

Nichols  
Worth

By Nanalee Nichols

A friend brought me a stack of magazines from the 1950's.

They include *McCalls* and *Ladies Home Companion*, both of which have provided a fascinating glimpse back into the way things used to be, especially for women and their families.

I was a little girl during that time, and my memories focus more on listening to my big brother's records and wishing for a "poodle skirt" like the older girls had. The rest of the world at that time was simply taken for granted.

But looking into the pages of these magazines showed just how much things have changed in the past thirty to forty years!

For one thing a good portion of the stories in these women's publications focused on getting a husband and keeping a husband.

One article, featured on the front page, was called "129 Ways To Get A Husband", a title that would surely not find favor in today's society!

Yet another article focused on what a woman's role as a wife and mother was.

The article said, and I quote, "a wife's role is to provide a warm, pleasant atmosphere for her husband in order to give purpose to his life, and to provide a healthy atmosphere to bring up children in".

Most of the articles centered upon child development, caring for a newborn, keeping husbands from "straying", decorating and clothing.

The advertising mentioned new stoves, new vacuum cleaners, new refrigerators and tele-

phone services....not a word about computers, microwaves or VCRs. At that time there was no such thing for the general public!

Almost every ad featured a child of some age or another. Teenagers seemed to almost not exist....the kids all seemed to be below the age of 10 or so.

There were not "money saving coupons" either.

Another thing which has changed radically is HOW the fifties wife and mother was supposed to keep her family well nourished and healthy.

Articles encouraged her to feed her family eggs, eggs and more eggs, real cream, whole milk in big quantities, lots of meats like pork chops and bacon, roasts and gravies and sauces! A far cry from today's low-fat diets, indeed.

The cold war was a new and frightening venture into the unknown, as was atomic energy. Faith in governments seemed absolute!

All in all the articles provided a fascinating look backward. Since most of the changes in our lives come gradually, it was really interesting to actually be able to compare life then and now without the slow pace of years.

Life has changed, perhaps more than I had realized.

## Comptroller Sends January Tax Rebates Totaling \$123.3 Million

"Consumer confidence proved itself when Texas set out on some early Christmas shopping in November," Comptroller John Sharp said today, as he delivered more than \$123 million in January sales tax rebates to 985 Texas cities and 111 counties.

"This represents an impressive, near 25% increase over the monthly sales tax payments delivered a year ago," Sharp said.

Texas cities received \$110.6 million, up 25.3% above the \$88.2 mil-

lion of last January. Counties received a total of \$12.6 million for their January rebates, a 20.6% increase over January 1993 payments of \$10.4 million. These payments include taxes collected on November sales and reported to the Comptroller in December.

"For the fourth consecutive month, year over year employment increased statewide," Sharp said, "for an average of 2.1% above last year's figures."

## Recruit Clayton Nix Completes Basic Training

Navy Seaman Recruit Clayton L. Nix, son of Joyce T. Nix of Blossom, recently completed basic training at Recruit Training Command, Great Lakes, Illinois.

During the cycle, recruits are taught general military subjects designed to prepare them for future academic and on-the-job training in one of the Navy's 85 occupational fields.

Studies include seamanship, close order drill, naval history and first aid. Although the Navy is getting smaller, the state of the art ships,

aircraft and high tech systems in today's fleet require bright, talented young men and women to operate them. The Navy has over 60,000 job openings this year, most of which include guaranteed training.

## Cold Front Hits

Bitter cold surged into the area Monday as an arctic cold front hit.

Temperatures, which were predicted to fall to perhaps record lows Tuesday night, didn't do so however, although it was cold enough!

Nineteen was the recorded low in the area, which, after a day in which the temperature never went above freezing, resulted in frozen ponds and water lines. Temperatures were expected to climb during the week, however.

## Country Cooking

By Judy Screws

I've known Mary Jane and Wilford Lowry most of my life, but I've never really talked with Mary Jane until this last year. She is a retired Special Education teacher, and Wilford is a retired School Principal. They live at Blossom, and are active members of New Hope Baptist Church, in Paris.

When I called Mary Jane to ask her if I could feature her in this column, she gave me the standard answer, "Oh, no! I don't cook." I'm going to rename this column, or at least give it a subtitle, "The I Don't Cook Column". Then people would say, "You'll have to ask someone else, I cook all the time." I'm being a little unfair. Mary Jane hastened to add that while she didn't do much cooking now, she had many recipes and she would be happy to share them with me and the readers.

Mary Jane is the daughter of the late Mr. and Mrs. Clarence DeBerry. The Lowrys have a daughter and a Goddaughter. Janie Ballard, who is married to Mike Ballard, has 2 children; Ginnifer 20, and Ryan 17. Ginnifer is a Junior at Stephen F. Austin in Nacogdoches, and Ryan is a Junior at Spring High School in Gladewater. Janie works as a payroll specialist for Gladewater Schools. Goddaughter, Glenda Ballard (married to Jack) has 2 children. Marlene is a 10 year old 4 fourth grader and six year old Jordan is in the first grade. They live in Texarkana.

The Lowry's favorite meal is Red Beans, Mashed Potatoes, and Cornbread with a slice of onion. They also like steak and homemade soup. They have a garden and a truck patch, and they kill a calf each year so they have a freezer full of vegetables and meat.

Mary Jane is multi-talented. She writes poetry. She has published 3 books of poetry; "Glimpses of Glory", "On Wings of Joy", and "101 Rea-

sons To Love Kids". "On Wings of Joy" paid for a church steeple. She is a volunteer at Red River Haven Nursing Home, in Bogata, where James' mother Mrs. Alma Lowry is a resident. Mary Jane is also on the Family Council at the nursing home. Every 3rd Saturday at 2 P. M. she has some sort of activity with the residents. Sometimes it's a sing along, and sometimes she just reads to them and talks with them. She enjoys piecing quilts and does cross stitch.

Mary Jane had on a vest like none I had ever seen before. It was so cute. She said that Glenda had taken one of Wilford's vests and decorated it. It had buttons, stars, and bows and looked very creative.

I asked Mary Jane if her husband cooked. She said he cooks breakfast and he fries a "mean" skillet of fried potatoes. I asked if he cooked breakfast every morning. She said "No, he cooks breakfast". I now understand that is he is called upon to cook one meal a day or 3 meals a day, it is always breakfast. If Mary Jane is ill and he needs to cook for a day or two, they really get caught up on their breakfast eating. She said that Janie always dreaded her being sick when she was at home because she knew that it was breakfast 3 times a day.

The recipes this week are Mary Jane's creation of potato salad, a pecan pie from Dear Abby, a friend's perfect cornbread and sweet and sour meat loaf.

I am always a little afraid to interview someone I admire because I know I'll babble on and not do the interview justice, so just overlook my silliness and know that Mary Jane Lowry is a very interesting lady and my interview probably won't reflect that.

Thanks, Mary Jane.

Use amounts according to the number to be fed.

-Cut potatoes into large chunks. Boil until tender but not soft as for creaming.

-Cut fresh tomatoes into fourths.

-Cut bell peppers into short strips.

Let potatoes cool. Mix everything together, pour your favorite dressing over it and let sit in fridge several hours or overnight.

## Tribute To Judy Coyle Written

A news clipping from her local paper has provided a tribute to the late Judy Coyle, a onetime Cunningham resident.

The column referred to her as a "24 Karat Lady", a velvet hand among Sherman Tanks.

Written by Jan Dickson, the article says: "she was not whiner, but a doer; she did whatever had to be done with grace and considerable knowledge punctuated with tact. She was first and foremost a teacher, never having forgotten what the confines of the classroom were like. she was our friend in the midst of tumult...that friendship remains though the guiding hand is gone."

Coyle planted the seeds for the Association of Texas Professional Educators.

When teachers throughout the state were mandated to take an examination, she organized, through her ever-present tact and good sense, groups of association members to tour the

state assuring teachers that they could meet the challenge and remain the professionals that they are.

Perhaps a classic example of how beloved she was may be expressed in the story about a fifth grade student who, upon learning that she was ill, asked if she was in the hospital. When told that she was he asked if that was "That tall building at the end of the street". On being told yes it was he said "I think I could walk there". He was simply expressing his love and concern for alady who cared. The student sent her a Christmas note and a get well card which was mounted on a sheet of construction paper. He was not alone in his caring.

Judy Coyle came from Cunningham, and rose to be a well known, well respected person who lived her life to the fullest, the article says. Those who loved her know that no article can ever truly express what her life meant.

**Prairiland Varsity Teams Split Matches**

By Jack Whitley

The Prairiland Patriot Varsity boys traveled to Lone Oak Tuesday night. After defeating Lone Oak in overtime a week earlier, this time the Patriots fell short, losing 51-66. Prairiland only trailed by 2 at half-time.

Prairiland placed three people in double figures as James Dudley 13, Jon Pasquill 13 and Jason Whitley 10 led in scoring. Brock Blassingame and Whitley each had 8 rebounds in the contest.

The early showdown was set in Varsity girls' action as the top 2 girls teams in the district squared off. Prairiland traveled to Cooper to take on the state-ranked Cooper Lady Bulldogs.

Prairiland girls couldn't stay with the faster-paced Lady Bulldogs as they were outscored and out rebounded in every quarter. Cooper took the lead at 3-2 with 7 minutes left in the first quarter and never lost the lead as they went on to defeat

the Lady Pats 70-51.

Jamie Sue McLeroy led Prairiland in scoring with 18 points while Freshman Brea Sessums added 10 points. Sessums played an excellent floor game for the Pats. Cooper shut down the Prairiland duo of Davonna Brumley and Mandy Babb as they could only score 9 and 8 respectively. Prairiland could only manage 15 rebounds and McLeroy had 5 of them.

While the girls' game was to be the main attraction, the boys' game provided the most excitement for the remaining fans.

As the game stayed close with several lead changes, the score was tied at 34 at the end of 3. Tempers flared in the fourth quarter as the game was stopped twice in the 4th to cool things down.

With Prairiland leading 42-36 with 5:23 remaining in the fourth, the lead scorers of both teams were ejected, due to confrontations. Jason Whitley

of Prairiland and Cooper's leading scorer, Patrick Williams, both had to finish the game watching their teammates. The Prairiland Patriots responded by scoring 15 more points in the quarter while Cooper could only muster 5, allowing Prairiland to take the 57-41 victory. Prairiland boys are now 1-0 in district.

Leading scorer for Prairiland was Jason Whitley with 19 points while pulling in 10 rebounds. After the ejection of Whitley, Brock Blassingame came alive, scoring 14 of his 17 points in the quarter.

Prairiland's Gearl Keys, Zachery Allen, and Manuel Topia did an excellent job of getting the ball inside to the big men to control the game. Eddie Misak and Jeff Gilbert also came off the bench to do an excellent job when called upon.

Others having a good game on the boards were James Dudley 7, Brock Blassingame 6, and Jon Pasquill 5.

**Prairiland's J. V. Teams Play Good Games**

By Jack Whitley

Tuesday night's action saw Prairiland's J.V. Boys team travel to Lone Oak for a tough encounter. Prairiland trailed most of the way as Lone Oak led by as many as 12 points with 4:10 left in the second quarter.

Scoring only 12 points in the first, Coach Ronnie Baker got his team going in the second half as Prairiland scored 39 points to Lone Oak's 19 in the half for a Prairiland 51-28 victory.

Jeremy Day was the leading scorer as he slammed in 20 points while pulling in 9 rebounds. Joe Hampton also scored in double figures with 10.

Friday night saw both J. V. teams in action on the road, as they traveled to Cooper.

The Prairiland J. V. Girls four- the going tough as they never could seem to find the basket in a 22-28 loss to Cooper's J. V. team. Leading scorer for Prairiland was Kerri Anderson with 10 points. Others scoring were Misti Day 5, Tammie Gibson 3, Ambyre Whitley 2, and Angie Johnson 2. Angie Johnson had 4 steals in the contest.

The Prairiland J. V. boys had an easy time of it as they completely dominated Cooper 53-20. Leading scorers for Prairiland were Joe Hampton 13, and Jeremy Day with 12. Todd James added 9.

Prairiland's trio of Jamie Mullins, Day, and James completely dominated the rebounding with 11, 11, and 8, respectively.

The most wasted day of all is that on which we have not laughed.

**Lady Pats Lose To Cooper**

Lady Pats entered the Cooper gym confident to face the #1 2A state-ranked team. But their confidence was short-lived with over 30 turnovers. Their jitters were obvious.

They were as close as 3 points at different times during the game, but Cooper broke loose during the 4th quarter, defeating the Lady Pats 70-51.

Leading scorers were Jamie McLeroy with 18, and Brea Sessums with 10. Davonna Brumley followed with 9, Mandy Babb 8, and Trinity Bowden had 6.

Leading rebounder was Babb with 7.

Friday night the Lady Pats faced Wolfe City at home.

**Lady Pats Defeat Chisum**

The Lady Pats cruised to their first district win by beating Chisum 55-42.

Leading scorers were Davonna Brumley 15, Brea Sessums 11, and Kelly Cantrell 10. Mandy Babb fol-

lowed with 9, Trinity Bowden had 6, and Jamie McLeroy had 4.

Leading rebounders were Babb with 6, McLeroy and Bowden with 5 each.

**Raffles Without Hassles**

Legal Matters - Courtesy of Texas Attorney General Dan Morales

Texas depends on more than 25,000 charities to provide needed funds for religious, educational, and public welfare projects. However, it was only recently that the Charitable Raffle Enabling Act legalized raffles. The law is intended to prevent fraudulent fund-raising activities while allowing legitimate charities to conduct raffles legally.

**Who Can Hold a Raffle?**

Only qualified organizations may hold raffles, including: Non profit organizations that have existed in Texas for at least three years, and are exempt from federal income tax. Religious organizations that have existed in Texas for at least 10 years; and Volunteer emergency medical or fire departments.

**How Many Raffles Can Be Held?**

If your group is a qualified organization, it may hold two raffles per year, although only one at a time.

**What Prizes May Be Offered?**

Your organization may not offer money as a prize. It may offer a prize worth more than \$25,000, but only if it has not paid anything to acquire the prize. For example, a car dealership may donate an automobile with a retail value of \$30,000 for auction. But the organization may not buy the car for a discounted price and then raffle it off.

Also, the organization must have each raffle prize in its possession, or it must post a bond for the full value of the prize with the local county clerk.

**Key Points to Remember**

Only members of your organization may sell raffle tickets. The raffle may not be advertised statewide or through paid advertising. No one may be paid for organizing or conducting a raffle or for selling tickets. All raffle proceeds must be spent for charitable purposes. Each raffle ticket must state the name and address of the organization holding the raffle, as well as the name of an officer of the organization. The ticket also must list the price and a general description of each prize valued more than \$10.

**It's The Law!**

Under state law, an unauthorized raffle is considered gambling. Conducting an unauthorized raffle constitutes a third degree felony, which carries a maximum punishment of 10 years in the state penitentiary and a \$10,000 fine. Participating in an unauthorized raffle is a Class C misdemeanor, which carries a fine up to \$500. A county or district attorney, or the Attorney General, may bring action a state court to stop an unauthorized raffle or other violations of the Charitable Raffle Enabling Act.

**What To do?**

The language of this law is very technical. If you are considering holding a raffle to benefit an organization, you should read the act or consult your attorney.

For more information about charitable raffles, please call our toll-free hot line at 800-621-0508.

## Final 1994 Upland Cotton Acreage Reduction Announced

Secretary of Agriculture, Mike Espy, announced that the acreage reduction percentage for 1994 crop upland cotton will be 11 percent. This is a 6.5 percentage point reduction from the preliminary level announced on November 1 and reflects tightened 1993 crop supplies resulting from a reduction in estimated U.S. and foreign cotton production in 1993. Espy

said that the 11 percent acreage reduction for 1994 is projected by USDA to be the level which most closely con-

forms with applicable statutory requirements regarding the maintenance of a desirable end-of-year stock level.

The announced upland cotton acreage reduction percentage is lower than the preliminary level, so upland cotton producers in "early planting areas" will not be unfairly disadvantaged by the change.

**TAX FACTS**  
by JOHN SHARP  
TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

### Grocery store coupons

A lot of people collect coupons to redeem when they make purchases at the grocery store.

The coupons can save you money and, in some cases, lower the amount of sales tax you pay on your purchases.

Whether you save tax, of course, depends on the items you purchase. Food items are not subject to sales tax, whether you pay the full price for them or use a coupon to lower the price.

The real savings comes when you purchase otherwise taxable items with a coupon. Suppose you purchase a package of party napkins that are priced at \$1.50. Without a coupon you'll pay sales tax on the full amount.

A coupon for the napkins valued at 50 cents lowers the price of the item to \$1. Now, you'll only pay sales tax on \$1.

### About that restaurant coupon

Let's say you and a companion plan to have dinner at a restaurant.

You've received a coupon that entitles you to order two dinners, pay the cost of the higher meal and receive the second dinner free.

It's a good idea to tell the waitperson before you order that you have a coupon.

Then the waitperson knows to deduct the cost of the lesser meal from the total bill before figuring the sales tax.

In other words, you'll owe sales tax only on the total amount you pay for the meal—not the cost of the meal before the value of the coupon is deducted.

# Turkey Stocking Nears Completion

Nellie T. Ross of Wyoming held two important firsts for women. She was the first woman governor in the U.S. from 1925 to 1927 and later was the first woman to serve as director of the U.S. Mint.

After some 70 years of attempts and failures by the state to restore wild turkeys to East Texas the task finally appears near completion, according to the Texas Parks and Wildlife Department. A time frame might indicate, to say the restocking effort has met with some setbacks would be an understatement.

With wild turkey populations in East Texas dwindling--by 1942 estimates pointed to less than 10 birds--Texas has looked to practically every conceivable means of restoration. From 1924 to 1978, over 4,000 combinations of wild-trapped Rio Grande turkeys, pen-raised Easterns and pen-raised crosses were introduced into East Texas--none resulted in viable populations.

Why? In a nutshell, Rio Grande turkeys can't adapt to East Texas climates and pen-raised birds are not hearty enough to survive in the wild.

By 1978 it became apparent if East Texas was to have wild turkeys again wild-trapped Easterns were the only solution.

The problem, however, was the difficulty in obtaining wild-trapped Eastern wild turkeys for broodstock. Texas had no remnant flocks to trap from, and other states were in the process of expanding their own populations and we didn't have any species of interest to other states to barter for turkeys. So, from 1978 to 1986 the program stumbled along with 20 birds released at 11 sites in eight East Texas counties.

Then in 1987, a breakthrough oc-

curred when the TPWD and the National Wild Turkey Federation teamed to negotiate the acquisition of wild-trapped broodstock from other states for \$525 apiece to compensate for the cost of capture and transport. This alternative to wildlife swapping

opened the door for broodstock acquisition. The only factor limiting the number of turkeys was how many birds could be trapped.

A grassroots effort helped provide funding for the program, including appropriations through TPWD's Fund 9 (sale of hunting and fishing licenses) donation of portions of revenue generated from tracts of private timber company land enrolled in TPWD's public hunting land and sales of Texas Turkey Stamps. In addition, the U.S. Forest Service, National Forests and Grasslands in Texas has contributed cost shares for turkey stockings on National Forest lands and the NWTFF has contributed funding their Super Fund banquet program.

Through this concerted effort, since 1978, 3,593 wild turkeys have been released in 38 East Texas counties at a cost of nearly \$2 million. And, according to TPWD Eastern Wild Turkey Program leader John Burk, the investment is coming to fruition, with the potential for spring gobble hunting in some East Texas counties in the near future.

According to Burk, the initial phase of the restocking program could possibly be completed by March of 1995, depending on the availability of broodstock. Burk has identified 64 release sites in 20 counties, which would require 930 turkeys for the 1994 stocking season.

"We are also looking toward the southern Post Oak region for potential Eastern turkey stocking sites, but this region has not been evaluated yet," Burk said. "Although we are approaching the end of the initial phase of the stocking effort (the block stocking of prime habitat in all counties with Eastern turkey range)

we will probably never be out of the restoration business, however, after

we stock all of the prime sites, including southern Post Oak, the remainder of our restoration stockings will be done with Texas turkeys.

"Other states are committed to giving us birds, but it all depends on how many birds they can catch," Burk went on to add. "If there's no snow and you can't bring the birds in to feed, you can't rap them."

Even so, Burk anticipates completion of block stocking efforts in several counties in the Pineywoods, which in turn, sets in motion the timetable toward establishing a huntable population. Research involving turkey restoration in other states has shown typically, that huntable populations are achieved some five years after stocking.

"That five year gauge is based primarily on data collected during stocking efforts in the '60's and '70's where predator populations was considerably lower" emphasized Burk. "But, from observations we've had by our field staff in Red River County where some of the first turkeys were stocked indicate there is a huntable population."

Burk noted he is recommending a spring gobble season in Red River County for the spring of 1995, based on ample evidence of reproduction and fall flock sightings of 20-40 birds in some areas. "An area is considered to have a huntable population when you begin seeing flocks of 12-20 birds over 50% of the habitat."

Other counties may be close behind, but cannot be considered until stocking in those areas is completed. "We just don't have the data to recommend hunting anywhere else right now. The brood survey cards distributed in August and the deer hunter observation cards we're distributing this fall will help," said Burk.

Lamar County may well be having some turkey stocking this very week.

## Easements May Help FmHA Farm Borrowers Restructure Debts

"Farmers with loans from the U.S. Department of Agriculture's Farmers Home Administration (FmHA) may be able to put flood-damaged land under conservation easements in exchange for a reduction in their debt," George Ellis, FmHA State Director said today.

Use of the easements is not limited to flood areas, but it may be particularly helpful in such areas.

"Eligible lands may include wetlands, marginal farmland, highly erodible land, woodland, wildlife areas and several others," Ellis said. "In certain areas, there may be instances where farmland was damaged so severely by the recent flooding that restoring it may cost more than its agricultural value."

"In those cases, a conservation easement may be a solution. Under this program, a voluntary easement can be placed on a portion of the land

in return for reduction in amount owed to FmHA."

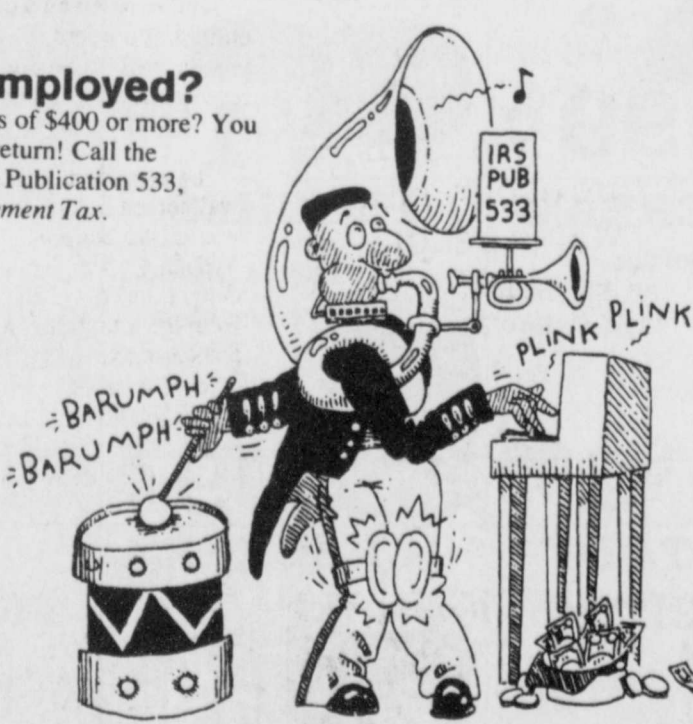

Ellis said the easements are for 50 years or more and can help rebuild soil conditions as well as encourage development of wildlife habitat.

"Not only can FmHA farm borrowers take marginal acreage out of production in this way, they also can materially reduce their farm operating costs," Ellis said.

Farmers who think they may be eligible should contact their local FmHA County Office for further information.
