A Rainy Day

Sometimes ruins a whole life. The unexpected happens; sickness, loss, trouble, death, you need additional ready money—you run into debt. It is as easy to run into debt as it is hard to get out.

Start an account at this bank and begin to save a little each week, not enough to inconvenience you, but be persistent.

This little each week will grow into a protector against the rainy day.

A. Black Passed Away Saturday

A. Black, age about 67, an old settler here, died at home in the northwest part of town last Saturday, from a long illness of kidney trouble.

Funeral services were held Sunday at the Presbyterian church, with Rev. Lloyd in charge, with burial in the Willow Cemetery.

Black came to this country twenty-five years ago, and has many friends to mourn his death. He had been sick for some time and his last hours were marked by intense suffering.

The deceased gentleman was a member of the Presbyterian church, of which he was a member.

Ball News This Awful Sad

Out of the six games played since last report the Haskell lads won every one except five, which of course could have been worse.

Thursday, Friday and Saturday the team played the Aspermont team at this place losing each game. Thursday's game by a score of 5 to 3; Friday's game 6 to 3; Saturday's game 13 to 1. Monday, Tuesday and Wednesday, three games were played here with the Spur team, losing Monday's game 2 to 0; winning Tuesday's game 6 to 0; losing Wednesday's game 5 to 1.

I have taken charge of the Mark Whitman Saddle and Harness business and all who know themselves to be indebted to him that did not arrange to be carried till fall must come around and settle either by note or the money, as I won't carry the open accounts any longer. This is no bluff, I mean it.

Baby Girl Eats Fly Poison---Dies

It is with deep regret that we record the death of little Annie Moeller, 15 months old baby girl of Mr. and Mrs. J. H. Moeller who died Wednesday morning about two o'clock, at the residence of Dave Hughes in the east part of town.

Funeral services were held at the grave Wednesday evening about 7 o'clock by Rev. F. A. Bracher, a Lutheran minister from Wichita Falls.

The cause of the baby's death was poison—Daisy Fly Poison—which the baby managed to get hold of Monday and get into its mouth. Medical treatment was begun at once, without seeming results, and Tuesday the baby was brought from Mr. Moeller's home about 12 miles east of town to the home of Dave Hughes, where better attention by doctors could be secured, but to no avail, for after several hours intense suffering the baby died.

Mr. and Mrs. Moeller have the sympathy of the entire town, in the untimely death of their loved one, and the Free Press joins their many friends in offering condolence in their great hour of bereavement.

Christian Revival Starts off Strong

The revival meeting of the Christian church opened at the tabernacle just north of the square at the Guest old lumber yard sheds Wednesday night with a good audience. The music was indeed grand and inspiring, and the sermon preached by Rev. Shelburne of Dallas, who will have charge of the revival was exceedingly fine. Everybody should attend these services.

Cottonwood School District Votes Bonds

Cottonwood, another school district of Haskell county, joined the progressive band wagon last Saturday and voted a bond issue of \$1200 for the purpose of erecting a new school building and while they were at it, they proceeded to vote the full limit of fifty cent school tax. Both the bond issue and the special tax carried almost unanimously. Cottonwood is indeed a progressive community and the citizenship is to be commended for this move.

An Interesting Statement

Munday, Texas, 7-24-16.

I carried 12 bushels wheat, (730 lbs.) to the O'Brien Midget Mill on the 12th of July, when wheat was worth \$1.00 per bushel. I paid \$2.50 for milling. I received 487 lbs flour and 219 lbs. feed. The miller was selling same flour at \$3.50 per cwt., and feed at \$1.50 a cwt.

I received \$20.54 in flour and feed; paid \$2.40 for milling, leaving \$18.14 proceeds of the 12 bushels of wheat, which if sold in the open market, would have brought me only \$12.00.

This is a gain of 51c per bushel in having wheat milled on a Midget Mill.

It will take about four times above amount of wheat to do my family a year, if all is milled on a Midget, I will have a net gain of \$24.48.

I live 6 miles east of Munday.

Law Interferes with "Loves Young Dream"

Cupid can not always have his way—especially if the Haskell county officers are called upon to thwart his plans. This was demonstrated last Monday night when the officers of Anson called upon sheriff Allen and asked him to keep a lookout for a run-away couple from that city, who were headed this way with the avowed intention of getting married. Sheriff Allen took personal charge of the case in a way that would have put "Sherlock Holmes" to shame and soon had the truant located in a room of a local hotel. Before a marriage licence could be procured, the sheriff of Jones county and the father of the girl arrived and took charge of the young couple, returning with them to Anson, thereby ending "loves young dream." The girl was only 13 years old and the boy 18.

Menefee's Thanks and Appeal

The first primary is now over and I am deeply grateful to the people of the county for the splendid vote given me in my race for the office of County Judge. I had three gentlemen opposing me and as I came out with a substantial lead, I can't help but feel honored by the people.

My pre-election promise to make you the best officer in my power in case you elected me still holds good and upon this I am asking for your continued support. I will give you the best that is in me.

To those who did not support me I ask your assistance this time and shall ever deserve to fill this office with credit, and never let any official act of mine be anything except for the advancement of the interests of all the people of our county.

It shall be my purpose to see every voter of the county, and submit my claims to you, and in the meantime I ask your careful consideration in the next election which will come off August 26th, and assure you that no one will appreciate your vote and influence more than I will.

Again thanking you for your assistance and wishing you well, I am,
Yours for service,

Ernest Menefee

Lax-Foe, A Mild, Effective Laxative & Liver Tonic Does Not Grip nor Disturb the Stomach.
In addition to other properties, Lax-Foe contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Foe acts effectively and does not grip nor disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

The Quinine That Does Not Affect The Stomach Because of its tonic and laxative effect, LAX-FOE BRONZO QUININE is better than ordinary Quinine and does not cause nervousness, headache or dizziness. It is the only Quinine that does not affect the stomach and restores the healthy functions. 50c.

HASKELL, TEXAS, July 29, 1916.

We quit speculating about who is going to be elected and gone to wondering when it is going to rain.

A few more sidewalks wouldn't hurt the looks of things much, and besides the sand burns thru the holes in our shoes.

Don't forget the Christian revival meeting which is now going on at the tabernacle just erected at the Guest old lumber yard north of square.

It's all over, and of course you know just how it came to go that way. It wasn't your fault, as everybody couldn't be elected; somebody just had to be first, and likewise everybody couldn't be last man; someone just had to hold that position.

Richard H. McCarty editor of the Aspermont Star was in the city last Friday and witnessed the ball game between Aspermont and Haskell. McCarty is a mighty good newspaper man and is a booster for Aspermont country. The Star is one of our most valued exchanges.

Haskell has a curfew law which is not being regarded much lately but we are informed that the officers are going to be a little more strict in the future. The speed law is being disregarded by some, and an effort is going to be made to enforce this law to the letter. If you are caught, blame no one but yourself.

Mr. and Mrs. M. G. Jenkins of Ovalo, were in the city the first of the week visiting Mrs. Jenkins' parents Mr. and Mrs. T. J. Lemmons. Mr. Jenkins is editor of the Ovalo Eagle, which is a newsy little paper well patronized by the Ovalo business men. Mr. Jenkins was formally in the newspaper business at this place, being connected with the old Herald when it was first established here.

There are still a few important persons in Haskell county who are not reading the Free Press, or who, if they are reading it, are doing so at the expense of some one else. If such be the case let them take warning from the following distressful tale which we have clipped from the editorial lamentations of a brother editor. Read on:

We once knew a man who was too stingy to take the newspaper in his home town and always sent over to borrow his neighbors paper.

One evening he sent his son over to borrow his neighbors paper and while the son was on the way he ran into a large stand of bees and in a few minutes his face looked like a summer squash.

Hearing the agonized cries of the son, the father ran to his assistance and in doing so ran into a barbed wire fence, cutting out a handful of flesh from his anatomy and ruining a \$4 pair of trousers.

The old cow took advantage of the hole in the fence, got into the corn field and killed herself eating green corn. Hearing the racket, the stingy man's wife ran out of the house, upsetting a four gallon churn full of cream into a basket of kittens drowning the whole flock. She slipped on the cream and fell downstairs, breaking her leg and a \$19 set of false teeth. The baby, left alone, crawled thru the spilled cream into the parlor and ruined a \$40 carpet. During the excitement the daughter eloped with the hired man, taking the family savings with her.

The moral is that every man should be a subscriber to his home newspaper.

Down in East Texas where they claim they "grow statesmen and not politicians" the Hamilton Herald, of Hamilton, came out last week with a big "campaign and industrial edition" which was indeed a credit to that section as well as the publisher, G. H. Boynton. Congratulations.

To those good citizens who sailed last Saturday on the vessel "Defeat" we wish to state, no matter how troubled the waters may be, if you look you can always find a stone upon which to step or a harbor in which safety may be found. Life holds more joys than sorrows for those who cultivate an open mind. Forget your disappointments and remember there are other opportunities just ahead.

FROM THE FIELD

BY W. M. FREE

We took passage with County Superintendent T. C. Williams in his Tin Lizzie last Monday afternoon and made a hurried visit to the northeastern part of the county seeing many farmers at their homes, but having only a few moments at each home we cannot give a complete write up of the many interesting things we observed, failing to get the necessary data to make our mention more interesting.

We enjoyed very much our auto trips and we thank Mr. Williams very kindly for a seat in his car for it has helped us wonderfully in getting the bearings on the highways and where the settlements are located and the best way to reach them.

We made our first stop at the home of R. Massie a good farmer who was helping to rebuild the Roberts school house which was blown away on the fourth day of June and we failed to see him and get the news of his farm.

We next met J. W. Massie who was just entering the field with a row binder to cut some maize for feed and we talked to him about his crops. W. J. Nickerson was assisting him in his work.

J. A. Medford was at the house when we called on him and he was taking life easy as the work was about all done in his section.

J. B. Willingham and old brother Josselet was looking over a may at the home of Mr. Willingham. We thought they might be looking for a better country, but the way that section looked to us it will be hard to find.

O. S. Weed and family and J. T. Wooten were at the home of E. S. Weed and we had quite a pleasant call. The boys were hit hard by recent hail but they are getting over the effects to some extent. They had good crops before the hail, but they are growing out nicely and if it will rain any time soon they will make good crops, although it looked at one time like everything was ruined.

J. H. Gould was at the barn greasing his harness when we called on him. We know he was delighted for his barn was full of bright sheaf oats he had saved this year. He came from Ellis county and this is his first crop here although he was struck by the hail yet he is farming just the same and is making good. He has a nice home well improved.

D. E. McDonald was chopping cotton near the road side and we stopped a few moments with him. He was hailed out but he had some insurance and has received a satisfactory adjustment and was working out what was left which was coming out nicely.

J. F. Newton was about ready to go to Weinert and we spent a while with him. He is a first class farmer and is getting along splendidly. He has a good force, cultivates a large acreage and has it in good shape.

S. G. Berry was in the field at work and we were met by Mrs. J. P. Mitchell of Kirkdale who was visiting his family. We hastened on to where J. W. Stockton was plowing his cotton which had been hailed out but was growing out again and was looking well. He had some insurance and the adjustment was satisfactory.

We met J. J. Crump in his cotton field near Weinert and he was doing some good plowing and is a pleasant gentleman.

Mrs. W. J. Hickman lives near the city of Weinert, she is a widow, who is a good farmer and has a good crop.

As we came along we caught T. G. Bennett in the act of taking a drink—of water, and we noticed he was doing some excellent plowing too. He has a clean crop and was in no hurry.

J. W. Medley was working in the field when we passed and we failed to see him on the trip but

we will try it over. Somehow we like the Lake Creek country and hope to see more of it soon.

B. F. Collins was next at bat, he was plowing in some mighty good cotton near the house but we did not have time to go out to the field but we will see that he does not escape so easily next time.

H. R. Rich was at the house and he went with us down to the school house at Lake Creek and we learned that they will make some improvements in the way of new seats and a new room to the building.

We drove down to the home of L. W. Cypert, he was not at the house but we saw some of the best cotton we have seen this season in that section of the country.

We stopped at the home of W. W. Thompson, and A. B. Deloach and wife were visiting with the family. Mr. Thompson has a fine crop and is in the poultry business having over one hundred young turkeys and some fine chickens.

L. S. Bartlett was next called on, he was just getting in home with a load of water and we noted in our short stay that he had some good hogs and cattle and he told us he had a nice crop.

J. M. Chastain and J. S. Brewton live at the next house. They are farming and getting along well with their crop.

R. B. Stockton was putting up screens on his dwelling having just returned from Weinert and began his work with a vim. He has a good crop and is getting on fine.

We stopped at the home of J. A. Melton and found him away from home but we could see at a glance that those good people are making money from the produce they raise on the farm. They have about 200 hens and 300 young chickens and some excellent cows and a good growing crop.

We arrived at the home of A. W. Griffin a prosperous farmer who was arranging to attend church at Thorp with his family, wishing not to detain him from a good act we hastened on to Haskell by the city of Weinert and reached there about 8:00 o'clock thus ending a profitable and very pleasant trip.

We will begin our work next week in our old way and we will take more time and get all the news of every home. Put on your thinking cap and be ready to give us the news concerning yourself and family when we call.

We have enjoyed the flying trips of the last few weeks and they have served us well but now we are down to business and we must have what you know to help us make the best country paper in the state and we are coming after it.

If every subscriber will tell his neighbor about the Free Press and help us to put it in every home in the country we will repay you by giving you all the news of Haskell county while it is news.

Three New Coins Now Being Made

Reports have come from the federal mints that three artistically designed new coins will probably be in circulation in the very near future. The new coins will be the half dollar, the quarter dollar and the dime. A statue of liberty is embossed on one side of the half dollar, with the American flag flying in the background. Branches of olive and oak are grasped in the hand of Liberty which is outstretched, signifying the bestowal of liberty. The other side of the coin bears the figure of an eagle perched on a mountain crag.

The quarter dollar bears a figure of liberty on one side with an olive branch in one hand and shield on her arm. The other side of the coin shows the figure of an eagle in flight.

The dime has on one side the head of liberty, with the winged cap, while the other side is engraved with the bundle of rods and battle axe, commonly known as the "wasees."

TO THE PEOPLE OF HASKELL COUNTY, TEXAS:

Good government, good citizenship and the time tried principles of democracy demand that all submit to the voice of the people. The people spoke on July 22nd and said by their vote that they did not want me as their next county judge, without bitterness and any adverse criticism accept their verdict. There is no one man as great or greater than the whole body of the people and the choice of the people shall and will be my choice.

Haskell County has in the past been more than kind to me, and mine, for which I wish to extend most heartily my appreciation and grateful thanks and very much trust that the confidence and good will shown me has not been wrongly placed.

It is my sincere wish that all the good which the Haskell County people so richly deserve may be their lot.

Yours for a loyal and united county working for the common good.

Sensations of exquisite joy go through me like cohorts of ants through an army cracker and caper over my heart like young goats over a stable roof. I feel as if I could lift myself with my shoestrings to the height of the Baptist church steeple. As a mean pup hanker after sweet milk, so I hanker after your presence. And as a goaline swimmer in a mud puddle, so do I swim in a sea of delightfulness when you are near me. Save the Gears

The engineer in charge of a large warehouse and compress has this to say about

TEXACO CRATER COMPOUND The Great Gear Lubricant

"We use Texaco Crater Compound on our large 6-inch Herring-Bone Gear. It doesn't sling off, gives a cushion effect, and should perpetuate the life of any gear on which it is used.

"We are today ordering another barrel.

"The 'Hydro-Electric' Press on which this Compound is used is the first of its kind to be put in operation in the world; a great deal of the success and smooth operation of this Press is due to the use of CRATER."

TEXACO CRATER COMPOUND is a lubricant which is protecting heavy duty gears in all classes of work. It is particularly adapted for cooker gears of oil mills, cotton compresses, tractors, and other heavy equipment.

It is one of the special lubricants from our line of high-grade lubricating oils for all purposes.

Re-Election

A Candidate

for a public office works himself up to such a high state of expectancy that when the decisive moment comes, should his efforts be successful, his expectations are changed to an exhilarating joy, but when failure is the result, humiliation and disappointment becomes his portion. I have had both experiences and speak from personal knowledge along this line. I owe it to my friends, however, that I am among those that are at this time rejoicing.

I might be justly accused of many shortcomings, but I am sure that I am safe in saying that ingratitude has but little place in my nature. I take pleasure in using this method of thanking every person who has in any way done anything in the interest of my candidacy. I am hoping that I may be able to live up to your highest expectations, that your confidence in me may serve as an inspiration for the accomplishment of better things in an educational way, that the cooperation of all alike may be had to the end that the public schools of Haskell county may be second to none in our great state.

I am yours for service,

able on account of heavy travel by vehicles of the army, and the country looks as if it never had rained.

Each agreed that Haskell was the best looking country they had seen.

RAILROAD WAGES

Shall they be determined by Industrial Warfare or Federal Inquiry?

To the American Public:

Do you believe in arbitration or industrial warfare?

The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public service—your service. This army of employes is in the public service—your service.

You pay for rail transportation 3 billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Western railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest and average of all) as shown by the pay rolls—

	Passenger		Freight		Yard	
	Range	Average	Range	Average	Range	Average
Engineers	\$1747	\$2195	\$1537	\$2071	\$1056	\$1378
	3094		3076		2445	
Conductors	1543	1878	1454	1935	1151	1355
	2789		2933		2045	
Firemen	0 3	1317	751	1181	418	973
	2078		2059		1552	
Brakemen	854	967	874	1135	862	1107
	1719		1961		1821	

The average yearly wage payments to all Western train employes (including those who worked only part of the year) as shown by the 1915 payrolls were—

	Passenger	Freight	Yard
Engineers	\$2038	\$1737	\$1218
Conductors	1772	1624	1298
Firemen	1218	973	833
Brakemen	921	1000	1088

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads, as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

Shall a nation-wide strike or an investigation under the Government determine this issue?
