leave neglected in the earth the soul of man, who was made in the image of his creator. If he stoops to give the rosebush, whose withered blossoms float upon the breezes the sweet assurance of another springtime, will He withhold the words of hope from the sons of men when the frosts of winter come? If matter, mute and inanimate, though changed by the forces of nature into a multitude of forms, can never die, will the imperial spirit of man suffer annihilation after it has paid a brief visit, like a royal guest to this tenement of clay? Rather let us believe that he, who, in his apparent prodigality, wastes not the raindrop, the blade of grass or the evening's sighing zephyr, but makes them all carry out his eternal plans, has given immortality to the mortal, and gathered to himself the generous spirit of our friend.—W. J. Bryan.

Raising Turkeys.

[MINNIE JONES.]

What do I consider the most important essentials to be a successful turkey raiser? First, important consideration, desirable location and good range; next, sound, healthy fowls of standard breed to begin with, for no one can succeed without sound, healthy birds to start with. Third, careful feeding. Fifth, keep free from lice. Last, but not least, dry roomy coop, so they can be kept out of sudden showers. These equipments, coupled with good sound judgment and proper care of polts should make anyone successful in raising turkeys.

The way I manage mine after years of experience, I gather the eggs daily, keep in a place neither too cool nor too hot, turn eggs every day. When the hen gets ready to set make a coop in some dry place, placing 15 or 16 eggs in nest; bring hen up late in evening, place on nest, keep fastened up two or three days, turn out so she can get something to eat and drink. Watch to see if she goes on same nest. When eggs hatch leave polts in nest 36 hours. Move hen and polts to large roomy coop enclosed in pen to keep anything from running over them. Dust hen and little ones with some good insect powder to kill lice. Feed them egg bread first few days. Give plenty of fresh water. When they are a few days old give them lettuce and onion tops chopped fine with bread crumbs. Also give them a little chicken feed consisting of grain, small seeds, grit and oyster shells. Keep fastened in coop until strong enough to keep up with hen; turn out in the morning, but see that they come home at night to roost. Sprinkle a little black pepper occasionally in their food, but be sure not to overfeed as it brings trouble and disaster in its train.

Blindness.

We do not mean physical blindness but that to which Jesus had reference when he said—"Having eyes they see not." Sometime people are so absorbed in all the intricate affairs of business and social and domestic life that they forget the beautiful rule for the training of the mind—Finally brethren whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue if there be any praise, think on these things." Seeing how hard it is to follow this rule, we are always longing to say "Lord open Thou mine eyes."

When we see a man stand like he was in the mists of a London fog, and let good opportunities for business success pass by him unheeded, like the many vehicles of the street, we think surely he can not see.

When we see a woman or man continually scolding and finding fault, making himself or herself miserable, and losing the respect of both family and friends we think Oh! what a pity they are so blind to their own interest.

When we see a young man wasting his health and strength following the delusions of fast society, where gay pleasures are as empty and unsatisfying as beautiful soap bubbles, we think how sad! He can not see.

This blindness is peculiar in that it is contagious, and when it is an epidemic in the country how can we escape a more or less serious attack.

Is it not true that genuine religion not only means a spiritual life, but also gives its happy possessor a clear insight into the things that make success in the various chapters of daily life! The 13 chapter of 1st. Cor.

inthians describe a person who never fails in any relation.

A Texas Ranger Coming.

West Bros. "A Texas Ranger" will play at Haskell Monday, Sept. 30. The company is a large one and gives excellent satisfaction everywhere. Toots Craneers; Cow Boy Band from Cheyenne, Wyo., is with the show and plays a concert on the streets at noon.

The Texas Bull.

Press reports announcing that 750 thoroughbred bulls have been shipped from Texas to Brazil serves to remind us that this native of our plains has lifted himself from an undesirable longhorn to the mastery of the world's market.

He has studied diligently the charts of civilization and has more completely adjusted himself to modern times than any other animal and in his strides for progress has outdistanced many members of the human race. The Texas bull now follows the flag as instinctively as his uncivilized ancestors charged a red rag and he is the leader in packing house society wherever he goes.

Running up and down stairs, sweeping and bending over, making beds will not make a woman healthy or beautiful. She must get out of doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all dealers.

Don't Do It.

Don't advertise if you believe you are wasting money. Let your competitor waste the money on advertising, and perhaps in this way you can put him out of business. Just stand back and laugh at him when you see him squandering his money for printer's ink. One time there was a little boy named—we think his last name was Wanamaker—or maybe it was Moneymaker—any how his name was John with some sort of maker attached to his last name. He owned fifty yards of calico, three pairs of jeans, a half dozen pairs of boots. He called this a dry-goods store through a weekly newspaper and offered to sell a pair of socks for 30 cents. The don't believe-in-advertising merchants just laughed. Young John spent \$65 with a Philadelphia newspaper to advertise just one time on on less than \$100 worth of goods. He was cautioned by the merchants who knew it didn't pay. It was through sympathy they offered him advice. But John did not listen to them but went and blew his money foolishly; and today poor John sees the result of his undoing—he has so many large dry goods stores that he can hardly find time to study his Sunday school lesson. Can you see a lesson in this? Be a progressive up-to-date business man. Advertise your wares if you want to sell them. —Rule Review.

SIMPLE MIXTURE HELPS HASKELL PEOPLE

That simple remedies are best has again been proven. The Corner Drug Store reports that many Haskell people are receiving QUICK benefit from simple buckthorn bark, glycerine, etc., as mixed in Adler-ika, the German appendicitis remedy. A SINGLE DOSE helps sour stomach, gas on the stomach and constipation INSTANTLY because this simple mixture antisepticizes the digestive organs and draws off the impurities.

Some Land Bargains.

OFFICE AT THE WRIGHT HOTEL

Endorsed at Home.

Such Proof as This Should Convince Any Haskell Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced of he would not do so. Telling one's experiences when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Haskell adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

Mrs. D. Scott, Haskell, Texas, says: "Doan's Kidney Pills have been very beneficial to us. They were procured at Collier's Drug Store (now the Corner Drug Store) and brought relief from backache, kidney weakness and other disagreeables, caused by inactive kidneys. We can strongly recommend Doan's Kidney Pills, in view of our experience with them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Dallas Fair.

STATE FAIR of TEXAS at DALLAS—Begins October 12 and continues till Oct. 27-1912. TEXAS, with its area of 265,000 square miles and 167,865,000 acres of tillable soil, of which only 37,120,000 acres are in cultivation, is the greatest agricultural country under the sun, which is justly proven by the fact that immigration is flowing into the State at the rate of 69,000 annually.

The population and wealth of Texas is increasing so rapidly that condensed figures are too large to grasp and only by a close study of Federal and State detailed statistics can one be acquainted with the great wealth, undeveloped resources and wonderful opportunities of this great empire.

Accurate and honest information and detailed statistics will be promptly given to all inquiries addressed to this Association, the Texas Commercial Secretaries and Business Men's Association of Ft. Worth, Texas, or to any local Commercial Club, Board of Trade, or Chamber of Commerce in any City.

Texans are one large family, thoroughly in accord and continually working in harmony towards a single goal, i. e., Development and progress. No other part of the world offers such opportunities to the man with muscle, mind and money as does Texas.

Railroad Intangibles

Intangible values of railroad properties in Texas this year are reduced by some \$12,000,000 according to the report of the tax board. The earnings of the roads last year were \$1,750,000 less than the preceding year, which accounts for the decrease.

Intangible value is a reckoning based upon earning and is aside from physical assets; hence if earnings decrease the intangible value necessarily decreases.

While crop shortage had much to do with decreased earnings, it cannot be doubted that requirements imposed by the legislature constituted an important factor. We must realize, therefore, that directly or indirectly the people must bear the burdens laid upon the railroads. The companies cannot pay if they do not earn; they are valuable for taxation in proportion to their prosperity; their rates must yield the income to which their owners are entitled and the revenue which the government exacts. Not only is railroad prosperity vital to railroad investment and helpful to the state revenue, but it has an intimate relation to the development of the country and the facilities of commerce.

The Record is far from entertaining the reckless idea of releasing the railroads from restraint or from requirement to safeguard life and to furnish convenient service, but it is equally far from entertaining the other reckless idea that railroads may be hampered without detriment to the people.

It is no part of real statesmanship, but instead it is a hurtful public policy, to burden railroads, to make them bear a disproportionate share of taxes or to impose upon them rules of business that cripple their earnings.—Fort Worth Record.

To Exchange For Haskell County Lands.

How to Dress a Wound.

First partly fill a clean vessel with water which has been boiled and cooled and to which a few drops of carbolic acid have been added. Then gently wash the wound, carefully laying it open and swabbing out the interior with little pieces of softest cotton saturated with the carbolyzed water. Place a piece of softly twisted white thread inside the cut, and with a surgeon's needle and white silk thread, take only as many stitches as are necessary to bring the edges together again, tying each stitch with a double knot. Then dust the place with an antiseptic powder, lay three or four thicknesses of cotton gauze over it, these being held in place by strips of court plaster. To hasten healing keep the afflicted one cool and comfortable as possible, and at successive dressings of the hurt remove the appendages, first the drainage cord, and later the stitches when adhesion of the deeper skin seems complete, and the inevitable swelling has disappeared. Always use sterilized water with a few drops of carbolic acid in it when bathing the wound, and protect from infection by antiseptic powder and careful wrapping.

City Building Notes.

After all is said and done, it takes laboring men to build cities.

To be successful is not merely to accumulate wealth but to assist in the up-building of your community also.

A prevailing spirit of friendliness will create an impression on the stranger and your city will not soon be forgotten.

Natural advantages are location, population and transportation. Without these your city is doomed to a slow and uncertain growth.

Posterity will honor that forefather who supported all measures that made for the up-building of the community and assisted in the welfare of his fellow-man.

You can never hope to locate a large factory in your city without adequate shipping facilities and until such a time as you can secure these transportation lines your efforts should be devoted to local development.

Citation By Publication.
 THE STATE OF TEXAS,
 To the Sheriff or any Constable of Haskell County—GREETING:
 You are hereby commanded, That you summon, by making Publication of this Citation in some newspaper published in the County of Haskell for four weeks previous to the return day hereof, Cely V. Weatherly, Jno. A. Weatherly, and P. D. Moore, whose residence is unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Haskell at the Court House thereof, in Haskell, Texas on the 25th day of November, 1912 then and there to answer Plaintiffs first Amended Original Petition filed in said Court, on the 21st day of September, A. D. 1912, in a suit numbered on the docket of said Court No. 2367, wherein Higginbotham-Harris & Co. are plaintiffs and J. M. Moore, M. B. Moore, Cely V. Weatherly, Jno. A. Weatherly, Avie E. Burris, L. F. Burris and P. D. Moore are defendants. The nature of plaintiffs demand being as follows, to-wit: Plaintiffs allege that on Sept. 16, 1910, defendant J. M. Moore made and delivered to them his promissory note for \$348.10, payable on or before Oct. 1, 1910, with 10 per cent interest from maturity and providing for \$5.00 and 10 per cent additional as attorney's fees. That to secure said note defendant J. M. Moore, acting for himself and as community administrator of himself and deceased wife, N. E. Moore, executed and delivered to J. E. McCord, trustee to plaintiffs, his deed of trust upon an undivided 1-2 interest in Lot 1, Block 21, in the town of Sagerton, also upon a tract or lot of one and 43-100 acres out of J. Pointevant survey, north of Sagerton all in Haskell Co., Texas. That said defendant J. M. Moore, has failed and refused to pay said note or any part thereof, to plaintiffs damage \$500.00, and it has been placed in the hands of an attorney for collection and suit and that the 10 per cent and \$5.00 additional as attorney's fees have accrued. That defendants M. B. Moore, Cely V. Weatherly, Jno. A. Weatherly, Avie E. Burris, L. F. Burris and P. D. Moore set up some claim to said property, the exact nature of which is to plaintiffs unknown. Plaintiffs pray that citation issue to all parties and for judgment against J. M. Moore for the amount of their debt with interest, attorney's fees, and costs of suit and for a foreclosure of said deed of trust lien against said lands and premises and for judgement against the other defendants to remove cloud from the title to said lands and premises and for general relief.
 Herein fail not, and have you before said Court, on the said first day of the next term thereof, this

Writ, with your endorsement thereon, showing how you have executed the same.
 Given under my hand and seal of said Court, at office in Haskell, this, the 21st day of Sept. A. D. 1912.
 Guy O. Street,
 Clerk District Court, Haskell County, Texas.

Glorious News
 comes from Dr. J. T. Curtiss, Dwight, Kan. He writes: "I not only have cured bad cases of eczema in my patients with Electric Bitters, but also cured myself by them of the same disease. I feel sure they will benefit any case of eczema." This shows what thousands have proved, that Electric Bitters is a most effective blood purifier. Its an excellent remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poison, helps digestion, builds up the strength. Price 50 cts. Satisfaction guaranteed by Jas. R. Walton.

An Indian by the name of Big Smoke was a missionary to his fellow tribesmen on one of the reservations. One day a farmer asked him what he did for a living.
 "Umph, me preach," replied Big Smoke.
 "How much do you get for preaching?"
 "Ten dollars a year."
 "That is damn poor pay."
 "Umph, me damn poor preacher, too."

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Another article along the same line, but treating an entirely different angle of flower bulbs, appears in the same issue. Both articles are profusely illustrated.

Culwell, on the 15th day of April, 1907, being same land conveyed to defendant S. A. Martin by the plaintiff D. R. Stewart, both of said deeds being of record in the Deed Records of Haskell County, Texas; and on the 1st day of October, A. D. 1912, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the court house door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said W. F. Bullington, J. A. W. Cox and S. A. Martin, in and to said property.
 Dated at Haskell, Texas, this 28th day of August A. D. 1912.
 W. D. Falkner,
 Sheriff of Haskell County, Texas.

Few, if any, medicines, have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

HASKELL COUNTY

This county is thirty miles square. The soil in the north west part is deep sandy alternated with stretches of black. The balance of the county is deep Black sandy soil, with occasional stretches of red loam. All the soils of Haskell county are extremely fertile. Ninety per cent of the county is tillable. There is mosquito timber enough for fuel and fence posts.

THE CITY OF HASKELL

Haskell, the county seat, was laid off in 1884. It is a modern town, substantially built in stone and concrete, has an up-to-date water system owned by the city, supplied with never failing wells of the purest water. Electric light and ice plant of modern construction, Oil Mill, Broom Factory, Grain Elevator and Creamery. This city is in the center of the county and has 3000 inhabitants. Is on the Wichita Valley railroad, near the geographical center of the state. Cotton, corn, kaffir, maize, millet, alfalfa, wheat, oats, sorghum and fruits, such as peaches, plums and apricots do well. Forty pound watermelons are an average and they have been raised that weighed as high as 104lbs. Cantelopes are a sure crop. Haskell county never fails to produce one bale of cotton for every inhabitant, and the census shows it to produce more cotton than any other county in Central West Texas.
