Armadillo Season  
is now closed.

Armadillo hunting is now a closed season in Deport, Texas, according to Mike Francies. Mike lives on Main Street in Deport. For weeks he and Toby, his dog, have been chasing an armadillo that roams around in the yard.

Toby is a small dog, about two feet long and less than a foot high, with short legs. But he is stout, and has the determination of a pit bull!

Right before bedtime Mike hooked the extendable leash up to Toby's collar and off they went. The armadillo was happily rooting around under a street light, crunching bugs, and didn't hear their approach at first. Toby had high hopes. Apparently he doesn't realize that he wouldn't be able to hurt nature's little tank even if he got a tooth on it!

When the pair of would-be armadillo slayers got close, the armadillo rose up on his legs and scooted off with Toby in full pursuit. Of course, Mike was in hot pursuit too, laughing as he ran as fast as he could.

He must have actually gained a little ground on Toby, because there was slack in the leash when Toby hit the end of it and caught Mike in mid stride.

He says that the hardest part of flying without wings is landing.

After his arc through the air he slammed down onto pavement and gravel.

The leash flew loose, leaving Toby to continue trying to catch his coveted armadillo.

Mike's glasses cut into the corner of his eyebrow, all the way to the bone. This didn't help his glasses, either.

His watch crystal shattered, and a good portion of skin was peeled from his hand and arm.

After he managed to sit up he called Toby back, staggered home and took a look in the mirror. What stared back didn't look too good.

Well, Mike's okay...a little bruised, scabbed and sore. But he has announced that he is officially closing armadillo hunting, at least using dogs.

He claims that at age 50 he isn't going to go pounding along at the end of a dog's leash anymore.

Jake Maurischat, of Lone Oak Pet Camp, has offered to give him lessons in dog walking, since he walks four large dogs at one time. Mike has declined. He just says he doesn't care how much Toby wants to catch and armadillo, nor does he care how much the armadillo digs up his yard!

## Area Cities provide varying amounts to fund their fire departments

Area cities are finishing up their budgets, determining how much funding they will be providing their volunteer fire departments.

Coming off of one of the worst summers for grass fires, this budgeting is more crucial than ever, since most departments have depleted their limited resources because of the fire season. Some places have gone 84 days without a trace of rain. This has resulted in some fire departments actually being in debt for repairs that had to be made to equipment in order to keep operating.

Three of the largest cities in the area that receive their fire protection from volunteers are Bogata, Blossom and Reno.

Bogata has a population of just over 1,400 citizens. It serves its fire department by paying for the Class "A" pumper truck as well as purchasing a new rescue truck. With the formation of First Responders throughout the area, help is available in emergencies long before ambulances can arrive at the scene. But, that also means that more money is needed for equipment, training and supplies.

In addition to the purchase of the pumper truck and the rescue truck, Bogata also pays all utilities, insurance, fuel bills, maintenance and a portion of the department's training. They do this as a matter of course. In addition, they pay the Bogata VFD \$198.00 per month as a donation from the city of Bogata. The total budget from the City of Bogata to the Fire Department last year was \$29,300.

The City of Blossom also has a population of just over 1,400. Blossom paid out a total of \$8,926.89 for their fire protection last year. According to City Manager Tony Chance \$2,396.75 went for the city

of Blossom's half of the payment on the Class "A" pumper truck. The total also includes utilities, metered water, insurance, two sets of bunker gear and a payment of \$737.60 truck repair bill. Chance says the city has budgeted \$7,000 for the new budget year, which also includes the city's half of the payment on the Class "A" pumper truck.

Reno, population about 2,800 has a budget of \$19,000 to pay for the city's Class "A" Pumper truck. Citizens of Reno also make donations every month on their water bill to help fund the department's needs. Between the city budget and the water bill contributions, Reno is able to provide an extremely comprehensive rescue unit as well as fire equipment.

The City of Deport, which has a population of just over 700, also pays for the city's Class "A" pumper truck, and helps pay for the department's grass and rescue truck. The city of Deport pays for the fire department's utilities, insurance, fuel, all maintenance on equipment, insurance on building contents. City residents make donation on their water bill monthly to help pay for these needs.

The City of Detroit, also about 700 in population, has no equipment payments at this time. The city pays all the fire department's utilities and sets their budget at \$7,000 per year.

In Talco, a city with a population of 592 pays for the pumper truck completely, plus paying insurance, utilities, fuel and all equipment repairs. Talco is also fortunate in that Titus County provides a new grass truck for each department in the county every three years.

Some of the departments are also paid for each call made in the county as well as donations made to the department by residents of the counties served. Fund raisers have also been

an integral part of volunteer fire department's ability to operate.

However, with the rapidly rising costs of fire and rescue equipment, it is difficult for suppliers and auctions to raise enough money.

At this time departments are having to seek more funding from the county and cities in order to keep up with their operating expenses.

Fire departments do not only provide fire fighters. They also are dispatched immediately after a 911 call is made, filling the gap between the call and ambulance arrival that is so crucial. First responders are taking courses of 80 to 100 hours to learn first aid, rescue techniques, CPR and AED skills.

This service has added greatly to the load on volunteers. In addition, the state is mandating that First Responders have ID, be certified through State Department of Health (another works pay a fee to do volunteer work!), and have certain pieces of equipment. All of this is expensive.

In addition, a volunteer fireman can more than likely still get a cat out of a tree. They have been known to take injured dogs to a veterinarian, or put up livestock out on the roads. In short, they provide many services.

In addition to the departments within small incorporated cities, there are numerous volunteer fire departments in communities. They have an even more difficult time functioning because they are more dependent upon donations for their needs.

Insurance rates are determined by many things, among them, having a Class "A" pumper truck within city limits.

It has been said before, but must be said again, the importance of the services a volunteer fire department provides cannot be underestimated.

## Cuthand VFD qualifies for funding aid

Cuthand Community Volunteer Fire Department has joined many other rural fire departments as the beneficiary of cost-sharing aid from a federal-state cooperatively funded fire protection program. The department obtained \$5,000 in cost-sharing aid toward the purchase of a truck through the Rural Community Fire Protection (RCFP) program. The program is administered by the Texas Forest Service, the state forest resource and rural firefighting agency.

Fire organizations also may be able to obtain free trucks and other firefighting apparatus such as pumps, tanks and portable generators through the Texas Forest Service via the Federal Excess Personal Property (FEPP) program. Under the FEPP program, equipment acquired through the military is transferred to qualifying fire departments at no cost.

Volunteer fire departments also can obtain several other kinds of aid from the state rural firefighting and forest resource agency. Through the Fire

Safety program, departments can obtain firefighter clothing, hand tools and water handling accessories at discount prices. A self-insurance, vehicle liability insurance pool administered by the Texas Forest Service offers liability coverage for \$250 per vehicle, ambulances excluded. Passage of legislation minimizing liability to industrial companies that donate used firefighting equipment through the Helping Hands program for volunteer fire department use has made additional free equipment available. Regional fire coordinators located throughout the state train volunteer firefighters in wildland firefighting techniques and assist fire departments with obtaining equipment and cost-sharing aid.

Detailed information on volunteer fire department aid programs is available from the Texas Forest Service regional coordinators and from the agency's rural fire defense section at P.O. Box 310, Lufkin, Texas 75902-0310, phone 409-639-8130.

## Linda Eilers to coordinate St. Jude Children's Research Hospital fund-raiser

St. Jude Children's Research Hospital announced that Mrs. Linda Eilers has been chosen to coordinate a fund-raising event in Bogata for St. Jude Children's Research Hospital. The event, a Walk-A-Thon, will be held on October 21, 2000 beginning at 10:00 a.m.

St. Jude Children's Research Hospital was founded by the late entertainer, Danny Thomas. The institution opened its doors to the public in 1962 to combat catastrophic diseases that afflict the children of the world. To date, over 17,000 children and their families have found hope at the hospital. The money raised by events

like this one makes it possible for the hospital to treat its patients regardless of the family's insurance status or ability to pay.

Of equal importance is the fact that St. Jude shares all of the information gained from its research and treatment techniques with hospitals and doctors around the world. Thanks to St. Jude's local and international efforts, children around the world will benefit from the efforts of the people of Bogata, Texas.

For more information about the event, please call Mrs. Eilers at 903-632-4530.

PIP is more than just basketball. It teaches skills, discipline, confidence and most of all is fun for students in Kindergarten through 6th grades. It creates an early interest in basketball and sports; encourages development of ball handling skills; improves agility, physical skills and general fitness; stimulates individual work and self-discipline and builds self-confidence. PIPs perform at local basketball games and special events such as play off games, all star games, university games, parades and professional games.

PIP allows each child the opportunity to perform in front of a crowd and overcome that nervousness (fear) that keeps so many from trying new things. PIP allows each child to "mess up" and keep going; a valuable lesson and PIP allows each child to work at her/his own level and be successful! Everyone leaves the PIP floor a winner!

## 4-H celebrates National 4-H Week

Across the country, 4-H will celebrate National 4-H Week 2000 beginning Sunday, October 1 through Saturday, October 7. National 4-H Week, celebrated annually, provides recognition to the 6.6 million youth involved in 4-H programs and the 6.3 million 4-H volunteers.

Pledging their hands to larger service is a key component to the 4-H philosophy of learning by doing. This year, 4-H made a pledge to America's Promise to strengthen youth participation and youth/adult partnership in order to build an infrastructure in communities where youth and adults commit to making their communities better places for everyone. 4-H, recognized for its service and volunteer activities has promoted youth volunteerism through its national PSA campaign, "Are You Into It?". ## "Walk Our Children To School" Day

Wednesday, October 4 will find children, parents and community members walking to school with a mission. Many are walking to promote physical activity, reduce traffic congestion, learn safe pedestrian skills, reclaim the streets and create a stronger sense of community. Others are walking simply because it's fun.

Invite friends, relatives and neighbors and community members to walk to school with you on Wednesday, October 4.

Volunteers in Lamar County pledge their head, heart, hands and health toward improving their communities and themselves. "By pledging their heads, 4-H volunteers contribute their knowledge and expertise."

Over and over, volunteers say they concentrate on what can contribute, yet are amazed at what they can gain. "People enjoy volunteering when they're able to make changes in a community that are needed."

4-H volunteers range in ages from 13 to well over 70. Many of them, though not all, are 4-H alumni who wish to give back to the organization that they benefited from. They come from a wide array of economic situations and backgrounds and share the common interest of youth development.

A variety of 4-H volunteer opportunities are available in Lamar County. For more information contact the extension office.

pickup contest and much, much more.

In addition, the old jail museum, Lennox home tour, book signing by local authors, children's corner, local entertainment and the Red River County Courthouse Players.

A street dance will be held at American Legion Park will feature "Express". Bring the entire family and join in the family fun and entertainment.

Bring up Walk to School Day at your next PTA or neighborhood meeting.

Ask a local celebrity or elected official to walk with your school. Notify your local media of the event.

It's time everyone takes a stand on pedestrian safety. By walking a child to school, parents and caregivers can teach children about safety and become aware of the difficulties and dangers that they face on their trip to school each day.

This contest urged the readers to submit art, posters, recipes, etc to be judged in a contest and the winner would receive \$10. She submitted her original recipe to the "What's Cookin'?" page. Guess what? She won the \$10.00 prize.

She began helping her mother, Rhonda cook when she was very small and likes to prepare several dishes of her choice on her own. Listed below are some of her favorites. We hope you enjoy them and we will see you in the kitchen!

## Fairview Cemetery benefit set for Oct. 7

There will be a benefit for Fairview Cemetery in Franklin County at the Hagansport Community Center on Saturday, October 7, 2000 beginning at 5:00 p.m.

The many improvements, repairs and clearing have been accomplished from funds raised from benefits and selling chances on projects. Donations to the cemetery at the annual homecoming and throughout the year are used for mowing, insurance, utilities etc. Interest from the perpetual care fund is also used for these purposes. Because the cemetery is extending into the south section, the upkeep will be more costly.

Plans have been made to have a pot luck supper and auction the excess pastries and any craft items contributed. A commercially made quilt has been donated. It is King size and will fit any bed. Chances will be sold on it. Everyone is invited to bring their favorite covered dish, a dessert or a craft item, enjoy the fellowship and be a part of helping raise funds for the cemetery.

Donations may be sent to Sue Street, Rt. 1, Box 135, Talco, Texas 75487 or to the First National Bank, Mt. Vernon, Texas 75457. For information contact Helen Biggerstaff at 632-5059.

**FOOT NOTES**

Dr. Austin Brown

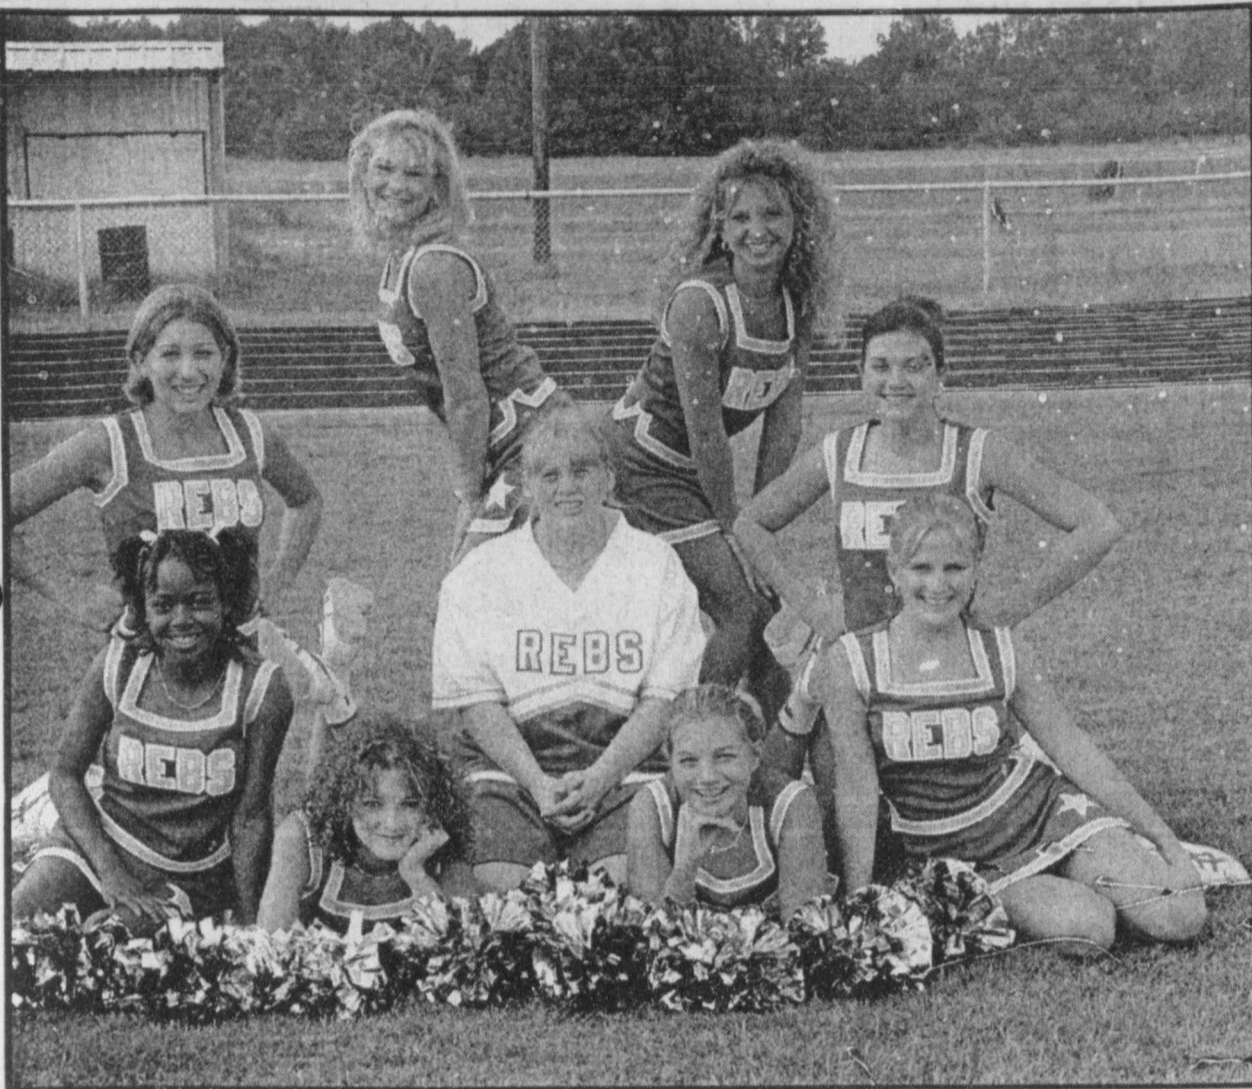

**Aerobics & Your Feet**

Whether you choose step, hi-lo or low impact, aerobics classes are excellent ways to increase cardiovascular fitness and reduce stress. And because aerobics often involves many side to side movements as well as jumping and other impact moves, your feet need special attention. To protect against injury and maximize your workout, wear appropriate shoes that have substantial cushioning, shock absorption and medial-lateral stability. The side to side motions require a shoe with an accommodating arch design. Thick upper leather or strap support is critical to support the forefoot and prevent the foot from slipping during aerobics. Shoes need roomy toe box to prevent toe and nail irritation. Shoes designed specifically for aerobics offer the best foot protection for this activity.

There's no question that aerobics and other forms of exercise are good for you, but they can put extra demands on your body. When your feet hurt, it's all too common to accept this as due to a hard day at work or play. Healthy feet aren't supposed to hurt, and it's our job to find out why yours do. If being active is a big part of your life, consult your podiatrist about how to prevent as well as treat foot injuries and conditions. Call DOCTOR'S FOOT CLINIC for an appointment today at 784-5585.

OFFICE LOCATED AT

P.S. Because they lack sufficient stability and lift the heel too high, running shoes are not the best choice for aerobics.

## Rebels cage the Wildcats 22-6

The Varsity Rebels played host to Waskom Friday night and for almost 2 complete quarters the two teams went head to head with no score but with less than 3 minutes left in the half a pass from senior quarterback, Keith Hines to senior receiver, Michael Galloway saw the Rebels get on the board 6-0. Galloway carried the ball 54 yards for the TD. The extra points were unsuccessful and the Rebels left the field with the lead.

In the second half the Rebel defense went to work forcing a turnover that led to a Rebel score three plays later on a carry by Keith Hines. Galloway crossed the line to add the extra points and the Rebels held a 14-0 lead.

Waskom put a drive together and scored after 8 plays and a 53 yard drive. However, the Rebels quickly ended Waskom's comeback when Hines took the kickoff and ran 76 yards before being stopped six yards out. Two plays later Hines drove in to score. The two point conversion was made by Michael Galloway. Score

22-6 Rebels.

Rebel defenders Josh Cabell and Zach Ward led the defensive line as they set the Wildcats back to regain ball control. A Rebel drive ended in an attempted 27 yard field goal which kicker, Nathan Carroll sailed wide. The Rebels had 210 yards on the ground. Hines with 80, Cabell with 65 and Galloway with 55 led the Rebels. Coach Keith Brown said, "We stopped ourselves in the first half by having aggressive penalties. We have been working on the running game and the kids played hard tonight to take this win". The Rebels improved their record to 2-1 on the season. They will go to Maud next week. Coach Brown was not happy to find out it is the Maud Homecoming game. The Rebels who have not been picked to win a game yet have proven they have the right stuff. Stats for the game were as follows:

Offensive individual rushing: Galloway 18 attempts, 50 yards, 1 extra point; Cabell 9 attempts, 60 yards;

Hines 15 attempts, 83 yards, 2 TD's; Ryan Newton 3 attempts, 9 yards and Nathan Carroll 2 attempts for a total of 47 attempts, 202 yards and 2 TD's. Passing-Hines-1/10, 53 yards and 1 TD; Carroll 0/1. Receiving-Galloway-1/53, 1 TD and 1 extra point. Punts-Clinton Cheatwood-2 punts 23 and 35 yards.

**TWO MINDS ARE BETTER THAN ONE**-Tim Wood, choir director and Judy Sherrill, music director for the Bogata Library/Museum Benefit, compare notes during the first rehearsal of the upcoming concert October 7.

Dear Editor:

Last Thursday evening, I was privileged to see and hear the choir practicing for next week's Bogata Library/Museum benefit. The singing and music was absolutely beautiful and even though I felt from the start it would be great, I was still awed by the talent, who had never sung together as a group.

However, even more beautiful and heartwarming was seeing the smiling faces and laughter of all those involved. Hearing the pleas to keep on singing after two and one half hours of singing proved everyone had so much fun. I would hope that anyone who enjoys singing old time gospel songs will join us tonight for the second rehearsal.

If you don't sing but enjoy beautiful blending voices, you are punishing yourself if you fail to attend the October 7 concert at Rivercrest Auditorium.

It is a truly beautiful blessing everyone would enjoy.

Thank you,  
James Wood

Yes. You could be having a heart attack. You could also be stressed from spending too many late hours on that classic Chevy. But, are you willing to risk your life on might and maybe?

**Never deny the possibility.**

The Chest Pain Center at CHRISTUS St. Joseph's is the facility in this area that can interrupt a heart attack in progress with balloon angioplasty technology in one of our two CathLabs.

That's why any time you or someone around you experiences serious chest pain, go to CHRISTUS St. Joseph's. We'll check first for a heart attack! If it's not, no one will be more relieved than us. But, if it is, the time we save going straight to the most serious possibility could save a life. And it could be yours. Never deny the possibility of a heart attack. We don't.

### Johntown Locals

by Jana Hawkins

Heather Hawkins was overnight guest of Ashley Beers on Thursday night.

James and Pauline Gibbs, Jana, Heather, Haley and Hana Hawkins enjoyed going to the Red River County Fair in Clarksville Thursday evening.

Sarah and Mitchell Jean, Haley and Heather Hawkins enjoying riding and mudding on 4 wheelers Sunday.

Visitors Thursday with Gene and Lydia Hawkins was their son, Roger and Suzanne Hawkins of Corpus Christi and Aaron Hawkins of Bedford. They had just returned from a 10 day trip to Honolulu, Hawaii. All enjoyed looking at their beautiful pictures.

### Browns-Pittmans vacation in Colorado

On Thursday, September 7, 2000 Mr. and Mrs. Eddie Brown and Mr. and Mrs. Jerry Pittman left for Durango, Colorado for a few days vacation. On Thursday night they stopped in Amarillo overnight. They had supper at the Big Texan Steak Ranch which offers your meal free if you can eat a 72 oz steak and all the trimmings within 1 hour! None of the visitors that evening nor the Browns or Pittmans tried the huge meal.

On Friday, after making it through a mountain hail storm near Santa Fe, New Mexico, they made it to the beautiful home of Sue and David Currey in Durango.

Saturday afternoon the group was joined by Diann and Gene Duffie who live in Colorado. The Duffies' Nancy and Trisha enjoyed shopping in Durango while Eddie and Jerry enjoyed riding through the mountain trails by jeep. Saturday night they all had supper at the Cascade Restaurant at Purgatory Ski Lodge. They also had a special visitor; a bear and her cub or cubs. The family bedded down just off the front deck of the Currey's 2 story home. They were needless to say undisturbed.

On Sunday the Duffies returned home and the Browns and Pittmans

visited the Ute Indian Reservation.

Monday the group traveled to Silverton which is just over 12,000 ft. The scenery was fantastic and the shopping in Silverton was great. They had lunch at the Handlebar Cafe where Eddie and Jerry tried the buffalo burgers. Monday afternoon was spent at the trout filled lake located behind the Currey's home, rock hunting and digging up some blue spruce trees to bring home. The group also visited with Janet and Bill Reed who own a home near the lake and spend their summers there. The couple quickly said they spent the winter in their home in Phoenix, Arizona since the annual snow of 250 inches is more than they want to see.

Tuesday morning after a wonderful trip the group were homeward bound. In the evening they again stopped in Amarillo and ate at the Big Texans Steak Ranch and this time 2 men from Sweden were attempting to eat the huge steaks along with a good old boy from Texas. The Swedes didn't make it but the Texan was well on his way when the group left. The 29 degree temperature to the 90+ degree at home was a bad change but northeast Texas has its share of beauty also.

### Letter From the Editor:

Please help us help you! Lately it seems that we have had a larger than usual number of ads and news stories being submitted after deadline.

This has resulted in one of two things, throwing our publication schedule late or the article or ad being turned in too late to run in the newspapers.

Our deadlines are necessary. We try and flex them as much as possible. Although we actually are supposed to have a noon Tuesday deadline, we bend it and will accept many things until late Tuesday.

We even take things that are important early (no later than 9:00 p.m.) on a Wednesday morning if there is a real reason for it being late.

But, after we have gone to press it is totally impossible to add anything to the newspapers.

Please remember that we WANT your news and advertising, but we need it in a timely manner.

Mondays and Tuesday to go in that week's newspaper is what is best.

Thanks,  
Nanalee Nichols

## 81 year old pecan tree still alive and doing well

Carlton and June Stanley have a special tree in their yard which provides shade and produces a nice yearly crop of pecans. The tree was first planted by Mr. Bob Harden at home in Rosalie. In 1920 the pecan tree was taken up and brought to Bogata when the Harden family moved into a house just north of the present location. The place was owned by his father and Mr. Harden transplanted the tree there. A year later in 1921, Mr. Harden ordered a ready-cut-house package. He rolled the small house on logs to the present location and added his new house to it. He transplanted the pecan tree again to its present spot. After three locations, it finally got to stay put and grow...and grow it did!

Mr. Harden, as lots of folks will remember, raised the best watermelons in East Texas. His fields attracted lots of thieves and there are many a watermelon story out there.

Three of Mr. Harden's daughter still live in Bogata, Maggie Lee, Ruby Sistrunk and Ruth Couch. The Harden

house had Bogata's first garbage disposal in it. Mr. Harden placed a trough type exit through a place in the back breezeway wall that carried discarded foods to the outside where they were dumped into a bucket and later given to the hogs. What ever works...right? Mr. Harden was the first person to subscribe to the Bogata Newspaper when it was first published. He was a good farmer, raising peas, potatoes and corn as well as watermelons. In later years, he branched out onto the prairie and raised cotton. He live a long healthy life, farming right up to the time of his sudden death in 1954 at the age of 80.

The Harden house was remodeled before Carlton and June Stanley moved into it 25 years ago. Carlton is retired from Campbell Soup which gives him time to keep the place going. June serves a secretary/treasurer of the Bogata Public Library/Baptist Church where they are members and the couple also enjoy being members of the 42 Club. They both

ride Tennessee Walking horses and belong to the Trail Riders of Texas and take trail rides in Oklahoma, Arkansas, Missouri as well as Texas and plan to ride in Colorado soon. June also shows her horses and is a member of the East Texas Walking-Raking Horse Association and is past president of the group. Carlton also likes to get some fishing and hunting done now and then. He is a member of the Bogata Lions Club and was just recently recognized as Lion of the Year.

The Stanley's have two children, Kenny, who lives in Ashdown, AR, and Susan Odeh, who lives in Euleus. They have two grandchildren. The family enjoys being together at home in Bogata as often as possible.

The Harden place served the family well and the pecan tree began its life with a wonder. The place has also been a wonderful place for the Stanley family and the tree which is 81 years old and has one limb which extends 70 feet continues to serve them well.

CARLTON AND JUNE STANLEY stand in front of their 81 year old pecan tree located in their yard in Bogata. The giant tree's longest limb reaches 70 feet and has been trimmed back away from the Stanley home. (Staff Photo Nancy Brown)

THE Harden House, back when the tree that graces it was young. The pecan tree was brought to Bogata in 1920, then transplanted to its present location in 1921.

Dear Editor,  
On Sunday, September 17 we found out what a lot of people probably already know. Our homes and property came close to being destroyed by a monster fire. What we found out that day was that we have a lot of friends and hard working volunteers here in Bogata. Not only were the people of Bogata involved but many from out of the city and state! People showed up from everywhere - we don't know who many were but we have tried to thank the ones we know.  
To all of you we didn't manage to thank personally, please know that we truly appreciate all of your efforts on our behalf. You know who you are, so give yourself one huge pat on the back for a job well done. We still have our homes and our families are safe. Thanks to all of you.  
Sincerely,  
The Stan Wood family  
Rose Despres

**Services held at Thedford Homes**

The Thedford Homes mid-week church service on September 19 was attended by a group of 24. Many enjoyable special songs were presented following the covered dish lunch. "Happy Birthday" was sung to Marilyn Moore. Prayer was made for the requests that were mentioned.  
Bro. Calvin Permenter and his wife, Myra, who pastor the Missionary Baptist Church at Midway, were special guests. Bro. Permenter took his text from Revelation 21 and preached on "The Reality of the Things of God". Interestingly, Bro. Permenter had lived at Thedford Homes in the early years of his ministry at Johntown. Everyone is cordially invited to the next meeting on Tuesday, October 3, 2000 beginning with a covered dish lunch at noon. Bro. Bob Freeman will be the guest speaker.
