Nichols

Someday, in a blaze of glory, the message will translate into written language and I will manage to actually write exactly what I mean to!

It's so frustrating to have these brain storms, and then be unable to set it all down on paper in exactly the manner I want to.

The golden, perfect images in my head just won't translate into words!

That, of course, must be what separates world-class authors from those who aren't...those folks take the swirling thoughts within their minds and they come out true and perfect.

Of course, "perfect" takes lots and lots of work...but for me, the more I pursue something the more elusive it becomes.

I end up having to sneak up on an idea, write it out as quickly as possible, and hope for the best.

When I begin picking and pulling, stretching and condensing, things always begin to suffer!

I understand it's the same with a lot of people.

Letter writers tell me that frequently when they sit down to communicate with family or friends they go as blank and empty as can be, while others pour out everything that has been going on in their lives with no trouble.

Many columnists for large, syndicated papers have researchers who come up with ideas for them. I frankly can't see how in the world they manage to take someone else's ideas and translate them into something. They do an excellent job, however.

Why am I thinking about just how difficult it is to get an idea to come out right on paper?

Because there are two or three things worth observing right now... for example, the golden, rapturous quality of early morning sunlight on the unsullied leaves just sprung from buds.

Another, the majesty and tension in the air before one of the frequent thunderstorms...where the birds are taking last minute dives after insects before the rain and the horizon promises fearful glory.

How does one describe the feeling of warm spring sun on winter white skin, or the white of calves just introduced into this world?

These are a few of the images and feelings I'd like to be able to express...but words fail me.

But I know that someday, in that blaze of glory, my words will work out...and I'll get my message across.

Texas-New Mexico Safety Fair Is May 2

An electric arcing demonstration that has received favorable comments throughout Texas-New Mexico Power Company's service area will come to Bogata May 2 during the company's safety fair.

The safety fair is free and open to the public and will be held from 9 a.m. until 4 p.m. at TNP's Bogata Construction Center on Highway 271.

The electric arcing demonstration will be presented at 10 a.m., at noon and at 2 p.m., using live electricity to dramatically demonstrate the dangers of electricity.

TNP has presented the demonstration in various towns it serves and has received favorable comments from those attending. "Excellent" and "educational" are two words that have been used in many of the thank you letters TNP received concerning the program.

Although the electric arcing dem-

onstrations will be one of the most vivid reminders of the need for safety during the fair, it certainly won't be the only one. Exhibits at the fair will also provide information about high-way safety, hunting and fishing safety, fire protection and other ways to prevent accidents and injuries.

In addition to TNP, exhibitors include Contel, Deport Fire Department, American Red Cross, Red River County Extension Agency, St. Joseph's Hospital, Texas Department of Public Safety, Texas Parks and Wildlife and St. Michael's Hospital.

The fair will also feature an exhibit of the winners of a safety poster contest sponsored for students in first through fifth grades at five area elementary schools. The school winners will be on display at the fair, and a grand champion will be selected from the five school winners. The grand champion will receive a bicycle.

Statement of Intent to Change Rates

In accordance with the regulations of the Public Utility Commission of Texas, Texas-New Mexico Power Company announces the Company's intent to change rates for its entire Texas operations. The effective date of such change is May 17, 1991. All classes of customers will be affected by said proposed changes. The proposed rates will produce an increase in gross revenues to the Company over test year revenues adjusted for test year customer growth and weather and annualization of test year rate increases of \$35,836,827, or 9.63%. TNP is proposing an alternative rate base treatment for Unit 2 of TNP One, the second unit of the Company's generating facility located in Robertson County, Texas. Under this alternative, sale-leaseback treatment will be given to Unit 2, thereby including a lease payment in the cost of service, as opposed to traditional rate base treatment. If adopted, the sale-leaseback plan results in an increase in gross revenues of \$31,210,197, or an 8.38% increase over adjusted test year revenues during the first year of the plan. Texas-New Mexico Power Company provides electrical service to more than 165,011 customers located within the state of Texas.

A complete copy of the requested rate filing package is on file with the Public Utility Commission of Texas in Austin, Texas, and with all cities served by Texas-New Mexico Power Company which have retained original jurisdiction. You may inspect a copy of the filing during normal business hours at each business office of Texas-New Mexico Power Company in your area.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

Country Cooking

By Gerrie Bankhead

Country Cooking is being shared this week from the kitchen of Charles and Alice Perry of Bogata. Charles and Alice have been married for eight years and have lived in Bogata all their lives. They have two sons, Rodney, age 13 and Zachary, age 5.

Alice has been an employee at Red River Haven Nursing Home since she was a senior in high school. She is the Dietary Service Manager, ordering all the food, making all the schedules, preparing documents and working with a staff of 14 employees. Alice also has two part time jobs, one at Burress Food Store and at the Deport Post Office. She and her family attend the Free Hope Baptist Church in Bogata.

When asked to share her hobbies, Alice quickly answered her favorite pastime is playing bingo. She enjoys meeting and visiting with people and also enjoys the prizes. She also enjoys cooking, of course, her job proves that. She says she is not a dessert cook, she likes to prepare main dishes. She enjoys having friends and family over to eat and for these occasions she likes to barbecue or fry fish. Charles does not enjoy the cooking aspect, just the eating.

Alice also enjoys working with crafts, ceramics and pretty-punch. At the present time she is taking piano lessons. She began about two months ago and is thoroughly enjoying it.

The recipes she shares with readers this week are among her and her family's favorites. When she cooks the Mexican Cornbread, she prepares a big pot of pinto beans and since the bread has meat and vegetables in it, you have a complete meal. Alice says the pot roast is a meal you can put in the oven on Sunday morning before church and a couple of hours later, you have a delicious meal ready to eat. Her Banana Split Salad is also a quick and easy recipe, but very rich. She received this recipe from a friend in Ft. Worth.

If you have or know someone who has trouble with high or low cholesterol or diabetes, I have asked Alice to share some of these recipes with us. She has agreed to do so and we will print them soon. Also if any of our readers have recipes in these areas to share please send them to me and I will print them.

I received several replies this week concerning our recent requests. We want to share two Jeff Davis pie recipes, which are totally different and you can take your pick. One is shared from Dorothy Ritchey and the other, along with the Vinegar Pie recipe is shared by Regina Webb.

If you've enjoyed the article, request a recipe or have a recipe to share or suggest a feature, please call 652-6032 or write Rt. 1, Box 67A, Deport, TX 75435.

The luxury four-door with more standard horsepower than Ford Taurus GL? Finally, there's Summit three-door. For those who look for economy in price, but can't afford to skimp on room. If that isn't enough, every Eagle comes with impressive mileage ratings. Great for the long distance... phone or no phone.

Child Protective Services Supports Projects To Meet Needs

The Child Protective Services is a division of Texas Department of Human Resources, organized in 1932 to meet the needs of children. Child welfare came under the State Department of Public Welfare when it was created in 1939.

Local boards are established through a contract between a county's Commissioners Court and the Texas Department of Human Services, with board members appointed by the Commissioners Court, usually from different areas of the county, to represent the county. The board is responsible to the Court for a budget for the use of federal, state and local funds.

The board members help develop policies to meet the needs of the county. These policies involve payment to foster parents, clothing and transportation for foster children, fund raising and use of local funds.

The local board tries to see to the needs of abused and neglected chil-

dren in this county. Most people are greatly surprised to learn how many children in Red River County are abused in some way. In most investigated cases, children are able to be left in the home, under supervision of the Child Protective Services. Sometimes the abuse is so severe the child must be removed from the home for their protection and because of this, foster homes are approved where these children can find love and care until final placement can be made.

Your local board is very appreciative of the financial support given to help these children. The recent annual fish fry in Clarksville succeeded because you care and you showed that you care.

The students of Rivercrest High School Student Council recently showed their care by sponsoring the walk-a-thon for the children.

Merchants of the area said "we care" by donating prizes and money.

standing performance of duty, professionalism and overall dedication to the service.

Patterson Introduces Right-To-Recall Bill

State Representative L.P. (Pete) Patterson, D-Brookston, has introduced HJR 61 which would give the people a right to recall all elected officials. Rep. Patterson said he believes it is very important for citizens to have a means to bypass political roadblocks to remove elected officials who fail to carry out the responsibilities of their elected office or fail

to respond to the wishes of the voters who elected them.

Rep. Patterson, serving in his eighth term in the Texas House of Representatives said "I realize I am exposing myself to recall by the voters by proposing this legislation. If voters in my district feel I am not representing them, then they will have the means to do something about it."

Talco State Bank Presents Banking Course At Rivercrest

Typically, people have had to go to banks to learn about banking. The transition is being made, however, the banking representative assisting the teacher with the technical aspects of banking.

This is evident in the VHS video cassette program, "Banking Is..." which the Talco State Bank presented as a public service to the students of Rivercrest High School, was Donald Stockton, instructor.

In making the presentation, Rusty Jones said, "The program gives the students first hand experience with the basic bank activities they will use throughout their lives."

"Writing a check, applying for a loan, computing interest and using a bank's services are things most adults take for granted; we have done them all our lives. But these activities must be learned, and for many of today's students they can be foreign as any new endeavor," Jones said.

"In today's world of advancing

technology, banking by trial and error is not a satisfactory solution. For instance, today check writing is as much a part of life as driving. Statistics show that less than 85% of the graduating high school seniors know how to write a check properly. So, it is easy to see that check writing is an activity that students should understand if they are to take their places in the financial community."

"We hope our sponsorship of this program will help give students a more thorough and systematic understanding of these basic banking activities, the new services that are available and help them in management of their personal financial affairs."

In addition, Jones pointed out that as part of the program an officer of the bank is available for a follow-up classroom question and answer session and the students may be given a tour of the bank to see numerous financial operations at work.

Subscribe Now And Avoid The Upcoming Price Increase

Now is a perfect time to subscribe to the Talco Times at \$12 for a whole year (within Titus, Red River and Lamar Counties). After June 1, 1991, the cost within these counties will go up to \$13 per year. At present the cost outside of these counties will remain at \$16 per year.

This price increase is necessary because of the recent 22% increase in postage for the second class mailing rate, printing cost increases and salaries.

Every effort has been made to keep the price of a year's subscription

to the paper down, but the time has come that some of these costs must be passed on.

There has been no price increase in the cost of the paper for over two years, and there have been increases in everything that is used to produce the paper.

However, readers can still take out a subscription for less than they can buy it at the news stand. News stand prices too, may soon go up to 35¢ per copy.

So act now and clip the coupon from this week's paper and renew before the price increase.

Immunization Clinic Scheduled

The Texas Department of Health, Public Health Region 7 office announced plans for the continuation of a series of monthly immunization clinics for all children needing immunizations, who meet the required family income determination guidelines.

The clinic will be conducted at 1014 N. Jefferson in Mt. Pleasant on May 1 from 8:30 to 11:30 a.m. and from 1 to 3 p.m. Future clinics will be held on the first and third Wednesday of each month.

The Health Department emphasizes that this clinic is available to all preschool and school age children who meet the family income guidelines, beginning at two months of

age. Immunizations to be offered include Measles/Mumps/Rubella, Oral Polio, Diphtheria/Tetanus/Pertussis and Tetanus/diphtheria. The Haemophilus Influenzae type b vaccine is also available to medically eligible children between the ages of 18 months and 60 months. All children must be accompanied by a parent or legal guardian. Parents are reminded to bring the child's immunization record and Social Security number if available. The Tetanus/diphtheria vaccine is available to medically eligible adults.
