

by Mary Ann Sarchet

Cancer-it's a word that strikes fear in the hearts of every intelligent creature because it is a silent killed that creeps into the cells of our bodies and begins to destroy us before we even know it is there. Some of the best people I've ever known have been struck down by cancer. I've watched those I loved very much lose the flight against cancer; I've seen dear friends lost to the dreaded killer. But with all these gloomy thoughts, I also know a number of people who have won or who are winning the fight against cancer.

The hope that springs eternal in all of us is that we may see the threat of cancer wiped out in our lifetime. I agree with you: this seems like an impossible dream, but did any of us really expect to see the ravages of polio halted so soon? Our only hope in the fight against cancer is to provide the money that is so desperately needed for research in the field of cancer prevention. (ity Election Is They tell me that for every brilliant researcher working toward a cure for cancer in the laboratories of our United States, there are many others with sound research theories who are denied ed its officers' election for Saturthe opportunity by the lack of day, April 5, at the City Hall. > Redin has been in the outdoor writing business for more than four years. He and his wife, Dana, reside at 2812 West Tenth in Plainview.

### Dear Charlotte,

One look at the tremendous heart display of Valentine candy at the drug store, and I feel so smug, because I know that one of the lovely boxes will be mine. It may be the \$3.95 red one with velvet roses, or the lavendar one with an orchid perched on top, or perhaps the highly caloric \$5.00 one, or could be the small 98c box with its red cellophane, or even the elongated modern jet-like heart. But this I know, one will be mine.

True, the cellophane may be a little torn and dusty, the nuts a bit rancid, the chocolate slightly on the whitish side, the cream centers not so creamy, and the chewy ones too chewy, but I'll get one anyway.

Mine will come on Mother's Day. For, you see, I receive Christmas wrapped candy on Valentine's, and the heart-shaped box on Mother's Day-on Christmas then, the Mother's Day wrap.

Confused?-Don't be. I get the left-overs, but then, it isn't every Mother who receives a heart-shaped box of candy on Mother's Day. This only proves that the giver has his heart in the gift. Gratefully (?)

# Furnace Ceiling Cable Wall heaten Baseboard **ELECTRIC** PUMP

### ASK ABOUT OUR BRIGHT STAR IN THE GALAXY OF **ELECTRIC HEAT**

It's called the heat pump . . . because it actually pumps heat . . . "in" your home in the winter . . . "out" of your home in the summer ... That's really quite an oversimplification ... . but, quite simply, that's just what the heat pump does . . . using otherwise wasted heat and electricity in cooling and heating your home. In fact, in heating the heat pump actually produces more energy than it uses. For more information on the heat pump . . . call us . . . we'll give you all the facts in a free personalized electric heat-cost survey!

EQUAL OPPORTUNITY EMPLOYER

clean, quiet, economical and efficient means of heating your "inner space" . . . Electric heat is 100% efficient at the point of use. Like to know how you can have the space heating of the future, today?

Call us this week for a free personalized electric heating cost survey.

## Natural Gas for the Future I'm pleased to report to our customers that Pioneer purchased more gas during 1974 than we used. This new gas will be available for future use, of course As you know, Pioneer is having to pay more for new gas than we've ever paid before. The competition for the gas produced in our area has never been so fierce. But the higher prices are resulting in lots of new exploration and production. I know of numerous wells which could not have been drilled at prices prevailing three years ago The increase in field prices means that our customers will have to pay more for the energy they use in their homes — gas and electricity but, more important, it means he'll have the gas he needs. will remain your best energy buy. PIONEER NATURAL GAS COMPANY 71111 K: Bert (Tex) Watson president of Pioneer Natural Gas Company, is a native of West Texas, a chemical Earl Nightingale, internationally known lecturer and broadcast personality ngineer and lawyer by training and it is 20th year with your gas company

> A ding-a-ling orders Gas air conditioning

> > A telephone call to Pioneer Natural Gas brings an air conditioning specialist to our home for a free survey and cost estimate at no obligation to you. He'll answer all your questions, and tell you what it will take to install GAS air conditioning in your home. It's the first easy step toward having your dependable GAS air conditioning installed before the first hot, windy days are here.

A GAS air conditioning system is ruggedly built to cool quietly and efficiently. There are fewer moving parts, and no compressor to break down or wear out. Heat from the steady blue flame circulates a refrigerant through the system to cool the air. It's this simple principle that gives
GAS air conditioning its long life with no loss of cooling capacity and easy maintenance.

Install GAS air conditioning now. You'll avoid the rush, and be enjoying the quiet, cooling comfort of GAS air conditioning while everyone else is waiting. Give us

Putting forth a Real effort

A child's first attempts at printing require deep concentration and great effort. However, with patience and practice he becomes more adept and lettering is easier. Then he is ready for the next step, learning to write.

The Lord expects us to put forth an effort to improve ourselves.

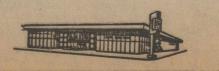

"I beseech you therefore, brethren, by the mercies of God, that ye present your bodies a

living sacrifice, holy, acceptable unto God, which is your reasonable service."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

First State Bank
