

## MORE FOOD AND FEED, SLOGAN

Extension Division of the A. & M. College in conjunction with the U. S. Demonstration work carried out a speaking program in this county on February 27th.

Barrow of the Department of Agriculture delivered an interesting address at the courthouse here in the afternoon. His talk was along the line of the government for the far-seeing farmer to produce more feed and food, and to conserve what he has.

One forcible point brought out by Barrow was that the railroads should be taxed to capacity in carrying war material and it will be possible to secure cars to ship feed and if we persist in raising feed and neglect the raising of feed and food. About two hundred representative farmers were present to hear Mr. Barrow.

Following meetings were also held in other towns of the county. At each a good crowd was out to hear Mr. Barrow.

## Haskell's New Public Library Building

Public Library Which is Now Open to Public

On the 22nd of February, 1918, the Magazine Club was delighted to be able to celebrate the completion of their New Library Building on the anniversary of the birth of "The Father of His Country". Their invitation was to all interested in the new library and its builders, and those who were there cannot say that all Haskell is not interested, and more, feel proud of the new building and those who built it. The building is symmetrical and beautiful, the interior is elegantly planned, finished and furnished, making a cozy home for the Haskell Magazine Club and the Library.

The exercises were in keeping with the surroundings and the occasion. Mrs. C. D. Long, the President of the Club, presided and reviewed the many trials of the Club with its crowning success, and introduced Mrs. R. J. Reynolds, the incoming president, who in her charming way, eloquently spoke of the Library and its future usefulness and influence on Haskell and to those who availed themselves of the society of its many good books, and welcomed the whole assembly to their new home.

Mrs. J. U. Fields, the District President of the First District of Federated Ladies Clubs of Texas, made a very interesting report on the work of the

Clubs in this part of Texas, and this report reveals the interest that the ladies are taking in the affairs that go to make life worth living, and that Haskell Club Ladies are not the only ladies that are doing constructive work for Texas. The ladies have made no mistake in selecting their leader for the First District, for Mrs. Fields is a lady that does things.

Mrs. S. R. Rike delighted the whole assembly with her quaint reminiscences in reviewing the history and struggles of the Club, reminding us all that the present Library was begun with the Haskell Free Press and the Aspermont Star as the first literary light on which to build the present library of several thousand volumes.

Judge W. H. Murchison delivered the principal address of the evening, and as is his custom, he delighted his audience with his eloquent address. The people of Haskell have long since learned that Judge Murchison never disappoints his audience when he makes an address.

Mrs. A. M. Geitz telegraphed her congratulations to the Club as follows: "Wapakoneta, Ohio, Feb. 22, 1918. Magazine Club, Haskell, Greetings, congratulations, love and all good wishes on this eventful night. The thought

of your wonderful accomplishment thrill me with pride that I was once a member of the Magazine Club."

Mr. and Mrs. S. W. Scott, wired: "San Antonio, Texas, Feb. 18th, 1918. Mrs. C. D. Long, president, Haskell, Texas: Please express to the Club our appreciation of their thoughtful invitation to be present at the opening of their splendid building, which is to mean so much to the intellectual and social life of the community. Congratulate you on the successful effort of the loyal membership, no one takes greater pride than we in their achievement."

The refreshments were enjoyed by all, and elegantly served. The music for the occasion was furnished by the Symphony Club and the Haskell High School Quartet, and was a treat to all lovers of good music. The occasion was very enjoyable, and each guest felt a pride in having the Magazine Club in Haskell, and felt like congratulating each of its members for what they have done for us.

Our hats are off to you, ladies, and you have shown that you deserve the hearty co-operation of all public spirited citizens of Haskell, and I assure you that you have it wholeheartedly.

—A Man Guest.

## R. H. DARNELL RETURNS FROM VISIT TO OLD HOME

R. H. Darnell of the Post community was in the city Wednesday for the first time since returning last Friday from a visit to his old home in Tennessee and Virginia, where he has spent the last two months visiting relatives and friends and seeing the sights that charmed him when he was a boy among the pine clad hills.

Mr. Darnell received a letter that his aged father was ill just before Christmas and he at once set out for the old home to see him. On arriving he found that his father was buried on Christmas Day, and he failed to reach there in time for the funeral.

Mr. Darnell says the portion of these two states that he visited are very mountainous and rough but the people as a whole are very prosperous, and that lands have advanced on a basis with the West. Unimproved lands on the mountains sell for \$20 per acre, and well improved farming lands are valued at \$150.00 per acre. There are much mining interests in that section. Money seemed to be plentiful with an abundance of good things to eat. They have well graded roads and are now doing lots of road work. They have automobiles and all other up-to-date means of travel and it is no trouble to skim across the country on the splendid roads.

The winter was on in full blast while Mr. Darnell was there and he was compelled to stay in most of the time because of the snow and ice, and when it began melting the high water was another impediment to travel.

He learned to walk with a cane to keep from falling on the ice, and brought his cane home with him. It is a big hockey stick and he says that it is not for sale. It is real interesting to hear Mr. Darnell tell of his experiences and of the changes that have taken place since his boyhood days.

## SPELLING AND READING CONTESTS SOON

Mention has already been made of the proposed reading and spelling contests to be held among the primary children to take place at the same time of the interscholastic league meet, on March the 29th and 30th. Children in the first three grades will enter these contests. Hill's readers will be used as a basis for work in both reading and spelling. Teachers should give special attention to the spelling list found at the close of the first reader. These contests may be made very interesting and profitable.

Material has just been received for taking the 1918-19 scholastic census. One necessary sheet lacking has been ordered and when these arrive blanks will be sent to the trustees at once. Great care should be exercised in taking the census. In a few instances last year, some children were overlooked. It is hoped that all reports may be accurately and neatly made.

Jno. R. Hutto,  
County Superintendent.

## 250 RABBITS KILLED IN BIG DRIVE

A rabbit drive was made north of town Tuesday in which about 250 bunnies paid the price for inhabiting that section of the globe. Several from Haskell joined in the drive. It was thought that they made a clean sweep and very few if any rabbits made their escape from the drive. This is the second drive within the last few weeks and each drive was successful. Ben Kreger carried off the honors on the drive Tuesday, killing about 25 rabbits.

## TEXAS GARAGE OPENS VULCANIZING PLANT

The Texas Garage opened this week their vulcanizing plant which is one of, if not the best, in this section of the state. A new 6 horse power boiler has been installed, together with a number of molds, buffer, a large steam kettle for retreading, and other up-to-date machinery, which equips them to do any kind of work from the smallest tube patch to retreading an entire casing.

They also have in stock in their new building across the street from the garage, a complete list of parts to fit any make of car, together with two gasoline filling stations, altogether making without doubt the largest garage and vulcanizing plant in West Texas. See their ad in this issue.

Messrs. O. T. Dodson and J. H. Durnal, expert vulcanizers of this city, formerly connected with the Haskell Rubber Company, have accepted positions in the Texas Garage Vulcanizing Plant.

## AT GALVESTON

When community was made sick by the report of the death of V. Stanfield. She had gone to her daughter at Ranger, Texas, condition of her health got worse and her friends advised her to the hospital at Galveston. The attention of a specialist, here when the end came, but she was sent here for burial. Cause of several years standing, she died. Her departure nothing in sending her to the best doctors under the best doctors on that side. All in vain, she had to go all the earth.

A crowd of friends and relatives gathered at the depot when the casket for Galveston and the funeral was held at the family home. The burial took place at the Pleasant Cemetery Saturday. Rev. Speck held the services and paid high tribute to her life and Christian character.

Stanfield is survived by her five boys and seven girls. Her influence will live on in the hearts of her children.

## C. A. PETERS ANNOUNCES FOR DISTRICT CLERK

With this issue of the Free Press the name of C. A. Peters will be found in our announcement column as a candidate for the office of District Clerk. Mr. Peters makes his announcement subject to the action of the democratic primary to be held next July.

Mr. Peters lived in the Jud community for about six years, but is now living in the Whit Chapel community. He is not very well known in Haskell and surrounding communities, but he is a man of strong personality and has many friends over the county who have solicited him to make the race. He will endeavor to see every voter in the county between this and election time. We ask that you give Mr. Peters candidacy due consideration at the polls next July.

Rev. and Mrs. J. T. Nicholson of Hamlin are visiting in Haskell this week.

## POULTRYMEN WILL MEET MARCH 4TH

The people are requested to meet at the courthouse on Monday, the 4th of March for the purpose of organizing a poultry association for Haskell county. We expect to get things to going and have a poultry show as soon as it can be arranged after the organization is perfected. We want every man and woman to consider the need of this organization and be patriotic enough to come out on the day appointed and help us put into effect this helpful plan to increase the production of poultry and poultry products of our county.

A Rabbit Drive

The rabbit hunters are requested to meet on the bridge at Red Creek on the Throckmorton road east of town on next Wednesday morning at 9 a. m. to make a drive. Everybody come.

## A. L. COX ANNOUNCES FOR RE-ELECTION

A. L. Cox authorizes the Free Press this week to make his announcement as a candidate for the office of Commissioner of Precinct No. 3 to succeed himself. The announcement is made subject to the action of the Democratic Primary in July. Mr. Cox is now serving his first term in the office and we have heard nothing but favorable comment on his official actions. He has served the county well and so far Mr. Cox has not developed an opponent and probably will not do so, as it is the democratic custom to return a good officer for a second term, and he will no doubt make the race without opposition, but he will appreciate your vote and influence as much as if he had an opponent. We commend Mr. Cox's candidacy to the voters of Precinct No. 3.

J. C. (Cal) LEWELLEN FOR COMMISSIONER PREC. 2

J. C. Lewellen makes his official announcement this week as a candidate to succeed himself as Commissioner of Precinct No. 2. Mr. Lewellen is now serving his first term as commissioner of this precinct and has made good and we believe that the people will return him for another term without opposition.

Mr. Lewellen has been in the county for 13 years and is thoroughly acquainted with the needs of the county. He is an enthusiastic good roads booster and has been doing the people some excellent service along this line. His experience during the past has qualified him for better service in the future. We ask that you give Mr. Lewellen due consideration at the polls next July.

## HON. A. H. KING FOR REPRESENTATIVE

Hon. A. H. King of Throckmorton authorizes the Free Press to announce him as a candidate for Representative of the 102nd District to succeed himself. Judge King makes his announcement subject to the action of the Democratic Primary to be held next July.

In making this announcement for Judge King we feel that it is impossible for us to say anything in his favor that would not be endorsed by the majority of the qualified voters of the district. In the recent special election he won the nomination over his opponent in every county in the district. He is now at Austin representing the 102nd District in the called session and we are sure that we will be ably represented. Judge King will probably not have an opponent in the July primary but he will appreciate your support.

## UP POSITION TO NURSE WOUNDED SOLDIERS

Account of Mrs. T. C. Cahill. Cross work appeared in the Fort Worth Star-Telegram by Nell Flanagan, feature writer for that excellent paper.

Mrs. T. C. Cahill, wife of T. C. Cahill of Haskell, Texas, who died at Fort Worth Sunday evening, where she will continue to serve in France. Mrs. Cahill, has just returned from a seven weeks course in surgery at Houston. She was an instructor in surgical nursing at the Haskell Chapter of the Red Cross. She had one and a half years as nurse before she married.

Mrs. Cahill was prominent socially in Haskell. She had beauty, wealth and everything to make her life enjoyable. She was a member of the Haskell Chapter of the Red Cross, well known in Haskell.

"But Mrs. Cahill couldn't be satisfied with her enviable position at home when she thought of the wounded soldiers over on the other side.

"It is my duty and I can't get away from it," she declared. "They need me. I tried to content myself with staying there in Haskell and supervising the work, but I just couldn't. The American Red Cross is calling for women from the Southwestern Division for nurses. And I'm one who has volunteered. I want to do the real nursing. I have given up home, husband, everything, for this cause. And I'm not the slightest bit afraid of the submarines or anything else."

Mrs. Cahill resigned as president of the Symphony Club and subchairman of surgical dressings committee in Haskell. She was quite prominent in the club life of the town. She had lived in Haskell about thirteen years. She has been married for twelve years.

## P. C. PATTERSON ANNOUNCES FOR COMMISSIONER

We have the pleasure this week of placing the name of P. C. Patterson in our announcement column as a candidate for re-election to the office of Commissioner of Precinct No. 4. Mr. Patterson is so well known over the entire precinct that we feel that it is impossible for the Free Press to commend his candidacy more than the people in his precinct will do themselves. He has made the County a good commissioner during the past and if re-elected he will be able to serve them in the future as he has gained a knowledge of road work and other business of the county that can only be learned in the school of experience.

Mr. Patterson says that he has been handicapped in road work during the past two years on account of the extreme dry weather and the shortage of funds, but promises to do his very best if re-elected. He makes his announcement subject to the action of the democratic primary to be held next July and will appreciate your vote and influence.

## Christian-Mayes

V. H. Christian and Miss Lucille Mayes were married by Rev. A. J. Morgan at the Baptist parsonage in this city Wednesday, March 27. The young couple took their many friends on surprise by the wedding. They are well known in and around Haskell and the Free Press joins their many friends in wishing for them long, happy and prosperous lives.

## NINE MORE MEN LEAVE FOR TRAINING CAMP

The last of Haskell County's quota of soldiers to be furnished in the first draft left last Sunday afternoon for Camp Travis. The party was composed of Abbott Hutchens, Frank Silhan, Alfred J. Speck, Emil Walsch, Thomas A. Lee, Dumas Y. Ray, Alex C. Watson, and Ira N. Roberts.

Homer P. Arbuckle left Thursday for Fort McArthur, California, where he will be in the Coast Artillery service.

Hon. W. H. Murchison, chairman of the Local Board informs us that the Board has finished all classifications and have examined all registrants in Class One. It is believed that the Haskell County Board is the first County Board in the state to finish with this work.

The final classification cards will be mailed out beginning next week. This card should be taken care of by the registrant and carried with him if he leaves home, as it will be used as

proof that the registrant has duly registered and been classified. Anyone between the age of 21 and 31 will be subject to arrest without it.

Emory Menefee, chief clerk of the board, has finished his work and tendered his resignation to take effect at once. Miss McDaniel, assistant clerk, will continue in charge of the office.

The next call will probably be made the last of March or the first of April.

Air Service for Mail

It has been announced from Washington that airplane mail service between Washington and New York will be in daily operation beginning April 15, employing eight machines, the post office department announces.

Aerial post service will be conducted once a year as part of the aviation system of the army. The machines will be piloted by army fliers.

Take care of your stock and implements. Don't allow them to stand out in the weather; to do so is waste. Don't waste. Build sheds and outbuildings. That is economy, and economy is the road to prosperity. We have the building material and want to help you.

We Will Appreciate Your Business, be it Large or Small.

## FROM THE FIELD

By W. M. FREE

We had the opportunity the other day to look over the signatures on some legal documents that were signed by lawyers and other educated men, and to our surprise we were reminded of the boy who drew the picture of a cow. He wrote the name "cow" on it so that his drawing might not be taken for something else.

An Ellis County physician who was examining registrants for the local board remarked that he found most of the boys in fine condition physically, but just a little gun shy.

A. W. Hansom, who was in the city last week from the Joe Bailey community remarked that he could pick out the candidates who had no opponents by the way they shook hands. The ones without opposition shake very lightly, but the man who really wants your vote shakes your hand and arm from the elbow down.

A new ruling passed in the draft regulations was to the effect that if you had been engaged to a girl prior to the registration day of June the 5th of last year, and you could make satisfactory proof that your wedding was not solemnized to keep out of service you have a chance to be placed in class four the same as men who married before that date. But should you come before a board of married men who were engaged to eight or ten girls at the time of their marriage you will have less chances to win.

We noticed on several evenings on returning from work that our devoted wife was reading the Bible. We have our suspicions aroused to the extent that she may expect us to live a little nearer the teaching of the book.

Clyde F. Elkins stated the other day that from the way the candidates are entering the field that the man who is able to poll three-fourths of the can-

didates will be elected by a handsome majority.

A farmer living in Haskell's trade territory remarked to us the other day that he had bought his cottonseed for planting purposes and had them in his barn. Not being a reader of the Free Press he had paid 50 cents per bushel more than they would have cost should he have purchased them through a Haskell firm that carried an ad in the paper. He had bought 40 bushels and the difference was the amount of \$20.00. In an effort to save \$1.50 he had lost \$20.00 in the deal. We often use this kind of economy to our sorrow. But this good man has taken out insurance against such losses in the future. He has a paid up policy with the Free Press for one year.

We took a spin one day last week to the Foster school with our friend Sid Medford of Howard. You can bet that we had a good time. We found the school in the morning recess and Mr. Taylor and Miss King were on the yard with the children. One of the teachers was sick and they were doing her work. Those children in the Foster school are a fine bunch of youngsters and they are doing good work in school this term. We were glad to see them as we have been with them so much and know each one by name, and they always show appreciation when we visit them. We came back to Haskell and Mr. Medford took dinner at our place. But we are sure if he had known just how little a mite we was in waiting for him to eat, that we could not have induced him to stop. But Sid seems to be a fellow who will try anything once.

We took in the opening of the Haskell County Library last Friday night. We cannot find words to express the enormity of the occasion. The house was filled to overflowing with people from the forks of the creek to the heart

of the city. They were all there. The welcome extended to all was very cordial, and no one could find time to feel like an unwelcome guest, but as the old saying goes, "we were in the right church and pew." The speeches made by the ladies and Mr. Murchison seemed to come from the heart in words that need no comment.

The future outlined with its stars and crowns. The past was told with its ups and downs. Was the trend of the speakers that night.

Which blended into sweeter thoughts of higher intelligence for the people of Haskell County.

We visited the South Ward school last Friday afternoon where our own children attend and witnessed the program in honor of Washington's birthday. The children did well with their patriotic songs and readings, considering the short time they were given for practice. The program was as much of a surprise to the children as to the visitors. No time was taken from their studies for practice. Rev. Jno. D. White, W. H. Murchison and others were present. Mr. Murchison made a short address to the children which was very appropriate and to the point. He said it was truth that made America free. It was truth in Washington that won for him the confidence and admiration of his countrymen. It is truth that makes America great; no broken treaties with any nation was ever laid at our door. Democracy crossed the Atlantic from the old world and developed in America, and now it is crossing back under the banner of truth in the Stars and Stripes to make the old world safe for humanity. What would have come to pass in these latter days of war had there been no President Wilson to give his clear utterances to the ideals of civilization, and no America to take up arms for the whole world's welfare? True Americanism is the best internationalism, says President Wilson.

### JOE BAILEY

After several days of beautiful weather Monday presented us with another one of those awful sand storms.

**WE ABSOLUTELY MUST HAVE MORE MEAT**

Why Backyards and Farms Must Raise More Chickens, Ducks and Geese

Because of the war the meat reserves of the world are diminished. The herd of live stock in Europe have been reduced by slaughter made necessary in order to feed the armies. Our own meat production in the years just preceding the war was barely sufficient for our own uses. And yet we are now called upon not only to feed ourselves, but to feed Europe to a large extent. And we must do it if we win the war.

Where will we get the meat? You can do your part, on your farm and in your backyard by producing more poultry—increasing the supply of eggs and chickens, geese and ducks. Our total number of beef animals can not be increased with sufficient quickness. Several years are required to build up cattle herds. Hogs can be increased considerably in a year. They can be increased faster than any other meat animal. But poultry can be DOUBLED in a year. It offers the fastest and cheapest possible sources of meat increase. That is why it is so important that everyone help in poultry production next year.

The more poultry and eggs we produce the more poultry and eggs we will eat. The more of that food we eat the less beef and pork we will need or want—leaving that much more to go to Europe. Thus we do indirectly the thing we can't do directly. By poultry production we get quickly more meat to win the war, although we can not increase in that time the number of our meat animals.

Get some good hens. You will help win the war. You will reduce your own cost of living. You will turn waste in to food. Get some good hens.

**MITCHELL**

We are having some spring weather this week.

Several of the farmers are preparing their land for planting. The women are beginning to dig in the dirt too and are doing some planting in their gardens.

Lee Holland and family of Junction City, who have spent the fall and winter near Crowell spent a few days with W. R. Brothers and family on his return home.

Sam White has sold out to his brother, Grover White of Knox City and will leave for Erath County in a few days. They will probably spend most of the year down there as Sam was operated on in December for appendicitis and is not able to do farm work.

Riley Brothers spent two days this week with his sister, Mrs. Maud Lamb.

Mrs. Blakeley's brother, Larry Simpson, and wife spent Friday night with them.

There was quite a few visitors at school Friday.

The Mitchell boys played ball at Hutto Friday but were beaten. The score read 15 to 12 in favor of Hutto.

Minnie Mancill of O'Brien visited her cousin, Clytee Mancill Saturday and Sunday.

Lillie Bennett and Leonard Burleson attended the wedding of Leonard's sister, Fannie Burleson last Sunday, who was married to J. L. Bieber.

Lillie and Armond Bennett, Lola and Willie Butcher motored over to Knox City Sunday morning and carried Dora Atchison home.

**BASKET BALL GAME BETWEEN PLAINVIEW AND SAGERTON**

The Sagerton Basket Ball boys and girls came over to Plainview Friday afternoon and played a couple of games with the Plainview Basket Ball boys and girls, respectively. Both games were interesting. The game between the boys at the end of the thirty minutes, proved a victory for the Sagerton boys, as the score stood nine to twenty-one in their favor.

But the Plainview girls were more fortunate than the boys, defeating their opponents. At the end of their thirty minutes the score read six to eight in favor of Plainview.

We understand that the two teams are to meet again Saturday on the Sagerton grounds. Each and everyone should go and see the games and "holer" for their home team.

**Will the Incubator Pay?**

By W. W. Ashby

I was asked a few days ago the question: "Will an incubator pay?" and in reply will say, let us figure a little on the question before we start into the business.

It will take twelve hens to set and hatch 120 eggs and these 12 hens at the present prices if kept laying would mean \$12.00 in egg production, or \$1.00 to the hen.

A good reliable incubator that will hatch 120 eggs can be bought for \$12. Now we are on equal terms—the incubator will last 15 or 20 years. It costs less for oil than for the feed of the hens and the chances are some of the hens would die before finishing the hatch as is often the case. There is only one incubator to look

after instead of 12 setting hens, which is quite a charge, and means 12 chores to look after instead of one. You have 12 nests to look after and guard against skunks, rats, dogs and other pests.

Some of the hens are liable to quit the nest before they finish the hatch. It requires attention with these hens far more than it does with a good incubator, while your results with the hens are uncertain, your results with the incubator are almost certain.

You can CONTROL the incubator, but you CANNOT CONTROL the hens.

Have I figured correctly? Don't you think it will pay you to buy an incubator? I do, and a brooder is just as necessary as the incubator in caring for the chicks. You are not bothered with lice and the hens tramping the chicks in feeding. W. W. ASHBY.

**MEYERS**

Meyers was visited by the most severe sand storm of the season Monday afternoon.

V. L. Pennington and family of Meyers visited Tom Pennington and family of Gilliam Sunday.

Joe Stastny and his daughter, Miss Albina, were shopping in Haskell Saturday.

C. F. Oman and Tommie Parks made a business trip to Hskell Saturday.

Mr. and Mrs. W. M. Wheeler of Meyers entertained their daughter, Miss Bertie and a few of her friends with a party on the eve of her departure for Brownwood, where she will be married to Luther Hughes. A few of her friends accompanied her to the train. Her sister, Mr. Gifford, who lives at Brownwood will meet her and she will be married Sunday. Miss Bertie will be missed very much in the Sunday School work, but we wish her a long, happy and prosperous life.

Miss Edna Pennington of Meyers spent Saturday night with her cousin, Miss Ovalda Pennington of Gilliam.

Mrs. W. S. Arrington of Madill, Oklahoma, who has been visiting her mother, Mrs. Thompson at M. E. Parks, returned home last Monday morning.

Miss Bell Barnes had the misfortune of getting her arm broken last Friday. She is better at this writing. We hope she will recover soon.

Success to the Free Press and its many readers.

Haskell, Texas, March 2nd, 1918

One way to help conserve the food is to take yourself out of the market by planting a large garden in the spring.

Next Monday is the day set apart by the people to organize a poultry Association. Are you going to help out in this work? We are going to expect you on the above date at the courthouse at 2:30 p. m. Come and bring someone with you.

The ladies of Haskell are to be congratulated on the splendid Public Library building recently completed. The building is a monument to the enterprise and hard work put forth by them. They deserve the credit that is due from such a noble undertaking.

Some people seem to think that the rulings of the Food Administration were made to be avoided instead of obeyed. It might be well to ask yourself the question: "What would the Food Administration's efforts amount to if every citizen should do the same as I am doing?"

Hon. A. H. King of Throckmorton is now our representative in the Legislative halls at Austin and the splendid vote he received in the recent election demonstrates that he has the confidence and esteem of the majority of the voters in all three counties composing the district. He is a capable man and we feel sure that we will hear from him often.

Years ago we threw away our hammer, and vowed that if we could not boost, we would not knock, but sometimes when we see a man who should be a leader in his community for the upbuilding of the town and country take the opposite side of any proposition that is advanced for public improvements, we cannot help from feeling a desire to drop a brick bat on his dome. Most towns have a few such men to contend with and Haskell is no exception, but we thank our stars that the majority of our citizens are different.

The Legislature is in session at Austin, and they have a man's size job ahead of them if they enact laws recommended by Governor Hobby to control the selling of liquor near the different cantonments of the state, and if the recommendations of the special Legislative committees are given consideration. The amendment to the Federal constitution enacting nationwide prohibition will doubtless be ratified, which with the other measures proposed will keep them busy for more than the allotted time of 30 days allowed for a special session.

One of the busiest men in Haskell County these days is R. V. Robertson, County Food Administrator. Although he is a man whose personal business affairs demand much of his time, he has given his services unstintingly in the matter of the administration of food measures in the county. He is doing his utmost to see that the Food Administrator's rulings are complied with and if he can give the greater part of his valuable time to the preservation of food in this county the rest of us surely ought to be willing to contribute our mite by heartily co-operating with him. If his efforts are to avail anything he must have your help. It is your duty to yourself and your country to give him co-operation in the fullest measure.

The Treasury of the United States has a great deal of money to raise and it cannot be raised by bankers alone, says Secretary McAdoo. The banks of this country cannot alone sustain America's needs in this war and extend to our Allies the essential aid which they must have to continue the war. The rich of this country cannot do it alone; the men of this country cannot do it alone; the women of the country cannot do it alone, but all of us, the people of the United States, disregarding partisanship, forgetting selfish interests, thinking only of the supremacy of right and determined to vindicate the majesty of American Ideals, secure the safety of civilization and do the great and splendid work which God has called upon us to do.

It is of utmost importance to the farmers of Haskell County and to the county's production for the year 1918 that farm supplies of all kinds be secured immediately. With the railroad tonnage taken up mostly by war ma-

terial the situation is such that it is almost impossible to get immediate shipment of anything that is not war material. With shipping conditions so uncertain any delay on the part of the farmers in placing their orders for supplies at once may mean that those necessities for farm work may not reach the farmer when most needed. Your order for farm machinery and seeds should be placed with your dealer at once. If you have any repairs that should be made on your machinery have it done now, and it will be in good working condition when needed. If Haskell county is to do her part in the increased production program, it is necessary that every farmer in the county contribute his share toward the facilitation of an adequate food supply by having everything in readiness to put in the largest crops that he has ever planted. You should give the matters your prompt attention.

**HALF HOUR'S JOB LIKE A DAY'S WORK**

Chemical Company Foreman Says He Has Taken New Lease on Life

"Tanlac has simply given me a new lease on life," said O. A. Cook, who lives at Harrisburg, Texas and is foreman for the Fidelity Chemical Company while in Keisling's Drug Store, Houston, recently.

"Before I commenced taking it," he continued, "I was so run-down and miserable a half hour's job would tire me as much as a whole day's work does now. My legs were weak and pained me, often suffered with backache and indigestion and my nerves were so unstrung that I was irritable and out of sorts all the time. I would get up in the mornings feeling as tired and worn-out as if I hadn't gone to bed and my work was an actual punishment to me.

"I had reached the point where it was necessary for me to do something for myself and I bought Tanlac because I know how it helped my mother over in Georgia. I now sleep sound, eat heartily and can do a hard day's work without feeling it. My legs and back don't hurt me like they did and everything I have to do is a pleasure instead of a burden as it was before. I recommend Tanlac to everybody with those miserable, tired nervous feelings like I had, for it certainly has straightened me out in fine shape."

Tanlac is sold in Haskell by Reid's Drug Store; in Rochester by H. G. Ramby; in Weinert by E. E. Cockrell; in Rule by Golden Rule Drug Store; in Sagerton by W. W. Martin; in Nabors by Mrs. L. A. Bouldin, and in Whitefield by T. B. Higgenbotham.

Take HERBINE for indigestion. It relieves the pain in a few minutes and forces the fermented matter which causes the misery in the bowels where it is expelled. Price 50c. Sold by Jno. W. Pace & Co.

### BRUSHEY

We are having plenty of sand storms here of late and they are bad ones too. Looks like it might rain instead of so much sand, as we are needing the rain so badly.

Nearly everybody in this community has the mumps or the roseola. Uncle Harry Williamson has been real sick with the mumps but we are glad to note him some better.

Some of the people are about up with their work, and some have not commenced, but are waiting for rain. We learn that Henry Shoffitt will return back to Camp Bowie this week. He has had a long stay because of a bad case of pneumonia.

Rev. J. O. Little filled his regular appointment here Sunday and Sunday night.

Mr. and Mrs. H. L. Chamberlain visited Mrs. Chamberlain's brother, Lon Smith an dwife north of Goree Sunday. We are glad to report Mrs. Marvin Chamberlain able to sit up some. We hope she will soon recover.

Ed Bowman has his store at Brushey almost complete. Hurrah Brushey is coming to the front once more.

### HASKELL RUBBER COMPANY SOLD TO H. HUTCHISON

H. Hutchison of this city has purchased the Haskell Rubber Company from W. H. Starr, and will have charge of the vulcanizing and garage business formerly owned by the latter.

Mr. Hutchison is an expert mechanic and rubber man, and has had years of experience in this line of business. He has lived in Haskell for about one year and has made many friends here. The business will be run at the same old stand.

Rev. W. R. Potter of Mineral Wells was here Wednesday on the stewardship campaign for the Southern Presbyterian Church, and paying a visit to Rev. S. B. Hoyt the pastor in this city.

John Wolf, a representative farmer of Rochester was here on business Wednesday.

H. Mueller and son, H. G., of Stamford were in the city Saturday and made the office a pleasant call and had their names enrolled on our list for a year each in advance. We appreciate the subscriptions and the visit. Come again gentlemen.

C. F. Omen of Meyers was in the city Saturday for the first time for some time. He is farming up his way and getting things in shape for that good rain which we must have right away.

John A. Fouts returned from Dallas en route to Wehnert where he is a member of the firm of P. B. Broach and Company this week.

### JUD

Well, how have the sand storms been serving you readers here of late Rev. C. O. Huff filled his regular appointment here Sunday.

Dumas Ray of this community left Sunday for Camp Travis. Miss Lee Barton spent Sunday night with Miss Evalor Roberson.

The party given at the home of Mr. and Mrs. A. F. West Friday night was well attended and all reported a fine time.

B. Ivey of Abilene visited his brother J. M. Ivey the past week. Miss Myrtle Allen spent Saturday night with Miss Ovie Lesley.

School is progressing nicely with 60 pupils enrolled.

W. A. Ivey and wife visited relatives at Abilene Saturday and Sunday. Quite a crowd gathered at the home of W. L. Ray Sunday to take dinner with his son Dumas, as he left that evening for Camp Travis. All the children and their families were present.

Homer Ivey and wife, Miss Jewell Murrah, Lee Barton and most all of them accompanied him to Haskell to bid him farewell. Quite a crowd of the young people enjoyed a party given by Miss Bessie Allen Saturday night. All report a nice time.

Best wishes to the Free Press and its many readers.

### HOWARD

Dry weather continues and the general outlook is very discouraging to farmers in this section.

The Howard Singing Class went into permanent organization last Sunday evening and elected G. L. Willis president, Miss Pauline Stark secretary, Lee Medford, Sid Medford, Welborne Stark and Shiel Jones as song leaders. The Class will meet every Sunday evening at 8 o'clock for "song drill".

John Nanny and John Watson have improved their homes to the extent that it adds a great deal to the appearance of that part of our community.

John Nanny is also trying to solve the dry weather question by having a well drilled in his front yard.

W. P. Ulmer is breaking sod for Mr. Timney with a gas tractor. He seems to be doing excellent work.

Our free school under the management of Prof. Rye and Miss Beaty gave an entertainment last Friday night which was attended by a large crowd. The program rendered by the pupils was very interesting from start to finish. We wish to compliment the teachers and pupils for this splendid entertainment.

We hear a great deal of complaint about the water. Many of our farmers have to haul stock water from Paint Creek.

It is generally conceded by those who are supposed to know that the wheat crop in this community will be a failure this year.

The party at Mr. and Mrs. Leonard's Saturday night was enjoyed by a large crowd.

J. R. Dinsmore is painting his house this week which helps the looks of his new home wonderfully.

The singing at J. O. Stark's Sunday night was enjoyed by a large crowd.

Howard Montgomery of the Whitt community and also Jim Cox of Haskell attended the Singing at J. O. Stark's Sunday night.

To the Free Press:—

The following letter from Cole Menefee about two weeks ago, but dated Dec. 8th, was much appreciated. We have no idea of his whereabouts now and knowing that his friends will all be interested in reading it, I send it and also one from Brevard Long for publication.

Brevard will soon finish the officers training camp at San Antonio and will probably have a furlough and we hope to see him spend it in Haskell.

We are very proud of our boys and are always glad to hear from them.

Mrs. McConnell.

San Antonio, Texas Jan. 20th, 1918.

My Dear Mrs. McConnell:

I feel unable to express my appreciation for the lovely set which reached me Friday morning, and shall not try

except to say that you have given me the one gift that I not only can use, but which is almost a necessity.

Every time I put on the sweater, helmet or wristlets, I shall remember that Mrs. McConnell made them with her own hands that I might be warm, and it's needless to say that there will always be a very warm spot in my heart for the worker. Please thank Miss Eugenia for me. The helmet, sweater and wristlets all fit perfectly and I now have on the sweater and wristlets.

I am doing fine at the Training Camp so far. They work us pretty hard but I can stand the work, and feel that the reward is worth the effort. Wishing you the fullest success in your great work—God bless the Red Cross and it's workers!—I remain, Gratefully and affectionately yours, Brevard S. Long, Camp Travis, Texas, December 8, 1917.

Mrs. H. G. McConnell, Haskell, Texas.

Dear Mrs. McConnell:

I have been thinking for some time that I would write you and thank you, as the instructor for the Red Cross, for the many nice things that I have received from the Haskell Red Cross ladies. No one outside the army can realize how much comfort we get out of the things made and distributed by the good ladies of Haskell, for it is generally things that we can get no other place and things that go far towards making army life comfortable.

I have been keeping touch all along with the fight that you have been making for the Red Cross and know that you have had much to contend with that has been discouraging to you, but I want you to know that we boys in the army are solidly behind you, even though some of the people at home are not, and I want you to know further that we are duly appreciative for all that you have done for us and for all you have tried to do.

Not so very long ago someone passed a Haskell county boy's bunk and asked: "Whose bunk is that?" I told him whose it was and he said: "I knew it belonged to some Haskell County boy as they have a real Red Cross there." I think that is sufficient evidence that your work has been successful.

Please give my thanks to all who had a share in doing the work on the many nice things that I have received, and hoping that I may be able to thank you all personally sometime, I am,

Respectfully,

Cole Menefee.

### Notice!

The School Board for the Haskell Independent School District has authorized me to use this means to advise the public that funds for said district will be insufficient to complete a full term of nine months of school. The Board desires to have a mass meeting of the people on Monday night, March 4th, at the County Court House at 7:30 p. m., to discuss the matter and devise ways and means of continuing our schools for the full term. Everybody is requested to be present.

### Health about one

Many thousands of men suffering from many troubles, have been benefited by the use of Cardui, the woman's tonic, according to letters received, similar to this from Mrs. Z. V. Spell, Hayne, N. C. "I could stand on my feet, and I suffered terribly," says. "As my suffering was so great, and had tried other remedies, Dr. Cardui had an effect, and I began improving, and I cured myself. I know, and my doctor knows, what Cardui did for me, for my eyes and health were not gone."

**TAKE CARDUI Woman's Tonic**

She writes further "I in splendid health... I do my work. I feel I owe it to Cardui, for I was in a dreadful condition." "You are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, try Mrs. Spell. Give Cardui a trial."

### SIX AND A HALF BILLION POUNDS OF MEAT FOOD

#### What City and Country can Produce in the Form of Poultry and Eggs

If poultry production is doubled this year, as is readily possible with the city and country cooperation, we will have 6,500,000,000 pounds of meat food, in the form of poultry and eggs. This will release almost that many pounds of other meats—pork and beef—for our armies in Europe, and for the armies and civilian population of the Allies.

If we do NOT produce this amount of poultry we may find ourselves short of meat food to just that extent.

It is a patriotic duty of the utmost importance that every farmer and every person in town do his part in producing this increase of poultry, which will help win the war. It is also a profitable proposition for the average individual. Both farm and town families will produce, at its lowest cost, meat food for their own use, and, by putting up eggs for winter use will further reduce living expenses.

The poultry will be handled as a by-product of the farm and backyard; each flock being large enough in numbers to utilize the scraps and waste from the kitchen and the "pick-ups" around the place, supplemented by some feed. But no flock should be out of proportion to the ground space and kitchen waste—not so large that feed will become, relatively, too costly an item. The idea is not only to increase our poultry production, but to do it economically; to do it at very little cost, by turning the waste of kitchens and backyards all over the United States into chickens and eggs. Fowls are the only medium through which a good deal of this waste can be transformed into a valuable food product.

W. P. Kinnison of Mitchell was in the city Saturday and Sunday visiting his father, S. E. Kinnison. He returned home Monday facing a West Texas shower, better known as a sand storm.

Seed Parish, a Haskell boy who is now located at Mart is here to visit his parents, Mr. and Mrs. E. L. Parish. Fred has many friends in the city who are glad to see him.

## The War Has Not Affected Our Prices

The war has not affected the price of electricity here, but in order to cut our expenses so that we will not have to raise the price there is a few favors we like to ask of our customers.

First—Pay your bill on or before the 10th of the month.

Second—When the collector calls on you don't tell him to come back next week or call for an extra expense for a collector.

Third—We would appreciate it if you would drop in our office at the back of the Haskell Drug store and pay your bill before the 10th of the following month and cut out the expense of a collector.

If you will help us out along these lines and hold our expenses down, we will do our best not to advance the price of our current.

**Who Can Beat This?**

Below is a clipping from the "Tidings" by Mrs. Tressie Goldsticker of Stamford, who is District Deputy for the Woodmen Circle, in which she pays a beautiful tribute to the Ballew Grove: "A Challenge to all District Deputies: If you have a Grove in your District that will compare with this one, please let's hear about it in the Tidings. Ballew Grove No. 1215, of Haskell County, has twenty-four members, meets twice a month, has a social hour once a month and has a drill team. After their meetings they practice the floor work and under the leadership of their captain, Lina Cunningham, they are progressing fine with their drill work. They never let anything, except sickness, keep them away from their Grove meetings, anxiously awaiting the afternoon to meet, some of them coming six and ten miles. What large Grove, considering everything, can compare to this one? None!—for they don't have a next-door neighbor to keep the children while they go to the meeting, but must dress and take them. God bless them! They, too, are being brought up to believe in Woodcraft and that the Woodmen Circle is the grandest Order yet. Captain Stevenson and Past Musician Sov. Baker and myself spent November 24 with them. In the morning we had a business meeting, at noon the table fairly groaned with good things to eat. (Glad Mr. Hoover was not present!) In the afternoon Captain Stevenson and myself assisted them with the drill work, which they do very beautifully and deserve praise and credit—each and every member of this little Grove."—Tressie Goldsticker, District Deputy.

M. B. Watson and D. B. English spent last week at Alpine looking after business and visiting old friends.

Saturday evening at 8:30 the High School Dramatic Club will put on an amusing little play of about 45 minutes duration, followed by a drill and funny paper sketches, in the High School auditorium.

You may see all this for the small price of 10 cents. The proceeds will be given to the school library fund.

We have recently received several new volumes, and they are being read with much enthusiasm. These volumes were purchased with the proceeds obtained from the play given before Christmas.

Remember the date—Saturday evening, March 2, at 8:30 o'clock.

**Who Can Become a Member**

To those wishing to become members of the Haskell county Poultry Association to be organized the First Monday in March at the courthouse at 2:30 p. m., we will say that every man, woman or child who pays their fee can be a member if he never raises a chicken—you do not have to breed pure bred poultry if you do not want to, but we are sure that if you become a member you would soon get the inspiration and fall in line. We can see at a glance that we have above 300 poultry breeders of our men and women that are breeding pure bred poultry in Haskell county. When brought to gether in a strong organization will be a mighty force lined up against Old High Cost of Living, and when they all get in line there will be something doing. Come prepared on the above date to fall in line and help put the Association into existence and put the amount of pep in it to make it a living organization, and self supporting.

In two years we can have the people of Texas buying most of their breeding stock of poultry from Haskell county. Will you help us and help yourself?

# Let Your Dollars Be Patriots

This war is a test of a democratic Government. It is also a trial of democracy as to its fitness to survive. A small group of autocrats within whose hands are the resources of Central Europe are attacking the principle of the right of people to govern themselves. Should the United States and its allies fail in the war there will not remain on earth a people absolutely independent of the dictation of the Teutonic empires organized for military efficiency and bent on using that efficiency for the purpose of forcing their will upon the world. Let the Teutons triumph and the world will not be a safe place for democracy, and to make it such a safe place, is not only the expressed purpose of the United States in taking up the challenge of the Huns,

but also the purpose of the other powers who took up the challenge when Germany sent it forth three years and a half ago, and who for three years and a half have borne the burden of the conflict.

For this reason the PRESENT BUSINESS OF THE UNITED STATES IS WAR—war to exterminate organized unrighteousness and establish peace among the nations of the world.

The Government has perfected a plan which will enable all of our people without exception, to take a definite part in winning the war.

One of the first great steps called for by the Government is—SAVING. The American people must cease to require all of the pleasant and comfortable luxuries which they consumed before the war,

the production of which calls for the energy of millions of men and women. These men and women must devote themselves to the production of the things which are needed to win the war. This is the key to the situation; it rests in the hands of the average man, woman and child in every state in the Union, by refraining from everything not absolutely necessary to health, and efficiency, to re-

lease strong arms for the production of materials of war to support our army and navy.

Idle dollars are SLACKER dollars, but dollars spent for unnecessary articles, the production of which require labor and materials which the government needs to save the lives of our fighting men are TRAITOR dollars.

### RED CROSS NEWS

The knitting committee reports the following articles shipped on Feb. 25:  
2 sweaters,  
10 mufflers,  
20 helmets,  
4 pair wristlets,  
3 pair socks.

The latest instructions from headquarters at St. Louis, says: "Of knitted things we want wristlets, socks and sweaters most. There has come a heavy demand for ten thousand mufflers and wristlets."

One new auxiliary was organized in the Foster community last week and a committee from our chapter is to go to Bailey Wednesday night to organize a Red Cross Auxiliary there.

Center Point reports their school as a unit in Junior Membership, and eleven adult members.

Whitman Auxiliary reports for the week:

30 triangular bandages,  
10 many tailed bandages,  
3 helmets and 5 pair socks.

Frost Auxiliary has secured ten new members and their work for the week includes:

10 triangular bandages,  
4 scalotus,  
225 gauze dressings.

Kirkdale-Irby Auxiliary brought in for their portion during the week 4 helmets and 10 pair of socks.

Rose Chapel's allotment was 22 triangular bandages.

Mrs. J. B. Smith has consented to be chairman of the Junior work and on Saturdays she will be at the Central work room to give instructions to the teachers of the grade and rural schools, as outlined by Headquarters. Work for boys as well as girls is included in these.

Mrs. Hollis Fields has been appointed chairman in charge of the Layettes for the Refugee babies. Anyone wishing to donate to this cause or know more of the work will please phone her.

The Finance Committee reports \$74.50 collected for February from regular monthly donations. This is a nice sum for which we are very grateful, but it is not enough to meet the demand and pay for the supplies this

chapter has to buy. The women are giving their time and doing the work, surely the men will furnish the money to pay for material for the women to make up.

We are glad to acknowledge the following donations during the last week:  
Mr. R. E. Sherrill.....\$ 2.75  
Mr. R. E. Sherrill, Treasurer. 18.99  
Mr. Carl Cox (to buy wood for Juniors)..... 5.00

Below is a copy of a letter just received and we publish it with a prayer that others may get the spirit and "do likewise":

"Haskell Texas, Feb. 25, 1918.  
"Haskell Chapter, A. R. C.,

"Dear Ladies:—

"Enclosed please find our check for \$5.00 for a donation to your work, hope that it will be of use to you and through you be of benefit to the boys at the front.

Very truly yours,  
Haskell Telephone Co.,  
per A. J. Combs, Sr., Mgr."

The Chairman of the Woman's Work has appointed the following ladies to be Captains of the surgical dressing tables:

Miss Una Shook for Monday,  
Mrs. W. B. Murphy for Tuesday,  
Mrs. Courtney Hunt for Wednesday,  
Mrs. Joe, R. Mauldin for Thursday,  
Mrs. Herbert Arbuckle for Friday.

Miss Florence Shook for Saturday. This does in no wise relieve the regular hostess of the day. The Captains are to see that the material is brought out and ladies supplied with work thru the day and to be responsible for the dressings and etc., being placed in the locker at night.

### Junior Red Cross Work

The campaign to enroll the school boys and girls of Haskell county in the work of the American Red Cross, has succeeded in bringing in already at least 2000 members, and quite a large number of schools are yet to be heard from. A number of places have completed organization this week that have not yet sent in their membership petitions. It is confidentially expected that by the end of the week the enrollment will stand well above 3000. A number of the schools are doing Red Cross work at the school building while at other places the pupils work at the

Red Cross rooms with the regular auxiliaries. In Haskell, Weinert and Rule they are doing both. The chairman found a live unit at Post in his visit this week. There the girls have a certain period each day in which they go to the regular work rooms of the local auxiliary and do work. At Weinert, under the direction of Mrs. Edwards, both boys and girls are busily knitting afghans, or soldiers quilts. In the Haskell city schools the pupils are engaged in knitting and sewing. Beginning this week the girls of the Domestic Art Department will make refugee garments for the Belgian and French children.

Mrs. J. B. Smith of Haskell has taken over the direction of the Junior Red Cross Work and will render assistance in purchasing supplies and giving directions as to the kind and quantity of garments needed. Teachers will find her at the Red Cross

### This Corn Will Peel Right Off!

"Gets-It" Makes Corns Come Off The "Banana-Peel" Way!

Why have to flop on the floor, squeeze yourself up like the letter "Z", and with bulging eyes draw your face up into a wrinkly knot while you gouge and pull at the "quick" of a tender corn? That's

2 or 3 Drops Applied in a Few Seconds—There's no Fusing or Cutting. "Gets-It" Always Works!

the old, savage way. "Gets-It" is the modern, painless, simple way. Lean over and put two drops of "Gets-It" on the corn, put your stocking and shoe right on again, and forget the corn. Pain is eased. "Gets-It" has revolutionized the treatment of corns. It never irritates the true flesh. You'll stop limping on the side of your shoe, and do away with grayish scales, bundling bandages, thick plasters and painful methods. Use "Gets-It", it's common sense. "Gets-It" is sold by all druggists (you need pay no more than 25 cents), or it will be sent direct by E. Lawrence & Co., Chicago, Ill. Sold in Haskell and recommended as the world's best corn remedy by John W. Pace & Co.

rooms in the basement of the Baptist Church on Saturdays. On other week days she may be found at home, just in the rear of the Baptist church. Should you desire to call her by phone ring 102.

The following schools have completed their units or will do so this week:

Haskell North Ward, Haskell South Ward, Haskell East Ward, Weinert, Rule, Sagerton, Plainview, Flat Top, Dennis Chapel, Irby, Post, Roberts, Meyers, New Mid, Sayles, Powell, Vernon, Vontress, Center Point, Gauntt and Pinkerton.

The following places have been visited and are working on their units:

Brushy, Cliff, Foster Whitman, Gilliam, Howard, Whitt, Rose, Rochester, O'Brien, and Ballew. Workers at Rule and Sagerton have visited the rural schools in their sections. If your school has finished its unit send in the application for your certificate of enrollment at once. Take up the work and help make Haskell county 100 per cent Red Cross in school work.

B. E. McGlamery,  
Chairman Chapter School Committee.

Mrs. Ross Payne of this city received a letter from her husband, Ross Payne of San Pedro California, stating that he was in fine physical condition. He has just been appointed Corporal of his company. He further stated that all the Haskell boys now at Camp McArthur were making good, and when the Free Press makes appearance in camps, that the boys read it with much appreciation. The boys like to get the news from home.

### E. H. NEILL AND FAMILY MOVE TO AUSTIN

E. H. Neill who has been living in the city of Haskell for many years, left Friday for Austin to make his future home. The cause of his going away was Mrs. Neill's failing health.

Mr. Neill had been in the employ of the Haskell Free Press for several years and was at one time editor and manager. He has always held a position of trust and has always proven himself equal to the task. We regret very much to give up Mr. Neill from our office force, in doing so we have suffered the loss of a competent and trustworthy man. But we could not under the circumstances ask him to remain with us longer. We wish for Mr. and Mrs. Neill health and prosperity in the capital city.

We now have with us Mr. E. B. Harris who has been with the Rule Review for the past two years. He is a christian gentleman with the best of recommendations from his home town. We were very fortunate to secure the services of Mr. Harris. He has moved his family to this city and is now a citizen of Haskell.

W. Applegate, a breeder of the Silveraced Wyandotts of this city received a fine cockerel from a reliable breeder of Wichita county Monday. Mr. Applegate is an experienced breeder of this famous breed and has some excellent hens and pullets for this season's matings. He is in a position to produce some prize winners at the poultry show which we are going to pull off in the city of Haskell one of these days.

George Best from Rochester Route One, accompanied by his daughter, Miss Chloressa, were shopping in the city Saturday. Mr. Best ordered the Free Press to keep on the road to his home in the same old way it has been going for the last two years.

Mr. and Mrs. G. W. Henshaw of Rose were in the city Friday and Uncle George was very busy and we failed to get our usual amount of pleasant smiles. He always has a greeting for us and we feel disappointed when we fail to get it.

See Wm. Wells, the florist for tomato plants, sweet pepper and all other garden plants. He is making a specialty of garden plants this season. See him at once and book your orders. 8-16
