"IT WAS ONE GRAND SURPRISE" SHE SAYS

"I Gained Twelve Pounds On Two Bottles of Tanlac" Says Miss Mohne

"I have gained twelve pounds on two bottles of Tanlac and feel every bit of five years younger" said Miss Navonie H. Bohne, cashier at Rouse's Drug Store, and residing at 1514 Everett Street, Houston, Texas, the other day. "I was in a very much rundown condition" she explained, "from stomach disturbances and most everything I would eat gave me trouble. My food would sour on my stomach and form gas that made me miserable for hours. My nerves were all on edge so I got little rest at night, and when morning came I was most as tired as I was when I went to bed. I had terrible headaches most all the time, and felt so wretched and no account I hardly had any life or energy to do anything. "I heard so many people telling about the good that Tanlac had done them that I decided to try it. The way it took hold of my troubles was one surprise and I hardly know how to begin telling of all the benefits I have derived from using it. I can say though that it has made a new person out of me, and as soon as I get home from work instead of moping around like I did I now have a grand time romping with the kiddies just like I was a child too. My complexion has cleared up wonderfully, I have no trouble with my digestion and I sleep like a baby. Tanlac has been a fine thing for me and I certainly am glad to recommend it from my own experience with it." Tanlac is sold in Haskell by Reid's Drug Store; in Rochester by E. G. Ramsey; in Weinert by E. E. Cockerell; in Rule by Golden Rule Drug Store; in Sagerton by W. W. Martin, in Nabors by Mrs. L. A. Bouldin, and in Whitefield by T. B. Higgenbotham.

Poultry the Best Chance

Poultry must be produced in places where it has not been produced before, and everywhere that has been produced that production must be increased. It is necessary people in the country and in the backyards must do their bit for the doubling of our poultry production year is an indispensable item in the Nation's food production program which must be carried out we are to win the war. The meat supplies available for European use are short. Meat supplied if the war is won—by forces who fight for freedom. This will be won if we fall in food production—but not won by us. We understand what will happen if we provide the enormous quantities of stuffs that the Allies can not produce themselves. Are we going to feed our chickens and eggs? Of course. But by greatly increasing our production of chickens and eggs, and using those chickens and eggs for our own needs, we will naturally eat that meat and pork. In turn, that meat and pork can be sent to Europe. The United States Department of Agriculture calls upon the country to double poultry production. That can be done if the farmer has an average of 100 hens instead of an average of 40 hens as at present. If every family in town will have enough hens in the backyard to produce all the eggs used by that family or two hens to each person. The above is what the government expects us to do and we should well to our part of the work and bit in raising poultry. It may be the meat supply we will have in the time to begin. Let's make the start today. Mrs. B. M. Whitaker visited parents in Hamlin this week. Henry Lancaster has moved. Miss Trixie Johnson, primary of the Roberts school was in on Saturday and reports the school is progressing nicely. Mrs. T. C. Cahill has returned an extended visit in Bastrop. See Wm. Wells, the florist for plants, sweet pepper and all of garden plants this season. A. C. Denson of Sagerton was in the city Tuesday on business.

The War Has Not Affected Our Prices

The war has not affected the price of electricity here, but in order to cut our expenses so that we will not have to raise the price there is a few favor we would like to ask of our customers.

First—Pay your bill on or before the 10th of the month.

Second—When the collector calls on you, don't tell him to come back next week as that calls for an extra expense for a collector.

Third—We would appreciate it if you would drop in our office at the back of the Corner Drug store and pay your bill before the 10th of the following month and cut out the expense of a collector.

If you will help us out along these lines to hold our expenses down, we will do our best not to advance the price of our current.

# Millinery and Ready-to-Wear

We have on display this week our new line of Spring Hats and Coat Suits. We are showing one of the largest and most complete lines of millinery this season that we have ever shown.

Miss Grace Moore of St. Louis has charge of our Millinery and Ready-to-Wear Department this season and she extends a cordial invitation to all the ladies in Haskell and surrounding territory to come in and let her show you "The Real New Styles". Easter comes early this season, and let us insist on you making your selections as soon as possible in order to find just what you would like, as merchandise of any and all kinds are hard to get this season.

### Interscholastic League Notes

In a letter to the county director, Mr. R. Bedichok, assistant director of the Interscholastic League congratulates Haskell county on having enrolled over 30 schools in the work of the league. In fact, we now have above 35 schools actually enrolled and several others getting ready for the contests. The county director has visited during the past two weeks some 12 or 15 schools and in practically every place he found the boys and girls eager for the contests. They are determined to send some winners from Haskell county to the state meet at Austin in May. We can certainly do this if we work consistently from now until that time.

Much interest is being shown in the spelling contests. There is a constant call for the spelling lists sent out by the league. Extra copies of these can be secured at 2 cents each from Mr. Bedichok. A visitor at Vontress this week found the whole school at work on the words. Mr. Joe Jones of the First National Bank of Rule offers a \$5.00 War Savings Certificate to the winner of the senior spelling contest. A similar prize is also offered to the winner of the junior contest.

The new issue of the Interscholastic League, the league paper, contains additional copies of declamations for use in the contests. If yours does not come soon, write for it.

Mr. John Lee Smith has felt it necessary to resign the directorate of debating and declamation, and Miss Pearl Hamilton, of the Haskell High School has consented to direct the work. Direct your queries along those lines to her and you will find a ready response. In the athletic events, the boys are getting busy. At most any school you chance to stop these days you will find the boys spending their play periods in practicing the various events of the contest. At Haskell last Thursday the boys in grade, about 75 strong gathered at the base ball park for practice.

Arrange for a contest in the various events between your school and the school closest to you. Let me know about when it will be and I will make an effort to be on hand.

Supt. Hutto is working out a plan for the suggested contests in reading and spelling for the primary grades. Watch for the plans to be announced later.

The ladies of the Magazine club of Haskell tell me they will offer a handsome prize to the writer of the prize essay in the senior essay class.

In the midst of our league work let us not forget that every loyal American school boy or girl should be a member

of the American Red Cross. The schools of the county are being organized this week. We hope by Friday to have 2,000 boys and girls of Haskell county as members of the Red Cross. Haskell already leads with over 500. Rule, Weinert, Myers, Dennis Chapel, Rose, and New Mid have already enrolled as units—that is, every boy and girl a member. If your school is not a unit make it one now.

**B. E. McGLAMERY,**  
County Director, Interscholastic League. Chairman Chapter School Com. for Red Cross.

**Typesetter Made a Guess.**  
In the getting out of the first number of a new English magazine in Tokyo a proofreader discovered that the number 40,000 had been printed 39,000. On inquiring through an interpreter how such an odd mistake could have occurred, the proofreader said: "I can imagine a mistake of 20,000 or 30,000 being made, but how could he get 39,000 instead of 40,000?" The typesetter's reply was: "I had no '4' at the moment, so I calculated that 39,000 would be nearer the right amount than any other figure."

**The Largest Nests.**  
The mound-shaped nests of the jungle fowls of Australia, in which the eggs are hatched by the heat of the decomposing vegetation, are sometimes 15 feet high and 150 feet in circumference. They are believed to be the largest nests made by any creature.

**Don't Need Too Many.**  
Don't swerve so far to one side of the road as to make too many enemies nor yet so far to the other side as to make too many friends. A few good friends are enough, and usually a few enterprising enemies will manage to keep you busy.—Houston Post.

**Don't Look for Perfection.**  
We must not look for absolute perfection in this old vale of tears, and probably all that it is reasonable to expect of an honest man is that you can trust him to tell the truth except in letters of recommendation.—Ohio State Journal.

**Believe in "Safety First."**  
It is no uncommon thing for large corporations to spend \$25,000 a year just for salaries and office expense of a safety department. Generally, there are a number of inspectors who spend their entire time going from one point to another, watching for danger spots either in the location of machinery or in the constantly shifting piles of supplies.

### RED CROSS NEWS

S. L. Coggins, principal of the Dennis Chapel school called at the A. R. C. room Saturday and gave a splendid report from there. Dennis Chapel was one of the first schools in the county to organize a Junior Auxiliary with 68 members. They also have 80 adult members who expect to organize and work with Weinert.

number of the regular workers have been absent from the R. C. room this week. They have been organizing Junior Auxiliary work in the country.

Rochester R. C. branch shipped last week two boxes containing 1,815 surgical dressings.

Rule, R. C. branch shipped a box containing 2,450 surgical dressings.

The various auxiliaries are all sending in nicely made work.

Whitman—24 triangular bandages, 6 many tailed bandages.

Rose—26 triangular bandages.

Post—24 triangular bandages, 6 scullietus bandages.
