HASKELL RESIDENTS NOT ONLY heard the wind blow last Sunday but also saw the damage which it caused. Shown at left are the remains of the sign at the Haskell National Bank and at right is the billboard on the parking lot of Elsie's HiLander. These are just two examples of the many incidences which were caused during the wind storm. Many reports of overturned cotton trailers, damaged roofs and broken trees were reported. (Staff Photos By Don Comedy)

Sanchez Found Guilty— **Receives 10 Years Probation**

A six man-six woman jury found Jesse R. Sanchez, 39, of Haskell, guilty of voluntary manslaughte during a day to wind Ja gry 15. Sanchez was sentenced to 10 years probation.

Sanchez was charged with the July 4, 1974 shooting death of Leon Martinez, of Haskell. The incident occured at the Corral Building.

The trial was originally set for January 8, but was postponed because a witness was not available at that time.

Selection of the jury took most of Tuesday afternoon and the actual trial began Wednesday morning. Several witnesses were heard including Sanchez, his wife, Olen Bartley, a witness to the shooting, doctors who performed the autopsy on Martinez and several character witnesses for Sanchez.

The jury deliberated about 21/2 hours after hearing the evidence of the case and returned the guilty verdict at about 9 p.m. Jurors then took about 45 minutes to decide sentence.

Members of the jury included: Tom Pritchard of Paint Creek, foreman; Lynn B. Carlton, Mrs. Maurice Gannaway, Mrs. J. A. Bynum, W. L. Campbell, Annie Erwin, Howard Perry Jr., Wilton Weise, Mrs. Helen Lehrmann. Elsie Lee Grand, William R.

Roberson, and Ruby Wilson. District Attorney Royce Adkins prosecuted, assisted by Haskell County Attorney Charles Chapman. Judge William P. Ratliff, of the 39th Judical District presided.

Defending Sanchez was Malcolm Schulz of Abilene.

WINNERS

Winners of the Domino tournament held last Saturday night in the County Club were Alfred Turnbow and Bob Dumas. Consolation winners were Jess Mathews and Cliff

69 Hunting Accidents Reported

AUSTIN--Not all reports are in from Texas Parks and Wildlife Department game wardens, but i ari figures show that 69 Texans were involved in hunting accidents during 1974.

Of that figure, 15 accidents were fatal.

Department hunter safety coordinator T. D. Carroll of Austin said that it will probably be after the last quail season before some of the wardens have time to complete the paperwork on casualties and that the final figure will likely be somewhat higher.

Carroll said that 24 deer hunters were injured in hunting accidents, six fatally.

Under Carroll's supervision, the Texas Parks and Wildlife Department administers a Voluntary Hunter Safety Program which is open to everyone 12 years of age and older. The fee is \$1.

Farabee Receives Senate Assignments

Austin...Senator Ray Farabee began work in Austin when the 64th session of the Texas Legislature opened last week. Lt. Governor Bill Hobby announced committee appointments immediately after the swearing-in ceremonies on the opening day of the session

Farabee was informed of his appointment to the Senate committees on Finance, Jurisprudence, Natural Resources and the Committee on the Texas Constitution. He was named Vice Chairman of the Sub-committee on Civil Matters within the Jurisprudence Committee.

All committees held organizational meetings and began work immediately

Farabee expressed pleasure over the committee assignments he received, pointing out that they all deal with issues that will directly affect the interests of the citizens in the 29 counties that make up the 30th Senatorial District.

Since the Finance committee determines the amount of funding for all state government, it provides an excellent overview of all the issues. Farabee is committed to pay as you go policy of funding state government and consistently opposed any new taxes.

The Natural Resources committee deals with all issues related to agriculture, water and oil and gas. These are subjects closely related to the economy of North and West Texas

Senator Farabee's work on the Jurisprudence committee will benefit from his experience as a practicing attorney. The Senator is particularly familiar with those areas of the law dealing with civil matters which will add to his ability to function as Vice Chairman of the Sub-committee on Civil Matters.

Commenting on the upcoming Session Farabee said. "I believe the Legislature this year faces many challenges. The problems that confront our state, such as the equitable financing of our public schools, are going to require initiative, imagination and a spirit of cooperation. For my part. I'm thankful for the opportunity to be here in Austin representing the people of North and West Texas and it's my hope that this Legislature can turn the challenges that face us at the present into opportunities for the future.

Farabee is serving his first term in the State Senate, occupying the seat vacated by former Senator Jack Hightower. Hightower is now serving his first term in the United States Congress.

GIRL SCOUTS WILL BEGIN selling cookies tomorrow. January 24, in Haskell. The sale will continue until February 8, and during that time the girls expect to sell some 1,500 boxes. Money earned is used to finance the camping program, support council properties, and finance troop activities. Pictured I to r are, Kim Lane, Ronette Bingham, Shelia Swinney. D'Anne Burris and Jana Overton. Cookie recipes can be found on page (Staff Photo By Don Comedy) six of the Free Press.

Stockholders Name Two New Directors

of the Haskell Natank was held January e Community Room of

the meeting was the of interest of two new members ard of directors of the he number of directors from six to

eight and Riley C. Couch III and Bobbie Herren Corzine were named to fill the two new positions.

Couch is the son of Mr. and Mrs. R. C. Couch, Jr. of Haskell. He was notified prior to the meeting in Haskell that he had been named Assistant Vice-president at North Park National Bank in Dallas where

Baptist Conf. Set Jan. 27 In Stamford

Rev. Gene Garrison, Pastor First Baptist Church. Oklahoma City, Oklahoma will be the principle speaker at both sessions of the Baptist Double Mountain Area Evangelism Conference to be held Monday, January 27, 1975 in the First Baptist Church, Stamford.

Garrison was born July 9. 1931 in Harrison, Arkansas. He then moved to Pampa at the age of eleven and attended the Pampa Public School; graduated from West Texas State University, Southwestern Baptist Theological Seminary. Before accepting his present position in 1973, he served as Pastor of First Baptist Church, Phillips: Memorial Baptist Church of Grapevine; First Baptist Church of Hobart, Oklahoma; First Baptist Church at Altus. Oklahoma and First Baptist Church at El Paso.

Before entering the ministry in 1952, Garrison was active in radio journalism. He worked 22 months for the Lubbock Avalanche-Journal Publishing Company as a staff writer, and was teaching English and Journalism in high school at Mrs. Joe Speegle of Lubbock Borger at the time he surrendered to preach.

He wrote a weekly column for the Altus Times-Democrat for 5 years, and has contributed numerous articles to denominational periodicals.

In August, 1968, the American Minister's Association named Garrison one of the five "Outstanding Young Ministers in America." on the basis of his general contribution to the religious life of his community, state and nation.

In May, 1972, Garrison received a Doctor of Divinity Stamford High School and has Degree from Dallas Baptist College.

While serving as a member of the State Missions Commission of the Baptist General Convention of Texas 1970-73, he was elected chairman of the commission in 1972.

He also served as a member of the Urban Strategy Committee, and was a member of the Board of Trustees of Hardin-Simmons University.

Holiday on Ice Begins Feb. 13 In Abilene

\$1,000,000's worth of entertainment will be on display at the Taylor County Coliseum starting Feb. 13. That's the opening date for the all-new 1975 edition of Holiday on Ice. this year observing its 29th year as a major family show.

Each year the Holiday on Ice producers stage an entirely new production; the 1975 show can be valued at more than \$1,000,000. That figure includes the cost of: new costumes, new props and sets. new staging and drapes, new lighting for special effects. new music score and arrangements, new dance steps and choreography

The costumes, scenery props, and most of the show's equipment are custom-designed and built by the Holiday on lee production studio in Hollywood, California. The balance of the equipment is contracted out to specialists, or built by the show's traveling crew.

Holiday on Ice's inventory also includes three full-size portable ice rinks, for use in arenas which do not have ice facilities. Being self-contained gives the road crew the right to boast. "We are able to present the show anywhere... all we need are seats and the audience. We carry the rest

To see a million dollars worth of family entertainment at the same low price as last year go to the Taylor County Coliseum or Sears in Abilene or San Angelo.

College News

WICHITA FALLS-Among the Midwestern University students who were listed on the fall semester honor rolls were 53 on the Dean's roll (only "A's" on 15 hours) and 152 on the University roll (3.5 grade point average on 4.0 system on 15 hours)

Among those achieving these outstanding ranks was: Pamela Colbert McDonald-Dean's Honor Roll-daughter of Dr. and Mrs. R. E. Colbert of 707 N. Ave. L. Haskell.

WINNER ANNOUNCED

Farm Bureau To Conduct January Conf.

The Texas Farm Bureau will conduct a joint Legislative Conference and 1975 Membership Kick-Off here Jan. 28-29 at the Driskill Hotel. according to Carrol Chaloupka of Dalhart, president of the state farm organization

Invited to the meeting are county Farm Bureau presidents, and chairmen of legislative and membership committees. There are 210 organized county Farm Bureaus

Registration will begin at 10:30 a.m. on Jan. 28, and the two-day program will be concluded with a membership kick-off luncheon next day. The TFB, which ended its 1974 year with an all-time high of 166,216 member families enrolled, will be trying for 175,000 members in 1975. Another goal is to have all of the 210 counties gain in members. Every county has

Highlights of the Legislative Conference, which will be held on Tuesday afternoon and Wednesday morning, will be discussions on legislative techniques and speeches by topics include: Rep. Bill egislators

TFB President Chaloupka will open the conference with an explanation of IFB's legislative program during ning". Senator Bill Patman, this session of the Legislature. Building Legislative Effectiveness" will be outlined TFB legislative staff

TFU President Predicts Rise In Food Costs

Texas Farmers Union president Jay Naman of Waco predicted that if President Ford's energy recommendations were passed into law that they would inevitably result in higher food costs. Naman said that the tax on imported crude which would result in a 10-15 percent increase in the price of petroleum products would add hundreds of millions of dollars to the cost of producing food and fiber, which would have to be passed on to the consumer.

Since petroleum products comprise a major cost in the production of food and fiber both from the standpoint of energy and fertilizer, the President's recommendation to tax imported crude oil and natural gas would immediatcly result in a tightening of the cost-price squeeze for agriculture and eventually result in higher food costs." Naman said Naman called for a mandatory fuel allocation program which would provide agricultural producers with adequate fuel supplies at reasonable prices.

President Ford could conserve millions of barrels of petroleum by imposing tough allocations on petroleum used by the synthetic fiber industry. The continued unlimited coordinator for Texas Electric production of synthetic fibers is a wasteful use of energy. has been employed during the Farmers and ranchers need these markets for superior natural fiber and both those producers and consumers would be served by a the son of Mrs. Beno Andress reduction in synthetic manufacture." Naman said.

Turning to the President's State of the Union message, the farm organization leader said that he was disappointed that President Ford did not emphasize agriculture and the serious economic problems of farmers and ranchers. He pointed out that many of the economic problems of the nation stem from the lack of incentives to farmers and ranchers to produce for export

"Our great agricultural capacity in the United States can be called upon to lessen our economic problems by improving our balance of payments. Apparently, the president is not informed that present federal farm program

members. Ed McKay of Waco, and Pat Smith of Austin. McKay is national affairs director and Smith is director of state affairs.

McKay will discuss major national issues that will be affecting agriculture in 1975.

Plans call for county delegations to meet with their respective legislators on Tuesday evening. Most plan to shown a gain for the past two arrange private dinner meet-

> A number of legislators are scheduled to speak to the group on various issues Wednesday morning.

Is The 55 MPH Speed Limit Dead?

DRIVERS DISREGARD 55 MPH

(AUSTIN) The reduction of the speed limit due to the energy crisis has definitely affected the number of traffic fatalities in Texas, but many drivers are starting to disregard the limit and drive at greater speeds. lim Arnold Administrator of the Governor's Office of Traffic Safety, issued a plea for the motorist to cooperate and observe the 55 mph limit on a voluntary basis. He also announced plans for a statewide study to determine the effect of the lowered speed limit in relation to fatal accidents.

Said Arnold, "When the energy shortage hit and the limit was set at 55, by state and tederal law, most motorists complied and kept their speed down and limited their travel. Now, that gasoline is more readily available, and travel more frequent, we are finding the driver is starting to allow his vehicle to surpass the regulated speed limits. While this is certainly not all drivers, it does appear we have a huge increase of speeders on our highways."

He continued by pointing out the increase in traffic citations that have been issued in recent weeks. State Troopers are finding the motorist is traveling at increased speeds without regard to law and some are creeping toward the 70 mile-

per-hour mark. Department of Public batety statistics show a total of 78,295 arrests were made for speeding during the three summer months of 1973. Comparatively, there were 188,976 arrests during June, July and August of 1974. Convictions for the violations also reflected an increase "said Arnold

Another contributing factor that may increase the chances of traffic crashes, injuries and fatalities, is the "variances of speed ranges. For example, said Arnold: a motorist is on. the highway at 50 miles-perhour and he is passed by a driver traveling 70 or more. This variance in the range greatly increases the opportunity for an accident

Armold said as the speed is: violated to excess, the fatality figures may increase therefore he has called for a state-wide study to determine the realtionship of traffic accidents to the speed limit reduction in Texas

The National Safety Council recently completed a study to evaluate the reduced limit in relationship to nationwide fatal traffic accidents. The study indicates reduced speeds played an important role in reducing the number of motor vehicle fatalities in the first four months of 1974 as compared to the same

period of 1973. While the 55 mph limit did not force drivers to reduce their speeds on roads 55 mph, the Safety Council feels the 55 mph limit was an important influence in convincing the driver to reduce overall speeds. Therefore removal of the limit or increasing the limit, could encourage the motorist to increase his driving speeds at varied levels, resulting in an increase in traffic fatalities

The Council's investigation revealed a number of factors contributed to the traffic fatality reduction, but the lowered speed limit was apparently the largest contributing factor. According to the Council's statistics, eleven percent of the fatality reduction was due to the lower speed Other contributing factors were 5% reduction due to less travel. 3% reduction due to less vehicle occupancy, 3% reduction due to less night driving, 1% reduction due to greater use of safety reils. 1% reduction due to switch in roads, 2% reduction due to unexplained reasons and a 1% increase due to age, small cars. motorcycles, and pedalcy los-The total national reduction figures at 24 percent. It is obvious, that speed is not the only factor in reducing trains tatalities, but is the largest contributing factor.

Arnold said, "The Texas study would help us to better evaluate the direct relationship in the state as compared to national statistics. Just because the national picture shows the speed reduction as a major factor in reducing fatalities, this does not mean the situation is necessirily the same in Texas." He noted the varied road conditions, different terrain and other contributing items that could provide additional statistics that will more readily relate to Texas. Other contributing factors in the reduction of accidents include increased law enforcement, better road design more and better driver education and increased public awareness of the driving rules. said Arnold. "However we have obvious evidence of abuse of the 55 mile-per-hour limit and it is time to ask our citizens to volunteer toward observing

AUSTIN, Tex. - The 64th Texas Legislature started

with a bang and a burst of action last week.

State Senators set new records for speed in organizing while the House named Rep. Bill Clayton of Springlake its new speaker and debated rules.

Lt. Gov. Bill Hobby, as promised, named a complete roster of Senate standing committees on the first day of the session, January 14. Only changes in chairmanships were Sens. Don Adams of Jasper moving up to head the housekeeping appropria-tions panel and Sen. Pete Snelson of Midland taking over the intergovernmental relations committee.

The Senate went to work almost immediately on a proposed emergency pay raise for state employees, while both houses advanced a measure to extend unemployment compensation benefits four weeks and gain \$5 million in federal funds.

Clayton, who defeated Rep. Carl Parker of Port Arthur for the speakership, delayed naming of his committees until this week, while he concentrated on getting rules changes he wants.

Gov. Dolph Briscoe submitted lawmakers a long list of emergency measures for immediate consideration, including the pay raise for state workers and \$80 million in stop gap aid for schools.

Other than the emergency measures, and rules adoption, little action is expected on the floor of either house until after the inauguration of Briscoe and Hobby to second terms Tuesday (Janu-

Briscoe prepared longrange recommendations for delivery to a joint session of the House and Senate Wednesday (January 22).

PRODUCTION STILL "WIDE OPEN"-February is the 35th straight month of wide open statewide oil al-

Texas Failroad Commission DICKIE DEIICU once again set a 100 per cent production order.

Meanwhile, independent oilmen said the decline in Texas oil production has begun a "big turnaround."

Frank Pitts of Dallas said 60,000 to 70,000 wells can be drilled a year instead of the present 30,000. There are lots of places to drill oilwells, but the cost is going to be high, said Pitts.

Crude prices should average \$90 to \$100 per barrel to encourage drilling the maximum number of wells, said the Dallas oilman.

INVESTIGATION FUNDED -A Senate sub - committee was given a budget to begin an investigation of questioned Southwestern Bell Telephone Company operations in Texas.

The Senate Administration Committee approved a \$27,-832 allowance to hire utility rate experts and two investigators to look into allegations of wire-tapping, campaign slush fund contributions and keeping of dual

CAPITAL Highlights

resignation.

sets of books (one for rate cases). Sen. Ron Clower of Gar-

land, chairman of the Senate Sub-Committee on Consumer Affairs, said the panel already has an extensive file of leads. Clower said he hopes to have the investigation completed before the legislative session ends June

COMMISSION SIZE BLAMED-A House Liquor Regulation Investigation Committee blasted the Alcoholic Beverage Commission for forcing resignation of ABC Administrator O. N. Humphreys Jr.

Had the commission been

a nine-member agency instead of a three-member body, one member would not have been able to "carry out

a reientless campaign" to get rid of Humphreys, the com-mittee concluded. Commis-R. L. Thornton launched the effort to fire Humphreys and finally convinced Joe Burkett Jr. of Kerrville to join in asking

COURTS SPEAK-A divided (5-4) Supreme Court threw out a mandatory nickel-a-ton assessment of grain sorghum growers to finance a program of farm product promotion and research.

Third Court of Civil Appeals refused to overturn the will of an alcoholic who left most of his estate to two sons by his first marriage and little to his estranged second wife.

APPOINTMENTS-Some 578 interim appointments by Gov. Dolph Briscoe to offices, state boards and agencies were sent to the State Senate for confirmation.

Among the more recent ap-

pointments were Walter Sterling of Houston, Tom Law of Fort Worth and Dan C. Williams of Dallas (reappointment) to the University of Texas board of regents; Alfred I. Davies of Dallas, Ross C. Watkins of Uvalde and Joe H. Reynolds of Houston (reappointment) to the A&M University board

of directors; Gerald Clayton Puckett of Fort Stockton and Jack Henry McCreary of Austin to Texas Aeronautics Commission (succeeding Paul M. Fulks Sr. of Wolfe City and James L. Luther of Killeen); and Jimmy Charles Payton of Euless to succeed Amon G. Carter Jr. of Fort Worth on the Trinity River Authority of Texas board of directors.

AG OPINIONS - Atty. Gen. John Hill held a requirement for reports of child abuse is applicable to the Department of Mental Health and Mental Retardation, without regard to conflicting provisions. In other recent opinions,

· Development of parks and recreational facilities by mu-

nicipal utflity districts is constitutionally permissible.

· Confidentiality of faculty performance evaluation cannot be maintained against an individual's right access to information which is the basis for government action affecting him.

· Private clubs and fraternal and veterans organizations claiming they are private places for defense against gambling prosecution must prove the public has no access to them.

BOARD CLAIMS SAVING-A State Insurance Board report claims the board last fiscal year "saved" Texans \$5.7 million in benefits or returned premiums.

Insurance Commissioner Don Odum cited administrative action against 36 agents and 18 companies and 1,900 field investigations by the board license division.

Planned board reorganization will save \$250,000 in annual operating costs, the report stated. There were 1,705 insurance companies licensed to sell policies in Texas at the start of the

current fiscal year.

1974-SAFER?-Vehicle accidents dropped six per cent last year below 1973, and 1974 may have been the safest year on record considering the traffic death rate per 100-million miles, according to the Department of Public Safety.

The traffic toll for the year may reach 3,042 when all reports are in. That would represent a saving of 650 lives from 1973. In 1964, 3,006 were killed in Texas traffic accidents.

DPS Director Wilson Speir speculated that the reduction in driving and reduced speed limit brought about the improved safety record.

SHORT SNORTS

Governor Briscoe expressed concern that President Ford's energy proposals, including excise taxes on domestic oil and gas production, may take \$3.4 billion out of the Texas economy in the form of higher utility and gasoline bills.

DR. JOHN GANNAWAY

Gannaway **New Specialist** In El Paso

Dr. John R. Gannaway has joined the staff of the Texas A&M University Agricultural Research Center at El Paso as an Upland cotton breeder. He was previously employed by the Soil and Crop Sciences Department, Texas A&M University in College Station, Tex., where he was actively involved in the cotton improvement program.

John, the oldest of three sons of Mr. and Mrs. Maurice Gannaway of Haskell, was born and reared on a cotton farm. Following completion of his public education in Haskell in 1959, he moved to College Station where he obtained undergraduate and graduate degrees from Texas A&M University.

In 1962 Gannaway married the former Jan Herren. youngest daughter of Mr. and Mrs. R. W. Herren. They resided in College Station with their daughter Julie, age 5, prior to coming to El Paso. They now make their home at 10834 Pico Norte.

While employed in College Station, much of Dr. Ganna-

was 's time was spent developing and evaluating cotton cultivars for possible insect resistance or "escape" mechanismsm. Considerable effort also was put into the development and management of "short-season" cotton cultivars. Much of this same type research will be continued in the El Paso and Pecos areas.

Douglas Cornelson, who is in the U.S. Navv. spent some time here last week with his grandparents, Mr. and Mrs. August Balzer. He was on his way back to California after a leave he spent with his parents. Mr. and Mrs. Larry Cornelson and Kathy at Lewisville.

Mr. and Mrs. Delbert LeFevre and Mrs. Will Stegemoeller visited relatives in South Texas at Robstown and Corpus Christi this week.

Mrs. Fred Kupatt came home from West Texas Medical Center in Abilene Sunday after having surgery there last week. Mr. and Mrs. H. L. Hewett of Stamford are staying in the Kupatt household till Billie is back on her feet. Billie thanks everyone for their prayers, visits and cards during her stay in the hospital.

Mr. and Mrs. George Patzig and family of Carroltown visited here with Mr. and Mrs. Elmer Boedeker last week-end and attended the "Hee-Haw"

Roland Stegemoeller and his children from Slaton and Sharon Ernest of Tahoka were here for the "Hee-Haw" Saturday night. They came especially for the program and went back that night.

Congratulations to Glen Dale Dudensing and Rickey Lehrmann for making Texas Tech's Dean's list last semester. Although Rickey's folks have moved to Rule, we still count him as a Sagerton boy.

Work is going right along on the new home of Mr. and Mrs.

Bill Hertel located near the Stamford highway east of town, and the home of Mr. and Mrs. Alvin Ulmer is being remodeled and bricked, so that no one would recognize it as being part of their old house.

Mr. and Mrs. Alvin Ulmer went to Brady Sunday where they met Mr. and Mrs. Winston Ulmer and family from San Antonio and visited with them.

Plans are being made to have a community-wide singing at the Sagerton Methodist Church some Sunday afternoon in the near future. Watch the paper for the date and

The corner of Fourth and Johnson Drive has a new look. The old Lutheran parsonage has been moved, and the site is being cleared and leveled. It looks very nice. We did not lose a house in town though. because Cato Macias bought it and had it moved across from the Community Center on the spot where the mobile home blew away last spring, and Mr. and Mrs. Joe Macias and family will live in it.

After counting them up, we realize that Sagerton has ten more houses than it did ten years ago, and many old homes have been remodeled. For Sagerton, that is a very good percentage of growth. It can be attributed to our good water supply from Stamford

Rice Springs News

There was not much playing in the snow around Rice Springs, but we enjoyed the beautiful scenic picture of winter wonderland from our windows. Many commented how great it was to be snug. safe and warm inside Rice Springs. The snow is gone but the cold seems to still bite pretty hard; therefore, everyone is staying inside most of the time.

Vera Beil and Katie Gerloff and Hazel Letz, all of Old Glory, visited Mr. and Mrs. Herbert Klump.

Mr. Lawlis of Hamlin, Mrs. Dorthey Stoval, Mrs. Carl Young, all of Hamlin, and Rose Hall of Ft. Worth visited Mr. and Mrs. L. E. Hnes.

Bailey Toliver, nephew of Stella Josselet, came by and visited her. This made Stella very happy.

Earl Rogers, brother-in-law of Flossie Rogers from Post. Texas visited with her.

Marvin Ray Mondy and wife from Odessa visited with his aunt, Cleo Mondy. She really enjoyed their company.

Mrs. Clancev Lehrmann of Old Glory visited with Alvena Holle.

Rotary Club News

The Haskell Rotary Club met at the City Cafe at noon. Thursday, January 16th, for their regular weekly luncheon meeting, with president Ferrell Coston, presiding.

An outstanding program was presented by Larry Suttle. Minister of the Haskell Church of Christ, guest of Rotarian H. V. Woodard who was program chairman for the day. Larry stressed to those present that God wants us to be happy people, using Biblical scriptures to bring out the truth of his statement. He proceeded to deliver a most timely and interesting talk, using eight guidelines or rules for happiness.

Number one was for us to makeup our minds to be happy and find pleasure in the

simple things of life. We need to make the most of our circumstances: You must realize and remind yourself that you cannot please everyone. The engineer doesn't stop his train to throw rocks at the barking dogs. Hate poisons the soul and we should not cherish grudges but forgive and forget as the Bible adminishes us to do. Never borrow trouble because imaginary problems are always worse than the real ones. Don't hold post mortems or brood over past mistakes. because, using former president Abe Lincoln as reference. if he had stopped when he had his twelveth major setback, we would never have known him. A main prerequisite for

in closing.

happiness is to spend your time working for others and by

all means keep busy as busy people are happy ones, he said

The Invocation for the meeting was given by Rev. Bob Brown and the song session led by Stanley Furrh with Joan Dean providing

piano a compainment.

Guests were high school Seniors David Parker and Adam Sanchez

President Coston reminded members that the annual meeting would be on Thursday night, January 30th at which time the Haskell and Rule Rotary Clubs would hold a joint meeting with Don Timberlake as guest speaker.

The dinner meeting will be held in the Community Room of the Haskell National Bank at which time the wives or Rotary Anns of members will be special guests. All members are urged to attend and to invite a guest for this outstanding annual meeting.

The winter tourist season is blossoming, and heading toward a near record, according to Texas Tourist Development Agency.

Governor Briscoe asked Secretary of Agriculture Earl L. Butz to declare Limestone County a disaster area due to drought and other adverse weather.

Be On The Lookout . . . Fertilizer Concern . . . Sheep and Lamb Feeding Declines . . . Second Lowest In 20

Figures that should help you to decide what and how much to plant are to be released this week. Included will be the crop intentions planting report on a national and state level. This will involve planting projections for major crops including grain sorghum, cotton, corn and other crops. Study it closely; it should give you an insight into what farmers will be planting this year

Also study the grain stocks in position report, which is expected to be released this week. That will show you the amount of various grains on hand.

Still another report you might want to look at closely will be the 1974 report for Texas crops. This report was recently issued and will update previous preliminary reports on Texas farm production.

These and other reports about farm production are becoming of more and more interest. Not only are producers taking a closer look at them, but agribusinessmen as well as consumers are paying attention to them since they will give an insight into production plans and thus prospective total production of various commodities during 1975.

Producers can use these reports to help them determine their own production plans for 1975. For current reports, write the Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

FERTILIZER industry spokesmen are concerned about the amount of fertilizer that will be needed to produce this year's crops.

An increase is expected for feed grains including corn and grain sorghum. Although a decrease in acres is anticipated for cotton, it is not expected to be enough to offset other increases.

The inventory of fertilizers has also been decreased compared to previous years.

Fertilizer industry spokesmen did not indicate what prices might be for 1974, but a U.S. Department of Agriculture study shows a 10 to 15 per cent increase in price is in the offing over the prices of 1974.

SHEEP and lamb feeding continues to decline. Drylot sheep feeders with a lot capacity of 2,000 head or more had only 59,000 sheep and lambs on feed for slaughter as of

Statement Of Nondiscrimination

Stamford Electric Cooperative, Inc. has filed with the Federal Government a Compliance Assurance in which it assures the Rural Electrification Administration that it will comply fully with all requirements of Title VI of the Civil Rights Act of 1964 and Rules and Regulations of the Department of Agriculture issued thereunder, to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in the conduct of its program and the operation of its facilities. Under this Assurance, this organization is committed not to discriminate against any person on the ground of race, color or national origin in its policies and practices relating to applications for service or any other policies and practices relating to treatment of beneficiaries and participants including rates, conditions and extension of service, use of any of its facilities, attendance at and participation in any meetings of beneficiaries and participants or the exercise of any rights of such beneficiaries and participants in the conduct of the operations of this organization.

'Any person who believes himself, or any specific class of individuals, to be subjected by this organization to discrimination prohibited by Title VI of the Act and the Rules and Regulations issued thereunder may, by himself or a representative, file with the Secretary of Agriculture, Washington, D. C. 20250, or the Rural Electrification Administration, Washington, D. C. 20250, or this organization, or all, a written complaint. Such complaint must be filed not later than 180 days after the alleged discrimination, or by such later date to which the secretary of Agriculture or the Rural Electrification Administration extends the time for filing. Identity of complainants will be kept confidential except to the extent necessary to carry out the purposes of the Rules and Regulations.

111 NORTH AVE. E

Open 9 a.m.-5 p.m., 9-12 Sat.-Phone 864-3322 -NO APPOINTMENT NECESSARY-

Jan. 1, the Texas Crop and Livestock Reporting Service notes

This is 45 per cent below a year earlier and the lowest Jan. 1 total since 1970. Placements during last December totaled 22,000 head.

Current intentions to market include: 23,000 in January: 23,000 in February; and 13,000 in March. February and March intentions are incomplete at this time because additional lambs could still be placed on feed and marketed during the period.

Marketings during December numbered 35,000 head, which is 4,000 more head than intended marketings of last Dec. 1 and 22 per cent below a year ago.

COTTON production figures for Texas continue to decline, reflecting the severe weather conditions for that crop last year. Harvest is virtually complete.

Average per acre yield is now set at 279 pounds. This would be the second lowest yield of the past 20 years.

Total production of cotton for the state for the 1974 season will be two million bales under that of 1973. The anticipated total now is 2,620,000 bales. In 1973, the total was 4,673,000 bales.

WASHINGTON

Congressman-17th District

WASHINGTON, D. C .---WITH THIS FIRST RELEASE OF THE YEAR and the beginning of the 94th Congress. perhaps it is well to explain again that this is not meant to be a professional effort. The purpose is an attempt to maintain as close as possible a relation between a large Constituency with their Representative in Washington.

NOT LONG AGO, THE 17TH DISTRICT was composed of 12 counties and 290,000 people. The Congress was not continuously in session as it has been in the last several years and continues to be almost constantly. Today there are 33 counties with approximately 467,000 people which makes it impossible to keep the sort of acquaintance which should exist under our system of representative Government.

THE PURPOSE IN THE PAST has been an attempt to refer to those things not usually a matter of daily mention in the news media. Rather, it is intended to be a background of events, either past or present, and opinions of what may occur in the immediate future.

THE CONGRESS HAS JUST OPENED with its usual ceremonies and, until now, all time has been consumed by caucuses of both political parties and general organization.

PROBABLY AT NO TIME DOES THE FLOWER OF "REFORM" bloom more fully in the Washington garden than at the present. The snows seem only to nourish it. Some of the buds which appeared two years ago have faded but others take their place. It seems that the term "reform" is assumed to be for the better, but some might be more correctly defined as just change. At the center of change, under the guise of reform, is the constant attack on the so-called seniority system. Seventy-five new Democrats have been conditioned that there should be many changes and that

experience is an excuse for control and authority. There are not many things which cannot be improved upon and the best system has some evils about it. Times demand change but not necessarily alone for the sake of change.

WE HAVE NOW EXPER-IENCED THE LOSS OF THE CHAIRMANSHIP of some of the most knowledgeable men on particular subjects under their jurisdiction. The Congress is very much like a corporation. In fact, it is the biggest corporation in the world and represents over 200,000,000 people who are affected by what it does. It should have the most experienced and dedicated individuals to be found anywhere to conduct the affairs of the Nation. It is called representative because Members come from every corner of the Nation but with wide varying interests. To arrive at legislation those interests many times must be legislatively compromised in order to achieve anything. None can have his own way entirely.

PROBABLY AT NO TIME IN OUR HISTORY has the Congress faced more challenges than at the present time. The incompatibility of inflation and recession at the same time creates unprecedented problems-coping with one can easily further complicate the other and some policies and actions recommended or already in effect. have contributed to the

THE SCIENTISTS TELL ME ...

By Robert L. Haney, Science Writer The Texas Agricultural Experiment Station

New Lawn Grass Resists Disease and Insects

Considerably more than half of the home lawns in Texas are estimated to be in St. Augustinegrass. And in the Gulf Coast area of the state, 96% of the lawns are in the popular St. Augustine-

But a serious new disease of this grass, first observed in 1966 by lawn service operators in South Texas, has blighted many fine lawns. The disease spread to 62 counties by 1974 and has been found in Louisiana and

In 1968 Dr. R. W. Toler, **Experiment Station virologist** at Texas A&M, found the disease was caused by a plant virus. Toler named the disease St. Augustine Decline (SAD) because of the symptoms produced. On the leaves, SAD produces a yellow mottling often called mosaic. Plants are reduced in vigor, and growth of both stolons and roots are retarded. The grass in diseased lawns declines in growth, has thin spots, and is invaded by weeds and other grasses. Some other grasses affected by the virus include Proso millet, pearl millet, foxtail millet and crabgrass. Two other viruses are known to invade St. Augustinegrass, but

with zeal the newly elected may feel, all face a most consequential year. People deserve and expect the most dedicated efforts at coping with the challenges ahead. Scrutiny and observation should and will be intense. Stakes in our performance during the months and years immediately ahead will be they are not a problem in

Research at Texas A&M revealed that the SAD virus was spread by transplanting infected grass into new lawns. A lawn mower can also spread the virus when SAD diseased grass is mowed and then the same mower is used to mow healthy grass.

There is no known chemical that will give practical control of plant viruses or virus diseases such as SAD. Control of SAD was sought through finding a St. Augustinegrass that was resistant to the virus. Using special injection techniques that exposed the plants to the virus, more than 250 breeding lines of St. Augustine were tested. Those that resisted virus infection were selected for further testing.

Of the materials that resisted SAD in the greenhouse tests, FA110, an experimental line supplied by the plant breeder at the University of Florida, proved to be the most resistant to SAD. The resistant material was then tested in known diseased lawns over a period of three The SAD resistant line was

then tested by Dr. Richard Duble of the Experiment Station and found to be resistant to chinch bugs, the number one insect problem of St. Augustine lawns in the state. The resistant grass, FA110, was then named 'Floratam' (the name comes from Florida and Texas A&M) and jointly released to certified sod producers in Texas and Florida in 1972. The new s is available through the

Agricultural Experi- 1000 sq. ft. e ment Station Foundation or 20 lbs. of Seed Service, College Station, 1000 sq. ft. Texas, or Certified Sod-Producers, Turf Nurseries and 2 lbs. of nitro Home & Garden Centers in

Floratam compares favorably with Common St. Augustinegrass in growth but is slightly less cold hardy. How- rate of 1 lb. of ever, efforts are underway to per 1000 sq improve its cold tolerance and ued until sod maintain the high levels of SAD and chinch-bug resis-

Research shows Floratam can be planted as sprigs, plugs or sod. Floratam will usually establish in one season when sprigged on 12-inch centers, plugged (4-inch squares) on 18-inch centers or planted as solid sod. In the absence of soil tests, a complete fertilizer such as 10-20-10 incorporated with the soil before planting or applied broadcast soon after planting, gave good results. It was applied at the rate of 2 lbs. of actual nitrogen per

fertilizer gire potassium. insure . monthly apply gen alone wer

lished.

Once the lished it was inches to 2 in Research show grasses are un cides: they t with extreme Floratam had and was well was maintaine twice a year, spring and o with I lb. of per 1000 to cation.

C. Blackwell

Funeral services for Claude Allen Blackwell, 24, of Rt. 3, Stamford, were held January 17, in the Christ Lutheran Church in Stamford with the Rev. Anton Kern, pastor, officiating. Burial was in Highland Cemetery under the direction of Holden-McCauley Funeral Home.

Mr. Blackwell died January 15, at his residence.

Born April 3, 1950 in Stamford, he attended schools in Paint Creek and Stamford and graduated from Stamford High School in 1969. He attended South Plains Junior College in Levelland, before entering the National Guard. He served in the National Guard for five years and at the time of death was a farmer and oil field worker.

He was a member of Christ Lutheran Church in Stamford and Sons of Hermann in Old

Survivors include: parents, Mr. and Mrs. Monroe Blackwell of Rt. 3, Stamford; two brothers, Lloyd M. Blackwell of Childress and Larry L. Blackwell of Stamford; one sister, Lanell Blackwell of Stamford; and paternal grandmother, Mrs. Pearl Blackwell of Stamford.

Pallbearers were: Gary Muehlstein, Jerry Moeller, Blaine Bennett, Mike Watson, Tommy Manske and D. L. Patty.

John Rike

Funeral services for John Rike, 69, of Haskell were held January 19, in the First United Methodist Church with the Rev. Robert Brown, pastor, and Dr. Vernon Henderson of Lubbock officiating.

Burial was in Willow Cemetery under the direction of Holden-McCauley Funeral

Mr. Rike died January 17, in Haskell Memorial Hospital after a stay of about four days. Born February 7, 1905 in Haskell, he was a farmer and rancher and was a member of a pioneer Haskell family. His mother, Ada Fitzgerald Rike, came to Haskell County in 1884. He was a 1923 graduate of Haskell High School and worked at the old Farmers State Bank during the depression. In 1933, the bank examiners put him in charge of the bank and ordered him to re-organize or the bank would be closed. He and a director. the late T. C. Cahill, sold bank stock all over the area. For the past 35 years he had been engaged in farming and ranching. He married Agnes

The Space Science Education Project is a lecturedemonstration program designed to acquaint the educational community and the general public with the role of the National Aeronautics and Space Administration in the June 21, 1930 in exploration of air and space.

The lecture-demonstrations are conducted by space science specialists who are teachers authoritatively informed on the space sciences and the activities of NASA. They present assembly programs and work in the classroom with the teachers and

A typical assembly program lasts approximately 50 minutes and includes discussions and demonstrations of aeronautics, rocketry, propulsion systems, satellites, probes, orbits, human factors, communications and manned space flight.

The programs are presented without charge to the requesting school or organization.

Minnie A. Bailey, 78, of Following the auditorium Haskell, were held January program, the lecturer is 18, in the First United available for classroom visits Methodist Church in Haskell for further indepth discussions with the Rev. Robert Brown, of space topics directly related pastor, officiating. Burial was to specific disciplines or to the in Willow Cemetery under the special interests of the studirection of Holden-McCauley dents.

> 8th Grade **Boys Win** Tourney

The Haskell 8th grade Warriors fought to the championship of the Asperment Tournament last weekend. The Warriors defeated Paducah Thursday in the first round by the score of 50-37. They squeaked by Rule Saturday afternoon 26 to 25. In the finals they raced by Albany 31-13.

The 8th grade Maidens lost to Paducah in the first round by the score of 28 to 23. They were nosed out in the 8 a.m. Saturday contest with Rule 19 to 18.

The Warriors and the Maidens will journey to Knox City this Thursday and Saturday for a tournament in that city. The Maidens will play Munday in the 1st round at 4 p.m., followed by the Warriors against Munday at 5:15

On Monday, January 27th. the Warriors will play their last home game of the season with Paducah as the opponent. 7th Girls will play at 5:00, followed by 8th Girls and 8th Boys. These contests should be very interesting to all Haskell fans.

Cancer Society Has Meeting

The Haskell Chapter of the American Cancer Society held their regular meeting on January 20, at the Haskell National Bank Community

Those in attendance were: Billy Jack Pay, President; Mrs. Billy Jack Ray, Secretary; Mrs. Evelyn Cobb. Treasurer: John Wayne Mc-Dermett, Chairman for the 1975 Drive and Mrs. Alice Lewis, Chairman for the Sagerton Community.

Special guest was David Walsh of Abilene, Field Representative for District 16 of the American Cancer Society. He informed the group that the up coming Cancer Crusade has been scheduled for the first week in April. A report of the results of the 1974 American Cancer Society Crusade was given by Evelyn Cobb. The 1974 Drive results were: Crusade \$1,030.44 and The Memorial Fund collections were \$346.50.

Anyone interested in donating to the American Cancer Society Memorial fund may do so by writing Billy Jack Ray. P.O. Box 175, or Mrs. Evelyn

Cobb, P.O. Box 761, Haskell, Texas. The next scheduled meeting will be held March 17, 1975. At this meeting the Crusade material will be prepared to be distributed to the Crusade Volunteer work-

Anyone interested in helping with the 1975 American Cancer Society Crusade are ask to contact, Billy Jack Ray or John Wayne McDermett.

Double up, America.
