It has been brought to my attention that we have a budding poet laureate in the Senior class. She is Nanette Fitzgerald, and even though the following poem was written with the help of Cindy Walker, it definitely shows her talent and wit.

**A FEATHER**  
I found a feather in my chair;  
I wondered what it was doing there;  
So I took it to the fair;  
And found another there;  
In another chair;  
But what do I care;  
That out there somewhere;  
Is a birdy that is bare!

**Good Placings, Prices Hard To Get At Amarillo Show**

Good placings were hard to get by the local exhibitors in the Amarillo Junior Livestock Show, especially in the lamb and steer divisions, and prices bid for those animals which did make the sale were, in most cases, too low for the boys and girls to come out very well on their projects with the high prices they paid for the stock and feed.

Highest placing was by a middleweight Yorkshire barrow shown by Shelly Harris, which placed first in its class and was named Reserve Breed Champion.

Shelly also participated in the horse show Sunday, capturing second place in pole bending and fourth in barrel racing.

## Dear Charlotte,

Bless the friend who shared this Mother's Prayer by Marjorie Holmes—

"Oh God, I was so cross to the children today! Forgive me. I was discouraged and tired—and I took it out on them. Forgive my bad temper, my impatience, and most of all, my yelling. I am so ashamed as I think of it. I want to kneel down by each of their beds, wake them up and ask them to forgive me. But I can't. They wouldn't understand. I must go on living with the memory of this awful day, my unjust tirades. Hours later, I can still see the fear in their eyes as they scurried around, trying to appease me—thinking my anger and maniacal raving was their fault.

"Oh God, the pathetic helplessness of children! Their innocence before the awful monster—the enraged adult. And how forgiving they are—hugging me so fervently at bedtime, kissing me good night. All I can do is straighten a cover, touch a small head burrowed in a pillow and hope with all my heart that they will forgive me.

"Lord, in failing these little ones whom you have put in my keeping, I am failing you. Please let your infinite patience and goodness replenish me for tomorrow."

vice Company, Roy Tolk, chairman and president of the electric company, has announced.

The investment for 1975, 62.4-million dollars, will be the largest annual amount ever budgeted for the company, but the record will be short-lived. The projected investment for 1976 is more than 65-million dollars, more than 76-million dollars in 1977, and in 1979, the company expects to spend more than 77-million dollars for the improvements and equipment necessary to continue providing electric service for this growing area.

Three new generating facilities to be installed during this five-year period will increase the capability of the SPS system more than 1-million kilowatts, bringing the total capability to approximately 3½-million kilowatts.

Harrington Station, northeast of Amarillo, will be the site for the first two additional generating units. The first is now under construction and is scheduled for completion in mid-1976 and completion of the second unit is planned for 1978. These two generators will each have a capability of 350,000 kilowatts and will use coal as their primary fuel.

"Construction of the third generating unit will start during the latter part of the five-year period and will also use a coal-fired boiler," Tolk said.

In September of this year, SPS announced its interest in taking a lead role in the construction of the nation's first nuclear power plant using a gas-cooled fast breed reactor. The company signed a letter of intent with the General Atomic Company of San Diego, California indicating that SPS

#### MEMBERS OF TEXAS STATE ASC COMMITTEE REAPPOINTED

Secretary of Agriculture Earl L. Butz has announced the reappointment of all members of the Texas State ASC Committee.

Charles L. Calhoun, El Paso County, was renamed Chairman. Members are Harold W. Thomas, Eagle Lake; Don Ray Crook, Childress; Alfonso Margo, Rio Grande City; and Pat L. Northcutt of Silvertown. John E. Hutchison, Director of the State Extension Service, is an ex-officio member of the committee.

ASC Committeemen are responsible for State administration of farm action programs such as the voluntary feed grain and wheat programs, price stabilization measures, acreage allotments and marketing quotas, farm storage facility loans, programs under the Sugar Act and related ASCS activities.

would contribute \$100-million to such a project.

Transmission lines and transmission substations to be built during the five-year program will represent an expenditure of more than \$50-million. The lines will be 115,000 and 230,000 volt and will serve the major load areas in Southwestern's system.

Construction will start in the near future on a 115,000 volt transmission line from Cunningham Station, near Hobbs, New Mexico, to Carlsbad, New Mexico. This new line will provide additional power for new and existing industrial loads.

"This region can avoid the recession which is gripping much of the nation if the people of the area will continue the planned development program for growth which utilizes all of our assets. Planning is the key word and our area development people are dedicated to helping every community that wants to work at planned progress. Finally, the whole region can count on adequate electric power being one of the assets at work," Tolk concluded.

*What a Mess!*

Sometimes the desire to run out the door and chuck it all is overpowering when we are confronted with the mess of an after-dinner table!

Sometimes, insight lets us see that our lives are quite a mess too. In fact, things seem such a jumble, that our reaction to this truth, if acknowledged, is, "What's the use?"

Well, of course, the only thing to do with the dishes is to take them to the sink, put them in hot water, and wash them with a good cleansing agent until they shine.

Less obvious, perhaps, is what to do with a messed-up life. We invite you to seek an answer in church this week. You are sure to find there the Power who will help you with your problems, a power who cares immeasurably for your soul.

"Casting all your care upon him, for he careth for you." I Peter 5:7

"And the crooked shall be made straight, and the rough places plain." Isaiah 40:4b.

EVERYONE IN THE CHURCH  
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
