Nichols Worth

By Nanalee Nichols

Well, January is here, and 1994 is a hard date for me to write. I get the "94" written about half the time, then my mind lapses and I go back to 1993. In a few weeks my mind will have made the transition and I'll be locked into the new year more

My mind isn't firmly locked into anything right now, I don't think. It is wavering and not wanting to "buckle down" after all the upset in routine during the holidays.

And, to cap it off, Thomas and I flew down to the coast last week and had a lovely little visit and min-vacation with my cousin and aunt and uncle.

They take a condo at Port Isabel every winter, and avoid the snowy winters of Amarillo or Tulsa, Oklahoma.

They kindly invite us down every year, and it doesn't take over one invitation for us to ac-

On the way home Iwas trying to decide what the nicest part of this little break was.

Of course, the trips into Mexico were nice. We brought back at least half of the national product of that country...rain sticks, ironwood carvings, pea-

Then, there was the seafood, fresh caught shrimp, justshucked oysters, delectable crab

There were the walks onthe windy beaches, searching for shells or starfish. But best of al, I think, was just the chance to get away for three full days. I don't MIND the routines...I enloy my work and Thomas enjoys

I don't mind cleaning or cooking or feeding the cats, dogs and Thomas enjoys feeding the cattle, ducks and geese. But....its just nice to not have to do it for a little

It's nice not to have to attend to the dozens upon dozens of little things required at the papers, or to attend to the dozens and dozens of little things that make up daily life.

And, on this little get-away reality just took a hike and we existed briefly in a pleasant, slowpaced world of waves and sand, and pleasant company!

I strongly recommend it as a cure for the winter doldrums, exhaustion or irritability

If you have good folks to go visit...try it, or if you don't perhaps it is possible to pack up and just leave town for two or three days? And, failing that....just tell old reality to take a hike anyway! Read a good book and let routine wait...get a few good movies and spend a whole day just watching them, endulging yourself!

It's a good time to do this type of thing...so take a reality brek and enjoy!

Pirtle Files For Office Of Red River County Judge

H. Drue Pirtle has announced that he has filed as a Democrat for the office of Red River County Judge.

Pirtle said, "I have been out of politics for a year and I think it is time to get involved again. With my eight years experience as a former County Commissioner, I feel that I am qualified to do a good job as County Judge.'

Pirtle attended school at Johntown Elementary, Bogata High School, Hawley High School and Paris Junior College. He earned a BBA degree with a major in accounting from East

Texas State University in 1956. After college, Pirtle lived in Longview where he worked in public accounting for 3 1/2 years doing auditing and income tax work. He joined an independent oil and gas firm in 1959 and worked his way up to Vicepresident and Treasurer before the company was sold in 1979. While

with the oil company, he served as director of the company and was president and chairman of the board of a subsidiary computer company in Tyler. Pirtle returned to Red River County

in 1981 and has served four years on the Talco-Bogata School Board, four years as director of the First National Bank of Deport, eight years as County Commissioner of Red River County, and has been a director of the Red River Valley Girl Scouts. He and his wife, Billie, are active members of the Johntown Missionary Baptist Church where he serves as Sunday School teacher, music director, treasurer and deacon. Pirtle has a daughter, Lana, who is a sophomore at Paris Junior College and a son, Clay, who is a senior at Rivercrest High

Coach Wake Wood,

25 Years At Rivercrest

The meeting was called to order by Mayor Mildred Eudy. Reading of the minutes of the previous meeting and paying of bills

was approved. Joncie Young brought an update on the 1992 TCD Grant. Putting a lift

station on the property of one Bogata resident was scratched because the resident didn't want the station there. It was decided that another resident will be approached and hopefully arrangements can be made.

Roy and Helen Roberts addressed the council on the subject of removing the city limits line to exclude the home they have recently purchased. No action was taken by the council.

It was decided that letters will be sent to property owners who have not sightly and can be a fire and health hazard. The letters will be certified with a return receipt to save time.

The council discussed the property at 333 3rd S. W. The meter has been removed. It will now be necessary to notify the Health Department if the people do not have to water hooked up.

People think I am not working with all my faculties, but the most relaxing thing I can think of to do is to get into the kitchen and cook. I don't like to cook things way ahead of time, because I work on them so much and keep adding to them that by the time we are ready to eat them they aren't fit to eat. It's also important for me to have most of the ingredients I need. I can make a few sub-

things you should not have to "make

flour. I made cornbread many years

ago, and I didn't have any flour. I

know that many people do not use much flour in cornbread, but I don't want mine to be so coarse, so I use more flour. I was able to make some pretty decent flour by crushing saltine crackers. I don't reccomment this except in an emergency, but it served the purpose. I am looking for a cornbread recipe that uses grits. I am also looking for a recipe for a gelatin salad which had yogurt in it. I desperately need some recipes in which stitutions, but there are just some you can use the equal sugar substido" without. One of those things is tute. Any help would be appreciated.

Have a good week. Blossom

Energy Savings Flow When You Save Hot Water.

You can turn on energy savings with these few easy steps to reduce the amount of hot water you use:

 Keep your water heater set at 120° to 140°. If you have a dishwasher, check the manual to see if it recommends any water temperatures. Use less hot water. Wash clothes in cold or warm water and use cold water rinses. A low-flow shower head will also reduce water use.

Remember, too, that small leaks add up to big waste. • Use water heater insulation, especially on heaters that are located in unconditioned areas of the house. For more information on saving energy, call or visit your local TNP office

A Note from the Editor:

People in the Bogata area are still having problems with vandalism to their rural mailboxes. The local law enforcement officers should be contacted for this problem. If a person is caught committing this crime, and found guilty, it is a federal crime. Even though it is a federal crime, it must first be investigated through local law officers.

Why Not Refinance Your Car?

Your House Today,

A lot of people are taking advantage of the low interest rates to refinance their homes. But why stop there?

Your car is probably the second-biggest investment you make in your lifetime. So why not save all the money you can?

The fact is, if you financed your new car just one or two years ago, you're probably paying anywhere from 9 1/2 % to 12%. By refinancing now, you can probably save hundreds of dollars over the life of your loan.

Call or stop by our bank. But don't delay. Rates this low don't happen

Genealogists To Hold Seminar

The Genealogical Society of Northeast Texas is pleased to announce an exciting seminar entitled "The World of Genealogy" featuring nationally known genealogist Ron Bremer of Salt Lake City, Utah. This event will take place on Thursday, January 20, 1994 in the outreach building of the Lamar Avenue Church of Chriust, 3535 Lamar Avenue, in Paris. from 7:00 p.m. until 9 p.m., on the northwest side of the building.

Born and raised in Southern California, Mr Bremer now has an office near the Family History Library in Salt Lake City. He is the author of The Compendium of Historical Sources. Mr. Bremer has personally visited the major genealogical record centers in every state and province in North America.

He averages five seminars a week and travels about sixty-thousand miles a year. He is presently one of the most popular and sought after genealogical speakers in the country. His ability to answer questions from the audience makes his semi-

nars more personal, and frequently he is able to help each individual in attendance. He seldom uses a microphone and is in constant demand as a motivational speaker. His lectures are not only most informative but also very entertaining.

'The World of Genealogy" seminar will contain information for both the beginner and the more advanced. Topics include: Introduction and Organization, Speeding up your Genealogy, Little Known Sources, Research by Correspondence, Solving Stone Wall Problems, Contacting Collateral Cousins, Courthouse to the Outhouse, Attic Archaeology, and Questions and Answers.

All those attending are encouraged to come prepared to discuss their genealogical research problems! Refreshments will be served. Arrive early for good seating.

For more information, please call the Genealogical Society of Northeast Texas library at 903-784-9448 between 12:00 and 4:00 p.m., Monday through Thursday.

Final 1994 Upland Cotton Acreage Reduction Announced

Secretary of Agriculture, Mike Espy, announced that the acreage reductionpercentage for 1994 crop upland cotton will be 11 percent. This is a 6.5 percentage point reduction from the preliminary level announced on November 1 and reflects tightened 1993 crop supplies resulting from a reduction in estimated U.S. and foreign cotton production in 1993. Espy

said that the 11 percent acreage reduction for 1994 is projected by USDA to be the level which most closely conforms with applicable statutory requirements regarding the maintenance of a desirable end-of-year stock level.

The announced upland cotton acreage reduction percentage is lower than the preliminary level, so upland cotton producers in "early planting areas" will not be unfairly disadvantaged by

To Avoid a Cold

There is one practical step that can minimize your chances of catching-or spreading-the common cold: Wash your hands.

Colds are not spread as readily by sneezing and coughing as by contact of mucous membranes with nasal discharge: for example, wiping a child's nose, throwing away the tissue and then rubbing your eye will expose you to the cold virus. Wash-

Keeping Healthy

Rosalea

Frigid temperatures and biting winds may cause a significant increase in rosalea. A form of adult acne that can result in permanent skin damage, it is now affecting growing numbers of baby boomers.

In its mildest form, rosalea consists of a subtle redness appearing from the middle of the forehead to the tips of the nose and chin. As the disease progresses, inflammation and reddening of the eyes may appear.

Rosalea, which typically strikes people in their 30's and 40's, is often ignored because it tends to recede for a period of time, leading patients to believe that dermatological treatment is unnecessary. However, without treatment, the condition may worsen and cause permanent damage to the facial skin.

People who believe they may have rosalea should see a dermatologist for a specific diagnosis, follow the prescribed treatment and remember to use moisturizers everyday.

Young Rebels Fall

The Rebel JV and 9th grade teams combined to play the Clarksville Tigers JV at Rivercrest Monday, Jan. 10, with just the opposite outcome of Friday night's game.

The Rebels held a 16-10 lead over the Tigers at the end of the first quarter and fell behind one point by the half -25-26.

The third quarter was the killer for the team. Missed lay-ups and a generally cold Rebel team saw the Tigers take and keep control of the game. A

strong effort by Eric Waller in the fourth quarter helped the team stay in semi-range. Waller was high-point man for the team, scoring 13 points. The Tigers maintained a 19-point spread to win the game. Final-70-51.

Scoring for the Rebels were Jack Brown - 6 points, Steven Thomas - 6 points, Eric Martin - 7 points, Jay Hancock - 4 points, Toddy Barker - 4 points, Clint Gage - 6 points, and Mitch Elllis - 5 points.

9th And JV Skin Tigers

The young men of the Rivercrest Rebel 9th grade basketball team set the pace for the Rebel teams Friday, January 7, vs. Mt. Vernon at Rivercrest.

A 38-11 half-time score for the Reb team was the start to the evening's wins. Aaron Martin finished as highpoint man for the team with 23 points, followed by Alvin Savage with 20 points. The young Tigers simply could not stop the rolling Rebs. Final was 64-24 Rebels. Also scoring were Clint Gage - 6 points, Todd Barker - 7 points, Dru Denison - 4 points, and Mitch Ellis - 2 points.

The Rebel JV, made up of six players, faced a full bench of Tigers

and fell behind in the first quarter, 20-16. By the half, the Rebs had come to life, ending with a 42-29 Rebel lead. Jack Brown posted 23 points to finish as high-point man for the JV. He was followed by Eric Waller with 16 points, and Jay Hancock with 15 points. Before the final buzzer, the Rebs had three players on the edge with four fouls each. A. J. Lee, Eric Waller, and Steven Thomas played a touch-menot fourth quarter in order to finish on the floor. All three boys did a fine job. Also scoring were Sedrick Cuellar - 1 point, A. J. Lee - 8 points, Steven Thomas - 8 points. Final 71-62.

Rebels 70- Clarksville Tigers 59

The Rivercrest Rebels upset the #12 state rated AAA Clarksville Tigers Monday night. The Rebels entered the game underdogs to the strong AAA team from Clarksville. A strong 1st quarter by the Rebels shocked Clarksville and the Red River County neighbor could not overcome the tough play of the Rebels. Eddie Williams was the big gun for the Rebels as he burned the nets for 11 first quarter points and finished the game with 27 points along with 10 rebounds, 5 assists and two blocked shots. Jerry Francis added tremendously to the Rebel cause with 20 big points and good floor play. Clay Pirtle had key three pointers for the Rebels as he came up with a total of 15 points. Mike McGee still recovering from the flu had 6 points and continues to show improvement each game. Elliot Pogue had a good floor game, key rebounds and assists to strengthen the Rebels overall. Andy Speir came up with a key defensive play as he drew the charge on the Clarksville

team. Coach Woods commented, ' We probably played our best offensive game of the year. Our defense was lacking, I thought. We did not block out well. We let Clarksville really hurt us inside rebounding. We also left Clarksville open for too many unguarded three point shots. We simply must get better on defense. We will have to work hard to improve our defense. On the positive side, I was glad to see Eddie Williams take control early. Eddie tried to go to the goal more and he really controlled the game for us early. Elliot Pogue and Mike McGee are really beginning to help our rebounding game. Clay Pirtle and Jerry Francis are shooting the ball well. Andy Speir and Jeremy Weatherall give us very good bench support. Jeff Savage, our freshman point guard really helps our team fit together. Jeff is leading the team in assists...

The next game for the Rebels will be at Honey Grove Friday Night in the district opener for both teams.

If It's Too Late Don't Vaccinate Heifers

polishing a well-worn bullet used in war against cattle brucellosis."Simply put," he tells cattle producers and veterinarians,"If it's too late, don't vaccinate."

"For years, in the battle against bruceellosis, we've urged ranchers to have female calves vaccinated to build disease rresestance. I still encourage this practice, cut I'm campaigning against vaccinating heifers that are too old or are already pregnant," emplained Dr. Beals. He is executive director of the Texas Animal Health Commission(TAHC), the state's livestock health regulatory Agency.

During fiscal year 1993, ranchers had about a third of Texas heifers vaccinated to protect them against brucellosis. This bacterial infection can cause cows to abort, deliver weak calves or produce less milk.

National and state livestock regulations allow female calves to receive the calfhood vaccinatin dise when they are four to 12 months old. Dr. Beals noted that, for best results, heifers should recieve the one-time injection when they are between four and eight months old. Because the Strain 19 vaccine contains"live" bacteria, its use is restricted to trianed veterianarians. In all but the few counties where the TAHC is conducting area or conty-wide brucellosis testing, ranchers pay for the vaccination.

When over-aged heifers are vaccinated, the Strain 19 vaccine unteracts unpredictably with the heifers immune system and reproductive system. This can wreak havoc when the animal matures and is tesed for brucellosis. Even with our computerized siphisticated, laborarory equipment, the cow can have false-positive blood test results" he said. Dr. Beals estiamtes that more than half the cows with the false positive brucellosis tests were vaccinated when they were pregnant or over 12 months.

When cattle test positive for brucellosi infection, we trace them back to their herd- and all the animals undergo a blood test. Usually we find

"He that heareth my word,

John 5:24b

and believeth on him that sent

me, hath everlasting life."

State veterinarian Terry Beals is that the herd isn't infected; the test results were due to vaccine given to over-aged or pregannt heifers. Even so, the rancher had to gather the cattle for the test." said Dr. Beals. "Properly timing the vaccies can save the

'Today 25 states don't require arriving heifers to be calfhood vaccinatd. This includes Kansas, New Mwxico, and Oklahoma-states where many Texas cattle are shipped. A few years ago, when Brucellosis infection was rampant, nearly every state required incoming female catt e to the vaccination. That resulted in many heifers being vaccinated haphazardly, tomeet the entry requirements," Beals

'Female caleves coming into Texas When they are four to twelve months old still are required to be vaccinated," explained Beals. "But TAHC commissioners recently dropped rules requiring incoming female cattle older thantwelve months to get thereduced adult doese of vaccine. This also wil help reduce the incidence of false-positive tests."

Texas has only 158 brucelleosisinfected herds, and we're nearly ready to join 17 other Class "A" states witha very low infection rate. Thirty-two states have no brucellosis infection. The chance of cattle being exposed to brucellosis has dropped greatly. The problems caused when over-aged heifers are vaccinated won't be offset bythe protection provided," he said. "A U.S. Depatment of Agriculture studyindicates only 60 to 130 of every 100,000 cattle may be exposed to

"If unvaccinated adult cows in a herd are threatened by brucellosis, we can target these animals with theuse of adult vaccination. This highly reduced dose for olde mals is administered only by TAHC or USDA veterinarians when there is a clear risk of disease exposure," explained Dr. Beals. "Product vaccince use and proper timing can prevent false-positive brucellosis tests. I urge producers and veterinarians to remember--if it's too late, don't vacci-

What kind of person is in prison in Texas today? He has a 6.8 grade education. 80% have a drug or alcohol problem. 96% are male. 4% are female. 6% have Aids.

Texas has the largest death row population in the free world. One out of every 17 males in Texas are under our criminal system today, either on probation or in jail or in prison. By the year 2000 it is estimated that 700,000 will be under the criminal system. Our state alone will account for more people under the criminal system than any democracy in the entire world.

The criminal has better access to the vast array of social services available today than does the general population. The entire system is unfair to the law abiding citizen. But we will continue to pay a high price until we can somehow change the moral and social decay of our society as we know it. Respect for our parents, our teachers, and our laws must

become a party of every family unit again this country.

Blood Drive

The Texas Department of Human Services in Paris and Stewart Regional Blood Center will have a blood drive Monday, January 24 from 10 a.m. until noon at 4315 Bonham Street and from 1:30 to 3:30 at 400 W.

Sherman in Paris.

Any health person 17 or older may donate blood. Each donor will receive a free chohlesterol screen. The drive is open to the public.

Bogata Lions See **New Equipoment** The Bogata Lions Club met at the

Community Center on January 6, 1994 with 24 members present.

President, John Ragsdill, called the meeting to order at 7:00p.m. David Rozell led the Pledge to the

Flag and Rev. B.G.Bowden gave the opening prayer. A meal of BBQ, Beans, coleslaw and cake was prepared by Mildred Eudy, Bill White, and Miriam and

A.D. Stephenson. Charles Don Lewis and Brian Williams, representing the Bogata Volunteer Fire Department, displayed new fire fighting equipment recently purchased to upgrade the department. This equipment was purchased with funds given them by the City of

Bogata. Those of us who reside out-

side the city limits of Bogata need to remember how valuable this Fire Department is to us. They are presently trying to raise funds to further improve their equipment so a generous donation made now would be appreciated. Donations can be made at the bank in Bogata.

Mary Colflesh gave a report on young trees to be planted in Thomas

Dr. Robert White gave a report of the success of the Flag Program of 1993 and a discussion was held on how to enhance the Program for '94. The Lions would like to thank all who participated in the '93 program and would like to see the number of flags displayed double for 1994. These flags show a patriotic spirit and pride in our community.

The meeting adjourned at 8:30 p.m.
