By Nanalee Nichols
Be careful what you wish for...you might get it

In the course of taking physical therapy three times a week I've met many people. As we work, sweat and moan at our exercises we talk back and forth. It helps to pass the time.

There is a young man, probably just into his thirties, who is there hour after hour, day after day. It is painfully evident that he hurts and that it is taking all he has to force his legs to do the tasks he sets for them.

He can barely manage to walk with the aid of a cane when not in the therapy pools.

I had wondered just what had happened to someone his age that would cripple him so badly.

Here is the story, and it is one we should pay attention to, I believe.

He and a relative had a construction business. They were driven...pushed, obsessed with keeping up with their work load and making as much money as possible.

They found themselves literally working 18 hours a day, six and seven days a week.

After three or four hours of sleep they would force themselves up and back on the job.

One night, he lay down, exhausted, and asked that he be shown the way to slow down. He just felt he couldn't go on.

But, like many of us, he couldn't see his way out of the circle of work he was enmeshed in.

Within days his relation fell asleep at the wheel of their truck, ran off the road and this man's back was broken.

He slowed down. Not the way he intended too, of course.

He has regained arm strength, and can walk. Now he struggles valiantly to get as much strength in his legs as possible.

Is he bitter? No. I believe he sees the world in a better light than before.

I've spent a lot of time this past weekend thinking about the old adage of "be careful what you wish for, you might get it". It shouldn't take a major accident or life change to make us sit up and take notice when our lives seem to money-obsessed, too busy, too empty or too hectic! I hope we can all remember that. This man's example certainly made me sit up and take notice, and I felt the need to share it with you, too. Perhaps we can all benefit from some else's example.

Local help needed for baseball/softball reports

It is baseball/softball season once again and the Talco Times, Bogata News, Deport Times, Detroit Weekly and Blossom Times would love to write every game up. But, due to the number of games in the various towns it is impossible to cover them all.

Any coach or parent who will report scores, pitchers, hitters, players who scored or great catches made from T-Ball age to Pony League and Dixie Debs age would be appreciated.

We will write up as many games as the reporters can attend but you could really help us get each team recognized.

Get down your information and drop it off at the Bogata News office, the Deport office, the Talco School, Detroit School, Blossom School, fax it in to 903-652-6041 or call to make arrangements to have it picked up. Your help will be appreciated.

GO LOW **GET LOW**

SIMPLE MESSAGES...

A good tornado safety rule of thumb is simple, go low, get low. That means go to the lowest level of the structure you are in, crouch in a low position, cover and protect your head.

This applies whether people are indoors or outdoors.

In schools, follow advance plans to a designated shelter area, usually an interior hallway on the lowest floor. If you are in a manufactured or portable building, go to a nearby building that is reinforced or take cover outside on low, protected ground. Stay out of auditoriums, gymnasiums and other structures with wide, free span roofs.

The PiPs would like to give a big "thank you" to our sponsors. When Festival time rolled around this year, our funds were very low. In fact, we did not have enough money to pay our kid's entry fees, much less buy the gifts we are required to donate at Fun Night. When asked, the DePort PTO came through for us. They were more than generous! Also helping us in a big way was Double N Construction, Allen's Food Mart, Donald Day and Sons Metal Construction, Darden-Sparks and Guaranty Bank of Deport.

Our community is blessed with a super bunch of kids. They needed your help and you gladly gave it. Your donations made the Festival not only possible, but a huge success for our kids!

Thank you again.

Card Of Thanks

We would like to thank everyone in person who helped us during the loss of our home, but that would be impossible. We don't even know some of you who helped. We are very grateful for the support and help from all the good people and churches. We'd especially like to thank the ladies who organized the home shower for us. It truly is wonderful to live in a good caring community.

God Bless you all,
The Littrell family

Card Of Thanks

Thanks to the family and friends who visited, called or sent cards while I was in the hospital. Special thanks to our sons-in-law, Mark Eudy and Bob Belzung, who are taking care of my cows while I am recovering from surgery.

Thank You

The Detroit Volunteer Fire Department would like to take this opportunity to thank everyone for attending our fundraiser on April 10th. It was a great success and we owe it to our community for their support. The next one will be in June and hope to see you there!

Country Cooking

By Liz Irwin

Our column this week deals with what a lot of folks in this area enjoy quite a bit. They like them in salads, main dishes, soup, stews and many other ways of preparation. They are delicate shellfish related to crabs and lobsters. . . SHRIMP! Shrimp are a popular food and make up the most valuable catch in the United States fishing crews.

They can be found in fresh and salt water in nearly all parts of the world. Some species live near the shore, where they hide in mud or sand by day and feed at night. Others will about in groups in deep, cold water. They generally swim forward, but can swim backward by flipping their fan-shaped tail.

Most shrimp have gray, brown, white or pink bodies. But some are red, yellow, green or blue and some such as the peppermint shrimp, have stripes. Some can change color to match their surroundings. Many species are luminescent or light producing.

The United States leads the world in shrimp production. Alaska, Florida, Louisiana and Texas rank as the leading shrimp-producing states. Other countries with large shrimp catches include China, India, Indonesia, Malaysia, Mexico and Thai-

land. About half of the world's catch comes from Asia.

People in Japan sometimes raise shrimp in large tanks and ponds. Such Shrimp "farming" has been attempted in the United States, but has not been profitable.

As I stated above there are many different ways to serve this small delicacy and we have listed several you might enjoy this week. Hope you do and we will see you in the kitchen!

Shrimp and Oyster Jambalaya comes to us from our neighbors in Louisiana. A combination of vegetables along with the shrimp and served on a bed of rice can indeed be a dish fit for a king!

Shrimp Chowder used shrimp and potatoes, milk and cheese for a sumptuous meal all by it's self.

Stuffed Tomatoes with Shrimp now that the tomatoes season is upon us in this area, this would be a perfect dish to compliment them.

Shrimp Gumbo-Once again our neighbors to the east of us have given us a special recipe of gumbo.

Shrimp Dip-this is great to make for a party or just for a snack!

Shrimp Wiggle-another recipe for a super snack made in individual cups or baking dishes.

Red River County Roots

This week's query is from Audrey E. Watkins, 46530 244th Avenue S.E., Enumclaw, WA. 98022. She is searching for information on decedents of William Joseph "Joe" Farmer (b. 1855 TN.), who married Susan Florence Boling in 1898 in Red River County. Susan was born 1872 in Nashville, AR, the daughter of John N. and Mary E. Farlis Boling. Joseph and Susan had twin girls: Carrie and Callie Farmer, born Dec 12, 1899 in Clarksville. Joseph and Susan had each been previously married. Joseph's children by his first wife, Mary Soard?, were Lola (b. 1880 AR and raised by a Franks family), George Henry (b. April 1884 AR), Alberta "Bertie" (may have moved to Red River County), Bertha (allegedly raised by a Smith family), John, Jim (born 1895). Susan Florence Boling was first married to Williams Roberts in 1887 Red River County, but they had no children. By her second marriage to Mr. Ferguson, she had two sons. Her third marriage was to Mr. Farmer and after his death, she married Sidney E. Lee Burton in ANtlers, OK, by whom she had one son.

If you would like to write Mrs. Watkins, please write him at the above address.

If you have a query you would like to have placed in this column, please send it to the Red River County Genealogical Society, P.O. Box 516, Clarksville, Texas 75426

1 teaspoon garlic salt
1/2 teaspoon dill weed-optional

Blend milk and cheese until creamy. Stir in shrimp, lemon juice, Worcestershire, garlic salt and dill weed. Cover and chill about one hour.

Shrimp Wiggle
1/2 stick butter
3 tablespoons flour
1-1/2 cups milk
1/2 cup catsup
2 teaspoon minced parsley
3/4 cup finely chopped celery
1 teaspoon Worcestershire shrimp to taste salt to taste

Make a smooth white sauce with butter, flour and milk and salt to taste. Add catsup, parsley, celery, Worcestershire sauce and then lots of shrimp that have been boiled. Place in individual baking cups on a flat pan because little cups are hard to handle in the oven. Bake at 350 degrees for 20-25 minutes. Before the last few minutes of baking, sprinkle with finely ground bread crumbs and a dab of butter on top-let brown.

McCuiston to host 17th Annual health Fair

Healthcare workers and community service organizations come together Saturday, May 1, at the Hunt Center at Paris Junior College for the 17th Annual McCuiston Community Health Fair. Over 30 booths offering free screening, information, and educational resources are expected to fill the facility. According to Pam Maroney, R.N., McCuiston's Coordinator of Education, "The Health Fair serves as a reference point for a variety of testing including cholesterol, oral cancer, high and low blood sugar, blood pressure and vision screens. These screens in no way take the place of your regular check-up with your personal physician but serves as a 'red flag' to note the need for further evaluation or testing."

For members of the McCuiston 55 Primitime and the Women's Health Resource Center's Just Us Girls programs, doors open at 9 a.m. For the general public, the doors will be open from 10 a.m. to 2 p.m. Hospital sponsored booths scheduled to take part are: audiology (free hearing testing), speech pathology, cardiology services managed care, home health, laboratory, nursing services, R.A.C.E. For Life Center, Women's Health Resource Center, pharmacy, social services pastoral care and physical therapy. Members of the McCuiston Medical Staff will

be on hand to answer any questions on screen results. There is a strong supporting cast of community services taking part this year, "Said Derald Bulls, McCuiston Community Relations Director and event coordinator. Taking part are: American Red Cross, Paris Eye Physicians, Lamar County Head Start, Adult Protective Services, Children's Advocacy Center, Texas Department of Transportation, WIC, Lamar County Health Department, Southwest Transplant Alliance, Paris-Lamar County EMS, Family Foot Care and Paris Police Department.

"The success of this and all previous health fairs is greatly attributed to the employees of our hospital," Bulls stressed. "The Health Fair underscores the commitment to improve the health of the communities we serve". On the average, one out of every five employees will give a portion of their Saturday to assist with the event. A special exhibit at the health fair will be from the Auto Prevention Division of the Paris Police Department. Officers will be on hand to etch vehicle identification numbers on car windows to assist in locating a vehicle should it become stolen or salvaged. Officers will also make available the H.E.A.T. stickers for cars and trucks. The sticker gives law enforcement anywhere the authority to stop the vehicle if seen out after 1 a.m.

Propane is the dream alternative to electricity because it can warm your house more efficiently. And propane can cook your meals, dry your clothes, and heat your pool. And it can do all those things cheaper than electricity can. So you can stop dreaming, and put your money where your house is.

FOOT NOTES

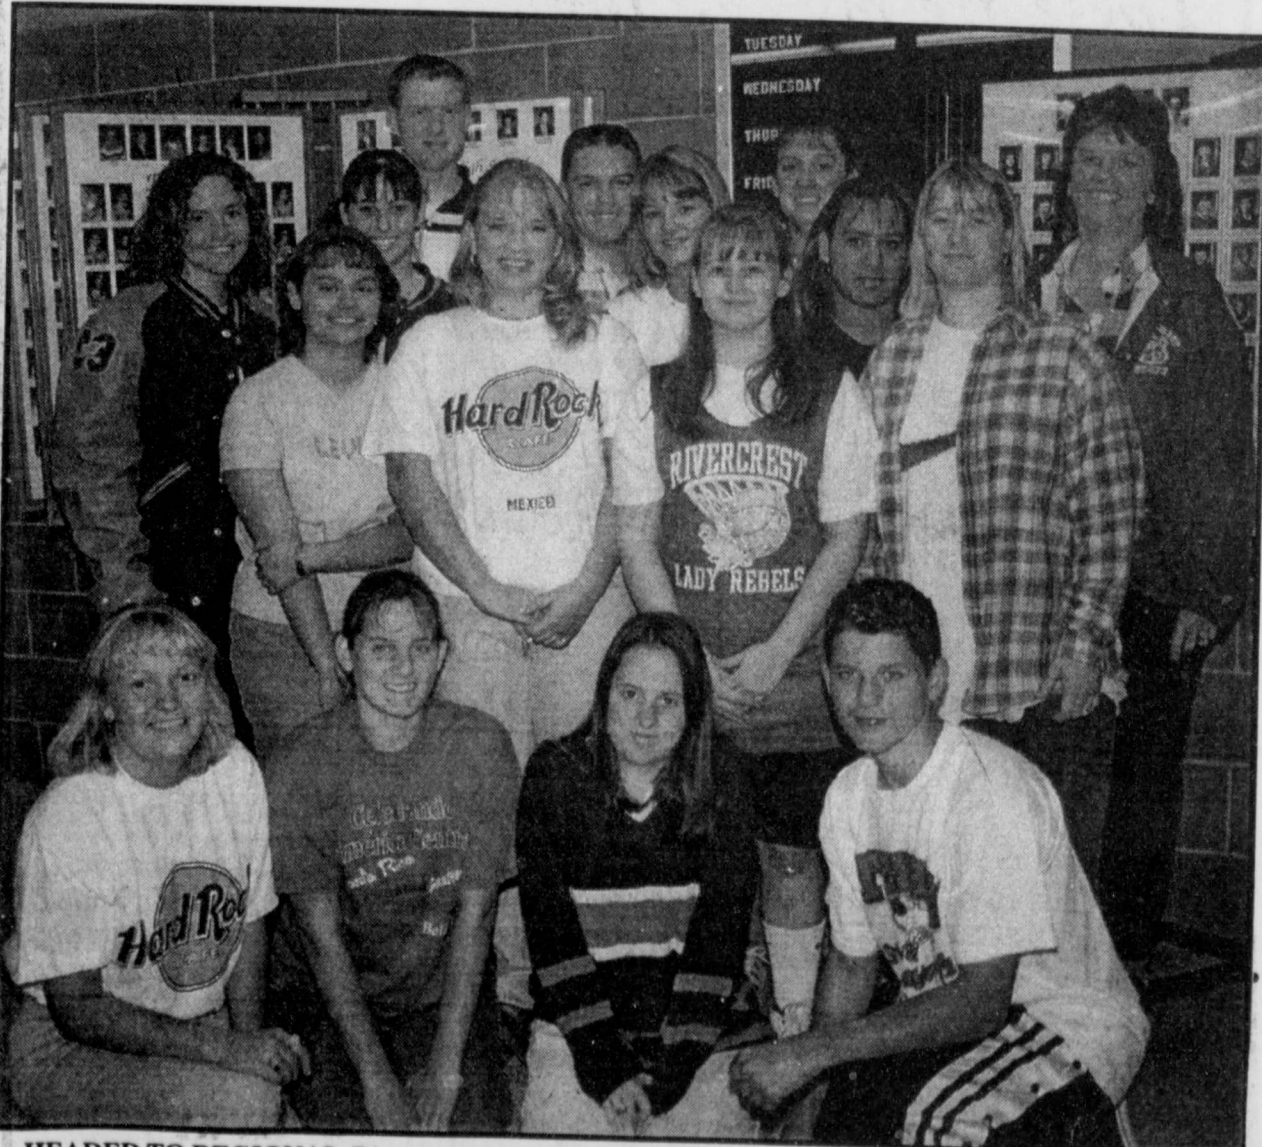

PEDIATRIC GROWTH PLATE INJURY

Growth plates are structures at the ends of children's bones that allow them to grow to adult size. Injury to one of these structures in a child's foot may mimic a sprain and may be misdiagnosed. Growth plate injuries may happen during athletics, a car accident, or even a simple fall. Untreated, a growth plate may partially close, leading to an angle deformity, or it may be stunted further growth in the bone entirely. X-rays taken to rule out a fracture may appear entirely normal. Pain, when pressure is applied directly to the growth plate areas, is the key to this injury's diagnosis. Depending on the severity of misalignment of the plate, proper treatment may range from immobilization to surgical intervention.

When you have a small child to care for, we believe one of the most important things we can provide you with is education. And taking care of the feet can't begin too early. If there seems to be a problem with your child's feet, we hope you'll consider giving us a call at **DOCTORS FOOT CLINI 784-5585**. We bring you these columns in the hopes of showing you how the many benefits of podiatric medicine can help keep you and the members of your family walking in comfort.

OFFICE LOCATED AT

P.S. Growth plates usually close up during adolescence, though there is a wide range in the age by which one normally attains full growth.

Attending are (from the left) Jeremy Jones-Science, Katie Hare-Mathematics and Calculator Applications, Cara Morgan-Headline writing, Andrea Palmer-Mathematics, Eric Aldridge-Science and Kirk King-Science. Rivercrest students receive special awards

Rivercrest High School students, Kembre Baker, Katie Hare and Andrea Palmer, all seniors, have been notified that their poems have been published in a hard-bound edition, along with winning poems submitted last year by eleventh graders throughout the United States, in Teacher's Selections: Anthology of Eleventh Grade Poetry.

Near the end of these young ladies junior year, Mrs. Barbara Russell's English III classes participated in a creative program for writing poetry. Rivercrest is proud to announce the publication of these three: Kembre Baker is the daughter of Mr. and Mrs. Tom Baker, Bogata; Katie Hare is the daughter of Mr. and Mrs. Mark Hare, Bogata and Andrea Palmer is the daughter of Kenneth Palmer and Karla Palmer, Bogata.

Mrs. Russell proudly presented a copy of the book to Rivercrest librarian, Margaret Fowler.

The girls poems were as follows:

A Thing Called Love
by Katie Hare
Love is a simple, small four-lettered word.
Sometimes its power is completely unheard.
Love is a thing that longs to be expressed.
The deepest of loves are always confessed.
Love is patient, understanding, gentle and kind.
A genuine felling like this is not easy to find.
In love is the place that we all want to be.
When you love someone you think of none other than he.
People in love cherish the times they are together.
Being in love makes the whole world seem better.
Love is a feeling not hard to

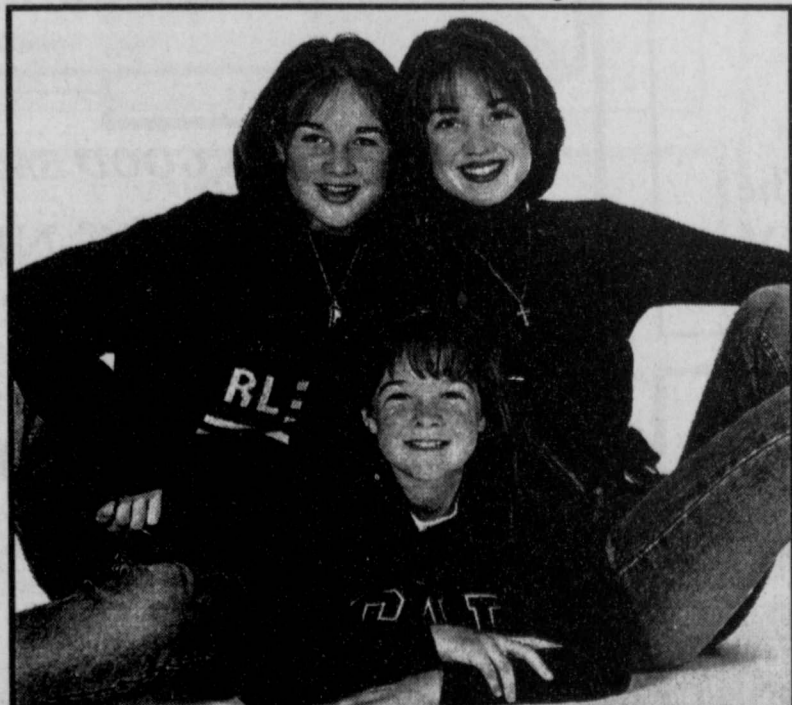

express.
You wait all of your life for a feeling like this,
A feeling that so many often do miss.
You will know the instant that you do fall in love,
It is like a beautiful star in the heavens above.
A love that is deep and strong is bound tightly for life,
Taking away all of the sorrow and strife.
You know in your heart that he is the one,
Your feelings for him are sincere and genuine.
Being in love is a wonderful thing,
As beautiful as when a robin does sing.
Love is not boastful, love is not proud,
It is something that we all should share aloud.
You feel safe and secure in the arms of your love.
You give thanks to the Lord in the sky up above.
Love is a feeling that you feel for forever,
A feeling as soft as that of a feather.
How can a little word say so much,
And touch as many lives as it does touch?
Whadaya Say, Whadaya Do?
by Kembre Baker
You want to know what family means
You'll never believe what I've seen
Yesterday your mom was alive
when you went to bed
But today she's pronounced dead.
Your dad, your sister and your brother, too
Whadaya say, whadaya do?
You're all alone
Except for your dog and maybe his bone

Where do you go, to live with whom?
Grandma and Grandpa you assume
You'll have to leave your friends and your home
You feel as though you've moved to Rome
You want to scream, run, and hide
Even though it would hurt your side
Now today is tomorrow
And what you have left is sorrow
You wish that you could change the past
But the very thought places last
You can feel your face turn blue
Yet you must remember God is with you.
Friends
by Andrea Palmer
A friend is someone who cares for you and will always be by your side
When you have a problem you cannot solve they will comfort you with pride
A friend knows all about you they know what all you've done
When the whole world turns against you they will not turn and run
A friend always knows what to say when you are feeling blue
And every hardship that you face they will see you through
For some very strange reason they also know what to say
To take the frown right off your face and brighten up your day
Without all of my friends I don't know where I'd be today
They have been with me through everything and cared in a tremendous way
Next time your are with your friends pay attention to all they do
Because there is probably someone in the world whose best friend could be you.

THE SABRE'-Rivercrest High School annual arrived last week and students have enjoyed the pictures and getting each others autographs. Displaying this year's book is Lyssa Stoner. (Staff Photo Nancy Brown)

McBride named as McCuistion Executive Director

Dick Amis, Chairman, McCuistion Regional Medical Center Board of Governors announced today that Mike McBride, Executive Director of Presbyterian Hospital in Kaufman, has been named the new Executive Director of McCuistion Regional Medical Center.

According to Bill Haire, Executive Vice President, Texas Health Resources, McBride will assume his new role effective June 1. Haire currently serves as the interim Executive Director at McCuistion during the transition.

"I'm very excited about the opportunity to serve as the Executive Director of McCuistion" McBride said "I look forward to becoming a part of the community and work as a mem-

ber of the McCuistion leadership team."

McBride has served as the Executive Director in Kaufman since June, 1995. During that time, he led a \$3,000,000 building expansion of the Emergency Department and a renovation of the Labor and Delivery Department. In 1998, a new physician office building was constructed and work has been done to expand services to include Cardiac Rehab and Perinatology Service. In Kaufman, he is very active in the community currently serving as a member of the board of directors of the Chamber of Commerce.

Amis said "Mike McBride brings a tremendous talent and energy to the hospital and community. He under-

stands the needs of a community hospital and will be aggressive in his role of directing McCuistion into the millennium."

Prior to Kaufman, McBride served as the Executive Director of Randolph County Medical Center, Pocahontas, Arkansas. A native of Waco, he is a graduate of Baylor University and earned his Masters of Science degree in Healthcare Administration from Trinity University, San Antonio.

"Mike brings a to McCuistion", said David Carpenter, MD., McCuistion Medical Staff Chief. "He has good experience as an Executive Director and has the enthusiasm to direct this medical center and I look forward to working with him."

McBride, his wife Lesli are the parents of four children.

Encore! to have song and dance review

Encore! Paris Junior College's award-winning show choir, will present its ninth annual song and dance review April 30 and May 1 and 2 in the PJC Theater for the Performing Arts.

The show, entitled, "Encore! Presents Broadway-Both Old and New", will begin at 7:30 p.m. for the Friday and Saturday performances. The Sunday afternoon matinee will begin at 2 p.m.

The popular show choir will perform selections from some of Broadway's most popular musicals, including the song and dance favorite, *Grease*. Encore! members will appear on stage in tuxedos and top hats to perform a number form *A Chorus Line*.

Encore! members have chosen selections such as "It's A Hard Knock Life" from *Annie* "Do You Hear The People Sing" from *Les Miserables*; "One Last Kiss" from *Bye Bye Birdie*; "Suddenly Seymour" from *Little Shop of Horrors* and "Memory" from *Cats*. Each segment contains special choreography, costuming and staging designed by Encore! members, according to Director Patricia Fowzer.

This show will culminate a successful year for Encore! which for the second year in a row received an award for Outstanding Entertainment following their performance at the State Fair of Texas last fall.

Tickets for the show are \$3 per person. PJC students are admitted free. Call (903) 782-0343 for reservations or additional information.
