HM Training School Now In Progress

Forty of the 110 women who were tested by Texas Employment Commission representatives last week, are now in training at the Herman Marcus Training Plant in Haskell. The women's training is co-sponsored by the Texas Industrial Commission and the Haskell Independent School District. Twenty train for four hours each morning and another twenty attend training classes each afternoon. Plant Manager Amelia Perry, and Plant Production Specialist Claude Lester are instructing the course.

"We have tried to contact many of the other women who were tested last week, and have been unable to contact everyone," Mrs. Perry said, "but we would appreciate applicants who are not now in training, to contact us for scheduling on the next training classes". Call 864-3625.

The 80-hour courses presently being taught should end on November 16, and plant officials plan to begin another series of instruction classes on

November 19. They are also considering setting up night classes, but have not made that decision at this time. Night classes would be offered for those unable to attend the morning or afternoon sessions.

The women now in training at the plant are from Knox City, Rochester, Rule, Weiner, Paint Creek and Haskell. Morning classes are from 8 to 11:30 a. m., and afternoon classes begin at 12:30 and end at 4:30 p. m.

The building construction is still on schedule at this time, and should be completed in time for a December 1 opening and for the plant to begin operation on Dec. 15.

These training classes are provided as an opportunity for untrained persons to qualify for employment at the Herman Marcus plant, at no cost to the trainees.

Through the combined efforts of Texas Employment Commission, who conducts the preliminary testing; the Texas Industrial Commission, who pro-

vide specialists and pay instructors to conduct these training classes in Haskell through Haskell Independent School District; the Haskell Industrial Foundation, who provides the location for the training courses; and Herman Marcus, Inc., who provides thousands of dollars worth of machinery and equipment, plus technical directors; the school is a wonderful opportunity for area residents to train for employment at the plant.

Haskell Industrial Foundation has worked very hard to enable residents of our area to seek steady, well-paying jobs, and this training school is the result of that work.

Claude Lester, Production Specialist for Herman Marcus, Inc., said, "When the plant

opens, and December 15th is the planned date, we will employ 100 or more persons eventually to work in Haskell. Persons who train and qualify through this training school will certainly be considered for employment at our plant."

Rehab Benefit Barrel Races Sunday, 2 P. M.

The barrel race and roping events scheduled at 2 p. m. at the James Powell Arena Sunday are sponsored by Jerry and Maxine Hanns of Rule, to benefit the West Texas Rehabilitation Center in Abilene.

There will be both an open and a novice class in the barrel races, with prizes to be given in both.

A matched pole bending, between horses owned by J. W. Aycock of Haskell and Joe Bonn of Knox City, will also be featured during the afternoon. Daughters of the men will ride the two horses, both making two runs. Aycock and Bonn will put up \$20 each on the match, with the winner donating all of it to the Rehab Center.

Calves for the roping event are being donated by Donna and Eddie Chambers. Other donors this week to the Rehab Center include Bassing Jewelry, Duncan Gin, Mr. and Mrs. Carl Rastetter, Jessie Dean, Kennedy Lumber, Charles Thornhill, Bynum's, Jim Sampson, and Johnson Pharmacy.

An admission charge of \$1.00 for adults and 50 cents for children under 12 will be charged, and donations will be taken for the Rehab Center. Everyone is invited to attend, and help support the Center.

Garden Club Names Gardens Of The Month

The October award for the Most Outstanding Garden by Haskell Garden Club was given to Mrs. R. C. Couch, 1507 N. Ave. E. for a picturesque, panoramic of color. Roses were in full bloom and scattered over the fence, lavender heather, pink dahlia and pink cannae border the front walkway. Tall trees and evergreens enhance the setting. Mrs. Couch organized the Garden Club in 1957.

Mr. and Mrs. Wayne Phenix, 702 N. 19th, have a new ranch-style, story and a half home, with gingerbread trim. Their rock garden includes rocks collected from many states, some gold and silver from the Colorado mines. Ground cover and petunias are used for color. Pecan, fruit trees and vegetable garden, a honeysuckle shaded patio, elephant ears and a lush lawn of African bermuda grass complete their garden.

Mr. and Mrs. H. T. Hadaway of 706 N. Ave. H, have a most distinctive feature of a brick fence and planters of roses and periwinkles that encircle the storm cellar. A triangular rose bed, planters of perennials and annuals across the entire front add seasonal color. They have tall trees for shade and beauty.

Mr. and Mrs. Jack Pippin, 600 N. 5th, have an interesting landscape design of trees, evergreens and roses. The Spartan rose puts on a striking display continuously.

Mrs. Alonzo Pate's garden at 1108 N. 8th, features tall trees, a bird sanctuary, a dipper gourd over a stump, and pomegranate hedge against white wall for color contrast.

Mrs. Tom Davis, 407 N. Ave. F, has a garden with quaint charm of Fashion roses and live oak trees.

Jewelry Program Enjoyed By Club

'A Look At Today's World of Jewelry', was presented to Progressive Study Club members and guests Oct. 18 at the Community Club Room.

After a brief business session conducted by Mrs. T. P. Barnett, president, the program was introduced by Mrs. W. V. Felker. She welcomed Mr. and Mrs. Jack Fulwiler and daughter, Lisa, of Fulwiler Jewelers in Abilene. Mr. Fulwiler gave a most interesting and informative slide presentation of 'Diamond—King of Gems', showing gems from the time of mining through the processes of cutting, polishing and the finished gem. In a display for viewing were several beautiful pieces of jewelry including a pin which could be converted to clips and several rings.

Mr. Fulwiler revealed that an off-color diamond may be subjected to nuclear energy for changing its color. He also discussed the methods for grading gems — the color, clarity, cutting and carat weight. The audience was invited to ask questions and this period was especially enjoyed by the group.

Refreshments were served by hostesses, Mrs. Mary Holden, Mrs. Mildred Mancil and Mrs. Felker. Guests attending were Mrs. Gerald McCoy and Mrs. Arlene Medley.

Next Fall New Legislation For Finance Planned

By ABE TURNER
 President
 Haskell National Bank

The Administration recently unveiled its long-awaited legislative plans to revamp the nation's financial system. The Treasury Department has outlined major elements of the plan and has sent the package to Congress.

This does not mean that there will be any immediate change in the system. Far from it, Congress can be expected to hold off on any action until next year, at which time there will be extensive hearings. If I had to guess, I would expect that the earliest time when a bill might come to a vote would be next Fall.

Pol. Calendar

The Free Press is authorized to make the following announcements for office in Haskell County, subject to the action of the Democratic Primaries in 1974.

All political advertising, announcements, and printing is cash in advance.

XI. POLITICAL ADVERTISING—(b) No political advertising shall be accepted for printing, publication, or broadcasting unless a copy of the matter to be printed or published, signed by the individual contracting therefor and showing his full address and, if he is acting as an agent, showing also the name of the candidate, political committee, or business entity he represents, is deposited with the printer, publisher, or broadcaster accepting the advertising. The person accepting the advertising shall preserve the signed copy for a period of one year after the date of the election to which the advertising relates, and shall permit any interested individual to inspect the signed copy at any time during business hours, but only after the advertising has been printed, published, or broadcast. Such advertising shall be labeled as political advertising in the advertisement as printed, published, or broadcast. Any printed or published political advertising shall also have printed on it the name and address of the printer or publisher and the person paying for the advertising.

DEATH NOTICES

Mrs. Johnson
 Funeral services for Mrs. Willie Mae (Grannie) Johnson, 81, will be held at 2 p. m. on Thursday, Oct. 25 (today) in the Independent Baptist Church of Haskell. The Rev. A. L. Phea will be in charge of services, and burial will be in Willow Cemetery under direction of Holden McCauley Funeral Home.

She died Sunday, Oct. 21, at 9:30 p. m. in Leisure Lodge, where she had been for about two weeks.

Born Aug. 16, 1892 in Crockett, she married Joseph Johnson Oct. 6, 1907 in Crockett. He died on June 11, 1963. She came to Haskell in 1933 from Crockett. She was a member of Independent Baptist Church, of Eastern Star, and of Haskell's Beauty Court No. 432.

She is survived by two daughters, Mrs. Sophia Dumeaux of San Antonio and Thelma Johnson of Fort Worth; 10 grandchildren, 26 great grandchildren and two great-great grandchildren; and one sister, Mrs. Hareh Woolbright of Crockett.

There are some far-reaching proposals in this package. They will mean a lot to all of us, one way or another, and I will try to keep you informed as the package moves through Congress.

1. To eliminate interest rate ceilings on time and savings deposits over a 5 1/2 year period. At first blush this looks good. But it must be remembered that a bank has to earn the money it pays to savers . . . and those earnings come from loan interest rates, fees for services, and the like. If we are allowed to pay you more for savings, we have to charge you more for service.

2. To give federally chartered savings and loan associations and savings banks expanded deposit services, i. e., checking accounts, etc.

3. To allow these same groups investment and lending alternatives, i. e., power to make consumer installment loans, etc.

Both of these provisions are designed to allow savings banks and savings and loans to act more like commercial banks. However, these two institutions today are mainstays of the housing field, and have been given certain tax advantages to support housing. What will the effect be on the housing market if they are able to enter other fields?

4. Allow stock savings and loans and mutual savings banks federal charters.

The basic problem here is that this will supercede state laws, where states have, as a matter of policy, decided they do not want these types of operations in their states.

5. Give credit unions greater access to funds.

The credit union movement started as a method whereby people with a common bond could band together to assist one another. That concept is being eroded; this would largely end it.

6. Remove interest rate ceilings on FHA and VA loans.

7. Modify the tax structure of savings banks and savings and loans.

In my view, if these institutions are to have bank-like powers, they must pay bank-similar taxes.

Lions Hear Youth Law Program

Herman Fox, parole officer of the Texas Youth Council from Paducah, brought the program at the regular noon luncheon meeting of Haskell Lions Tuesday at the Haskell Steak House. Ron Bingham was program leader for the day.

Fox, in discussing the problem of juvenile delinquency, stated that only 5 per cent of the young people sent to reform schools in '62 or training schools as they are called by the Youth Council, were sent on charges of drug abuse. On Jan. 1, 1970, the percentage rose to 22 per cent, an increase of 250 per cent in two years.

He explained the juvenile program of the State of Texas, told why the young people were sent to training schools, how they get released and why some are sent back. He also discussed all the new laws and the proposed new laws on juveniles. In closing, he stated that only three of every 100 young people were ever sent to these training schools, which proves that the huge majority of our young people today are law-abiding, upstanding young citizens.

President Gene Long presided over the business session. George Fouts led the singing, accompanied by Beeky Ghelston at the piano. Dr. Frank Cadenhead led the prayer.

Guests included Tip Arthur of Eastland, Larry Suttle, the new Haskell Church of Christ minister, and Gerry Talkington of Lafayette, La.

With small children around, guard fans with hardware cloth. This screening provides extra protection but doesn't reduce the fan's effectiveness, explains Mrs. Doris Myers, home management specialist, Texas Agricultural Extension Service, Texas A&M University System.

Carpets used to be solid colors, but sophisticated dyeing and printing techniques allow the carpeting industry more leeway. Patterns and multi-colors are becoming the rule, says Patricia Bradshaw, housing and home furnishings specialist, Texas Agricultural Extension Service, Texas A&M University System.

Here's to Your Health

The beginning of a migraine headache is marked by a sudden drop in the blood levels of serotonin, a naturally occurring body chemical. Migraine pain can be relieved by injecting serotonin into an artery in the neck, states Dr. James W. Lance of Australia. This prompt relief from migraine headache is welcome news for many doctors whose patients are so afflicted.

Indians Win Dist. Opener 29-12

By Don Comedy
 The Haskell Indians opened district play last Friday night and defeated the Anson Tigers, 29-12.

The Tribe outgained the Tigers 206 yards to 193 yards in total offense. Charles Alexander, for the second week, led

the Indian attack with 180 yards on 21 carries for an average of 8.9 yards per carry.

The Tribe kicked to Anson to open the game and 12 plays later held on a fourth and five to take possession on their own 15. Indian Randy Ivy carried the ball 6 yards on the first

play followed by a beautiful 79 yard scoring romp by Alexander. Ivy's kick was good.

The Tigers scored two possessions later with one second left in the first period and failed to make the extra point.

During the first period the Indians managed only five of-

fensive plays and still gained as many yards as Anson.

The third play of the second quarter, Tim Pringle recovered a Tiger fumble to set up the Tribe's second score. The TD came on a three-yard run by Randy Ivy around right end. Pringle's run was good for two and the Tribe led 15-0.

With 14 seconds left in the first half the Tigers scored their second and final TD of the game. PAT failed.

The Indian offense dominated the entire second half but managed to cross the goal line only two times. The first was a two-yard run by Alexander with 3 minutes left in the third period. Kick by Ivy was good. The second came on a 20 yard quarterback keeper by Tim Pringle. Ivy's kick was good to finalize the scoring at 29-12.

On the defensive side of the Indian team James McCoy, Ricky Decker, Billy Holmes, Ronald Rodella and Alexander all played outstanding and aggressive football.

The Indians will travel to Hamlin tomorrow night for their second district game. Kickoff time is 7:30 . . . see you there.

THE HASKELL INDIAN OFFENSIVE LINE opened large holes in the Tiger defense Friday night, enabling Alexander to rush for 180 yards. No. 32 Ricky Bird, No. 50 Randy Phemister and No. 72 Ricky Decker, our choice for THE WEEK, are pictured in this 2-yard scoring run by Alexander. (Photo by Don Comedy)

SECOND EFFORT added about three extra yards on this carry by Charles Alexander. Alexander averaged 8.9 yards per carry in Friday night's game against Anson, and his extra effort like this has earned the Indians a lot of yards gained, this season. (Photo by Don Comedy)

Unbeaten Rule Downs Rochester

Art Briles sparked another Rule Bobcat win Friday night when he led in a 42-0 score over the winless Rochester Steers. This was the first District 5-B game of the season.

Briles tallied 143 yards rushing in the first half, and then changed over to passes in the second half of the game.

Rule totaled over 500 yards in total offense Friday night, while Rochester got only 109 yards on the ground, and just four on passing.

Rule set the pace of the game from the opening whistle on. On three possessions, the Bobcats scored three times on steady ball-control drives. After taking the opening kickoff, Briles engineered a 55-yard

charge. He then handed off to Mark Lissie, who ran 13 yards for the TD with 8 minutes left in the first quarter. Briles ran the two-point conversion himself.

After three downs and a punt by the Steers offense, the Bobcats again got possession on their own 28 yard line. They picked up one first down, then Briles made short work of the next score when he split the Steer defense for 45 yards and the second TD. The PAT kicking attempt was stopped in the highlight play for Rochester for the entire half. Nose guard Mack Hearn smashed through to block the kick attempt.

The next score for Rule was just as steady. After whopping

55-yard drive, Briles made a 33-yard jaunt down the field, for the TD, and Allen Barbee added the two extra points.

Rochester fumbled early in the second quarter on the Steer 22, and Briles passed to Steve Anders on a 19-yard toss, and then passed to Terry Fitch for the two extra points.

Neither team managed a score in the entire third quarter, but the Rule defense again shook loose a fumble in the fourth to set up its final score. The Steers turned over the ball on their own 27, and Briles passed to Allen Barbee for a three-yard touchdown. Barbee added the PAT.

Late in the fourth quarter, Rochester mounted its only drive. The Steers moved to the 11-yard line before a clipping

penalty put them out of range and preserved the shutout for Rule.

The Rule Bobcats will play New Castle at Rule Friday night, while Rochester Steers will travel to Chillicothe for their district game there Friday. Both games will start at 7:30 p. m. and all the fans are invited to follow their team.

O'Brien Stops Hobbs, 83-0

The O'Brien Bulldogs started rolling with the opening kickoff and didn't slow down Friday night when they wiped out the Hobbs Panthers by the score of 83-0 in six-man football. The winning Bulldogs scored so fast that the game was called at halftime, under the maximum scoring rule.

O'Brien is now 5-1 for the season and 2-1 in district.

Scorers in the fast-paced game for O'Brien included Louie Kinn with 24 points, Rayland Hovens with 22, Sammy Jackson with 12, Jamie Rocha with 6 and David Adkisson with 6.

O'Brien added up 55 points in the first quarter and 28 more in the second to earn their 83-0 win in just half the time it might have taken.

They meet the Paint Creek Pirates at O'Brien Thursday night (tonight), with game time 7:30 p. m.

Haskell Moved To District 7-A For 1975

The University Interscholastic League has announced its high school athletic alignment for 1974, and Haskell, presently in the 6-AA Dist-

trict, will drop to 7-A next season. This district includes Aspermont, Crowell, Haskell, Knox City, Munday and Paducah.

Non-district games already scheduled for 1974, include Anson, Sept. 6; Hamlin, Sept. 13; Seymour, Sept. 20; Stamford, Sept. 27; Olney, Oct. 4; and the Oct. 11 date will be open.

In a district meeting of all the coaches held Wednesday night, Oct. 24, plans were begun for the District 7-A next year, and the next week's edition of the Free Press.

7th, 8th Grades Win; B Team Loses

Haskell 7th grade downed Anson last Thursday night 16-0, with Ronnie Hise making both the TD's.

Eighth grade team downed Anson 26-8, the same night, on TD's made on a Rex Pitman pass to Amador Benavides; one by Nati Escobedo on a 6-yard run; one by Pitman on a 7-yard run, and one on a Pitman pass to Jimmy Browning. PAT was made by a pass to Browning.

Haskell's B team lost to Albany 50-14, and Jessie Billington and Kelvin Marshall ran over the scores for the Indians.

Both 7th grade and 8th grade teams meet Aspermont at Aspermont tonight, while the B team will play Stamford here.

BELLY BUSTER—Indian Randy Ivy makes a beautiful try for this Tim Pringle pass, that just grazed his forehead before he hit the ground. Ivy is another second effort has racked up a lot of TD's for the team. (Photo by Don Comedy)

state to go into this U. S. Department of Agriculture food program at one time.

That's the report of Martin Garber, Dallas, West-Central regional administrator for USDA's Food and Nutrition Service. The Food Stamp Program is administered in Texas by the State Department of Public Welfare in cooperation with USDA.

The addition of these 97 counties brings the total number of Texas counties in the program to 139—leaving 115 to enter the program on Nov. 1, at which time every county in the state will have food stamps available to its needy citizens.

Under the food stamp plan, households spend a certain amount each month for food stamps, based on the number in the household, income, resources and other factors. They then get additional stamps free of charge, increasing their food buying power.

Food stamps are then used like cash at local food stores, authorized by USDA to accept them.

Legislation recently passed by Congress will require this program to be operating in every "political subdivision" of a state by June 30, 1974.

At Rotary**

Haskell County Game Warden Jackie Young was guest speaker for the weekly meeting of Rotary Club at City Cafe at noon, October 18.

Rotarian J. B. Gipson was program chairman and introduced Mr. Young who gave a most interesting and informative talk on present game laws pertaining especially to Haskell County. He told his listeners of the quail season which opens Nov. 17th and advised hunters that they no longer had to plug their guns for quail but that the law still pertained to the hunting of dove and ducks. He also cited the different prices for licenses including those of fishing and the law regarding both hunting and fishing.

Mr. Young's talk was interspersed with questions and answers presented by those in attendance. He especially advised that any land owner who was interested in leasing his lands for hunting purposes, to be sure and get his license. They cost \$25 and can be purchased from the District Office in Abilene. He warned hunters of the fallacy of shooting from vehicles and explained some deviations of the rules. "We have the best waterfowl hunting of anywhere in the state," he said, "but, we do not have very many participating in this particular phase of hunting in Haskell County."

President Charles Thornhill reminded club members of their chili supper to be held on Friday night, Oct. 19, preceding the Haskell-Anson football game. He also called on Bill Comedy to report on the recent Defensive Drivers Course sponsored by the club. Approximately 40 persons participated in the course and several have already signed up for the second one to be held in January.

The invocation for the meeting was given by Bob Beauchamp and the song session led by R. C. Couch Jr., with Rene Abbott at the piano. Guests were introduced by Bill Comedy. They were: Roger Ziingermann of McMurry, Pa., Joan Dulaney, Clifton Cobb, Geo. Kinney, both of Stamford, James Smith of Abilene, Olen Dotson, also of Abilene, and Claude Lester of the new Herman Marcus plant of Haskell. Student guests were Kevin O'Keefe and Gary Tidrow of Haskell High School.

Class of 1962
Being Studied**

The Weinert High School Class of '62 is currently being studied as part of Project TALENT, a nationwide survey supported by the U. S. Dept. of Health, Education and Welfare. The primary purpose of Project TALENT is to help improve the educational process and career guidance programs

by learning from the experiences, both good and bad, of 1960 high school students. The Class of 1962 was first surveyed by Project TALENT in the Spring of 1960 during their sophomore year. This follow-up survey, being conducted 13 years later, is designed to learn what has happened to them during the years in which they have matured from teenagers to young adults.

In September a follow-up questionnaire was mailed to the last known address of each member of the Class of '62 who participated in Project TALENT

in 1960. Additional reminder forms will be mailed over the next several months. For the results of the study to accurately reflect the experiences of the Class of '62 it is necessary that as many persons as possible respond to the questionnaire. Any person in the Class of '62 from Weinert High School who has not received a follow-up questionnaire is urged to write the Project at P. O. Box 1113, Palo Alto, Calif. 94302 and give his current address so a questionnaire can be sent.

Based on information collected in previous follow-up sur-

veys Project TALENT is publishing a Career Data Book, the purpose of which is to provide students and counselors with summary information on the interests, aptitudes and abilities of persons who enter various career fields.

A Weekly Report Of Agri-Business News

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Hogs and pigs on Texas farms as of Sept. 1 are estimated at 1,100,000 head by the Texas Crop and Livestock Reporting Service. This is an increase of 15 per cent from the June 1 estimate.

Farrowing intentions for Texas for Sept.-Nov. are 56,000 head, six per cent above the same months last year. Intentions to farrow in December of this year, January, and February, 1974 are eight per cent above the same quarter a year earlier.

Nationwide, hogs and pigs on

farms in the 10 corn belt states are estimated at slightly above a year ago. Hogs for breeding are up one per cent while market hogs are up only slightly from a year ago.

Hog producers in the 10 corn belt states currently intend to hold farrowings at almost the same levels as a year ago for the next six months.

Honey is not so sweet in Texas this year as far as production goes. Even though production is down, the crop is sweet. But production is down 32 per cent in Texas from a year ago.

Commercial apiaries had 81,000 colonies this year, same as last year. But the average yield is expected to be 65 pounds per colony compared with 92 lbs. in 1972.

Colony condition is poor this year due to late freezes and excessive rains in eastern parts of the state.

Nationwide, honey production is about three per cent less than the commercial production in 1972. Yield per colony is expected to average 74 lbs., up slightly from 1972.

Egg production in Texas dur-

ing August is reported at 9 per cent below a year ago and 5 per cent under last month.

Nationwide, egg production is down 6 per cent from the past year.

Texas layer numbers totaled 11,000,000 during August, which is 4 per cent below a year ago.

Texas eggs laid daily per 100 hens averaged 57.5 during August, down from a year ago and last month.

There's still time to visit the Food and Fiber Pavilion at the State Fair of Texas. The pavilion is under the supervision of the marketing division of the Texas Dept. of Agriculture.

When you visit it, be sure and get copies of two pamphlets on how to get the most from your food dollar. One is titled "Texas Round-up of Low-Cost Menus", the other is titled, "Economic Texas Vegetable Recipes."

Theme of the Pavilion this year is how to get the most from your food dollar.

This is the fourth year the Texas Dept. of Agriculture has had charge of the Pavilion. Nearly one million people annually have visited it during the past three years. More than a million visitors are expected this year.

Texas ranked third in the nation in fiscal 1973 in value of agricultural exports with almost \$800,000,000 worth of sales. Illinois was first and Iowa was second.

Total export value of agricultural products reached \$12,900,000,000. Exports continue to be an integral part of Texas agriculture since the state is the nation's leading producer of cotton and grain sorghum.

Livestock producers are reminded to continue to submit samples of suspected screwworms to the fly laboratory at Mission. The Fall season is at hand, and screwworms increase infestations now until cold weather.

UNICEF AND US

This Halloween, once again, children in our town and in towns and cities across the country, will gather to make magic for the millions of other children whose world contains more than its share of poverty.

As they collect coins and currency for the United Nations Children's Fund our youngsters will offer us the opportunity to help UNICEF provide in 111 countries of the Third World—a world where nearly half the population is under 15, where the average per capita income is less than \$200, where three out of every 10 babies don't survive their first 5 years. In the developing areas of Africa, Asia, Latin America and the Middle East just one of our pennies can protect a child against tuberculosis, a dime can provide enough dry milk to make 50 glasses of liquid milk, and a quarter can buy a baby chick for an applied nutrition program.
 But the magic doesn't end there. When you help UNICEF help a child, the child's government helps too. For every \$1 the Children's Fund spends in a developing country, that country provides an average of \$2.50 in local resources. And

when a UNICEF-assisted youngster grows up healthy, literate, hopeful and productive, he in turn can contribute to the development of his family and his nation. By assisting their children, UNICEF helps these countries help themselves.
 October 31 is a National UNICEF Day by Presidential proclamation. On or about that day each one of us can in effect take out "World Insurance" by dedicating our pennies and quarters, dimes and dollars to children in need of a better future. It's not only the children's world we'll be improving, but our own as well.
