Petitions, Resolutions Oppose Chemical Waste Dumping Proposal

Serious concern over the effects, both long-range and short, that a chemical waste dumping facility located near Cunningham might cause, have started the circulation of a petition throughout the area.

Citizens are being urged to sign these petitions, which will be sent to the Texas Water Commission, several other state agencies, Rep. L.P. Patterson, Senator Ed Howard, and congressman Sam B. Hall in order to register with them the concern felt over the proposal.

The petition reads: The names of the persons whose signatures are affixed hereto are all residents and/or landowners of the area in Lamar County, Franklin County, and Red River County, Texas surrounding the proposed site for chemical waste disposal by Chem-Security, Inc. and by our signature strongly affirm our opposition to the designation of any tract of land in or adjacent to our communities as a site for dumping and/or disposal of chemical waste, industrial waste, or any other such similar material as proposed by Chem-Security, Inc.

It is our collective opinion that the location of such a facility in this area could or will be injurious to the health of area residents and detrimental to the value of property in and adjacent to such site.

We feel strongly that the waste generated by industrial, chemical and other facilities in a particular area should be disposed of in or adjacent to the area where such waste is, and should not be transported to our community for disposal. We feel further that the problem of chemical, industrial and other waste disposal is created by the unwillingness or inability of those creating the waste to devise a proper and suitable method of disposition and that we, as citizens of this community, should not be imposed upon against our will and made to live with such a problem against our choosing.

The effect on our immediate community is potentially serious, however, it is not only serious here but also potentially dangerous to those who are removed from our area, namely, the residents along the boundaries of the Sulphur River and ultimately the residents of the City of Texarkana and several smaller Northeast Texas towns. The proposed dump site is in the watershed of the Sulphur River, which

is the source of water for Lake Wright Patman. This lake is the primary water source for the City of Texarkana and several other Northeast Texas towns.

In addition to the above cited reasons for opposing the location of a chemical or industrial waste disposal site in our neighborhood, we feel strongly that such is extremely detrimental to the quality of life of our families, our children and their children for years to come. By our own choice, we chose to live in this vicinity. The major attraction is the clean environment and we intend to strive to the utmost to keep it that way, clean and free of chemical and industrial waste from areas foreign to our own.

We urge that you join us in this effort to keep this pestilence from our midst and it is our sincere appeal that Chem-Security, Inc. be denied a permit to construct such a waste disposal in our community.

Petitions are available to sign at City Drug Store in Deport, the First National Bank of Deport in Deport, Buckman's Drug Store in Bogata, Alexander's Grocery in Pattonville, Musgrove Store in Cunningham, Taylortown, and Sulphur Bluff.

Anyone wanting to register their protest should sign the petition, and might also consider calling or writing their congressman and representatives on a state and local level.

In addition to the petition the County Commissioners Court of Red River County, and Judge Connie Sullivan have signed a resolution stating their opposition to the proposal.

It reads: On this the 11th day of May, 1981, the Commissioners' Court of Red River County, Texas met in Regular Session, Whereupon, among other proceedings had, the following Resolution was, upon motion made and duly seconded, adopted, to-wit: Whereas a dumping ground for hazardous waste has been proposed by Chem-Security System, Incorporated, and Whereas, the proposed site is located in the south-western portion of Red River County, and Whereas, the proposed site is located within the Sulphur River Watershed, and Whereas water is one of our most vital of all scarce resources, and Whereas the citizens of Red River County have expressed grave concern over the proposed chemical dump site, and Whereas, Chem-Security

Systems, Inc. has not met with any local officials to explain the proposed project; Therefore, be it resolved by the commissioners Court of Red River County, Texas that we strongly oppose any chemical dump site being located in the Sulphur River Watershed and further urge that the Texas Department of Water Resources require Chem-Security Systems, Inc.

to have public hearings in the effected area of the proposed site and give an accurate detail accounting of the proposed project.

The resolution was made by motion of Bruce Scott and seconded by Ben Storey, with all voting to approve the resolution.

Permits would have to be issued by both the Texas Department of Water Resources and the Environmental Protection Agency.

Both agencies would accept a request for permit. After reviewing the request for complete information and accuracy they would then draft an actual permit or deny a permit. If a permit is drafted they would then call public hearings. The Department of Water Resources states that the hearings would be local and

only adjoining land owners, downstream land owners and local governments would be considered actual parties to the hearing. All interested persons could attend and anyone would be allowed to speak. The hearing would be held by an impartial hearing examiner. Two hearing examiners names are: Larry Soward, Telephone, 512-475-1311; and see Petition, Pg. 3

Core Sample Results Expected For Dumping Site

Results from core drilling tests made in Red River County for the possible location of a chemical waste disposal site are expected late this week or early next week, according to Roger Nelson, business development manager with Chem-Security Systems of Bellevue, Wash.

Chem-Security has an option to buy 310 acres of land in Red River County just north of Sulphur River, near the Franklin/Lamar County lines from John Ward, an area farmer from Fulbright. Company representatives were in Austin, Bogata and Mt. Vernon in late April trying to talk with state legislators Ed Howard, L.P. (Pete) Patterson and a few local people about the Texas site.

Chuck Johnson, a legislative aide for Oregon State Representative Tom Throop, said Monday, "The Oregon DEQ was never instructed to monitor the

place, (in Oregon) just given general jurisdiction," Johnson said.

"The tanks (at the Oregon site) themselves appear to be well protected," Johnson said. "They (Chem-Security) seem to be doing a pretty good job there."

The lack of monitoring by state agencies in Oregon seems to be covered by federal agencies, however, with the Environmental Protection Agency monitoring the transportation of hazardous waste, according to Diana Dutton with the agency's office in Dallas.

Bruce Elliott, chief enforcement officer with the EPA in Dallas, said that Federal law allows the importation of hazardous waste, but requires that EPA be notified in advance of the importation. The EPA officer indicated that they were aware that waste was coming into the area from Canada, which was confirmed by Nelson.

"We are in the process of trying to locate a disposal facility now in Canada so they can take care of their own waste," Nelson said.

Nelson confirmed that the Arlington facility has been used by the Department of Defense to dispose of waste from U.S. property in Korea and Guam.

"The Arlington facility has a pretty good track record," EPA's Elliott said. "They are a PCB-permitted disposal facility, and there is no place in this region that can store PCB."

PCB is a highly dangerous

cancer-causing agent which is disposed of under the most stringent rules, Elliott explained.

Company officials have maintained that the Red River County site will not be used unless the geology is suitable for the facility.

According to Nelson, the site would not be used for low-level nuclear waste, but could be used to treat, store and dispose of any other product, including cancer-causing agents.

Ms. Dutton said the EPA does not have regulatory power over the disposal of

nuclear waste, and nuclear dumping cannot easily be added to a chemical dump site, just because it exists.

Elliott added that the permitting procedure with both the state and the EPA is such that it will be at least a year

before Chem-Nuclear could construct the disposal facility, if they don't have a lot of problems with the permitting process.

Nelson said the disposal facility would employ 20-25 people.

Blossom Boy Scouts To Hold Cake Auction

The Blossom Boy Scout Troop 33 will have a cake auction Saturday, May 16, at 6:00 p.m. at the Historic Tomato Shed on Hwy 82 in Blossom.

The auctioneer for the event will be James St. John

senior patrol leader of the troop.

Funds received will be used for much-needed camp equipment.

Troop 33 is sponsored by Blossom Methodist Church.

White Speaks On Education, Prisons

The Democratic Party is not to blame in the recent rulings of Federal Judge William Wayne Justice of Tyler concerning bilingual education and the state prison system, according to Attorney General Mark White, speaker at a Democratic Party Workshop in Sulphur Springs at the Hopkins County Civic Center Saturday, May 9.

Even though Justice is a Democrat, White said the bilingual education case was introduced during the administration of Richard M. Nixon, as was the prison case.

White admitted that the Texas Prison System is in trouble, however, adding that 80% of the inmates are from four cities, Houston, Dallas, Fort Worth and San Antonio. There are 32,000 prisoners in the system, White said, with each costing taxpayers \$8.50 a day, far below the national average, because Texas prisoners have to work. With 70% of the prisoners convicted of theft, because they didn't want to work, White asserted that the work program in Texas prisons is a good one.

Recognizing that there are 60 different languages spoken in Texas, White called for intense instruction in English for children in grades K-5, rather than hiring 20,000 Spanish speaking teachers to teach in Spanish. The state's public educa-

tion system and the farm to market roads were built by Democrats, White said, adding that Republicans in this state have never been for public education and public roads.

White concluded by saying that Democrats provided better government in Texas at lower cost.

Among the 100 attending the workshop were Red River County Judge Connie Sullivan, Red River County Clerk Mary Hausler, John Howison of Bogata, Bettie Pace of Clarksville, Lamar County Judge Brady Fisher, Franklin County Democratic Party Chairman Vatra Solomon and Bob and Pat Wright of Mt. Vernon.

Fifteen counties were represented at the workshop, which dealt with voter registration, working with volunteers, precinct conventions and clubs and organizations.

Bob Slagle of Sherman, State Party Chairman, spoke to the group briefly and conducted part of the workshop. Also attending were former State Democratic Executive Committee (SDEC) members Leta Davis, Gladys Stockton and Jim Allison.

Current SDEC members at the workshop were Marjorie Anderson and Ed Miller.

Rain, Hail, Vary Over Area

Rainfall, welcome due to the dry conditions of the winter and spring, finally came to the area this last week. Several inches varying from place to place, fell, accompanied by some severe weather.

Lightening and high winds swept through Lamar and Red River Counties, and some hail came. The hail, which was

marble size for the most part, was extremely heavy in the Paris area, and more moderate in other areas. In some places only a few pieces fell, while in others damage to wheat crops, on the verge of ripeness, was quite severe.

It is predicted that the rains will contribute greatly to the growth of gardens, crops, and lawns.

Queen Contest Upcoming

Again this year a big feature of the Bogata Rodeo will be the selection of the Rodeo Queen.

Entries are needed in the contests. The entrant must be between the ages of 14 and 19 (inclusive) as of the date of the contest.

Entrants must not be married or ever have been married, they must live within a 25 mile radius of Bogata, and will be expected to ride in the Grand Entry each night of the Rodeo and at both the Rodeo and Frontier Day parades.

Western attire is expected at these events.

Entrants are asked to submit a snapshot for publicity.

No girl will have an unfair advantage, since judges will be picked from outside the 25 mile radius.

Bill Buckman of the Bogata Rodeo Association is the man contact to enter the

contest, and entries are requested as soon as possible.

The Princess contest will be determined as usual by advance ticket sales. Morris Foster is the committee chairman.

Princess entries must have been in grades fourth through seventh in the 1981 school year.

All Princess entries must live within a 25 miles radius of Bogata, and only the first five entries will be accepted.

Questions can be answered by contacting Bill Buckman or Morris Foster at Buckman Drug, 632-5811 on either contest.

Michelle Thomas was last year's Rodeo Queen.

She has won several awards over the past year, one including the Regional Title at the National High ueen contest.

She will be in State Competition soon.

It's difficult to keep attention on such things as chemical waste and pollution when there is such lovely sunshine and wet ground outside, but I'm going to give it a try!

The headline story this week mentions where petitions are located that can be signed registering protest against the proposed chemical waste dumping site.

Those who have thought it over and decided that there is no harm in the proposal need not worry further, but those who have objections need to consider signing these petitions.

We all to often leave such matters to others, either though lack of effort, or hesitation to take such steps.

But the petitions are like voting, each signature counts, and without a turnout against a dumping site, it cannot be blocked.

Don't think that others can do it, it will take an all-out effort by everyone opposed to make an impression on the "powers that be."

This is an opportunity to be heard, and if you aren't in favor of the proposed project, write letters, make calls, and sign petitions. Be heard!

Plant Clinic To Be At Petty's Nursery

A Plant Clinic will be held at Petty's Nursery, May 15, beginning at 10:30 a.m. Extension Specialists, James Robinson, Dwight Hall, and George Philley will be present to discuss landscaping, insects and disease problems.

Extension Agent Bob Moody states that insects and disease are more prevalent this year than in past years due to the warm mild winter. He encourages everyone that have problems to bring it in so the Extension Specialists can give them the

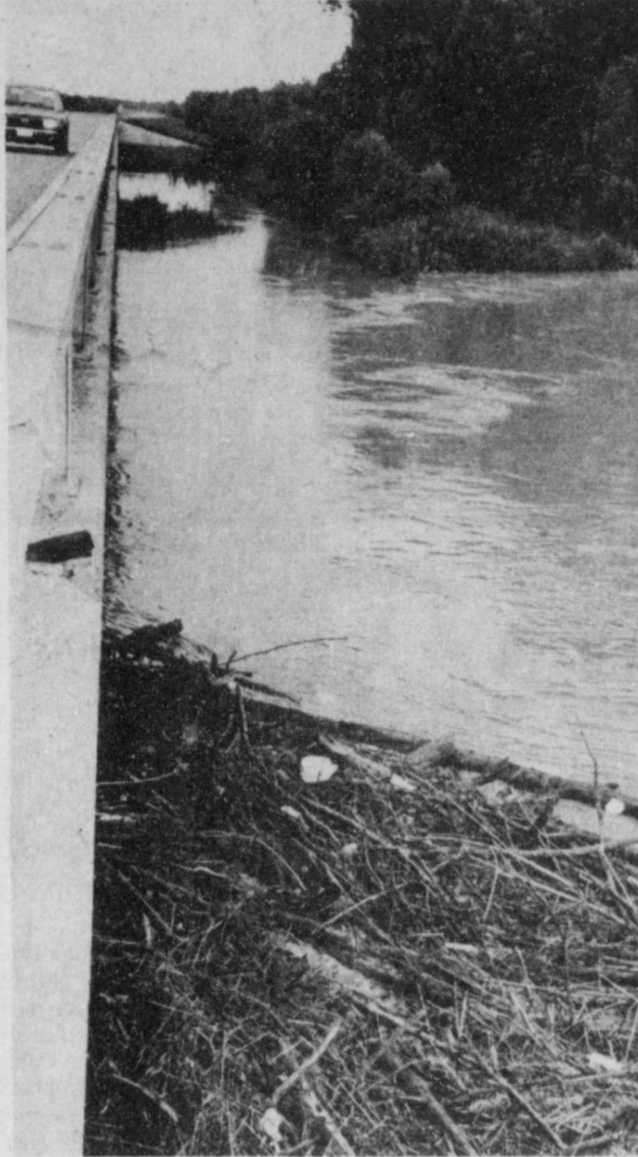

proper insecticides and fungicides for the best effective control.

Moody states that Petty's Nursery has a good supply of insecticides and fungicides. If a grower so decides these chemicals can be purchased at other feed and seed stores.

Tiger Lily—Exotic Gift of the Orient

Fans of a long popular comic strip remember Tiger Lily as an exotic Oriental lady. *Lilium Tigrinum* (Tiger Lily or Ogre Lily) on the other hand, is an exotic member of the lily family that has been cultivated in the Orient for more than a thousand years, originally as a source of food. The Tiger Lily is native to China, Japan and Korea and in these countries the bulbs are still highly valued as a food item and are sold in the market places.

The bulbs are white and broadly ovoid, and are usually about three inches long. Stems are purplish, but covered with white downy hairs. Leaves are dark green. Scentless, orange-red flowers are liberally dotted with purple-brown spots. Unlike some members of the Liliaceae family, the Tiger Lily needs full sunlight.

Lime-free soil with plenty of humus to retain moisture and promote drainage is not simple, as the flowers

are self-sterile. Reproduction is possible from the bulbs in the leaf-axils, however, the flowers may be pollinated artificially for seed.

Tiger Lilies are usually planted in open woodland areas, with shrubs, or grouped in borders. Regular watering is needed to keep soil moist during the growing season.

Tiger Lilies are stem rooting, so bulbs should be planted at least seven inches deep. Flowering time is late summer or early autumn.

Allen-Coward Solemnize Vows

The double-ring wedding vows of Miss Rita LaNell Coward of Huntsville and Paul David Allen of Rt. 1, Blossom, were solemnized in a formal ceremony at 7:00 p.m. Saturday in the College Church of Christ, Paris.

The bride is the daughter of Mr. and Mrs. Mack Coward, Rt. 1, Powderly. The bridegroom's parents are Mr. and Mrs. Jerry D. Allen, Rt. 1, Blossom.

Wedding music was presented by an a cappella choir consisting of Mr. and Mrs. Mart Buchanan, Mrs. Scotty Rogers, Mrs. George Hill, Mrs. Phyllis Sowle, Mrs. Rick Zant, Cleve Fendley and Craig Zant, all of Paris, and Mrs. Tony Douglas of Cooper and Steve Neville of Clarksville. The choir sang special hymns prior to the ceremony. Immediately before the wedding the choir sang "I Love Thee," "Sweet, Sweet Spirit" and "The Wedding Song." Cleve Fendley sang "The Lord's Prayer." During the ceremony, the choir sang "One Hand, One Heart," "God, A Woman and A Man" for the processional, "Father Hear This Prayer We Offer" and for the recessional, "May the Lord Bless You and Keep You."

The couple pledged their vows before the altar centered with a nine-branched oval candelabra flanked by 15-branched spiral candelabras. The candelabras were entwined with greenery. A three-branched unity candelabra and six large Boston Ferns completed the altar decor. Family pews were marked with large blue satin bows.

The bride was escorted to the altar and given in marriage by her father. For her wedding she wore an original gown of silk organza and rose Chantilly lace. The empire bodice featured a Queen Anne neckline accented with reembrodered lace and seed pearls. The leg o mutton sleeves were fitted at the wrists with wide lace cuffs. The A-line skirt featured applique lace motifs with wide flounces. The bride's double tiered fingertip veiling of illusion was edged with wide lace and attached to a Juliet cap

of lace and seed pearls. She carried a crescent bouquet of white silk roses and pastel blue silk carnations with baby's breath and white satin ribbons.

Miss Tammy Coward of Austin, sister of the bride, was maid of honor. Bridesmaids were Miss Brenda McKinney of Dallas, Miss Vickie Humphrey of Paris and Miss Linda Short of Tyler.

The attendants wore matching sky blue gowns of polyester knit with pleated skirts and fitted bodices with neck and shoulder straps. Each wore a sheer pointed cape bordered with wide satin ribbon.

Miss Kenda Yarborough of Paris and Miss Lezlie Jo Fendley of Blossom were flower girls. Craig Fendley of Paris was ringbearer.

Mike Allen of Blossom served his brother as best man. Groomsmen were Mark Parsons of Pattonville, Geron Jackson of Paris and Billy Cavender of Deport. Candelighters were Clint Fendley of Paris and Jeffrey Fendley of Blossom.

Tracy Norwood of Cunningham and David Hart of Blossom were ushers. Mrs. Lawrence Coward presided at the register.

The bride's parents were hosts for a reception at the church following the ceremony.

Members of the houseparty were Miss Shirley K. Allen of Blossom, Miss Nancy Hall of Huntsville, Miss Tammy Glover of Paris, Miss Kelly Gray of Huntsville and Miss Vickie Whitecotton of Huntsville.

The bride is a 1980 graduate of North Lamar High School and attended Paris Junior College. She is employed by Herford, Lynch and Co. in Huntsville.

The bridegroom, a 1980 Prairiland High School graduate, attended Paris Junior College. He will enter Sam Houston State University in Huntsville this summer and is employed by Allied Medical Equipment Co. in Huntsville where the couple will make their home following a wedding trip to Dallas and Galveston.

Mr. and Mrs. Jerry D. Allen were hosts for a dinner

Puzzled ?

**TRY 55...
AND MAYBE YOU WON'T BE.**

Some drivers are still puzzled over the National 55 MPH speed limit. A recent survey shows that nearly 75 per cent of the drivers say they want to keep 55 because they know it SAVES LIVES and conserves fuel. But many drivers still exceed the limit on occasion.

Speed increases the severity of injuries when a crash occurs, and often causes tension. So slow down, relax...and ENJOY TEXAS.

THE GAS PUMP

Well-balanced tires are necessary if top gas mileage is desired. When buying a set of new tires, drive a few hundred miles on unbalanced tires, and then have them balanced—it will be more accurate and longer lasting. You will gain extra miles of tire wear, and economy will improve because of less rolling resistance.

COUPONS POPULAR
A recent sampling of Supermarket Consumer Affairs Directors by a trade newsletter, indicated a strong awareness of the benefits of coupons.

A representative from a major supermarket chain in California noted that while it once looked as if coupons were a passing fad, now they appear to be here to stay. "With the current economic situation, everyone wants to get that extra savings (from use of coupons)," she said. Some 76 percent of American households use coupons, according to the A.C. Nielsen Co. The Nielsen figures also indicate that 76 percent of coupon users like them very much.

As consumers become more budget conscious, coupon usage rises. A total of 56 percent of the coupon-using households surveyed by Nielsen are using more coupons than they did a year ago.

Largest Flower

Tigers, elephants, leopards, rhinos, and orangutans live in the vast rain forests of Sumatra. So does the world's largest flower—the 36-inch-wide rafflesia—which can be detected by its scent more than 75 feet away. It smells like a dead rat.
