## Mr. FARMER

Do You Want to  
Sell your Land?

Do you want the assistance of one who has had years of experience in selling land, and knows land values? I am connected with the land men of the North and East, and

We are in touch with The Land Prospectors

I am getting out a new list and want to list your land. Be sure to see me when in Haskell and tell us what you have to sell, and we can sell it if it can be sold.

## Shipments of Grain Have Been Heavy

The grain shipments from Haskell have indeed been heavy this year, so far, and there is still much grain to be shipped. About all the cars that have been available have been loaded out with wheat and oats. We were told that up to the latter part of the past week, in the neighborhood of three hundred cars had been shipped since the threshing season opened. This large amount of grain represents a considerable amount of money, as the best prices have prevailed all season. That Haskell has paid a higher price for grain brought in this year is generally conceded and this is largely due to the fact that this county has raised a superior quality of grain.

In grain circles it is estimated that probably two hundred more cars will be shipped ere all the grain crop is disposed of, and this will make quite a neat shipping record for Haskell. At any time one might go to the railroad yards, a large force will be found busily engaged in loading out cars of grain. This county's grain crop this season is directing much attention to this vicinity, and another year will find an increased acreage to small grain, although the acreage so planted was large this season, in comparison with other crops and the population of the county.

## F. G. ALEXANDER & SONS

The Big Store

For 25 Years.

We have enjoyed a very liberal share of the patronage of the people of Haskell and Haskell county. We appreciate the fact that you have made it possible for us to become large buyers of the varied lines of Dry Goods and Groceries which enables us to secure the best made lines of goods at the very lowest prices.

We thank you for these expressions of confidence.

In soliciting your future patronage we call attention to the arrival of many of our Fall goods. Only a few more days until we will be in a position to serve you better than ever before.

Trusting that we may continue to enjoy your confidence and patronage, again we thank you.

### Commissioners in Two Days Session

The County Commissioners Court held a two-day session Monday and Tuesday of this week. It was the regular monthly session of the court. In addition to the regular routine of business to be disposed of, the returns of the recent Constitutional Amendment election for this county were canvassed. It is understood that all of the amendments lost in this county.

### Yoeman State Manager Here

Mr. Jos. South, of Wichita Falls, who is the state manager for the Brotherhood of American Yoemen, was in the city Tuesday of this week. He was en route to Tucumcari, New Mexico, and stopped off here to confer with District Manager C. W. Ramey, and to visit with other members of the organization. Mr. South paid this office a call while here.

## A FOOL THERE WAS

By Porter Emerson Browne

### The Vampire

A fool there was and he made his prayer  
(Even as you and I)  
To a rag and a bone and a hank of hair  
(We called her the woman who did not care)  
But the fool he called her his lady fair  
(Even as you and I)

Oh, the years we waste and the tears we waste  
And the work of our head and hand  
Belong to the woman who did not know  
(And now we know she never could know)  
And did not understand

A fool there was and his goods ne spent  
(Even as you and I)  
Honor and faith and a sure intent  
(And it wasn't the least what the lady meant)  
But a fool must follow his natural bent

Oh, the toil we lost and the spoil we lost  
And the excellent things we planned  
Belong to the woman who didn't know why  
(And now we know that she never knew why)  
And did not understand

The fool was stripped to his foolish hide  
(Even as you and I)  
Which she might have seen when she threw him aside  
(But it wasn't on record the lady tried)  
So some of him lived but most of him died,  
(Even as you and I)

But it isn't the same and it isn't the blame  
That stings like a white hot brand—  
It's coming to know that she never knew why  
(Seeing at last she could never know why)  
And never could understand.

# NEW MILLINERY AND READY-TO-WEAR DEPARTMENT

WHEN we entered the Dry Goods business in Haskell some five years ago, it was our ambition to eventually have the most complete and up-to-date store in this section of the country, and when the demands of our customers were such that would justify us putting in a certain line, we have always added it. To properly care for our customers, we have now added a

## Full and Complete Line of Millinery

Our Mr. M. H. Hancock wires us from St. Louis that he has secured the services of a competent Trimmer, and is buying a heavy stock of Ladies Hats and Trimmings, which will be expressed to us at once. In our Ready-to-Wear Department we have bought a beautiful line of ladies cloaks, suits, dresses, and in fact everything to make the most complete Ready-to-Wear Department in this part of the country. To make this more complete, we have given space for a DRESS MAKING DEPARTMENT to one of the most competent dress makers in Haskell, who will move to our store Sept. 1st.

To accommodate this new department we have remodeled and refitted the balcony in our store. A spacious, well lighted room, and ideal for our purpose. We will appreciate the assistance and co-operation of the ladies in Haskell to enable us to make this department a grand success. We will have some beautiful Coats and Coat Suits on display in a few days. Watch for our opening announcement, and call and see the new Fall stock.

## Haskell Man is Honored at Houston

Geo. F. Courtney has been in Houston the past two weeks, in attendance upon the State meeting of the Farmers' Union. Mr. Courtney is quite prominent in Farmers' Union circles in Haskell County, and received a signal honor at the Houston meeting, when he was elected to the office of vice-president of the State organization. At the time this was written, Mr. Courtney has not yet returned, and we get the above information through the daily papers.

Other officers elected at Houston were: President, H. N. Pope; C. Smith of De Leon, secretary-treasurer; Joe E. Edmonson of Percilla, general organizer, and J. P. Lane of Gallatin, chaplain. The new executive committee of the State Union is composed of the following-named gentlemen: D. E. Lyda, Ravenna, chairman; Attila N. Streigler, Fredericksburg, secretary; R. N. Dorsey, Henderson; J. L. McConkey, Wichita Falls, and Joe Langfeld, O'Hanis, members. On the directorate of the Farmers' Union Cotton Company at Houston, are: H. N. Pope, president; Joe Langfeld, vice president, and C. Smith, Secretary and treasurer.

A move has been put on foot to move the headquarters of the Union from Fort Worth to Houston, but considerable opposition to the move has developed. It is understood that President Pope looks upon the proposition with disfavor, and the issue may result in a referendum vote being taken.

### Despondency Due to Indigestion

"About three months ago when I was suffering from indigestion which caused headache and dizzy spells and made me feel tired and despondent, I began taking Chamberlain's Tablets," writes Mrs. Geo. Hon, Macendon, N. Y. "This medicine proved to be the very thing I needed, as one day's treatment relieved me greatly. I used two bottles of Chamberlain's Tablets and they rid me of this trouble." Obtainable everywhere.

**DEVOE TOOK 9 1/2 GALLONS LESS**

Judge L. D. Fairchild of Lufkin, Texas, had two houses painted, both same size. One was painted with a leading top-price paint, and took 25 gallons. The other was painted with Devoe, and took only 15 1/2 gallons. The "leading paint" referred to is adulterated 15%, but is sold at the same price as Devoe.

The most economical paint always is the one that takes least gallons and wears longest, and that's Devoe.

## Warehouses for American Cotton

Washington, D. C. Aug. 12.—The importance of properly constructed storage houses which conform to the standards recommended by the underwriters association and afford ample protection and a low insurance rate, as a means to help the farmer, banker, and business man of the South hold the surplus cotton in times of overproduction or unsatisfactory market conditions, is emphasized in a new bulletin of the U. S. Department of Agriculture, No. 277, entitled "Cotton Warehouse Construction." Types of warehouses designed to command a low insurance rate and to minimize the cost of handling are described in detail. An earlier investigation, the results of which have been published in Bulletin 216, of the U. S. Department of Agriculture, showed that although the existing storage facilities in the South, if used, could take care of an ordinary crop, few of them were properly located, many poorly designed, the insurance rates and cost of handling high, and that in general there was need of a great change in taking care of the cotton crop from the time it is picked until finally marketed. The so-called "country damage" to cotton is estimated at from \$30,000,000 to \$75,000,000 a year, almost all of which could be saved with an adequate warehouse system.

When properly stored and insured, cotton is considered by many to be one of the very best collateral assets that can be offered upon which to loan money. Money loaned on cotton stored in such warehouse command a low rate of interest. One of the primary reasons that farmers and business men have for storing cotton is to enable them to borrow money upon it until market conditions improve.

The correct designing of a cotton warehouse is of much importance because upon the construction of the warehouse depends the rate of insurance charged for the cotton inside it. The average insurance rate, it is said, in the buildings now in use is as high as \$2 a year on \$100. In standard warehouses, properly protected by automatic sprinkler equipment, this rate could be reduced to 25 cents on \$100. It is a curious fact that many of the warehouses now in use cost more to build than if they had been made to conform to the standards.

## Fine Specimens of Haskell Co. (Corn)

Mayor T. C. Cahill this week had on display at his office some extraordinarily fine specimens of corn. The grain in question was raised on the T. A. Williams farm, five miles north of town. The ears are very large and closely filled with fine, large grains, of a yellow or golden variety.

Haskell County, it seems, is well provided for this year in the matter of feed. Abundant quantities of maize, feterita, etc., have been produced, which in addition to the cotton yet to come and the enormous crops of wheat and oats, should, and doubtless will, put the county in a prosperous condition this fall.

The corn mentioned above was raised on what is known as the tight-land, north of Haskell, and will yield a heavy crop per acre. While the acreage devoted to corn this year in this county is not so large, yet there will be abundant corn made, as all the planted to corn is turning out nice yields.

### Election Proclamation

Be it remembered, that on the 31st day of July, A. D. 1915, there was presented, to the Commissioners Court of Haskell County Texas, a petition duly signed by Dr. J. C. Davis and 100 other qualified property taxpayers voters of Haskell County Texas, asking the Commissioners Court to order an election to be held throughout Haskell County, to determine whether a special road tax of 15 cents on the \$100 valuation of all taxable property shall be levied.

After due consideration the Commissioners Court, did, on the 31st day of July, A. D. 1915, in call session assembled, with all members of said Court present, order an election to be held on the 28th day of August, A. D. 1915, at all voting boxes throughout Haskell County, to determine whether a special road tax of 15 cents on the \$100 valuation of all taxable property subject to taxation in Haskell County shall be levied.

In obedience to the above order, I, A. J. Smith in my capacity as County Judge of Haskell County, do hereby proclaim that an election will be held at all voting places throughout Haskell County Texas, on the 28th day of August, A. D. 1915, to determine whether a special road tax of 15 cents on the \$100 valuation of all taxable property subject to taxation in Haskell County, shall be levied in addition to the amount now authorized to be levied by the general laws of Texas, said tax to be used for the building and maintaining public roads throughout Haskell County, said election to be held and conducted and the returns thereof made in the same manner as is required by the general election laws of this State. At said election each ballot shall have written or printed the following: "FOR THE TAX," "AGAINST THE TAX." No person shall be permitted to vote at said election unless he be a qualified property tax paying voter of Haskell County.

This proclamation shall serve as notice of said election.

Witness my hand this the Second day of August, A. D. 1915.

A. J. SMITH, County Judge  
Haskell Co. Texas

### Notice of Sale

Whereas, by virtue of an Order of Sale issued out of the District Court of Haskell County, Texas, in a judgment rendered in said court on the 3rd day of June, A. D. 1915, in favor of H. M. Carson, Plaintiff, and against J. L. Robertson, T. W. Johnson, M. Wilson, Mrs. Minnie L. Perry, a widow, Sam Massingale and Mrs. Minnie L. Massingale, No. 2381 on the docket of said court, I did, on the 15th day of August, A. D. 1915, at 9 o'clock a. m. levy upon, seize and take into my possession the following described tract or parcel of land situated in Haskell County, Texas, and known as part of a 615.8 acre survey known as survey No. 17 in Block No. M, patented to the H. & T. C. R. E. Co., by patent No. 147, Vol. 18, and described by metes and bounds as follows: Beginning at the S. W. corner of the original survey No. 17; thence N. 10° 2' West with the West line of same 1166.9 yds.; thence North 71° 55' E. 738.3 yds.; thence South 100° 5' E. 1166.9 yds. to the S. E. line of the original survey; thence South 71° 55' W. with said South boundary line 738.3 to the place of beginning, containing 150 acres of land, more or less; and being the same land conveyed by J. W. Lawler and wife to T. W. Johnson, by deed dated Nov. 7, 1911, recorded in Vol. 46 on page 621 of the deed records of Haskell County, Texas. And on the 7th day of September, A. D. 1915, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the court house of said county, I will offer for sale and sell as public auction, for cash all the right, title and interest of the said J. L. Robertson, T. W. Johnson, M. Wilson, Mrs. Minnie L. Perry, a widow, Sam Massingale and Mrs. Minnie L. Massingale, in and to said property.

Dated at Haskell Texas, this the 15th day of August, A. D. 1915. W. C. Allen,  
Sheriff of Haskell County, Texas.

## Noted Players in Coming Attraction

Headed by such famous players as Edward Jose and the notable Parisian actress, Theda Bara, the cast assembled for the William Fox Production of "A Fool There Was," Porter Emerson Browne's powerful drama of a siren and her victim, is in every sense a remarkably distinguished one. The play, which is released in its screen form by the Box Office Attraction Co., calls for acting ability of the very highest order, not only in its principal characters; but also in the minor roles, every one of which is important.

Edward Jose is known to theater-goers all over the world. Starting his stage career with Mme. Bernhardt, Mr. Jose played practically every classical role in that actresses repertoire. It was with Mme Bernhardt that he learned the value of careful attention to details which has earned him the name of "The Warfield of the Movies." When he produced Cyrano de Bergerac, Rostand's brilliant play, in Paris, one of his audience was the "divine Sarah," who warmly congratulated him on his success.

Miss Bara is known to audiences in Berlin and Vienna as well as in Paris, where she was leading woman at theater Antoine and Gymnase. She is peculiarly suited by appearance and temperament to enact the part of the beautiful heartless vampire woman, who lures men to her only to destroy them. The gowns she wears in this role, in themselves, cost a small fortune and were designed largely by Miss Bara herself.

Other important members of the great cast of "A Fool There Was" are Clifford Bruce, an actor of distinction and ability, Victor Benoit, a well-known juvenile man of wide experience and authority, Miss May Allison, known as "the most beautiful woman in pictures," Mabel Freyyear, an actress of exceptional grace and charm and little Runa Hodge, without doubt the cleverest child actress in this country. Taken all in all it can be said that "A Fool There Was" is cast as few pictures have ever been. It is not a case of one big name and the rest just "fillers." Every actor and actress was selected by Director Powell after a long process of elimination. The fact that Miss Bara was brought from Paris especially to play the vampire-woman attests to this as well as does the prominence of the other players.

## Prairie Fire Does Considerable Damage

What for a time promised to be a prairie fire of considerable proportions broke loose in the Bishophausen pasture last Saturday afternoon, about one o'clock. Before the fire was finally checked, in the neighborhood of eight hundred acres of pasture had been burned over. The pasture in question is located about six miles from town.

When the fire started, there were not many people around to fight the flames, and a call was sent in to Haskell for volunteers. A large number from here responded, going in automobiles, and rendering valiant service in extinguishing the blaze.

For a time a large quantity of feed belonging to Mr. Bishophausen was threatened, as were a number of farm buildings, but he volunteer firemen by hard work succeeded in saving the feed, as well as the buildings. We did not learn definitely from what source the fire originated, nor did we learn the full extent of the damage.

## Firm of Hancock's Is Spreading Out

M. H. Hancock, of the firm of Hancock & Company, who is in St. Louis this week, wired Thursday that he had closed a contract with an experienced milliner to take charge of that branch of the firm's business here. Much improvement has been going on at this store the past few days, preparatory to adding two new departments. These new departments of this store will comprise a ladies ready-to-wear and an up-to-date millinery department.

The two new departments will be located in the balcony at Hancock's, which is being overhauled and put in ship-shape for the arrival of the lines that will occupy that portion of the store. Mr. Hancock in his telegram advises that he is buying heavy stocks of fall merchandise for all the various departments of his store, in anticipation of a big business this fall and winter.

In addition to the milliner, the firm has also secured the services of a competent dressmaker, who will be at the store at all times, with the advent of the two new departments. We are informed that this store will put in one of the most complete and comprehensive lines of ladies ready-to-wear garments and millinery ever brought to Haskell.

From a small beginning a few years past, the firm of Hancock & Co., has had a steady rise in business circles, until at the present theirs is one of the most complete stores in West Texas, and with the addition of the two new departments, they will be better than ever prepared to fill the every want of their patrons. Their announcement appears elsewhere in this issue.

## Williams-Veazey Nuptials Wednesday

One of the prettiest home weddings ever to occur in Haskell was that of Wednesday evening, when Jesse W. Williams of Abilene, led to Hymen's altar Miss Ruth E. Veazey, of this city. The wedding occurred at the home of Mr. and Mrs. H. R. Jones, and the ceremony was witnessed by quite a number of relatives and immediate friends of the family. The house was beautifully decorated with plants and seasonable flowers, and cake and punch was served to the guests assembled.

Rev. Wm. Groom, in a most impressive manner, pronounced the words that made of this couple man and wife. Mrs. Buford Long in a most charming manner, sang "Perfect Day" and Mrs. O. E. Patterson at the piano rendered the ever-beautiful Mendelssohn's Wedding March.

The wedding hour was set for 5 o'clock, and immediately after the ceremony and congratulations, the happy couple took a car for the station, where they took the evening train for Abilene. They will spend a few days at Abilene, and then continue their journey to San Francisco, where they will spend some two or three weeks at the Exposition. Upon their return they will be at home at Big Springs.

The bride is well and favorably known to all Haskell folk, having been raised from girlhood in this city. The groom is a prominent young man in educational circles, and for the past two years was a teacher in Midland College.

The bridal party was followed to the station by a large concourse of friends, and departed amid a veritable shower of rice and hearty well-wishes from the friends there assembled.

## Club Benefit Show Drew Large Crowd

On Tuesday evening of this week the Phoptoplay Airdome put on a benefit performance for the Ladies Magazine Club. There was a good attendance on that evening, and the ladies realized quite a neat sum as their part of the proceeds.

The production for this occasion was "Ghosts," the famous drama taken from the work of Henrik Ibsen. It was a highly entertaining screen drama and heartily enjoyed by all witnessing the same.

### Another Fire Alarm

On Wednesday night, about 10:30 o'clock, the alarm of fire was sounded, and a big blaze discovered in the vicinity of Sherrill Bros. elevator. The fire proved to be a large stack of chaff and straw on the lot adjoining the elevator, and no damage resulted.

Within a few moments from the time the alarm was sounded, there was a large crowd on the ground, and the fire boys made a record run to the scene. Within just a few moments from the time the whistle blew the fire laddies had a line of hose stretched and ready to begin work on the flames.

HASKELL, TEXAS, August 14, 1915.

The street sprinkler has started—not yet.

The Mexican situation each day becomes more so.

Mexican bandits down in South Texas, along the Rio Grande, continue to perpetrate outrages upon the citizenry of that section.

Judging from the amount of lumber sent out from the local lumber yards, a large volume of building improvement is going on in Haskell and Haskell County these days.

We understand that the town of Sagerton is soon to have a newspaper, the same being a plant moved from Anson. Sagerton is a good town, and a newspaper should do well there.

Texas is now nearing the verge of a deluge of newspaper enterprises. Preceding each campaign year there are usually a number of papers started, with the hope of "getting by" on candidates' money.

On next Thursday, August 19, Houston will welcome the arrival of the "Satilla," the first of a line of steamships inaugurating a regular service between New York and Houston. While a number of sea-going vessels have already used the ship channel, the arrival of this vessel will mark the opening of the port of Houston to the commerce of the world. The Houston Ship Channel has been completed to a minimum depth of twenty-five feet from Houston to the Gulf, at a cost to the National Government of about \$4,000,000, and to the Harris County Navigation District of \$1,500,000.

## OUR PUBLIC FORUM

### Hon. Elihu Root On Woman's Sphere

The question of Woman Suffrage is an issue before the American people. Twelve states have adopted it, four more states vote upon it this fall and it is strongly urged that it become a platform demand of the national political parties. It is therefore the privilege and the duty of every voter to study carefully this subject. Hon. Elihu Root, in discussing this question before the Constitutional Convention of New York, recently said in part:

"I am opposed to the granting of suffrage to women, because I believe that it would be a loss to women, to all women and to every woman; and because I believe it would be an injury to the State, and to every man and every woman in the State. It would be useless to argue this if the right of suffrage were a natural right. If it were a natural right, then women should have it though the heavens fall. But if there be any one thing settled in the long discussion of this subject, it is that suffrage is not a natural right, but is simply a means of government, and the sole question to be discussed is whether government by the suffrage of men and women will be better government than by the suffrage of men alone.

Into my judgment, sir, there enters no element of the inferiority of woman. It is not that woman is inferior to man, but it is that woman is different from man; that in the distribution of powers, of capacities, of qualities, our Maker has created man adapted to the performance of certain functions in the economy of nature and society, and woman adapted to the performance of other functions.

Woman rules today by the sweet and noble influences of her character. Put woman into the arena of conflict and she abandons these great weapons which control the world, and she takes into her hands, feeble and nerveless for strife, weapons with which she is unfamiliar and which she is unable to wield. Woman in strife becomes hard, harsh, unlovable, repulsive; as far removed from that gentle creature to whom we all owe allegiance and to whom we confess submission, as the heaven is removed from the earth.

The whole science of government is the science of protecting life and liberty and the pursuit of happiness. In the divine distribution of powers, the duty and the right of protection rests with the male. It is so throughout nature. It is so with men, and I, for one, will never consent to part with the divine right of protecting my wife, my daughter, the women whom I love, and the women whom I respect, exercising the birthright of man, and place that high duty in the weak and nerveless hands of those designed by God to be protected rather than to engage in the stern warfare of government. In my judgment, this whole movement arises from a false conception of the duty and of the right of both men and women.

The time will never come when the line of demarcation between the functions of the two sexes will be broken down. I believe it to be false philosophy; I believe that it is an attempt to turn backward upon the line of social development, and that if the step ever be taken, we go centuries backward on the march towards a higher, a nobler and a purer civilization, which must be found not in the confusion, but in the higher differentiation of the sexes."

Headline in Star-Telegram: "Man with Fortune Waiting for Him in New York Sought in West by Relatives." What would a mere fortune in New York amount to, as compared to a home in the West, especially if it is in West Texas?

There is hardly room for anything in the big dailies nowadays except war news. The people of this section, however, haven't much time for war discussion; they are too busy looking after their bumper crops, and the main line of discussion in regard to the wave of prosperity that scintillates an every hand.

The prairie fire near town last Saturday afternoon emphasizes the fact that great care should be exercised at this time of the year by all entering pastures. A lighted match, cigar or cigarette, carelessly thrown in the grass, might result in the loss of many thousand dollars' worth of property. It would be well, also to exercise care as to the location of camp fires along the roads, bordering on the pastures. Just a spark from a camp fire might result disastrously.

### CARE FOR THE FEED

The Southwest has feed to sell. Great acreage of oats, corn, kafir, milo and feterita, and smaller acreage of peas and peanuts, are yielding huge crops. From east, west, north, south will soon come the cry, "Our barns are full, bursting, running over."

Will the Southwest have to buy feed before another crop is harvested? It may be so. It all depends upon how we care for the crops this great year is giving us.

We have been accustomed to buying feed. We haven't been growing enough to do us. Consequently we haven't enough barn, granary and shed room to care for a year's supply. And now that we have more than a year's supply, what are we going to do with it?

Fill our barns, our sheds, our granaries, of course. Then what? Build more storage room, some of us; carefully rick and cover some of it, others of us. Will there be enough so improvident as to let millions of dollars in feed rot in the fields?

Surely we of the Southwest, who have come up through blood to a full feed crop, know its cost, its value, too well to let a ton of it be needlessly lost.

If we would save the whole feed crop, now is the time. Don't wait until it is ready for the harvest to begin to prepare to care for it. Temporary shelter can be provided at small expense; more permanent housing may be had for a little more.

Whether we store or sell, let's save the whole of the 1915 feed crop.—Farm and Ranch.

A copy of the premium list of the 1915 State Fair, Dallas, Oct. 16-31, has reached our desk. It is a splendid work and contains a most handsome list of premiums. With the prosperous conditions now prevalent in this section, it is our prediction that West Texas will have a more formidable representation at the State Fair this year than ever before known.

Horace Vaughn, of Texarkana, formerly U. S. Congressman from his district, has received a nice Federal plum, in the form of an appointment to the post of assistant United States District Attorney for Hawaii. He, with his wife, will sail Aug. 20 for Honolulu. That the appointment was a merited one will be generally conceded, as he retired from Congress with a splendid record.

## Exchange Chat

Now, let's all accept the verdict and build a bigger and better Wichita Falls. —Wichita Times.

The above, referring to the recent prohibition contest, shows that the editor of the Times, as well as all citizens of the enterprising city of Wichita Falls, is always willing to drop the differences and work to the best interests of the city. The Times editor is, and has always been, to the best of our knowledge, an out and out pro, but he is a graceful loser, as the above pertinent paragraph will testify.

"Men's Overcoats to be Short and Shapely," states a fashion headline. Some of them may be that way, but not all. We know of one that will be just as long and of the same shape that it was last year and the year before.—Mineral Wells Index.

Perhaps the above fashion item was written without taking into consideration the overworked editor. However, the Index paragraphs fortunate to have even a long coat; we could name some editors that have no overcoats at all.

According to advices from El Paso, the United States has Villa's permission to depart at any time for a foreign land where summer is said to be perpetual. We are fortunate, however, in that he is not going to force us to move.—Hamilton Herald.

Yes, fortunate, perhaps, in that we do not have to take the advice of that villain called Villa, and fortunate again in that Villa and his ilk belong to other lands than the fair U. S.

Right at this time there is no reason in the world why any able-bodied man in Texas should complain that he can't make a living. With the farmers calling

for assistance, there is plenty of work for idle hands to do. This fall should be a time of great prosperity for Grand Old Texas. —North Fort Worth Sunday News.

We hear no such complaint out this way, nor do we know of any idle men. And, again, with the general opening of the cotton crop in this section, West Texas will also furnish employment to a large host of idle men from other portions of the State.

West Texas and the Panhandle country is in the saddle again this year. We had a great big crop last year and the crop this year promises to be equally as big. Great crops of oats, corn, wheat and various kinds of feed crops are already made or assured, and the cotton in most localities promises a big yield. Surely there is no section of the southwest more prosperous than the western half of Texas, and it seems that greater things are yet to come.—Burk Burnett Star.

Right you are; West Texas is in the saddle, and from all outlooks at the present writing, is going to remain in the saddle. West Texas, especially this section, has always been the banner part of the United States, but the fact is just now coming to be generally known. Watch for great things out this way in the next few years to come!

## WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamless sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

## You'll Set Your Boy a Good Example if You Go to Church

**GO TO CHURCH** for the sake of that boy of yours! Although everybody should GO TO CHURCH, fathers of families are particularly enjoined to join the GO TO CHURCH throng. Think of that boy of yours. He is young today. He is impressionable today. If he sees you on your way to church he will ask questions. He will want to know why you are going to church. You can tell him. He will listen. And when he grows to manhood he will not forget the example you set him. He will not forget why you went to church.

**ON THE CONTRARY, IF YOUR BOY SEES YOUR NEIGHBOR AND YOUR NEIGHBOR'S SON ON THE WAY TO CHURCH AND HE DOES NOT SEE YOU GO HE WILL NOT THINK WELL OF THE CHURCH. A BOY BELIEVES IN HIS FATHER. IT MATTERS NOT IF EVERY ONE ELSE IN THE COMMUNITY GOES TO CHURCH. IF HIS FATHER REMAINS AWAY THE BOY IS SATISFIED THE OTHERS ARE ILL ADVISED. WHEN HE GROWS OLDER HE WILL THINK LESS OF THE CHURCH. IF HIS FATHER DIDN'T GO TO CHURCH, WHY SHOULD HE GO, HE WILL RIGHTLY ASK.**

Now it is fair to say that there is not a God fearing father in the land who does not believe that his boy should GO TO CHURCH. Yet he will not set that boy a good example by attending divine worship himself. He may preach all day to his boy on the benefits to be derived from going to church, but if he does not go himself all his preaching will be lost. If he GOES TO CHURCH, however, it will not be necessary to preach to his boy. The boy will be only too glad to go. His father thinks church is all right. Therefore, it must be all right.

Put that boy of yours on the right track. Get him to GO TO CHURCH. There's no better way to do it than by—

GOING TO CHURCH yourself!

### Guilty is Verdict in Latham Case

The jury in the case of the State vs. Mrs. Minnie Latham, charged with manslaughter in connection with the shooting of John Stewart, at Snyder, Texas, on Jan. 20, 1914, on Saturday evening at 5:15, at Anson, brought in a verdict of guilty. Punishment was assessed at five years in the penitentiary and recommendation was made that the sentence be suspended. The case was turned over to the jury at three o'clock Friday afternoon. The trial began last Monday before Judge John B. Thomas, and attorneys on both sides contested every inch of the ground, the trial being one of the most hotly contested cases ever heard in Jones County, it is said.

In cases where the jury recommends that sentences be suspended the court must comply with the verdict and under the provisions of the law defendants are held under bond during the term of the punishment assessed and if no infractions of the law are committed at the end of the term the case is again called by the court and upon motion of the defendant is dismissed. The law provides that during the time from the date of the verdict of the jury is returned in court and the expiration of the date fixed as punishment that defendant shall have all the rights of other citizens of the State. When a jury recommends that a sentence be suspended the court does not pass sentence on the party convicted but allows him or her to have freedom so long as they do not commit a felony.

Judge J. F. Cunningham, one of the lawyers for the defendant, stated that he was well pleased with the jury's verdict. In his speech before the twelve men sitting in this case as jurors, Judge Cunningham devoted much time to insisting that the jury recommend a suspended sentence if they returned a verdict of guilty. The case was hard fought from the time the trial began to the close.

Will Latham, husband of Mrs. Minnie Latham, was indicted as an accomplice of Mrs. Latham, and on a change of venue from Haskell, Judge Thomas sent the case to Colorado City, where it will be called for trial on Jan. 8, 1916.

### Married in This City

On last Thursday, R. C. McLain and Miss Hazel Benton came to this city and secured a permit to wed. The services of Justice of the Peace J. S. Post were called for, and he in proper style tied the knot that made two young hearts beat happily as one. We are informed that this couple was from Stamford. From Haskell they took the train for a wedding trip to Oklahoma.

### Try It! Substitute for Nasty Calomel

Starts your liver without making you sick and cannot salivate

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

### Cotton Picking Starts

We are informed that in some parts of the county the work of picking this year's cotton crop has begun this week. It is expected that there will be a good crop of the staple in Haskell this season, although the acreage is not so large as was the case the season past. At all the gins in this city extensive improvements have been made, and Haskell is in first-class shape now to handle the cotton that will shortly be pouring into town. In addition to improvements at the old gin plants, there has also been recently completed a new gin here.

### "Buy a Key" is the Word

Dallas, Texas: A unique campaign, having for its purpose a successful 1915 State Fair of Texas, is now on in this city. The Fair management is selling 100,000 Opening Day Keys, each key selling for 50c, the price of a general admission ticket. An Opening Day Key is good for admission at will on Saturday, October 16th. Thousands of these keys have already been sold, not only to Dallas people, but to many outside the city. Business concerns, labor unions, social, civic and fraternal organizations are co-operating with the Fair in making this the most successful campaign ever conducted in Dallas.

### Haskell Public School Items

At a recent meeting of the Board of Trustees of the Haskell Independent School District it was decided that school should begin Monday September 11th.

**NORTH WARD**  
All grades—from first to eleventh inclusive—will be taught in the North Ward building.

**SOUTH WARD**  
The first, second, third, fourth, fifth and sixth grades will be taught in the South ward.

**EAST WARD**  
The first, second and third grades will be taught in the East Ward and probably the fourth. No definite announcement can be made at this time about the fourth grade work in the East Ward. Useless to say, the Board must place the teachers where the pupils are. For the past two or three years the enrollment in the primary grades of the East Ward has been very small until February. Further announcements will be made about the grades in the East Ward at the opening of school. The grades taught there and the number of teachers placed there will be determined by the number of pupils who enroll the 13th of September.

**DIVISION LINES**  
All pupils of the entire district who are in or above the seventh grade will be in the North Ward building. All pupils in the first, second, third and fourth grades who live in the East Ward—east of the railroad either in the town or in the country—will go to the East Ward. If the fourth grade in the East Ward has only a very few pupils in it at the opening of school they will be sent to the fourth grades of the South Side or the North Side.  
All pupils who are in the first,

second, third, fourth, fifth and sixth grades and who live west of the railroad and South of Ballew Street—in the town or in the country—will be in the South Ward. Pupils who are in the fifth and sixth grades and who live east of the railroad and north of Ballew Street—or a straight line made by the extension of Ballew Street—will go to the North Ward and those in the fifth and sixth grades east of the railroad and south of this street or line will go to the South Ward.

**DOMESTIC SCIENCE**  
On account of the uncertainty regarding the interest from the County Funds no teacher has been employed for the work in Domestic Science. The school was given affiliation in Domestic Science with the the University of Texas last year. More girls wanted the work than could be accommodated with the equipment at hand. The Board is very anxious to continue the work and feel that it is a vital part of a girl's education but no provision has been made for the work to date.

**SAFETY OF NORTH WARD BUILDING**  
The condition of the North Ward building is a topic which is being much talked of by the citizens and it is a matter which is being carefully considered by the Board. Useless to say that a large per cent of the patrons feel that the building is unsafe. The Board is making every effort to determine what is wise in regard to the building and will have the building inspected by men who are competent to pass on it before the opening of school.

### Cheap Paint

The cheapest paint is the one that goes farthest and wears best; there is most in a gallon of it. What is a quart of milk worth? Depends on the milk. So of paint; depends on the paint. Devco is worth the top price, whatever it is. Poor paint is worth nothing at all; you've got to pay your painter \$3 or \$4 a gallon for putting it on; and it isn't worth it. Devco goes twice as far and wears twice or three times or four times as long. The cheap paint is Devco at the top of the market.

## Lay-to for a spell and swing on this:

You'll start an old-pal-party via a pipe or a makin's cigarette quick as a flash, as soon as you realize it's a live bet to let your good money rub up against some Prince Albert tobacco. Why, it's like beating back to the bushes for old-home week, P. A.'s so friendly, so chummy-like.

You see, Prince Albert lets you hear the song of the joy'us jimmy pipe and the makin's cigarette all the day long! The patented process takes care of that—and cuts out the bite and parch!

## PRINCE ALBERT

the national joy smoke

just hands you home-made questions like these: Were you ever pipe-happy? Did you ever hit a brand that just pushed pleasure against your palate? The kind that sort of teased your smokeappetite for some more fire-up, then another—and so on, right to the pillow-period!

Well, that's P. A., no matter how you hook it up—pipe or cigarette. It just-jams-joy into your system! You nail that fact hot off the bat, because it's case-cards information! And handed out to you for personal and immediate attention as being about as real and true as you've heard since Hector was a pup!

P. A. is sold in the tippy red bag for the price of a jitney ride, 5c; tidy red tin, 10c; pound and half-pound tin humidors—and—the classy pound crystal-glass humidor with the sponge-moistener top that's not only a joy'us thing to have at home and at the office, but it keeps P. A. in the highest state of perfection.

Let Those Who Know Advise You As To The Kind Of An Education You Should Have. Men At The Head Of The Affair Of Our State And Nation.

Following are extracts from letters from some of America's greatest men on the value of a business education, Hon. Champ Clark, Speaker of the House of Representatives, Washington, D. C. says: "Since I have been elected Speaker I have had it more thoroughly impressed on me than ever before that a thorough business college training is of exceeding importance." C. M. Dickinson former Secretary of War, Washington, D. C. "Contemporaneously with taking my general education, I took a course in a business college and found it of value to me, not only general, but in the practice of law." R. B. Glenn, ex-Governor of North Carolina: "I cheerfully recommend to every one a practical business education for their children." Oswald West ex-Governor of Oregon: "The modern business school plays a large part in fitting young men and women for their entrance into the business world." T. C. Pickett, Representative from Iowa: "The value—even necessity of a practical education to young people today is so obvious that no argument should be required in support of it." E. F. Noel, ex-Governor of Mississippi: "I take pleasure in testifying to the importance of a practical business education, and to the efficiency of a properly conducted business school imparting such knowledge." C. N. Haskell, ex Governor of Oklahoma: "I consider practical business education of the greatest importance." John W. Kern, United States Senator: "Everybody ought by this time to understand that business men and business women need business education on the same principle that a doctor must have a medical education." Joseph M. Carey, Governor of Wyoming: "Too much can not be said in behalf of a good commercial education." "I do not believe that such an education can be too highly commended."

Shouldn't the above evidence settle the question with you as to what kind of an education is needed? Write for catalogue of America's largest commercial school, the one giving the most extensive course of study, the one placing its graduates in positions, the one that has more than 2000 enrollments annually from over half the states of the Union, the school with a National reputation, the Tyler Commercial College, Tyler, Texas. **Cattle Receipts at Kansas City Yards**

Kansas City Stock Yards, Aug. 9, 1915—Light receipts of cattle here last week resulted in a gain of 15 to 25 cents on all classes. The supply to-day is 13,000 head here, and 22,000 in Chicago, sufficient grounds for weak to 10 lower prices on the bulk of the cattle. Demand from killers is strong, and they are taking some of the middle fleshed steers that commonly go to feeder buyers at this season. Feeder demand from Illinois and Iowa, and other corn growing states, will increase materially as soon as corn prospects are a little better defined. Two cars of Idaho steers were here to-day, one load of feeders at \$7.75, and one load carrying more flesh, around \$8.15. A train of 11 cars of Oregon steers weighing 1200 to 1276 lbs, brought \$8.25 and \$8.35 here last week. Twenty-five cars of California alfalfa fed steers brought \$7.85 here last week. A shipment of choice panhandle white face calves, 350 lbs average, brought \$8.20, to-day, to go to the country. There is an immense demand developing for stock cattle, sales to-day are \$6.90 to \$7.75, a few two year olds at \$8. Sheep and lambs sold 10 higher to-day, following a good market last week, receipts 6500 head. Eleven cars of Arizona lambs were included in receipts, selling at \$8.60 to \$9.80, feeders around \$7.75, and six cars of Idaho lambs sold at \$9; with a cut of 15 per cent to feeder buyers, 47 lbs average, at \$8. The Idahos weighed only 63 lbs, after the feeders were sorted out, and were considered a quarter under what choice quality lambs would have brought. Fat ewes sold at \$6.85 to-day, and breeding ewes bring \$6.50 to \$7.50, both feeding and ordinary prices this season. Two doubles of Arizona breeding ewes, one third of them with broken mouths, sold at \$7 here last Thursday, 96 lbs average.

**Died at Fort Worth**

Boyd Denison, son of Mr. and Mrs. Henry Denison of Rule, died last Sunday morning at Fort Worth. The youth was suffering from an abscess of the brain, and several weeks ago was taken to a Fort Worth sanitarium for treatment. It was realized that he was in a very serious condition, and he gradually grew worse after arriving in Fort Worth until early last Sunday morning, when death relieved the intense suffering.

The remains arrived here on the evening train Sunday, and were taken over to Rule, where interment occurred on Monday morning.

**Notice of Sheriff's Sale**

The State of Texas, County of Haskell. In the District Court of Haskell County, Texas. O. Neathery, Plaintiff, No. 1870, vs. N. Neathery et al, Defendants.  
Whereas, by virtue of an order of Sale issued out of the district court of Haskell county, Texas, on a judgment rendered in said court on the 1st day of December, 1914, in favor of the said O. Neathery and against N. Neathery, H. E. Fields and the Haskell State Bank, of Haskell Texas, being No. 1870 on the docket of said court, I did on the 27th day of July, A. D. 1915 at two o'clock p. m. levy upon, seize and take into my possession the following described tract of land, to-wit:  
All that certain tract or parcel of land situated in Haskell County, Texas, and known as the S. E. one-fourth of Sub-division No. 28, of Red River County School land, patented to the school commissioners of Red River County, Texas, February 25, 1875, by patent No. 545, Vol. 28, abstract 347, survey No. 78. And for further description, reference is here made to Vol. 2, page 222 of the county surveyor's records of Haskell County, Texas.  
And on the 7th day of September 1915, being the first Tuesday of said month, between the hours of ten o'clock a. m. and 4 o'clock p. m. on said day, at the court house door of said county, I will offer for sale and sell at public auction, for cash, all of the above described property, same being a foreclosure of the vendor's lien on said property as it existed on December 1st 1907 and October 10th 1908.  
Witness my hand officially on this 27th day of July A. D. 1915.

**Arrested on Serious Charge**

A tenant on a farm near Haskell was last week arrested and brought here, being charged with a statutory offense. However, the defendant was released from custody later. From information we received, the wife and daughter of accused made the charge, later withdrawing it and declaring there was nothing to it. It seems that the wife had written a letter to the sheriff's department making it in the form of a complaint, but after the arrest was made and witnesses had been brought before the county attorney and examined, it was denied by the wife and other members of the family that there was anything to the charge. Thus defendant was automatically released.

## It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

### Haskell, Like Every Town and City in the Union, Receive It

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Haskell evidence of their merit:

P. S. Arnold, farmer, Haskell, says: "My kidneys were disordered and didn't do their work as they should. I often became dizzy and specks seemed to be passing before my eyes. Learning of Doan's Kidney Pills, I got a supply from the Corner Drug Store and they corrected these ailments. I used about three boxes in all and haven't noticed any return of the ailments to amount to anything since. Others in my family have also found Doan's Kidney Pills beneficial."

There has been a general exodus of colored people from the city during the past few days. We understand that the officers have been making it a little "tough" on some of the idle class of darkies, and as a consequence many have departed to more congenial surroundings.

## The Clerk Guaranteed It

"A customer came into my store the other day and said to one of my clerks, 'have you anything that will cure diarrhoea?' and my clerk went and got him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and said to him, 'if this does not cure you, I will not charge you for it.' So he took it home and came back in a day or two and said he was cured," writes J. H. Berry & Co., Salt Creek, Va. Obtainable everywhere.

## Buy a Home in Haskell

Haskell County has 582,400 acres of land, 90 per cent of which is smooth, nearly level, rich farming land, about one-third, or 200,000 acres, being in cultivation. The 1910 census gave the county 16,249 inhabitants, about 3,000 of whom live in the towns and are not interested in farming. In the year 1914 there was produced and ginned in the county about 55,000 bales of cotton, or three and four tenths bales for each inhabitant, or four bales for each farm inhabitant. This does not include cotton raised in county and ginned outside the county, nor about 10,000 bales destroyed by frequent rains during the gathering season.

The value of farm products sold and shipped from the county last year was as follows:

Cotton and cotton seed	\$2,375,000
Wheat (light crop)	175,000
Oats (light crop)	29,000
Maize and Feterita	84,000
Turkeys	20,750
Chickens	19,500
Eggs	42,000
Cream	5,600
Total	\$2,750,850

This equals \$170 for each inhabitant of the county, or \$207 for each farm inhabitant. The above estimate is conservative, and if incorrect is too low rather than too high. It does not include the value of horses, mules, cattle and hogs nor garden products nor forage and supplies in the hands of the farmers and people for home consumption, which is more than will be needed before this year's crops come in.

All crops this year (1915) are very fine, and wheat is being threshed now and is yielding 25 to 30 bushels to the acre, some as high as 38 bushels; and oats 40 to 60 bushels, some as high as 70 bushels.

Nearly all the farmers raise horses, mules, cattle and hogs as many as they need on their farms and some to sell. There will be more poultry raised this year than ever before.

Every kind of product grown in Texas produces good crops here. One man got 23 premiums on farm products and stock raised by him in the county, at the county fair here last year, which shows the variety that can be raised here. And the exhibits at said fair were as good as could be seen at any fair elsewhere.

The country is new, nearly all farms having been put in cultivation in the last 10 years. Farms sell at \$25 to \$50 per acre, according to location and improvements, the average being \$30 to \$35 per acre. This is cheap when compared to what the land will produce. Thousands of acres of land in this county made more than a bale of cotton to the acre last year. If you want a farm, come here and buy it now, be independent, and get the benefit of the rise in values which is bound to come soon.—Adv't.

# POLITICAL AGITATORS

POLITICIANS WHO CAPITALIZE STRIFE A MENACE TO GOVERNMENT.

Neglect of Agricultural and Industrial Opportunities a National Crime.

By Peter Radford.

There never was a time in the history of this nation when we needed statesmen more or agitators less than at the present moment. The opportunities now afforded us on land and sea demand the best there is in statecraft and the possibilities that are confronting us call for national issues that unite the people, build industry and expand trade. The agricultural and industrial development of this nation has suffered severely at the hands of agitators who have sent torpedoes crashing into the port side of business and whose neglect of the interests of the farmer makes them little less than political criminals. We want no more of these evil spirits to predominate in government. Too long their hysterical cry has sent a shiver down the spinal column of industry. Too long have the political agitators capitalized strife, pillaged progress and murdered opportunity. An industrial corpse is not a desirable thing, a crippled business an achievement or neglect an accomplishment about which any representative of the government has a right to boast.

Issues that Breed Agitators Should be Eliminated.

The political agitator must be eliminated from public life before thoughtful consideration can be given to a constructive program in government. The liquor question is the most prolific breeding ground for agitators and whether pro or anti, the hatch is equally as undesirable. This article is in no sense a discussion of the liquor question but deals solely and by way of illustration with the political products of that issue. Other subjects will be dealt with in the order of their importance.

In the history of our government the liquor issue has never produced a constructive statesman worth mentioning and it never will. It has sent more freaks to Congress, Lilliputians to the Senate and incompetents to office than any other political issue under the sun.

The recent experience of the English Parliament which lashed itself into a fury over the liquor question has a lesson that it is well for the farmers of this nation to observe; for the subject in some form or other is constantly before the public for solution and oftentimes to the exclusion of more important problems to the American plowman.

## Too Many Political Drunkards.

Lloyd-George, the Prohibition leader of Europe who led the prohibition fight in England, has declared that he will never again take a drink politically and there are many American politicians—pro and anti—who would render their country a service by climbing on the water wagon or signing a pledge of political temperance. Too often our legislative halls are turned into political bar-rooms and many of the members become intoxicated on liquor discussions. We have too many political drunkards—pro and anti—in our public affairs. No one who is a slave to the political liquor habit is quite so capable of dealing with the business affairs of government as the sober and industrious. We have few public men in this day who are strong enough to resist the temptation of strong drink politically and when the demon Rum once becomes firmly entrenched in the mind of a politician, he is less capable of meeting the demands for constructive statesmanship now confronting this nation.

We have in this country too many red-nosed politicians—both pro and anti. A candidate with political delirium tremens, a preacher with political snakes in his boots and an agitator drunk on the liquor question are the saddest sights in civilization, and they should all be forced to take the political Keeley Cure.

It is far more important in government to make it easier for those who toil to eat than to make it more difficult for a few toppers to drink. There is not one person in one hundred of our rural population that ever touches liquor but we all eat three times a day.

## THE LAYMAN'S DUTY

There never was a time when preachers and politicians formed an unholy alliance that civilization did not shriek out and Christianity cry aloud. Since the beginning of government, politicians have sought to decoy the ministry into the meshes of politics and make them carry banners in political processions. They have taken the ministry to the mountain-top of power and offered to make them monarch of all they surveyed, and while most of them have said, "Get thee behind me Satan," a few have fallen with a crash that has shaken every pulpit in Christendom.

## Judge Thorp Dead at Throckmorton

Judge B. F. Thorp died at Throckmorton last week, according to advices received in this city. The Judge had been ill for several months, but during a portion of that time he was able to attend to his duties, as county judge of Throckmorton County. He was a sufferer from heart trouble for some time, but his family had entertained hopes for his ultimate recovery. About three weeks prior to his demise he was stricken to a critical condition, but within a few days was much better.

Judge Thorp was born March 3, 1866, in Shackelford County, Texas, and was married to Miss Flossie Shick, January 14, 1900. He spent his early years of manhood on ranches in Shackelford and Throckmorton Counties, moving to the town of Throckmorton at the age of 25, soon after which which time he entered the practice of law. He had attained distinction in his profession and spent a number of years in efficient service of the public in official capacities.

Judge Thorp was a brother of Mrs. W. R. Free of Haskell, and is also survived by his mother, his widow and one child, four brothers, and two sisters in addition to the one living in this city.

# DR. CRUDGINGTON SPECIALIST

On All Chronic, Private and Nervous Diseases

**The Man of Last Resort**  
**Afflicted Men and Women**  
 You know whether you are in need of **MEDICAL ATTENTION** If you do, see Dr. Crudgington.

I am an experienced and reliable SPECIALIST in the treatment of all Chronic, Nervous, Deep-seated, Special and Private Diseases. I successfully treat at the lowest cost

- Stricture
- Hydrocele
- Blood Poison
- Rupture
- Piles
- Fistula
- Blood and Skin Diseases
- Lost Vitality
- Prostatic Diseases
- Female Complaints
- Diseases of the Stomach and Liver

If you need a Specialist, why go away to some Doctor you don't know? Come to us in strict confidence.

Newly contracted cases are quickly cured. Consultation, examination and advice free. Honest methods and square dealing is my motto. No deceptive advertising or misleading statements. If unable to call, write for particulars.

REMEMBER my office is over Sherrill Bros. Hardware Store, Haskell, Texas. Rooms 3 and 4, where we will be glad to see you.

**LISTEN!** We will give \$100 for a case of Cancer, Piles, Eczema, or Catarrhal Disease we take for treatment that we fail to cure.

Specialist on Chronic, Nervous and Private Diseases

Remember, we treat Eczema, Cancer, Piles, Rheumatism and Chronic Constipation

and all diseases of men. I will cure and guarantee any case of Appendicitis without the use of the knife, if there is not a puss formation. I make the assertion and can prove that fully 85 per cent of all surgical operations are either fake or meddlesome surgery.

### Diseases of Women

No wonder poor, unfortunate, afflicted women go on from time to time suffering in silence, refraining from consulting the physician or surgeon when the fear of the knife is ever in her mind. The hospitals and sanitariums have become nightmares to her. She remembers too well the sad end of others who have gone before. The great majority of those who get away from the sanitarium alive are rendered invalids for life. Their misery making their life a living hell.

Ladies, don't be operated upon, but come to us, as scores of men and women of nearly every walk and condition in life have done, and be cured without the use of the knife.

Now remember, we treat you on a positive guarantee. If we don't cure you, you are not even expected to pay us one dime doctor's bill. Do you know of any other doctor that will do that? They all expect their doctor's bill whether you are even benefited or not.

### Consultation and Examination Free

If you have some long standing, complicated disease that has cost you much suffering and hard earned money, having been under treatment of your home doctors, failing to be cured, and have about given up all hope of ever being cured, you had better make up your mind to make one more effort; that is, go and see this great specialist, who will give you a careful thorough examination free of charge, and will tell you whether your case is curable. Dr. Crudgington has discarded the knife altogether; so have the best physicians in the world. The medicine is all ordered direct from the kettle where it is pure and fresh, and you don't pay one dollar doctor bill until you say you are sound and well. All you are out until you are cured is the course of medicine you order, then, when you are well and satisfied in every way, you pay our fee. Is this fair? Treat and cure to stay cured Sick Headache, Liver and Kidney, Stomach and Bowels, Bladder and Dropsey, all skin diseases, Rheumatism, Malaria, Poisons, Piles cured without the Knife, all female troubles, Appendicitis, Paralysis, all kinds of Goitre, all Tumors without knife. Gall stones without knife; Cancer, we cure, except Cancer of the Stomach; Consumption, we do cure it when other doctors fail to benefit. Treat successfully Whiskey and Drug additions.

REMEMBER, all those bringing a copy of this ad to my office, I will give free examination and one free treatment. I will refund the railroad fare for the first trip to my office.

Dr. Crudgington has permanently located in Haskell, Texas.

Ladies, don't feel embarrassed to call, as I have in my office a lady assistant who will be present at all times to meet you and make you feel at home.

## Over Fifty Per Cent Saved

The lumber industry in the South represents many millions of dollars in the business of the States in which the lumber plants are situated.

Materials which were formerly regarded as waste are utilized for making many things of importance to the people of this country.

Paper, boxes, shingles, staves and other articles have been added to the products of the mill which formerly produced only planks, etc.

In the organization of this vast industry every available means for reducing waste has been studied with great care. It is natural to find that the largest lumber plants in these States with the most complete organization are using
