All singers and the general public are cordially invited to attend. We extend a special invitation to all singers in adjoining counties to come and we will give you a place on the program. Rev. C. Jones of Haskell, pastor of the Baptist church at Curry Chapel will hold his morning service at the 11 o'clock hour and will make announcement of the meeting of the convention at the service. Brother Jones is a great lover of singing and a booster in the cause of music as well as a preacher of righteousness. He will make you feel welcome and he also extends an invitation to all. Come.

PYTHIAN GRAND CHANCELLOR VISITS HASKELL LODGE

Haskell lodge, Knights of Pythias, was very fortunate in having as the principal speaker at a special meeting Wednesday evening, February 21st, Brady W. Steele of Houston, the Grand Chancellor of the order in Texas. Mr. Steele is a very forceful speaker and his address was listened to with much interest by those present. His words of encouragement and inspiration could have no other effect than to make the members of the order aspire to do bigger and better things in a true Pythian way in Texas.

Short talks from several visiting members were enjoyed by all and after the conclusion of the meeting refreshments were served to those present, numbering about seventy-five. Visitors were present from the lodges at Stamford, Throckmorton, Abilene, Wichita Falls and DeLeon.

FAMED BALLEAU WOOD TO BE BOUGHT AS AMERICAN SHRINE

Purchase of Belleau Wood, where the Second American Division won immortal fame during the World War, and its consecration as an American shrine in France, is now assured, it was announced last week.

The last \$16,000 necessary to acquire the site has been subscribed, according to Charles Moore, chairman of the fine arts commission.

The money will go to purchase the cemetery where so many American soldiers are buried and enough adjoining land to make a small park which will stand forever as a memorial to American soldiers who died in France.

SINGING CONVENTION WILL BE HELD AT KNOX CITY

The Knox county singing convention will be held at Knox City on the second Sunday in March, the 10th, beginning at 2:00 o'clock. The last session was held there but owing to so much sickness and other things unavoidable the attendance was small and it is the custom of the convention to give them another day. We trust that every singer and lover of the cause will go to Knox City on the above date and help them make the occasion a success. We learn that the Haskell county singers have a special invitation to meet with them and we who have been to Knox City know that a good time awaits all who will attend.

HOLD SERVICES IN NEW ROCKDALE CHURCH SUNDAY

Rev. C. Jones of this city, who is pastor of the Rockdale Baptist church of the Cobb community in the extreme southern part of the county, reported holding the first services in the new church, which was recently completed by the people of that community last Sunday. The building is a framed structure, well arranged and comfortably seated and is plenty large to accommodate the congregations that gather there for worship. The church is now complete except for papering which is yet to be done. When finished the Rockdale people will have accomplished something in the way of permanent improvement of lasting good, by which they will be remembered and appreciated for their good work.

SERVICES WILL BE HELD ON THE STREETS SATURDAY

Rev. Gambrell who is now conducting revival services at the First Baptist church in this city will preach on the streets Saturday afternoon sometime near the hour of 3:30. H. Virgil Reynolds of Santa Anna who is conducting the musical services, plays his marimba- phone in connection with the services. Mr. Reynolds is a wonderful performer and if you miss this occasion you will regret it. Everybody invited to take part in the gospel work.

CITY EMPLOYS PAID FIREMAN

The city council at a meeting last Friday, employed G. Glenn of this city as a paid fireman. This step was taken in order that Haskell might be more amply protected from the danger of disastrous fires, and Mr. Glenn will remain on duty night and day, staying with the new trucks which are being housed temporarily in the rear of the Texas Garage.

Since the arrival of the new trucks the members of the fire department have been demonstrating the new equipment and becoming familiar with its use and a program of strenuous drilling and practice has been outlined which will develop the efficiency of the company to the highest possible degree.

The co-operation of the public is earnestly desired by the fire department and in next week's issue will be published a few rules, which if observed during a fire will greatly help in cutting down the loss of property caused by fire. In this connection let it be said, that there are several regulations that must be observed when the fire alarm is sounded. They will be published next week and it is the duty of everyone to familiarize himself with them and observe them during a fire.

HASKELL'S STREETS WERE FILLED WITH SHOPPERS

When the weather is good people always come to Haskell, especially Saturdays, to do their shopping. Last Saturday was one of Haskell's biggest days. The streets and stores were crowded most of the day with busy throngs of people from the country and adjacent towns. They were a good natured lot and seemed to enjoy the day in the capital city. Haskell merchants are planning to place the best stock of merchandise in their stores this spring that has ever been on the shelves of the big stores in the city and they also expect to make the prices of merchandise very attractive when the class of goods is considered.

We are pleased to have the people of the country and the neighboring towns visit our city and we invite you to visit us often. You are welcome.

HASKELL BANKERS ATTEND MEETING AT FT. WORTH

O. B. Norman of the Haskell National bank of this city and Alvy E. Couch of the Welner State bank of that city left for Fort Worth Wednesday night by way of Abilene to attend the Seventh Bankers Association which will be held in Fort Worth Friday and Saturday, February 23 and 24.

LARGE NUMBER ATTEND BANQUET

More than 125 of the representative citizens and business men at Haskell and Haskell county were in attendance at the Get-Together banquet held in the Elks' club last Friday evening. A three course luncheon was served to those present, the Haskell Booster band furnishing music for the occasion.

The meeting was called for the purpose of perfecting plans in order that a concerted effort might be made to secure the location of the West Texas School of Technology in this vicinity. Hardy Grissom of this city acted as toastmaster, and explained fully the object of the meeting. A number of short talks were made by those present, outlining the many advantages and benefits of the new school. Enthusiastic approval was given by those present to the plans as they were outlined for securing the location of the school in Haskell county. After a general discussion, committees were appointed to take charge and carry out the suggestions made in an effort to secure the school. Like meetings will be held in the future in order to meet with any new developments. Active work has been started in compiling data and statistics to be presented to the locating board.

TEXTILE ENGINEERS VISITING TEXAS

Textile engineers have now reached Texas and have begun work of locating cotton mills in this state. News comes from Ranger that a representative of the cotton mill industry was in that city Wednesday for the purpose of closing a deal for a \$300,000 textile mill in that city. A movement is now on foot for a mill in Haskell and you need not be surprised if you are asked to help raise the capital stock. Of course we will not attempt to build a large mill like the one planned for Ranger, but we can build one of smaller capacity and grow as the business prospers until we reach a mill large enough for our needs. Keep this idea before you that Haskell can build a textile mill and manufacture her own cotton.

WEINERT WINS GAME FROM SAGERTON ON HASKELL COURT

The Sagerton basketball girls lost to the Weinert girls on the court at the High school Saturday afternoon by a score of 25 to 5. This is the first defeat suffered by the Sagerton girls this season. It was a good game and was clean and sportsmanlike throughout.

The Howard girls were also to have played the Cliff girls but the latter team failed to show up.

WORK STARTED ON LAUNDRY BUILDING

The work on the laundry building is progressing nicely and is being rushed as fast as possible. The building when finished will be another permanent addition to the business section of the city and will be the home of an up-to-date laundry plant sufficiently large to do the work for the city and the adjoining towns of the county who do not have a laundry. The machinery that is to be installed is of the latest improved types and models and the output of the laundry will be satisfactory to the general public if efficient service and good work can bring it about.

REPAIRING RESIDENCE IN EAST HASKELL

Marvin H. Hancock has sold his home in the north part of the city to L. N. Simmons, rural carrier on route A out of this city, and is expecting to move about the first of March to his residence in the east part of town. He has been repairing and making some additions to the building which will add to the comfort and attractiveness of the home. Mr. Hancock has a very desirable location on the east side and he is confident that he will be happily situated in his new home.

Everybody is invited to attend the community chorus at the Methodist church Sunday afternoon at 4:00 o'clock if you are a lover of music, come, you will be entertained. Alderson of Stamford, returned from St. Louis Friday morning where they had been to purchase the spring stock of merchandise for the Grissom stores. They purchased a complete line of merchandise for the season which will soon begin coming in. The Haskell merchants will carry large stocks of merchandise this season and you will make no mistake in doing your spring shopping in Haskell where you will have large stocks of seasonable goods from which to make selection which will make your shopping a pleasure.

EGGS FOR INCUBATOR SHOULD BE FRESH

Eggs for incubation should never be held longer than ten days. Those that are three or four days old hatch nearly as well as those set immediately, but after they pass that period they start on the decline.

L. M. Kay, a prominent business man of Rochester was transacting business in Haskell Tuesday.

ROCHESTER HAS BIG TRADES DAY

Judge J. W. Gammill of Rochester was here Tuesday and reports the Trades Day at Rochester every third Monday one of the biggest occasions the city has for bringing a crowd to town. Last Monday, according to Judge Gammill, was one of the biggest days that Rochester has enjoyed since the trades day was inaugurated. Plans were made to entertain the visitors and one of the most interesting features of the day was a march by the school children through the streets of the city under the flag of their country. Two horses hitched to buggies became frightened and ran away breaking through the line of marching children and several were knocked down but none seriously injured and the day after all was a very happy occasion.

REVIVAL SERVICES IN PROGRESS AT BAPTIST CHURCH

Rev. Leon M. Gambrell, pastor of the First Baptist church of this city began revival services at the church Sunday morning at the 11 o'clock service. He is doing the preaching, assisted by Mr. and Mrs. Virgil Reynolds of Santa Anna, who have charge of the music. Rev. Gambrell is a strong preacher and has been preaching some wonderful sermons, putting his very best efforts in the work of winning souls to Christ. Mr. and Mrs. Reynolds are among the greatest singers and musicians of the south and they are doing wonderful work in song service in the cause of the Master. Mr. Reynolds has a Marimba- phone that he plays in connection with the piano which is a new but powerful instrument that he is using for the honor and glory of God. You should not miss a single service if you are interested in the saving of the lost. Nothing would be worth more to the people of our city than a great revival at this time.

Mrs. Swindle is still in Los Angeles, California, where she and Brother Swindle were spending the winter. She will join her husband here before long. They will reside in the new parsonage, across the street from the church, formerly occupied by Mrs. T. E. Wright. Rev. Swindle is no stranger to this section of Texas and comes to us well recommended as a Christian gentleman. We are glad to welcome Rev. and Mrs. Swindle to our city and we hope they will be pleased with their new location.

SCHOOL NEWS FROM OVER THE COUNTY

Saturday goes on record as being one of the busiest days of the county superintendent's office in many months. The money to finance the schools had come in and various supplies had also arrived and the people holding vouchers and various accounts were on hand for the payments. According to a statement by Mrs. P. D. Sanders, something like \$20,000 was paid out by this office.

Mrs. Ed Robertson, our county school superintendent, is following the requirements of the law and no claims are paid unless properly filed in accordance with the laws governing payment of all vouchers and accounts. This is a good protection to the school fund that no claims will be paid unless they are just.

The local tax money has also been received by the county superintendent and all schools can now determine the length of term by the funds available. The bill recently signed by the governor will give each pupil \$2.35, which will make possible longer terms in all the rural schools. This came as a much needed appropriation and at an opportune time.

The fame of Haskell county's successful schools have gone far beyond the county confines and already four or five applications have come to the county superintendent's office from places in other sections of Texas for places in Schools in 1923-24. Progression cannot be hid and every one who loves the upward trend of progression hails with delight every onward step and move.

All the rural schools in the county are reported running full time and most of the teachers who were out on account of sickness are back on the job.

JERSEY INCUBATORS are the best

You have no doubt used a Jersey Incubator, or have heard your neighbor speak of his. It is one of the oldest lines of Incubators and has stood the test.

The boiler and heater are made of pure copper and are guaranteed against leaks.

The temperature in the egg chamber is absolutely controlled by an automatic regulator. A poor regulator makes a good incubator useless. The regulator in the Jersey is absolutely reliable.

Rev. Smith of Simmons College has entered his work as pastor of the local Baptist church, preaching here Saturday night, Sunday morning and evening to good crowds. One addition was made to the church at the Sunday evening service. Brother Smith besides being a good preacher is an excellent singer and choir director and plans to hold choir practice each fourth Sunday afternoon to develop the singing spirit of the community.

The inter scholastic league work is progressing well under the direction of Director-General Elmer E. Watson of Rochester. Several schools which have never taken any part in league work until this year are planning to enter students in the various contests of both athletic and scholastic nature. Parents of pupils are urged to encourage both pupil and teacher in the work as it gives the children new interests and new development in ways that in general only the Class A high school pupils gets.

There is a county chairman for each section and any teacher or pupil desiring information need only to ask and it will be given. All schools who plan to enter debaters are requested to communicate with T. J. Ratliff of Sagerton.

The following is a mid-term report of the Sagerton High school for the four months ending February 10. There are 178 pupils enrolled to date, while the scholastic census shows only 156 in this district. For the primary and intermediate grades the percentage of attendance has been 95, while the high school has had 98 per cent in attendance. The tenth grade stands at the head with 100 per cent, which means that no senior has been absent or tardy during the term.

The following pupils have made an average of 95 in deportment and application and an average of 90 in work were exempt from all mid-term examinations: Orline Burrow and Lydia Holm of the ninth grade, Ima Walker and Alfred Wood of the seventh grade

Eula Mae Gibson and Vera Walker of the tenth were exempt in all save Spanish. In the seventh grade the following were exempt in one or more subjects: Florise Massis, Herbert Niedieck and Odessa Tarleton.

All schools planning to enter debaters in the Haskell County inter scholastic league notify G. J. Ratliff, Sagerton.

BUNKER HILL

St. Valentine's day was fully observed in the school. We had our post-office, postmaster in everything. Two periods were given to the distribution of cards and greetings. We also had a short talk on the origin of St. Valentine's day.

J. P. McFuttyre and son, Barto, spent the afternoon at E. J. Boedeker's Sunday.

Fred Stegmoller of Sagerton and Albert Suter of Old Glory were seen on the "streets" of Bunker Hill Sunday evening.

W. C. McKeezie spent the week end with relatives east of O'Brien.

There's some talk of building an addition to the depot at Capron to accommodate the increase in business. It is rumored that the train had two passengers last Sunday.

Friday was a bad day for basketball but the Bunker Hill boys played Tanner Paint boys on the Tanner Paint court. Score 9 to 13 in favor of Tanner Paint.

There's a new Mueller in our community. He arrived at the home of Mr. and Mrs. G. M. Mueller last Thursday and they wouldn't take a million dollars for the little fellow.

Cooking the Electric Way

No utilization of electricity in fields other than illumination has proven of more value and convenience than the modern electric range.

Reasonable in cost— electric range prices vary between \$100.00 and \$175.00— the electric way of cooking obtains distinct economies in labor and in the preparation of food stuffs. In point of fact, the modern electric oven is virtually a fireless cooker.

Safe, efficient and clean, the electric way of cooking is as impressive an advance over the old ways of cooking as electric lighting is an advance over the old-fashioned oil-burning wick lamps.

A demonstration will interest you, and it will convince you. The electric stove best adaptable to your needs, and the cost of installing and operating it, are matters which this company would like to discuss with you.

A demonstration arranged at your convenience, will place you under no obligations.

OPPORTUNITY KNOCKS

Few, indeed, are the towns and communities to which are presented the opportunities opening before the people of Haskell.

With the possibility before us of securing the location of the West Texas Technological school and the chance of having a textile mill located here, only a little power of imagination is necessary to picture Haskell as a thriving city teeming with activity and prosperity. These things, however, will not come to us of their own accord. Untied effort, strenuous effort, must be put forth to secure them. That the people of Haskell are willing to expend the necessary effort was amply evidenced at the meeting held last Friday night, where not only the things that Haskell has to offer to secure the location of the school were presented and discussed but the necessary finance to properly present the facts to the board and honorably influence them in our favor was quickly subscribed.

One lack of the city is very apparent apparent at this time, that of some sort of a community organization which could take up these and other like matters and push them to a conclusion. Whether it be a Chamber of Commerce, a Rotary or Kewanis club makes little difference so long as it serves the purpose of directing and concentrating the efforts of the community along efficient lines and holding it true to its course in a given direction. Nor is this the only way in which such an organization may function. The only thing preventing the establishment of free mail delivery in the city is the lack of a few blocks of sidewalks. Don't you think that lack would quickly disappear if a strong organization set itself to overcome it? In itself, free mail delivery is probably an unimportant item, except for the fact that it marks the dividing line between the village and the city and favorably impress the stranger and prospective citizen and investor.

And then such a body can be made to stand squarely behind the city administration, supporting it in its activity or prodding it into wakefulness should it become slumberous.

Opportunity is here, not gently tapping at our door but clamoring for admission. Will you let her in or yawn and take another nap?

Members of the farm bloc in Congress may not know a lot about farming, but they know how to keep up political fences.

Maybe if they succeed in driving the bootleggers out of the lobbies of the and senate and house office buildings we will get some sober thought in congress.

In pointing out the strength of Ford as a presidential candidate a writer cites that he employs 100,000 men in his factories, controls 500,000 more, has 7,000 agents who are beholden to him and 7,000,000 users of his cars. We are not so sure, however, that he could count on the latter class.

TWENTY YEARS AGO

From the Files of The Free Press

February 21, 1903—Our report last week showed the rainfall for January and February this year to have been 2.76 inches, and the next highest for the two months since a record has been kept here, beginning with 1892, was 2.72 inches in January and February, 1895. Since our last issue there has been 29 of an inch of rain and an estimated precipitation of .35 of an inch of water from the snow, total .64 of an inch of water. Added to previous 2.76 inches, equals 3.40 inches of rainfall, being .68 inches more than any previous record. An important feature of all this rainfall is that it has fallen so slowly that nearly all of it has been absorbed by the earth instead of flowing off through the ravines and creeks. This means that it is in the ground to produce crops for those who will husband it intelligently, giving the best prospect we have had in several years.

Mr. G. J. Thomason left Monday on a trip to Dallas and Mineral Wells.

Mr. M. Smith came in yesterday. The bad weather stopped the railroad grading this week.

Mrs. W. G. Williams returned Wednesday from Waxahachie, where she was called to see a sister who was sick and who died while she was there.

The Personal Side

A little girl from the city had been visiting in the country and was being questioned as to what kind of a time she had. Finally some one said, "I bet you don't even know how to milk a cow."

"Bet I do, too," she said.

Pressed for particulars she explained: "You take the cow into the barn and give her some breakfast food and water, and then you drain her crank case."—Prairie Farmer.

AN HONEST MAN.

A young lawyer wrote a prominent practitioner in Dallas, asking what chance there was for a man of his stamp in Texas. He said: "I am a Republican in politics, and I am an honest man." The Texan wrote back: "If you are an honest lawyer, you will have no competition here, and as you say you are a republican, the game laws will protect you."—Everybody's Magazine.

Collect from Grandma.

A little girl, six years old, entered a store and asked for enough material to make her doll a dress. When the clerk handed it to her, she asked what it cost. He laughingly told her "just one kiss." She tucked the little package under her arm with a very dignified air and replied, "Grandma says she'll pay you next time she comes up town."

Volney—"Girls put up an awful bluff these days."

Carl—"How do you figure?"

Volney—"Why, when I started to kiss one the other night, she threatened to call her mother; but when I went right ahead she only said, 'Oh, daddy!'"

"The streets of hell," admonished the fiery evangelist, "are paved with good intentions."

"Why do you go on the balcony when I sing? Don't you like to hear me?"

"It isn't that. I want the neighbors to see that I'm not beating my wife."

"I wish you'd send a large mouse trap to my house."

"Yesser, and who is it for?"

"Don't be silly, young man; it's for the mice of course."

DEATHS

Venerable Woman Passes Away

Mrs. Emma D. English, one of Haskell's oldest women, passed away Monday morning at 11:30 o'clock, February 19th. For 32 years she has made her home in Haskell, coming here from Austin with her family in 1890. When a very young woman she gave her heart to the Lord and united with the Presbyterian church. Hers was a long life of Christian service, gentle, helpful and companionable. She made friends of all with whom she came in contact and will be long remembered and missed by those whose lives were so closely blended with her own. Mrs. English was a sufferer for a long time, but her suffering was marked by the patience and fortitude of the true Christian who never doubts but confidently believes that all things work together for good to those who trust in the Lord. Every neighbor knew her as a helper, advisor and friend and all loved her for the noble qualities of mind and heart. Her life was well lived, her rest will be sweet and her reward great.

The funeral was held at her home by Rev. Hooker, pastor of the Presbyterian church at 3 p. m., Tuesday after which her remains were given burial in Willow cemetery. She is survived by three children, a son and two daughters, Albert, Eugenia and Evalyn English, all of whom live here and were present at the funeral. Her husband Captain J. C. English passed away almost thirty years ago and she was laid to rest beside him. The Free Press extends deepest sympathy to the bereaved children and other relatives.

 There will be no prayer meeting next Wednesday night on account of the revival services at the Baptist church.

Womans Missionary Society
 The society had a splendid meeting last Monday under the leadership of Mrs. O. E. Patterson. It was a well arranged program and the women were intensely interested in the reading of two letters from China. One was from Mrs. Lowry (nee Miss Vera Smith) who lived here at one time and who is teaching English in the new great Soochow university, the other from one of her pupils, a boy convert who told in his own words, but in English, of course, his impression of our Methodist conference recently held in China.

When we hear such letters as these it makes us glad that we are helping in the great work over there and wish we were two societies and doing twice the work we are doing.

We welcome Mrs. Wilson and Mrs. Pippin back and extend the glad hand to Mesdames Quinn and Ed Robertson, Jr., a rare privilege to have one with years of experience in the Master's work join at the same time a young new member puts her shoulder to the wheel. There are repairs badly needed at the Parsonage and that is the local work our society must do in the next few weeks. Please let every Methodist that reads these lines get this matter in their hearts.

 Mrs. T. E. Wright and son Bryon left last week for Spur where Mrs. Wright will take the management of the Spur Inn, one of the best hotels in West Texas. Mrs. Wright's experience won for her the place and it was unsolicited on her part. We are very sorry to give up these good people from our city but our loss is Spur's gain and we commend them to the good people of Spur and wish for them the greatest success possible. Mrs. Wright has lived in Haskell many years and she has many friends here who will regret to know that she has moved away.

FEDERAL LAND BANK LOANS ARE THE BEST
Study the Following Figures
A \$1000 Federal Land Bank Loan at 5 1/2 per cent interest running a period of 34 1/2 years will cost the borrower \$45 per year for 34 1/2 years, totaling \$2242.50. He has received \$3 in cash each year for 6 per cent dividend on the \$50 stock he owns in the Federal Land Bank of Houston, totaling \$183.50, deduct this from the \$2242.50 and borrower is out \$2139, and is out of debt.
A \$1000 loan at the usual 8 per cent will cost the borrower \$80 per year or \$2700 as interest only, for the same period of 34 1/2 years and owes the principal of \$1000. After paying the principal, the borrower is out just \$3700. The difference is \$3700 less \$2139 leaves \$1621 in favor of the Federal Land Loan.

That on the day and year last aforesaid defendants unlawfully entered upon said land and premises and ejected plaintiff therefrom and unlawfully withheld from him the possession thereof, to his damage \$8000.00 and that the reasonable annual rental value of said land and premises is \$1000.00.
Plaintiff further shows to the court that he claims and owns said land in fee simple by purchase and through a regular chain of title from and under Lepaul Joeslett and Arvy Joeslett, who are the common source of title to said 200 acres of land, to-wit:
1. General Warranty deed, dated 20th Dec. 1916, legally executed and acknowledged by Lepaul Joeslett and Arvy Joeslett before H. S. Wilson Notary Public for Haskell County, Texas, on 20th Dec. 1916, and recorded in Vol. 71 page 271 Deed Records of Haskell County, Texas, conveying said land to Rosa Lee Ulmer.

Duke, and plaintiff shows to the court that in said deed a vendors lien was retained to secure the payment of six promissory notes, five for \$5000.00 each and the other for \$4000.00 executed by L. D. Duke and payable to W. P. Ulmer on or before 20th of Dec. 1922, 1923, 1924, 1925, 1926 and 1927, with 10 per cent interest per annum from date, and given for part of the purchase money for said land, have all been paid.
3. General Warranty deed dated 15th Nov. 1922, legally executed and acknowledged by L. D. Duke and wife, Florence Duke, before G. L. S. Grand.
Wherefore plaintiff prays that defendants be cited in the terms of the law to appear and answer this petition and that plaintiff have judgment of the Court for the title and possession of the above described land and premises, and that a writ of restitution issue, and for damages and cost of suit and such other and further relief, special and general, in law and in equity that he may justly be entitled to.

Four Reasons Why You Should Buy Your Ford Car this Month

I.

The unprecedented demand for Ford Cars throughout the winter months has taken the entire output of the Ford Plants working at capacity, indicating that the demand this Spring will be far in excess of the number of Ford Cars that can possibly be built.

II.

January was the tenth consecutive month in which retail deliveries exceeded 100,000 Ford Cars and Trucks. Requirements for February, the month when preparations are already under way for Spring business, called for 148,407 Cars and Trucks—more than 24,000 in excess of the number we can possibly produce.

III.

Ford dealers in many parts of the country are already finding it necessary to specify future delivery dates on Ford Products because there are no reserve stocks to draw from.

IV.

Your order placed now will protect you against delay or disappointment later on—It is the only way you can be assured of reasonably prompt delivery.

We consider it important to give you these facts, so that if you are planning to purchase a Ford Car, Truck or Fordson Tractor for use this spring or Summer you can list your order at once and take advantage of our dealer's first opportunity to make delivery.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 6c per bottle.
