

By Nanalee Nichols

Some time ago I took a look at the origin of common expresions, and mentioned just how many of our common cliches or statements have their origin in horses as a means of transportation. "Putting the cart before the horse" "Settling into harness" and a host of others are rooted in the use of horses as a major means of transportation and strength.

Well, along the same lines, has anyone considered just how many expressions are related to growing things?

Farming, gardening, agriculture of some kind has always been the strength of this nation, and once again, our speech reflects it's importance.

Witness: "It's a long row that loesn't turn". (Anyone who has ever hoed up and down a long row, or driven a tractor down one knows exactly what that means!)

What happens when someone or something needs to be eliminated? It gets "weeded out", of course!

Idea. s germinate. Seeds of doubt get planted. We even fertilize or nuture them.

We all "make hay while the sun shines"

We have to "pull together" yet another reference to plowing or

pulling in harness with animals. Taking the best and leaving the rest? We say someone is "skimming off the top, " a reference to skimming the cream (the best

part) off the top of fresh milk. Again, we "milk something for all it's worth"

Gained weight? "Been out to good pasture" old timers say.

The grass is always greener on the other side of the fence refers, of course, to farm animals

their heads through the wire to get at grass outside their pasture. We "nip things in the bud" instead of allowing them to de-

velope. We actually cultivate friendships, as if they were crops or precious flowers, not an inapt comparision at all!

Working from "can't see til can't see" certainly refers to a farmer's long days from the time it is just too dark to see in the morning to quitting when it gets just too dark to see at night.

A child blossoms, or is "cut down in the flower of youth".

We sow wild oats, we reap bad harvest or comment that criminals come from bad seed or stock.

We soak of love or attention as the thirsty soil soaks up rains. The list seems almost endless.

and the reasons are simple. Nothing, no one, can escape the reality that growing things is what keeps each and every one of us alive.

Even the most long-time, city apartment dweller is aware deep down that food and raw materials are grown!

And as a nation founded in agriculture, we probably have more "growing" type expressions than any other.

So remember, the next time you feel like you have a hard row to hoe....the expressions has a very real, very rural background!

# Wreck Kills Three,Injures Four

Three people died and one remains in critical condition following a twovehicle accident last Wednesday, July 5, just outside of Deport.

The call came in at approximately 6:10 p.m. on U.S. Highway 271 South, about a mile northwest of Deport.

According to Texas Highway Patrol official reports, Willie Ray Abbott, age 61, of Rt. 3, Paris, was the driver of a 1986 Ford pickup, which was traveling northwest on Hwy. 271, when Jerry Mike Woods, age 32, of Deport, the driver of a 1977 Datsun car, which was traveling southeast on Hwy. 271, attempted a left-hand turn onto the Highland Cemetery Road.

Abbott's truck was unable to avoid the automobile. The pickup struck the car, and went airborne with a

portion of the right front quarter panel of the Datsun imbedded in the front grill of the pickup. The pickup then swung around and flipped, coming to rest on its top.

Abbott was killed, and his three passengers, Melvin Abbott, age 35, Larry Michael Smith, 54, and Eddie Darrell Archer, age 33, were injured. All three passengers were from Paris.

# Heat, Humidty, Fleas Welcome In Summer Months!

Summer has finally arrived after a late start, but seems to be trying to make up for lost time with heat and humidity.

The evening rains, however, seem to persist as heavy rains spotting the area keep the grass growing at an incredible rate, and make hay baling

and row cropping difficult. Because of the rains soy beans and milo are heavy and good, while vegetable gardens are suffering.

Many vegetables are sitting in

heavy, muddy ground rotting, or with yellowing leaves.

Temperatures in the high nineties, accompanied by the humidity, make

work outside unpleasant.

The "dog days" are fast approaching, and dogs, cats and people are suffering not only from the heat, but from fleas and ticks, who positively thrive in the damp, muggy tempera-

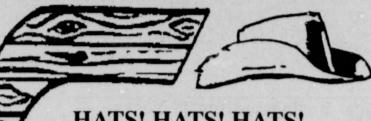

Fogging and spraying homes and yards, plus dipping or the use of flea

collars is the only way to try and keep the insect pests from devastating a peaceful lifestyle!

Glorious sunsets, misty nights and brighter than usual flowers are pluses on the seasonal side, however. Whether the abundance of rainfall

will cease later in July or August is,

of course, yet to be seen.

# "You're Invited to Beltone's Special Consultation" Date to Date)

Not long ago, Beltone invited me to re-examine a hearing problem I'd been struggling with for quite some time. That was a turning point in my life, because at Beltone's free hearing evaluation I learned how easily my hearing problem could be helped.

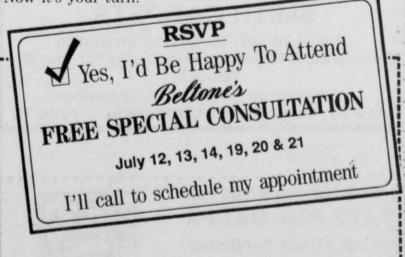

Today I wear two tiny Beltone Petite hearing instruments. They're so

small, people rarely notice I'm wearing them. Yet they help me to hear better and enjoy a fuller, more rewarding work and home life.

If you can't hear as well as you'd like, or if you hear but have trouble distinguishing all the words in a conversation, like I did, please accept Beltone's invitation to the Special Consultation. There's no cost or obligation. Beltone helped me change my life for the better. Now it's your turn!

### **Emergency Farm Loan** Applications Being Accepted

loans for losses caused by tornadoes, flooding and severe storms which began May 4, 1989 are being accepted at the Farmers Home Administration office in Clarksville, Frank B. Stroud said today.

Red River County is one of 29 in Texas recently named by Secretary of AGriculture Richard E. Lyng as eligible for loans to cover part of actual production losses resulting from the tornadoes, flooding and severe storms.

Stroud said farmers may be eligible for loans of up to 80% of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmrs unable to obtain credit from priate commercial lenders, the interest

"As a general rule, a farmer must have suffered at least a 30% loss of production to be eligible for an FmHA Emergency Loan, Stroud said. Farmeral Crop Insurance programs will have to figure in proceeds from those programs in determining their loss.

"Applications for loans under thi emergency designation will be accepted until February 15, 1990, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possi-bly over into the new farming season," Stroud said.

FmHA is a credit agency of the U.S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corpporations or cooperatives in which U.S. citizens hold a majority interest.

The FmHA office in Clarksville is open from 8 a.m. to 12 noon and 1 to 5 p.m. Monday through Friday.
