On Top

The Bible, "God's holy word," is still the best seller, and most quoted book. From the original Greek and Hebrew this book has been translated into many languages.

Through the centuries men have devotedly studied and sought out the truth in the Bible. When one reads the Bible with an open mind, God's word is "as sharp as a two edged sword."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
