She's beautiful, with long, red hair. She's also hungry, has a family of nine, and she has no place to go. The fate that awaits her and her babies may well be as kind a fate as she can have....death. "She" is a dog, not one of the human homeless, but abandoned, miserable and confused since the people she trusted left her to face life alone. Her fate will most probably be extermination at a shelter, like thousands of other ani-

Every so often I get terribly upset about this situation and write begging people not to dump their unwanted cats and dogs. I maintain that being put to death is preferable to starvation, and it is.

But, I don't think I've stressed what would really fix the problem....neutering.

Yes, having a cat or dog "fixed" does cost money A male cat is about \$30, a female about \$45. A medium rized dog is \$52 for a male and \$72 for female. Lots of money, right? Yes and no. Puppies and kittens cost money too. Feeding them is quite expensive. I guess it's a little easier on the pocketbook than neutering because dog food can be bought a week at a time, but in the long run people spend more on food than on neutering. And, the problem of unwanted puppies and kittens is avoided with neu-

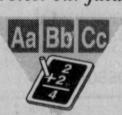

Puppies and kittens are adorable, but sadly only a few will ever reach their first year because of illnesses that prey on the young, cars and the many other dangers that fill a small animal's

Out of a litter of five kittens only about one every makes that first birthday! The odds for a puppy aren't much higher.And those that do survive all too often are doomed to repeat the cycle of multiplication, endlessly overpopulating this world with unwanted pets!

But, if owners would neuter their pet or pets the population wouldn't be so overwhelming and the demand could more nearly meet the supply. As it is now the supplies are virtually endless and the demand for pets just cannot begin to cope with the overstock.

Please, if there is any way possible, have your dog or cat neutered, not only will you help in reducing the numbers of unwanted cats and dogs in this world, but you may find they make much more loving pets too! It is the responsible thing to do.

Others report on telemarketing problems

After my column last week about being careful about telemarketing ploys which sign people up for things they don't want, I received several calls from others who have had problems. One was from a woman who had voice mail dating services connected through her phone number by a relative who wasn't at her phone's location. This service amounted to over \$300 and although she has managed to get the service cancelled she is having a hard time getting the \$300 removed. She said that she was using the addresses listed below and hoped they could help her.

Please, be careful when talking with telemarketing representatives. There are simply hundreds of "scams" going on right now in addition to the legitimate offers.

Country Cooking

By Liz Irwin

I came across these recipes from some youngsters, ages 3-5 years old and decided to dedicate this week's column to the "little people". With school starting the first of next week, we say goodbye to summer and hello to school supplies, new jeans and "taking-out-a-loan-at-thebank-for-new-tennis shoes" weather. It is a trip to Wally-World, to fight the aisles and check out lines, making sure you have the "coolest" new folders and pens to start the year! Knowing, when you get home you forgot something and realized that you bought "college rule" paper and not the normal, every day kind! Yes, the teacher said you could have markers....but, the washable kind! Gee Mom! How could you buy me a regular three ring binder, when you

know I need the really cool one, that has a "calculator, celi phone, coke dispensing, free beeper installed. environmentally-safe, and certainly recycled from old rubber tires" kind!

These recipes remind me of how truly innocent little kids are. They are just being brought up in a "toofast" paced world, and are trying to with commercialazation"(you think that is a real word!). But, these recipe use all of the basic ingredients; like budder, orange stuff, yellow stuff, sauce stuff, more budder and little time and effort! Very simple, very basic, so kick back afte a shopping trip to the store and get something cool to drink and we will see you in the kitchen!
