Electric Ranges

are—

Cheap—

Economies, obvious and subtle, attain in the operation and use of Electric Ranges. An exceedingly low current rate exists for range users, and electric cooking saves the wastage of food which occurs under the old methods of cooking.

Clean—

No smoke, no fumes, no burnt matches are found in kitchens where electric ranges are employed. It is the one clean way to prepare food for human consumption.

Convenient—

The concentrated heat of an electric range means rapid cooking, and its high efficiency eliminates the unnecessary discomforts of the constant attention and adjustment which must be given to non-electric ranges. In warm weather, the electric range contributes nothing to a kitchen's heat.

Electricity is the intelligent way to cook. Call, write or telephone for prices.

CRIME PUBLICITY.

Haskell Free Press: Bad news travels faster than good news. There is an old saying: "No news is good news." Let a man be converted at a church service and there is not much of a stir, but let a resident be convicted of some crime and the news keeps by word of mouth from one end of the community to the other.—Haskell Free Press.

The facilities possessed by the people for gathering and disseminating news tend to give an impression that crime is increasing. The newspapers, which the people treasure above most of their other treasures, have organizations which comprehend every county and precinct in the nation. Naturally, as long as crime is considered news this immense country, with its 110,000,000 inhabitants, will afford a fearsome lot of raw material for our alarmists to work with. Texas is a subdivision containing about 5,000,000 people, some of them mean. In considering the crime statistics we should remember that our single State now has a larger population than the whole country had in George Washington's heyday. Also it has five times the population it had in General Houston's day. It may very well be that part of the bad showing our country makes in the volume and velocity of its crime, as compared with other countries, is partly due to our superior press service. No other country's press has an equivalent equal to our in collecting news, and going to the competition between newspapers some of them play up crime news in order to attract the patronage of the morbid element.

Things are hardly ever as bad as they sometimes seem to be. Our politics is often disgusting, but our political campaigns are certainly less offensive than were those of the noisy and quarrelsome era of Andrew Jackson, for in-

stances. Week by week in every check we are getting dumber and dumber.—Dallas News.

A number of friends in a lodge here in Haskell were giving a fellow lodge-member some advice against becoming intoxicated, and suggested that when he had enough to drink that he should ask for sarsaparilla. The fellow replied when he had enough to drink that he could not say sarsaparilla.

In England 98 per cent of the murderers are caught and either hanged or imprisoned for life—consequently there are very few murders in England. In the United States about 80 per cent of the murderers are set free on trumped-up pleas of the "unwritten law" or self-defense—and murder is one of the country's big industries. There are yet some things we ought to learn from the mother country.

A newspaper man can ask one hundred persons, "what is the news?" and ninety out of the hundred will say, "nothing special" and yet fifty out of that hundred know something if it does not appear in the next issue of the home paper will be astonished and disappointed. INFORMATION

The services of the City Sanitary man is the small sum of 50 cents per month. For this you can get your rubbish, tin cans and other accumulation hauled off one time each month. Most of the residents of Haskell do this, and the expense of a city wagon for a general clean-up is not necessary. When most of the citizens clean up at their own expense is it right to use part of their tax money to clean up for the other citizens who will not do so themselves? The City Council has asked the Sanitary Man for a list of the citizens who are not using his services.

Some garages and shops in town have never called on the City to haul away their junk. Is it right to use a part of their tax money to aid the other fellow in cleaning up who might let it accumulate?

To keep a CLEAN town we must clean up monthly and thereby stay clean. To clean up annually, we stay dirty (most of the time.)

"We cannot be GODS but we can be Clean."

Painting your house after a thorough cleaning up is like putting on clean clothes after an invigorating bath. Cleanliness makes you feel so good you just naturally want to "doll up."

A new dress of paint on your house makes you feel proud to own the place. To clean up and then neglect to paint up makes you feel like any decent man feels with a clean shave and a dirty collar.

Now is the time to paint, and the prices are right. No "war prices" in our Paint Department.

O'BRIEN

By Mrs. W. B. West.

Everyone enjoyed the good rains which have fallen since our last writing, and the farmers are getting ready to plant.

Some of the O'Brien people attended church at Knox City Sunday morning. Dr. Knight of Seminary Hill College, Fort Worth, preached a very fine sermon.

The singing Sunday afternoon was well attended. We were very glad to welcome the visitors from the nearby classes and invite them back again. Wayne Barnett spent Sunday in Anson.

Cecil Cooner of Gorman, Texas visited home folks here the past week.

Joe Walsh of Eastland is visiting home folks this week.

We are glad to report that there were 104 present at Sunday School Sunday, even if some did play "hooky" and go to Knox City to church. Next Sunday is our regular preaching day. Let's everybody come and reach the 200 mark.

Quite a number of O'Brien people went to Knox City Friday afternoon to hear Dr. Knight lecture on the "Principles of the Ku Klux Klan." All reported a fine lecture.

Walter Davis and son from Hebran, Texas, were here last week looking after his brother, Morgan Davis, business who was recently killed in an automobile accident.

Desmond Ivey and Almer West were O'Brien visitors Wednesday night. Everybody remember the all day singing to be held at this place on the

fifth Sunday, April 29th. Everybody is invited to come out and bring a well filled basket.

Will Thomas is spending a few days in Breckenridge looking after some business.

Carl May Moma and Jean Oalt of Oklahoma are visiting their grand-parents, Mr. and Mrs. DuPuy of this place. The school at this place is progressing nicely and will close June 1st.

SAGERTON

By Theodore J. Ratliff

The Sagerton High School presented "A Little Cloadhopper", to a crowded house last Saturday night. Despite the threatening rain the auditorium was filled. The total receipts were forty-six dollars and some odd cents, thanks to the loyal support of the patrons. This will be enough to repair the seats of the auditorium and install a front drop curtain and make some other stage improvements.

The play was a three-act comedy written especially for high school students. The Sagerton students did well with it and the audience was well pleased. Those taking part were: Miss Edna Mae Gibson as Judy Moffatt, the Little Cloadhopper, Miss Vera Walker as Mrs. Chiggerson-Borns, a scheming society dame, Miss Bonita Quinn as Miss Julietta Bean, an old maid boarding house mistress, Miss Orline Burrow as Charman Carter, a movie actress who furnished the backbone for her rather spineless husband, George Chiggerson, an innocent lamb from the city, played by Theodore Ratliff. Joe Bradley did well as Ocie Gump, a country hired man and later a city policeman. Alfred Woods as Septimus Greene the book agent, was also a favorite with his untiring efforts to sell the most wonderful book of the age. Some of the younger pupils gave some good reading between the acts.

Thanks are extended to all those who helped in any way to make the play a success. They are too numerous to mention in detail.

Sagerton received her long-hoped for rain last week. Something over an inch fell in all. It fell splendidly, every drop going either into cisterns or into the ground. This puts things in fine shape for this season of the year and if they continue to come there is no reason for good crops not being made. Some of our new citizens were beginning to feel a little discouraged and could be seen anxiously looking toward the east, but we are glad to report that they are regaining their confidence in the producing ability of Haskell county.

Last week we reported Mr. Bailey Post of Haskell as receiving more votes in the Sagerton box than Dr. J. C. Davis of Sagerton for the office of county school trustee. We wish to state that this was correct, but it should not be taken as an indication that Sagerton citizens do not appreciate Dr. Davis. The facts are that Dr. Davis had no intention of seeking the office and his name was not placed on the board as a possible candidate until late in the afternoon after most of the votes had been cast. Dr. Davis is highly interested in the cause of education and would have filled the office with high credit to himself and Has-

gell county had he been elected.

Rev. Robert Smith of Simmons College filled his regular appointment at the Baptist Church Sunday morning and evening. A singing was conducted in the afternoon which was well attended and enjoyed. Bro. Smith has a splendid singing voice and his singing is always enjoyed by Sagerton people.

An old plat of the town of Sagerton as first laid out reveals some interesting facts concerning the town. It was first laid out about 1903 and was called Sager in honor of W. M. Sager, now of Chillicothe. The postoffice department suggested that the suffix, ton or ville, be added to prevent confusion with Sanger in Denton county, and other towns of similar name. So the town was called Sagerton.

The streets running east and west were numbered from First to Eighth, commencing at the northern boundary of the townsite. Those running north and south were called avenues and named for the president of the United States, commencing on the West with Washington and running to Grant on the east. This was following the same system that Amarillo had used so successfully. Sagerton will soon celebrate its twentieth birthday as a town.

Rev. J. Holm left Sunday for Taylor to attend the annual convention of the Texas District of the Lutheran Iowa Synod, which convenes there from April 17 to 23. Mr. W. Knipping of Capron went as delegate from the St. Paul's congregation.

Miss Sala Mae and Hugh Ratliff of Haskell visited in Sagerton Saturday night. Miss Ratliff furnished the music for the play at the High School.

More men is sometimes prone to become vain and proud, the treatment is to walk a little way under the brilliant stars as they have been visible for the past few nights. The same stars that were old when man first appeared and walked in the Garden and that shall shine when the last man and woman are dust.

Firestone Prices on Fabric and Cord Passenger Car Tires and Tubes, also Solid and Pneumatic Truck Tires Will Advance May 1st

The postponement of this price revision is possible only because of our realization of the price danger in the British Crude Rubber Restriction Act which became effective November 1, 1923. We were fortunate in our rubber purchases before the Restriction Act increased the price of crude rubber 150%.

We have always endeavored to champion the cause of better made tires delivered at lowest cost to the tire user by economic manufacturing and distribution. And we are glad of the opportunity to give the car-owner the additional saving at this time.

Firestone Cords embody certain special processes which result in their producing

mileage records, heretofore unheard-of in the industry. Among the more important of these superior methods are blending, tempering, air-bag cure and double gum-dipping.

Firestone Dealers are co-operating with us in our movement to supply your needs at present prices as long as their stock lasts and we have advised our dealers that we will supply them with additional tires this month only so far as our output will permit.

See the nearest Firestone Dealer. Purchase a set of these Gum-Dipped Cords. Prove for yourself their remarkable mileage advantages and excellent riding qualities.

THE "special discount" is tempting, but not when you understand who pays for it. The tire dealer doesn't pay for it. The manufacturer cannot afford to. Chances are it comes out of the quality of the tire, so, after all, you pay for it. None of the quality of Goodyear Tires ever is sacrificed to "special discounts" or anything else.

After the house burns

It's too late then to think about removing the papers in the attic or the rubbish in the yard, where the fire started.

Remember that a stray spark cannot do harm when it lights on a clean surface, nearly so easily as when it drops in a pile of old rags, papers or dead weeds.

Every household, every business, every building, should be insured against fire; but how to prevent fires is what the insurance man talks about first.

Clean Up and Stay Clean and help to decrease the nation's \$500,000,000 annual fire loss. Clean Up means fire prevention, Paint Up helps to keep clean.

Inactive Liver

"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 4412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a light, dizzy feeling in my head. To get up in the morning with a lightness in the head and a tremble feeling is often a sign that the stomach is out of order. For this I took *Theford's Black-Draught*, and without a doubt can say I have never found its equal in any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have used it a long time, when food does not seem to set well, or the stomach is a little sour."

W. P. Whitford of Dennis Chapel, who has been a resident of that section for more than 20 years in the city Wednesday. He says this is the year that the farmers should have sown wheat in his community. The wheat that is sown, according to Mr. Whitford is looking fine.

To Stop a Cough Quick
take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.
A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.
The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.
Both remedies are packed in one carton and the cost of the combined treatment is 35c.
Just ask your druggist for HAYES' HEALING HONEY.

E. W. Stephens of Dennis Chapel was a visitor to the city Tuesday. He says he recently made a trip to Amarillo and that the rain was pretty general over most of the west. Around Crowell he says the wheat needs rain now. Not enough rain has fallen to do that section very much good. But we are sure the rain will come in time. He also reports a few cases of Glanders among the stock in his section and says that at least 30 head of horses and mules had been condemned and shot around Rochester and O'Brien and through his section of the country. This is very serious to some of the farmers at this time of the year.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.
