Worth

By Nanalee Nichols

At the risk of stating the obvious, do you ever consider where every bite of food you put in your mouth comes from? Do you ever think about where the clothing on your back comes from?

Do you ever think about where certain major components in your medicine comes from? Probably not, most of us don't.

But perhaps we ought to give a thought to this plus the jobs agriculture provides.

You see, most people don't think about the enormous industry that is agriculture.

If we sit down to a pasta meal we think that pasta is pasta...it comes in a little package, and has to be boiled.

But somewhere is the farmer who grew the wheat that makes up pasta...and the chicken farmer who raised the chickens that produced the eggs used.

Somewhere is the farm that produced the tomatoes for the sauce, and the rancher that raised the cattle for the meat.

It's the same with every single bite of food you put in your mouth...someone somewhere grew it.

Cotton clothes us...even if we are wearing synthetic fibers, it's a good bet that a percentage of that fabric will be cotton. Then, of course, there is wool, another fiber that blends with synthetics.

Medicines frequently contain oils, fillers or even medicinal compounds that are produced by farmers or ranchers.

They all hire help to produce their products. They all purchase a wide variety of fertilizers and chemicals and equipment to produce their product. They are the ones that make it possible for people to truck food, timber or other products all over the nation. Think of all the people who work in plants such as Campbell Soup or Merico. Multiply that nationwide! Timber farmers provide the source for paper products...think of all the jobs and uses THAT has! Carry the idea a little further...because that food, paper or whatever that is processed and turned into a marketable product has to be trucked out again...providing more jobs.

Then that food is marketed from grocery stores...both massive chains and small family owned groceries...once more providing jobs. Paper products are done the same way...as are fabrics or medicines.

Tax dollars roll in from farmers, from plants and from stores. In this part of the world in particular agriculture provides the taxes that make it possible for schools to function...for city governments to operate!

It's an awesome thing to think about. And yet it is a proven fact that farmers are the lowest paid of ALL these people employed in the massive chain that is agribusiness.

There is not a single person who does not benefit in some way from agriculture. Many of us owe the very jobs we have to it!

Sometimes it's easy to forget just how important the farmers of this nation really are. Think about it.

Prairiland Proposes New Tax Rate At Board Meeting

The Prairiland School Board heard a report from Superintendent Max Ballard on the proposed tax rate of .1900 (19¢) for the 1991-92 school year.

The County Education District, in action taken Monday, September 9,

1991, set the County Education rate at 78¢. This, combined with the proposed Prairiland rate of 19¢ would make a combined total tax rate of .97¢, Superintendent Ballard said.

Superintendent Ballard also stated that this was about a seven and one

half percent raise over last year's rate of .8947.

In other business the minutes were read and approved and career ladder policies were amended. The main change in the career ladder policies were a refinement of tie breaking situations.

Athletic Booster Club Plans Homecoming & Spirit Week

LAURA HAYS, left, displays the trophy she received for winning the All Tournament volleyball player award at Texarkana two weeks ago. Jan Scudder, right, along with Hays, wears the medal she received for winning

All Tournament volleyball player at the Mt. Pleasant volleyball tournament last weekend. Both girls are juniors at Prairiland High School and are having a great season.

Lady Pats Win Consolation At Mt. Pleasant Tournament

The Prairiland Lady Patriots brought home the consolation trophy Saturday with two wins and a loss at the Mt. Pleasant Volleyball Tournament.

In the opening game of the Tournament, Prairiland was matched against the top-rated team in Northeast Texas, the host Mt. Pleasant Lady Tigers. In two hard-fought games, the Lady Patriots fell 12-15, 11-15.

The Lady Pats then faced Dainger-

field, and they got back on the winning track with a 15-10, 18-16 victory.

In the consolation round, Prairiland wiped out the Mt. Pleasant JV 15-5 and 15-6 for the consolation trophy.

A country drive was the order of the day Thursday afternoon for several residents of Deport Nursing Home.

They toured Milton, Minter, Cunningham, Rugby and Deport and everyone enjoyed watching the cotton farmers working and stated how good the crops were looking this year.

A small plane was defoliating east of Deport and the group stopped and watched in amazement at the flying antics.

Everyone had a nice afternoon and will look forward to doing it again.

Letter To The Editor

Dear Editor:

There are so many negative things being shouted to the world these days, that we felt compelled to report on some of the positive things that happen.

The ambulance attendants who came to Alma Lowry's home on Labor Day Monday morning did a stupendous job of stabilizing her severely broken shoulder before taking her to Red River General Hospital with tender, loving care. Dr. Brooks and the X-Ray team there did such a wonderful job, and she was then sent to McCuisition Hospital in Paris for surgery on her shoulder and broken hip. Her surgeon says that the wonderful care given by all these people may well have saved her the use of her arm.

People do care in the medical profession, and these people certainly exhibited that trait!

Sincerely,
Leon & Babbie Shoffner

An Open Letter:
Come on Pattonville area, we miss your news. It is hard to pass it on to our friends here if its not there. We look at it, as a letter from home!

Won't someone please take a few minutes to jot it down for "our paper".

I pass the news on to old friends Dorothy George and Adeline Keener who look forward to hearing about your children, new babies, new cars and whatever, striking it rich in Vegas or sightseeing in Branson. We do appreciate the obituary notices too.

Thanks,

Country Cooking

By Gerrie Bankhead

Country Cooking is being shared this week from the kitchen of Phil and Liz Williams. Being married for seven years, they have lived all this time in the Blossom area.

Phil and Liz work at Uarco in Paris and Liz has made this her career for the past 19 years.

Her hobbies include sewing, making crafts, T-shirts, jewelry, cooking, swimming, going to baseball and basketball games, shopping at craft stores and collecting cookbooks.

She says they like to watch sports games whether they know anyone playing or not. They like all the area school games plus games in Dallas, etc. Liz makes a lot of her and Marcie's clothing. She enjoys painting and applying on T-shirts and sells some of them occasionally. She also loves to make earrings, all colors and all fashions. Most of these are for herself and her daughters, but she does give a lot to friends.

Liz says "Just face it, I'm a craft person. I enjoy antiques and country items." Phil calls it all junk but that's not Liz's definition of it.

Cooking breads and sweets is Liz's favorite foods to cook. However, Phil doesn't like either of these so she doesn't cook them as much as she would like. Liz started making desserts as a young girl when she helped out at home. She started making breads in high school while taking a homemaking class.

Swimming is another enjoyment Liz loves. She would like to swim everyday but only manages about 3 or 4 times a week. She thinks this is the best therapy anyone can have.

She collects and cuts out recipes from everything she sees. She has chosen a variety of foods to share with you this week.

The Steak Strips have been a favorite of every member of her family for the past seven years. She found the recipe in a magazine. The Enchilada recipe has been around about 10 years and came from a friend at work. The Quick Bread recipe is fast enough to start it and bake it for supper. She mixes the dough first, lets it rise on her oven door, and by the time she gets everything finished for supper, the rolls are ready to bake.

The Scratch Cornbread was one she has continued with her through the years. She said it seems she has always made it. Marcie encouraged her to share this recipe, it's one of her favorites. The Brownie recipe is one she also has used since a youngster. We hope you enjoy these recipes.

I have had great response this week for the requests. We have received an Almond Joy Cake recipe from JeNola Cavender, Linda Eilers and Tommy Williams and will be sharing it with readers in the future. An Orange Slice Cake recipe was sent in by Tommy Williams and by JeNola Cavender.

If you've enjoyed the article, request a recipe or have a recipe to share or suggest a feature, please call 652-6032 or write Rt. 1, Box 67A, Deport, TX 75435.

FOOTBALL

Rebels Lose Opener To Prairiland

By Marian Green

Their wake-up alarm clock apparently failed to go off for the Rivercrest Rebels as with less than four minutes into the game at Prairiland last week, the Rebs found themselves down 14-0 and they had not even touched the football yet.

Prairiland took the opening kickoff and in four straight big gainers by fullback James Freelen the Pats had a 6-0 lead. Freelen also kicked the PAT. Rivercrest was apparently still in a dazed shock and with a bad case of first game jitters, the Rebels were thinking punt situations instead of the live ball kickoff. Rivercrest players watched and ran out of the way of the Patriot kickoff as it rolled down to the Rivercrest 31 before being covered by Prairiland. With a fake to Freelen, Jack Crawford danced untouched into the endzone and with another Freelen kick, it was 14-0.

It became gut-check time for Rivercrest now and after nerves had settled and the cobwebs had cleared the Rebels put together a fine wish-bone option show for the large crowd on hand from both schools. Quarterback John Smith executed to perfection a keeper here, a pitchout to Tiffie, handoff to Sartor, a give to Sanders and the Rebels drove 70 yards to paydirt the touchdown coming on an

off tackle play to Tony Sanders.

The extra point try was no good but Rivercrest had got back into the ballgame. The remainder of the first half became a defensive standoff with Freelen of Prairiland and Smith of Rivercrest getting big gains yet yielding to big defensive plays by both squads.

Rivercrest failed to do much damage on their first possession of the second half but Freelen and company were just waiting for another chance with the pigskin. After forcing the Rebels to give up the ball with a punt, Freelen had a 49-yard gain followed up by a 38-yard run before Crawford took it in from the 5. The Patriots went for the two point conversion but Freelen was stopped short of the goal and the score stood 20-6, at the 3:32 mark of the third quarter.

Rivercrest put on their best offensive showing of the game to round out the third quarter with Smith and Sanders doing the bulk of the running. A nine yard pass to Corey Gable and a seven yard completion to Matt Childers set them up with a second down and one yard to go at the two yard line where Smith kept around right end to bring it, with the two point success to a 20-14 game to start

the fourth quarter and give the Rebs the ballgame.

Prairiland moved the ball at will, settling all the way down on Rivercrest's 12 where on third and two they were called for a crucial holding violation. On fourth and ten, the Pats had one fall off the tips of a receiver in the endzone and the Rebels took over. The Patriots' defense stiffened and the Rebs were unable to get the first down that would have been necessary to complete a winning drive. Prairiland then took the helm and three plays later Crawford danced in from the 18-yard line to finish the scoring for the night.

Both teams were to be commended for their lack of mistakes and miscues and both sets of fans should appreciate the fine sportsmanship both teams exhibited. This is truly a tribute of two coaching staffs instilling in these young men the fun and accomplishments of good clean football.

Rivercrest will host New Diana this week and the memory of last year's 66-0 defeat is still in the minds of the Rebels. With the new offense the Rebels are showing the score will be somewhat different this time around. See ya at the game!

JACKIE CRAWFORD raced for some big yardage in the Patriots' contest with the Rivercrest Rebels last Friday night at Patton-

ville. The Patriots took the win to start their season off on a winning note. (Staff Photo by Nancy Brown)

PUBLIC NOTICE
 BRIEF EXPLANATORY STATEMENTS
 OF PROPOSED
CONSTITUTIONAL AMENDMENTS
 SPECIAL ELECTION
 NOVEMBER 5, 1991

**PROPOSITION NO. 1
 ON THE BALLOT**

House Joint Resolution 114 proposes a constitutional amendment that would authorize home rule cities having a population of 5,000 or fewer inhabitants to amend their city charters by a majority vote of a city's qualified voters at an election held for that purpose. The amendment makes clear that home rule cities that have declined in population below the population required to initially adopt a charter may nevertheless continue to amend their charters.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment allowing home-rule cities with a population of 5,000 or less to amend their charters by popular vote."

**PROPOSITION NO. 2
 ON THE BALLOT**

House Joint Resolution 10 proposes a constitutional amendment that would allow the legislature to authorize the Texas Department of Transportation to expend money, from any source available, for the costs of the turnpikes, toll roads, or toll bridges of the Texas Turnpike Authority, provided that any monies expended from the state highway fund shall be repaid to the fund from tolls or other turnpike revenue.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment mandating the repayment to the Department of Transportation of monies expended to assist the Texas Turnpike Authority in the construction, maintenance, and operation of turnpikes, toll roads and toll bridges."

**PROPOSITION NO. 3
 ON THE BALLOT**

Senate Joint Resolution 26 proposes a constitutional amendment that would authorize the Veterans' Land Board to invest, as authorized by law, moneys of the Veterans' Land Fund which are not immediately committed to the payment of principal and interest on bonds issued by the Veterans' Land Board, the purchase of lands, or the payment of expenses. Investment of such moneys would no longer be restricted to investments in bonds or obligations of the United States. The proposed amendment would also authorize the Veterans' Land Board to invest, as authorized by law, moneys of the Veterans' Housing Assistance Fund which are not immediately committed to the payment of principal and interest on general obligation bonds issued by the Veterans' Land Board for the benefit of the Veterans' Housing Assistance Fund, the making of home mortgage loans, or the payment of expenses. Investment of such moneys would no longer be restricted to investments in bonds or obligations of the United States. The proposed amendment gives the legislature power to implement the amendment and to delegate such duties and authority to the Veterans' Land Board as it deems necessary.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to authorize the legislature to further implement and enhance the administration of the veterans' housing assistance and land programs and to expand the investment authority of the Veterans' Land Board."

**PROPOSITION NO. 4
 ON THE BALLOT**

Senate Joint Resolution 4 proposes a constitutional amendment that would allow the legislature to authorize the issuance of a maximum of \$1.1 billion in general obligation bonds. The proceeds of the bonds are to be used to acquire, construct, or equip new prisons and substance abuse felony punishment facilities, mental health and mental retardation

institutions, and youth correction institutions, to repair and renovate existing facilities of those institutions and to acquire, repair, or renovate other facilities for use as state prisons or substance abuse felony punishment facilities. The \$1.1 billion is in addition to the \$900 million currently authorized by the constitution to be expended on bond issues for facilities of correctional and mental health and mental retardation institutions. The bonds would constitute a general obligation of the state. The bonds and interest on the bonds would be paid from the first money coming into the state treasury that is not otherwise appropriated by the constitution, less any amount in a sinking fund at the end of the preceding fiscal year that is pledged to payment of the bonds or interest.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the issuance of up to \$1.1 billion in general obligation bonds for acquiring, constructing, or equipping new prisons or other punishment facilities to confine criminals, mental health and mental retardation institutions, and youth corrections institutions, for major repair or renovation of existing facilities of those institutions, and for the acquisition of, major repair to, or renovation of other facilities for use as state prisons or other punishment facilities."

**PROPOSITION NO. 5
 ON THE BALLOT**

Senate Joint Resolution 39 proposes a constitutional amendment that would allow a county, junior college district, or municipality to exempt tangible personal property from ad valorem taxation if: (1) the property is acquired or brought into the state in an enterprise zone to be forwarded outside the state, (2) the property is assembled, stored, repaired, maintained, manufactured, processed, or fabricated in the enterprise zone, (3) the property is transported outside the state not later than 175 days after being acquired or brought into an enterprise zone, and (4) the person who acquired or brought the property into an enterprise zone is a qualified business. A county, junior college district, or municipality may exempt such property by entering into a written agreement with a qualified business that states the duration of the exemption and the terms on which the exemption is granted. Any action to exempt property must be taken before April 1 of the first year in which the property would otherwise be taxed. The term "enterprise zone" means an area that (1) has been designated as such by a state agency responsible for economic development, and (2) has pervasive poverty, unemployment, and economic distress. The term "qualified business" means a business that meets the qualification established by general law, and requires that the qualified business is actively engaged in a new business in the enterprise zone or is expanding a business that is already active in the enterprise zone. An enterprise zone is created to foster economic development in an area of pervasive poverty and unemployment.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the exemption from ad valorem taxes of certain property in an enterprise zone."

**PROPOSITION NO. 6
 ON THE BALLOT**

Senate Joint Resolution 8 proposes a constitutional amendment that would establish a Texas Ethics Commission with the powers and duties provided by law. The commission would consist of eight appointed members selected as follows: two members of different political parties appointed by the governor from a list of at least ten names submitted by the members of the house of representatives from each major political party; two

members of different political parties appointed by the lieutenant governor from a list of at least ten names submitted by the members of the senate from each major political party; a major political party is a political party required by law to hold a primary. With the exception of the initial appointees, commission members would serve for four-year terms. A member who has served for one term and any part of a second term would not be eligible for reappointment. The commission would be authorized to recommend the salary of the members of the legislature and may recommend that the salary of the speaker of the house of representatives and the lieutenant governor be set at an amount higher than that of other members. If the commission recommends a change in salary, the voters would be authorized to accept or reject the salary change at the next general election for state and county officers. If the voters approve the recommended salary, that salary would take effect January 1 of the next odd-numbered year; if the voters reject the recommended salary, no change in salary would occur. The commission would set the per diem of the members of the legislature and of the lieutenant governor. The per diem could be raised or lowered biennially as necessary to pay members' costs, but could not exceed the amount allowed as of January 1 that year as a federal income tax deduction for living expenses incurred in a legislative day in connection with a member's business as a legislator, disregarding any federal income tax exception for legislators residing near the Capitol. The commission would have other powers and duties provided by the commission's enabling act (Senate Bill 1, 72nd Legislature, Regular Session). The amendment would also provide that an increase in the emoluments of the office of Lieutenant Governor would not make a legislator ineligible to serve in the office of Lieutenant Governor.

**PROPOSITION NO. 7
 ON THE BALLOT**

Senate Joint Resolution 6 proposes a constitutional amendment that would allow the board of trustees of each statewide public retirement system to invest the funds of the system in such manner as the board considers prudent. The board would no longer be limited to investing the funds of the system in securities.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to allow the board of trustees of a statewide public retirement system to invest the funds of the system in such manner as the board considers prudent."

**PROPOSITION NO. 8
 ON THE BALLOT**

Senate Joint Resolution 21 proposes a constitutional amendment that would permit the legislature to create debt by or on behalf of the state if the legislation submitted the debt question to the voters of the state in the form of a proposition and a majority of those voting approved the proposition. The legislature may call the election, by joint resolution approved by at least two-thirds of the members of each house, during any regular session or during any special session if the subject of the proposition is included in the Governor's proclamation for that special session. A proposition must clearly describe the source of payment for the debt. The amount of debt stated in the proposition may

not be exceeded and may not be renewed unless the right to exceed or renew is stated in the proposition. The legislature may enact laws necessary to implement the authority granted by a proposition. A law enacted in anticipation of the election on a proposition is valid if, by its terms, it is enacted subject to approval of the related proposition. State debt that is created following voter approval of a proposition and that is approved by the Attorney General is incontestable for any reason.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land for which there is not a valid transfer of title from either the State or the Republic of Texas to a private party. A patent is a document of title issued by the state. On application to the School Land Board, a person is entitled to receive a patent if: (1) the land is surveyed public free school fund land, (2) the land was not patentable under the law before the adoption of this proposed amendment, (3) the person acquired the land without knowledge of the title defect of the State of Texas or the Republic of Texas and held the land under color of title, the chain of which dates from at least January 1, 1941, (4) the person has a recorded deed on file in the county courthouse and, in conjunction with his predecessor in interest, has claimed the land for at least fifty years as of January 1, 1991, and (5) the person, in conjunction with his predecessor in interest, for at least 50 years has paid taxes on the land together with all interest and penalties associated with any delinquency. If the applicant is denied a patent, the applicant may file suit against the School Land Board in a district court in the county where the land is located within 60 days from the date of denial. The proposed amendment does not apply to beach land, submerged land, or islands, and may not be used to resolve a boundary dispute. The proposed amendment also does not apply to land found by a court to be state-owned or to land on which the state has given a mineral lease that is in effect when a patent is sought. A patent under this proposed amendment for land within five miles of mineral production shall reserve minerals to the state in the manner provided by law for reservations of minerals in sales to claimants of unsurveyed school land within five miles of production. An application for a patent under this proposed amendment must be filed with the School Land Board before January 1, 1993.

This proposed constitutional amendment is similar to the version of article VII, section 4A, that was in effect between 1981 and 1990. The main difference is that under the earlier version the applicant for a patent to land had to have a chain of title that dated back to at least as early as January 1, 1932.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years."

Craft Show Set For October 19

The Xi Upsilon Delta Chapter of Beta Sigma Phi in Mt. Pleasant, is sponsoring its annual Arts and Crafts Show on Saturday, October 19 at the Titus County Civic Center in Mt. Pleasant.

The show is to benefit local charities and to fund the annual scholarship for a nursing student at Northeast Texas Community College. To obtain space for a booth contact Pam Dunn at (903) 572-6405.

Proposed Amendment

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the legislature to exempt from ad valorem taxes certain property of a nonprofit corporation that supplies water or provides wastewater service."

**PROPOSITION NO. 11
 ON THE BALLOT**

House Joint Resolution 8 proposes a constitutional amendment that would allow the legislature to pass laws to authorize the State of Texas to operate lotteries and to enter into a contract with one or more legal entities that will operate lotteries on behalf of the State of Texas.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing a state lottery."

**PROPOSITION NO. 12
 ON THE BALLOT**

Senate Joint Resolution 34 proposes a constitutional amendment that would increase the total amount of bonds that may be issued by the Texas Water Development Board to provide wholesale and retail water and wastewater facilities to economically distressed areas of the state. The proposed amendment increases the maximum principal amount of the bonds from 20 percent to 50 percent of the \$500 million amount authorized by article III, section 49-d-7, of the Texas Constitution. The proposed amendment would increase the maximum aggregate dollar amount of bonds that the Texas Water Development Board could issue from \$100 million to \$250 million.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to increase from 20 percent to 50 percent the percentage of Texas water development bonds previously authorized by Texas voters that may be issued for economically distressed areas."

**PROPOSITION NO. 13
 ON THE BALLOT**

Senate Joint Resolution 2 proposes a constitutional amendment that would allow the legislature to pass general laws authorizing Texas Higher Education Coordinating Board or its successor to issue and sell up to \$300 million of general obligation bonds to finance education loans to students. The maximum net effective interest rate to be borne by the bonds would be set by law. The amendment would also authorize the legislature to provide for the investment of bond proceeds and to establish an interest and sinking fund to pay the bonds and provide for the investment of such fund. Bonds authorized under this amendment would be paid from the first money coming into the treasury in each fiscal year that is not otherwise appropriated by the constitution, less any amount in an interest and sinking fund established at the end of the preceding year that is pledged to the payment of the bonds or interests.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment providing for the issuance of general obligation bonds not to exceed \$300,000,000 to continue existing programs to provide educational loans to students, with repayments of student loans applied toward retirement of the bonds."

**PROPOSITION NO. 15
 ON THE BALLOT**

Senate Joint Resolution 15 proposes a constitutional amendment that would allow the legislature to pass general laws to exempt property owned by a nonprofit corporation organized to supply water or provide wastewater service from ad valorem taxation. A nonprofit corporation would be eligible for the exemption if its bylaws provide that

after the discharge of the corporation's indebtedness will be transferred to an entity providing water supply or wastewater service, or both, which is exempt from ad valorem taxation. The transferred assets must be property that is reasonably necessary for and used for water supply and wastewater services.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the legislature to exempt from ad valorem taxes certain property of a nonprofit corporation that supplies water or provides wastewater service."

VFW Auxiliary Meets

The Ladies Auxiliary to Post 3990 met on September 3 with Laverne Williams presiding. Thirty-four members with seven new members were present. The new members are Eva Bolding, Delores Williams, Linda Addis, Jennie Sadler, Verring Williams, Nina Wilhelm and Eva Keeling.

Special guest Frances Harrell, State Cancer Aid and Research Chairperson reported that the 1991-92 goal is \$300,000.00. She asked for all to really work to help meet the goal.

Mary Cross, Nadine Ammons, Natalie Raye, Joanne Faulkner, Katie Armstrong and Rebecca Lenoir gave reports on the nursing home activities. In August special parties are held for the patients. The ladies did an outstanding job. Chester and Myra Kilmer are working on the Voice of Democracy and are Post 3990 chairpersons. Jim and Joanne Faulkner are the District 12 Voice of Democracy chairpersons. They will be visiting schools in the area for students to win a scholarship.

On Sunday, September 1, 12 veterans from Bonham VA Hospital were guests of the Post. They enjoyed playing bingo and dinner. Odis Smithart of the hospital made and

donated a covered wagon and Wells Fargo stagecoach. These were auctioned off later with the funds going to Cancer Aid and Research. On August 25, the auxiliary had a cake walk with the proceeds going to the same organization. \$350.00 will be sent to Cancer Aid and Research. Geraldine Rowe, Cancer Aid and Research Chairperson for the Ladies Auxiliary has asked that Saturday, November 16 be set aside for the yearly auction. The public will be invited with all proceeds going to Cancer Aid and Research. There will be a western dance at the Post on September 21 with the proceeds going to Cancer Aid and Research. The public is invited to attend.

Linda Ballard reported that the POW-MIA program will be on September 19 at Thomas Justiss School with the fifth grade participating this year. On October 29 there will be a Halloween Carnival for the children at the Post home.

The National Convention was held in New Orleans in August with 14 members attending from Post 3990. Over \$1,000 in awards were given to Texas.

The next meeting will be September 17 at 8 p.m.

4-H Plans Assistance With United Way Campaign

Fall is in the air and with fall comes a flood of 4-H activities. One of the most important activities in the near future is the annual kickoff of the Lamar County United Way Campaign. As in the past, the County 4-H Council and all of the county clubs will be directly involved in the campaign.

One major aspect is the distribution of posters. This is where the county 4-H program comes in. We will again be assisting the United Way with distribution of posters in Lamar County. The posters should be available for members to pick up at the office next week.

September 1 marked the first day of the 1991-92 4-H year. Because Texas is set on a zero based enroll-

ment system, all members and leaders must re-enroll each year. The majority of the enrollment in Lamar County was held in May. However if you did not re-enroll or if you're a new member or leader, you can enroll at the next regular club meeting of your choice.

Remember, 4-H is open to all youth who have entered the third grade or are between the ages of 9 and 19. All programs conducted by Texas A&M and the 4-H program are open to all youth regardless of socioeconomic level, race, color, religion, handicap or national origin.

If you have an interest in becoming a 4-H member or leader, call our office at 737-2443.

from Bogata will play at 7 p.m. for a country-western, two-stepping music show.

On Friday, September 20, a Fiddler's Contest will be held at 7 p.m. with lots of local talent following the competition.

United Methodist Women Meet

The United Methodist Women met September 8 in the home of Virginia Kirkland of Deport for their regular meeting.

The meeting was called to order by the president, Ruth Chipman. She gave the devotional entitled "Daily Dozen", giving a dozen things we can do to be better church members and better neighbors.

Melba Ladd was program leader and introduced Mrs. Glen Renfro who gave an interesting program entitled "Partnership Mission". This included a talk and showing slides of she and Rev. Renfro's trip to New Zealand.

She said the people in New Zealand were very spartan and everything was clean and orderly, you saw no trash or litter in the streets and yards. Their homes were very plain wooden frame houses. She didn't see any houses built of brick.

The yards, pastures and hedges were trimmed to perfection with many beautiful flowers graced each yard.

The people there think Americans are the ugly Americans. They believe Americans are a haughty and wasteful people and that they think they are better than people of the world. After the Renfros visited with them, they came to realize that all Americans are not that way and that was just a misconception.

She displayed beautiful shells that she picked up on the seashore, also jewelry made from shells and beautiful handwork.

The people make all their sweaters because they import wool for their livelihood and have much in abundance.

The meeting adjourned with the Mizpah. The next meeting will be September 16 in the home of Ida Lou Read. Lucille Couch will be program leader.

Mrs. Riley Lynn was welcomed as a new member.

The hostess served a salad plate to 13 members during the social hour.

NOTICE OF COMPARABLE TAX RATES AND REVENUES

The legislature has enacted a statute on school funding to comply with a court mandate enforcing the state constitution. Under prior statutes (SB 1) the tax rate for last year provides \$ 4016 per student in state and local revenues. Under this statute (SB 351) that same rate now provides \$ 4093 per student in state and local revenues.

State law only requires a minimum tax rate of \$.78 for county education districts. State law does not require a school district to adopt additional taxes. Neither does state law require a school district to adopt a tax rate that maximizes the receipt of state funds.

The board of trustees of the Prairiland School District hereby gives notice that it is considering the adoption of a tax rate of \$.19 that will provide \$ 4167 per student in state and local revenues.
