You don't even have to stir. Just add water and stir? Well, after the recent 8-10 inches of rain this thirsty area has received, even stirring hasn't been necessary.

It has been an amazing proof of the resiliency of nature. Within three or four days grass has turned the emerald green of spring.

Wilted, dusty leaves are fresh and verdant.

It seems absolutely unbelievable that anything has grown so fast!

People who have had to struggle to see where to mow (or haven't mowed at all) have busily been getting everything all neat and trim again.

It is fascinating to watch cattle and wild animals. They are so much more relaxed and contented. They stroll around, nibbling at new grass shoots, relaxing in the shade.

I swear that every turtle in the entire area has decided to take a stroll! What I would really like to know is how the turtles that lived in my front pool, which went dry some months ago, knew it was filled up and that they could return. The day after the rain I counted six of them heading from three different directions to the just-filled pool!

And what of humans? Well, I think we are doing pretty well too. We are enjoying cooler nights, and watching the grass grow, and seeing our threat of water shortage decline. It seems to have made us all feel better, less cranky.

But, I must disagree with a man (not from here) who told a client "this is the rain that will save us all". That is pure ignorance speaking.

As grateful as we all are for the rain, it certainly doesn't "save us all" as far as this year's crops are concerned. Soy beans were a disaster, milo wasn't any better, cotton was pitiful and there is no use even talking about the hay crop. Cattlemen have already had to thin their herds, prices are low, and there will be many problems throughout the winter with hay quality or shortages.

There are mighty oak trees that are already dead, shrubs and plants that will never come back.

This rain saved us from severe water shortages...and that is a blessing beyond belief, but it did not, financially, "save us all"!

Still, it's just a joy to see the grass grow and the green glow.

Bogata Homecoming plans already underway

By Frances Mayes Rozell

Do you realize that it's been five months since we were together at the Bogata Homecoming? Wasn't it a wonderful evening with such good visiting? The class of 1962 did a bang-up job as hosts. Start making your plans now to attend Homecoming 1999 the second Saturday in April. The class of 1957 will be the hosts with lots of help from others.

I wrote to Troy Hanna of Pagosa Springs, Colorado in 1997, when we were working on the homecoming, to get his permission to use his work. Troy is the nephew of Troy Howerton and like his Uncle Troy, he too is a mechanic. He is married and has one son, nine years old, and a daughter, six years old. He said Pagosa Springs is about the size of Bogata. The class of 1957 was busy getting a history of Bogata Schools done for the homecoming, and we just accidentally let Troy's letter slip aside. I want to share it with you now as we start remembering Bogata School Days

and looking forward to our next homecoming.

I was substitute teacher (fifth grade I think). Troy Hanna was one of the students. I had used all the tricks that I knew to keep the class busy. I asked them to get pencil and paper and write me a note that I might take home with me to remember them and our day together. I have enjoyed their notes over and over again.

This is Troy's note:
My name is Troy Hanna. I live in Cuthand, Texas. I have all kinds of animals but not pigs. I have cats, dogs, chickens, and goats but no pigs. I once had two pigs but not now. I also have rabbits and cows and calves, but not pigs.

Your friend,
Troy Hanna
And Yes, Troy said he still loves pigs.

We invite you to share with us a memory you might have of Bogata Schools as we start planning for Homecoming 1999.

Amount wrong in city council story

I must extend my apologies to the City of Bogata and the readers of this paper. In the City Council story last week I reported that the council voted to put \$156,000 in a fire department fund. The correct amount was \$15,000. It was a typographical error.

1. WHAT IS PRO-LIX Pro-Lix is a liquid, molasses based feed supplement that contains the **protein, energy, vitamins and minerals** that pasture grass and forage can't always provide. Pro-Lix products are homogeneous, uniform mixtures that maintain stability and feature long shelf life. They're an **affordable, convenient** way to make sure your cattle's nutritional requirements are met.

2. HOW DOES IT WORK? Each Pro-Lix formula contains **protein, phosphorus, potassium,** necessary vitamins, and many more nutrients essential to animal nutrition. The key, though, is **palatability.** Cattle are attracted to the molasses in Pro-Lix, so they'll come back to it throughout the day - enough to satisfy their needs, but not enough to overeat. As long as proper feeding and management practices are followed, overeating is unlikely to occur. The ingredients in Pro-Lix have a number of important nutritional benefits. By stimulating microorganisms in the rumen, they boost appetite and feed intake.

Letters To The Editor

To the Editor:

The disagreement over funding for our city police force has really surprised me. I can't understand why any law abiding citizen wouldn't be thrilled about the possibility of providing 24 hour police services. A review of the newspapers for the past few years should be all it takes to let everybody know we need a police force. And since it takes five people to have 7 day 24 hour coverage then, by all means, let's do it. As the administrator of the nursing home, I am 100% for the 24 hour coverage. We hire mostly women and we need close surveillance by law enforcement due to our location and the nature of our business. Also twice within the last few weeks I've had to call our police department to deal with drunk strangers in my neighborhood. So, please folks, even if you don't want or need the police department, remember that others do.

Respectfully yours,
Bobbie Cawley

Dear Citizens of Bogata.

If the police came to your house in an old car, what would you think? They need a newer car.

If an ambulance came to your house to pick up a loved one in an old ambulance, what would you think? They're not going in that thing!! Get a new one.

If a Fire Department came to put out a fire in an old truck, what would you think? Oh well, I hope it can run long enough to put out the fire.

This letter is asking for your support for the Fire Department. In the paper last week you noticed that the City Council is asking that a volunteer \$2.00 donation be made to go

towards the purchase of a new fire truck. The fire truck in question is the city owned fire truck. It is an 1977 pumper. The truck is over 20 years old. What this means is if the city does not get a newer truck in the next year or two your home owner's insurance rate will be going up. The key rate system the insurance companies use is based on the equipment the fire departments have. The age of the truck has a lot to do with the key rate. With the truck being over 20 years old already, we have about two years left before the key rate will go up. We also have a 1969 pumper that the fire department owns. This truck is the truck we take out of the city limits to fight house fires. The 1977 truck stays within the city limits, it does not leave the city and neither will the new truck if we get one.

The fire department is only as good as the community it serves, and we think we serve a great community. That is why we are asking for your help. Together we can make this city even greater. So please give the extra \$2.00 or more if you can. In the long run it will save you money. The men and women serving on The Bogata Volunteer Fire and Rescue Department give of their time. There are many times that these guys and gals would like to stay at home with their families but when the pagers go off, they leave their families or supper or work to protect you and to help save your property. It might be raining, snowing, sleeting or even very hot, but they still go give of their time free of charge.

Sincerely yours,
The Bogata Volunteer Fire and Rescue Department

Dear Editor:

I traveled through your town Friday, September 18 around 2:30 p.m. on my way to Clarksville by way of Highway 37 North. I was just riding along when I approached a pickup

pulling what looked to be a home made trailer made of wire cages with an upper and lower compartment. It was leaning slightly backwards. As I got closer, I realized there were animals in the trailer. Then, to my surprise I realized the animals were dogs. I was horrified and wondered where this man was taking them. I was so upset I didn't count all of them, but did see at least 6, large ones in the bottom and small ones on top. Suddenly, the top compartment door flew open and the dogs inside had to sit back on their bottom's and push with their front legs to keep from falling out! I immediately started blowing my horn and waving the truck over. When I pulled up beside it I saw the City of Bogata logo and realized that the rumor I had heard about animals being transported to Clarksville to be put down was true! I was sickened. I shouted and told the man driving that his cage doors were open. I drove on and I watched him in my rear view mirror pulling over to the roadside. I felt bad at knowing the truth, but glad the dogs were OK for now. Today, I found out that 5 of those animals were put down Monday.

It makes me sick to know that people would rather transport animals to their deaths than to spay or neuter them to keep these situations from taking place. The City of Bogata could be a lot more subtle about the way they transport these animals, like an animal control truck instead of a make-shift trailer where the animals have to stand on a wire floor, leaning backwards so if the doors open they fall out.

I really am glad that I ran upon this sight, because it made me feel again the reason for which I am a member of the HUMANE SOCIETY. "Compassion". There are better ways to address this problem. I wish the city would consider other alternatives. The humane society could try and adopt them out. 72 hours is a death sentence for sure, especially when transported on Friday with no chance for adoption.

We, the officers and members of the Rivercrest Athletic Booster Club, would like to take this opportunity to express our profound appreciation and gratitude to area businesses and community members for their continued support shown to us this year.

Response to our T-shirt sale this year has been absolutely overwhelming. We sold 500 T-shirts, more than ever before, and this was due to the continued support we have received from the communities.

Aside from the fact that our T-shirt sale is usually our biggest fund-raiser of the year, it is also a wonderful way for us, as community members, parents and business owners to show support for OUR team and OUR schools by wearing our shirts on game days. It is absolutely awesome to look up in the stands at games and see so many people wearing our T-shirts. Just imagine how it looks to the teams we play when so many of our fans show this kind of unity and team support.

We would also like to thank the following businesses who purchased ads on the cushions we are selling this year: Guaranty Bank Bogata, Guaranty Bank Talco, Care 1st Inc., Transformations, Industrial Tarp, Hometown Home Health Services, Red River Haven, Johntown Sheet Metal, 909 Diner, Masterpieces, Talco Food Mart, Bogata True Value, Deming Electric, TNT, Tip Top Cleaners and Laundry and Johntown Pump & Supply Company, Inc. A special thank you goes to the Talco Times and Bogata News for their advertising and special event stories.

The funds derived from the T-shirt sales, cushion sales and other fundraisers that are done throughout the year enable the club to continue providing scholarships to the Rivercrest

The addax, an antelope that lives in the deserts of North Africa and stands just 3 1/2 feet at the shoulder, grows horns up to 4 feet long!

High School seniors. This past year the club was able to provide 6, \$500.00 scholarships, three to senior girls and three to senior boys. Without the communities help this would not be possible and the club wants everyone to know they are appreciated.

Sincerely,
The Rivercrest Athletic Booster Club
Kay Ross, President
