VOL. 31. NO. 35

HASKELL, HASKELL COUNTY, TEXAS, SATURDAY, AUGUST 26, 1916.

WHOLE NO. 1584

The Family Laundry Question

That every housekeeper should consider.

- 1 You pay the wash woman.....\$1.00
 - 2 Forget to figure soap, 10c; blue 5c; starch 15c; washing powder 5c.... .35
 - 3 Don't consider woman's dinner.... .25
 - 4 Fuel, hot water, electric current... .25
- Actual Cost - - - - \$1.85

5 Don't consider damage to wall paper, curtains, carpets, etc., caused by steam and vapor.

6 Don't include a tired wife, "mean dinner", soap suddy smelling home, and neglected children.

We prepare your laundry ready for ironing at 5c per lb on Mondays and 6c the balance of the week, and iron everything that is clear of buttons. The average family wash won't run over 75c.

Something About Feather Pillows

We wash and sterilize your feather pillows in neutral soap and steam dry, at 50c per pair.

We clean and press suits, (Ladies or Gentlemen's) 50c to 75c. Suits pressed, (Ladies or Gentlemen's) 25c.

About Shirts and Collars

We wish to say that we have the latest collar moulder on the market. We guarantee to satisfy. If a garment escapes our notice that is not satisfactory, please return to be done over free of charge.

We guarantee that every button broken will be replaced with another.

Some Facts About The Haskell Schools

Pupils and patrons will be interested to learn that some changes have been made in the course of study and the standard for graduation has been raised. Chemistry, Trigonometry, Spanish, and German will be taught next year in addition to the subjects taught last year. An additional year of Latin is to be added. The school has fifteen units of affiliation at present. When affiliation has been secured in the added subjects the hundred of units will be as follows: English 3 (only two or three schools in the state get four units in English and they have large libraries); Mathematics 3 and 1-2; History 4; Latin 4; Natural Science 3; Domestic Economy 2; Agriculture 1; German 2; Spanish 2. When the school has reached the above described standard pupils will not only enter colleges and universities with full freshman standing from Haskell but will be given advance standing. Why should such not be the case? Is it not cheaper and better to secure an education at home than away from home? Only affiliated or "A" diplomas will be given after June of 1917. Pupils who are unable or unwilling to take three years of Latin must take two years of German and two years of Spanish, otherwise no diploma will be given. All "A" colleges require this of the first class high schools so there is no choice in the matter.

The class of June 1917 will be required to finish a minimum of sixteen affiliated courses before graduation and all classes thereafter the same amount or more. The amount required heretofore has been fourteen affiliated units.

An effort will be made to accommodate at least forty girls in the work of domestic science. Patrons should bear in mind that only a limited number can take this work with the equipment we have at present. Unless we are very badly crowded seventh grade girls will be allowed to take the work. A small fee will be charged in order to cover the actual cost of the material used by the girls in the demonstration work.

Central West Texas Fair October 10-14

The third annual exhibition of the Central West Texas Fair will be held at Abilene October 10-11-12-13-14 inclusive—five days of pleasure, instruction and education. Never before has such elaborate preparations been made to create for the people of Texas a real fair as has been made this year. Ten thousand dollars in prizes and premiums will be awarded in the various departments, a sufficiently large premium list to entice exhibits from every point of the country.

The grounds and buildings have been put into the very best shape for the opening. Where needed new structures have been opened, new pens installed and everything put in readiness to cater to the pleasure or propensities of the people who contemplate attending.

Before you buy a car, see W. A. Whatley and let him sell you a good automobile, Chevrolet or a Mitchell.

Announcement

Of Early Arrivals in Fall Goods.

Our fall stock in all departments is arriving daily, and next week we will be able to show you New Fall Goods throughout the store. Many departments are now almost complete and practically all goods not received are on the road.

Dress Goods

In our Dress Goods department you will find a wonderful assortment of silk and woollens; a great variety of colors and designs, and you should see them now while we have such a varied assortment.

Millinery

Although just a little early, we feel constrained to mention our Millinery department. We invite your early inspection of our millinery. We expect to open this department early next week. Some of these goods are now here and much more are on the way. You should see ours before buying.

Shoes

The leather market is in such condition that the higher grades of shoes are hard to get. We will not be satisfied with anything but the best and we have just received word that our best grade of shoes will be shipped at once. This will be of interest to the best dressed women of Haskell, as they are acquainted with the superiority of our shoes as to style and fit as well as to quality. If we had to wait another month we would do it. We will not consent to show you shoes for real dress wear in anything but the best.

One white boot has already arrived. It is truly a fine exhibition of skill in workmanship—a beautiful fitting shoe and of the best grade imported washable white kid. We searched the markets of America before we found it. It's the best style. Lace boot, 8 1-2 inches high, \$7.00.

Melon Industry Growing In Haskell County

Several farmers in the northwest part of the county have been shipping water melons in car load lots to the northern markets. The principal shipments have been made from what is known as "Watermelon Spur" on the Orient between Rule and Rochester and about twelve miles from Haskell.

There is a splendid crop of late melons coming on and with the proper moisture there will be many more cars shipped from this section. Among those who have shipped one or more cars are: Tom Chesser, P. M. Aycock and D. J. Gilbert.

Lightning Strikes Boy At Jeffry

Mr. and Mrs. R. D. Lackey have just returned from Jeffry where they were called by wire to the bed side of Haskell Buford, Mrs. Lackey's little 12 year old brother who on the 8th day of August was struck by lightning, and was seriously injured. They report him still in a serious condition with but little chance for recovery.

EYE STRAIN AND CRIME

Many children are forced into careers of crime because of eye defects.

These defects in children are rarely discovered without scientific examination.

Children who do not progress in school, who are inclined to play truant, who have headaches and stoop shoulders, who are hard to control—the eyes of these should be looked after without delay.

A child who is slow to learn is ridiculed by its mates. Reticent breeds bad temper and dislike for school and sometimes leads to worse.

A scientific examination may change the course of your child's life.

Ready and Alert We Enter the New Autumn Season

To maintain merchandise standards this season has meant a terrific battle almost numberless difficulties which these unusual times has thrown in our path. Now, as always, this is a store where you can find nothing but goods honestly made, honestly advertised and honestly sold.

See the many pretty things we have, the prices will be right, the merchandise past your expectations.

Showing This Week

New Millinery, Ladies Suits and Coats, Silk and Wool Dresses, Queen Quality Shoes.

It's a pleasure to have, to show and to sell these new goods

Should you not be a customer of ours we believe you will be this season. Our regular customers are sure to be satisfied. We are enthusiastic over our new goods, but a visit to our store will be more expressive by far than anything we might say. We therefore ask you to come in, see for yourself the splendid values we are offering.

New Fall Goods Are Here

We have for your inspection now, many of the new materials for early fall buying. Fancy plaids, both in woolsens and taffetas. Plaids and fancy stripes are the new thing for skirt and dress weave.

Fall Millinery

Our Millinery department under the supervision of Miss Julia Wynn, is now open with a complete line of early fall hats, and each day new things which make our millinery department so popular will be added to our already complete line.

Ladies' Ready-to-wear

Now for your inspection. This department is unusually large at this early date, however, there is a scarcity of manufactured garments on account of the high prices and labor troubles and we are lucky to have such a good showing.

We are sorry to state that you will have to pay some sharp advances in most all lines of merchandise, but don't be misled and pay more than you can buy elsewhere. We have protected ourselves by buying large quantities and before the big advances came, so don't buy without getting our prices. Come let us show you our new goods.

MURRAY—EARNEST

A very pretty wedding took place at Rule Thursday morning when Miss Ada Pearl Earnest became the bride of Prof. C.A. Murray of Austin.

The wedding ceremony was performed at 8 o'clock by Rev. Ed.R. Wallace of this city.

The bride is the daughter of Mr. and Mrs. W. A. Earnest of Rule, and is one of that city's most charming and accomplished young ladies.

The groom is a teacher in the Public Schools at Austin and ranks very highly in his chosen profession.

Immediately following the ceremony the happy young people left in an auto for this city, where they caught the northbound train for Austin, where they will make their future home.

The Free Press joins their many friends in wishing for them a long, happy and prosperous life.

A Happy Reunion At The Perdue Home

B. M. Perdue of the Foster Community was pleasantly surprised last week when his relatives began coming in from all parts of the state. Some of them had not been together for 26 years.

The party was composed of Mr. and Mrs. L. O. Perdue of Iredell, an uncle of Mr. Perdue, and the following brothers and sisters of Mr. Perdue; Mr. and Mrs. H. O. Johnson and daughter Miss Ila; from Hico, Mr. and Mrs. J. L. Perdue and daughter Miss Elzela of Plainview, Mrs. J. N. Adams of Ballinger, and Miss Ila McKinney of Haskell. A good time was shown every visitor. Kodak pictures were made and watermelon feasts were an every day occurrence. Next year they will meet with J. L. Perdue at Plainview.

GAUNTT

A large crowd was out at Sunday school, and preaching Sunday Rev. Bateman preached at 4:00 o'clock, only one of the teachers was absent.

A good many of the people attended the Baptist meeting at Haskell Sunday night.

Finney-Peter Revival

At the time of writing, the above revival under the auspices of the Baptist church has been going forward less than a week, but with the most satisfactory results. L. E. Finney is a mighty evangelist and his service hits sin with sledge hammer blows. Great crowds are listening to the wonderful message, and there are conversions at almost every service. G. H. Peter sings a sweeter gospel in song, than it has been our pleasure to have heard hitherto. The five daily prayer and work meetings under the leadership of Mrs. Peter have been telling.

Everyone interested in the "Old-time Religion" should rally to the tabernacle in Guests old lumber yard daily at 10 a. m. and 8 p. m. Special Mens Mass meeting next Sunday afternoon at 3:30.

The Store of Good Taste

We are Trying to Impress Upon You the Fact that we handle a class of goods that will please you when you buy them because of their price, and when you consume them because of the quality.

Cabinet Pudding—Butter a mould or pudding dish and scatter in it bits of candied orange peel, chopped nuts, chopped raisins or currants, or a mixture of these; fill the dish nearly full of bits of broken cake and through it add more bits of fruit or nuts, mix a cup of milk with two tablespoonfuls of sugar, the beaten yolks of two eggs, and a pinch of salt; pour this a little at a time over the cake; cover tightly and set in a pan of boiling water in the oven and bake an hour, or till it is firm. Turn out and serve with a fruit sauce.

HASKELL, TEXAS, August 26, 1916.

Haskell Public Schools open Monday September 11.

This is the time of the year
when wifey leaves on a joy trip
and hubby stays at home to earn
the expense money.

So far as we have been able to
learn the boll weevil has failed to
make his appearance in Haskell
while the dry weather has cut
the cotton crop short, the present
prices predicts prosperity.

Haskell is going to pay the highest
market price for cotton this
fall and sell merchandise as cheap
as you can buy elsewhere. Watch
the Free Press columns for the
merchants' announcements from
time to time—they will verify
this statement.

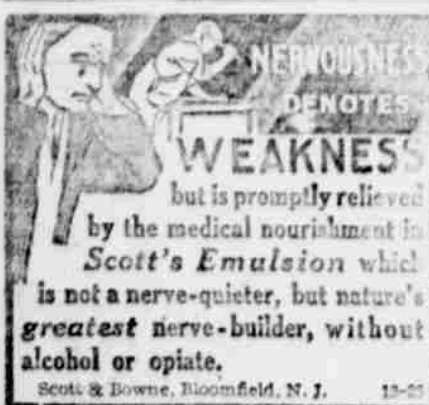

Business firms who have built
up great selling organizations by
advertising realize what promptness
is worth, what honor requires,
what pleased customers mean.
They have been able to build
great business because they have
given people value for their
money and thus pleased them.

Read every advertisement in
the Free Press this week, and
see what the Haskell merchants
are offering: it will pay you hand-
somerly. When you come to town
go into the stores of those enter-
prising merchants and they will
prove to you that they can serve
you with as good quality and as
low prices as you will find any-
where.

Haskell On Top.

According to business men this
summer hasn't been nearly so dull
as many of them expected. On
the contrary, business has held up
remarkably well and Haskell right
now is in a highly flourishing con-
dition.—Haskell Free Press.

Sure, Haskell is all right. Look
what is behind the town—some
of the best people on earth. You
never hear folks like that com-
plaining.—Abitene Reporter.

Correspondents Attention

We now have a correspondent
in most of the school communities
in Haskell county and a glance
through the pages of the paper
makes a mighty good showing
and we intend to get one from
every community that is not rep-
resented. We are indeed, proud
of our news gatherers and believe
they will compare very favorably
with others in first class news-
papers—in fact we believe they
are far better than the average,
because we have gone into the
field and selected them, using
the utmost care to secure the
best of reporters.

We wish to make the Free
Press the best paper possible,
and must depend on our corre-
spondents to help us make it bet-
ter with each issue and in order
to get the best results, it re-
quires the complete co-operation
of all the force in the country,
and in the office as well. There-
fore, we are offering a few sug-
gestions that will help to give
the news, that is of the most in-
terest:

Don't mention the health of
the community unless some one
is sick.

Don't mention close neighbors
visiting each other unless it is
an entertainment or something
out of the ordinary.

Don't mention the calls of
young men on young ladies in a
loving way, it might offend some
one.

Get the real news of your com-
munity, such as, marriages,
deaths, births, visits from one
community to another, entertain-
ments, preaching announcements,
Sunday school reports, rains,
storms and anything else of gen-
eral interest. Always give the
correct name and initials where
possible, as there might be some
one else by the same name.

Don't mention the same fam-
ily more than one time in each
letter if it can be avoided, it will
be more interesting to others.

Be sure to sign your real name
everytime, as it is impossible for
us to remember who you are by
your pen name.

Don't abbreviate the day of
week, always spell it out in full.

When a party is visiting in
your community from another,
always give the name of the
community or town in which they
live.

By following these instructions
as near as possible, it will enable
us to publish a newspaper—
which you will be proud to say
that you are a member of the re-
portorial staff.

W. E. Cathey a prominent
farmer of near Throckmorton
brought a load of wheat to town
last Thursday and made this office
a pleasant call while here. Mr.
Cathey says they are needing rain
in the Throckmorton country and
crops in some parts of the country

FROM THE FIELD

BY W. M. FREE

Another week has come and
gone with its doubts and fears but
the star of hope is still brightly
shining within us when we see the
excellent conditions that now ex-
ist despite the dry weather that
has laid its hand so heavily upon
us. We find a class of farmers
that are second to none when it
comes to farm knowledge and en-
ergy being a close student of the
existing circumstances and being
in position to know. We make
the above statement without the
fear of contradiction.

We began our work Monday
morning going out to the home of
that good farmer J. H. Goodwin,
we were given a seat in the surry
with his daughters, Misses Janie
and Fay we soon reached the
home where we remained until
after dinner. Mr. Goodwin was
heading feed and F. C. Wilfong
and son were helping him. His
feed and cotton crop is good and
he was going right along with his
job. He has just learned to run
a Ford making a successful trip
across a ditch and a hog wire fence
the first trial without any incon-
venience to himself or the car.

We next called on C. E. Cearley
and aroused him from his slumber
and found out that he had been
heading maize that morning. He
has a good crop of maize and cot-
ton and was getting on well with
his work.

C. W. Bledsoe had gone to Has-
kell when we called at his place.
He was having his feed put up
having several hands at work. He
has an incubator setting to raise
fall chickens.

We next called on M. J. Lain
and found the family entertaining
their little friends of their son
Farrell, celebrating his seventh
birthday. They divided cake cream
and watermelon with us. It was
a bountiful feast and we all enjoy-
ed it.

We stopped a while with Paul
Frierson and found him such
good company we could hardly
find a place to stop off talking. He
is a good farmer and has a fine
crop. He is breaking stubble for
his wheat crop another year.

M. M. Roberts was sowing oats
in his cotton plowing them in with
his cultivator for pasture for his
cows this fall and winter. He sold
4 hogs that averaged 300 pounds
each for 8 cents per pound. He
has one span of fancy mules and
other good stock and is one of the
best cooks in the neighborhood
as well as a good farmer.

R. C. Ware had gone to heading
maize just before we reached his
home and we failed to see him.
They have a good crop and are
getting on splendidly.

We called at the home of R. T.
Adams and found him at home.
He is one of our best farmers and
has plenty of good stock and
makes a living on the farm.

We spent the night with our old
friend J. A. Ford and we had
plenty to eat and a good bed and
a big welcome to his home. He
was helping Sam Treat head maiz
which was the first maize heading
he had ever done. He came from
Fannin county last fall where he
raised corn and cotton. Mr. Ford
has a big wood pile for his wife to
work on at her spare time.

J. H. Lawson and family are
visiting relatives in Grayson coun-
ty enjoying the fat of the land.
We will call again and see how
well they enjoyed their trip.

S. W. Treat was heading maize
when we reached his home. His
crop is very good for the dry year
and his farm is well kept up. He
had just returned from an auto
trip to his old home in Bell coun-
ty his family accompanied him and
all report a good time.

J. T. Conner was rigging up his
wagon to send to Haskell for sup-
plies. He has some of his maize
crop put up in the barn and some
good cotton growing in the field.
G. A. West another good farmer

had gone for a row binder to har-
vest some feed. He is a very suc-
cessful in crop raising and has lots
of hogs and chickens.

We passed by the farm of D. J.
Kennedy and met the children
who had just reached the end of
the rows of his good maize which
they were heading at a rapid rate.

We reached the home of J. B.
Bailey it being wash day he had
gone to the field and was very
busy until he saw the clothes on
the line. An account of his suc-
cessful farming will be found in
another part of the paper.

J. M. Mills and his brother, P.
A. were building a hog pen for
their porkers and they were look-
ing good. The boys are good
farmers and have a good crop.

S. M. Leflar was busy with a
broken fork handle and watching
his negro unload maize from the
wagon into the barn. He is an-
other good farmer and has a splen-
did crop.

We next called at the home of
J. R. Newsom who had gone to
Haskell for lumber to build a new
barn on the farm where he lives.
He has a good crop of maize and
cotton and 15 head of good hogs.

J. V. Jenkins was very busy
with his maize and he has a good
crop of maize and cotton and the
finest baby boy in the country.

We next called by the home of
J. B. Pittman. They were away
from home and we failed to see
them.

W. J. Jenkins was called on and
he had come to Haskell on busi-
ness. We noticed he had some
good mules and horses and has
lots of ducks and chickens.

We arrived at the home of B.
M. Pardue just before noon and
found the place covered with kin-
folks from different parts of the
state and everybody having a good
time. We remained over until
a ter dinner and will say we sure
enough enjoyed the good dinner
and the friendly association of
those jolly good people. We feel
lucky to have gone that way at
that particular time.

R. V. Johnson was quietly sleep-
ing while the gentle breeze came
floating by wafting his spirit to
happy dreamland of peaceful
slumber. We made a short call
and found that Mr. Johnson was
about done work and has a good
crop but reports some boll worms
in his cotton.

We made our next call at the
home of H. Brooks and met Mrs.
Brooks. Her husband was head-
ing maize and had a good crop.
She raises the Plymouth Rock
chickens to help out on the family
expenses.

We called at the home of that
up-to-date farmer W. M. Harrell,
who had just gone to Haskell. We
met his father-in-law, W. L. Rob-
ertson of Hico and from what we
could observe he has a good crop.
We could not get information from
the small children sufficiently to
justify a good write up, hence we
will call some other time.

Geo. Best was eating some fine
melons when we came to his
home. He is a good farmer and
has about 130 laying hens from
which he sold an average of six
dozen eggs daily during the egg
season, thus cutting down his liv-
ing expenses.

S. E. Waters was out in his field
when we reached his home and
Mrs. Waters was making soap in
the good old time way. Mr. Waters
has a good crop and is a good
farmer.

We called at the home of R. L.
Taylor a tenant farmer on the H.
L. Sherrill farm. We met the
boys coming from the field, they
had been heading maize. Mr. Tay-
lor had come to Haskell and had
not returned. He has a good crop
and is a good farmer.

We spent the night with Uuc le
Dick Williams a pioneer settler of
the Foster community, a man who
has made a success with farming
and an account will be found in

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter
from this place, Mrs. Bettie Bullock
writes as follows: "I suffered for four
years, with womanly troubles, and during
this time, I could only sit up for a little
while, and could not walk anywhere at
all. At times, I would have severe pains
in my left side.

The doctor was called in, and his treat-
ment relieved me for a while, but I was
soon confined to my bed again. After
that, nothing seemed to do me any good.

another part of this issue.

We came to the home of W. T.
Parchman and he had gone to the
field for the first time this year,
and was very busy with his maize
which is very good. He has a lot
of good hogs, horses and cattle, in
fact is one of the leading farmers
of his section.

We next called on D. O. Stephens
who was unloading lumber to
build a new residence on the Rob-
ertson farm which he will occupy
when complete. Earl Williams
of Haskell and Dave Parnell of
Foster were doing the carpenter
work and everything was mighty
good.

We caught a ride with C. L.
Denson a progressive farmer living
near Foster. He has 28 head of
graded cattle, 11 head of good
hogs, 7 head of horses and mules
owns a hundred acre farm and has
made this in 12 years from the
farm he bought paying only a very
small cash payment when he first
moved on his farm.

We stopped with W. A. Spink
who had just returned from a trip
to New Mexico where he and his
daughter went to look after a land
claim they have in that state.

We next called on Rev. J. W.
Reed who was walking over his
farm with some friends. Rev. Reed
is pastor for the churches of Curry
Chapel, Cook Springs and Lake
Creek. He has been preaching for
seven years and will probably give
his entire time to the work another
year.

We came to a switch on the
Orient R. R. called Watermelon
Spr where P. M. Aycock and D.
J. Gilbert were loading two cars
of melons.

From there we reached the
home of J. M. Cook and Mrs. Cook
gave us a good dinner. Mr. Cook
was finishing up his plowing that
day and he and his boys were go-
ing to head maize in the after-
noon. He says he has seen the
good and bad of Haskell county
and he does not expect to find all
the coons up one tree but is satis-
fied with the conditions as they
are.

We called on T. R. Barrett our
first stop after dinner. He had
been heading maize that morning
and was going to take a dose of
the same in the afternoon. His
son-in-law L. T. Green was there
from Concho county and is looking
for a location. Mrs. Barrett has
been sick for some time but is im-
proving.

We came by the homes of N. O.
Phillips and W. C. Curtis. They
were busy with their farm work
and we failed to meet those good

I had gotten so weak I could not stand,
and I gave up in despair.

At last, my husband got me a bottle of
Cardui, the woman's tonic, and I com-
menced taking it. From the very first
dose, I could tell it was helping me. I
can now walk two miles without tire-
tiring me, and am doing all my work."

If you are all run down from womanly
troubles, don't give up in despair. Try
Cardui, the woman's tonic. It has helped
more than a million women, in the 10
years of continuous success, and should
surely help you, too. Your druggist has
sold Cardui for years. He knows what
it will do. Ask him. He will recom-
mend it. Begin taking Cardui today.

TO THE VOTERS OF HASKELL COUNTY:

At the second primary next Saturday you are to decide who is to be your next County Judge. I would like to offer the facts for your consideration of my claims for this office. I have served you for the past several years and nothing has ever been said against my official record. I have at all times tried to render honorable and efficient service and believe that most every one agrees that I have kept the faith with the people. By reason of my position I have been so situated that I could give close and thorough study to the county's affairs and have availed myself of every opportunity to become acquainted with every angle of the county business that now I am in position to take matters up and carry them on successfully. It is not like electing a new man or a man without experience but merely promoting a man who is thoroughly familiar with the inside workings of things and has grown up with the business. Take your own business for example, had you not rather have a man started in with you and learned the business from the ground up than one otherwise? Would not such a man be in a better position to render you better and more capable service than another? The same business principle should be applied to your county business.

I will say further that I am a Democrat and believe in the Democratic doctrine of rotation in office. It has been a custom ever since the foundation of our government to pass the offices around. And from experience you know that very often a change is to the benefit of the people. I ask you to give me a chance to make good with you.

I promise you if elected, to make you a County Judge that has your interest at heart, that I will devote my entire time to looking after your business, especially keeping good roads, and will ever be jealous of the good name and reputation of our great county.

Wishing you well and earnestly asking for your support next Saturday for County Judge, I am,
Yours for service,

EMORY MENEFFEE,
Candidate for County Judge

Am Prepared To sharpen or fix any part about a Lawn mower and I guarantee my work. Let me know and I will call at your house and save you the trouble of bringing it to town.

and will call again at a convenient season.
Spraberry was in the field when we passed his place. He has a fine crop and is one of our best farmers. He has 12 head of fine hogs, 12 head of fine cattle. He is growing something on his farm he does not have to get on.
Witt was helping Mr. Spraberry head maize as we passed home.
Barnes and family were on a visit in Grayson county. His brother J. C. was looking after their home and putting up some corn. W. D. Norman was heading maize. He is one

of our best citizens and an account of his farm will be seen in another part of the paper.
We spent the night with U. B. and J. F. Loe and were made to feel at ease in that pleasant home with comfortable surroundings. The boys have a good crop and are about done work. Their sorghum and June corn were green to the ground and promises a good yield if it should rain any time soon.
S. A. Loe had gone to visit his brother D. N. Loe at Jud and we did not call at his home.
J. B. Bell was repairing his lot fence when we called by his place and we noticed his good team of horses and some good cows. He has some fine hogs and the Rhode

Island Red chickens.
J. O. Jackson was called on and he was unloading maize and took to his melon patch and cut a fine melon. An account of Mr. Jackson's success will be seen in other parts of this paper.
We took dinner with J. S. Sloan and took a good look at his farm and crop which will be given in other parts of this issue.
We next called at the home of H. A. Self and found him and his force gathering maize and he says it is the best maize he has grown since he has lived on his Pinkerton farm. He was hailed out and washed out but is still in the ring with an all round good crop.
We crossed the field to J. A. Wimberley's who was entertaining some friends and we joined the party and took a rest. We started home with A. S. Miller in a buggy but was picked up by J. M. Maxwell in his car and put out at the office door a tired but wiser man.

A Good Farmer of the Rule Country

W. D. Norman living on rural route 2 from the city of Rule is one of Haskell county's successful farmers, owning 600 acres of well improved land, 450 acres in cultivation, the remainder in pasture. Mr. Norman has a splendid residence which he is now repairing and repainting, plenty of good out buildings, a new Ford car, plenty of good stock, a good growing crop and prosperity surrounds his home. Mr. Norman, like many other good farmers in this county made what he has by farming and good management

J. S. Sloan A Pioneer Farmer

J. S. Sloan, a pioneer farmer of Pinkerton, has been very successful during his many years of farm life in Haskell county. A glance at his well kept home shows that he loves the farm and takes pleasure in his chosen vocation.

He has given much energy to toward good farm methods and his present growing crop show the reward of his tale.

He has 50 head of Poland China hogs with old corn to fatten what he cares to sell and for home use, 22 head of cattle, 11 head of horses and mules and one of the best yearling colts in Haskell county, which will measure 16 hands. He has a good orchard and plenty of fruit, raises potatoes, peanuts and other vegetables.

Mr. and Mrs. Sloan have a happy family, a telephone and a Ford car adds to their convenience and everything has been done to make life worth living by those good people.

A Farmer of Haskell County Since 1899

R. B. Williams came from Hill county to Haskell in December 1899 and lived the following years six miles south of Haskell on rented land making a good crop. Wishing to become a home owner he purchased the tract of land in the Foster community, where he now resides. He built a house and moved to his farm about the first of January 1901 and began the work of improvement. The following August the small residence was destroyed by fire and he built a modern bungalow in its stead.

He now owns 271 acres of good land that is valued about \$40.00 per acre, which is well improved and in an excellent cultivation

He has a good crop of corn which will make 30 bushels per acre, a good crop of maize now being harvested, a good crop of cotton, 4 or 5 acres in peanuts, melons and vegetables.

Mr. Williams has enough feed left over from last year to feed all his stock next year independent of the excellent crop he is now putting up.

He owns 9 head of horses and mules, 17 head of graded cattle and 34 head of hogs. Mrs. Williams adds to the family income by raising poultry and she has had good success.

Mr. and Mrs. Williams have raised eight children all now grown and each one is following an honest vocation in life with credit to their selves and their aged parents

Why We Can Sell For Less

We can make and sell cars for less money than anybody else because we have the largest automobile plant in the world.

Our Production Capacity is 1000 Cars Per Day.

That is why we can offer bulky, big, beautiful cars at such a low price.

This four cylinder Overland is only \$795. Other makers charge from \$900 to \$1000 for the same thing.

The same car with a six cylinder motor is only \$925. Think of that! Other makers charge you \$1000 to \$1200, practically, and give less.

It will pay you to buy an Overland. They cost the least to buy and the least to run.

Stop in and see these brand-new low priced Overlands today.

THE VOTERS OF HASKELL COUNTY

Haskell, Texas, August 21st, 1916

Sir:

Not being able to meet all of the voters of Haskell County in person during my race for re-election to the office of County Judge of Haskell County in the second primary which will be held on the 26th day of August, on account of the limit in time and the duties of the County Judge's office of this county has and is now increasing to an extent that it requires most of my time, hence I take this opportunity of soliciting your support in this campaign. I come before the voters of Haskell County realizing the importance of the office, and at this particular time I feel like I can be of more service to this County than a new, inexperienced man could be. I know now that we will have 3 new County Commissioners and we may have new ones, we will have a new County Attorney, new County Superintendent, new County Treasurer and I think it would be wise to keep an experienced County Judge with the new officers for two years; and if elected this time I shall not run for County Judge two years from

now. We have on hand the county road teams, consisting of 16 head of horses, harness, wagons, graders and such equipment as it is necessary for two road gangs, together with a convict camp, where we work the county convicts on the road, and all of this requires the close and constant attention of an experienced man in order that it may be run on the least expense possible.

Since I have been County Judge I have been instrumental in selling Haskell County School land, which consisted of 17,712 acres of land located in Hockley County, Texas, for \$10 an acre, with 5% interest which gives us a permanent school fund for this county of \$177,712 which ranks as the third largest permanent school fund in Texas. The interest on this gives us \$8,856 per year to be used in the maintenance of the schools of this county. I have attended to the collection of this interest myself and have collected up to date \$20,000. I worked for a while like they were going to let the land forfeit on non-payment of interest, but being familiar with land deals and matters in general, I managed to make the collection, and if we were in getting the interest collected for two years more, there would never be any danger of the county getting this land back, for we will have paid so much interest and made such improvements that the farmers could not afford to let it revert back. If I am re-elected I will be able to collect enough of the interest and place to the credit of the school fund for this next term of school about \$4 or \$4.50 for each scholastic child in this county, which will run each school from 6 to 2 months longer. If a new man were to take my place at this time I am sure that he could not handle this collection as well as I can. I have spent my spare time helping the Commissioners in their road work and have thereby gained experience that will be worth a great deal to me in assisting a new board of commissioners and if re-elected I will give the new commissioners all of the help possible.

I have always given the financial condition of the County my close and careful attention, and if re-elected will be in a better position to handle the affairs. I have always stood for a low tax value and shall stand for that the tax valuation remain the same, with as low County tax as we can possibly have. It is true that the State tax rate has been increasing every year since I have been in office, but that is something that I have no control over, that rate is set by the State Tax

Commission. Some of my opposition contends that I have been in office too long, but you will remember that my opponent has been in office the same length of time that I have, and has a position that pays better than the County Judge's office.

If I am re-elected I promise to give the same faithful, efficient and honest administration that I have in the past, and I know that I will be worth more to the County in the next two years than I have in the last two. I admit that I have made mistakes since I have been in office, and so will any other man, but I have tried honestly to correct my mistakes that I might make, and see that no one was damaged by it.

Don't fail to vote in the election next Saturday, Aug. 26, for it is so much to you as to whom you will have for your County officers, and if you vote for me I will appreciate it and try to serve you in such a way that you will never regret it.

C. J. Smith,
CANDIDATE FOR COUNTY JUDGE.

Nobody would ever hamper a horse like this—

But many horse owners are unwittingly handicapping their animals and robbing themselves of hauling value by making poor "Dobbin" strain, with stiff, dry-running gear. Not all, for thousands of horse owners are using

TEXACO AXLE GREASE

Try it, and you will agree with them that a few ounces of TEXACO AXLE GREASE will save pounds of horse flesh. It stays where it is put.

TEXACO AXLE GREASE will not stiffen. It eases the running gear and keeps it easy. Throw off that drag of useless friction. TEXACO AXLE GREASE will do it for you.

Another TEXACO PRODUCT which you can use with profit is

TEXACO HARNESS OIL

It lengthens the life and improves the appearance of the harness. It preserves the natural oils of the leather, prevents cracking and deterioration by sweat, moisture and rain.

Buy them from the TEXACO AGENT in your town. He will be glad to sell you the right oil for any purpose. There is a TEXACO OIL for every purpose.

Prosperity Pointers For Farmers

In the interest of further development and up building the territory through which their lines are operated, the Fort Worth & Denver City and Wichita Valley Railway Companies have issued an attractive thirty page booklet entitled 'Prosperity Pointers For Farmers' and containing valuable information regarding soil conditions and the money-making crops to which same is best adapted as proven through the production of the numerous bumper crops which have produced generally prosperous conditions and are constantly making it possible for "Renters" to become prosperous "Home Owners". A few of these booklets are still available for those whom it may be possible to interest in the question of locating in Northwest Texas. If, therefore, you have any friends that you desire to interest, and will send us their names and addresses, we will find pleasure in mailing them copies of the issue referred to. If you have friends to whom you would like to send copies yourself, instead of having us do so, we will be glad to send you the booklets desired free of cost.
