HOW ABSENT VOTERS CAN CAST VOTE IN DEMOCRATIC PRIMARY

The law providing for voters who will be absent from their voting precinct on election day to cast their ballots before leaving home will be in effect when the July Primary is held and all such voters will have an opportunity to vote, notwithstanding their absence on the day of election. The law provides that the voter who will be absent on the day of election can, not more than ten days before the election, go before the county clerk and show to the clerk his poll tax receipt or his exemption certificate and upon satisfying the county clerk that he is qualified voter under the law he is qualified to be supplied by the clerk with a ballot to be voted in the election next succeeding the appearance of the voter and shall mark the ballot without any assistance from any other person and shall fold said ballot after marking the same and hand it to the county clerk.

The law provides that the clerk shall send the ballot to the officer of election at the polls, where the voter is entitled to vote and instructs the election officer as to the procedure in casting the ballots. Prior to the enactment of this law there was no provision for permitting a voter to cast his ballot except to appear at the polls in person, and many voters were deprived of the privilege of voting by the necessity of being absent on election day. This law meets the difficulty and under it no qualified voter need lose his vote for he can comply with the provisions of the "absent voters" law and have his ballot cast and counted the same as if he appeared at the polls.

Silver Wedding Anniversary

One of the most enjoyable affairs of the season was the silver wedding reception given by Mr. and Mrs. W. L. Norton at their home on Wednesday, June 30th from 5 to 8 p. m. The guests were met at the door by Mrs. Vaughn Bailey and ushered into the living room where all joined in pleasant conversation. At 5:30 everyone was invited into an adjoining room which had been specially prepared for the ceremony. As the strains of the wedding march were sounded by Mrs. W. M. Reid, the doors were thrown open and the bride and groom of twenty-five years ago, passed down the long room and turned in front of a bank of evergreen and out flowers.

The bride was dressed in a dainty white organdy and held a beautiful bride's bouquet which was presented by little Miss Janie Miller, as a token from the grand-children present.

Rev. McHenry Seal, in well chosen words, spoke of the exemplary lives of these two, and the beauty and significance of the time old custom they were celebrating. Splendid talks were made by Jno. A. Couch and O. B. Norman, S. S. teacher and Supt., in which they mentioned the good influences of these friends, in their christian relationship. Rev. Era Miller, son-in-law of Mr. and Mrs. Norton, made a talk in behalf of the children and the parents, expressing their love for the family, and giving to them such a rich heritage by their example and training. Miss Addie Tompkins, in her pleasant manner, presented to Mr. and Mrs. Norton the lovely gifts of silver, and read the many, many good wishes which accompanied them. At six o'clock, dinner was announced, and the guests fled into the dining room, which was beautifully decorated, and behold two long tables laden with all the good things of an old time wedding feast. We who had known the hostess for a number of years, however, were not surprised, as she long since became a past mistress in the art of cooking.

The children of the family present were: Rev. and Mrs. Era Miller, Abilene; Mr. and Mrs. Clarence Norton and Mr. and Mrs. Vaughn Bailey, Haskell. Guests of the delightful occasion were: Rev. and Mrs. McHenry Seal, Mr. and Mrs. Jno. A. Couch, O. B. Norman, R. J. Reynolds, J. F. Posey, Mr. and Mrs. Otis Wilburn, Mesdames S. G. Dean, Henry Maples of Munday, Mrs. Poole, W. M. Reid and Misses Addie Tompkins, Aileen Taylor, Dr. Taylor and W. M. Free.

MANY CARS NEEDED TO CARRY GRAIN

Dallas, Texas, July 15.—Immediate shipment of thousands of grain cars to the Texas grain belt will be urged before the Interstate Commerce Commission at Washington early next week by a committee from the Texas Chamber of Commerce, composed of two representatives of grain dealers, shippers and exporters, one representative of the Texas Bankers' Association and President J. S. Cullinan and Vice President and General Manager J. Z. George of the State chamber.

The car shortage in the Texas grain belt is the most acute in history, according to information laid before a conference held by the Texas Chamber of Commerce here yesterday and consisting of representatives of Texas bankers, grain dealers and exporters, grain farmers and members of the board of the State chamber.

Less than 10 per cent of the needed supply of grain cars is available at most of the shipping points in the grain belt, according to W. P. Andrews, vice president of the First National Bank of Fort Worth, who spoke before the meeting. He read a number of telegrams from Claude, Pampa, Stamford, Crowell, Quanah, Miami, Haskell and other grain belt towns, and each wire told of a distressing local situation, with elevators full, few cars on the sidings and imminent danger of great loss through rotting of grain on the ground. Elevators and granaries are full and much of this season's crop has already been dumped on the ground by farmers who are unable to provide storage.

July G. Smith of Fort Worth, one of the biggest grain exporters of the Southwest, declared that the situation is extremely serious.

Other speakers were R. E. Sherrill, grain elevator owner of Haskell; Judge Gregg of the State Warehouse Department, D. E. Lyday, of the Texas Farmers' Union, J. T. Orr of the State Council of Agriculture and Louis Lipsitz of Dallas, vice president of the State chamber, who presided over the gathering.

KOURI NO. 1 ATTRACTING CONSIDERABLE ATTENTION

Kouri No. 1, 12 miles east of Haskell, has begun to attract the attention of the oil fraternity again after failing to make a well from he sand which was struck at a depth of 2050 feet a few weeks ago. This sand was passed up and at 3317 feet a strong salt water sand was encountered, which continued until a depth of 3575 feet was reached when the drill entered what is known as the gray line, which made a strong showing of oil with the hole full of oil water. This line has been analyzed by the Gulf Production Company's geologist and also by Mr. Swain, geologist for the Texas Company, both stating that the sand has a strong showing of oil.

Mr. Kouri has had the casing braced to the location and work will begin at once to independent the six and five eighths casing for the purpose of setting the casing and cutting off the salt water preparatory to testing this sand. Mr. Kouri stated that if he did not get a producer in this sand he will drill the well deeper as he believes from the several different reports made on this locality, he is on the structure and will get a producer.

Kouri No. 2 on the Couch Ranch 10 miles northeast of town is showing up well at a depth of 1475 feet. More than a half a million feet of gas was struck at a depth of about 1225 feet.

The Texas Cushing Company's Colbert No. 1, 10 miles south of town, is drilling around 1750 feet. At a depth of 1800 feet an old well which was drilled near this location several years ago struck both oil and gas but was lost. It has been said, by the proper precautions not being taken in finishing the well.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 50c per bottle.

C. F. Graham of the Myers community reports a slight rain Friday night and says the worms have damaged some of his cotton very seriously. He says his cotton is very good where the worms did not injure it.

Better Gates for Less Money

YOU can have gates that cost less, look better and last longer. Gates that never need repair. Gates that will not sag like old-fashioned wooden ones, or will not bend or twist like gas-pipe and wire gates. You can have absolute gate satisfaction if you put up

Cheap Enough to Use EVERYWHERE

They are made of a sensible combination of wood and steel firmly bolted together — no screws or nails to pull out. All joints watertight — no places for water to get in and rot the wood. The next time you are in town come in and see them. We carry a full stock.

To the Voters of Haskell County

I have tried to see as many of the voters of Haskell County as I could and personally solicit their support in behalf of my candidacy for the office of County Judge. However, the time has come when it is almost impossible for one to see all of the voters in the county. Therefore, I take this method of soliciting your support, and trust that you will consider it as a personal solicitation, and I assure you that I shall appreciate anything you do in my behalf.

If elected County Judge I promise the people of Haskell County to render them the very best service that it is possible for me to render. I will cooperate with your commissioner and assist him in every way that I can to enable him to render the best services, and shall stand ready at all times to advise the commissioners in a legal way, and give them the benefit of any other information that I have. However, I shall not undertake to dictate to the commissioners, nor to dominate the commissioner's court. In short, I shall undertake to perform only the duties pertaining properly to the office of County judge, but at all times will be ready and willing to cooperate with the other officers of the county, to the end that the affairs of Haskell County may be carried on and conducted in a business-like manner.

Every citizen is, or should be, equally interested in the business affairs of Haskell County, and the public officers are simply employees who have been employed by the citizens of the county to perform the duties pertaining to their respective offices. Should I be elected and assume the duties of County Judge every citizen of the county may feel perfectly free to call at the County Judge's office for the purpose of transacting business affairs, or for the purpose of discussing matters pertaining to the best interest of the county, and when you call you may come with the assurance that you are welcome, that you will receive a fair hearing, and at all times courteous treatment.

Again soliciting your support, and assuring you that I will appreciate your vote on July 24th, I remain,

Very respectfully yours,

C. B. Long

NEWS OF THE WEEK FROM THE JUD COMMUNITY

As there has not been any news from this place in quite a while, I will visit the Free Press again!

We are having some fine weather at present. A. F. West and family and Miss Florence Ray spent Saturday night and Sunday with F. A. West and family of the Foster community. Bunn Hall and family of near Rochester spent Sunday with W. A. Ivey and family.

Miss Jewel Murrah left Sunday for Gorman. Mrs. J. W. Allen and son Grady and wife of Sulphur Springs, Okla. have been visiting relatives here.

Miss Lena Hibbits of Comanche returned to her home last Wednesday after spending some time visiting Misses Vera and Velma Gaskins. Charley Brison of Aspermont is in our community this week.

B. H. Ivey and wife visited Miss Annie Mae Helton of Abilene last week where she is attending school. The ice cream supper at A. F. West's last Thursday night was well attended and all report a nice time.

Jessie Allen of Haskell has been visiting Rufford Epley this week. Several from this community went to Monday last Monday to see Munday, and Wichita Falls play baseball.

B. E. Karr made a business trip to Rule last Saturday. Miss Estelle Moseley spent Saturday night with Miss Myrtle Allen of the Rhoda community.

The singing Sunday night at C. C. Gaskins was well attended. All seemed to enjoy the singing.

Everybody remember the fourth Sunday in July there is an all day singing at this place. It is the old Sacred Harp Singing. Everybody come.

Wit & Humor

The Active Germ
An eastern school teacher who had been giving her pupils much information and advice concerning germ diseases and the proper methods of lessening danger of contagion, ended her remarks with the question: "What germ is it that scientists have tried so hard to isolate this summer and that has caused so many deaths?" "Germany," promptly yelled the freckled face boy in the third row.

Thought Him A Saint
"That sir," the cabman proudly informed the American tourist, "is the house of John Knox."
"Who the deuce is John Knox?" jokingly questioned the American.
"And with a look of pitying scorn, the old man asked:
"Ain't you never read your Bible?"

Real Reason Revealed
The Scotch bagpipe players were breaking the atmosphere into fragments with their instruments.
"Why do they keep walking up and down while they play?" asked a stranger.
"I Don't know," retorted a disturbed native, "unless it'll make them harder to hit."

Resourceful
"Kitty is such a resourceful girl."
"Is she?"
"Why the other day when she'd left her vanity case at home she powdered her nose with a marshmallow."

To Serve Punishment
A woman in a small Maine village was greatly disturbed by the contents of a letter she received from her sister in Boston.

"John," said she to her husband as she read it over, "that Mary I never believed it possible she could become as cruel as she seems to have grown since moving to Boston."
"What's the matter?" asked John.
"Why, Mary says in this letter that she gets help in raising her children from a mother's club. I do believe in a slipper at times and a good birchin' don't do achild any harm, but a club is down right cruel and I'm ashamed of Mary."

No Need of Change
Her Parent—"I want you to understand, I want my daughter to have as good a home after her marriage as before!"
Her Suitor—"Well you aren't going to break up housekeeping, are you?"

Obliging
"Look mother," said little Bobby, proudly exhibiting a hat full of marbles, "I won all these from Willie Smith."
"Why Bobby," exclaimed the mother, "don't you know it's wicked to play marbles for keeps? Go right over to Willie's house and give him back every one of his marbles."
"Yes mother," said the boy obediently, "and shall I take that vase you won at Mrs. Smith's whist party and give it back to her?"

Well Worth It
A little three year old boy was eating sugar when his papa came upon him and exclaimed:
"Look here boy! Do you know sugar is ten cents a pound now?"
"Well it's worth every cent of it," was the unhesitating reply.

Cautious
Cyrus— (Entering a sixteenth-floor office):
"Them stairs must be several miles long!"
Occupant of office: "Why didn't you come up in one of the elevators?"
Cyrus: "Not much! I just seen one of them full of people fall down that hole there."

WHY?

Why do you have to be urged and begged to go to Sunday School and Church (then you hardly ever go)?

Why don't you have to be begged to go to your work and place of business?

Why don't you do that which you know is right?

Just answer the above questions.

Talk about treating your customers, your fellow-men, and your associates right and dealing fair with them, when you don't even treat your God with respect,—don't go to Church, don't do anything that will aid in the furtherance of Christianity.

Why don't you think of the future welfare of your children, if not of yourself?

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or "noise" in the ears, and when it is entirely cured, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

Will He Get There?

Perhaps, He's in no worse fix than the U. S. Department of Agriculture at this very moment—faced with the biggest program of its history and an appropriation chopped millions short. Will the Department Survive? asks J. Clyde Marquis, in an early issue of

The COUNTRY GENTLEMAN

Every farmer needs to know the answer. In his article Mr. Marquis presents truly enlightening conclusions based on months of study of the national agricultural crisis.

He shows, for example, the effect of reducing the appropriation for Farm Management and Cost of Production Work from \$280,000 to \$80,000, of 12,615 resignations within the department in one year. Such things directly influence the health of your hogs, the efficiency of your dairy, the market for your grain. You need to know about them. And you'll profit by knowing all the other vital farm facts and money-making ideas which fill each of the 52 big issues of this great weekly journal. It overlooks no aspect of your farm business or of the farm home. Let me start your year of Country Gentleman service with this splendid but typical issue.

SUPPORT KING FOR REPRESENTATIVE

Judge A. H. King of Throckmorton County has made this District a good representative in the Texas Legislature during the past two years. He is a candidate for re-election and the Free Press believes that the voters of Haskell, Baylor and Throckmorton Counties will show their appreciation of his efforts by re-electing him for the second time.

We regret that there has been another name placed on the ballot from this county, as it might cause the voters of the other two counties to form a wrong impression and believe that Haskell County is not satisfied with Judge King as our Representative. We realize that this is a free country and every American citizen has a perfect right to run for office if he so desires, but we cannot believe that Judge King's opponent takes his own candidacy seriously. As far as we know he has never made an announcement and but few voters in the District today know that there will be more than one name on the primary ticket as a candidate for Representative in the election which will be held next Saturday.

Vote for King for Representative of the 102nd Legislative District.

Very Old Superstition.

It surprised me to find on investigation that "troubling wood" as a supposed safeguard from the consequences of exhumation or bonifida is a superstition of ancient origin. Authorities on these mythological matters tell us that "it dates from the time when the oak, the ash, the roven (or mountain ash) were held sacred to the gods of the heathen."

Helgolands Legends.

Helgolands great staircase that descends to the rocky heights and furrows lurking above it according to legend in the sixteenth century when a lady was born its feet were battered promptly so the child would slip through the fingers of a fairy who might try to exchange it for the fairy's babe.

Chinese in Java.

The standard of living is probably higher in Java than any other Chinese community in the world. The houses are clean and well furnished, the people dress in European clothing, and every one has a great deal to say about dirt and sanitation. There are Chinese families in Java which have been there for five centuries, but the great majority of the 300,000 who live on the island have come there or are descended from those who came there in the last fifty years.

Sanctimonious.

There's no sanctimony of sanctimony. It's not sanctimonious about the sanctimony of its sanctimony. It finds the sanctimonious and sanctimonious a great frontier in history. It takes the youth further and makes him the reformer of religion. It has taken away from the plow the garret, the scullery and raised them to eminence. It has also used the son of the mansion. It knows men as fit expressions of its purpose and not as individuals. It is limited only by the power of the soul to match itself with the great need.—Exchange.

The Bain Wagon

is built to stand the hard knocks. Its sturdy construction will bear the heaviest loads. Its tested materials, painstaking workmanship and generous proportions throughout, give it the unusual strength and long life that a wagon must have if it's worth putting good money into.

Every Bain Wagon is Warranted. More than sixty years' experience goes into the construction. Rigid and thorough tests are made of every piece of timber put into it. The toughest Hickory is shaped into Bain axles, and axles and skeins are made extra large. Even-grained Oak, air seasoned, is used in the hubs, spokes and felloes.

Throughout the wagon, wherever strength is called for, you will find unusually substantial, reliable construction. Bain wagons are built so that you can "treat 'em rough." Sold by—

When Lincoln and Lee Agreed

Lincoln and Lee differed radically on the one great question of their day, but agreed on the value of a policy in the Hartford Fire Insurance Company.

Both great leaders turned to the "Hartford" for insurance before the beginning of the Civil War, General Lee taking out a Hartford policy on "Arlington," while President Lincoln insured his home at Springfield, Ill.

As in the days of Lincoln and Lee, men who know the long, clean record of the "Old Hartford" instinctively select it to protect their homes and other property.

Owing to the heavy reports asked from this office during this month, it has been impossible for me to see the voters in Person.

I have made every effort in my power to administer the duties of County Supt. efficiently and impartially and feel, if elected a second term, I shall be more capable and can do more to MAKE HASKELL COUNTY SCHOOLS BETTER than the past term.

My work with the trustees, teachers, patrons and pupils has been very pleasant and I am indeed grateful for the hearty cooperation each has given me.

Thanking you for the support in the past election and earnestly soliciting your support and influence in the primary on the 24th of this month, I am,

The United States did not acquire, by the Isthmian canal convention of November 18, 1903, any title to territory in the Republic of Panama, but merely a perpetual right of occupation, use and control over a zone of land ten miles in width, and covering an area of 436 square miles. Josephine's Horoscope.

Is there such a thing as seeing into the future? Yes. Here is one of the many testimonials to the solemn gift. When the Empress Josephine of France was a girl in Martinique, an old colored woman, named Euphemie, "told her fortune." "You will marry a fair man. Your star promises twofold alliances. With your first husband you will have a tragical lawsuit. Your second husband, a dark man of slender figure, will fill the world with his fame and glory. You will be greater than queen. You will die unhappy. The entire prediction came true."

are opening a branch office here and will be represented by their District Manager Messrs. Cooper and Cates. Also Mr. Nall has been added to their force as salesman. You will hear from them again in our next edition as they will open for business next week.

I AM SOLICITING

the votes of the people of the 28th Senatorial District and offer to them for their consideration the following principles and needs of the people of the District.

I am in favor of education, and if I am elected your State Senator, I will use my best efforts to utilize the powers of the State Government to improve the schools of our State. As a means to make our school system more efficient and conducive to educational advantages, I am not only in favor of better pay for teachers, but adequate pay in order that their living conditions may be in keeping with the dignity of their profession.

As the most important business in Texas is that of farming in which not only the farmers are interested but upon which depends the prosperity of merchants, bankers, laborers and every other class, I am in favor of such laws that will make farming more profitable and bring the producer and consumer closer together, thus benefitting both and incidentally every other class.

I stand for an economical administration of the government. And I mean by economical administration of government, decreasing the number of employees to the minimum by cutting out useless offices, and by abolishing offices that are not of real benefit to the general public.

Since taxes are a burden on the people, I believe in an equal distribution of them, letting the burden fall on all the people in proportion to their ability to pay. And I am against granting special privileges or immunities with reference thereto.

I believe in a written Constitution. And since the Constitution is the only product of the people and their only bulwark of protection against the encroachments of public servants in every department of government, I stand for a strict construction of its provisions and a close adherence thereto. I, therefore, am not in favor of interpreting the constitution to meet the exigencies and

desires of politicians but instead I am in favor of amending that instrument. Consequently, I shall support the submission to the people, all amendments, that are important and pertinent to the interest of the people.

I believe in the State's using its police powers freely to guarantee the State at large the best moral conditions and environment.

Texas is a State in which a variety of conditions exist relative to kinds of soils, rainfall, and climatic conditions. And especially is West Texas different from other parts of the State with reference to these conditions. This fact makes it necessary to scientifically arrive at the proper farming methods for this section of our State. Therefore, at an early date, the legislature should establish an Agricultural and Mechanical College in West Texas to care for the needs of that great and growing section.

Mrs. Swanson's Nerves Were Upset From Years of Trouble—Gains 20 Pounds

"For the benefit of thousands who are suffering from stomach trouble and a run down condition I want to tell of the wonderful results I have gotten from Taniae," said Mrs. Lena Swanson of 1720 North Madison St., Peoria, Ill. "It was eight years ago that my stomach got out of order and my health began to fall," she continued. "Finally I got to feeling so bad that I lost interest in everything and got no pleasure out of life. My food acted like poison to my system and I would bloat up with gas and suffered agonies. My heart would flutter until I was almost faint and at times I would get so dizzy the house seemed to be whirling around. I had to almost stop eating and became so weak it was all I could do to get about the house. My nerves were so shattered even the ringing of the telephone upset me and I had to muffle it. I slept very little and seldom woke up in the morning without a dull, nagging headache.

"My brother had gotten such fine results from taking Taniae that he talked me into trying it and I improved remarkably with the very first bottle—got so I could eat and sleep better. Now after taking five bottles my friends tell me I am the picture of health. I can eat anything, even boiled meats, cabbage and pickles without a bit of trouble with my stomach. My nerves are calm and I sleep like a child every night. I have gained twenty pounds in weight and I never grow tired of praising Taniae."

Taniae is sold by the leading druggists everywhere.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.
