

**By Nanalee Nichols** July is gone ... passed ... history. Like most months of the year, it seems to have gone by very, very fast.

It's hard to realise that summer is now over half gone.

As is my way, I tried to take a mental "tally" of what kind of summer it has been so far.

Early summer, or late spring, as we all remember, was wet. Then it went to dry.

That's the way it stayed until the last week, when much welcomed, delicious rain fell to relieve some of the problems.

Hay has been in short supply, and will probably continue to be due to freeze damage, then drought.

The hummingbirds seem to be around in fewer numbers than usual, while wasps and dirt daubers seem to have multiplied out of all proportion.

The usual number of children can be found savoring their summer in various ways .... fishing, riding bikes, playing with one another or seeking the shade of trees.

The older people have spent and about-average time under air conditioning.

Yard mowing was happily light until the last rain sent Dallis grass stems soaring skyward at an unprecedented rate.

Ticks have been doing nicely and are in no danger of being put on anyone's endangered species list (unfortunately).

The highways are bumpy and washboarded, eliciting unprintable comments from motorists.

In spite of all the talk about the dangers of sunburn there are still plenty of fair-skinned people with peeling noses.

For those who hate summer (as many do) it has been a pretty usual summer, noe that has been hot for the most part!

Mrs. Buford Hervey spent part of last week with her daughter in Longview, Linda Woodward and family. While there they traveled to Kilgore where her granddaughter, Traci, was in camp. They attended a program that she participated in, which was sponsored by the Kilgore Rangerettes.

Contel Provides Free Emergency Calling Beginning July 1, 1990, emergency calls placed to police, fire department and ambulance emergency services are now toll-free, Contel recently

announced. While this announcement may come as a surprise to many, to rural telephone customers it comes only as a relief. In Texas, as in most other states, many rural telephone customers receive their telephone service in areas where telephone calls to emergency services are long distance calls. The new 9-1-1 emergency communications system will correct this situation for most Texans, but the completion of the 9-1-1 system is still

several years away for some areas. In the meantime, Contel wants to assure that its customers are no longer faced with this issue. Contel customers can make emergency phone calls now without long distance charges. Jim Feaster, Contel customer services director, said, "Contel's customers will still dial the emergency number as it is listed in the telephone book. Even though the number will be dialed like a long distance number, no charges will be applied to the customer's bill." Feaster also stated, "Contel customers should contact their Contel Service Office to have the charge adjusted from the bill should they ever receive a charge for calling one of the emergency numbers." The toll-free emergency calling will remain in effect until 9-1-1

A life spent in making mistakes is not only more honorable but more useful than a life spent in doing nothing. George Bernard Shaw

is available. Contel of Texas' President, Dennis

Myers, explained how pleased he is to be able to provide this service to Contel's rural customers. He stated, "With 9-1-1 only a short time away,

emergency communications service this may not have happened had it not been for the encouragement of Public Utility Commissioner Jo Campbell. It's a known fact that Commissioner Campbell is a strong supporter of advanced telecommunication services in rural Texas.

Local emergency numbers are listed in the front pages of Contel's telephone directory.

Contel Corporation, a company with \$3 billion in revenues and sales, provides a broad range of telecommunications products and services.
