Bogata Rodeo Stakes \$6,000

More than 7,000 spectators watched some of the nation's top cowboys and cowgirls compete in five events at the Bogata Rodeo June 26, 27 and 28 to win more than \$6,000 in prize money, trophies and gifts.

Many of the competitors in the Bogata Rodeo had competed in the IRA finals, and many were well on their way to the finals this year.

Highlighting the Saturday night performance was the crowning of the 1975-76 Bogata Rodeo Queen, Cora Greger, daughter of Mr. and Mrs. Joe Greger of Bogata.

The rodeo was threatened each night with thunderstorms, but rain never fell during the rodeo itself. More than 100 horses participated in the Grand Entry nightly and in the Thursday afternoon Rodeo Parade.

The biggest event in the Rodeo this year was the steer wrestling, with a total of \$1615 in prize money up for grabs. First place money of \$516 went to Keith Luna with a

time of 3.7. Doug Sears was second with 3.8 to win \$387.60. Jerry Davis and Garry Whitten split third and fourth place with twin times of 4.0 and \$242.25 each. Tommy Daily and Crockett Kirkes were fifth and sixth and took \$113.05 for their times of 4.1.

Winning first place money of \$342 in the bull riding event was Gary Hiner with 68 points. Ronald Sinclair of Mount Vernon rode C.C. Rider to the buzzer and won \$256.50. Lee Beaslie won \$192.38 for third place and Mike Waters won \$112.42 for fourth place, along with Pete Flint, who matched Waters in points and prize money. In sixth place was Ronald Dackray, who won \$53.43 for 42 points. A total of \$1069 was awarded in the bull riding event.

Winning the biggest portion of \$996.60 prize money in the calf roping event was Tom Warren, who took home \$319.20 for his time of 8.8 seconds. Sam Andrews won \$239.40 and second place with 10.0 and Doug Beene won \$179.55 for 10.2 time and third place. David Martin and Eldon Beashers split fourth and fifth place with \$104.74 each, and Bill Rose won \$48.97

for sixth place with a time of 10.8.

The team roping was one of the best events in the Rodeo this year, and five men split \$854.50 in prize money. The first place team was Steve Crow and Nick Andrews, who took \$213.75 each for their time of 5.9. Andrews teamed up with Hugh Rideout to tie the team of Jim Rutherford and Rick Rutherford for second and third place. The second and third place team took \$106.75 per member.

Ladies faced stiff competition in the barrel racing, with Debra Kay Robinson the first rider on Thursday night and setting the pace with a time of 17.5. The time was not beaten, and Miss Robinson won \$256. Tied for second and third place were Karen McCalley and Brenda Adams with 17.6 and \$174.56 each. Judy Wave took fourth place with 17.9 for

\$99.75. Tied for fifth and sixth place were Mary Ballard and Marilyn Jones with 18.1 and \$59.18 each.

Joe Beard won first place and \$249.37 in the bareback event, followed by Benny Jordon in second place winning \$149.63. Butch Couch won \$99.75 for third place. In the saddle bronc event, Dan Daily won first place and

\$201.87. Dave Benite won second place and \$121.13. Dave Goodson and Lee Beasley tied for third place and took \$40.37 each.

Stock was furnished by Bogata's own Wing Ranch Rodeo Co., one of the nation's top rodeo producers. Wing will furnish the stock for the Sulphur Springs Rodeo July 3, 4 and 5.

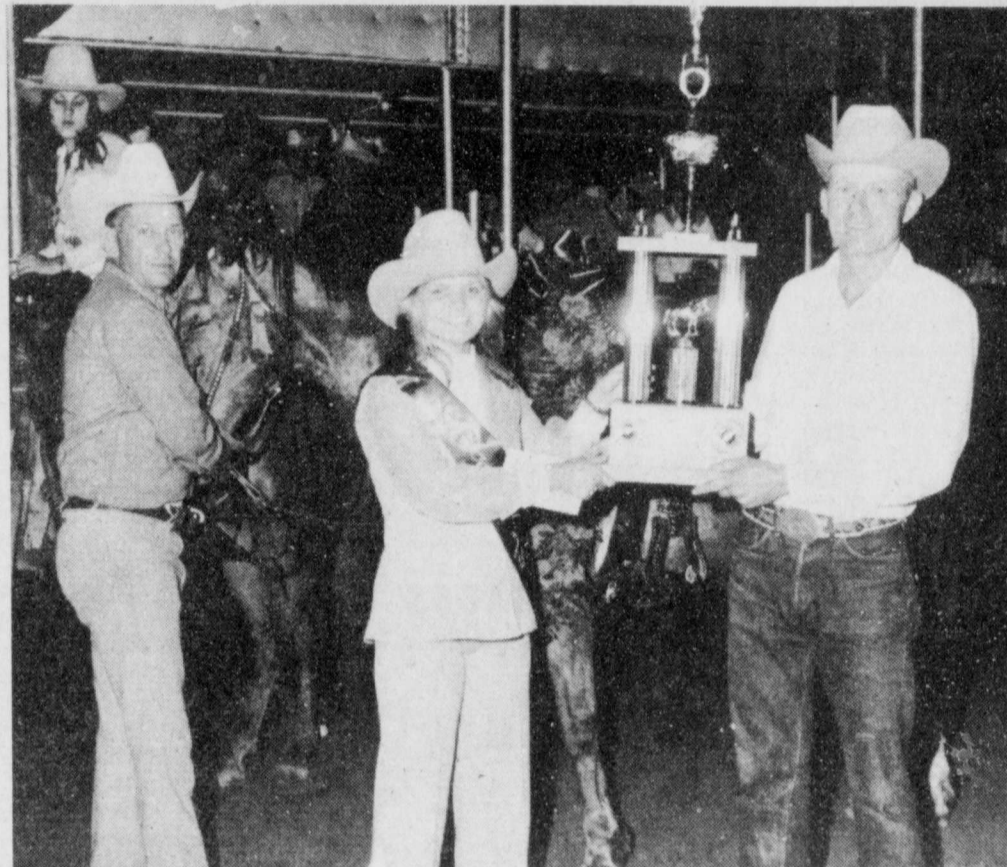

Crop Reports Needed From Farmers

In Early July, about 24,700 Texas farmers will receive an acreage and production questionnaire from Charles Cahill, Agricultural Statistician for the Texas Crop and Livestock Reporting Service, Austin, Texas.

Information from this survey will be used to determine harvested acreage and production of early harvested

crops for the state of Texas and for each county. Farmers who receive questionnaires are urged to complete and return them by mail. All individual reports are confidential and will be used only for state and county totals.

This survey is a cooperative effort of USDA's Statistical Reporting Service and the Texas Department of Agriculture.

Smith, owner of Wing Rodeo, is at left. (Staff Photo).

Craft Class Completes Cages

Any visitor at Red River Haven Nursing Home in Bogata might well see several artistic additions to the rooms of the craft class members. Bird cages made from wooden frames built by Jamey Barham, Deport, stained, decorated with bushy artificial flowers and birds, and strung with colored crochet thread hang from small gold chains from the ceiling and various places of interest in individual rooms.

The craft class is constantly on the look-out for new ideas and is planning for future class sessions to complete such items as patchwork covered flower pots, fabric flowers, quilts, decoupage pictures, etc. Items made by the residents are their own creations and therefore are kept after completion. However, if there are extras, or if a resident wishes to sell his wares, craft items can be purchased.

Volunteers to assist with the craft classes would be greatly appreciated and visitors wishing to watch progress in the making are always welcome.

RC&D Plan Approved

Congressman Wright Patman announced today that the Department of Agriculture has approved the Northeast Texas Resource Conservation and Development (RC&D) Project plan for both financial and technical assistance from agencies of the USDA, including the Soil Conservation Service. The Northeast Texas RC&D organization includes the counties of Bowie, Delta, Fannin, Lamar, and Red River. The sponsors in conjunction with local residents have adopted 120 RC&D measures which include:

Reducing damages from erosion and sedimentation and flooding

Improving the planning and application of conservation land use and treatment

Improving coordination and cooperation of agencies and

Teachers Attend Workshop

Three Talco-Bogata-Rivercrest teachers attended a five-day summer training institute at Region VIII Education Service Center in Mount Pleasant last week. Approximately thirty schools participated. Those attending from here were Elizabeth Bell, counselor; Bonnie Huddleston from Rivercrest; and May Dan Bell from Bogata. Verda Duncan from Talco was also registered. The title of the workshop was Career Education Implementation: A Training Institute, a model developed jointly by Education Service Centers in Region IV, V, VI, and VII and Texas A & M University. Leroy Hendricks, Bob Cockran, Angela Whitt, and Dr. Robert Smith were consultants. Each day's activities were different and on Friday the participants received a career education materials kit and a Certificate of Attendance suitable for framing.

Troutt Killed In Accident

Leslie Howard Troutt, 17, son of Dr. and Mrs. Jack Troutt of Bogata, was killed Saturday, June 28 when the Datsun station wagon he was driving collided with a heavy equipment truck on Highway 271 south of Bogata.

The accident occurred between 5:30 and 6:00 p.m., and Troutt was pronounced dead at the scene by justice of the peace Fate Smith. The Troutt car was going south and was on the west shoulder

of the Highway when the collision occurred. Delvin Parsons of Route 1, Summer, was following the northbound truck, and said the truck had passed him several miles to the south. The truck traveled 540 feet from the point of impact to a stop.

Parsons said the truck ran off the shoulder of the

highway on his right, and then skidded across the highway to collide with the Troutt car. The Townes Concrete truck was driven by John Paul Igo of Clarksville, who was taken to Red River County Hospital along with Stephen Howison, who was a passenger in the Troutt car. Howison was to be released from the hospital Tuesday, July 1. He is from New York and is spending the summer in Bogata.

Survivors include his parents; one sister, Janet Troutt of Paris; one brother, Jack E. Troutt, Jr., of Dallas;

and his grandmothers, Mrs. H.E. Troutt and Mrs. V. Thedford, both of Bogata.

Named as active pallbearers were Paul Wilson, Ed Huddleston, Howard Ed Bryson, Sam Barnard, Donald Mankins, Travis Hale, Dr. E.E. Brooks and Kenneth Jeffery.

Honorary bearers were to be Keith Mankins, Kyle King, Kenny Stanley, Mark Stephenson, John David Fortner and Jace Jeffery.

Public Hearing Tuesday On Annexation

There will be a public hearing at the Bogata City Council meeting Tuesday, July 8, 1975 concerning the annexation of property lying south of Clarksville Street between St. John Street and Lawson Street.

Anyone who is interested in the annexation is asked to attend the meeting to voice approval or disapproval, according to Bogata Mayor Clifford Barnard.

The property is owned by Tommy Varner and Odes Bankston and eight other persons. Varner has been attempting to have his property annexed in order to begin building houses on the land.

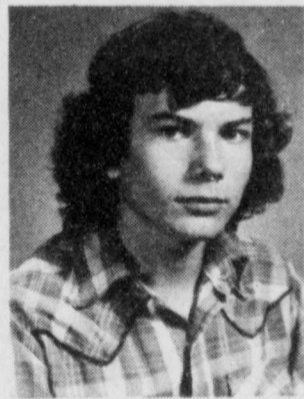

Mayor Barnard explained that the annexation of property to the city because of a double benefit. First, the city gains additional revenue directly through taxation of the property, and second, the amount of revenue sharing funds the city receives from the federal government is based on population, property tax and income tax.

Rivercrest Hires New Principal

Mike Vinyard has been named principal of the Rivercrest High School replacing Larry Tucker who has accepted the superintendency of the Leonard Schools. Mr. Vinyard is 35 years of age, married, and has two boys, ages 5 and 8. His wife is also a teacher but has not taught in the past few years.

Mr. Vinyard has been principal of the Grafrod Schools for the past six years. He received his Master's Degree and administrative certificate from North Texas State University in Denton.

The Vinyard's will be moving into the community about July 15th.

The Townes Concrete truck was driven by John Paul Igo of Clarksville, who was taken to Red River County Hospital along with Stephen Howison, who was a passenger in the Troutt car. Howison was to be released from the hospital Tuesday, July 1. He is from New York and is spending the summer in Bogata.

Funeral services for Troutt were held Monday, June 30 in Bogata under the direction of Bogata Funeral Home. He

Heavy Rain Strikes Talco

A torrential rain measuring from 3½ inches to 4 inches struck downtown Talco Saturday, June 28 causing flooding in many of the stores. The rain began at 4:45 p.m. and lasted about an hour.

Water was ankle deep in Handley Exxon, and B&B Furniture, Community Public Service and the Towne Shoppe were flooded.

Electric service was temporarily off as a result of the storm at six residences and the Humble and Talco west stations were also out for a short time. All repairs were completed and service was restored before 9:00 p.m.

Softball News

In the Softball Tournament held at Johntown recently Como placed first, Monticello, second and the Long Haulers of Dallas placed third.

In a tournament in Mt. Pleasant the past weekend eleven teams were entered and Johntown won first place. Several fans from Johntown attended to back their team up.

Coach Bobby Dobbs was chosen as most valuable shortstop and Donnie Lawrence most valuable pitcher, both of the Johntown team.

County Residents Working On Land Heritage Program

County Judge Gavin Watson, Jr. and Texas Historical Commission chairman Mrs. Helen Hale are working with the Texas Department of Agriculture in registering area farmers and ranchers who qualify for honors in the Family Land Heritage Program for 1975 in Red River County. Judge Lester Crutchfield is registering in Lamar County.

The program gives recognition to those who have kept land in the family for 100 years or more, maintaining continuous agricultural operations, Agriculture Commissioner John C. White explained.

Last year over 560 families qualified for certificates and inclusion in the Family Land Heritage Registry, which contains brief histories of all the farms and ranches, the names of current owners, and pictures of early settlers.

"The Texas Department of Agriculture has received many requests for the Registry—from universities,

historians, and government agencies. It provides an interesting record of agriculture in the early days of Texas, as well as anecdotes about members of the families.

"We also included notations on the 100-year-old structures on the property, no matter what condition. This information can be invaluable to researchers," White stated.

"For this reason, we are trying to register all those who qualify—not only to give these people some recognition, but also to have a permanent record of pioneer agricultural producers in Texas."

Application forms are available from the county judge's office. Once completed the forms must be certified by the county judge or his designate. They are then mailed to the Texas Department of Agriculture with any pictures of early settlers which can be copied and returned. Deadline is August 15, 1975.

Marijuana Charges Dismissed

Charges against 24 defendants charged in County Criminal Court with possession of Marijuana were dismissed by Judge Gavin Watson following a hearing Friday morning on several motions filed by defense attorneys Pat C. Beadle and Jim D. Lovett.

The charges were filed following an incident on the night of July 27, 1974, on a County road seven miles Southeast of Cuthand, Jack O. Herrington represented the County as Special Prosecutor because County Attorney Pat F. Beadle is a member of the legal firm representing several defendants.

Testimony was taken from

Deputy Sheriffs J.D. Mitchell and Bobby Yarborough, and one defendant. Deputies testified on the night in question they had arrived at the scene to find some 12 or 14 parked cars and a group of approximately 30 young people. They further stated that several small packages containing a suspicious substance and several ground-out cigarettes were found in the general location. However, the testimony failed to connect any defendant directly with the substances.

Defense attorneys also raised a question regarding the lack of search warrant. Judge Watson did not rule directly on the search

question but said that in his opinion insufficient evidence existed to warrant further prosecution. The defense attorneys moved to dismiss and Watson granted the motions after the Special Prosecutor concurred with the motion.

Cunningham To Host Singing

The Life Tabernacle Church at Cunningham will hold a Gospel Singing Saturday night, July 5, at 7:30 p.m.

A cordial invitation is extended to everyone to come and join the singing and fellowship.

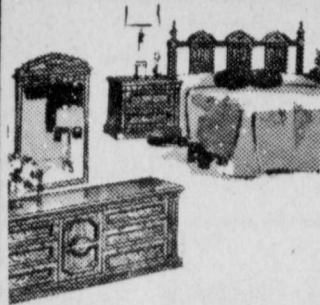

NURSERY CLASS—The Nursery Class of the Bible School picked a nice shady spot for the picnic. Reading from left to right are, Chad Ingram, Clay

Simmons and Brad Ingram. In the background are Albert Staner, Joel Staner, Audy Brooks and Nicki Foxworthy.

CLOSING PICNIC—Every good thing must come to an end and so it was with the Vacation Bible School at the Calvary Baptist Church last week. Their average enrolment was eighty-one and the average attendance was seventy-nine. Pictured are a group of students and teachers enjoying a picnic at the closing of the Bible School Friday.

Quality Carpet, Low Prices At Smith

Quality carpet at the lowest possible price is the offering of Smith Carpets at 1495 Clarksville St. in Paris. With a major portion of the public looking at the carpet as more and more of a necessity to cut down on heating and cooling expenses, it's good to know that Smith's is doing all it can to help keep prices down.

Smith's is currently having it's 11th Anniversary Sale, so the savings are ever greater now.

There are three other stores associated with the Smith Carpets you know in Paris — Casa View Carpets in Dallas, Plymouth Park Carpets in Irving and Smith Carpets in Farmersville, and the volume buying that is done for all these stores is the basis for the low prices you get when you shop Smith in Paris. All the carpet for all the stores is bought at one time, and the more carpet that is bought, the less it costs.

This volume buying also accounts for the fact that you can often find just the carpet you want in stock at Smith, and you don't have to go through the ordeal of ordering and then waiting for your carpet to arrive. Smith's has the largest stock of carpets in Northeast Texas, and you are almost certain to find something there that will fit

your decorating needs.

You will find the most expensive and most economical carpet at Smith, whatever suits your needs, and they guarantee the installation and the carpet.

Some of the famous names that are featured in the carpet

line at Smith Carpets are Evans and Black by Armstrong, World Carpets, Modern and Monticello Carpets. Easy care vinyl floors at Smith include GAF, Armstrong and Congoleum.

SMITH CARPETS—The sales and office management staff of Smith Carpets is on hand daily to give you the best possible buys during their 11th Anniversary sale. They are Donald Wear, Maureen Cunningham, Bill Cates and Corky Basinger. (Staff Photo).

Finest Furniture Available At Reeps

The home of the finest furniture in Northeast Texas is Reeps Furniture at 115 Clarksville in Paris. This is no exaggeration, because included in their furniture on display on the 22,000 feet of floor space is a leather sofa for \$1,314 and a matching chair for \$984. If you can live without genuine leather, Reeps has many more living room suites in better brand names at reasonable prices. You may choose from such names as Thomasville, Tell City, Stanley, Bassett, Sealy, Lazy-Boy, Weiman, Keller and Rembrandt at Reeps, and shopping around will tell you why many families from such a large area buy better furniture from Reeps.

Reeps offers an exclusive interior decorating service to their customers at no additional charge, and has its own custom drapery shop

across the street from the store. All carpet and draperies purchased from Reeps are installed by employees of the furniture store, without going through outside jobbers.

Reeps has been in business for 25 years, and the longevity may be attributed to customer service, such as free delivery up to 100 miles from Paris, lowest prices obtained by buying direct from the factory rather than from middlemen, and in-store service on merchandise sold.

You will find every style of furniture on the market at Reeps, including traditional, contemporary, early American, and modern, plus a number of styles recreated in honor of the bi-centennial, copying patterns and colors which were popular 200 years ago.

The helpful staff at Reeps

invites you to visit them for fine furniture when you shop in Paris. They are F.E. (Doc) Reep, Larry Bell, Helen

Keeling, Pat Rodgers, Ronnie Bolton, Pat Thompson, and Ophelia Williamson.

BI-CENTENNIAL—Larry Bell, manager of Reeps Furniture in Paris, has displayed in one of Reeps windows a living room suite patterned from colonial day. The colors and the pattern of the sofa and

chair fabrics were taken from fabrics used 200 years ago. The sofa and chair are by Howard Porter, and the antique pine tables are by Riverside. (Staff Photo).

Without advertising, you can wave goodbye to the comic strips, the sports page, and the front page of your newspaper.

And maybe your own job.

Think about it. Advertising pays for the features and the news that your newspaper brings to you so economically. Companies that want to tell you about their products, their sales, and their unique services pay for the space to advertise and that pays for most of the newspaper.

If these companies were suddenly deprived of their right to advertise — to communicate with their customers — you can be sure sales would drop. If sales drop, production slows and ultimately

people lose jobs. And if certain Texas companies could possibly be ordered not to advertise, who would be next? Maybe your company?

The next time you think about advertising, think about free speech and the right of one person to communicate with another. It's all the same thing.

Write Governor Dolph Briscoe, State Capitol, Austin, Texas 78711 and your legislators to tell them how you feel. Then sit back and enjoy your newspaper.

Advertising is everybody's business.

Area Ag Instructors Take Welding At PJC

Area agriculture instructors completed a seminar on TIG and MIG Welding at Paris Junior College last week, according to Curtis Adams, welding instructor at PJC. The seminar, which was offered at PJC for the first time this summer, was held Monday, Tuesday and Wednesday (June 23-25) afternoons to acquaint the students with the Gas Tungsten Arc Welding (TIG) and Gas Metal Arc Welding (MIG).

Adams taught the instructors the welding principles in a classroom and the practical application in the welding laboratory of the Applied Sciences Center. Several of the instructors have the machines for MIG and TIG welding, but needed to learn more about the types of welding for classroom use.

Enrolled in the seminar were Charles Yarbrough and Dale Thomas, vocational agriculture instructors at Honey Grove High School; Max Ballard and Bill Jones, Prairiland High School vocational agriculture instructors; Craig Ingram and Pete Taylor, agriculture instructors at Rivercrest High School; Dr. C.J. Jones, associate professor of agriculture at East Texas State University; and John Harbi-

son, farm and ranch management instructor at Paris Junior College.

The summer seminar for agriculture instructors and other interested in supplementing their welding knowledge will be continued in

other summers, Adams explained. The area instructors requested that the summer course be established at PJC. Welding is one of 18 applied science programs under the direction of Dr. Ross Alsop at PJC.

\$980 Per Acre Profited From Pecan Orchard

If you want to produce pecans in East Texas, you must follow a rigid management program, including disease and insect control, fertilization and weed control. That's what 88 people heard at the East Texas Pecan Field Day at the Thurman Gibson orchard near Palestine.

The field day activities highlighted the management program followed by Mr. and Mrs. Gibson in rejuvenating their 67 year old pecan orchard. The orchard, located on deep sandy soil, received a heavy application of nitrogen fertilizer, six spray applications for disease and insect control, and frequent discing to control weeds and grass. It is estimated that \$300.00 per year is being spent for operating costs. In 1973, the first year of the demonstration, a profit of \$6.43 per acre was realized. In 1974, \$980.96 net return per acre was received. Most of the pecans are marketed at the orchard.

During the tour of the orchard, B.G. Hancock, horticulturist for the Texas Agricultural Extension Service, told the crowd that when selecting varieties, they must select those that have a reasonable degree of resistance to foliage diseases and produce a regular crop of nuts. For commercial pecan production in East Texas, he suggested Desirable as the first choice, followed by Choctaw and Cheyenne.

Dr. Leon Smith, Extension area plant pathologist at the Texas A & M University Agricultural Research and Extension Center at Overton, said that scab and sticky shuck were the most prevalent diseases in East Texas pecan orchards. Control of these two diseases generally controls any other foliage problems caused by fungi.

Phylloxera, pecan nut case-bearer, aphids, pecan weevil, hickory shuckworm and fall webworms are the insects to contend with in pecan production, according to Dr.

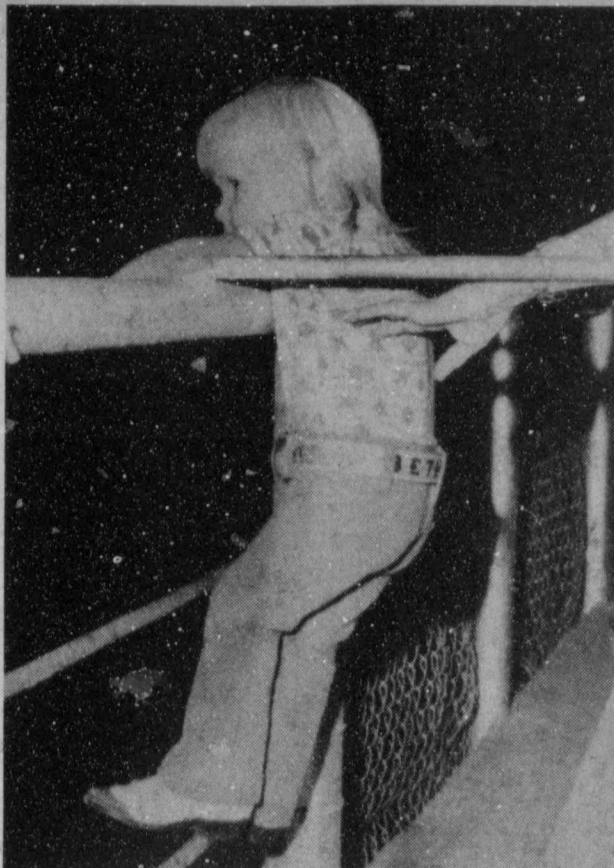

Ken Lewis, Extension area entomologist. The application of insecticides must be correctly timed for optimum control. High rainfall in recent years has created problems with applying insecticides and fungicides at the proper intervals.

Dr. Benton Storey, associate professor in the Soil and Crop Science Department at Texas A & M University, told the group that zinc is a critical element in East Texas pecan production. He advised producers to have leaves analyzed for zinc content and then treat accordingly. Research is continuing in zinc requirements. Storey said that on most East Texas soils, an application of one and one-fourth quarts of zinc nitrate per 100 gallons of water should be applied in a spray application at the beginning of foliage, repeated in one to two weeks and again

the fourth week. An application the seventh and twelfth week are desirable.

Dr. George McEachern, Extension horticulturist, emphasized that fertilization is a must for pecan production in East Texas. A minimum of 360 pounds of ammonium nitrate per acre is needed. This should probably be applied in split applications.

Also appearing on the program was W.H. Lehmburg, District Agent-Agriculture for the Texas Agricultural Extension Service, who gave background information on result demonstrations as a teaching tool. Mrs. Gibson related the interesting history of the pecan orchard and Mr. Gibson described the management program followed in the orchard. Glenn Huddleston, Anderson County Extension agent, served as master of ceremonies.

Sikes In Forestry School

The 37th Annual Texas Forest Resources Short-course, conducted by the Texas Forestry Association and the Texas Forest Service, began near here today at the Southwestern Electric Power Company's lodge on Wilkes Lake.

Seventy vocational agriculture students, 4-H Club members and Scouts, who registered for the week-long camp, were welcomed by Erik Beard, public relations director of the Texas Forestry Association.

Participating from Titus County was Russell Sikes, Cookville, grandson of Mrs. Ima Sikes of Talco.

Each boy is sponsored by local civic and garden clubs, chamber of commerce or other business. The local youth was sponsored by The Belsterling Scholarship Fund of the Dallas Garden Club, Dallas.

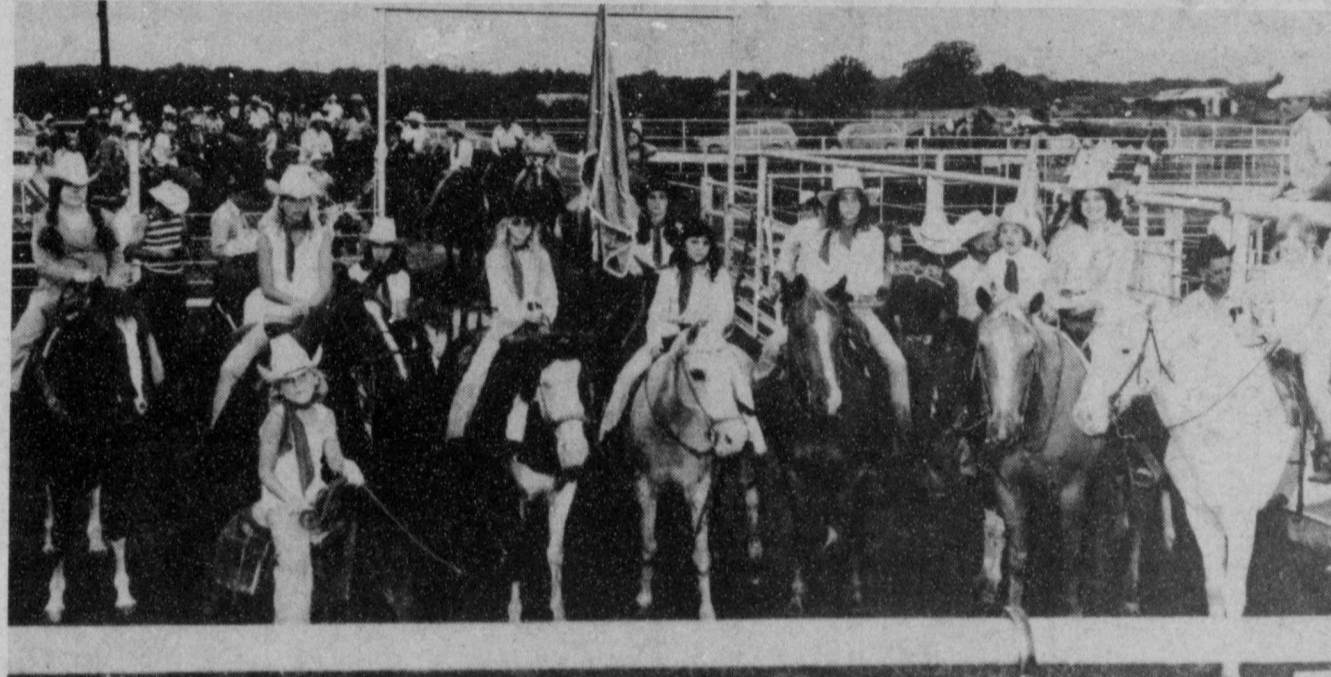

The course is designed to provide the boys with concepts of forestry and conservation of natural resources.

Glenn M. Bandler, TFS, is

serving as director of the camp, which more than 2000 youth have attended in the past. Foresters from public agencies and forest industries are serving as instructors and adult leaders.

Pork

For best results, use a low to moderate temperature when cooking pork—both in and outdoors. Pork is a good source of all the B vitamins. It is the richest known food source of thiamin (B1), so necessary for a healthy nervous system.

Second Summer Term Set

Registration for the second summer semester at Paris Junior College will be held Wednesday, July 9, and classes will begin Thursday, July 10, said Jerry deBin,

director of admission services. The registration will be from 8:30 a.m. to 4:00 p.m. and from 6 to 7:30 p.m. on July 9. New students should report to the Admissions and Records Office, Administration Building, to begin registration, while returning PJC students may register in the Student Center Ballroom.

Among courses to be offered in the second term are Beginning Shorthand, Principals of Biology, Electronics I, Air Conditioning Mechanics I-III, Texas Government, Art Appreciation, College Mathematics, English Composition and Rhetoric, English Composition, Rhetoric and Reading, U.S. History, 1877 to Present, Introduction to Literature, Archery and Volleyball, Trigonometry, Feeds and Forage Crops, Introduction to Unit Record Equipment, Survey of Physical Science, Advanced COBOL Language, Advanced COBOL Applications, Intermediate German, Social Pathology, Blueprint Reading for Residential Construction, and Construction Planning and Control.

Courses will be taught from 6 to 9 p.m. through the Cypress Basin Community College Center in Mt. Pleasant and the Fannin County Center, which will offer Texas Government and Business Communications in Bonham. To be offered in Mt. Pleasant are English 304, Introduction to Business, Texas Government, Business and Professional Speaking, and U.S. History, 1877 to Present. Registration there will be from 3 to 8 p.m. Thursday, July 10.

Late registration for the term will be permitted through Tuesday, July 15, after which no one may enroll. The term will end

Talco Fire Department Answers Two Calls

The Talco Fire Department answered two calls this week. One was to the Bobby Brooks home on Wilson Street where the mattress and bed clothing had caught fire from a short in a small bed lamp. The interior of the house, which is owned by Mrs. Ruby Pierce Blackwell, had some smoke and water damage. The bed clothing and mattress heavily damaged.

Sunday night the department was called to a truck fire approximately four miles south on 271. The driver of the truck from Denison told department officials the truck was afire all underneath when he noticed it. The motor and diesel tanks were ruined.

HOT TIPS for a COOLER SUMMER

These simple suggestions from Community Public Service Company can keep your air conditioning system operating at top efficiency. That, in turn, can help you stay cooler and save money this summer.

- Have a qualified serviceman check your air conditioning now to lessen the possibility of a breakdown during a hot summer day.
- Examine filters once a month and replace or clean them at least every three months.
- Set your thermostat to a higher comfortable temperature and leave it there while you are at home.
- When you go away from home for several days turn your air conditioning off unless there is anything that will suffer heat damage. In that case . . . raise the thermostat setting 5 to 10 degrees above normal and leave the unit on.

Fashion FORECASTS

WHAT TO EXPECT

Mink: A Great Investment

The mink-smock, the jacket for all seasons designed by Viola Sylbert in vicuna dyed black-cross Saga mink.

In today's economy, investment clothes are not a luxury, but a shrewd move. A good mink is one of the few things left that is still painstakingly crafted by hand for perfect fit and long wear. Moreover, a classic Saga mink jacket never goes out of style.

Here's what to look for in mink fashion this year: Coats are roomy like the polo, wrapped on trench style. The newest is the balmacaan or "steamer" coat in demi-buff or ranch. Jackets are often trimmed with leather or knit. Most are in sporty styles like the smock, blazer or pea jacket. Reversibles are harder to find but offer the economy of two coats in one.

FOR SALE—Four quart hand ice cream freezer excellent condition. 632-5970, Bogata.

CARD OF THANKS
 We want to thank our friends and relatives for the kindness shown us in our time of sorrow, for prayers, food, flowers, cards, memorials, visits and calls. Special thanks to Dr. Glover, Mr. and Mrs. Roy Castleberry and the nursing staff of Deport Nursing Home. God bless all of you. The Gus Nobles Family.

CARD OF THANKS
 The Johntown Softball team wishes to express their thanks to all the fans and supporters who contributed to the success of the recent Johntown Softball Tournament. A special thanks to everyone who gave so generously of time and food items for the concession stand. Proceeds from the concession stand and a special donation made it possible to pay the balance of the note on the ballpark. Vance Pirtle, president.

CARD OF THANKS
 We have no words to express our appreciation for the good wishes, lovely cards and food sent during my stay in the hospital and since I have been home. Mr. and Mrs. Edgar Rodgers.

Sending Out The Disciples

Then he called his twelve disciples together, and gave them power and authority over all devils, and to cure diseases. And he sent them to preach the kingdom of God, and to heal the sick. And they departed, and went through the towns, preaching the gospel, and healing everywhere. St. Luke: 9:1,2,6

your week ahead BY DR. A.W. DAMIS

Forecast Period: July 6 to July 12

ARIES Mar. 21-Apr. 19
 Some sort of trivia or "side battle" might occupy too much of your time. Guard against a subtle chain of events that will pull you from your project.

TAURUS Apr. 20-May 20
 A new face on the scene will play an important role, in this week's activities. Also, a member of the opposite sex will help you look for strings attached.

GEMINI May 21-June 20
 According to your chart, there's something questionable about your relationship with a member of the opposite sex. It's highly probable that you'll be put to the "test."

CANCER June 21-July 22
 There's no doubt about it, you've seen it coming; and now it's simply here: You'll be taking on additional responsibilities. Incidentally, you'll enjoy the challenge.

LEO July 23-Aug. 22
 Hold it, Leo! You're letting your imagination work against a personality who, indeed, is a better friend than you think. Think about it, seriously!

VIRGO Aug. 23-Sept. 22
 Facts, not words, will interest you this week. It seems as though you've become subtly aware of someone's unproductive promises. If it has to be...this is "show down" time.

LIBRA Sept. 23-Oct. 22
 Once again, don't become involved in someone else's problems. First of all, your motives will be questioned. Furthermore, your "help" won't bring popularity.

SCORPIO Oct. 23-Nov. 21
 For those under your sign being considered for membership in a selective group—things look good! Other Scorpios have someone behind the scene, working in their behalf.

SAGITTARIUS Nov. 22-Dec. 21
 There's an old saying that mentions something about idleness becoming the devil's workshop. Anyway, boredom with routine tasks, shows in your chart.

CAPRICORN Dec. 22-Jan. 19
 It seems as though a member of the opposite sex will hit the formula that pleases you. Anyway, it's during this cycle that you'll appreciate your mate or similar alliance.

AQUARIUS Jan. 20-Feb. 18
 You can call it, insight, E.S.P., intuition or whatever you choose. Here's the point, you'll arrive at several good decisions without logical support.

PISCES Feb. 19-Mar. 20
 Many members of your sign will receive a new title, be promoted or become recognized, in one way or another. Incidentally, steer clear of a clandestine meeting.

Becky Hawkins, Wesley Rychlik Repeat Vows

Miss Becky Hawkins of Mount Pleasant and Wesley Rychlik of Talco were united in marriage, Friday, June 20, 1975 at seven in the evening at the Oak Grove Church of Christ. Presiding over the double ring ceremony was the minister of the church, Ray Mullins.

The bride is the daughter of Mr. and Mrs. O.L. Hawkins. She has been employed by the East Texas Respiratory Company.

Mr. and Mrs. Leonard Rychlik of Talco are the parents of the groom who is employed by his father.

Given in marriage by her father the bride wore a formal gown of white silk organza over English net fashioned with V-shaped yoke of Venetian lace and forming the Victorian neckline. The sheer puffed sleeves were cuffed

with wide lace. Venice lace flowers enhanced the A-line skirt. Her mantilla headpiece had accents of English net roses. The full cathedral train of illusion was edged with wide bands of lace.

The bridal bouquet was a cascade of white cushion mums and apricot carnations centered with a white Carrleya orchid.

Mrs. John Weatherwall of Mount Pleasant was matron of honor. Serving as bridesmaids were Mrs. Danny J. Williams of Talco, sister of the groom, and Miss Pam Nelson of Mount Pleasant.

They wore identical floor length dresses of apricot dotted chiffon fashioned with capelet sleeves, high empire bodice with scooped neckline and a full A-line skirt. Their white picture hats were trimmed with apricot satin

robbons and they carried a single long stemmed carnation with white streamers.

John Weatherall of Mount Pleasant was best man. The groomsmen were Danny J. Williams, brother-in-law of the groom, and Wendell Rychlik, brother of the groom, both of Talco.

Seating the guests were Kenneth Hawkins, brother of the bride, and Richard Hinson of Winnsboro.

Vows were exchanged before an embankment of greenery and candles. Flanking each side were two large brass epergnes filled with jade and plumasis, and two 13-branch candelabrum trees holding votive lights, greenery and apricot ribbons.

Family pews were decorated with hurricane lamps, greenery and flowers of the bride's chosen colors.

The mothers of the couple were seated to the song "More." The bride made her entrance to "A Love Song for Becky and Wesley" written and sung by Randy Harvey. He also sang "The Lord's Prayer" and the recessional was made to "We've Only Just Begun."

Reception
The bride's parents hosted the reception held in their home on the Harts Bluff Road, where the parents and wedding party greeted the guests.

The bride's table was laid with an imported lace cloth over apricot linen. Centering the table was a fresh flower arrangement in the bride's chosen colors of apricot with single silver candle holders with long white tapers.

The three tiered columned white cake was decorated with apricot sweet peas and wedding bells. Cresting the cake was the traditional bride and groom.

Apricot punch was served from crystal bowl. White napkins with "Wesley and Becky" encribed in silver completed the table.

The registry table was covered identical to the bride's and held a flower arrangement encircling an apricot candle, the bridal book and feathered pen.

Rice bags were passed by Shana Hawkins, sister of the bride in a basket decorated with white tulle and apricot ribbon.

Serving in the house party were: Miss Stacie Hancock, Sunray, cousin of the bride, Miss Jana Roberts of Mount Pleasant and Mrs. Kirk Reynolds of Cookeville.

Following a wedding trip to Dallas the couple will make their home in Winnsboro.

The Land of the Free didn't come cheap.

Even before we had a formal constitution, investors were asked to buy over \$27,000,000 in securities to provide the arms we needed. And to provide the money to rebuild.

That was just the beginning. Through war and peace, the good years and the bad, Americans have always given freely. Millions invested their

money. Many invested their lives.

We've never stopped fighting for freedom. For the American way of life.

Today, over 9 1/2 million Americans buy U.S. Savings Bonds through the Payroll Savings Plan.

Maybe you should consider your interest and take stock in America. It isn't cheap, but there's never been a better deal.

U.S. Bonds pay 6% interest when held to maturity of 5 years (4% the first year). Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Liberty, Justice for ALL!

The signing of the Declaration of Independence was a truly great moment. Let's keep all that it stands for in mind as we near the first 200 years.
