

Nichols
Worth

By Nanalee Nichols

Okay, so I have been staying awake nights once more. Llamas began it, and what should have been a simple question has turned into quite a large bundle of questions.

Marilyn Glover in Deport has a "mama llama" (say that two or three times really fast) that gave birth to a beautiful little baby about two weeks ago.

I actually called her last Saturday night to ask her what a baby llama is called.

After all, dogs have puppies, cats have kittens, cows have calves, horses, colts. None of these names really seems to be a derivative of the parental name.

Sure enough, a baby llama is a "cria". Well, of course, that left the question of what a mama llama is called...and what a male llama is called, and do they have the equivalent of heifers and cows? She promised to dig all this information out of a book for me, but the report hasn't been submitted yet.

Naturally, with my twisted mind, these questions led to more questions. For instance, what do you call baby snakes? My husband, who has a true phobia about the reptiles says "dead, I hope", but that wasn't the answer I was looking for. Are they snakelets? Slitherettes? What!

Same goes for little lizards.

What's a baby squirrel called? I mean, surely there is a name like the ones given to chicks, fox kits, or lambs? Or are they simply baby squirrels? Naah, anything so cute has to have a name to fit! (Yes, I'm aware many people consider them rats with fuzzy tails but I like 'em).

There are bull, cow and calf elephants, but what is an infant camel known as?

If a mother horse is a mare, what is a mother camel called?

Hey, what do you call an infant alligator...an alligatorette, a geezer, gatorling?

Here's a whole other can of worms, too folks. What are newly born worms known as? Baby mosquitoes, infant ticks, tiny termites?

I find myself painfully ignorant about the family structure or many types of critters!

But, perhaps the most burning questions of all is...who figured out all these names to begin with? After all, what makes frogs frogs and tadpoles tadpoles? Why are new-hatched ducks ducklings and new hatched swans cygnets? Who thought that up. Or who decided to call young geese goslings and baby goats kids?

Anyone with answers...feel free to let me know! Because the deeper I delve the less I feel I know about his whole situation!

COOK OF THE WEEK-Featured as the cook of the week in the Country Cooking column is Chris Anna Screws. (Photo by Judy Screws)

Country Cooking

By Judy Screws

I'm doing it again. I'm featuring one of my favorite people as the cook of the week. Chris Anna Screws is our daughter. She and her family live in Paris. Chris has three children, Christopher 8, Yolanda 4, and Jerred 2. Christopher is in the third grade at Thomas S. Justiss Elementary School.

I really care for other people besides family, but I especially love family. Sometimes I love our children more than I like them. Right now they are all in pretty good shape with me.

Chris is the youngest of our children. She enjoys her family, crocheting, going to garage sales, and watching soap operas and cooking shows on television. She also enjoys something with which I cannot identify. She loves to re-arrange her furniture. I guess she got that from Mama. Daddy always said he never knew from one day to the next where their furniture would be when he came home in the afternoon. It's the same way at Chris' house.

Chris is a pretty good cook. She has always called long distance to get recipes when she started to cook

anything different, and as with the other kids, she doesn't write them down so she has to call again the next time she makes the dish.

Chris Anna cooks quite a bit of Mexican food, and enjoys cooking outside on the grill. The recipes she has given me are Guacamole, Pico de Gallo, Taco Soup, and Flour Tortillas. I had thought she was going to tell me how to make refried beans, but she didn't, so when I called her, she told me that all you had to do to make refried beans is to cook a pot of beans, put a little oil in a large skillet, get it really hot, pour the beans in it, and mash them with a potato masher. Add a little chilli powder and sprinkle some grated cheese on top. That sounds easy enough.

I thank Chris for letting me put her in my column this week. You all probably think I'll soon run out of family, but I won't for a long time. I haven't even made a dent in them, yet and I'm glad, because I love having lots of family.

Have a good week.

We Cover 3 Schools, And All Have Had Play Off Competition!

As you all know we have five papers, and those five papers serve three separate school districts.

And, I thought it worth while to point out that all three of our school districts have had teams in playoff competition.

I think this is an excellent achievement for all the schools and students, coaches and teachers, as well as the school systems in general.

As well as their athletic achievements, I believe these schools are also offering a solid educational base, too.

The Earlier News Comes In The Better

A word about deadlines, please. All newspapers have deadlines. Ours is more flexible than most, however, we are asking for the help of our contributors.

We want your news...every bit of it...and the earlier in the week we can get it the better job we can do.

Please, help us produce a better product by getting your news, stories, locals, engagements, weddings, anniversaries or whatever you have in on Mondays if it is at all possible, or as early on a Tuesday morning as possible.

If you need to wait until the 1:00 p.m. deadline on tuesday, of course, do so.

But the more we can get on Mondays, the better job and more time we can take to set it.

Thanks for the help...and remember...please DO send us the news!

Texas Department of Public Safety

James Davis Candidate For County-Wide Justice Of The Peace

With the experience I have gained during the eleven years you have allowed me to serve as your Justice of the Peace, I feel I am better qualified to serve and to operate this office in an efficient, energetic and economical manner.

I have certificates totaling 260 hours of education and certifications from Southwest Texas State University, Texas Justice Court Training Center, San Marcus, TX. I also have approximately 100 hours of additional training from specialty seminars such as Texas Bureau of Vital Statistics, Austin, in death investigation, death and birth certificates, juvenile law and truancy, emergency warrants for mental and chemical dependency and search warrants.

The most important change I feel necessary is to be available to the people 24 hours a day, 7 days a week, to become your full time Justice of the Peace.

In 1983, when I took office, my salary was around \$4,000 a year. I took home approximately \$200.00 a month. At that time, I had a service station and maintained my office there. Through the eleven years, we have had salary increases and to date I am drawing \$7,812.82 a year and take home \$250.00 every two weeks. I continue to maintain my office in my home.

Due to inflation, it has been necessary to hold a second job in order to support my family and meet my obligations. Two years ago I had the opportunity to go into the trucking business, again for the benefit of my family. My third son graduated from high school last year and has joined his brothers in the trucking business. I can promise you, the people, that NOW I can be your full time Justice of the Peace. I've struggled for eleven years for a job that is very important to me. Please give me the opportunity to be there for you--"full time".

I also desire to have the most effectively run Justice of the Peace office with the utmost consideration and courtesy to the public while, at the same time, afford the most organized and timely "People's Court" for Red River County. I will call criminal docket weekly, civil and small claims monthly with the exception of Forcible Entry and Detainer, which will be heard 10 days after filing. The Justice Court is the People's Court and again, I intend for the people of Red River County to have the opportunity to utilize this court system in a timely, speedy, efficient manner and to have a court they will be very proud of.

I feel the eleven years of certification in Justice Court training will be a great relief of the taxpayers. Even though the state absorbs a great deal of the expense of Justice of the Peace training and education, the knowledge I have in the penal laws of Texas, Civil Practice and Remedies, Texas Rules of Court, Texas Criminal Procedure and the Code of Judicial Conduct will be a savings for taxpayers by removing them from any civil liabilities. Additionally, I already have the stamps and seals required by law, that bear my name along with checks and other documents required by law, to bear the name of Justice of the Peace.

I also intend to continue to utilize dockets and anything purchased by the other Precinct Justice of the Peace offices as all other elected offices belong to you, the people, and each voting taxpayer should have a voice in how each office is run.

I will always have an open ear and an open mind for any cost saving ideas and suggestions you might have for me.

These savings I've suggested will by no means hinder the efficiency of the office. Organization, an efficient system of checks and balances, being available on a full time basis, speedy trials and utilizing the tools the county has already purchased, will run the office more effectively.

I am prepared to give you, the taxpayer, my boss, 100% of my time and energy. With your vote of support, from my heart, I tell you, I will be your Public Servant.

**Cowboys' Bill Bates
To Be Guest Speaker**

The Dallas Cowboys 11-year veteran Bill Bates is the guest speaker at the Annual Banquet of the Mt. Pleasant/Titus County Chamber of Commerce, Thursday, March 31, 1994. The location is the Titus County Civic Center. Details about ticket sales will be released later.

1993 Chamber President, Larry Burns, Vice President American National Bank, will keynote his year of service. Also on the program will be 1994 President, Gary Brown, owner of Gary Brown Real Estate Appraisals and The Photo Shop.

Graduating from the University of Tennessee in 1983, scouting reports on Bates were all the same: "Good college player, but too small and too slow to play in the N.F.L." On Draft Day 1983 every N.F.L. team passed on the opportunity to draft the future All-Pro Bowl player. Bates and 175 other non-draftees obtained a tryout with the Dallas Cowboys. Although

"little and slow," his sheer intensity and determination caught the eye of Coach Tom Landry. The Cowboys took a chance and signed him to the lowest rookie contract allowed in the N.F.L.

The rest is history! Immediately establishing himself as a "Kamikaze" hitter, he was soon known through the league. In his very first season, Bates was selected as the Special Teams Player of the Year and single-handedly forced the N.F.L. to create a new position in the Pro Bowl for the Special Teams Player.

Bates' enthusiasm and attitude about the game are summed up in his statement: "When I first made the Cowboys' roster, I thought I would be incredibly lucky to play for five years. I've outlasted most of the players in the league. Still when I wake up every morning, I am as excited as I was when I was a rookie."

**Letters
to
The Editor**

Dear Editor:

I am a lover of history and I have a somewhat unusual hobby. I collect old tokens used by stores, barber shops, pool halls, bakeries, saloons, forts, and other businesses years ago. The tokens were "good for" 5 cents, 10 cents, 12 1/2 cents or such in trade for merchandise or whatever. They were usually made of metal, and while having the general appearance of a coin, they were made in all shapes and sizes.

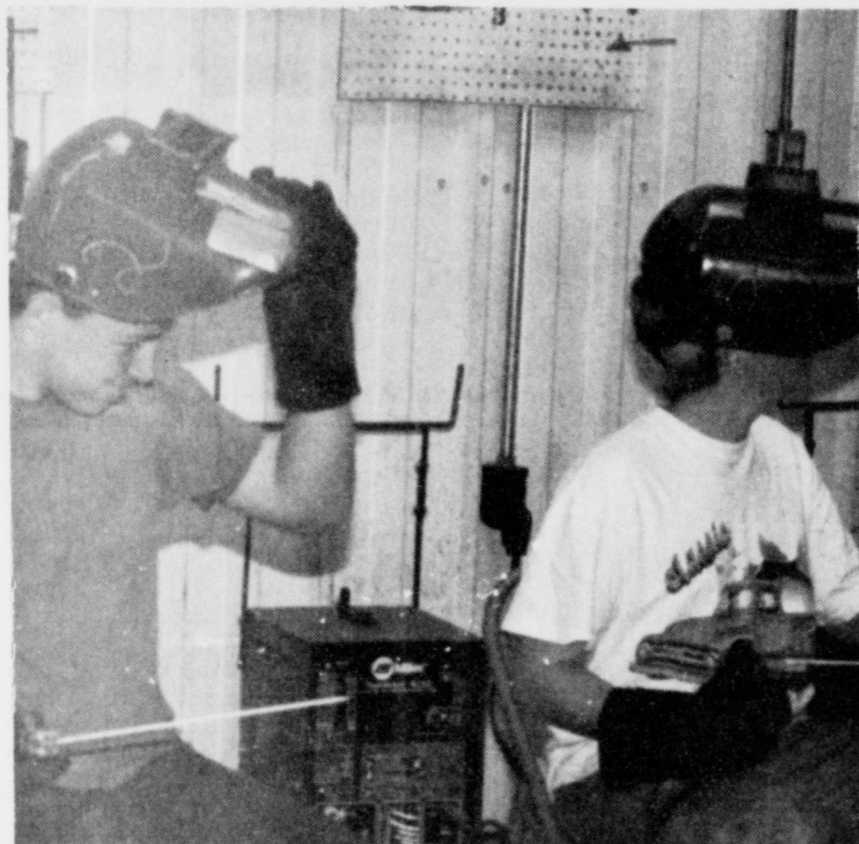

I am hoping that if you have a "Letter to the Editor" section or such in your paper that you might mention my search. I know that this request is relatively unimportant, but as our elderly pass away and the younger members of the family inherit their possessions, tokens and other items are considered junk and thrown out. I do get a great deal of enjoyment from my hobby and I do believe that these concrete reminders of our great heritage are worth preserving.

I have reason to believe that some of these tokens were used in your area and I would be most interested in obtaining some of them for my collection.

I would like to hear from anyone having one or more of these tokens or from anyone that might be able to help me. Any help that you can give me of any kind is greatly appreciated. My address is Travis Roberts, Box 1168, Bellaire, Texas 77402.

Thank you kindly in advance and best wishes.

Women Work Harder

Women work harder than men, at home and at their jobs, according to a new study by two University of California, Santa Barbara sociologists.

Analyzing data from a representative national survey conducted by the University of Michigan, William and Denise Bielby studied 1,515 working men and women and found that women give more time and attention to their jobs than men despite the fact that women also spend more than twice as much time on household tasks.

The Bielbys' study concludes: "For women to work harder than men, despite their greater household responsibilities, they must be able to draw on a reserve of energy that is either not available to the typical male or, more realistically, that men choose not to draw upon."

The first woman elected to the US Senate was Mrs. Hattie Caraway of Arkansas in 1932.

Keeping Healthy

Lose Weight Sensibly

Think nutrition, not calories! Surprisingly, a candy bar may contain the same number of calories as a salad, but the salad contains vitamins, minerals and fiber—not sugar and fats.

Cut every ounce of fat off of meat and remove the skin from your poultry. This will lower your fat and cholesterol intake.

Lightly steam your vegetables instead of boiling them. This helps preserve nutrients and the fiber content. Drink eight glasses of water a day. Many dieters assume that drinking water contributes to water weight, but the opposite is true. The body retains water when it's not getting enough of it. Water contains nutrients and helps wash away impurities.

Supplement your diet with increased activity. End your affair with your car—walk right out!

If a man happens to find himself...he has a mansion which he can inhabit with dignity all the days of his life.
