PASSING THE GOOD WORD ALONG

We find that "advertising pays," but what we say in the Free Press is by no means our most effective method of advertising.

Without doubt, a word of recommendation for the HASKELL NATIONAL from a good friend is worth more than a whole printed page.

Therefore because we do not know whose friend we may be serving, we try to make each and every transaction Courteous and Friendly and Worth While.

If the Haskell National of Haskell delivers the goods we have no fear but that there will be recommendations a-plenty.

Therefore we keep busy trying to deliver the goods.

The Servant that Keeps Going to School

ELECTRICITY, as a servant, keeps on going to school. It is in the constant process of learning how to do new things for you; it is in the constant process of improving its old services.

In that finest of institutions, the home, ELECTRICITY has become the housewife's most efficient, and only uncomplaining aide. It illuminates, it sweeps, it heats, it cooks, it washes clothes, table linen and dishes, it sews and it performs scores of other duties in its silent, all-embracing service.

West Texas women have only begun to realize the possibilities of ELECTRICITY as a servant. We are always ready to cooperate with them in demonstrating how ELECTRICITY can even further its already broad utilization in the home.

Of servants, ELECTRICITY is the best, the cheapest, the most intelligent.

Haskell, Texas, April 6, 1923

Now is the time that everyone should begin to think of beautifying their premises and making them more attractive. The recent rains have given us a bountiful season to plant flowers, seed, and vegetables. We should take advantage of this and plant everything that will grow in the yard and garden. You should take special care of your lawns, rose bushes and hedges. The city is adding a new well to its water supply and all who have city water will doubtless have plenty of water for irrigation. There is no reason why Haskell should not be one of the most attractive cities in West Texas. Let's put a little effort in the work of growing flowers and vegetables this spring.

Post School is located about nine and level spots of Haskell county.

This section of the county is noted for the production of most all farm products and especially for small grain. Post community has the reputation of One Copy. Four Months 50 for rain, which accounts for its productivity.

It is the home of the first prizewinning cattle of not only Texas but of the South. These animals are to be event the biggest thing of its kind ing worked with our girls for the past found on the Hughes Ranch just east of Post school.

This community has as many, if not more, modern up-to-date country homes in it as any rural community in the county. Most of the homes have telephone connections with either Haskell or Stamford.

There are two churches, the Baptist and the Methodist, each having a good strong substantial frame building conveniently located for the people of this community.

There is a test well for oil being drilled now just south of the school house on Colbert's Ranch, one having . been drilled a few years ago, which now produces some gas, but was abandoned on account of salt water.

She made her daily rounds to hose whom she knew needed her, scattering cheer, health and love. Even the movers who camped near her house found a friend, she would bake bread, give a sick child some milk or perhaps offer a paper or magazine. She often collected magazine that had been read and distributed them among the less fortunate, who would have never gotten the joy that a good magazine gives had it not been for her effort.

As a practical nurse she could not be excelled. Her great love and sympathy gave just the touch that the suffering body so much craves. It can be truly said of "Aunt Emma," as the was called, that she "Lived in a house by the side of the road, and was a friend to man." She was so often called in Haskell, "A mother to the

Haskell owes Mrs. English many a debt as a booster and builder. For she was for every move that has been made since an early day to improve and upbuild our town, she was one of the most enthusiastic citizens. Even when she was a heavy tax-payer, she was always anxious for the best. She organized our present Cemetery Society; and the Red Cross, during our late war, did not have a more ardent worker.

Her activity did not cease until her death. She was stricken with paralysis for eighteen months, but her room radiated a joy and sunshine as long as she could smile. Even after she was confined to her bed she planned and directed this wonderful work among the poor.

In summing up her life we would says she was a good mother, a zealous christian and a wonderful friend.

She is survived by one brother,, Mr. Tommy Day and one sister, Mrs. Jim Bryson, both living in California. Her children are: Miss Eugenia English, Albert English and Evelyn English, all living in our midst.
