An Uplifting Experience?

It's a lot funnier now than it was last Friday morning. It was homecoming in Deport this past weekend, and for the first time in many years there was a dance with a live band scheduled for Friday night.

The Deport Homecoming Committee, Volunteer Fire Department and Bucket Brigade were working on various aspects of the event, and we decided it would be nice to hold the dance in the new fire department bays with their freshly painted floors and high ceilings.

Thursday five of us gathered and filled 150-14 inch helium balloons. Now, this is a big job, especially when you group them into bouquets of 3 and attach red, white and blue streamers to the balloons. We hung bunting, lined the drive and walls with flags and generally made sure the place looked beautiful.

The balloons drifted at the ceiling, and swaying crepe paper streamers rustled at just the right height to clear dancer's heads.

We rolled down the bay doors at nearly 9:00 p.m., tired out but happy with a lovely decorating job.

Friday at about noon I went to the fire station add ice to the soft drink chest so they would be icy cold for that night. Imagine my total horror when not a single, solitary balloon was still floating!

On the floor were tangled piles of crepe paper and weakly scurrying balloons.

Horrified, I contacted other committee members, one of which drove back to Paris and

bought more balloons. We decided to try and refloat them by adding a freshly filled balloon or two. Akkkkk...wrong answer. That doesn't work.

Later we learned that if you blow up latex helium balloons in the evening that don't last well! Hey, who knew!

So, we popped all the balloons and trashed the whole thing, then began to start over.

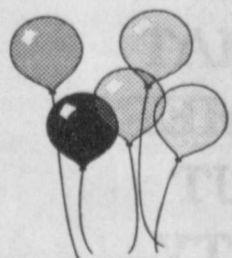

Wade White and his band arrived and discovered that the sound inside was too tiny to play there...which meant that they moved out under the covered pavilion in Foster Park.

This meant that all the decorating went for nothing. Some balloons and bunting were moved, but basically, we wore our fingers out filling helium balloons in an exercise in futility!

Still, one of the neatest things about the evening was that we decided to give balloons away to any kids wanting them...and boy, did they want them!

We blew up about 100 balloons, in bright colors of all shades. Those kids had a ball playing with them while their elders danced or listened to the music.

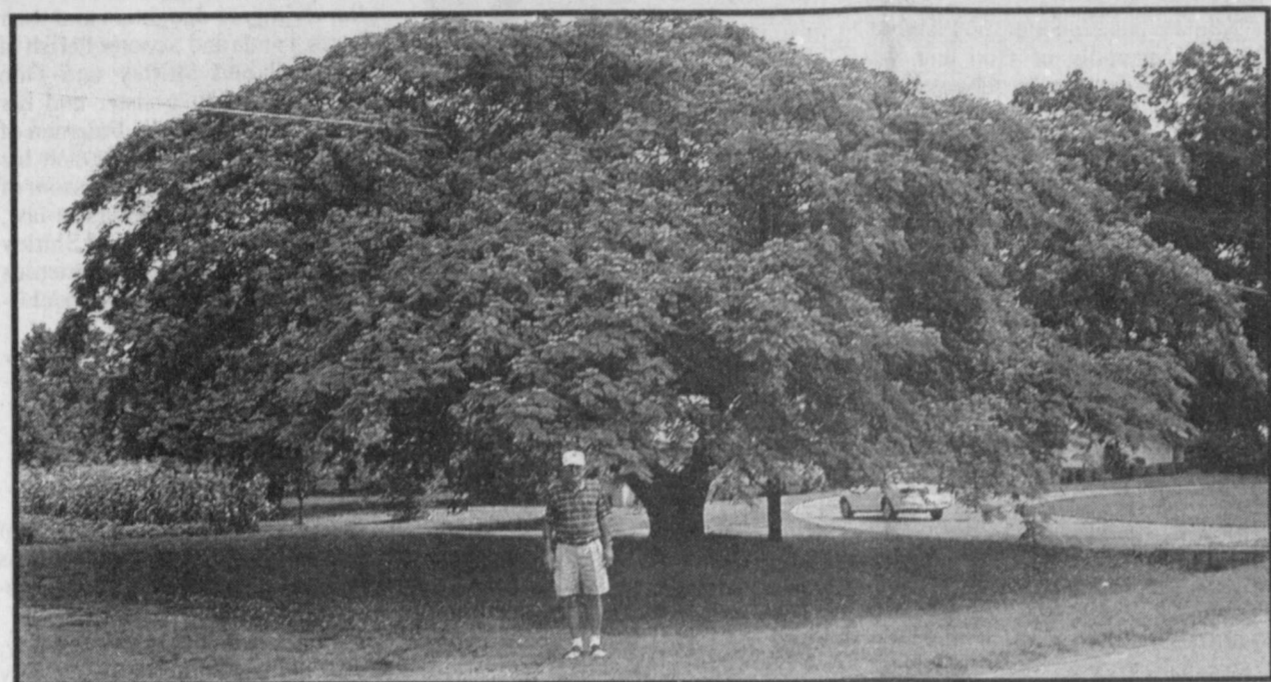

So, I guess we can write it down to experience...and it was an uplifting experience at that...at least for a little while!

This week's recipes comes to us from Doris Jenkins of the Faught area. Doris sends us recipes from time to time and they are always good.

She has also included a handy tip for removing boiled eggs from the shell. If they are like mine after I am through taking them out of the shell, they look like they have come through a war. So here goes! This also removes the green ring that sometimes appears on the yellow part of the yolk.

Place the eggs in cold water; bring them to a boil. As soon as the water starts to boil, cover and turn off the heat. Let them sit for approximately 20 minutes. Pour off the hot water and run cold tap water over them. All you do is sit for about five minutes in the cold water. Crack, shell and peel. So easy!

Here are the recipes and we thank you Doris! We will see you in the

kitchen! **Mexican Fiesta**-is a stack-type meal with this recipe serving 25-30. Can be easily cut down to fit your family.

Dumplings-these are great and can be frozen for a make-ahead meal for your bunch.

Pineapple Coconut Pie-always a great combination and better in a pie!

Easy Cheese Rolls-no Bisquick here. Start from scratch and easy too!

Tuna Teasers-add onion flakes and green peppers for a great combination with tuna and bake in the oven!

Apple Kuchen-fresh and hot from the oven. ...only thing it needs is a dollop of ice cream!

Homemade Sour Cream-did you know you could make this from scratch? Sure can and now here is your recipe!

Homemade Buttermilk-same goes for buttermilk!

PUBLIC NOTICE

Texas-New Mexico Power Company (TNMP) hereby publishes notice that on or about March 31, 2000, it filed an application for approval of proposed tariffs that are to be effective on January 1, 2002, for its proposed transmission and distribution utility pursuant to Chapter 39, Subchapter E of the Texas Utilities Code with the Public Utility Commission of Texas (P.U.C.).

The primary purpose of this proceeding is to establish tariffs that will set the nonbypassable rates retail electric providers will be charged for delivery of electricity from the retail electric provider to the customer. The rates currently paid by the majority of customers will not change as a result of this proceeding prior to January 1, 2002. This proceeding may also establish other nonbypassable fees.

In addition to its application for approval of the above-referenced tariffs, TNMP has requested recovery of estimated stranded costs (\$194.4 million), recovery of expenses incurred in implementing energy efficiency programs in 2000 and 2001, and recovery of expenses incurred in connection with regulatory proceedings involving business separation and transmission and distribution utility tariffs. TNMP has also requested consolidation of the remaining portions of its proposed business separation plan (Docket No. 21955) and such other recovery and approvals as TNMP may show itself to be entitled during the course of this proceeding. As indicated in TNMP's Application, TNMP's requests are subject to possible modification to reflect impacts of various other ongoing regulatory proceedings and supplementation for corrections and to include specific details on performance-based rates.

Affected persons potentially include all customers and classes of customers of TNMP.

On September 1, 1999, amendments to the Texas Utilities Code went into effect which are designed to open the electric industry to competition. To facilitate this transition to competition, the Texas Utilities Code requires that traditional integrated electric utility companies separate their business activities into various component parts. After January 1, 2002, TNMP's current customers will generally receive electricity and bills for electricity from a retail electric provider instead of TNMP.

Persons with questions or who want more information on this matter may contact TNMP through Larry P. Gunderson, Director of Regulatory Affairs, Texas-New Mexico Power Company, Overton Centre, 4100 International Plaza, Fort Worth, Texas 76109 Phone (817) 731-0099 during normal business hours. A complete copy of the non-confidential portions of TNMP's filing may be viewed at Overton Centre, 4100 International Plaza, Fort Worth, Texas 76109.

Persons who wish to participate formally in this proceeding, or wish to express their comments concerning this proceeding, should contact the Public Utility Commission of Texas. The deadline to intervene in this proceeding is July 10, 2000. A request to intervene or a request for further information should be mailed to the Public Utility Commission of Texas, P.O. Commissioners Report

by Ricky Daniels

May has been a good month for us considering the rain we have had. We had quite a few culverts wash out but were still able to get a lot of other things done in the precinct. We hauled 50 loads of rock to different roads. 5 loads were hauled to the yard, 1 load of oil sand was brought to the yard and 1 culvert was installed. Some patching was done with inmate labor.

In Commissioners Court this month we approved letter supporting grant application for Red River County Library, approved supporting Preservation Texas, approved resolution supporting Amtrack service in Northeast Texas though Hopkins County, approved bid for hot mix, coal mix, road oil and oil sand from Buster, approved bond for Maria Castillo, clerk in the Justice of the Peace office. Overweight truck permits were discussed; approved free

use of Larry Townes Office building for the relocation of courthouse offices, discussed contract with Ginger Cook for her services on grants for the courthouse; approved continuing education hours for the 4 commissioners; approved setting 30 MPH speed limit on CR 2360; approved report from Mary Hausler of the Red River County Historical Society regarding historical markers; approved contract with Bowie County to house their inmates in Red River County jail.

In a special meeting we approved the contract for courthouse restoration with Archi Texas; approved resolution for courthouse preservation; approved agreement with Texas Historical Commission; approved going out for bids for used 3/4 ton long wheel base pickup for Precinct 1. If you have questions or comments you are welcome to stop by or call.

RRC Genealogical Society to meet

Evryone is invited to attend the regular monthly meeting of the Red River County Genealogical Society on Monday evening at 7:30 p.m. in the Red River County Library.

If you smell a gas leak in your house, which
object should you use first?

Answer: "c." Leave your house immediately. Do not use your own phone, because that could cause a spark. Go directly to your neighbor's house and call us. Our utility technicians will gladly shut off the gas until the leak is repaired.

reunion, games of horseshoes, singing, story telling, too much good food and thoughts on the stories written in the paper in the last year about people's memories of olden days. Some of the stories written were wrong; those folks didn't remember things the way that some of the visitors did. The weather really was nicer Sunday and was the largest crowd of people ever. Some of them visited Fairview, Cuthand and McKenzie Chapel Cemeteries where ancestors were buried and also placed flag on appropriate graves for Memorial Day.

Plans are to continue this reunion each year at the same time and place, since this is where the family originally lived, went to school and are buried.

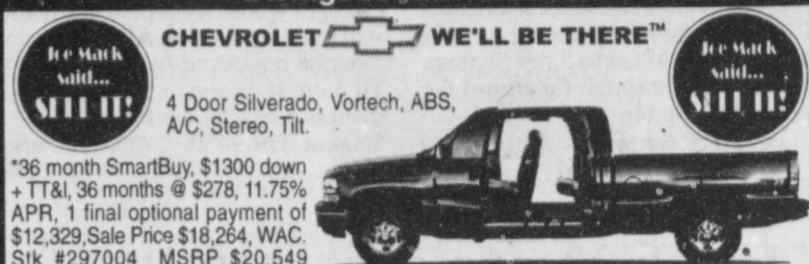

Two of the Leatherwood sisters did not attend. They were Hazel Smith of Arlington and Neva Dickmon of Kalamazoo, Michigan.

Blessed is the man who, having nothing to say, abstains from giving in words evidence of the fact.

Library/Museum holds meeting

The advisory board of the board of directors for the Bogata Public Li-

brary/Museum held a meeting Monday, June 5 at the library. A total of 13 members were present, including Eleanor McCluer, Frances R. Rozell, Kathy Stringfellow, Helen Williams, Dorothy Gill, Mary Margaret Vaughan, Margie Myers, Denise Wood, Eddie Barnard, Miriam Sephenson, John Howison, A.D. Stephenson and June Stanley.

Many things were discussed. In the near future, there will be exciting happenings taking place. Long-range plans were discussed. Two considerations were a Saturday morning children's program and a literacy program for the community.

The board established a need list for the library. Items needed are a vacuum cleaner, new or good conditioned children's books, children's table and chairs and video tapes. If anyone is interested in donating any items, please contact Miriam Stephenson at 632-5999.

The library is now open to the public. The current hours are 10 a.m. to 4 p.m. Friday and from 10 a.m. to 2 p.m. on Saturday. Everyone is encouraged to stop by and get a library card and check out some books. Please send any donations to Bogata Public Library/Museum at P.O. Box 508, Bogata, TX 75417.

FOOT NOTES

WHY ARE MY FEET BURNING?

Feet may feel like they are burning for several reasons. Increased blood flow actually warms the feet and raises their temperature, making them feel hot. Blood flow to the feet may increase temporarily when a person exercises or drinks alcohol. Other causes include inflammation from skin irritations or allergic reactions and fungal infections like athlete's foot. Ill fitting shoes and socks made of abrasive fabric may also cause a burning sensation. Burning feet may also signal something more serious, like a blood vessel disorder or nervous system problem involving the brain, spinal cord or peripheral nerves that send messages to the rest of the body. Several underlying conditions may cause nerve damage, including diabetes, alcoholism and a poor diet.

An accurate diagnosis is the first step toward treating any foot problem. And because each foot problem is different from anyone else's, your podiatrist needs to evaluate your problem carefully. This requires a history, physical exam, and, in some cases, x-rays and laboratory tests. Depend on it, whatever is causing your foot pain, whether it's disease or injury, a hereditary condition, or any number of ills that can plague the feet, you can count on DOCTOR'S FOOT CLINIC for relief. Call us at 784-5585 for an appointment.

 P.S. Consult with a podiatrist if burning feet are a persistent problem.
