Last week I orated a while on the problems of dumping trash in country creeks and ditches.

This week I think I'll make folks mad and discuss the new trespass laws as they relate to hunting, fishing or simple walking.

Now most hunters have a respect for the law..other people's property and other people's wishes.

But it only takes a few to cause a lot of trouble and friction. The group that invaded our cotton field during dove season, dumping cans and bottles and plastic shotgun shells

everywhere...and clomping around tromping cotton into the ground...did nothing to further the cause of hunting in our eyes!

Many people are not aware that under Texas law no posted signs are required...only a fence. Signs are all that is necessary on unfenced land.

For hunting with any weapon...be it firearm or bow and arrow - the law says that's a Class A misdeamenor. It carries a fine of up to \$2000 and - or a year in jail!

For simply taking a stroll...or pictures (something I've been guilty of many times) the penalty is 1000! and or 180 days in jail! Believe me...next time I'll be more careful.

Crossing a fence or other enclosure, is trespass. If a landowner tells a person orally or in writing to keep out, neither signs nor fences are needed.

Most people will give their permission to hunt or fish if they want folks on their property..and it is their right to say yes or no.

Hunters and fishermen need to be aware of these new laws, especially since judges are reported to be backing landowners wholeheartedly....so take care...and remember, it only takes a phone call to check and see if its OK to hunt or fish!

This Friday they face the tough Clarksville Tigers on Tiger turf, and to top it off, it's the Tiger's homecoming. Kickoff will begin at 7:30, and head Coach Chet James says "Clarksville has the best talent in this part of Texas right now, even though

"They have two tight ends that are 6-5 and 6-6, and have great speed. Duball Sanders is one of the best quarterbacks in District 13-AAA and we know we'll have to play them a great game to beat them.'

Offensively, James says, the Patriots will have to execute well. He also says the boys are in great shape, but will be doing special running this week to give them a boost for Friday

About last Friday's game against North Lamar James says that "our defense played as good as they ever have. It shows that we can play good, aggresive football, and that when we do, we can compete with anyone."

James pointed out that "last year at this time we'd been outscored 100 points to 0! This year in district competition we've been defeated 7-6 and 13-6. That's a drastic improvement.

A capacity crowd turned out to see the Patriots meet the Panthers, and the first stanza opened with the two teams trading blow for blow, punt for punt, and neither getting anywhere.

But late in the last part of the quarter Patriot QB Todd Davis connected with his favorite receiver, Jeff Ballard, on a long pass, and Ballard legged it down the field full speed for an 83-yard touchdown. The point after attempt was blocked, however, a factor that was to be crucial at the end of the game.

The North Lamar Panthers spent most of the night trying to deal with a Red Pride defense that would have credited a college team in many ways.

A Prairiland fumble on the six yard line gave the NL bunch an opportunity to even the score, but the combined skills of William Newman, Scott the other members of the defense not only prevented the fumble from resulting in a score, but took the Panthers for a loss every time they tried a play.

Blossom Halloween Carnival Is Saturday

Halloween goblins and fun time will be a bit early at Blossom this Saturday when the Brownies and Girl Scouts from the Blossom Neighborhood group sponsor a Halloween carnival, starting at 5 p.m.

The event will be held at the "yellow house, across from Arena Television Cable", a spokesperson says. Among the booths and games scheduled for the carnival are cake walk, ring toss, coke toss, face painting, dart balloons, sponge throw, apple bobbing, bean bag toss, fish pond, bowling, spook house, wheel of fortune and hay scramble. The latter event will allow the youngsters to 'scramble" for a \$10 bill.

A concession stand will also be open during the evening.

5 Tie For First Place

seven mistakes in last week's News Times football guessing contest, due to some amazing upsets and three tie games on the contest card, but eight was good enough-and that's what five contestants committed as they all tied for first place.

Deadlocked for top honors were the previous week champ, Kay Byndas, Route 1, Bogata, Randy Jones and Terry Jones, both of Talco; Rhonda Branch of Bogata and consistent prize winner, James Van Deaver of Deport.

In going to the contest tie-breaker game, won by Rivercrest over Ore City by 18-14, a margin of four points, Terry Jones was the first to fall aside as he had picked Ore City to win. All the others rode with Rivercrest and the next step in breaking ties is the margin of victory

Byndas emerged with the \$12 top money for the second straight week as she was closest to the victory margin, guessing Rivercrest to win by 6 points, 27-21. Randy Jones was second with an 8-point margin, 27-10; and Van Deaver continues as a weekly money collector as he took third with his 9point victory margin guess, 16-7. Branch had figured Rivercrest would 7 12 points, 24-12.

One contestant, Brad Branch of Bogata, was the only contestant to predict any of the tie games. He figured Big Sandy and New Diana would end in a deadlock, but then he missed too many others to grab any prize money attention.

The three tie games on the contest last week were between Big Sandy New Diana; Maud-Redwater and Iowa State-Missouri. Winners in the other games used in the game were Paris, New Boston, Paul Pewitt, Winnsboro, UCLA, North Lamar, Texas Tech, Tennessee, Arizona, Clemson, Ohio State, Georgia, Indiana, Oklahoma, Michigan, LSU, Southern Cal, Penn State, North Carolina, Miami, Fla., Maryland, SMU, Texas Aggie and Rivercrest. One game, Texas-Arkansas, was incorrectly included in the contest and did not count.

VOTING RECORDS

"I guess the truth can hurt you worse in an election than about anything that could happen to you." This is a quote from the late Will Rogers.

Mt. Pleasant

Please read these significant facts taken from the voting records of Senator Lloyd Bentsen and Congressman Jim Collins. The truth may hurt Bentsen: we know his voting has hurt us.

1. Amendment to give Washington, D.C. two senators with the same power in Congress as the entire State of Texas. (Bentsen.. Yes) (Jim Collins.. No)

2. For the treaty giving away our Panama Canal vital to our defense and economy.

(Bentsen..Yes) (Jim Collins..No)

3. Vote to END OIL PRICE CONTROLS that stifled U.S. Production and precipitated the energy crisis.

(Bentsen..No) (Jim Collins..Yes) These oil price controls have put lots of people in the oil fields out of work, and recently it has caused the shut down of the Lone Star Steel Plant.

4. Creation of the vast, costly and useless FEDERAL Department of Energy. (Bentsen.. Yes) (Jim Collins.. No)

5. Vote to give FOOD STAMPS to **STRIKERS**

(Bentsen.. Yes) (Jim Collins.. No)

You can check Bentsen's voting record for yourself. You will find other things on his record that you will not like such as:

1. On June 29, 1977, Bentsen voted to use FEDERAL FUNDS to pay for ALL **ABORTIONS!**

2. November 4, 1977, Bentsen voted that if you WORK past the age 65 you will LOSE PART of your SOCIAL SECURITY.

3. Bentsen has voted 11 times to raise the National Debt Limit. He has never opposed an increase in the National Debt Limit.

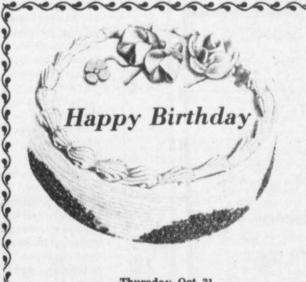

Does Bentsen sound too Liberal for a Conserative Red River County Citizen like you? You have a chance to vote for a CONSERVATIVE in November who will vote like Red River County voters would want him to, which would be good for all of Texas and America.

Help support Jim Collins, November 2nd with your vote for the United States Senate. You will see the difference.

Gibson said field investigator Bill Hamby will arrive in the area

Wednesday and would interview the two women, along with anyone else who may believe they were given misrepresentation by the agent.

Gibson, a native of Lamar County, says the agent named by the two women represents a small Texasbased insurance company that specializes in supplemental insurance to Medicare. He says his office has received no serious complaints in the past against the company and that no previous misconduct charges had either Tuesday afternoon or sometime been lodged against the agent. The

agent does have a state license, he

"This could be a case where the agent got a little anxious to make a sale, or it could be a misunderstanding in what he may have said. In either case, our field investigator will make a thorough investigation and report back to us," Gibson says.

"We want to make it clear to everyone that life insurance for anyone is not compulsory," added

He also pointed out that his office wanted to hear from anyone having a problem with their insurance, or who may believe an insurance salesman may make a misrepresentation.

'All anyone has to do is to send the State Board of Insurance in Austin their policy number, the name of the company and tell us what the problem is. We will take it from there and make an investigation," Gibson says.

You and your family can protect your health. Here, from the experts at the U.S. Department of Health and Human Services, are some sensible suggestions to follow:

· Avoid cigarettes. Cigarette smoking is the single most important preventable cause of illness and early death.

· Follow sensible drinking habits and use care in taking drugs. If you drink, do it wisely, and in moderation. Even some drugs prescribed by your doctor can be dangerous if taken when drinking alcohol or before driving.

almost a habit during that game, on a fourth down series then, and the recovered the ball on downs, but a Panthers instead faked the kick and sputtering Prairiland offense couldn't ran around the end. Craig Gibson's fine stop kept them

out of the end zone, but the Panthers managed to push it over on the next play, and succeeded with their PAT, giving the 1 point edge that disappointed Prairiland fans and players so In the 4th quarter the Patriots

desperately tried to get some more points up on their side, but found themselves operating out of a hole consistently.

With 4.42 left in the game Prairiland a great deal, but the defense for was on thier own 8 when a pass interference call gave them a needed reprieve and moved them into a 1st proach anymore lee way than they and 10 on the 20 yard line.

After 3 incomplete passes the situation was at 4th and 10 on the 20, and the Patriots faked a kick and Davis completed a pass to Darrin Gifford, resulting in the Pats being on

After a few short ground gains and an incomplete pass it seemed as if scoring were inevitable, as with only a minute and a few seconds left Davis and Ballard clicked on a pass to the 44.

But it just wasn't to be, as a North Lamar defender snatched the ball from the air on the next pass and simply had to fall on the ball to keep their one point edge as the clock ticked out.

Coach James expressed hopes that in the future one of the problems, that of having 9 players who are on both offense and defense, can be changed. As the freshman and JV teams move up, there will be less players filling both slots.

James says that there is an emotional adjustment to be made as the players switch back and forth, that keeps the situation from being ideal, and we just don't have the numbers to choose from that many of the district teams do.

"We're still in a building process, and it takes time, but we are playing good ball this season."

Lone Star people help keep gas first in efficiency.

Efficiency alone can't solve the problem of rising gas prices.

We're buyers of gas, like you. And deliverers. Gas that cost us 18 cents in 1972 cost \$3.46 in mid-1982. And the cost can go up

every month. However, we can control part of the gas bill you pay. We do it by getting gas from the

wellhead to you as efficiently as possible. It's one of the biggest delivery jobs in the nation. It involves over 4,000 Lone Star people, 32,000 miles of pipeline and a huge investment

in transmission, distribution and processing

Yet all this accounts for only about 15% of your gas bill. The other 85% is the cost of gas

Efficiency alone can't solve the cost-of-gas problem. But it keeps the problem from
