

**By Nanalee Nichols** What ever has happened to the idea that people areresponsible for their own actions?

It seems to me that taking responsibility for one's self is of primary importance in this world, but apparently I'm in the minority in this.

There was program on television the other night in which a teenager had killed another boy for his expensive, prestigeous tennis shoes.

And they were blaming this in part on the shoe manufacturer. Pardon me- but....HOG WASH!

Oh, I know that advertising attachs status to these shoes, and that kids want them really bad.

But why is it the shoe company's fault? What ever happened to teaching a child about values, hard work and honesty?

What happened to saying "I know they are expensive, but we don't take what doesn't belong to us...no matterWHAT!"?

What happened to instilling the desire to work harder to obtain desired items instead of feeling that the world owes them to us?

It's like blaming the bar tender for a drunk that has a wreck. No one made that person go in and drink...no one made him get drunk.

And it is not the fault of a tobacco company that people choose to smoke.

Sorry folks, but that just doesn't fly in my book.

Neither does filing law suits against car manufacturers because of accidents unless there is gross neligence concerned. I really believe that we are

setting dangerous precidents here.

# Bogata At Top Of List For Water Grant

Thursday, November 8, 1990

in Community Development Block Grants from the Texas Department of Commerce, the Northeast Texas Regional Review Committee ranked the City of Deport first with a water project in the amount of \$140,000. Second ranked was the City of Bogata for a sewer project (\$227,800); third was the City of Clarksville for a water project (\$172,000). The City of Detroit requested funding for a water project (\$143,500) while Red River County presented a street project for consideration (\$158,250), and the City of DeKalb requested monies for a sewer project (\$177,000).

All projects met the general requirement sof benefitting at least 51% of low to moderate income persons/ families with a priority of their impacting low income housing projects. However, this process was only the first step toward actual funding of proposed projects.

The Regional Review Committee has the first responsibility of considering each project using a specific set of criteria adopted earlier this year," said James D. Goerke, Executive Director of the Ark-Tex Council of Governments. "These scores, though, make up only 50% of the total used to award actual funding. It is not the fault of South America that so many Americans are hooked on cocaine...they had a choice. If there were no market there would be no production.

True, those choices are not alwayseasy. They aren't in black and white. But that's why youngsters need to learn early that everything isn't always going to be handed to them...and that difficult choices have to be made in this world.

It seems everywhere there are news stories that reflect the opposite opinion, though.

But no matter what excuses may be made, it won't change my mind.

We have to take responsibility for our own actions. We are the ones in charge of our life. We make the choices to do right or wrong...no one else. Now, I've gotten that off my

chest!

## Midnight Thoughts On Veterans Day

### **By Nanalee Nichols**

It's midnight, a Tuesday night. And we are putting the finishing touchs on our first Veteran's Day page. Outside the office all is dark.

Last week we decided to solicit photos of veterans and people currently serving in the United States Armed Forces. We actually worried about getting enough in to do a full page.

The response, however, has gone far, far beyond a mere twenty or thirty pictures. Instead, we have over a hundred pictures, total between the four papers.

And, more than the photos, we have gone through an experience.

As the pictures have been brought in we have heard stories to move the heart, to warm the soul, and to bring a tear to the eye.

Unfortunately, we didn't have room to list all the medals and ribbons, places stationed and promotions for each service person, perhaps next year we cando a more complete job. We were simply unprepared for the enormous response to this.

But we have listened and read in fascination.

One family brought in pictures of a military tradition dating back to the Civil War.

Another told of how their husband nearly starved as a Prisoner of War in World War II.

Some sent maps and newspapers, like the one sent in by James E. Pratt's family. He had a copy of

"Blizzard" magazine, published by bring in their picture. They were too and for the men of the 10th Mountain shy, or too afraid of "showing off" to Division in Europe. do so.

The well-preserved publication has day by day accounts of the 10ths part in a major push, and cutting a Nazi Escape. Moving letters from Italians, battlefield notebooks, even ads for "Keep the money but please return pictures and cards in leather wallet lost between Cassone and Riva" bring World War Two into prespective.

Purple hearts, victory ribbons, Distinguished Flying Crosses, Bronze and Silver Stars, the awards that chronicle valor through World Wars I and II, Korea, Vietnam and yes, even through the current Middle Eastern Crisis make a lengthy list.

Cherished Discharge papers or commendations were submitted.

Elderly men and widowed women smiled at the youthful faces that looked back at them from photos taken in a different era and sometimes those smiles came through tears.

Youngsters proudly brought Dad's photo in as Vietnam veterans try to explain a puzzling, frustrating period in this Nation's history.

Mothers sent us pictures of their children currently serving in the Middle East, their worries for the safety of these children apparent on their faces or in their letters to us.

World War I veterans still alive were few and far between, naturally. One man, C.G. "Bud" Nobles served in WWII, Korea and Vietnam. There were those who wouldn't

And, slowly, the page took shape. A variety of faces looked back at us from the depths of history until the current time.

We're going to go home soon, hoping that we have everyone right, hoping that next year we can get more and more photos, because it's apparent that our gallery of local Armed Forces is far, far from complete.

'Country Cooking" comes from the home of Dr. Jack and Mabel Troutt of Bogata. They have been happily married for 45 years and have two children, Jack Junior and wife, Linda and twochildren, Cashel, 10 and Trey, 7; and a daughter, Janet, husband Ed Dodd and one son, Leslie, 12.

Jack and Mabel are members of the United Methodist Church where they sing in the choir and have become very active since their retirement. Mable is president of the United Methodist women, is on the Family Counsel at Red River Haven and does volunteer work at the home and is also on the Bogata Cemetery Association Board. Every Wednesday from February to November she works with the ladies at the church preparing their annual bazaar and each week two of these ladies prepare lunch. They are always sharing recipes with each other.

Mable enjoys making Christmas crafts for her and her children's homes. Her specialities are Christmas tree shirts and stockings.

She loves to work in the yard and since Jack retired, has more of his help, unless he manages to slip off to the golf course.

She also enjoys collecting cookbooks and has books from all over the United States and the world. Many were given to her as gifts and she

they visit, she and Jack cook what they want to eat and go exactly where they want to go and exactly what they want to do, but enjoy every minute.

Mable enjoys cooking and enjoys having family members at their home for special occasions.

You will find a rocking chair in Mable's kitchen, which is for family members, friends and granddaughter Cashel to sit in and talk to her MeMa while she cooks.

Mabel has chosen three recipes to share. The spaghetti sauce is her original recipe. The chili-mac recipe has been used many times while her children were growing up and the banana nut cake is one of her favorites. She makes thi cake every year for the bazaar and takes orders for Thanksgiving and Christmas.

I have received a recipe from Mrs. Flossy Ballard of Deport, Pear Cake. The recipe was made and taken to the church dinner and many people asked for the recipe.

If you have a recipe to share, send a copy to me, also if you have a feature suggestion, call 652-6032 or write Rt. 1, Box 67A, Depot, TX 75435.

## A Service Man's Letter The following letter was sent to us

us as a typical letter from an American Serviceman in Saudi rabia. At the time of the letter he ad been there for three weeks.

Dear Mom and Dad, MYour box arrived, all I wanted was banana nut bread, but the rest was appreciated. The box was 14 days in transit and was damaged. The box that arrived with the stuff was not even addressed to me, but it all got here. (A note inside the box told me what happened). your letter was torn across one end, the letter arrived in a transparent bag, not all of it was there, when I took the letter out I saw the bottom few lines torn off the front page, all I was able to learn was someone had died. I guess it was aunt. Next time send an entire paper, Herald or Morning News, as recent as possible.

This reminds me of a makeshift verson of a building back at San Angelo. I miss that town and the little church.

I hope to be coming home by February, 1991. Thanks for the pictures of Rachael, LStephanie and Julie.

Give my best to all who inquire, Love, Brad.

(Note: the box descirbed contained Blossom, Texas Peanut Patties, homemade cookies, fudge, tothbrushes, toothpaste, vasiline lib ther-

The Farmers Home Administration, an agency of the United States Department of Agriculture, has selected the Farm Safety for "Just Kids" program as its public service project for 1990-91, through its Wellness Program's Public Safety Campaign, according to Billy Curb, FmHA County Supervisor for Lamar County.

Farm Safety for "Just Kids" is a non-profit organization dedicated to education parents and children about farm injury prevention. This organization stresses raising awareness levels regarding on-farm hazards. Each year, farm accidents result in the death of 300 young people and 5,000 serious injuries. The pimary age group effected is 5 to 14 years old.

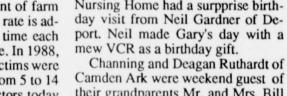

that children bear the blunt of farm accidents when the injury rate is adjusted to account for the time each worker is in the workplace. In 1988, 35.6% of farm accident victims were children ranging in age from 5 to 14 years. There are three factors today which may be aggravating the dangers for children: increased mechanization; new safety hazards, 50% of ATV accidents have involved children, and; stressful economic conditions.

"We bleieve Farmers Home Administration in Texas can make a tremendous contribution to this organization in reaching thousands of children and young adults in rural areas that would have otherwise been missed," Curb said.

## **New SSI Rules** For Disabled Children

There have been a couple of recent changes in the Supplemental Security Income law that affect SSI payments paid to disabled children.

One of the changes allows for the continued payment of a \$30 personal needs allowance to disabled children who leave a medical institution to receive care at home. The children will then also keep their Medicaid eligibility.

Under the old law, children often became ineligible for SSI and Medicaid when they went home from an institution because of their parents' income and resources.

Another change continues eligibility for disabled children of Armed Forces personnel who live with their parents while on permanent duty assignments outside the United States. The children must be U.S. citizens and must have been eligible for SSI in the month before their parents reported for overseas duty.

PJC Offers Continuing **Educaton Classes** A variety of contining education cardiopulmonary resuscitation classes will be offered the week of initial course C from 6-10p.m., November 12 at Paris Junior College, Monday and Wednesday, according to Robbie White, director November 12 and 14. She will also of contiuing education. teacha CPR initial course A from 6-Celebrate the holiday season with 10p.m., Tuesday and Thursday, professional home economists who November 13 and 15. Cost of each course is \$20.

This change will help Armed Forces personnel keep their families together. Prior to this, their disabled children had to remain in the U.S. or give up SSI benefits.

The SSI program pays monthly checks to people with little income and few resources who are 65 and older and to people of any age who are blind or disabled. And most people who get SSI are also eligible for Medicaid which helps pay health care expenses.

For SSI purposes, a child is under 18 and neither married or head of a household, or under 22 and a student regularly pursuing a course of study in an educational or vocational training institution expected to result in gainful employment.

If you know a blind or disabled child who may qualify for SSI, refer the child, parents or guardian to any Social Security office.

### Take A Home Security Quiz

How much do you know about home security? ADT Security Systems, the world's leading provider of electronic security systems, invites you to try this simple "true or false" quiz to find out how much you really know about the subject.

### TRUE OR FALSE?:

1. Burglaries usually take place at night.

2. A neighbor would recognize a stranger attempting to burglarize your home.

3. Most burglars do not enter through accessible windows.

4. Most burglars are not dangerous criminals.

5. An alarm system is an announcement to burglars that you have valuables worth stealing. 6. Home security systems should

be silent.

7. Home alarm systems should be transmitted to your local police. 8. Insurance companies often give discounts to homeowners who install alarm systems.

### ANSWERS:

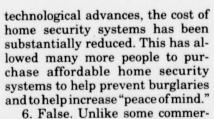

1. False. Most burglaries occur weekdays, between 9:00 A.M. and 4:00 P.M.

2. False. Most burglars dress in business or service-type clothing so as not to attract a neighbor's attention.

3. True. Most burglars enter casually, by way of a door, so that an observing neighbor would assume nothing was amiss.

4. True, normally they are not. Unlike armed robbers, who steal by threats and violence, burglars generally fear people. However, when surprised, burglars can be threatening.

5. False. There was a time when only the very wealthy had home security systems. But thanks to

⑰

cial systems, ADT believes a loud noise that scares burglars away is your first defense. This noise is one of the most effective ways to avoid confrontation with an intruder. If you have special concerns about audible versus silent alarms, you should discuss them with a security company representative.

7. False. Today, because of the increased number of false alarms, many local police departments make it a policy not to allow transmission of alarm signals directly from home security systems. Most police departments respond to calls from security companies monitoring their customers' alarm systems.

8. True. To help the number of insurance claims due to burglaries and fires in homes, insurance companies often offer lower rates to homeowners with security alarm systems monitored by security companies with central monitoring stations, such as ADT's.

For more information about home security, call 1-800-ADT-INFO.

## Area Code 214 Changes To 903 In Northeast Texas

On November 4, the 214 area code changes to 903 in all areas of Northeast Texas except those around Dallas south to Waxahachie. Dallas and the immediate area remains in area code 214, while the rest of Northeast Texas acquires the 903 area code, similar to the 713-409 conversion several years ago in the Houston area. The new area code was established due to an almost-exhausted supply of one numbers available in the 214

The change won't affect long-dis-

tance rates, although there may be

dialing. Also, any phone numbers programmed into the telephone such as speed calling numbers, fax numbers, PBX and PABX numbers, pay phones and cellular phones may need to be reprogrammed.

Until May, 1991, callers automatically will be switched to the correct area code and number. Beginning in May of 1991, recorded messages will remind those who dial the incorrect area code that they must use the new 903 area code when placing calls to that number. Although

some changes in the long-distance these transition periods have been established to help callers who forget to dial the 903 area code, callers should begin using the 903 number for all numbers in the new area on November 4.
