Worth

By Nanalee Nichols

I just finished reading a book about Richard the Third, King of England in the 1500's.

Richard III is mainly remembered because he was thought to have murdered his two small nephews rather than have them ever be able to wrest the throne from his grasp. The book proved fascinating because it offered as much evidence that he did NOT do this evil deed as is usually offered that he DID!

But even more fascinating was the carefully researched glimpse into what life was like back then.

It was thought-provoking to realize that the greatest kings and their extensive courts and entourages lived in worse conditions than most of the poorest in England or the U.S. do today.

Limited diets of meat, breads and in summer some vegetables graced the tables of the most royal. No matter how beautifully prepared, or elaborately served, nothing changed the fact that in winter there was no fresh fruit and very little in the line of vegetables.

The poor fared even worse, of course, and bleeding gums and scurvy ran rampant. Of course, actual starvation ended many of these ills.

Of a family of five or six children only one or two might survive, even among the wealthy.

The medicines of the time consisted of herbs, and although there was actually some benefit in some of them, the royal household would have given all for a bottle of aspirin and an antibiotic.

People lived with rushes or straw scattered on the floor, and cold stone walls could be warmed only a little by tapestries and wall hangings.

The most exhausted of people, surrounded by doctors armed with leeches and blood letting instruments, would have had a much better chance of survival if they could have gone to the most over-worked and poorly funded free clinic in the nation!

The wealthy might own as many as seven complete dresses, while the poor owned only one. The middle class perhaps had one or two outfits. Though the richly dressed might have on a fortune of jewels, pearls, silver and gold they could not wash nor clean them.

The roles of men and women were sharply defined, and women were bartered and used as political pawns by royalty at every turn.

There were no insurance companies for disasters, no life insurance to aid a widow whose husband died, no Social Security, no welfare.

If a member of court displeased the monarch they might find themselves stripped of all their lands and means of livelihood...if not their life.

Filth prevailed, with the poverty ridden never bathing and the royals bathing perhaps once or twice a year.

Lice and fleas were a fact of life, and not just on pets, but on humans.

Temperatures were not controllable. No fans in the heat, nothing but inefficient fireplaces in the winter.

I enjoyed the book, and I enjoyed a look into the past.

It's strange to think that being "middle class" provides us with a much better way of life than the most powerful and world-controlling people of the past!

One local man was killed and two more injured in an automobile accident near Miami, Oklahoma Friday, September 24th.

James Gatlin, age 68 of Powderly and a member of the board of directors of Community National Bank, Detroit, was killed in the accident while Seneca Cowan, also a member of the same board of directors, was in ICU at Miami Baptist Hospital Tuesday. His wife reported to Community National Bank officials that he had undergone nine hours of surgery to pin his leg, hip and shoulder, and to repair a serious scalp laceration. He

is expected to be hospitalized for some time but may be taken out of ICU Tuesday afternoon. Cowan is 62 and a resident of Detroit.

Bill Anderson, age 55, of Bogata, was also in the vehicle and sustained a collapsed lung and an injured leg plus lacerations, according to Community National Bank officials. He is expected to be released from hospital soon.

Anderson was penned in the wreckage for forty-five minutes before being freed by the Jaws of Life.

Genealogical Society To Honor Henry Stout

Henry Stout was born in Weakley Co. Tennessee in 1799. He left home at the early age of 14. He married Sarah Talbott in Arkansas. In 1819, he moved to Pecan Point, now in Bowie County, but then part of Red River County.

Henry was a unique character in that he was an adventurer, a scout, an Indian fighter, and a guide to early pioneers. He led many pioneers through the area and taught them how to adapt to the frontier way of life. He taught the settlers to use the bear for more than just meat. To render the fat for lard and to use the hide for covering.

Henry was also a guide for hunting parties. On one trip, he was

known to hit a bear in the head with the stock of his gun, breaking it, then killing the bear with a knife.

Henry was in Red River County until the 1830's when he decided to move on. His reason was that the land was becoming too populated. He moved his family to Wood County where some descendants still live.

The Red River County Genealogical Society will honor Henry Stout with a Special Pictorial Cancellation on October 2, 1993 at Clarksville. The cancellation will take place in front of the Post Office. The cost of the cancellation will be \$2.00, and will include an envelope and stamp.

Country Cooking

By Judy Screws

I got a letter from Utah. I'll share it with you all.
Dear Judy,

I thought you might use some Dutch oven recipes for the cooking column in the paper. I hope you enjoy them. I sure look forward to your column in the Deport paper. Next time you get to Deport, give Johnnie a big hug for me.

Jyll Bullard Holman
Just in case there is anyone wondering about who Jyll is, she was the previous Activities Director at De-

port Nursing Home. She was a lively soul who was devoted to the residents at the nursing home. I understand that Joni Kincaid is also doing a really fine job in Jyll's old position. Johnnie is my Aunt Johnnie Warren. She's the old lady Jyll wants me to hug. I probably won't give her a hug because she fusses at me, but I'll try to shake hands with her if she'll act halfway right.

Jyll, thanks for the recipe and the letter. Take care of yourself, and feel free to send recipes anytime.

1993 Property Tax Rates in Talco-Bogata CIRD

This notice concerns 1993 property tax rates for Talco-Bogata school district. It presents information about three tax rates. Last year's tax rate is the actual rate the school district used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the school district can set before it must hold a rollback election. In each case these rates are found by dividing the total amount of taxes and state funds by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$ 150,787
Last year's debt taxes	\$ -0-
Last year's total taxes	\$ 150,787
Last year's tax base	\$ 115,990,393
Last year's total tax rate	\$.13 /\$100

This year's effective tax rate:	
Last year's adjusted taxes (after subtracting taxes on lost property)	\$ 146,711
+ This year's adjusted tax base (after subtracting value of new property)	\$ 101,659,088
= This year's effective tax rate	\$ 0.14431 /\$100
x 1.03 = maximum rate unless the school district publishes notices and holds hearing	\$ 0.14863 /\$100

This year's rollback tax rate:	
School maintenance and operations component	\$ 1,184,853
+ This year's tax base	\$ 102,656,640
= This year's local maintenance and operating rate	\$ 1.15419 /\$100
+ \$.06 cents = this year's maximum operating rate	\$ 1.21419 /\$100
+ This year's debt rate	\$ -0- /\$100
= This year's rollback rate	\$ 1.21419 /\$100

THE ACCOMPANYING TAX NOTICE IS WRONG!

The Talco-Bogata Independent School District is required by state law to publish the accompanying tax notice in this form, even though the notice is deceptive.

Because of an omission in the recently-enacted state law, Talco-Bogata I.S.D. may not include revenue collected by the county education district in the calculation of taxes for the 1992-93 school year. The effect of this is to understate last year's actual school tax rate and produce an inaccurate comparison of last year's tax rate to this year's tax rate.

The correct comparison of tax rates is as follows:

Last year's (1992-93) total school tax rate (including county education district taxes):	1.00
This year's (1993-94) proposed school tax rate:	1.00
Percentage change:	-0-

Rivercrest Junior Varsity Rebels Whiz By Mt. Vernon

By Matt Stockton
The Junior varsity faced off with neighboring Mt. Vernon Tigers last Thursday. Rivercrest captains, Dru Denison, Alvin Savage, and Chesley Baird, won the toss and elected to receive. Deep for Rivercrest was Chesley Baird, and Alvin Savage. Kicking for the Mt. Vernon tigers was Number 31, who kicked to Rebel Savage. He was stopped by Travis Bones. The ball started to change hands and sides very quickly, and shown by Rivercrest's 3 fumbles and the Tiger's 3 fumbles during the first quarter. Rushing yards for both teams was constant. The Tigers came out on top though, with 32 yards to Rivercrest's 15 yards. There was just one penalty in the first quarter and it was due to illegal procedure on the part of the Tigers. The first quarter was scoreless.

During the second quarter, the Tigers had 7 first down for 47 yards, 1 five yard penalty, and one touchdown, by number 34, John Rodes from behind the Rebs 5 yard line. The Rebels did considerably better with only 4 first downs they garnered 57 yards and unfortunately had 1 fumble. Two touchdowns were made by backs Chesley Baird for 57 yards, and Alvin Savage for an unbelievable 85 yards. The third quarter began with Rivercrest 12 and Mt. Vernon 6. Mt. Vernon never did manage to get a handle on it again and the score stayed the same until the whistle blew. Rivercrest Junior Varsity and Junior High play at Como Pickton on Thursday, October 7. Junior High Game is at 5:30 and JV game is at 7:30

Rebels Make Good Showing Against T.K. Gorman

By Matt Stockton
The Rivercrest Rebels traveled to Tyler on Friday night and made an impressive showing against the T.K. Gorman squad with a final score of 39-16, in favor of the Tyler team. Both teams had a rough night. Although the Rebels were in there fighting every minute of the time, they seemed to get knocked down at every corner. The Tyler bunch had their own problems too. It was their homecoming game, and their Public Ad-

dress system was not working. Not many things were working for them on the field either. The Rebels were carrying the ball like pros when the passes were completed, so Gorman had to work for every point they scored. On Friday, October 8, the Rebels take on the Prairiland Patriots at Rebel Stadium. This will be Rivercrest's Homecoming game. The pre game ceremony is scheduled to start at 7 p.m.

REBEL FOOTBALL
"POSITION OF THE WEEK"

This week's Position of the Week is the Rivercrest Defensive Ends. The end's job on the field is to contain the run, cover the receivers. Plays by the ends can come from a four point stance or on the blitz. In the blitz situation, the end's job is to rush the quarterback. A main part of their job on the field is to turn the runner inside to the linebackers so the tackle can be made. On the option play, the end is responsible for containment of

the quarterback. They are also used to contain the sweep, cutting off runners that attempt to go around the end of the line. Serving as defensive ends for the varsity Rebels are Kyle Kennedy, Clint Franks, Brad Davidson, Mike McGee, Josh Belcher, Joe Grissom and Thomas Stoner. Junior varsity ends are Todd Barker, Clint Gage and Jason Sears. We are Rebel proud of these young men.

**High Efficiency Lighting Is A
Bright Way To Save Energy.**

Compact fluorescent bulbs can brighten your home while using only about one fourth of the electricity that incandescent bulbs use. Other energy-efficient lights are also available for places where compact fluorescents won't fit. Although lighting isn't typically a home's biggest energy user, making the switch to high efficiency lights can reduce your total energy needs. For more information about saving energy, call your local TNP office and ask for a free copy of the "Energy Management Guide."

PAY LESS PER FILL UP.

Now you can fill the tub again and again without much water as an electric water heater in the same getting soaked. Because a propane water heater can save you \$2,000 over the life of the heater. And a propane water heater pays for itself in about two years. It heats twice as period of time. And propane is better for the environment. So get more hot water for less cold cash. Switch to propane. For more information call 1-800-64-CLFAR.

Nuts & Bolts
By Judy Screws

Have you ever called 911? I had not done so until a few weeks ago when there was a car wreck down the street. I kept hoping as I walked down to that wreck, that someone else had also seen it, but nobody emerged from their places of business. I checked to make sure everyone was okay and that there were no injuries. A man drove up in a pickup and put out those little barricades which are shaped like a cone. He made not a move to call anyone. Then the dilemma came. How much damage should there be to call a law enforcement officer. Isn't there another number other than 911 in case I'm not sure whether it is a 911 emergency, or not? When the lady at the other end of the line answered she could tell before I said a word, that I was calling from the News Office. What if you aren't supposed to call unless you are sure it is an absolute emergency. This is a little bit like when I make a Doctor's appointment and am afraid my symptoms will go away before the appointed time arrives. I got so embarrassed when I

EMPLOYEE of the MONTH-Jodie Satterfield was chosen as employee of the month at Red River Haven Nursing Home. He has been employed there since 1988. He will receive a \$50.00 bonus for this award. Jodie's wife, Dorothy is also employed at the nursing home.

take a car to a garage and it won't act up with the mechanic around the way it did before I took it. I usually feel so badly about it that I almost offer to pay him for looking. Almost, but not quite. I had heard not too long ago about a little boy who was visiting his grandmother in Paris. He wanted to see if 911 would work. It did, but when they answered, he hung up the phone. They called back, and he hung up again. This happened a number of times. The grandmother in the back of the house kept hearing the phone ring, but assumed her grandson was just talking with his friends, until she happened to look outside just in time to see all the police cars surrounding her house. As I thought about this little boy, I went back to the scene of the accident. I asked questions about the extent of the damages to reassure myself, and when the wreckers and the Highway Patrol showed up and everyone looked as though, it was business as usual, I was able to relax a bit about calling that very serious number.

Comments From Your County Attorney

Jack Herrington

Jail Space Needed

After nine months in office, our office has sent over 30 people to prison. Juries have handed down stiff sentences in many cases. The public has told us that they want criminals and law breakers off the streets of our county.

The Sheriff and I are faced with a serious problem. You want criminals in jail and prison, the Sheriff wants them in jail and prison and I want them in jail and prison. We all want people who break the law to know that they will be punished.

This morning there were 33 people in jail in Red River County and one female housed in the Mt. Vernon Jail at a daily cost to you and I, the taxpayers.

Our jail holds 14. We are overcrowded under state jail policy. The jail commission has told the Sheriff that something must be done soon. We are going to be forced by the State to start housing our prisoners in other counties at \$40 to \$50 per day.

Our money would be better spent building a large jail. Many counties face the same problem we do. We only have two choices, build space and house our own prisoners or send them somewhere else and send our dollars with them.

I intend to continue to enforce the law and prosecute those who break the law.

If you stand for strong law enforcement and prosecution, please send a note to me or Sheriff Edrington stating your position.

TRAVEL TIPS
 By
 Marlene Pendleton, C.T.C.

If you like hot spicy foods, seafoods and lots of toe tapping music (haven't met many Texans who don't), then you will love Lafayette Louisiana.

Weekend before last we went to the "Festivale Acadian" in Lafayette. We had tried twice previously to go and it had been cancelled due to hurricane threats. However, the third time was a charm. The weather was great, (a little hot), the food was great (a little hotter) and the music played on and on. Cajun danced their "Fais do do" endlessly. The only thing warmer than the weather was the Cajun Spirit! Everyone was friendly and tried to teach us their native dance. We decided you really don't have to go to the festival to enjoy the Cajun experience. There are many good restaurants and quite a few have good sized dance floors with Cajun bands playing just about every night of the week. There is no cover charge - you just eat, listen to the music and dance when you can no longer keep your feet still.

Call or come by for brochures and information. We also have info on other Louisiana and Texas Festivals. Call
