Somewhere along the line the phone company has gotten the upper hand. Talk about converts...they made 'em!

For the first six years of our married life, Thomas and I lived in houses without a telephone.

We simply felt no need for a phone.

The phone company even sent a representative around when we were building our house, and we told him we didn't want, didn't need and wouldn't have a telephone!

Life went along for those six years quietly (boy, how quiet compared to now). We didn't seem to need a phone at all.

Somewhere along the line, though, we decided the budget could handle a telephone, and we had one installed. It was convenient, but that was about all.

But as the years have gone by, our phone system has changed a little bit. It just seems that we need to contact people or people need to contact us almost all the time.

The other day, when we were hooking up our new fax machine, Thomas asked how many phones we had now.

That prompted a count. And that count revealed just how spoiled we have become!

At home the count racked up a phone upstairs (for convenience and to save running down the stairs) one in the kitchen, another in the bedroom and phone jacks outside so that we can move one outside when we're working or playing.

At the office the count runs to one at my desk, the phone attached to the fax, the one on the front desk, the one in the dark room and the phone at the back of the room! That doesn't count the phones at the other offices or locations! They add four more to the list.

Then, to cap it all off, Thomas came up with a trade-out agreement to swap advertising and a little cash for a slightly used "bag" phone to go in his vehicle.

I protested that "this is the last straw". He pointed out that it would make it very easy to locate him while he is out on sales routes, or if he was broken down in the hay meadow.

This has proved to be quite true. It has also saved lots of miles of travel for him.

The fax has proven to be invaluable, too.

The phones are semi-permanently attached to my car. Our monthly phone bills, due to having papers in various towns, all of which are long-distance from one another, probably make the phone company accountants smile with joy each month.

Life without the telephone? It seems absolutely impossible!

What I just haven't managed to figure out yet is how this conversion took place.

Where did it go from being a luxury item to a necessity?

Why do I now feel incomplete and out of touch without a phone?

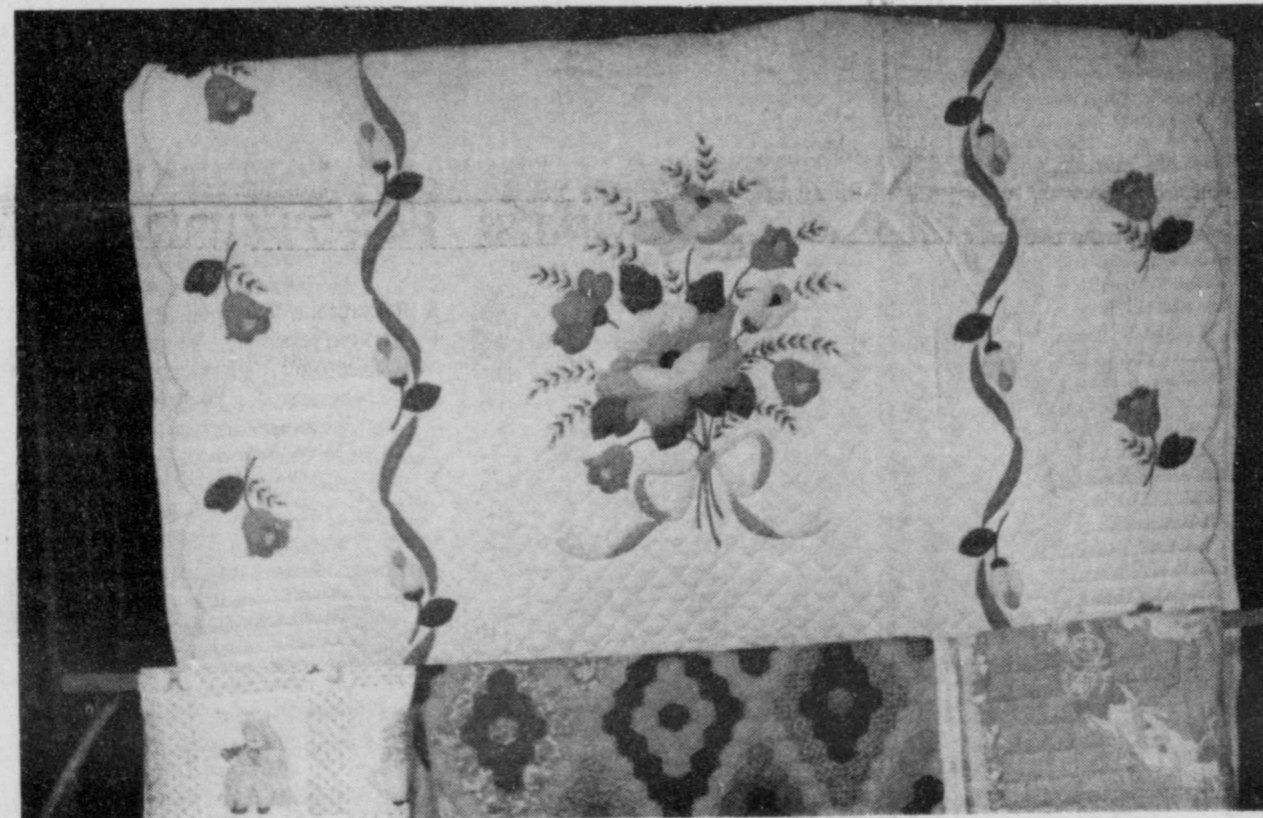

I don't know when it all took place...it was a gradual thing. There was a time I would have scoffed at the whole idea of being so dependent on telephone service. But...Like I said...when they made converts they really made-CONVERTS out of us!

Storm Warning Signals Listed

The volunteer fire department of Bogata wants the residents of the area to know and understand their weather warning system. Tornadoes, heavy rain, hail and high winds are the primary types of severe weather we have in this area.

For severe weather warning the fire alarm will be used in the following manner: 1 long ring, followed by 2 short rings--this sequence will then be repeated 3 times.

The volunteer fire department hopes that this will be of benefit to all citizens during the severe weather season.

To all the people who were disappointed with the darkness or lightness of the photographs in our newspapers last week we would like to explain what happened. Our pictures were good.

The Paris News prints our papers for us, and we were one of the first to run on their presses after they were moved and rebuilt. They assure us that they could do no better until the presses were adjusted.

It was out of our control completely. We were upset too.

Beware Of Telephone Scams

According to Virginia Brock, Red River County Agent, Home Economist consumers need to protect themselves against the top frauds that are being reported.

Scam artists find ways to access people's drivers license, checking account, Social Security number, credit card or telephone calling card numbers. They sell the numbers to individuals who wish to call friends and family abroad, long distance carriers, banks and enforcement authorities are taking steps to counter

the problem, but consumers need to guard these numbers closely.

Some fraudulent telemarketing firms get permission to use a legitimate non-profit organization's name to solicit donations in its name. It guarantees to generate a certain level of contributions for the organizations. It generates substantially high sums, but only pays the guaranteed amount to the charity. Avoid charitable solicitations asking that funds be sent to an address other than that of the intended organization.

SHIRLEY JAYNES prefers baking sweets and candies and is sharing some recipes with readers this week in the Country Cooking Column. (Staff Photo by Judy Screws)

Country Cooking

By Judy Screws

Shirley Jaynes prefers to bake sweets and make candy, but her favorite meal to eat or serve her family is red beans and cornbread, fried potatoes, fried okra, fried squash, a big slice of onion, and country smoked ham with red eye gravy. Doesn't that just make your mouth water?

I visited in Shirley's home this week. She lives just east of Blossom. As you enter the house by way of the front porch, you are surrounded by hanging baskets and flower beds just spilling over with beautiful flowers of every color imaginable. I commented on how nice they looked, and asked her how in the world she managed to have that many flowers blooming at the same time. I touched some of them to make sure they were real, since the only flowers I grow are silk ones. She began showing me the ones she is particularly fond of and rattling off names. She lost me right away. You can tell how enthusiastic she is about anything she does just by talking with her.

Shirley drives a school bus for the Prairiland Schools, works for the Kwik-Korner in Paris and works at the Texaco station on the weekends. Her husband, R.E., is a lumber broker.

Shirley and R.E. have five children, three boys and two girls. Rickey, the oldest son and his wife, Laura, have one child, Candace Nicole; Roy Dean (Dinger) and his wife Tammy have no children yet. Their youngest son, Michael, isn't married, yet. The older daughter, Leisa Morris has a 7-year old daughter, Brittany; Anita

Copeland, who is the youngest daughter, and her husband Jimmy are expecting their first baby in November.

Shirley is involved in just about anything that takes place in the community. Whether it's helping to raise money for a walking track, singing in the choir at the Methodist Church, or umpiring a softball game, she gives it all she's got. She really gets pleasure out of coaching girls' softball and Little Dribbler basketball. Shirley was no slouch when she played basketball at East Lamar. Everyone will not be old enough to remember that, but I do.

She also likes to visit as often as possible with her 89-year old mother, who is a resident of Cherry Street Manor.

I met Shirley many years ago when my husband and kids were playing softball. I can still see her trying to give a tournament, coach and play on a team, and keep up with her kids all at the same time. Every so often you'd hear her yelling "Dinger, you and Michael had better sit down or I'm going to whip you all over the place."

When she plays ball, she plays for blood, but when the game is over, she's ready to hug, shake hands and put that game behind her.

Shirley says that most of her recipes just come off of packages, or she gets them from friends. Hope you enjoy them.

If you have any special recipes you use for the holiday season, I'd like to print them, even if you don't want to be featured in a column.

Have A Happy & Safe Halloween!!
On October 31, Halloween, children's fantasies come true. They gleefully don costumes to look like their favorite heroes or villains and knock eagerly on neighbor's doors to ask the age-old question "Trick or Treat?" Not too surprisingly, they usually get what they want, a bag filled with goodies. But Halloween fantasies can turn sour if trick or treaters and their parents don't prepare for safety. These safety tips are intended to assist you and your child to think about ways to keep Halloween a "Safe and Fun Night."
These safety tips are made possible through the courtesy of the Deport American Legion, the Deport Community Service Club and the City of Deport.
Remember, for emergency dial "0" or "911".
*Keep costume short so you won't trip
*Stay and move in small groups
*Accept only wrapped or sealed treats
*Use non-flammable materials
*Have mom or dad check treats
*Look both ways before crossing the street
*Don't eat treats until you get home
*Obey traffic lights
*Have an adult with you
*Use makeup, not a mask
*Cross streets only at the corner
*Walk-don't run
*Carry a flashlight
*Don't walk in the streets

Rebel Sports Report

Rebels Lose Second Bid For District Win

By Reggie Alford

The Rivercrest Rebels were looking for their second district win Friday night against Wolfe City, but the Wolves defense had other plans.

Wolfe City took an early first quarter lead, 6-0 but dropped a Tony Sanders punt and it was recovered by junior Shannon Richeson. Sanders then led the Rivercrest team downfield for the first score of the night. Jeremy Belyeu kicked the extra point to give the Rebels a 7-6 lead.

The Wolves offense, along with several penalties, responded to take back the lead with :32 left in the second quarter and at the half it was Wolfe City with a 12-7 lead.

The young Rebels refused to quit, however, as sophomore quarterback Tee Green connected with Shannon Richeson to take back the lead at 7:04 in the third quarter. Rivercrest made good on the extra point attempt.

With only :08 left in the third

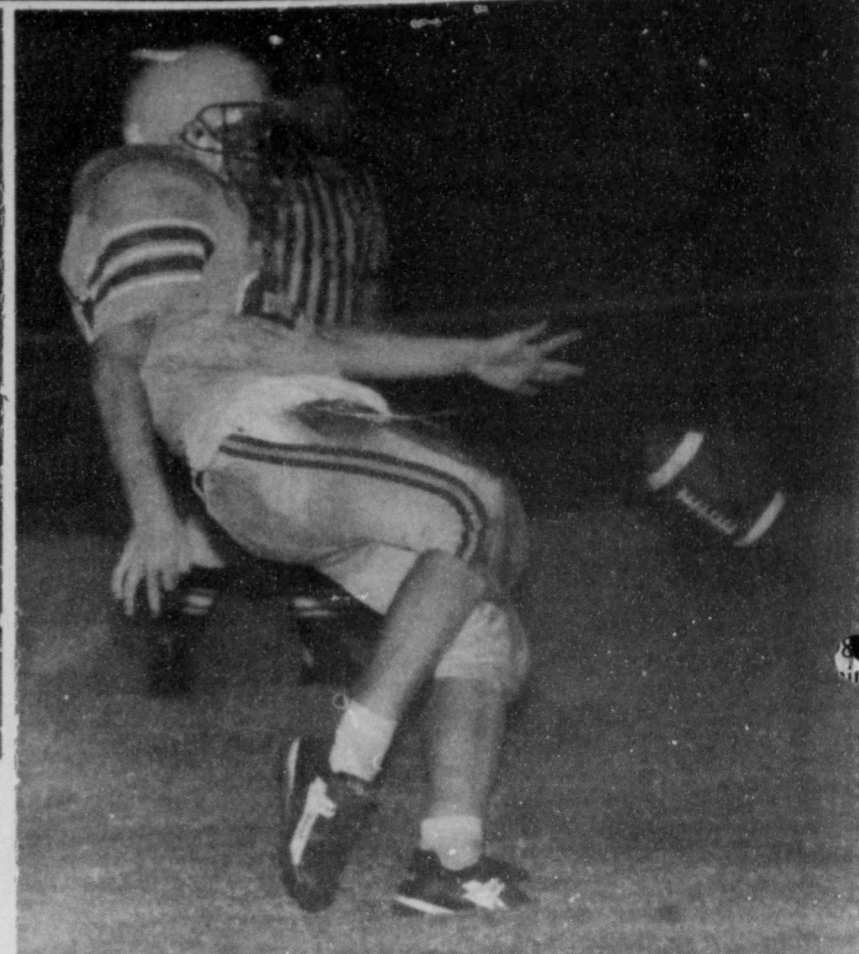

quarter, Wolfe City's quarterback J.Q. Fuller hit Carry Herron in the endzone and after the two point conversion, they led with a 20-14 score.

Wolfe City's defense then held the Rebels scoreless during the final period, while their offense exploded for two more touchdowns to give the Wolves a 34-17 victory.

The Rebels will travel to Chisum this week. Game time is 7:30.

Rural Texans Receive Housing Assistance

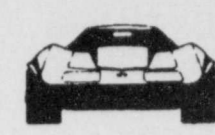

"During the 1992 fiscal year the Texas FmHA made new loans to rural residents which totaled over \$22 million for the purchase of single family dwellings," stated State Director Neal Sox Johnson. In addition, Texas rural families were provided homes from the sale of inventory properties totaling over \$12.4 million. Home repair assistance in the form of loans and grants provided to very low income and elderly residents in rural Texas amounted to \$1,525,000.

Fiscal year 1992 was the first full year for the new FmHA Guaranteed Rural Housing Loan Program whereby FmHA guarantees 90% of the loan from a participating commercial lender to an eligible low or moderate income family for the purchase of a rural home. Texas now has

61 approved guaranteed rural housing lenders, including the Texas Department of Housing and Community Affairs. FmHA's Guaranteed Rural Housing program offers additional opportunities for local lending institutions to meet the housing needs of rural communities.

As FmHA enters fiscal year 1993, President Bush has already signed the Agriculture Appropriations bill which authorized \$1.3 billion in direct lending and \$330 million in guaranteed single family housing funds to continue to meet the housing needs of rural Americans. "Texas FmHA looks forward to an allocation of approximately \$62 million in direct and \$16 million in guaranteed funds to assist eligible rural residents in their housing needs," said Johnson.

Those helping in the Spook House were Gene Goates, Skippy Randall, Bobby Kuhl, Ray Cochran, Russell Smith, Clarence and Cindy Watts, Kim and Nancy Brown, Peggy and Ron Benfield, Sue Nolen and Karen and Johnny Jones. NOTICE OF APPLICATION FOR WASTE DISCHARGE PERMIT RENEWAL

CITY OF DETROIT, P.O. Box 180, Detroit, Texas 75436-0180 has applied to the Texas Water Commission for renewal of Permit No. 10724-01 which authorizes a discharge of treated domestic wastewater effluent at a volume not to exceed an average flow of 108,000 gallons per day. The wastewater treatment facilities are approximately 1200 feet south of U.S. Highway 82, approximately one mile southeast of the intersection of U.S. Highway 82 and Farm-to-Market Road 2573 in Red River County, Texas. The effluent is discharged into Scatter Creek; thence to Cuthand Creek; thence to the Sulphur River/South Sulphur River in Segment No. 0303 of the Sulphur River Basin.

In accordance with the Texas Surface Water Quality Standards, the Commission staff must determine the existing uses for the receiving water in the area of the proposed discharge and whether the proposed discharge will cause significant degradation to any high quality waters in the area. The un-

classified receiving waters of Scatter Creek have no significant aquatic life uses. The designated uses for Segment No. 0303 are contact recreation and high quality aquatic life uses. The effluent limitations in the draft permit will maintain and protect the existing instream uses. All determinations are preliminary and subject to additional review and/or revision.

The Executive Director of the Texas Water Commission has prepared a draft permit which, if approved by the Commission, will enforce more stringent effluent limitations in order to meet existing applicable rules and regulations. It is proposed that the expiration date of the renewed permit be specified as midnight, five years after date of Commission approval.

Legal Authority: Section 26.028 of the Texas Water Code and 31 TAC Chapter 305 of the Rules of the Texas Water Commission.

No public hearing will be held on this application unless an affected person who has received notice of the application specifically requests a public hearing. Any such request for a public hearing shall be in writing and contain (1) the name, mailing address and daytime phone number of the person making the request; (2) the statement "I request a public hearing"; and (3) a brief

description of how the requester, or persons represented by the requester, would be adversely affected by the granting of the application. If the Commission determines that the request sets out an issue which is relevant to the application, or that a public hearing would serve the public interest, the Commission shall conduct a public hearing, after the issuance of proper and timely notice of the hearing. If no sufficient request for hearing is received within 30 days of the date of publication of the notice concerning the application, the permit will be submitted to the Commission for final decision on the application.

Requests for a public hearing on this application should be submitted in writing to Kerry D. Sullivan, Assistant Chief Hearings Examiner, Texas Water Commission, P.O. Box 13087, Austin, Texas 78711, Telephone (512)463-7908. Information concerning any technical aspect of this application can be obtained by writing Dale W. White, P.E., Wastewater Permits Section, Texas Water Commission, P.O. Box 13087, Austin, Texas 78711, Telephone (512)463-8201.

Issued this 20th day of October, 1992.

Bill Ratliff has already brought hundreds of jobs to Northeast Texas.

And he will bring us more.

It's tough to understand business unless you've run one yourself. And Bill Ratliff has. He founded his own engineering company in Mt. Pleasant. He has managed employees, dealt with government regulations, worked hard to make his firm grow.

Bill Ratliff took his skills with him to Austin when he was elected our senator four years ago and we're all benefiting. His program to encourage local economic development has created work for Northeast Texans. He was named one of the 10 best state legislators by Texas Monthly and one of the 7 best by the Dallas Morning News. Bill Ratliff deserves our vote.

Teach Children

Teaching children the principles of resourceful living gives them a foundation for thinking about using limited resources to meet unlimited needs and wants. This will increase their responsibility for managing money resources and they become more aware of the limits of our natural resources. They become resourceful in applying the same principles to living with all resource limitations with greater understanding and less stress.

The source of this article is Vir-

ginia Brock, Red River County Agent, Home Economist. Contact her for more information on family and community living.

Guiding the development of your child's personal resources builds the greatest resource they will ever have--themselves. As you build your child's confidence in his or her resourcefulness, it is also important to help youth understand that resources have limits. That means that we all have choices to make and about how we use our resources.

Making choices begins by helping youth understand the difference between needs and wants. Let your children look up different. Then involve them in deciding what their needs are and their wants. Reinforce the idea that needs and wants are different whenever your child asks for something. Ask the child to consider his request and help him to determine whether it is a need or a want and what choices the two of you have for meeting the need or want.
