It felt good, didn't it? All that Patriotism during the Persian Gulf War made almost everyone feel proud.

People who haven't felt a shred of pride in their country for years, in fact, felt almost embarrassed by expresses of national loyalty, have participated in patriotic displays all over the nation.

During the past few months there have been flags flown from buildings, roof tops, flag poles and businesses.

Red, white and blue ribbons have adorned signs and homes, accompanied by yellow ribbons.

Churches have been decorated with the red, white and blue theme. Rallies have been held with patriotic speeches, music and programs.

On lapels and hair ribbons, coats and tee shirts the symbol of our nation has been emblazoned or pinned on.

The United States flag, with its brilliant red, white and blue, has brought a lump to many a cynic's throat as it waved and snapped in the breeze.

I repeat, it felt good, didn't it? Now we are going back to business as usual.

Why? Oh, I don't mean that we shouldn't be relieved that the crisis is mostly behind us.

I don't mean we should continue with yellow ribbons every where.

But why not take the little bit of extra trouble it takes to fly our flags?

Flags don't have to be just for special occasions, or wars.

They are beautiful, and a proud symbol of the American heritage.

There is nothing wrong about displaying patriotism, so keep right on feeling good, folks...and fly those flags!

MARTHA GLOVER'S #1 hobby is cooking. She is sharing some of her favorite recipes with us this week in Country Cooking. (Staff Photo by Gerrie Bankhead)

Country Cooking

By Gerrie Bankhead

Country Cooking is being shared this week from the kitchen of Martha and Duane Glover of Deport.

Being residents of Deport most of their lives, they have been married for 42 years and have three children; a son, David who is a pharmacist in Dallas; a daughter Betsy and her husband Jerome Chapman and son, Ty, age 8; and a daughter, Marilyn, a pharmacist in Deport.

Martha and Duane are active members of the Methodist Church. Martha's #1 hobby is cooking and she loves entertaining guests and family. She always gets involved in benefits and activities held in the Deport area, whether she needs to cook, visit, share, organize, etc. She loves to meet, be around, and talk to people. She never says "no" when asked to help out.

One area of cooking she is preparing for is the stew supper and chili cook off to be held in Deport soon, and she is sharing her recipe for the chicken stew with us this week. She revised the original recipe by adding several more ingredients to the basics which makes the stew more tasty.

Martha also enjoys working at the drug store when needed because this gives her more opportunity to meet and visit with friends. Another enjoyment is working in her yard, as she loves to grow flowers. They have a small vegetable garden but she has turned that job over to Duane. She wants to stick with growing flowers.

Martha also enjoys playing the organ at her church. She helps out whenever needed for funerals and weddings also. Being taught to play by her late aunt, this has continued to be a hobby that fulfills many hours of enjoyment.

Both Martha and Duane are avid basketball fans and have been for many years. Since their children are no longer in school, they enjoy watching college games more and they also enjoy football games at Austin and Dallas. While Duane is engrossed in the game, Martha is busy finding someone to visit with.

She is also sharing her "Dressed Up Pinto Bean" recipe. Each year her son-in-law brings in a huge bag of Colorado beans for her from his hunting trip that she uses in this recipe. She hopes you try adding this to your beans and see what a difference it makes.

She is also sharing her family's favorite cake, Apricot Nectar Cake. Her children asked her to share this recipe with the readers.

Her recipe for Forgotten Cookies is one she has made for many high school basketball trips when her children were in school and she still makes them to take to coffees and teas at the church.

We hope you enjoy the recipes this week. If you have a feature suggestion, please call 652-6032 or write to Rt. 1, Box 67A, Deport.

Of "Americanism" of the right sort we cannot have too much. Mere vaporing and boasting become a nation as little as a man. But honest, outspoken pride and faith in our country are infinitely better and more to be respected than the cultivated who sets it down as ill bred and in bad taste ever to refer to our country except by way of deprecation, criticism or general negation.

Begin Lawn Care Early

Beautiful lawns are the result of planning and good management throughout the year and now is a good time to get into the swing of things for 1991.

"Lawns should be mowed close, removing all dead grass, debris, leaves and weeds," said Dr. Sim A. Reeves, Jr., agronomist for the Texas Agricultural Extension Service. "Delay the first application of fertilizer un about mid-April to prevent feeding weeds instead of grass."

Any low spots in the lawn should be leveled with good sandy loam soil. Grass will generally grow through

this added soil if no more than one to two inches are applied.

It is too late to apply pre-emerge herbicides. If weeds are a problem, several post-emerge herbicides are available. Read and follow label directions, making certain your lawn grass is approved on the label. Some herbicides are very selective while others kill a wide variety of grasses, weeds and shrubs.

A soil test should be done on the lawn every two to three years. This is the only method to accurately determine the nutrients for that specific lawn.

Social Security Notes

By Ray Hudson,
District Manager

Curious about how much your Social Security benefit will be when you retire? Need a Social Security number for your child? Changing your name because of marriage or divorce?

All you have to do is contact Social Security. You should know that there is no need to pay for these services. Many times people will get advertisements from companies that offer to assist people in their dealings with Social Security, for a fee. But there's absolutely no reason to pay a middle man for services that Social Security offers for free.

Advertisements for these companies special as if they're offering some special service that Social Security doesn't provide, or that they have some secret information that we won't tell people about. Some companies make it sound as if they can expedite

the service.

These claims are absolutely false. In reality, the companies come to Social Security to get the information. They just act as a go-between, which adds an extra step to the process, thus slowing it down.

So why do people pay for services they can get for free? There are a number of reasons. Some people just don't realize that Social Security offers the service. Others are leary of dealing with a bureaucracy so they are willing to pay for the assistance that they really don't need. And sometimes, people get official looking mail and think they're from Social Security.

If you need help with a Social Security question, contact your local Social Security office.
