Remember my hamster story? The one about how my friend's hamster escaped, and I brought them a replacement hamster that gave me all kinds of trouble. Then, a few days later, how the first hamster showed up again?

Wellllll...let me continue this saga.

You see, the hamster that I got was supposed to be of the same gender as the first one. It wasn't. Now, I didn't check it, the girl at the store did.

My friends are convinced that I did this on purpose. Nothing I can say or do seems to convince them I did NOT inflict hamsters of different genders upon their lives.

They found out that their hamsters weren't both females the hard way. That's when one of them had eight (count 'em if you can) babies.

Eight. Eight tiny, pink see-through little hamsters.

Being sensible souls they decided to make the best of a bad bargain and turn this in to a learning experience for their son.

They studied all about little hamsters.

That's when I received the phone call. The excited phone call. The phone call threatening to give me all the baby hamsters. The phone call threatening me with a slow death by torture. The phone call that accused me of being the cause of all this.

I tried to point out to them that I only did as instructed. That I was guiltless in this whole matter.

It seems that from the day they are born it takes only 4 weeks before baby hamsters become adults. Adults as in "begin to reproduce".

Well, I laughed at them. I couldn't help it. I know it was rude, but it was also hilariously funny.

How good is your math? Try figuring out just how many little hamsters eight can have! Um huh, pretty amazing numbers aren't they?

Well, the weeks have simply flown by. Those tiny pink hamsters have gone from thumb sized minatures of their parents to almost as big as their parents.

This Thursday (today) is "H" day. All the hamsters have to go.

They are pretty sure that a pet store is going to take them.

But if not, what ever are they going to do?

The threat still stands...they are going to leave them at my house. I keep pointing out that I have nine cats...so that isn't going to work unless they want them to be cat bait.

They know I won't do that.

So, for now, in between chuckling over this situation, I'm saying a tiny little prayer that the pet store will take them. In fact, I may even call and tell them I'll PAY them something if they'll take em.

I DON'T want hamsters. Not any. Not even one.

Oh, my, I do hope this is the last chapter in the hamster saga!

The first step of ladder safety is simple
LOOK UP

Before you climb a ladder, look above you to make sure that there aren't power lines nearby. If your ladder could come into contact with a power line, place it in another location. Most ladders conduct electricity, so you could be shocked just by holding a ladder that touches a power line.

For more information on power line safety, call or visit your local TNP office today.

Cuthand News

By Linda Eilers

Don't forget the community garage sale June 2 at 9 a.m. at the Assembly of God gymnasium.

Red River County is located in an area of relatively high rainfall, about 45" per year, but in late summer and fall, especially in dry years, the lack of water became a problem. Shallow wells were not productive and usually went dry during a drought. There was a well about a mile south of Cuthand that was an exception and produced an abundance of water. During dry weather, people would get drinking water from this well in barrels. In extremely dry times, water would be hauled in tank wagons to make steam at the gins.

Eric Baird spent Friday and Saturday nights in Clarksville with Aaron Callahan.

Kelly Sheffield was honored with a barbeque dinner at the First Baptist

Church in Bogata Saturday night, the church honored it's eighth grade graduates.

Amanda Durock and Cami Eilers performed Thursday night at the annual Rivercrest High School spring band concert.

Linda and Cami Eilers were in Clarksville Friday and Saturday to attend the youth rally held at the fairgrounds. Steve Hardin, an evangelist from Dallas, was guest speaker.

Cuthand has four graduates this year, graduating from the eighth grade are Kelly Sheffield and Amanda Durock; from Rivercrest are Ronald Moore and Royce Williams.

Elaine Baird and Elvis Wooten visited Mary Ellen Kain Thursday. Mary Ellen is still recovering from a broken arm.

News is short this week. Call Linda Eilers with your news at 632-4530.

Youth World Mission Walk-A-Thon Held

The Bogata Church of God Youth World Mission held a walk-a-thon on May 19.

Each year the youth sponsors three countries, this year they were Zambia, Ghana and Nigeria. The monies collected will be used to build a medical mission in each country.

The state goal for this year was \$19,900 and the area goal for the church was \$300.00.

The Youth Group exceeded the goal by \$44, for the championship level. Those participating were Amy and Felecia Lemonds, Brad and Jerry McClour, Angie Whitley, Dana Green and Ethel Elrod.

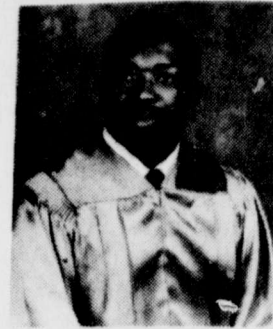

The support team was Vaughn Whitley and Joe Green.

Several local businesses donated monies that amounted to over one-half of the amount received. Those businesses donating were: Mimi's Boutique, Rexall Drug Store, Bogie's Cafe, Bell's Beauty Shop, Bogata Barber Shop, Belva's Beauty Boutique, Burress Foods, Hayes Garage, Glass Auto Parts, Red River Haven Nursing Home, Tip-Top Drive In, Armadillo Kwik Korner and Quikie Superette.

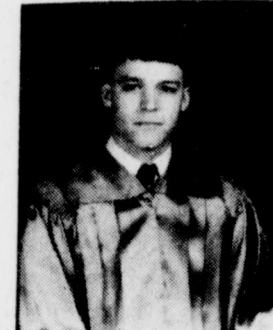

This event is just one of several things they do throughout the year to earn money for world missions.

NOTICE TO PUBLIC OF NO SIGNIFICANT EFFECT ON THE ENVIRONMENT AND NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF FUNDS

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

On or about June 18, 1990, the above-named City of Bogata will request the Texas Department of Commerce to release Federal funds under Title I of the Housing and Community Development Act of 1974 as amended, to be used for the following project: Water Improvements, Contract No. 709141.

Project to be located approximately 10 miles south of the city near the Red River and Titus County line. A more detailed description of the project and a map showing the specific locations of the proposed improvements is available for public examination at City Hall, 128 North Main Street.

Finding of No Significant Impact

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and accordingly the above-named City of Bogata has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969.

1. There will be no negative impacts on the environment as a result of the proposed project.
2. Temporary increase in noise, dust or other nuisance that will occur during construction, will be of short duration and low intensity and will cease on the completion of the construction.
3. The project to be undertaken will not affect any known local, state or national historic, architectural or archeological resource presently listed or potentially eligible for listing in the national register of historical places or in any state or local registry.
4. The project will not be affected by nor will it affect the 100-year flood plain.
5. No effect is expected on protected or endangered wildlife or vegetation.

An Environmental Assessment respecting the within project has been made by the above-named City of Bogata which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Assessment is on file at the above address and is available for public examination and copying upon request in the office of the City Secretary between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday.

Public Comments on Finding

All interested agencies, groups or persons disagreeing with this decision are invited to submit written comments for consideration by the City of Bogata, to the office of the undersigned. Such written comments should be received at City Hall on or before June 15, 1990. All such comments so received will be considered and the City of Bogata, will not request the release of Federal funds or take any administrative action on the within project prior to the date specified in the preceding sentence.

Release of Funds

The City of Bogata will undertake the project described above with Community Development funds from the Texas Department of Commerce under Title I of the Housing and Community Development Act of 1974. The City of Bogata is certifying to TDOC that the City of Bogata and William Harbison in his official capacity as Mayor consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental assessments, decision making and action; and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval the City of Bogata may use the Texas Community Development Program funds and TDOC will have satisfied its responsibilities under the National Environmental Policy Act of 1969.

Objections to State Release of Funds

Texas Department of Commerce will accept an objection to its approval only if it is on one of the following basis: (a) that the certification was not in fact executed by the certifying officer or other officer of applicant approved by TDOC; or (b) that applicant's environmental review record for the project indicates omission of a required decision finding or step applicable to the project in the environmental review process. Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58.75) and may be addressed to Texas Community Development Program; Texas Department of Commerce, P.O. Box 12728, Capitol Station, Austin, Texas 78711.

Objections to the release of funds on basis other than those stated above will not be considered by TDOC. No objection received after July 6, 1990 will be considered by TDOC. The Chief Executive Officer of the City of Bogata is William Harbison, Mayor.

From Scotland To Johntown, No Problem For This Teenager

Giles Christie came to Red River County from Scotland via California and just loves it. He is a pupil at Rivercrest High and plays clarinet in the band there. Giles starts next school year as a sophomore and is really looking forward to his first full year here. "You don't know how a school functions until you have been there for a full year," says Giles.

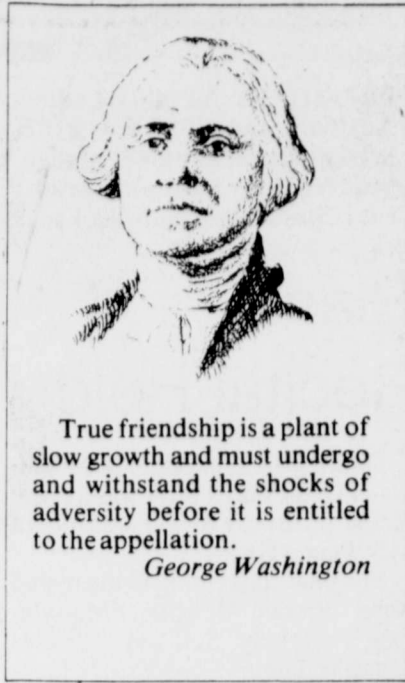

Giles lists his interests as music, magic, animals and computers—not necessarily in that order! He plays the clarinet, saxophone, guitar and keyboard as well as composing many of his own tunes. Much of his experi-

mentation in music is done on his computer using sound cards. His computer is a 386 with VGA monitor and he is working with some new paint software which enables him to produce exciting output on the color printer. Giles has been using computers since he was three years old and in California, he worked every summer training customers how to use computers and software.

"Animals are neat," says Giles, who has a dog, four cats, a chinchilla, a horse and donkey, as well as a bunch of ducks and a baby turtle he rescued from the pool. "I had hoped

to train at least one of the ducks for my magic act, but they had other ideas," says Giles. "Have you ever tried stuffing a live, uncooperative duck into a metal container? It turned the magic act into a comedy routine!" Giles thinks Johntown is "cool". "I have a friend, Gene, a few houses away who is helping me design a new chinchilla cage—everyone is really helpful here—I love it."

Giles has a busy summer ahead of him, but if anyone wants to visit, give a call on 632-4045, "if I'm here, you're welcome."

True friendship is a plant of slow growth and must undergo and withstand the shocks of adversity before it is entitled to the appellation.

Bogata Students Participate In Educational Programs

The Bogata Elementary students in grades K-4 participated last week in a series of educational development programs presented by Dr. James P. Smith and Vicki Hinson-Smith of Dallas. The programs, entitled "Meet the Scientist" and "Meet the Writer", are conducted jointly by the couple to demonstrate to school students that both the arts and sciences educational and career fields are equally exciting and rewarding.

DR. JAMES SMITH and Mrs. Hinson-Smith presented a series of educational development programs to Bogata Elementary students, grades K-4 last week.

During the sessions, Dr. Smith demonstrated the use of scientific equipment, discussed scientific methods, conducted analytical chemical experiments and discussed fundamental principles of chemistry and physics.

Mrs. Hinson-Smith read from her published works as a newspaper and magazine writer, and she displayed her black and white and color photography which had previously been published. She also read poetry to the students, some of which was written when she herself was an elementary school student in Bogata.

Dr. Smith, formerly of Bowie, is a Dallas chemist and physicist, a laboratory and research scientist, a hazardous materials consultant, a college professor, a published researcher and a book author. He holds a masters degree in chemistry, psychology and business administration. He completed post-doctoral research fellowships in nuclear magnetic resonance spectroscopy.

Dr. Smith and Mrs. Hinson-Smith were married in 1984. Dr. Smith says teachers and visiting scientist were early role models for him in elementary school at Bowie years ago. Mrs. Hinson-Smith gives much of the inspirational and academic credit for her early written, poetic, storytelling, and artistic skills to former teachers at Bogata Elementary and Bogata Junior High schools; Lucille Jones, Selma Baker (visiting teacher), Ruby Legate, May Dan Bell, Mabel Hale and Pauline Lemmond.

The Smiths were guests of Ronny and Dianne Ross and family. Mrs. Ross, a first grade teacher at Bogata, was a classmate of Mrs. Hinson-Smith throughout school and was the organizer of last week's special program.
