Is it just me? Or has marriage come to mean so little?

I consider myself pretty tolerant and open minded about most things...but to me marriage is serious business.

I just heard about a contest which seems to reduce marriage to the level of a game.

A radio station (not anywhere in this area, thank goodness) announced that they weren't going to run the usual Valentine's Day contests. Instead of the lucky couple winning roses, a limo to pick them up for a special night on the town or something similar the winners of THIS contest were awarded a divorce!

No, I'm not kidding.

The winner of the contest would have an uncontested divorce paid for, a final "evening out" at a restaurant, and then would be taken to the lawyer's by limosine!

The frightening part to me was that they were getting a huge response from listeners entering.

Now, I don't want to sound too old-fashioned here...but since when was marriage so casual that divorces were the subject of radio contests? I'm not against divorce...in many cases it may well be the best answer to a bad problem.

But marriage is something that has to be worked at. It isn't going to be all roses, soap operas, exciting, easy and wonderful all the time.

Yet divorce has become so easy, quick and convenient that people rush into marriages before they are sure...and rush right back out again at the first signs of trouble.

Statistics prove this to be true. The idea of the "normal" American family still persists...but in reality there are now many more children being raised with single parents, or parents who have remarried than there are kids being raised by undivorced, biological parents.

I repeat...divorce is often the only answer. But I'm also afraid that the basic idea of working problems out...of trying to stick it out through the bad patches in life, has fallen by the wayside.

Come on people...divorce is as serious as marriage...and having a contest in which the WINNERS get a divorce offends me.

I'm sorry...I just don't see that there are any winners in such a sad situation!

## Blood Drive To Take Blood For Glenn Renfro

Several days ago it was learned that Rev. Glenn Renfro would be undergoing kidney surgery right away. This very serious surgery will require some blood replacement.

When some of Glenn's friends found out about this, they contacted Stewart Blood Center in Tyler and arranged for their technicians to be in Deport at the American Legion Building on Saturday, March 6, from 9:00-2:00 p.m., so the many friends of Glenn and Dorothy could help out in this aspect and show their love and appreciation.

It is the goal of Deport to have at least 50 acceptable donors by the end

of the day, March 6. We urge any persons who feel they are able to give one pint of their life-giving fluid in order to help someone else, to mark March 6 on their calendar.

It does not matter what your blood type is, as this is a replacement drive. Any blood collected that day, after Glenn's replacement amount is met, will be used for someone else's benefit.

Stewart Blood Center will notify Glenn and Dorothy of your kindness in giving blood in Glenn's name.

Wouldn't it be a great community project to have a community blood drive each year!

## In 1899 It Was Cold...Real Cold

Feeling a little chilly? Well, it could be colder!

An old newspaper clipping relates what the weather in the Red River Valley was like back in February of 1899. The clipping was brought in by Buck and Ann Roberts.

On Feb. 10, 1899, the weather was pretty normal for the time of year.

But, folks that knew looked to the north and saw a big blue cloud bank. The temperature dropped ten degrees in a few hours, and then light snow began to fall, turning to sleet about "milking time".

By nightfall the thermometer had settled to near zero.

At ten that night the temperature

was four below zero, and would go on to ten below.

On Feb. 12, 1899, at 7:30 a.m. the official U.S. Weather Bureau read 15 below in Paris. It was the coldest weather ever officially recorded in the area before or since.

So, don't shiver too hard, it could be colder.

In another clipping the opposite of the cold was recalled.

Back in 1936 the mercury hit another all time record...one hundred and fifteen degrees.

Just think, back then there were no air conditioners.

It is reported that matches ignited from the heat. This was before the safety matches.

**Country Cooking**

By Judy Screws

Have you ever sold Girl Scout cookies? I have. I only did it once. It was back in "the olden days", my children's favorite way of referring to my childhood. I was a Girl Scout one year. Grace Branch was our leader. At that time you did not take orders for cookies and then deliver them at a later date. You took boxes of cookies from door to door and sold them. There was only one flavor, and I can't remember whether they were 25¢ or 50¢ a box. I do remember that the two girls (we went in pairs) who sold the most cookies were to receive a Girl Scout knife. That knife had a blade for everything. You could probably have survived in the woods forever with it.

My next encounter with Girl Scout cookies occurred when one of my daughters sold them. There were a few more flavors, and the price was a little higher. The girls took orders, and then delivered the cookies later. Then they took the money and the cookies that folks had decided not to buy back to their leader. My daughter had her money in a bank bag. It disappeared. We looked for that bag 'til the world looked level. By re-enacting a few days of activities, we finally deduced that the money went out with the trash. For once in my life I got lucky. When I went out to dig in the garbage, I discovered that the trash man had not yet picked up the trash. The money was recovered. Our family rejoiced. If I remember cor-

rectly this was the same daughter who wondered why people could not have just had one foot so that she wouldn't have to find two matching shoes and socks.

Then we went through the stage where everyone would say things like, "If anyone delivers Girl Scout cookies, pay for them. I ordered a few boxes."

To keep from having a freezer full of cookies, we had to make some definite rules about cookie buying. Of course, rules do not apply to my husband. The other day I asked him how many boxes of cookies he had ordered at work. He said "Not to many".

According to Lee Williams, local Girl Scout leader, we should be receiving our cookies any day now. Whether you bought a few boxes, or got left with some that folks changed their minds about, perhaps you'd like to try some of the recipes which have been created using Girl Scout cookies. Mrs. Williams says that she will have some extra boxes if you would like some. She can be reached at 632-4292.

I feel sure there will be a special place in Heaven for parents who care enough to work with Girl Scouts, Boy Scouts, Little Dribblers, Little League, etc.... Never miss an opportunity to say a big thank you to these folks who are trying to guide our children and grandchildren toward a better tomorrow.

**Presbyterian Women Meet With Mrs. Singleton**

The Circle of the Deport Presbyterian Women held their February meeting in the home of Mrs. Myrtle Singleton for Bible study from the book of James and the Integrity of Faith. The study topic was "Stand Fast in Trials and Temptations". Mrs. Reba Temple, moderator, gave the opening prayer. Mrs. Temple announced that the NE District spring workshop is scheduled for April in Greenville. Offering of the Least Coin was collected. Mrs. Tom Foley directed the lesson from Peter, Chapter 1:2-18. The following aspects of "Stand Fast in Trials and Temptations" as addressed by Peter in the scripture were studied and discussed by the members: A Perspective on Trials, Prayer in the Midst of Trials, Poverty

and Riches and God's Role in Trials and Temptations. From these scriptures the group learned that suffering and temptations can be endured, knowing that God-given lives are worth living in loving relationship to God and neighbors. The meeting closed with prayer. Refreshments were served by the hostess.

**Arm your home against energy waste with caulking and weatherstripping**

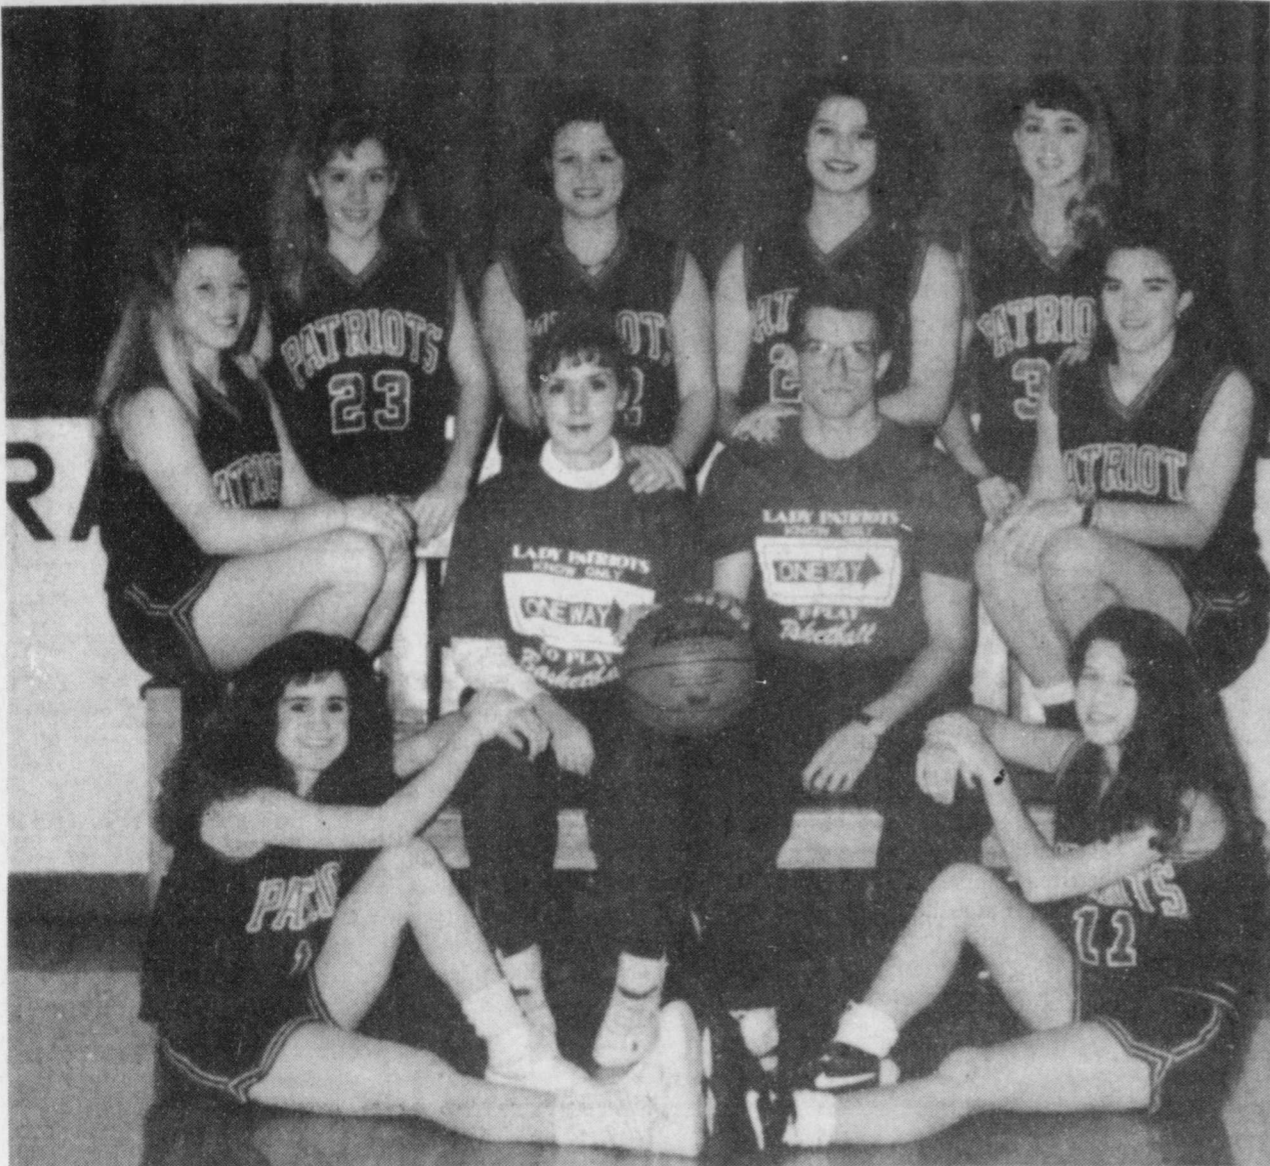

Wipe out air leaks around windows and doors, and you can declare a victory in the battle against energy waste. Caulking and weatherstripping are your best weapons in this fight against leaks... leaks that can waste from 15 to 30 percent of the air you pay to heat and cool.

Caulking and weatherstripping are highly effective, but they're relatively inexpensive — and easy. You can probably caulk and weatherstrip your home in a weekend.

For more information about fighting energy waste, call or visit your local Texas-New Mexico Power Company office and ask for the free brochures, "Straight Talk about Weatherstripping" and "Straight Talk about Caulking."

## Local Towns and GTE Post Successful 1992 Year

The exchanges of Bogata, Deport, Detroit and Talco, along with GTE, posted a successful year during 1992, according to Bob Tullos, division manager for GTE in Texarkana.

"All of the exchanges showed slight growth during the year," he said. "While not the type of growth established in the early 1980s in most areas, it continues a steady growth pattern for this area."

Tullos said GTE employees in all these exchanges and the Eastern Division of GTE were again honored based on survey comments by customers for their level of expertise and dedication to providing the highest quality of service possible.

"During 1991, more and more customers rated the quality of service provided by Eastern Division employees at the excellent level, allowing our employees to win monthly competition between GTE divisions, in an area from Texas to Minnesota, 6 or 12 months," he explained.

"During 1992, we won the monthly competition again in January, and

after the contest was changed to a quarterly basis, our customers helped us win both third and fourth quarter competition."

GTE employees assigned to the area who received special recognition for the honors are Donnie Strain, installation/repair technician, Dale Guess, cable splicer, Rick Hart and Robert Lewis, central office repair technicians, and Dan LaCook, local manager.

"The wins are especially rewarding since the results were based on what our customers think about the quality of service being provided," the telephone official said. "Most customers are rating service good or excellent."

"Our internal measurements of the quality of service being provided in Bogata, Deport, Detroit and Talco show a high quality. The results of the contests have shown our customers recognize that quality as well as the dedication of our employees and their commitment to excellence," he said.

## Rep. Pete Patterson Appointed To Chair Committee

House Speaker Pete Laney announced today that he has appointed Representative Pete Patterson, D-Brookston, to chair the House Committee on Agriculture and Wildlife Management. He has also been appointed to serve as a member of the Investments and Banking Committee.

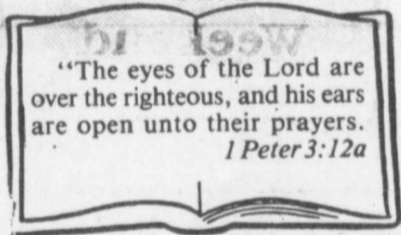

"I realize that committee assignments are important because committees are where most of the House's work gets done," Laney said. "I feel that Representative Patterson's skills and expertise will be put to good use in these committee positions."

The House now has 31 committees, down from 36 last session. The system was streamlined and reorgan-

ized after a study showed that some committees received too many bills while others received too few. "Balancing the workload among the panels will give each House member a better opportunity to participate in the process," Laney said.

The 11-member Committee on Agriculture and Wildlife Management has jurisdiction over agriculture, state parks and wildlife and related state agencies.

The 11-member Committee on Investments and Banking has jurisdiction over banking issues and oversees several state agencies including those that handle retirement benefits for government employees.

## Single Family Housing Loans Available

Rural Housing Loans for very-low and low income applicants are available through County Offices of Farmers Home Administration (FmHA), Robert Hendley, FmHA County Supervisor, said today.

Home ownership loans may be used to buy, build, improve, and repair rural homes and to provide adequate water and waste disposal systems. Homes may be built on individual tracts or in subdivisions.

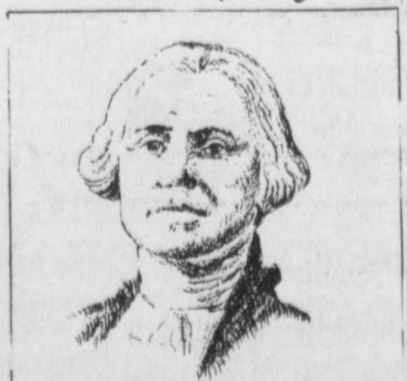

Funds may also be used to modernize homes -- add improvements such as bathrooms, central heating, modern kitchens and other improvements. Borrowers may buy an existing house and lot or buy a site on which to build a home. Loans may be made for up to 100% of the appraised value of the site and the new home. Interest rates for this type of loan are presently 7.75% with 33 year terms. Monthly payments are subsidized with the

amount of the payment dependent on the borrower's annual income. Homes will be modest in size, design, and cost but adequate to meet the family's needs. New homes average about 1,050 square feet of living area.

In addition, Farmers Home Administration guarantees home ownership loans made to applicants of low or moderate income. Guarantees offer opportunities to families who are unable to afford a commercial loan with a guarantee. These loans may be made for up to 100% of the value of the property and are made for terms of 30 years. The interest rate is based on the Federal National Mortgage Association rate with a maximum loan amount in most counties of \$67,500.

The Farmers Home Administration assists rural America by guaranteeing private sector loans and by providing temporary, supervised direct loans to farm and housing borrowers who have a reasonable chance for success, and whose current needs cannot be met at reasonable rates and terms by commercial sources. The Agency is committed to excellence in providing its services.

Applications for assistance may be obtained at the Farmers Home Administration office located at 1809 W. Ferguson Road, Suite C. FmHA County Supervisor said. The FmHA office in Mt. Pleasant is open from 8:00 to 5:00 Monday through Friday.

True friendship is a plant of slow growth and must undergo and withstand the shocks of adversity before it is entitled to the appellation.

**"Salute To Hospitalized Veterans Week" Proclaimed**

February 14, 1993 was proclaimed as SALUTE TO HOSPITALIZED VETERANS WEEK by the Major of Paris. Many veterans of America's Armed Forces, who have served in war and peace, are now hospitalized and separated from families and friends. The Veterans of Foreign Wars Post 3990, Paris, and Ladies Auxiliary have urged all to visit hospitalized veterans during this special week, also to pay special tribute and honor their sacrifices through community ceremonies, activities and visits to veterans hospitalized in VA Medical Centers, Nursing Homes, Service Hospitals and Domiciliary

ies. Members have planned to visit a lot of patients in the nursing homes and hospitals and call the homebound, taking a home cooked meal, if possible. But, the main thing has been to give them your time, taking time to send a card, just to let them know they're not forgotten.

About 70 percent of the people in America read a newspaper at least once a day.

**Deport Locals**  
*By Kathy Guess*

Mrs. Thomas Westbrook of Bogata is in the nursing home there. Jack Ballard and family of Texarkana spent Sunday with his parents, Mr. and Mrs. L.C. Ballard. His daughter, Marlana, won a prize and will go back to Ft. Worth next Saturday. Mrs. Velma Westbrook was in Paris for her sisters birthday party Saturday. Mrs. Christene Upchurch's husband died last week. She is from Amarillo. Mrs. Irene Bayless of Amarillo sprained her knee. Mr. and Mrs. Curtis Upchurch of Amarillo returned Wednesday, after being in Ft. Worth and Paris and Deport to see his sister and family, the Ballards and her aunt, Mrs. King, in Paris. Joining Larry Whittle on Friday for a Mexican dinner in honor of his 34th birthday were Ruth Whittle, Kathy Guess, Lee Bice and his family, Judy, Penny and Susan. Every-

one enjoyed a wonderful meal and birthday cake afterwards. Ty Merritt of Paris spent Saturday through Tuesday with his grandparents, Duane and Martha Glover. David Glover and Jorge and Kathryn Martinez, all of Dallas, spent Sunday through Tuesday with David's parents, Martha and Duane Glover and visited other relatives. **Support Your Local Teacher**

Public school teachers, often criticized for the lack of time spent on actual classroom instruction, may never improve on that time without greater parental support and involvement, warns a Texas A & M education professor. When parents get involved in school activities it usually means teachers spend less time disciplining their students and students approach school tasks more seriously. Both result in more time spent on learning.

Visiting Mr. and Mrs. Mervin Slaton Monday night were her mother, Katherine Anderson of Post Oak, Brother, Mr. and Mrs. Bennie Freeman of Paris and her sisters Huetta Bickle and Geneva Turner of Dallas.

Richard Nance, Tom and Midge Foley and Thomas and Nanalee Nichols went for fish at Vaughn's Catfish Friday night.

Sunday luncheon guests at Hugh and Medora Jeffus' were Thomas and Nanalee Nichols, Hugh and Vicki Jeffus and Jeff.

Mrs. Theda Short and Nell Pursifull of Paris visited with the Walker Devlins Sunday.

Walker and Willie Devlin attended a special diner for couples that had been married more than fifty years at Furr's in Paris Sunday afternoon.
