1st Congressional Dist. of Texas "Heart of the Gulf Southwest" Constitutional amendment to increase water funds. In the General Election ballot on November 6, Texas voters will have an opportunity to support a proposed amendment to the Constitution of the state of Texas. This amendment would allow the Texas Water Development Board to use part of its \$100-million water loan fund to build dams to the height needed to fully utilize their potential—even though current needs do not require this. Vote for this Constitutional amendment, No. 4 on the Ballot, and help our District. It is in our interest, I assure you.

Church credit unions. There are 1,755 credit unions sponsored by churches in the world today. Members of many churches have banded together to form credit unions. Credit Union National Association statistics reveal that the number of credit unions sponsored by the various denominations of churches is as follows: Catholic, 1,388; Baptist, 123; Methodist, 64; A.M.E., 36; Presbyterian, 20; Episcopal, 15; Lutheran, 12; Anglican, 11; other Protestant congregations, 106; Jewish, 23; Buddhist, 3; others, 4.

Youth Conservation Corps. The bill establishing a youth conservation corps may be considered by the House in the near future. This proposal would establish a youth corps limited to 12,000 members during any one of its first three years. At the end of this period, its annual cost would be approximately \$33-million. Supporters of the bill claim that it would help eliminate juvenile delinquency and would provide an inexpensive means of accomplishing much needed work in the conservation field.

Discrimination against older workers seeking jobs. There is growing support in Congress for enactment of a law to eliminate discrimination in employment because of age from 45 to 65 and above—covering the thousands of employers across the country who provide goods and services for the U. S. Government. The White House Conference on Aging and other studies have revealed that this form of discrimination continues and is on the increase in many industries.

A thousand a week. That is the rate at which patents are granted by the United States Patent Office. Each day 350 new applications arrive. Over ten million sets of detailed descriptions of patented inventions are on file in this office. Last year, 85,000 new patents were granted. This is the largest repository of technological know-how in the world.

Farm population down 50% by 1970. Latest government estimates predict that by 1970, half the present farm population will have quit farming. In 1960, national farm population was 15.6 million. By 1970, this is expected to be only about 8 million. Even now, approximately 35% of the income of farm families comes from sources other than farming. This population movement will pose vast problems—not only for the farmers themselves—but also for the smaller cities which are the trading centers for agricultural areas. It means that we must commence now to find the best possible way to take up the slack being created by the new farming methods, which require fewer and fewer people to provide food and fiber for our peo-

Saturday was the hottest day of the year in this area when the mercury soared to 104 degrees. This was the highest temperature recorded since Aug. 18, 1956, when it went to 107 degrees. The mercury soared upward to 102 last Wednesday, and on Thursday thermometers registered 101. Sunday's high was 99 degrees and Monday the mercury dropped to 94 degrees for the high. As the cooling trend moved across this section the low was a pleasant 69 degrees.

The house was beautifully decorated throughout with yellow and white. The table was covered with a white hand-made openwork cloth. Texas leads in number of Small Business Loans. Texas small business firms led that Nation in the number of loan approved by the Small Business Administration during Fiscal Year 1962. The total amount of these loans was \$19,799,000. This loan program is designed to supplement the lending activities of commercial banks—not to compete with them. This accounts for participation by local banks with SBA in \$14,862,000 of these loans. The balance of \$4,937,000 represents direct loans approved by SBA in the absence of bank participation.

The number and dollar amount of loans to small business firms throughout the Nation for this period is the highest for any similar period during the history of this Agency.

49th Armored Division released from active duty. Members of the 49th Armored Division of the National Guard have returned from active duty at Fort Polk, La., to their homes. All of us should be grateful to these men. They have made a real contribution to our national security in times of great stress. The willingness of these men to serve—at considerable personal sacrifice—is another bright chapter in the history of the 49th Division, an organization of which all Texans may well be proud.

You never have a second chance to make the first impression.

Austin.—Members of the 49th Armored Division of the Texas National Guard received a personal "Welcome home" from Gov. Price Daniel. He greeted them in front of the State Capitol. Afterwards the Guardsmen paraded down Congress Avenue, then dismissed for their homes and civilian jobs.

Governor Daniel told a crowd of about 500 spectators:

"When the President moved to augment the active army in the face of the Berlin crisis last year, the Texas National Guard was ready for this obligation, just as it always has faced up to its responsibilities since the first conflicts by Texas civilian-coldiers at Anahuac and Gonzales in 1835."

Among the returning soldiers was a father and son team, C. H. and Ronald H. Cheshire, both highway patrolmen with the Texas Department of Public Safety. C. H. Cheshire, a chief warrant officer with the 49th, organized 42 other department employees—including his son, Ronald—into the "Texas DPS 49ers" during their stay at Fort Polk, La.

All have reported back to their civilian boss, Col. Homer Garrison Jr., DPS director. But the department still is 100 men short.

MORE MONEY FOR WELL STUDY—Governor Daniel has okayed the release of \$105,000 from Texas Railroad Commission funds to finance additional equipment, personnel and other expenses connected with the investigation of slant-well drilling and oil producing operations and pollution of public waters.

He also authorized Atty. Gen. Will Wilson to adjust his present appropriations to cover slant-well and anti-trust investigation expenses.

Meanwhile, the Railroad Commission called a temporary halt to oil well testing in East Texas and Hawkins fields, in order to rearrange personnel.

TWO TERM LIMIT?—Another effort may be made to limit the term of office of the governor. Similar resolution was unsuccessfully sponsored in the 57th Legislature. New proposal would set the governor's term at four years. It provides that he could not succeed himself in office.

Many legislators feel that such a system actually stretches a poli-

House Interim Committee on Dismore held its first meeting. Committee, headed by Rep. Renal B. Rosson of Snyder, was created by the 57th Legislature to study divorce laws, with special attention to: Rights of children; methods of promoting and protecting family life; and possible ways to encourage reconciliations.

Texas now has the fifth highest divorce rate in the nation. More than 28,000 divorces were granted here in 1961.

Members of the study group include Reps. David Crews of Conroe, Paul B. Haring of Goliad, and other life rather than limiting it.

MENTAL HOSPITALS CROWDED

State mental hospitals are crowded with elderly persons physically but not mentally ill. Dr. C. J. Ruilman so reported to the House Committee on Saving Taxes.

Dr. Ruilman, director of mental health for the State Hospital Board, said about 25 per cent of the 16,000 patients in state hospitals are more than 65 years old. "Our problem (in cutting state hospital costs) rests with patients who are physically sick," he said. "Of 3,500 elderly patients in state hospitals, only 1,400 have serious psychiatric disorders."

SCREWORM BATTLE RAGES—Weekly production of sterile screwworm flies has hit the 50,000,000 mark and is expected to reach 75,000,000 by September 1, according to Dr. G. D. Stallworth of the Texas Animal Health Commission.

He said the battle against screwworms, initiated a year ago, is going so well that the Kerrville sterile fly plant is being closed down and all production centered at Mission.

Outcome of the fight for screwworm eradication this year may depend on winter's weather whims.

"We're at the mercy of winter weather," Dr. Stallworth said. "If a very mild winter occurs, the overwintering line that serves as a boundary for release of sterile flies, will have to be pushed farther north, and more resources and more flies will be needed."

NO DEATH FOR TAXES

Robert S. Calvert, State Comptroller, warns that merchants

must pay the state sales tax on gross receipts despite a recent court ruling by District Judge Herman Jones.

Calvert expects a lot of merchants to quit paying the tax on sales of under 25 cents after reading about the ruling.

Judge Jones ruled that the state has no right to make the merchants pay while at the same time prohibiting them from collecting.

"There won't be any change until the suit finally is settled by the higher courts," Calvert said. **ADVOCATES EFFICIENCY STUDIES**—Rep. George Preston of Paris, member of the committee on Saving Taxes, thinks the state can save "a big hunk of money" by efficiency studies.

"I have a feeling that some agencies in government may have 10 people on the staff with work for only two of them," Preston stated.

SAFE DRIVING DISCOUNTS

Safe drivers have received a belated boost from the Texas Association of Insurance Agents.

More than 400 of its members, meeting in Austin, unanimously recommended that the state board establish a new system of credits for good-record drivers.

Urged was a 5 per cent discount to policyholders with an accident-free year; 10 per cent for two years; and 15 per cent for three accident-free years.

Texas' controversial "merit rating" plan was revoked on Aug. 1. **CHEAPER SCHOOL BUSES**—Texas school boards shopping for new school buses this year will find prices sharply below last year.

Competitive bids received by the Texas State Board of Control show a substantial reduction in the prices since March of this year, and an even greater reduction over last year.

TEXAS OUT OF THE RED—Treasurer Jesse James reports that Texas' general revenue fund is out of the red after having been in deficit almost continuously for the past four years. Revenues deposited to the credit of the general fund wiped out the deficit and raised it to a cash balance of \$4,601,020.

No strikes are ever called on

Oil's not well in East Texas.
 Too many have gone crooked.

 off with all the success they can
 use.

Many a man has escaped the
 penitentiary by not handling gov-
 ernment money.

 body is looking.

You can always tell which side
 of your bread is buttered. It's the
 side next to the floor.

Those were "the good old days"
 when people worked for a dollar

It didn't take long for a man to

 old days when a man stole a

Since it is definitely known

 As candidates they promise
 everything and if elected try to
 deliver the goods regardless of
 cost to the taxpayers.

**Sam H. Bell Will
 Be 95 On Aug. 18**

Sam H. Bell, retired Deport
 merchant, will observe his 95th
 birthday on Saturday, Aug. 18.
 As has been the custom for the
 past few years, a birthday din-
 ner will be held in observance
 of the occasion. The affair will
 be attended by members of the
 family.

Mr. Bell was born Aug. 18, 1867
 at Linden, Cass County, and
 came to Deport in 1883. Four
 years later he started working
 in the Tom Horn grocery and later
 accepted employment with J.
 A. Fagan & Co., in which business
 he eventually bought an interest.
 He later sold his interest and re-
 turned to his farm for five years.

Mr. Merchant

YOU NEED THE NEWSPAPER!

The newspaper of today is the most powerful medium of
 advertising on earth. In the old days the merchant may have
 thought he was a benefactor and that he was contributing his
 bit "as a public-spirited citizen" when he carried a two-inch
 space in the village paper every week in the year and gen-
 erally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People
 read advertisements. Many find their greatest interest in
 looking over the advertising pages to get news that will save
 them money, and, take it from John D. Rockefeller, the way
 to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as
 fresh as the news of the world or the latest baseball score.
 Live merchants cater to live people and they know they must
 not alone be up to the minute, but they must be some distance
 ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right
 now! Just read what the merchants are offering. Notice the
 invitations for you to do business with them. Notice how
 attractively the advertisements are set up and how inviting
 they are.

Business men—that is the successful ones—know advertising
 pays big returns. Look over this newspaper right now and
 pick out the successful firms. They're the advertisers. Ad-
 vertising is the tonic that puts dividends in the banks.

*Everybody reads advertisements today! Mr.
 Merchant, is your advertisement in this
 newspaper?*

ABUNDANT LIFE

by ORAL ROBERTS

FAITH SEES NO OBSTACLES

A minister was on his way to the West Coast by train. He was a devout Christian and lived by the Scripture, "Delight thyself also in the Lord; and he shall give thee the desires of thine heart" (Psalm 37:4).

Although the minister was a busy man, he was never too preoccupied with life's responsibilities to notice the beauties and wonders of God's creation. As the train sped westward, he was enjoying the ever-changing scenery. The weather was extremely cold. As night slowly covered the sky, the moon came out in full glory.

The train pulled into the station at Salt Lake City, Utah. In his heart the minister thought, "Won't it be a beautiful sight to see the Great Salt Lake with this full moon shining upon it! This little desire grew into anticipation as the wheels of the train began to turn again.

But slowly, frost and fog formed on every window in the train. A heavy cloud covered the full moon. It seemed impossible that anyone would be able to see the glistening beauty of the lake. The minister opened his Bible and began reading and praying silently.

Suddenly, the train stopped. The cold night air fogged thicker on every train window—

cept one. One window was right in front of a pipe from which hot air was escaping—the window beside the minister. The ice melted on his glass. Slowly the train began to roll across the bridge that ran over the great lake of salt. The clouds lifted, revealing a full, yellow moon beaming its silver light down on the beautiful lake! For the entire distance of the bridge, the minister drank in the panoramic splendor he had desired to see.

As suddenly as his window had cleared and the moon had emerged from behind the cloud, his window frosted over again and the clouds drifted over the moon. But the Lord had given the minister his heart's desire. God delights to reveal His goodness and love, in ways big and small, to those who love and trust Him.

John 11:40 tells us, "Said I not unto thee, that, if thou wouldest believe, thou shouldst see the glory of God?" As you apply Christ's teaching of believing to your daily life, you become aware of God's glory and power in everything around you. Your faith sees no obstacles which cannot be overcome by God's omnipotence. You know that nothing is too great or too small for Him to accomplish.

TO PLEASE EVERYBODY

(WELL... ALMOST EVERYBODY) CHEVROLET

Even the most persnickety luxury-lover couldn't ask for very much more than a Jet-smooth Chevrolet (like that Impala Sport Coupe at the top). Yet it's all yours for a Chevrolet price. (And you know how low that is.)

JET-SMOOTH CHEVROLET

Here's the best thing that's happened to make money go further since budgets—the lively low-cost Chevy II. It's got all kinds of room. And comes in 11 models, too—like the Nova 2-Door Sedan (second from top).

CHEVY II NOVA

Want a roomy family car and a sporty driver's car for one low price? The rear-engine Corvair Monza (e.g., that Club Coupe, third from top) plays both roles to the hilt. Care to join the club—and get a buy, to boot?

Alcorn Tries to Relieve Worry Over What He'd Do With Tax Cut

Editor's note: Achin Alcorn Philosopher on his Johnson grass farm on Sulphur tries to reassure a Washington expert this week, his letter reveals.

Dear Editor: The difference between an expert and an ordinary man sometimes can be found in the kind of problems that bother them.

For example, I was reading in a newspaper last night during a television re-run which I wasn't interested in the first time that an economics expert in Washington was debating whether a tax cut should be made this year.

Now the phase of the question that was bothering him was not whether the government could afford it but what would the people do with a tax cut. I mean, he said that if the people took the tax cut and spend it, that'd be fine, it would stimulate the national economy, which he claimed was the purpose of the proposed cut. But, he contended, if the people took the cut and put it in the bank, this wouldn't stimulate the economy and would defeat the whole purpose, and this was causing him some grave concern.

This is what I'm talking about. It's hard for me to understand how a man can become so expert in his field that he can't know automatically what I'd do, along with 99 per cent of the rest of the people, if the government gave us a \$100 tax cut. It's a situation a-

ed. Rev. Garnett Walker of Mt. Pleasant, visited here Monday.

about which it's hard to keep a straight face.

But to ease his worries, I'd like to assure him that if the government will give me a tax cut, I will recognize my duty to my country and do my best to stimulate the national economy. I will not unethically, not to say unpatriotically, hide it in a mattress, bury it in a bank vault, or even hoard it in a savings bond. No sir. The minute I get it, I'll head for your town and stimulate the economy.

If that economics expert is seriously worried about me and most others taking our tax cuts and holding on to them and drying up the springs of business, I'd say he is approaching the point where he has run out of something to worry about, except maybe his own knowledge of people. I have a notion that if he'll look around, even just among his fellow economics experts, he'll find they're about as over-drawn as the rest of us.

Yours faithfully, A. A.

HIS FIRST TRIP

A young man, leaving the family farm in East Texas for the first time, shyly approached the ticket window at the small-town depot.

"Goin' to Houston," he said. "Need a ticket!"

"Sure thing," the ticket agent said. "Do you have any baggage?"

"Baggage?" the young man said puzzled. "What's baggage?"

"To put your clothes in," said the ticket agent.

The country boy was flabbergasted. "What!" he said, indignantly, "and me go necked "
