O. B. Colquitt Visits Here Friday

Friday afternoon Haskell again favored by a visit from Governor O. B. Colquitt, who is now a candidate for United States Senator. He addressed a crowd in the district court in the interest of his candidacy. He was introduced in a few chosen words by Mayor T. C.

Colquitt first took up his position on the prohibition question which is well known by most voters in the state. He also answered the criticisms made by the national administration at Washington while he was in the governor's office. His was a difficult task to satisfy at the frequent calls for help against the lawless bands on the one hand and the warnings of the national government to keep from getting us in a serious quarrel with Mexico. While the final out-

New Department Installed at Laundry

The Haskell Steam Laundry has installed a cleaning and pressing department, and have secured the services of O. Wilder, a well known tailor, who will have charge of this branch of the laundry. The steam press formerly located at the Wilder shop on the north side of the square has been purchased and installed at the laundry.

come could not be in doubt, there is not much glory in jumping on a weaker, though ever so refractory neighbor. Besides, all possible combinations might arise to make it more interesting. We have no doubt, if elected to the U. S. Senator, he will be able to convince that body, that he and Texas were right and everybody else wrong, if he has to keep them spellbound till all agree. He is incapable of fatigue.

New Auto Fire Truck Arrived

The new Ford auto fire truck has arrived, and is ready for business. The truck came in Monday and will be kept at the Haskell Garage, filled up with gasoline, oil and water, and ready to go at the sound of the whistle. W. H. Starr is to be the driver.

The truck is a Ford chassis, with a fire truck body, painted a bright red, is equipped with a large chemical fire extinguisher, axe, pick, ladders, gongs, etc., and of course will carry the fire hose.

In the future, it will only be necessary for the fire boys to go direct to the fire, and not have to bother with hose carts as heretofore.

Travis J. Arbuckle Accidentally Shot

Travis J. Arbuckle, who has charge of the furniture department of Jones-Cox & Company received a very painful wound from the accidental discharge of a 22 calibre automatic rifle last Thursday evening.

Mr. Arbuckle and T. B. Russell had gone down on Clear Fork on a fishing trip the day before, and they were packing the car for the return trip, when Mr. Arbuckle attempted to move the rifle which had been placed in the back seat on top of some bedding and in some way discharging the weapon the bullet passing through his thigh. He was standing on the running-board of the car at the time which probably saved his life—for if he had been on the ground the bullet would, in all probability, passed through his body.

They arrived here about 11:00 Dr. Kimbrough dressing the wound as we go to press Mr. Arbuckle is getting along nicely and it is thought he will be able to be out in a few days.

Veteran of 70 Summers Tells Good Story

W. H. C. Brown of the Foster community, a veteran of 70 summers, was in the city last Saturday in one of his best moods and reports a heavy rain in his community in which Tom Barrett lost his much cherished watch dog.

The accident as reported by Mr. Brown is as follows: The said pup "was from a race of thorough breds, who looked upon the world as something soft" as only an aristocrat can conceive. This pup's chief fault was looking for a cool place, where he could protect himself from the hot summer sun—spied a hole under the edge of the house, he proceeded to crawl under the floor and dig himself out a small basin in cool mother earth—then the rains came and the water rose until his retreat was cut off—the floods soon reached the floor and this "haughty scion" was practically helpless and his life paid the price of his folly.

Tom Barrett is now looking for another dog. Anyone having a dog for sale whose parentage can't be traced for a single generation and who will content himself with scratching fleas in the barn lot and perform on stated occasions when his instincts tells him that the time demands it, should communicate with Mr. Barrett. He doesn't want an animal that is always looking for a "Cool Spot."

Games the Past Week Interesting

The ball games played here the past week have been well attended, but not without good reason, however, for they have been interesting, close and well played.

The games for last Thursday, Friday and Saturday were played with the Rule team, at Rule, and resulted in defeat for our boys at each game. In the game Thursday, the Haskell boys were defeated, by a score of 5 to 7. This was a hard fought game and defeat was indeed bitter, as five scores were made in the first inning, two of which were home runs, Jones and Prine being the home run sluggers. Batteries, Polychuck, Jones and Jones. Friday's game was lost by a score of 4 to 1, Batteries Clemons and Jones.

Saturday's game lost by a score of 6 to 3, Batteries Wooten and Jones.

Monday the team played the Aspermont team here, winning Monday's game with a score of 9 to 0. Batteries, Clemons and Mitchell.

Tuesday the game here between Aspermont and the Haskell players was indeed good and hard fought, playing to the last half of the 9th inning with a score of 3 to 1, then a home run hit by Scroggins, and another runner making home safe tied the game until the 12th inning, the Aspermont team making a score, winning the game by a score of 4 to 3.

The game Wednesday was indeed exciting, being won by the home team with a score of 7 to 2. In the 8th inning 11 Haskell batters faced the pitcher, netting the 7 runs in this inning, Scroggins and White each made a two base hit, Polychuck making a home run.

Batteries for Haskell—Upchurch and Mitchell.

Below is a box score of the game:

Come to Prosperous Haskell--and Grow Fat

The Bartlett Tribune, that excellent paper published by R. F. Cates, reproduced a part of the article written by W. M. Free, the Free Press field man last week, in which mentions were made of the following enterprising farmers: E. A. Hutchins, J. M. Thompson, W. A. Eastland, M. M. Roberts, Mrs. Nevada Webster, and R. C. Ware, all former Bell county citizens, who are now living in old Haskell—happy and prosperous.

If the Tribune has any more such citizens in old Bell county who are dissatisfied there, we welcome them to this section where the latch string always hangs on the outside.

Vontress Singing Convention Meets

The east Haskell singing convention met with the Vontress class Sunday June 11th, at 10:30. The house was called to order by H. F. Haley. After singing the opening song and prayer by Brother Little of Weinert, the president appointed a program of Lake Creek, Ed King of Roberts. At 11:20 Rev. Little delivered a very interesting sermon which was enjoyed by all present. Dinner was served on the ground, for which we want to thank the ladies—for they sure know how to feed a singing crowd. During the business session in the afternoon the following officers were elected: H. F. Haley, president; Marvin Matheson; 1st, vice pres; Bob Edwards, 2nd, vice pres; Mrs. M. Cobb, sec'y; Ed King, Chaplain.

The Convention was a success in every way, between three and four hundred people were in attendance. The Rowden City and Lake Creek classes came from a distance of 10 and 15 miles respectively. There were people in attendance from Haskell, Roberts, Pleasant Valley, Cottonwood, Powell, and Kirkdale. Wilburn Foster one of the old time singers was with us—he sang here 8 or 10 years ago.

One of the most appreciated songs were rendered by the children. By special request the president sang; "Heaven Holds all for Me." The convention will meet with the Vontress class again the 3rd Sunday in September.

Jno. L. Tubbs Buys Interest In Laundry

Mr. John L. Tubbs has returned from Wichita Falls, where he has been for the past four weeks taking special treatment for his eyes, which have been giving him considerable trouble here of late.

Mr. Tubbs has purchased an interest in the Haskell Steam Laundry and soon as his eyes will permit, he will be on the wagon and will be pleased to meet his friends and customers of the firm. Mr. Kolb informs us that Mr. Tubbs will act in the capacity of outside business manager of the firm.

HASKELL, TEXAS, June 24, 1916.

Boll weevils have already begun
to show up in the cotton fields in
Bell and adjoining counties accord-
ing to newspaper reports.

Thos. Durham is again editor of
the Wellington Leader after serv-
ing as postmaster for two or three
years, resigning a few weeks ago.
Mr. Durham is a good newspaper
man and we are glad to have him
back in the game, but we can't
understand why anyone would
leave the "pie counter" to run a
newspaper.

Hail storms and wind storms
have done considerable damage in
the Haskell country during the
past few weeks, but they have
been local and not general—most
of the farmers in the sections
damaged are replanting their crops
and it is believed with the season
in the ground at this time—with
plenty of rain at the right time in
the future a good crop can yet be
made.

Old General Candidate is shell-
ing the woods with his light artill-
ery now, preparing to advance
through the dark forest of Cam-
paign, which lies in front of the
fortified city of Fatjob. Before
long, the general with his cohorts
will be charging in the fearsome
depths of the forest, in which are
many marshes, "snakes in the
grass" and other things that are
dangerous to him who aspires to
sit enthroned in Fatjob. The city
will fall before the army of sever-
al generals late in July, so the
oracles tell us, and there will be
many warriors lost in the Cam-
paign Forest—Ex.

be commended for interest they
are taking in developing this coun-
try.

WHY YOU ARE NERVOUS

The nervous system is the alarm system
of the human body.
In perfect health we hardly realize that
we have a network of nerves, but when
health is ebbing, when strength is declin-
ing, the same nervous system gives the
alarm in headaches, tiredness, dreamful
sleep, irritability and unless corrected,
leads straight to a breakdown.
To correct nervousness, Scott's Emul-
sion is exactly what you should take; its
rich nutrient gets into the blood and
rich blood feeds the tiny nerve-cells while
the whole system responds to its refresh-
ing tonic force. It is free from alcohol.

No Change Made
in Rural Routes

The four rural routes out of Has-
kell will not be merged into two as
was contemplated sometime ago.
Geo. Foster is in receipt of a tele-
gram from Washington, saying that
the bill cutting the appropriation
for this service had passed
both branches of congress. This
is indeed good news, and will be
heralded with much joy by the
patrons of these routes. For some-
time they have been fighting this
change, in fact signed petitions to
congress, etc., against the merge,
nevertheless, civil service exami-
nations were held at Stamford
some time ago, and we understand
the successful ones who passed the
examinations have moved to Has-
kell, and were preparing to take
over the routes. None of the old
carriers applying for the position.
The patrons of the routes out of
Haskell have been use to good
service, which they couldn't get
should the routes be merged as
contemplated.

When every farmer in the South
shall eat bread from his own field
and meat from his own pasture,
disturbed by no creditor, and en-
slaved by no debt, shall sit among
his teeming gardens and orchards
and vineyards and dairies and
barnyards pitching his crop in his
own wisdom and growing them in
independence, making cotton his
own surplus and selling it in his
own time and in his chosen market
and not at a bidding, getting his
pay in cash and not in receipted
mortgage that discharges his debt,
but does not restore his freedom,
then shall be breaking the fullness
of our day.—Henry W. Grady.

Died

HUSBAND RESCUED
DESPAIRING WIFE

After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.

Patron, Ky.—In an interesting letter
from this place, Mrs. Bettie Bullock
writes as follows: "I suffered for four
years, with womanly troubles, and during
this time, I could only sit up for a little
while, and could not walk anywhere at
all. At times, I would have severe pains
in my left side.

The doctor was called in, and his treat-
ment relieved me for a while, but I was
soon confined to my bed again. After
that, nothing seemed to do me any good.

I had gotten so weak I could not
and I gave up in despair.

At last, my husband got me a bottle
Cardui, the woman's tonic, and I
commenced taking it. From the very
dose, I could tell it was helping me,
and now walk two miles without
tiring me, and am doing all my work.

If you are all run down from womanly
troubles, don't give up in despair. Get
Cardui, the woman's tonic. It has helped
more than a million women, in ten
years of continuous success, and it
surely help you, too. Your druggist
sells Cardui for years. He knows
it will do. Ask him. He will recom-
mend it. Begin taking Cardui today.

High Class Memorials in
Marble and Granite
I am now representing the
National Marble Mills, At-
lanta, Georgia, and will be
glad to call on you at your
convenience, should you be
interested in any size or style memorial.
Reasons Why You Should See Me Before Buying
1 The Company that I represent believe in their work and furnish a written
guarantee to each customer.
2 The prices I quote are the lowest consistent with finest quality work and ab-
solutely highest grade of stone.
3 Georgia Marble and Winstonsboro Blue Granite are the two finest monumental
stones in existence. Their beauty combined with their lasting qualities make them
second to none.
4 We never have—and never will—send out a monument with a sandstone or
limestone base or bottom base. The bases are of the same stone as the die.

WHAT OPERATORS of "MIDGET MILLS" SAY.

The following is a letter sent out by the Haskell Free Press to several "Midget Mill" operators and a few of the answers to same:

Haskell, Texas, June 16, 1916.

Dear Sir:

Capt. T. M. Freeman, agent for the Anglo-American Mill, who is here promoting the location of a Midget Marvel Mill, has stated that these mills in Texas are netting from 50 to 100 per cent annually on the amount invested. Our community is very much interested in this mill proposition, but want the best evidence to be had regarding the matter, hence are seeking information from the men who have tried it out. We would thank you very much if you advise us whether or not your experience bears out Freeman's claim and to what per cent.

And also, we would be glad to have your candid opinion as to what a Midget, located in a growing town of 3000 people, and the county seat, surrounded by a wheat growing country, ought to net yearly.

Thanking you in advance for the courtesy of your reply at your earliest possible convenience.

Yours truly,
Haskell Free Press.

Dear Sir:

As per your statement of conditions there we are sure that all there should easily pay 50 per cent, and under anything like favorable conditions would pay as high as 100 per cent.

Respectfully,
VAN ALSTYNE ROLLER MILLS,
Per J. H. McKinney.

S---If you will follow their instructions these mills will do all they claim in their advertisements.

Haskell Free Press,
Haskell, Texas.
Valley Mills Texas, June 17, 1916.

Dear Sir:

Answering your letter of the 16th, I am very enthusiastic about the "Midget" mill, am making the best flour sold in Texas, regardless of where made, and am making my surplus in Waco at 20c per bbl. premium over other Texas made flours—high patents. I know from experience that a "Midget" mill, well located, properly installed, and managed in a business like way, is sure to make its owner money. Of course the per cent of profit depends upon the amount invested. My mill, (50 bbl.) cost \$12,000.00 but I have a two story and basement stone building, equipped with the latest and best cleaning, tempering and bleaching machinery, a 100 bushel steel storage tank, an acre of ground, with a fine shaded and watered plot. Haskell is a fine location for a 25 bbl. "Midget"—the exchange business should keep it going profitably.

Yours very truly,
T. M. Sleeper Mill & Grain Co.

It seems from your location and number of your population that you could find a better location for a Midget mill. The per cent on your investment would depend to some extent on the management of the mill; however, the Anglo-American Company is very helpful along this line. A 25 barrel mill located in your town, properly handled, would easily net \$4,000 a year.

I am sure that Capt Freeman has told only straight facts about the "Midget" for we have found our mill to measure up to everything the makers claim for it.

Oglesby Roller Mills,
W. G. Draper, miller.

100 Acres to be Offered For Sale

The Press has received the self-explanatory letter from Robinson, commissioner of land office at Austin containing information of those lands and for the benefit of those who may desire to acquire them thereon upon very favorable terms, will you kindly say to your readers that I have sent to the printer a list of the lands that will be offered for sale September first. This list includes about 4,300,000 acres. They will be ready for distribution about July first. The lists are free and will give further information. Those wanting them may write me now and the list will be forwarded just as soon as they are received from the printer."

Meeting of Democratic Executive Committee

On the third Monday in June, as required by law, the County Democratic Executive Committee met in the District Court room with Chairman Scott W. Key presiding. The principal object of the meeting was to make arrangements for regular primary to be held on July 22nd.

Upon a careful consideration of the matter, it was determined by the committee that it would be necessary to have \$450. to defray expenses of the primary and the candidates were assessed varying amounts in order to raise that amount.

After hearing an expression from a few of the candidates, the committee voted unanimously for a second primary in all races in which no candidate should receive a majority of the votes in the first primary.

The chairman appointed a primary committee of five to assist him in carrying out the details of the primary, the following being named: R. H. Davis, Tom Russell, Walter Meaders, Park Caudie and Martin Arend.

Met Monday at 5 o'clock in one of the most interesting missionary lessons. Notwithstanding, the warm weather twenty ladies were present. Mesdames Paxton, Wilson, Lindsey and Miss Davis had soul stirring papers on the different foreign mission points. It made each of us wish we could do more to advance the cause of Christ, and to realize more fully that the love of God is the only way to elevate the people. In a paper read by Mrs. Wilson she says, while war has had a solving effect on the world, in missions and the churches are fairly swamped with converts. And there's a wholesale turning to christianity that is bewildering the missionary forces ahead. Three thousand converts a week are reported from Korea. Don't you long to have a part in this great work?

Next Monday will be a bible lesson on Sanctification with Mrs. Reynolds as leader.

Our customers, its up to us to please you. Give us a trial. If we fail to satisfy, the fault is ours. We are far from the "Perfect Standard," but we assure you that it is our aim to treat you right and give you the best service we can. Our prices are as low as the lowest. Our work is as good as the best.

Owing to the increased prices on all laundry supplies from 40 to 1000 per cent and having to meet our running expenses, which amounts to \$175. weekly, and this to be paid every week. We would appreciate our customers, as much as possible, paying on delivery. We have from 300 to 500 laundry bills to collect weekly and 80 per cent of the whole runs from 10c to 50c, SMALL and EASY PAID. Mr. Ivan Davis will run our wagon and collect until Mr. Jno. L. Tubbs is able to assume outside management.

You will confer upon us a great kindness to take up your bills when presented and if anything in the way of work or services are unsatisfactory please report at the Laundry and we will make good. Ring 182, if our wagon can't get to you quick enough we will install our jitney.

"The Flour With the Nutty Flavor"

It is made on the **Midget Marvel Self-Contained Flour Mill**—the last word in milling machinery. All of the milling operations take place in this one machine. It is a sanitary mill, none of its products are touched by human hands or come in contact with the outside air.
In this mill, after grinding, the flour travels less than 20 feet till it is sacked, instead of 400 or 500 feet in the ordinary mill, with the result that there is no "attrition" or dust flour; it is kept free from impurities, the natural creamy bloom is preserved, and the volatile oils which contain the **flavor** and **aroma** of the wheat berry are not evaporated.
The flour has that sweet, rich, **nutty flavor** of the old-fashioned buhr-stone flour; has more life and strength than the patent flour, hence requires only about half as much soda or baking powder, and less lard, than ordinary flour.

Negro "Red" Caught

Jim Hubbard, colored, probably better as "Red" came in jail here about two months ago after a two months vacation in touring North Central Texas. Jim, apparently was enjoying life when he was at Waco last Wednesday by Sheriff Allen, as he was fairly well dressed, mustache shaved, and he seemed to be at home in the back of a saloon where he was caught.

"Red" and three other negroes were in jail here about two months ago, and picked the lock on their cell and made their escape. One of them was caught here, another at Rochester, and "Red's" capture was only one still at large, and Sheriff believes he knows his whereabouts.

The arrest was made while Allen was returning from San Antonio and thinking he might locate the one he wanted, he took a little while he was in Waco to get Jim in the rear end of a wagon.

From the Field

We started out early Monday morning on our regular tour of the country going the south Rule road from the city.

We came to the home of J. H. Brawner, a farmer just outside the city limits, who was in his shop making a cow yoke. He is an Ellis county farmer, been here four years.

Will Chastian was getting ready to cut his wheat as we passed his home, and M. L. Denton, a neighbor, was assisting him. They are both from Johnson county, but are satisfied with Haskell. Both have good crop prospects.

We hastened on to the home of Jas. R. Owens who lives just a little off the main road, on a 30 acre tract of land which he bought for a home. He had a splendid cotton prospect, full blood poland china hogs, plymouth rock chickens a flock of those beautiful red pigeons, a fine cow and you can see why we spent the noon hour and ate dinner with Mr. Owens, which we enjoyed very much.

We stopped by J. F. Short's home, but he was not there at the time.

We next came to the home of T. J. Christian, a splendid farmer where we took a rest and had a pleasant hour with those good people, who have been living here 8 years, coming from Fort Worth.

W. E. Johnson was chopping cotton in the field but we made a call just the same. He had some real good cotton.

We rode a few hundred yards with J. E. Lindsey in a new Ford. Mr. Lindsey is the Ford agent at Rule.

J. W. Addington was getting his binder in shape for harvest as we passed. He was going to cut wheat for T. J. Christian next morning.

J. B. Cox was out hustling votes. You know he is a candidate and was excusable for not being at home as we came along.

C. B. Beasley was doing jury service in Haskell and we failed to see him.

E. C. Derrick was not at the house as we came through, we met Mrs. Derrick and noticed his crop was good.

We spent a pleasant night with M. Sanderson and family. He is a splendid cotton farmer and Mrs. Sanderson is a good chicken raiser. We had fried chicken for breakfast, which we enjoyed very much.

I. B. Crow was repairing a shed to his barn the recent storm had torn away. He is a jolly fellow and we had a pleasant chat.

We took passage in a buggy with L. D. Sanderson to Sayles community, meeting W. H. Wiseman at his home. He has some fine stock and a good farm.

We called at the home of J. F. Jeter of Center Point. He was away from home. D. M. Gross and family were there from Tulsa on a visit.

A. J. Rhodes was cutting wheat and we called at the house near the noon hour and he and D. M. Gross were at the house. Mr. Rhodes has one of the best tanks in the county and it was full of water.

We stopped at the home of T. H. Briden he was in Haskell attending District Court.

H. L. Jeter was on his way to the field as we passed his nice home.

Mrs. L. P. Kennamer was called on. She is a widow with five children who moved here 6 years ago and has made good farming in Haskell county.

J. T. Fulbright is running the Smith section and was heading wheat with a 12 foot header. He came from Johnson county and this is his second crop, making 3000 bushels of wheat last year, and has prospects for the same this year or more.

R. A. Caithen was chopping cotton as we passed. He is a good farmer and a pleasant gentleman.

Mrs. Caithen was in the field seeing that he did his work well.

We next called on J. A. Peyton who was replanting part of his cotton, which the high winds and hail had damaged seriously.

W. B. and E. V. Riley were cutting their wheat as we passed along they had a splendid wheat crop and were saving it nicely.

S. D. Phillips was in the field, and we did not get to see him so we hastened on where T. E. Jones and his brother A. L. were plowing. They were doing good work.

J. L. Beiber was plowing in his fathers cotton crop, which was very good.

We spent the night with H. E. Bland, a veteran farmer, a man who makes his living at home, has 250 white leghorn hens, 500 little chicks, Indian Runner ducks, Poland China hogs, fine cows. He goes to market twice a week.

We stopped at the home of W. E. Bland and let a sand storm go by, he was away cutting grain at his brother's, H. D., whose home we passed on our way to McConnell.

We had a pleasant talk with D. R. Adams who was farming near McConnell.

C. E. Perry was plowing cotton as we passed and we met him at the end of the rows.

T. C. Jefferson was chopping cotton as we passed his place. He has a nice crop.

We next stopped at the home of section foreman, R. E. Canafax, who was out on the W. V. Ry. track with his men.

W. W. Perry who was raised in Haskell county was called on. He was plowing in the field. We met the family and they have a good prospect for a crop and plenty of young chickens coming on.

J. A. Hartsfield the merchant of McConnell was in Stamford. We called on his family and he has a splendid crop.

John Lovell was plowing near the roadside, we found him doing good work. This is his first crop in Haskell county.

We took dinner with R. P. Petree and had a good rest. He and his wife are living alone their children all grown and married.

Kim Hisey and family were away from home but we left a Free Press in the door.

We called at the H. C. Adams home and Mr. Livengood was cutting a field of wheat for him. Mr. Adams was hauling coal for John Harwell's threshing machine.

We had a short buggy ride with J. F. Simmons who was returning from Stamford.

R. C. Kitron was running a two row cultivator which was bound to keep him busy "looking out."

We got a cool drink of water at Ed Petree's, he was plowing in the field.

We called on Mrs. D. R. Livengood, another widow lady, who knows how to make a living on the farm.

W. H. Tysinger was called on, who was at the house and we took a short rest. Mr. Tysinger has a good farm with a good crop. He got the prizes for the first bales of cotton at both Haskell and Stamford last year and the man that beats him this year will get first money.

E. L. Stodghill, a young farmer of the Post community, was met, who was busy plowing. He has 235 acres in cultivation.

L. Emerson and family were chopping cotton near the road. He has some very nice cotton and is well up with his work.

We spent the night with our friend W. H. Terrell near Post. Henry Lee and family, a near neighbor, came over to join us in a hasty retreat to the storm house as the cloud which was coming up looked pretty bad. Henry said he hated to come as his wife had just set the supper table and he didn't want to leave the fried chicken.

OUR WEEKLY LIMERICK

A man by the man of O'Faggin
Decided to buy a new wagon

SO HE CAME TO OUR STORE WHERE WE HAVE THEM GALORE,

And of it's good qualities we hear he's still bragging

If your team could tell you the wagon to buy
They would tell you the BAIN,
And we'll tell you why.
From tongue to gate, from axle to seat
For man, load or team, it can't be beat

Come in and let us give you some pointers on a Wagon worth Bragging about.

Practical Sewing machine Repairer. 44 years experience enables me to guarantee Satisfaction. Permanently located at McNeill & Smith's Hardware Store.

Haskell, Texas

He grabbed a piece and ate it on the run.

We started out early next morning for Haskell and stopped at the Howard home the men folks were away, so we continued on to the home of B. H. Terrell who was coming out in the road going to work with the threshing machine.

J. A. Lee was at the house as we came by we had a chat with him and found him a very pleasant gentleman.

J. W. Adcock who had threshed 100 acres of grain making 15 bu. per acre was at the house preparing to go and help his neighbors thresh.

W. D. Whitaker and his brother J. B. were out looking at crops, we met them at the gate and went to the house and spent a few moments.

We next came to D. G. Tidwell home and he was repairing an old fence and he was in good spirits. You know it takes a good man to keep his temper repairing fences or putting up old stove pipe.

J. D. Adress had gone to a neighbor's house and we failed to see him on this trip.

A. F. Oldham from Childress county is making a sod crop planted to cotton and Mrs. Oldham told us the prospects were fine.

W. E. Tidwell another jolly fellow was at the house as we passed and we spent a pleasant hour with him and his family.

We called on R. J. Moore, who had just gotten to the house. He is a successful young farmer of Weaver community.

C. M. Brasher was in the field planting black eyed peas in the skips in his corn, we made a short stop with him.

We reached the home of H. T. Wright and found a pleasant family. Mrs. Wright has been sick some time, but glad to note she is much improved. The little baby girl Pauline sang a little song and played the organ for us which we enjoyed so much. Mr. Wright loaded a big can of cream in the surry and we came with him to the Haskell Ice Cream factory, where he sold it for cash. There is room for more of this dairy products Haskell will take care of your business which will grow you a profit and success will crown your efforts.

We could say many more good things and then not tell half. Our letter has been long and not wishing to keep you longer, we thank you.

A Timely Warning

EVEN well-known automobiles have advanced in price within the last ninety days.

The Maxwell Company has not increased their prices. We do not know what their plans are, but we do know *and you know* that materials entering into the construction of *good* automobiles now cost from 20 to 300 per cent more than they did six months ago.

Nothing is to be gained by delay. Much may be lost.

Not only may you lose several dollars in the purchase price, but you are sacrificing the enjoyment, the relaxation, the health-giving properties—everything, in fact, that makes motoring the favorite pastime of the nation.

We urge you to come in and investigate the Maxwell.

Or, we will refer you to any number of Maxwell owners and let them tell you their own story in their own way.

They will tell you what they have told us. That the Maxwell is good-looking—that it is powerful—that it is comfortable—that it is economical—in short, that it is the best investment they ever made. They will tell you more and they will tell you gladly and freely.

That's the way they feel toward us and the Maxwell Car.

Whatever you do, don't put this off. We have a few cars on hand and can take orders for immediate or future delivery—at present prices. If you can't come in today, phone us for a Maxwell demonstration.
