how many of God's laws they themselves had broken, along with their leaders.
But it ended for the good of all concerned. A national reform was decided on, and agreement reached for everyone — politicians and average citizens alike... to obey all of God's laws thereafter. A happy celebration was begun, giving gifts and feasting, because everyone felt so glad that righteousness had again prevailed and God's laws were being enforced again.

Sounds simple, doesn't it? The answer is there.

Two Residents On Road To Recovery

Two of the nicest news items of the week in Haskell County concern the fact that Weldon Norman, Rule farmer and rancher, returned home from the Parkland Hospital Burn Center on Monday — and the fact that young Bill Longley came home the same day from Hendrick Hospital in Abilene.

Weldon was being treated for burns about the head and hands, and took therapy for a week at the burn center in Dallas. Burns were caused from a butane explosion.
Bill is recovering from head injuries received in a rodeo accident. He is at home with parents, Mr. and Mrs. Buford Cox, and will be required to stay in and about the house for the next two weeks, and will be granted more activity as recovery progresses.

Both families express their sincere thanks to everyone who helped and encouraged in any way.

Local Boys Are State Delegates

Four young men from Haskell County, Robert Gates Colbert, son of Dr. and Mrs. Robert Colbert; Keith Ronn Hannsz, son of Mr. and Mrs. James R. Hannsz; James Winter McCoy, son of Mr. and Mrs. Gerald McCoy; and James Clint Melton, son of Mrs. Bessie Melton; returned from Austin last week, after participating in the 33rd annual American Legion Boys State, sponsored by the Department of Texas, held on the campus of the University of Texas, the affair got underway June 6, as 800 high school boys from all parts of Texas and two from Mexico, registered.

Boys State delegates are sponsored by the American Legion, and each of the boys were sponsored by a civic club, organization or merchant. Haskell County Bar Association sponsored Robert Colbert; Haskell National Bank sponsored Keith Hannsz; Haskell Lions Club sponsored James McCoy; and

Haskell Rotary Club sponsored James Clint Melton.

Following registration, each citizen was assigned to one of two political parties—the Nationalist or Federalist. Each citizen then functioned as a member of his party, he attended its precinct, county and state conventions and voted in its primary.

Boys State helps to develop civic leadership and pride in American citizenship. This program arouses a keen interest in the detailed study of our government. These civic workshops stress the importance of maintaining our form of government and bring better understanding of our national traditions and beliefs to the more than 28,000 young men who are participating this year.

In Boys State, the American Legion provides the type of program where the young citizen has the opportunity to learn for himself that his government is just what he makes it. The boys "learn to do by doing."

The program takes an added significance since the vote has been extended to 18 year olds. Most boys are in the 16 to 17 age category.

Highlights of Boys State was a trip to the Capitol on Tuesday morning, June 12, where each elected Boys State official was given an opportunity to serve in his respective office for a day.

Boys State enrollment this year brings the total to 17,479 junior high school boys who have attended since 1940, when Boys State was first inaugurated in Texas.

REVIVAL SET

Pinkerton Baptist Church will be in a weekend Revival beginning Thursday night, June 28 at 8:00 p. m., and will continue through Sunday with Bro. T. O. Upshaw bringing the messages, according to the pastor, Richard M. Babb.
Everyone is invited to attend.

BC Will Honor 2 Here Sunday

First Baptist Church of Haskell will proudly honor two men, who have done much in the field of religious education and service in their lifetime, in the morning and the evening services June 24—this Sunday.

Both were born and reared here in Haskell, finished public school here, and were members of First Baptist Church.

May Belle Taylor entered the Missions field when she left Haskell some 35 years ago for Brazil. Her work included 17 years in Recife, Brazil, as vice-

director and director of Simine of Christian Education for girls. She also served nine years as director of a Baptist school, and the last seven years, she devoted herself to founding the Friendship Center, which offered Bible classes as well as clinical facilities.

When she announced her retirement, the people of Brazil honored her in many ways, including being named an honorary citizen of Brazil by the State Legislature. She was the first North American ever to receive this honor. She was crowned "Miss Americas" at the last program of the North Baptist Brazilian Mission, and was honored in many other ways.

Robert Barnett graduated from Howard Payne College and the Southwestern Baptist Seminary of Fort Worth, before enlisting in the Army in '42 and being commissioned a lieutenant in the Chaplaincy. While attending the seminary he pastored churches in Haskell county including Pinkerton Baptist and Roberts Baptist. In the Army he served more than 10 years in Europe and the Far East. He retired a full Colonel in 1970, and during those years received numerous citations plus receiving the Bronze Medal and three Army Commendation Medals.

Having been appointed for the Charisney by the Home Mission Board of the Southern Baptist Convention, he, with his wife, became the foremost missionaries, not only at home, but in every place they served in foreign lands.
Chaplain and Mrs. Barnett,

the former Alma Carlton of Tappahonok, Va., have four daughters, Lee, they adopted in Berlin, Bobbie and Marguerite they adopted in Japan, and Doye Faith was born to them in 1958. Chaplain Barnett is now working with Billy Graham Evangelistic Films, in San Antonio, and his family's church membership is with Castle Hills Baptist Church there.

All friends of these two dedicated people are cordially invited to attend either the morning or evening—or both—services at First Baptist Church on Sunday, and be guests of the church for dinner immediately following the morning service, in the church dining room. All members are asked to bring lunch for their families, and for a guest.

Extra Allowance For Disabled Vets

A \$150 clothing allowance will automatically go this year to service disabled veterans who have qualified previously for the annual payment, according to Jack Coker, Waco Veterans Administration Regional Director.

Coker pointed out these are veterans whose clothing is subject to extra wear and tear from artificial limbs and other prostheses.

About 46,000 service disabled veterans have already received \$6.9 million under the law authorizing the \$150 allowance which became effective last August 1.

Coker noted application forms were mailed to 60,000 potentially eligible veterans shortly after Public Law 92-328 was enacted in June last year.

The allowances are in addition to monthly VA compensation payments to veterans who have service-connected disabilities.

Once a permanently disabled veteran is approved, the allowance will be paid automatically each year thereafter.

Where the condition requiring use of the prosthesis is not of a permanent nature, however, subsequent payments are subject to reestablishment of the veteran's eligibility.

Eligible military retirees must apply for the allowance each year also, but they do not have to waive any of their retirement pay to qualify.

Coker urged eligible veterans who may not have received application forms to contact the nearest VA office if they are interested in receiving the allowance.

The farmers in the community are still busy. Most of them have finished their wheat and oat crop gathering. Most of them have plowed over the cotton that is up, but still some were not able to get in their fields last week, since north of Sagerton it rained about an inch and a half again last week. However, in other parts they could use some rain. In other words, the showers have been scattered.

The Faith Lutheran congregation is looking forward to next Sunday, June 24, when they will celebrate their fifth anniversary as one congregation when St. Paul Lutheran and Zion Lutheran joined to become Faith Lutheran. The date will be marked by a picnic at the Clancey Lehrmann pasture, with services at 11:00 a. m. with Communion. Following there will be a basket lunch spread and afterwards the day

will be finished out with games for young and old. Mr. and Mrs. Leslie Cobb of Midland visited with Mrs. John Clark over the weekend. Mr. Cobb went up to Vernon to visit with his mother, and then on Sunday Mr. and Mrs. Cobb, Mrs. John Clark, Mrs. Emma Raphael of Stamford, Mr. and Mrs. Ray Clark of Rochester, and Mr. and Mrs. Don Bivens and family were all guests in the home of Mr. and Mrs. Joe Clark for lunch.

Next week, June 25 through June 29, the United Methodist Churches of Rule and Sagerton will have their Bible School at the Community Center here from 9:00 till 11:00 each morning. All children in the community are welcome from kindergarten through the youth.

Monday, June 25 and June 26, the L.O.C. Home Demonstration Club is sponsoring a furniture refinishing workshop at the Community Center with

Mrs. Barbara Elliott, Haskell County Extension Agent, in charge. The classes will be in the afternoons beginning at 2:00. Anyone in the community who is interested, is welcome. Contact one of the L.O.C. members for details.

Several of the L.O.C. Home Demonstration members and their husbands will join other members in the County for the Albany Fandangle next Thursday evening. A section has been reserved for the group, and this will be the Educational tour for the year.

Mr. and Mrs. Pat Sellers have gone back to Houston this week for more treatments at M. D. Anderson Clinic there. We are happy to report that Mrs. John Clark now has the cast off her arm and should be back to normal again.

CITIZENS . . .

Continued from Page 1, Sec. 1
way through your efforts to gain public opinion across the state. We do have a few common ideas that might reflect a few of the feelings of our area. In the area of the executive; we feel that the governor's powers are usurped by being limited to a 2 year term. He no sooner gets comfortable in the governor's seat than he has to begin campaigning. We feel this also tends to make the governor more vulnerable to the lobby. In the same light we feel the governor's powers should be expanded by granting some appointive power.

In the areas of the legislative powers; we feel that the legislator's salaries should be increased, but that the power to increase should somehow remain with the people. In view of past increase rejections, an educational campaign of sorts might be in order for citizens benefit, that they might realize the many advantages legislators have in their office expenses. Perhaps this expense should be reduced or eliminated and funnel some or all of this money into salaries. We feel special attention should be given to the length of sessions, personally feeling they are long enough. However, some action is needed to halt the flurry of last minute bill passing that has led to much needless and foolhardy legislation.

In the area of the judicial branch, we feel care should be taken to streamline our court systems to carry out the guarantee of a fair and speedy trial and to prevent hardened criminals being harbored in county jails due to drawn-out process of law. In the controversial area of selection of judges, we feel some credit may be due what we understand in the merit selection of judges, but caution must be exerted to what level this would apply. The smaller courts such as the county and justice of the peace would best be left to public election.

In the area of local govern-

ment, we feel county commissioners should be elected at large from the county due to the complexity of their job in recent times. Good business managers are needed and are often hard to find within certain precincts of some counties. In the area of finance and taxation, we ask the commission to give special consideration to the tax exemption given to farmers and ranchers on raw agricultural products and farm machinery. This provision has served a majority of the state well in past history and should this provision be removed, it would inflict an unjust and discriminatory tax on a certain segment of the citizenry in production of food and fiber that could not be passed on as other taxes and in other areas of production. Again, we thank you for your efforts and for the opportunity to present our views.

Christian Society Hosts Salad Supper

The Christian Missionary Society met June 11 at 7 p. m. in Chandler Fellowship Hall for their Spring Salad Supper with 19 members and guests present. Mrs. C. O. Holt, president, gave the invocation and introduced Mrs. Georgeann Meadors, who inspired the group with her collection of thoughts entitled, "Our Personal Time With God." The meeting was closed by the ladies repeating the Missionary Benediction together.

CARD OF THANKS

I want to thank the nurses and doctors who were so nice to me during my stay in the hospital. Also, I deeply appreciate all the cards, visits and flowers that I received. Good friends mean very much in time of illness. Thank you again—Mary Zelisko.

When checking a tire's inflation, always do so when the tire is "cool", or before the car has been driven, says Russ B. Grimsby, Chairman of the Tire Industry Safety Council. He also suggests inflation be checked with a personal hand gauge as service station gauges are often inaccurate.

Passenger car tires will perform better on long vacation trips if their inflation is increased by 3 or 4 lbs., says the Tire Industry Safety Council. Motorists are reminded, however, inflation levels should never exceed the maximum limit noted on the sidewall.

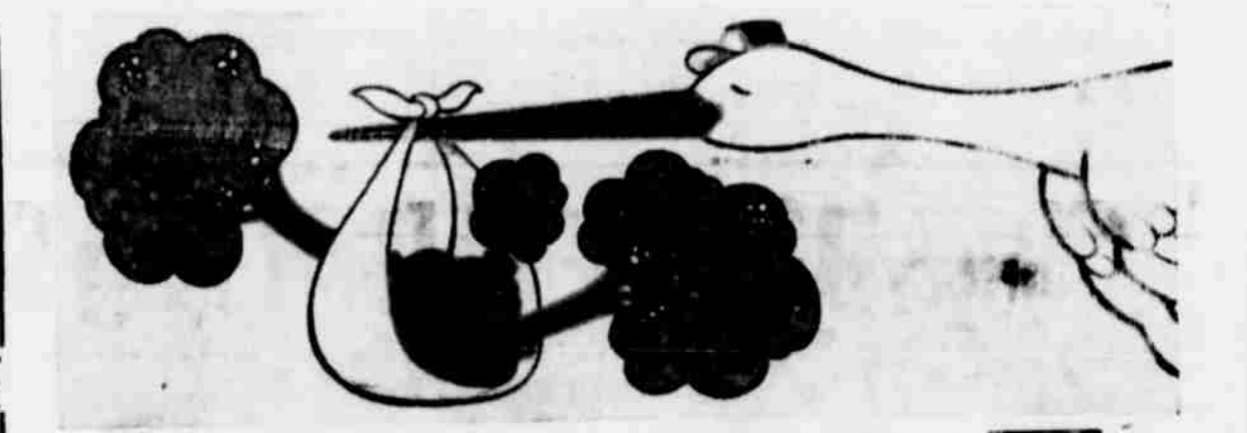

To avoid "hydroplaning" during wet weather, the Tire Industry Safety Council recommends two important steps for all motorists: Make sure your tires have sufficient tread depth—at least more than 1/16 inch—and slow down.

Before heading out on that long-awaited vacation, motorists are advised to make sure their tires have not worn to 1/16 inch or less. Thirty-five states now have requirements against "bald" tires.

Studies have indicated that extremely underinflated tires might be a contributing factor in dangerous "cross over" accidents on the highway. The Tire Industry Safety Council says drivers should always maintain proper inflation unless they wish to risk becoming a contributing statistic for further accident research.

Beach goers with recreational vehicles are advised that their tires are not normally designed to be driven on sand. To avoid getting stuck when the tide rolls in, vehicles should not be parked directly on the beach.

At the present, waterways across country, appear to be the best solution. In some places these can be maintained in drilled, fibrous-rooted crops. In other locations of greater slope than 1 percent, 1 foot fall per 100 feet, permanent vegetation such as bermudagrass will need to be used to stabilize the waterway.

All work that we do will be carried out under standards and specifications developed for those practices used. In order to maintain the high quality of conservation work needed for adequate control, standards and specifications for each in- dividual job must be followed.

We welcome calls from those who presently are not cooper- ating with the local soil and water conservation district. We know who are Cooperators with

Let us all get together and work out our problems together. I believe we will reach a better solution using the group action, rather than an individual acting here and there.

**Ratliff Reunion
Held In Austin**

The Fourth Bi-Annual reunion of the descendants of the late Marquis La Fayette Ratliff and his wife, Narcissa Jane (Beasley) Ratliff, was held at the Greenshores on Lake Austin, about 14 miles northwest of Austin, on June 15-16-17.

Mr. and Mrs. Ratliff were natives of Hickman County, Tennessee, and came to Texas with their children in December, 1892, settling in Cooke

County. They later moved to Jones County, Texas, about 1912, and both are buried in Highland Cemetery near Stamford. Of the original eleven children, only one survives, Mrs. Eddie (Eva) Jeffress of Amarillo, who was present for the occasion, and in whose honor the reunion was held this year.

The first reunion was in 1967, and reunions followed in 1969, 1971, and 1973, all being held at Greenshores, a very beautiful spot on Lake Austin with all of the modern conveniences. A total of 72 were present

Mr. and Mrs. Joe Lang traveled the longest distance, from Arlington, a. Officers elected were Joe Lang, president; Alan Dennis Ratliff, Plano, vice president; Mrs. Billy (Joyce) Campbell, Dallas, secretary; and Mrs. Bill (Edith) Gunn, Amarillo, historian.

Those attending from this area report that it was a very enjoyable and happy occasion for all those present. Plans were made for a future reunion to be held in 1975, at a time and place to be later selected by the steering committee.

Fruit Salad
 2 bananas (chopped)
 1 apple (chopped)
 1 can Mandarin orange slices (drained)
 1 pkg. frozen strawberries
 Set strawberries out to thaw. Cut up bananas and apples. Drain oranges and mix all ingredients. Top with whipped topping or stir into a salad. This is a good dessert for the summer months.

SHARON GRAY

Good Seats Are Still Available For Albany Fandangle Performances

Rebecca Buerger of the Paint Creek 4-H has another fruit recipe you may want to use for the summer months. Rebecca is the daughter of Mr. and Mrs. Walter Buerger of Paint Creek. She has carried projects in clothing and is presently working on a Horticulture Project. Her adult leaders were: Mrs. Buerger, Mrs. Walter Fischer and Mrs. Wayne Wells.

Ticket sales for the Fort Griffin Fandangle, scheduled for June 21, 22, 23, 28, 29 and 30, are progressing rapidly. The widely acclaimed musical historical show is produced in its entirety by the people of Albany, Texas.

History is so near you see it in the making at the Fort Griffin Fandangle. When floodlights touch the rough hewn hill that forms a backdrop for the mammoth outdoor stage, and summer breezes caress fair prairie lands, Fort Griffin lives again and long stilled Comanche war whoops are as near as yesterday's echo.

Legends are as much a part of Fort Griffin as its landscape, where both nature and man's imagination seem to stretch beyond the realm of reason. But Fort Griffin was not an imaginary town. It was very real and for more than a decade was heralded as the wickedest town in the West and perished without conforming to the way of law and order.

During its short life, however, Fort Griffin played important roles on the stage of western drama. First, it was the benefactor of the entire

frontier in that it offered, through its military forces, safety from fierce Comanches who were wild with desperation in the knowledge that they were losing tribal power to the plains of Texas which had been their home for ages. Next, it was the home of the Tonkawas, a friendly tribe whose scouts were often used in tracking down marauders, mavericks, and trouble-makers. But the life of the frontier soldier and the peaceful Indian, although rough and at times danger laden, was too tame for Fort Griffin, too prosaic for its nature.

As one looks back on the panorama, he sees the surging traffic of immigrants, surveyors, ranchers, gambling men and desperadoes, hunters, cowboys, wanton women, who thronged stores and gambling houses and purchased supplies and pleasures, while Griffin schemed to take advantage of such circumstances to build a fortune.

One of the primary sources of income came from hunters of the bison: Buffaloes were slain by millions until the herds' extermination, and the profits were enormous. Long supply trains, heavily laden, rolling toward the south plains country rubbed wheels with incoming wagons groaning with their loads of riches — hides for the eastern markets.

Cloven hooves of Longhorns thundered in increasing numbers over the western cattle trail toward the markets of the nation which in large degree depended on Texas ranges for trail provisions, added to the gambling losses and the revenue for liquor from reckless trail herd

drovers, was a growing source of income.

In the heyday of the frontier, countless mysteries and legends sprang to life to add color to the wild and hectic fanfare of the madcap on the Clear Fork. It is from this rich background of material that the Fandangle script is taken. The Fandangle has been called West Texas' greatest artistic accomplishment and there are those who will tell you that even this rich praise is an understatement. At any rate, it's a great show and any one who enjoys historical and musical shows will miss a golden opportunity if he fails to see this year's Fandangle at Albany on June 21, 22, 23, 28, 29 and 30. The parade is Thursday, June 21 at 6:00 p. m.

Good seats are still available for the Fandangle performances. Tickets may be ordered from the Fandangle office in Albany, Texas either by mail or by phone. The phone numbers are 817-762-2496 or 762-2525. Ticket prices are \$6.00, \$4.00, \$3.50 and \$2.00.

Billboards On State Highways Now Need Permit

AUSTIN—Owners of signs a-
 long Interstate and federal-aid
 primary highways face a June
 30 deadline to apply for a per-
 mit and a license for them.
 The Texas Highway Beautifica-
 tion Act, in effect since June
 of 1972, requires owners of
 signs which are within 600 feet
 of Interstate or federal-aid pri-
 mary highways and are visible
 from main traffic lanes to file
 permit requests with the dis-
 trict offices of the Texas High-
 way Department. The permits
 cost \$5 each.
 Before permits can be ap-
 proved, sign owners must ob-
 tain a \$25 state license and
 post \$2,500 bond for each coun-
 ty in which they have a sign.
 Maximum bonds of \$10,000 are
 required of owners with signs
 in more than three counties.
 Both license and bond applica-
 tions can be obtained from
 Right of Way Division, Texas
 Highway Dept., P. O. Box 5075,
 Austin 78763, or any Highway
 Department district office.
 Signs advertising the sale or
 lease of property upon which
 they are located or related
 solely to activities conducted
 on the property are exempted
 by the act from both under-
 ground utility markers, signs
 created for official purposes by
 Federal, State and local gov-
 ernmental agencies and, in
 some cases, those posted by
 churches and non-profit service
 organizations.
 Although approximately 15,
 000 permits have been approv-
 ed it is estimated that thous-
 ands of signs remain in viola-
 tion of the act.
 Permits should be requested
 from the Highway Department
 District Office, P. O. Box 150,
 Abilene, Texas 79604.

GIRL SCOUTS

Girl Scout Troop 416 met on June 14 at 9:30 a. m. at the First Baptist Church. After the opening ceremony, books were checked for requirements finished and recorded.

Plans were discussed for a bicycle inspection for all children of Rule, June 28, at which time serial numbers will be recorded. This will be held on the First Baptist Church parking lot and all children who would like to have their bike inspected for safety and a serial number given for security purposes, are urged to bring their bikes at this time. Books will be displayed downtown this week, along the exact time the bike inspection will be held.

A bike sale is planned to finance a security project to help underprivileged children of another country. This will be coming up the first of July. Plans were discussed for an all-day bicycle hike.

After plans were made, the girls took a field trip and hiked to the Rule City Hall and Fire Station. At City Hall, Mrs. Norwood, city secretary, took the group on a tour showing the Council meeting room, Walter Superintendent's work room, supply storage, the safe and all the tax records, city charter and other city papers. Rule has a new billing machine and she showed the water meter books and how she prepared the water bills and permanent record using the new machine. She explained the council room was available for any group meeting that size of room would facilitate. Then at the fire station the girls observed the radio system, the police department uses, the jail and both the old and new fire trucks. After a discussion period explaining the parts and use, the girls were treated with a ride on the new fire truck back to the First Baptist Church.

Pest Management Programs Are Key To Texas Agriculture Future

COLLEGE STATION — Dr. John G. Thomas, entomologist for the Texas Agricultural Extension Service, believes that pest management programs will play a key role in the future of Texas agriculture.

Thomas has returned to Texas A&M University after completing a year's leave with the Extension Service, U. S. Dept. of Agriculture, where he worked with pest management programs.

"Based on the success of the cotton pest management programs, we have designed similar programs for peanut and grain sorghum producers. These programs utilize the most current technology, including biological and cultural control and the judicious use of pesticides, in maximizing effective control and economic returns," Thomas said.

"We have at our disposal many new concepts in pest control that can be applied effectively and efficiently while at the same time keeping in mind

Rotarians Hear Social Security Program Thurs.

The Haskell Rotary Club members met at the City Cafe June 14th, with president Bob Philpot, presiding for the noon luncheon.

Rotarian Sam Rosser was program chairman and he presented James Smith, representative of the Social Security office in Abilene. Mr. Smith, in his talk, covered many phases of Social Security Administration and did an excellent job of bringing members up to date on some of the major changes that are affecting the program to a great degree at this time.

He stated that, Social Security is indeed big business as just about the same amount that was collected each month was paid out in benefits.

"Most of this money stays in the community where the checks are mailed to, and this creates an influx of new business for businessmen," he said.

In his opinion, it was an excellent way of stabilizing business in the nation and assists in setting a standard of economy. He also told those present of benefits to be derived from Social Security and stated that as the Social Security tax increased, it also meant that people eligible would be drawing larger checks.

The invocation for the meeting was given by H. O. Abbott and the pledge of allegiance to the flag led by Sharies Thornhill.

Songs were led by Bob Herren with Rene Abbott providing accompaniment on the piano.

Many college students are serving as volunteers in Veterans Administration hospitals to help young veterans injured in Vietnam. More are needed in all VA's 168 hospitals.

Entertainment Six Nights Each Week At ACC's 'Summer Showcase'

ABILENE, Tex. — Abilene Christian College's "Summer Showcase", a six nights-a-week production, is providing professional quality entertainment for summer students and visitors to the ACC campus throughout the summer months, according to Sid Hicks, officer of college relations for student recruitment.

Directed by John Duty of McAllen, Tex., the delightful musical variety show has nine cast members. Six students present the musical numbers, while three students provide background instrumental music.

Summer Showcase begins at 7:30 p. m. each evening and plays one hour each night of the week except Wednesday. Students and members of the ACC staff, administration and faculty are admitted free on identification cards. All other tickets are 39 cents each. The production began June 4 and will continue through Aug. 18th on the ACC campus.

"The shows are always changing," Hicks said. "A person can come two or more nights in a row and not see the same show." He added that different show themes and different types of music are being used.

Some of the show themes this summer include "A Time To Grow," "There's No Business Like Show Business," "Americana" and "Six In The Attic."

The fast-moving production includes solo and group singing numbers, comedy, skits, "sing-alongs" with the audience, instrumental numbers and guest entertainers.

Other members of the cast include Cindy Blanton, sophomore education major from Amarillo; Jancy Nance, sophomore music major from Austin; Becky Palmer, senior drama major from Rhoades; Fred Allen, sophomore music educa-

tion major from Longview; and Dale Martin, freshman education major from Baytown.

An instrumental group accompanies the cast. The group includes John Carroll, a junior music major from El Paso; Beth Kruse, a sophomore music major from Mason, on the piano; and David Broom, a junior communications major from Abilene, on the bass guitar.

Cindy Blanton, Beth Kruse, Dale Martin and David Broom are all members of ACC's Hill-top Singers.

Hicks explained that the "ACC Summer Showcase" is not just for college students, but for all other campus visitors. It is sponsored by the ACC Office of College Relations and designed to help attract alumni, parents, friends and area youth groups to visit the campus, said Hicks.

Hicks pointed out that overnight lodging in ACC dormitories is provided out-of-town visitors and youth groups as part of the program. The "Showcase" productions are staged in the main room of McGlothlin Campus Center on the ACC campus.

James Castles, junior elementary education major from Weatherford, is the hostess for this summer's production. She is in charge of reservations, group ticket sales and housing for out-of-town visitors.

Individuals or groups planning to visit ACC this summer should contact Miss Castles at (915) 677-1911 ext. 613 to make reservations in advance. She will take care of the housing arrangements. She may also be contacted by mail at the Office of College Relations, ACC Station Box 7668, Abilene, Texas 79601.

LETTERS TO THE EDITOR

Mr. Bill Comedy
Haskell Free Press
Haskell, Texas 79521

Dear Mr. Comedy:

The 63rd Legislature is history and by the way of a report, I am of the opinion that the best thing that this Legislature contributed to Texas is that we did not pass a tax bill.

Our District, which is a rural district of 15 counties, will be vitally interested in a Public School Financing Bill which will gain much momentum in the next two years and I trust all of you will let me, as well as your Senator, have your feelings about it.

The so-called Court Reform Bill almost made destructive inroads into our District, County, and J. P. Courts. However, I was successful in eliminating all of that portion of the Constitutional Amendment except that affecting the Court of Criminal Appeals and Intermediate Courts of Civil and/or Criminal Appeals. The Courts, from the District Court on down throughout Texas, should become vitally interested and assert themselves to their Senators and Representatives prior to the Constitutional Convention which convenes on Jan. 8, 1974.

There's A New Flag In Texas

Austin—Texas have always respected flags — there have been six of them in the history of the State. Now there is a seventh flag to look for to save lives and prevent injury — the red warning flag denoting highway construction and maintenance.

This summer crews will be on the job working with heavy equipment. Drivers should be ready to obey directions of flagmen who guide traffic through and around construction obstacles.

Being a flagman is considered the hardest job on some crews because it is both tiring and dangerous. Motorists can make this job easier by slowing down when they first see the flagman and then by obeying his signals. The flagman generally uses the flag and hand signals to stop, slow or alert traffic, and generally uses hand signals only to instruct it to proceed.

In addition to the flagman, Highway Department signs will be posted at the approaches to all construction sites warning:

Our current biennial spending is in excess of nine billion dollars (\$9,000,000,000). And approximately 48% of this entire amount is for public schools and higher education. I mention this to emphasize the magnitude of the money that is being spent on Education.

The most important piece of Legislation that I passed during this Session was H. B. 683 which sets up a Rural Medical School Board to handle grants, scholarships, and loans to qualified needy boys and girls who wish to attend medical school provided they return to a rural area to practice medicine. This bill lacks the Governor's signature but he assures me that he is very much in favor of it.

I trust that during the remainder of the year, I will have the opportunity to visit with you and if there is anything I can do to assist you pertaining to State Government, please let me know.

Sincerely,
W. S. (Bill) Healy
